RELATES TO: KRS 161.220, 161.716, 403.190, 26 U.S.C. 414(p)

(e) Certified by the clerk of the court.

Section 3. Administrative Provisions. (1) Upon entry of a final divorce decree, the participant shall forward a copy of the decree to KTRS and:
(a) If the participant is a retired member, request:

1. A Change of Option Following Termination of Marriage form, if the participant wants to change his or her retirement option, which shall be done within sixty (60) days of the final divorce decree;

2. A Change of Beneficiary form, if the participant has chosen Option I or Option II and does not want to change his or her retirement option, but wants to name a new beneficiary;

3. A Designation of Beneficiary for KTRS Life Insurance Benefit form, if the participant wants to designate a beneficiary other than his or her estate; or

4. A W-4P Withholding Certificate for Pension or Annuity Payments, if the participant wants to change the amount of federal tax withheld from his or her retirement benefit; or

(b) If the participant is an active member, he or she shall request:

1. A Designation of Beneficiary for KTRS Retirement Account Balance form, if the participant wants to designate a beneficiary other than his or her estate; or

2. A Designation of Beneficiary for KTRS Life Insurance Benefit form, if the participant wants to designate a beneficiary other than his or her estate.

(2) Thirty (30) days prior to filing the QDRO with KTRS, the participant or alternate payee shall present a written request for benefits information for divorce purposes. The participant, alternate payee or third party, including the party’s legal counsel, shall provide a completed KTRS Authorization for Release of Information form to KTRS.

(3)(a) For a QDRO directed to an active account from which a participant is not currently receiving a retirement allowance, KTRS shall forward a KTRS Report for Current Year Earnings and Contributions form to the participant’s employer upon receipt of the written request and release.

(b) The employer shall return the completed form to KTRS within ten (10) work days.

(4) If the QDRO is directed to an account from which the participant is not currently receiving a retirement allowance, KTRS shall not project future earnings or future service. KTRS shall provide:

(a) The participant’s total accrued service credit, including service credit purchased during the marriage, and the member account balance, including the total amount of accrued contributions and the participant’s monthly retirement allowance and the total accrued service credit as of the date of dissolution of marriage.

(5) If the participant has retired, KTRS shall provide the amount of the participant’s monthly retirement allowance and the participant’s total accrued service credit, including any service credit purchased during the marriage. The parties, their legal counsel, or the court may use the information to decide what portion of the participant’s account is marital. KTRS shall not decide whether, or if, any portion of the participant’s account is marital and potentially subject to division.

(6) The participant or alternate payee or legal counsel shall submit a Qualified Domestic Relations Order to Divide Kentucky Teachers’ Retirement System Benefits form to KTRS for review forty-five (45) days prior to filing the QDRO with the court. If more than one (1) of participant’s accounts is subject to classification and division as marital property, a separate QDRO shall be issued for each KTRS account.

(7) KTRS shall not review the QDRO unless it is accompanied by the following:

(a) The KTRS Administrative Regulatory Compliance form, which has been approved by both the participant or alternate payee and their legal counsel;

(b) A fifty (50) dollar nonrefundable processing fee, by certified check or on the attorney’s trust account, made payable to the

Kentucky State Treasurer, except that a processing fee shall not be charged for a QDRO issued solely for child support;

(c) The KTRS Confidential Information form, which shall include the participant’s and alternate payee’s address, Social Security number, and date of birth;

(d) Copies of the participant’s and alternate payee’s Social Security cards;

(e) KTRS Authorization for Direct Deposit form; and

(f) Any other documents that are required to confirm additional service credit purchased, or sought to be purchased, for retirement calculation purposes under KRS 161.220 through 161.716, including KTRS Military Service Certification and Affidavit form, with a copy of discharge papers.

(8) Within twenty (20) days of receipt of the QDRO, KTRS shall notify the participant and alternate payee in writing whether the QDRO meets KTRS requirements. If the QDRO meets KTRS requirements, KTRS shall approve the QDRO and circulate an original, signed QDRO for signature by the participant and alternate payee for submission to the court. If the participant or alternate payee is represented by legal counsel, the approved QDRO shall instead be provided to their legal counsel for signature by counsel and submission to the court. KTRS shall forward a W-4P Withholding Certificate for Pension or Annuity Payments form to the alternate payee.

(9) If the QDRO does not meet KTRS requirements, KTRS shall notify the participant and alternate payee in writing, identifying those provisions which are not in compliance and the amendments needed to bring the QDRO into compliance. If the participant or alternate payee is represented by legal counsel, this notice shall instead be provided to their legal counsel. The amended QDRO shall be submitted to KTRS for review and approval prior to filing with the court.

(10) KTRS shall reject any QDRO entered by a court which has not been reviewed or approved by KTRS prior to its submission to the court. KTRS shall notify the participant, the alternate payee, or their legal counsel, and the court in writing, identifying those provisions which are not in compliance and the amendments needed to bring the QDRO into compliance before it shall be accepted by KTRS.

(11) If the QDRO is subsequently amended before filing with the court, the amended QDRO shall be resubmitted to KTRS with a twenty-five (25) dollar nonrefundable processing fee for review and approval.

(12) Following approval by the court, the participant, alternate payee, or legal counsel shall file a certified copy of the QDRO with KTRS.

(a) The QDRO shall not become effective until the certified copy is received by KTRS.

(b) Upon receipt of the certified copy, KTRS shall designate the participant’s account for implementation of the QDRO.

(c) While a separate account balance shall not be maintained for the alternate payee, a separate payroll account shall be established.

(d) Payments to the alternate payee shall commence in the calendar month following the date that a certified copy of the QDRO is received by KTRS, if the alternate payee has supplied a correctly executed W-4P Withholding Certificate for Pension or Annuity Payments form.

(13) If KTRS is enforcing a QDRO which is subsequently amended or terminated by the court, then either the participant, alternate payee, or legal counsel shall submit a certified copy of the amended QDRO or order of termination to KTRS for processing.

(14) The participant, alternate payee, or legal counsel shall not submit a QDRO that is not final and under consideration by an appellate court.

(15) The alternate payee shall be responsible for notifying KTRS of any change in name, mailing address, or banking information.

(a) KTRS shall provide a Name or Change of Address form or Authorization for Direct Deposit form upon request.

(b) KTRS shall contact the alternate payee at the last known mailing address on file to notify the alternate payee when an
annuity benefit subject to the QDRO becomes payable.

(c) Other than sending a notice as established in paragraphs (a) and (b) of this subsection, KTRS shall have no duty or responsibility to search for, or locate, the alternate payee.

(d) If the notification sent to the alternate payee’s last known address is returned due to the alternate payee’s failure to notify KTRS of an address change, within sixty (60) days of the return of the notification to the alternate payee, the amounts otherwise payable to the alternate payee shall be paid to the participant until a new address is provided by the alternate payee.

(e) KTRS shall have no liability to the alternate payee with respect to amounts paid to the participant.

16. The participant shall be responsible for notifying KTRS in writing of an event which causes benefit payments to the alternate payee spouse, child, or other dependent, to cease.

(a) The participant shall provide KTRS with a certified copy of the alternate payee’s death certificate or marriage certificate.

(b) The alternate payee shall also be responsible for notifying KTRS in writing of the alternate payee’s remarriage if, under the terms of the QDRO, that is an event that terminates the alternate payee’s right to receive any payments.

(c) KTRS shall not be responsible for payments made to the alternate payee until it is given timely written notice of any event terminating those payments.

Section 4. A QDRO may apply to a participant’s:

1. Retirement allowance;
2. Disability retirement allowance; or
3. Termination refund.

Section 5. A QDRO shall not apply to a participant’s:

1. Survivor annuity that becomes payable after the member’s death;
2. Survivor benefits that become payable after an active contributing member’s death;
3. Accounts that are not vested at the time of the dissolution of marriage;
4. Life insurance benefit;
5. Refund as a result of an error;
6. Refund of an active or retired account in response to a participant’s death; and
7. Any other payment or benefit not described in Section 4 of this administrative regulation.

Section 6. If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant’s annuity benefits and dies before the participant dies, retires, or withdraws his account, the entire remaining account value shall be restored to the participant.

Section 7. Calculation and payment. (1)(a) If the participant has retired, the portion of the participant’s benefits payable to the alternate payee as a percentage shall be fifty (50) percent of the participant’s total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated[multiplied] by the following fraction:
1. numerator of which shall be the participant’s total full and fractional years of creditable KTRS service earned during the marriage, including service credit purchased during the marriage; and
2. denominator of which shall be the participant’s total full and fractional years of KTRS service credit through the date of retirement[dissolution of the marriage].

(b) The resulting fraction shall be converted to a percentage which shall be divided by two (2).

(2)(a) In the case of an active account, the portion of the participant’s benefits payable to the alternate payee as a percentage of the participant’s total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated[multiplied] by the following fraction:
1. numerator of which shall be the participant’s total full and fractional years of creditable KTRS service earned during the marriage, including service credit purchased during the marriage; and
2. denominator of which shall be the participant’s total full and fractional years of KTRS service credit through the date of retirement[dissolution of the marriage].

(b) The resulting fraction shall be converted to a percentage which shall be divided by two (2).

(3) If the participant is or will be receiving a disability retirement allowance, the participant’s total annuity benefit for purposes of this administrative regulation shall be calculated under the service retirement formula established under KRS 161.661(5), even if the entitlement period described under KRS 161.661(3) and (4) has not expired.

(4) If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant’s disability retirement allowance which is subsequently discontinued, the alternate payee shall not receive a benefit. Further, if a participant remains disabled at the end of his or her entitlement period, pursuant to KRS 161.661(5), the disability benefits shall be recalculated, which may result in a lower monthly payment to both the participant and the alternate payee.

(5) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, the participant’s total annuity benefit shall be calculated without inclusion of the discounts required under KRS 161.620(1)(b) and (d).

(a) If at retirement the participant is subject to discounts required under KRS 161.620(1)(b) and (d), and if the QDRO establishes a set dollar amount to be withheld from the retirement benefits that are payable to the participant and to be paid to the alternate payee, KTRS shall reduce the amount to be paid to the alternate payee under the QDRO by the amount of the discounts.

(b) KTRS shall increase the amount paid to the alternate payee in amount equal to any discounts that are subsequently eliminated as the result of the participant’s return to work after retirement under the provisions of KRS 161.609(11), upon the participant’s resumption of receipt of receipt of retirement benefits.

(6) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, and the participant at issuance of the QDRO is not eligible for calculation of his total annuity benefit based on his three (3) highest salaries as provided under KRS 161.220(9), then his total annuity benefit shall be calculated on his five (5) highest salaries.

(7) The participant may select any retirement option, but payment to the alternate payee shall be measured as though the participant had chosen Option I, Straight Life Annuity with Refundable Balance, under KRS 161.620 and 102 KAR 1:150.

Section 8. Any person who attempts to make KTRS a party to a domestic relations action in order to determine an alternate payee’s right to receive a portion of the annuity benefits payable to the participant shall be liable to KTRS for its costs and legal fees. [Section 9. KTRS and its staff shall have no liability for making or withholding payments in accordance with any of the provisions of this administrative regulation.]

PUBLIC PROTECTION CABINET
Department of Alcoholic Beverage Control
(As Amended at ARRS, May 13, 2014)

804 KAR 9:050. Quota retail drink licenses.

STATUTORY AUTHORITY: KRS 241.060
NECESSITY, FUNCTION, AND CONFORMITY: KRS 241.060(2) authorizes the board to limit the number of licenses of each kind or class to be issued in this state or any political subdivision, and restrict the locations of licensed premises. This administrative regulation establishes quota retail drink licenses in cities that have become wet pursuant to KRS 242.125 separately from their respective counties that remain dry.

Section 1. Establishment of General City Quotas. (1) Except as provided in subsection (2) of this section and Section 4 of this administrative regulation, the number of quota retail drink licenses issued by the department in any city of the Commonwealth which becomes wet separately by virtue of a KRS 242.125 local option election held after January 1, 2013, shall be one (1) for every 2,500 persons resident in the city.

(2) The minimum number of quota retail drink licenses issued by the department in any city shall be two (2) licenses.

(3) A wet fourth class city shall not receive any quota licenses under this section unless a majority of the votes cast in an election held under KRS 242.127 and KRS 242.129 are in favor of the sale of distilled spirits and wine by the drink for consumption on the premises.

(4) The estimates of population for Kentucky cities prepared by the Kentucky State Data Center, Urban Studies Center of the University of Louisville, Louisville, Kentucky, shall be used in determining the number of licenses prescribed by this administrative regulation. The United States Government census figures of population shall be used in a census year.

Section 2. Requests for Specific City Quota. (1) Three (3) or more years after the certification of a wet election pursuant to KRS 242.127 and KRS 242.129 for a fourth class city, the city may file a request to the board seeking a specific city quota to increase the number of quota retail drink licenses for the city.

(2) Before seeking this request, the city shall publish a notice in the newspaper used by the city for legal notices advising the general public of the city's intent to request additional city quota licenses from the board. The city may petition the board for a specific city quota increasing the number of quota retail drink licenses only once every three (3) years from the date of the denial or establishment of a specific city quota.

(3) A city's request to the board for a specific increased quota shall include:

(a) A certified copy of a city's governing body government resolution approving the request;

(b) A certified copy of the notice referenced in subsection (2) of this section; and

(c) An explanation why the city meets the criteria for subsection (2) of this section, including the requested increase is not being met by the current license holders.

(4) Upon receiving a city request satisfying subsection (3) of this section, the board may promulgate, in conformity with KRS Chapter 13A, an amendment to Section 4 of this administrative regulation which sets a higher specific quota for the city.

(5) The specific city quota for quota retail drink licenses set by the board in subsection (4) of this section shall not exceed a ratio of one (1) for every 1,500 persons resident in the city.

(6) This section shall not guarantee that a city will receive the requested specific city quota even if the board promulgates an initial amendment pursuant to subsection (4) of this section. The city shall bear the burden of showing the requested increase is necessary due to a change in circumstances from the previous request and that current needs are not being met by the current license holders.

(7) If the board rejects a request made under this section, the board shall notify the city of its decision by registered mail at the address given in the request. Within thirty (30) days after the date of the mailing of the notice, the city may indicate, in writing, its desire for an administrative hearing before the board regarding its request. The hearing shall be conducted in accordance with the provisions of KRS Chapter 13B.

(8) Following an initial request for an increase under subsection (1) of this section, a city may file an additional request to the board once every three (3) years from the date of the denial or establishment of a specific city quota. The procedures established in subsections (1) through (7) of this section shall be followed.

(9) In conformity with Section 4 of this administrative regulation, the department may publish notice of quota vacancies and issue quota retail drink licenses for the general quota number established by Section 1 of this administrative regulation. A license that holds a quota retail drink license assumes the business risk that the number of quota licenses might be increased.

(10) This section shall not guarantee that a city will receive the requested specific city quota even if the board promulgates an initial amendment pursuant to subsection (4) of this section. The city shall bear the burden of showing the requested increase is necessary due to a change in circumstances from the previous request and that current needs are not being met by the current license holders.

Section 3. Criteria for Consideration. (1) The board shall consider the following information in its determination of a city's request for an increased quota made under Section 2(3) of this administrative regulation:

(a) Population served by the city;

(b) Total retail sales of the city for the most recent past fiscal year;

(c) Retail sales per capita for the most recent past fiscal year.
(d)(4) Total alcohol sales in the city for the most recent fiscal year:
(e)(5) Tourist destinations in the area, if applicable; and
(d)(6) Other economic and commercial data offered to show the city’s capacity to support additional licenses.
(3) The board shall grant the request if the factors considered under subsection (1) of this section justify the requested increase.

Section 4. Establishment of Specific City Quotas. (1) Danville, which repealed prohibition on March 2, 2010, shall have six (6) quota retail drink licenses.

Section 2. (2) Radcliff, which repealed prohibition on October 4, 2011, shall have eight (8) quota retail drink licenses.

Section 3. (3) Somerset, which repealed prohibition on June 26, 2012, shall have five (5) quota retail drink licenses.

Section 4. Murray, which repealed prohibition on July 17, 2012, shall have seven (7) quota retail drink licenses.

Section 5. Quota Vacancies. (1) On or before January 1 of each year, the Department of Alcoholic Beverage Control shall request from the Kentucky State Data Center, Urban Studies Center of the University of Louisville, Louisville, Kentucky, population estimates as of that date for all wet cities located in dry counties.

(2) If a city’s population has increased and the city no longer has one (1) quota retail drink license for every 2,500 persons residing in the city, the Department of Alcoholic Beverage Control shall increase the city’s quota to maintain the 1:2,500 ratio.

(3) If a quota retail drink license vacancy is created under Section 1, 2, or 5(2) of this administrative regulation or it occurs for any other reason, the Department of Alcoholic Beverage Control shall within sixty (60) days arrange for the newspaper used for city legal notices to advertise the vacancy and provide information about applying for it.

(4) The Department of Alcoholic Beverage Control shall accept applications for a quota retail drink license vacancy not later than thirty (30) days following the date on which the public notice required by subsection (3) of this section is published.

(5) A licensee that holds a quota retail drink license shall assume the business risk that the number of quota licenses might be increased.

Section 6. Quota Reductions. (1) This administrative regulation shall not prohibit renewal or approved transfer of an existing quota retail drink license issued in a wet city situated in a dry county.

(2) Except for cities with specific quotas under Section 2 of this administrative regulation, if a city has in existence more than one (1) quota retail drink license for every 2,500 persons residing in the city, the number of licenses shall be reduced as they expire or are surrendered or revoked.

Section 7. No Separate City Quota in Wet County. If a dry county in which a wet city is located becomes wet, the quota established for that entire county by 804 KAR 9:010 shall supersede and replace any separate city quota under this administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Rose Mack

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes size limits, daily creel limits, and possession limits for sport fish that may be taken from Kentucky waters.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to effectively manage the sport fish populations of Kentucky.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the Department to promulgate administrative regulations to establish seasons for the taking of fish and wildlife, to regulate creel limits and methods of take, and to make these requirements apply to a limited area. KRS 150.470 authorizes the department to establish creel and size limits for fish.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the statutes by limiting the number and size of fish that may be taken from Kentucky’s waters. This will ensure that Kentucky’s valuable sport fish populations are maintained at high levels.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment will implement a statewide “no cull” regulation on trout. Currently, culling of trout is prohibited only in the Lake Cumberland tailwater below Wolf Creek Dam. Regulations on alligator gar will change from unlimited harvest to no harvest. Trout in a portion of Hatchery Creek in Russell County will change from size limits found in the Lake Cumberland tailwater to a no harvest and artificial bait only regulation. Size and creel limits on flathead and blue catfish in the...
Ohio River will be changed from no size or creel limit to a 1 fish >35 inches creel limit for each species; numbers allowed under the 35 inch size limit will be unlimited for each species. Size limits on channel catfish in the Ohio River will change from no creel or size limit to a 1 fish >28 inches; numbers allowed under the 28 inch size limit will be unlimited. In a section of Floyd's Fork Creek in Jefferson County from Highway 60 downstream to Bardstown Road, a seasonal catch and release period will be implemented; all trout caught between October 1 and March 31 must immediately be released and only artificial baits shall be used. One lake was added to the special lakes and ponds section (Fishing in the Neighborhoods program).

The necessity of the amendment to this administrative regulation: A no cull regulation was implemented statewide on trout to eliminate the mortality associated with the releasing of trout that were previously being held as part of the daily creel limit. A no harvest regulation was placed on alligator gar to allow this long lived species to reach maturity to allow for the best chance to restore this species in Kentucky. The no harvest and artificial bait only regulation for trout in a portion of Hatchery Creek was implemented to allow adult fish in that portion of the stream to spawn and to create a high quality fishery. Size and creel limits on the three species of catfish in the Ohio River are needed to prevent overharvest of trophy sized fish. A seasonal catch and release period was implemented at Floyd's Fork Creek to increase the quality of the trout fishery in the stream. One lake (Maysville-Mason County Recreation Park Lake) was added to the special lakes and ponds section to increase the fishing opportunity in Mason County.

How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

How the amendment will assist in the effective administration of the statutes; See (1)(d) above.

List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The following individuals will be affected by this amendment: All individuals who fish for trout; those who fish for trout in Floyd’s Fork Creek; those who fish for trout in Hatchery Creek; those who fish for catfish in the Ohio River; and those who choose to fish in Maysville-Mason County Recreation Park Lake.

Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Anglers will need to comply with the changes identified in 2(a).

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost incurred by the anglers identified.

As a result of compliance, what benefits will accrue to the entities identified in question (3): Anglers who fish for trout statewide, at Floyds Fork Creek, at Hatchery Creek, for catfish in the Ohio River, and in the additional special lake will all benefit in the long run from higher quality sport fisheries.

Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no initial cost to implement this administrative regulation.

(b) On a continuing basis: There will be no additional cost on a continuing basis.

What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The funding source for this program is the State Game and Fish Fund.

Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any other fees or to increase funding to implement this administrative regulation.

State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No new fees will be established.

TIERING: Is tiering applied? Tiering was not applied because all individuals fishing in Kentucky are treated equally with these amendments.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Department of Fish and Wildlife Resources Divisions of Fisheries and Law Enforcement will be impacted by this administrative regulation.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 150.025(1) authorizes the Department to promulgate administrative regulations to regulate bag, creel, and possession limits of game and fish. KRS 150.470 authorizes the department to promulgate creel and size limits for fish.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This regulation will not generate direct revenue. It is unknown if this administrative regulation could indirectly increase any fishing license sales during the first year, but it is doubtful.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? There will be no direct revenue generated in subsequent years, and it is doubtful if fishing license sales will be indirectly increased as a result of this amendment.

(c) How much will it cost to administer this program for the first year? There will be no initial cost to implement this administrative regulation for the first year.

(d) How much will it cost to administer this program for subsequent years? There will be no cost in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the aforementioned direct final rule 803 KAR 2:300 must be amended to include the adopted changes. With the June 13, 2013 direct final rule OSHA is updating its references to national consensus standards for signage. OSHA’s rule will update references to the American National Standards Institute (ANSI) standards within the rules for accident prevention signs and tags throughout the regulations. The direct final rule amendments specific to this KAR updates references to signage requirements that are incorporated within the regulations. Additionally, mistakes made when incorporating previous signage consensus standards were corrected in this Federal Register rule. The direct final rule also corrects information provided to the public relaying where the documents may be purchased. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. No additional compliance duties are expected from the revisions to 1910.6.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Because there are no additional compliance duties based on the revision, OSHA does not expect any costs associated with the amendment.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kristi Redmon

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1910. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1910.97 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215. The Kentucky OSH Standards Board adopted the amendment on May 6, 2014. As a result of the adoption of the direct final rule 803 KAR 2:306 must be amended to include the adopted changes. With the June 13, 2013 final rule OSHA is updating its references to national consensus standards for signage. OSHA’s rule will update references to the American National Standards Institute (ANSI) standards within the rules for accident prevention signs and tags throughout the regulation. The direct final rule amendments specific to this KAR updates references to signage requirements that are incorporated within the non-ionizing radiation regulation permitting the employer to follow the old or the new consensus standard. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statute: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.

Public Law 91-596, the Occupational Safety and Health Act of 1970, Section 18; 29 C.F.R. Part 1952; 29 C.F.R. Part 1953

2. State compliance standards. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any
additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment on May 06, 2014.

3. Minimum or uniform standards contained in the federal mandate. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment on May 06, 2014.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Section 3 of this administrative regulation carries requirements which are stricter than those required by OSHA. This administrative regulation requires that audiometric tests and equipment include the 8,000 Hz. frequency, which the federal regulation does not. This provision has been in place since December 15, 1989. This current amendment to the regulation does not impose stricter, additional, or different requirements or responsibilities than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The provision in Section 3 of this administrative regulation which requires that audiometric tests and equipment include the 8,000 Hz. frequency has been in place since December 15, 1989. The purpose for the inclusion of the 8,000 Hz. frequency is to comply with International Standards Organization (ISO) standard 6189-1983, “Acoustics – Pure tone air conduction threshold audiometry for hearing conservation purposes.” This current amendment to the regulation does not impose stricter, additional, or different requirements or responsibilities than those required by the federal standards.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will affect any unit, part, or division of local government covered by KRS 338 and engaged in general industry activities. Identifying state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 338.051, KRS 338.061, Public Law 91-596 84 STAT. 1590, 29 C.F.R. Parts 1952 and 1953.

2. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? None.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the second year? None.

(c) How much will it cost to administer this program for the first year? Because no additional compliance duties are required as a result of the revisions, no costs are associated with the amendment of this regulation.

(d) How much will it cost to administer this program for subsequent years? There are no expected costs associated with the direct final rule updating references to a national consensus standard.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers in general industry to comply with the requirements of 29 C.F.R. 1910. Section 2 also authorizes the OSH to revise the C.F.R. to July 1, 2013 and establishes the amendments to 29 C.F.R. 1910.136 and 137, Appendix B of Subpart P, published in the April 11, 2014 Federal Register, Volume 79, Number 70. The amendments resulting from this final rule were adopted by the OSH Standards Board on May 06, 2014. As a result of the adoption of this final rule, OSHA amendments to 29 C.F.R. 2:308 must be amended to include the adopted changes. With the April 11, 2014 final rule, OSHA is amending the Electric Power Generation, Transmission, and Distribution standard in construction and general industry to make them more consistent. It is also amending the Electrical Protective Equipment standard in construction and general industry. The final rule amendments specify 1910.136 requires employees to use protective footwear that protects the employee from electrical hazards if any electrical hazards remain after the employer takes other necessary protective measures. The reason for the amendments is to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1922 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 7:308, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clearer understanding of the requirements. This amendment promotes worker health and safety throughout Kentucky and keeps the state program as effective as the federal program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment: (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The April 11, 2014 final rule requires changes to the foot protection and electrical protective equipment requirements. Changes to the design, manufacture, and care of electrical PPE in general industry will provide alternative and more effective means of protecting employees from electrical shock than existing OSHA standards. (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Because there are no additional compliance duties based on the revisions, OSHA does not expect any costs associated with these amendments. (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection is likely to result from the promulgation of this amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements.

(5) Provide an estimate of how much it will cost to implement this administrative regulation: (a) Initially: OSHA provides that compliance with the entire April 11, 2014 final rule will have a total annualized cost of $49 million. There will be no costs to implement these specific amendments. (b) On a continuing basis: There will be no costs on a continuing basis to implement these amendments to the administrative regulation. (c) The source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no increase in fees or an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kristi Redmon

1. Provide a brief summary of:

(a) How this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1910. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1910.145 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215. The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the aforementioned direct final rules 803 KAR 2:309 must be amended to include the adopted changes. With the June 13, 2013 direct final rule OSHA is updating its references to national consensus standards for signage. OSHA’s rule will update references to the American National Standards Institute (ANSI) standards within the rules for accident prevention signs and tags throughout the regulations. The direct final rule amendments specific to this KAR updates references to signage requirements that are incorporated within the regulations. This amendment keeps and allows employers to follow the older existing consensus signage standards or permits them to use the newer standard. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. This amendment promotes worker health and safety throughout Kentucky and keep the state program as effective as the federal program.

2. If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Section 2 requires employers to comply with the requirements of 29 C.F.R. 1910. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1910.145 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215. The amendments to the regulation revise references to consensus standards incorporated by reference within OSHA standards to include the updated consensus standard. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.

3. List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

4. Provide an analysis of how the entities identified in question (3) will have to take to comply with this administrative regulation: This amendment changes references to consensus standards incorporated by reference within OSHA’s standards. No additional compliance duties are expected from the revisions to 1910.145.

5. Provide an estimate of how much it will cost to implement this administrative regulation: Initially: There will be no cost to implement this specific amendment.

6. On a continuing basis: There will be no costs on a...
continued basis to implement this amendment to the administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.
   Public Law 91-596, the Occupational Safety and Health Act of 1970, Section 18; 29 C.F.R. Part 1952; 29 C.F.R. Part 1953

2. State compliance standards. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment on May 06, 2014.

3. Minimum or uniform standards contained in the federal mandate. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment on May 06, 2014.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes, Section 3 of this administrative regulation imposes stricter requirement than those required by the federal mandate. This section places employers related to the construction of water closets and the utilization of lockout/tagout procedures. These requirements have been in effect since December 15, 1989. The amendments to the regulation do not impose stricter requirements than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Section 3(1)(a) and (b) of this administrative regulation differs from the federal requirement only insofar as to require that water closets be equipped with a door. Section 3(2)(a) and (b) of this administrative regulation differ from the federal requirement such that an energy isolating device is capable of being locked out, then the employer’s energy control program shall utilize lockout, whereas the federal requirement allows the use of either the lockout or tagout method. Section 3(3)(a) and (b) of this administrative regulation differ from the federal requirement such that a tagout device may be used on an energy isolating device only if the device is incapable of being locked out, whereas the federal requirement allows the use of either the lockout or tagout method. These provisions provide for greater employee protections, and have been in place since December 15, 1989. The amendments to the regulation do not impose stricter requirements than those required by the federal mandate.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Kristi Redmon
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1910.1910. Section 2 also updates the C.F.R. to July 2013, removes reference and requirements related to 1910.220-222, which no longer exists, and establishes the amendment to 29 C.F.R. 1910.217 published in the November 20, 2013 Federal Register, Volume 78, Number 224 and confirmed in the April 18, 2014 Federal Register, Volume 79, Number 75. Section 3 of this regulation requires employers to report information to the Kentucky Labor Cabinet. Section 4 of this administrative regulation carries requirements that are stricter than those required by OSHA. This section clarifies that employers may use a reversing means with the clutch-brake control in the "inch" position. This provision has been in place since December 13, 1996. The Kentucky OSH Standards Board adopted the amendments to the KAR on May 6, 2014. As a result of the adoption of the aforementioned direct final rule 803 KAR 2:314 must be amended to include the adopted changes. With the November 20, 2013 direct final rule OSHA is revising the mechanical power presses standard related to developing and maintaining certification records of periodic inspections performed on power presses and expressly requiring employers to perform maintenance, while removing a previous requirement to develop and maintain records of weekly inspections. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state program as effective as the federal program.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of: (a) How the amendment will change this existing administrative regulation: Section 2 requires employers to comply with the requirements of 29 C.F.R. 1910. Section 2 also updates the C.F.R. to July 2013, removes reference and requirements related to 1910.220-222, which no longer exists, and establishes the amendment to 29 C.F.R. 1910.217 published in the November 20, 2013 Federal Register, Volume 78, Number 224 and confirmed in the April 18, 2014 Federal Register, Volume 79, Number 75. With the November 20, 2013 direct final rule OSHA is revising the mechanical power presses standard related to developing and maintaining certification records of periodic inspections performed on power presses while removing a previous requirement to develop and maintain records of weekly inspections. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, to promote consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.
(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. This amendment promotes worker health and safety throughout Kentucky and keeps the state program as effective as the federal program.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.
(1) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an
amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: This amendment revises the mechanical power presses standard related to developing and maintaining certification records of periodic inspections performed on power presses while removing a previous requirement to develop and maintain records of weekly inspections while keeping records of the maintenance that is required after the weekly inspection. No additional compliance duties are expected from the revisions to 1910.217.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Because there are no additional compliance duties based on the revision, OSHA does not expect any costs associated with the amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection is likely to result from the promulgation of this amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements.

(a) Initially: There will be no cost to implement this specific amendment.

(b) On a continuing basis: There will be no costs on a continuing basis to implement this amendment to the administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

NECESSITY, FUNCTION, AND CONFORMITY: KRS 338.051(3) requires the Kentucky Occupational Safety and Health Standards Board to promulgate occupational safety and health administrative regulations. 29 C.F.R. 1910.301-1910.399 establishes the federal requirements relating to electrical safety. This administrative regulation establishes electrical safety standards to be enforced by the Division of Occupational Safety and Health Compliance in general industry.

Section 1. Definitions. (1) “Assistant Secretary” means Secretary, Labor Cabinet, or Commissioner of the Department of Workplace Standards, Labor Cabinet.
(3) “Employee” is defined by KRS 338.015(2).
(4) “Employer” is defined by KRS 338.015(1).

Section 2. (1) General industry shall comply with the following federal regulations published by the Office of the Federal Register, National Archives and Records Services, General Services Administration, except as modified by the definitions established in Section 1 and the requirements in Section 3 of this administrative regulation:
(a) 29 C.F.R. 1910.301 through 29 C.F.R. 1910.399, and Appendices, revised July 1, 2013; and
(b) The revisions to 29 C.F.R. 1910.331 and 29 C.F.R 1910.399 as published in the April 11, 2014 Federal Register, Volume 79, Number 70. Section 3 of this administrative regulation adds requirements which are worded differently than those required by OSHA. This section sets forth requirements pertaining to the use of tags, instead of locks, for tagging out electrical equipment. The Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of this final rule 803 KAR 2:318 must be amended to include the adopted changes. This April 11, 2014 final rule amends the definition of "line-clearance tree trimming" from 1910.399 and revising 1910.331(c)(1) to include that the definition of "line-clearance tree trimming" can be found in 1910.269(x). Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 2:318, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state program as effective as the federal program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation. Section 2 updates the C.F.R. to July 1, 2013 and establishes the amendments to Subpart S of 29 C.F.R. 1910 published in the April 11, 2014 Federal Register, Volume 79, Number 70. As a result of the adoption of this final rule 803 KAR 2:318 must be amended to include the adopted changes. Remove the definition of "line-clearance tree trimming" from 1910.399 and revise 1910.331(c)(1) to include the definition of "line-clearance tree trimming" in 1910.269(x). This amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of the amendment to this administrative
regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 2:318, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. This amendment promotes worker health and safety throughout Kentucky and keeps the state program as effective as the federal program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Because there are no additional compliance duties based on the revisions, OSHA does not expect any costs associated with these amendments. (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection is likely to result from the promulgation of this amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements. There will be no costs to implement these specific amendments. (b) On a continuing basis: There will be no costs on a continuing basis to implement these amendments to the administrative regulation. (6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding. (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions. (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees. (9) TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.6 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215. The amendments to the regulation revise references to consensus standards incorporated by reference within OSHA standards. Section 2 also establishes the amendments to 29 C.F.R. 1926.6 published in the April 11, 2014 Federal Register, Volume 79, Number 70. The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the aforementioned direct final rules 803 KAR 2:400 must be amended to include the adopted changes. The April 11, 2014 OSHA final rule is removing and reserving outdated references to national consensus standards for electrical PPE. With the June 13, 2013 final rule OSHA is amending references to signature consensus standards to incorporate the most current consensus standards. This revision will allow those required to have signage to follow the "old" version that is currently being enforced or the newest version that is being added to the regulation. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments related to the June 13, 2013 rule did not impose any additional or more stringent requirements on employers than the existing standard. The Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, the amendments to 803 KAR 2:400, related to both final rules were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

The amendments to the regulation revise references to consensus standards incorporated by reference within OSHA standards. (1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers in general industry to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 1, 2013 and establishes the amendments to 29 C.F.R 1926.97 as published in the April 11, 2014 Federal Register, Volume 79, Number 70. The amendments to this standard were adopted by the OSH Standards Board on May 06, 2014. As a result of the adoption of this final rule 803 KAR 2:404 must be amended to include the adopted changes. The April 11, 2014 final rule is amending the Electric Power Generation, Transmission, and Distribution standard in construction and general industry to make them more consistent with one another. OSHA is adopting a new construction standard, 1926.97. The final rule amendments specific to 1926.97 address design requirements for specific types of electrical protective equipment. Types of equipment include rubber insulating blankets, rubber insulating covers, rubber insulating gloves and sleeves. This final rule relies on provisions from the national consensus standards that are performance based. This allows greater flexibility for compliance while accommodating changes in technology. These requirements will apply to all construction. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires the state to implement the provisions of the federal standard and may adopt more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 2:404, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state programs as effective as the federal programs.

Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 2:404, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. This amendment promotes worker health and safety throughout Kentucky and keeps the state program as effective as the federal program.

(e) List the type and number of individuals, businesses, organizations, or governmental entities affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in construction industry activities covered by KRS Chapter 338.

(f) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, included:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Design requirements for specific types of electrical protective equipment in construction will provide a more effective means of protecting employees from electric shock than existing OSHA standards.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No information was available specific to this state.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection is likely to result from the promulgation of this amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements.

(d) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: OSHA provides that compliance with the entire April 11, 2014 final rule will have a total annualized cost of $49 million. No cost estimate was given to implement these specific amendments.

(b) On a continuing basis: No cost estimate was given to implement these amendments to the administrative regulation on a continuing basis.

(c) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kristi Redmon

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal regulation. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.200-202 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215.
The Kentucky OSH Standards Board adopted these amendments on November 14, 2013. As a result of the adoption of the aforementioned direct final rules 803 KAR 2:406 must be amended to include the adopted changes. With the June 13, 2013 direct final rule OSHA is updating its references to national consensus standards for signage. OSHA’s rule will update references to the American National Standards Institute (ANSI) standards within the rules for accident prevention signs and tags throughout the regulations. The direct final rule amendments specific to this KAR update references to signage requirements that are incorporated within the construction signage regulations. This final rule also updates the standard by removing language related to approval for incorporation by just referencing 1926.6. The revision to the standard permits employers to either follow the old consensus standard requirements or they may follow the updated version. Finally, this amendment updates this administrative regulation to reflect KRS Chapter 13A considerations.
(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1926 and 1953 to be at least as effective as OSHA. Since OSHA’s amendment did not impose any additional or more stringent requirements on employers than the existing standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, in order to maintain consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this amendment on May 06, 2014.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state program as effective as the federal program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.200-202 published in the June 13, 2013 Federal Register, Volume 78, Number 114, which was corrected and confirmed in the November 6, 2013 Federal Register, Volume 78, Number 215. The amendments to the regulation revise references to consensus

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires the construction industry to comply with the requirements of 29 Code of Federal Regulations (C.F.R.) 1926.500 through 1926.501(b)(12) and 1926.501(b)(14) through 1926.503, revised July 1, 2013, thus updating the C.F.R. and related Appendices. Section 2 also amends 1926.500 as published in the April 11, 2014 Federal Register, Volume 79, Number 70, Section 3 of the regulation sets forth requirements related to the residential construction industry and fall protection requirements. The Kentucky OSH Standards Board adopted the amendments related to the July 1, 2013 Federal Register on May 6, 2014. As a result of the adoption of the final rule 803 KAR 2:412 must be amended to include the adopted changes. The April 11, 2014 final rule is amending the scope of 1926.500(a)(2)(vi), Fall Protection, to include employees working from aerial lifts or on poles, towers, or similar structures while engaged in the construction of electric transmission or distribution lines or equipment provided in Subpart V. The final rule is also amending 1926.500(a)(3)(iii), by replacing references to personal climbing equipment, lineman’s body belts, safety straps, and lanyards, with “fall arrest and work-positioning equipment” provided in Subpart V of this part. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this amendment to the administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1926 and 1928 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments to 803 KAR 2:412, were adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state program as effective as the federal program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Section 2 requires the construction industry to comply with the requirements of 29 Code of Federal Regulations (C.F.R.) 1926.500 through 1926.501(b)(12) and 1926.501(b)(14) through 1926.503, revised July 1, 2010, thus updating the C.F.R. Section 2 also amends 1926.500 as published in the April 11, 2014 Federal Register, Volume 79, Number 70. The amendments related to the April Federal Register will change the requirements for employees using fall protection while engaged in the construction of electric transmission and distribution lines and equipment in Subpart V. It will also change the requirements for employees using fall arrest

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.1053, published in the April 11, 2014 Federal Register, Volume 79, Number 70. The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the aforementioned final rule 803 KAR 2:423 must be amended to include the adopted changes. With the April 11, 2014 final rule OSHA is revising 1926.1053(b)(12), Ladders, by replacing 1926.951(c)(1) with 1926.955(b) and (c) of this standard. This standard does not require ladders to have nonconductive side rails while being used in conjunction with overhead line work. It simply amends a reference to an exception requirement within the regulation. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. (b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the direct final rule, 803 KAR 2:500 must be amended to include the adopted changes. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kristi Redmon
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.1400 published in the May 29, 2013 Federal Register, Volume 78, Number 103 and the amendments to 1926.1400 published in the April 11, 2014 Federal Register, Volume 79, Number 70. The Kentucky OSH Standards Board adopted these amendments on May 6, 2014. As a result of the adoption of the aforementioned final rules, 803 KAR 2.505 must be amended to include the aforementioned amendments. The April 14, 2014 final rule is amending the scope of 1926.1400, Cranes and Derricks in Construction, for any work covered by Subpart V that is in compliance with 29 C.F.R. 1926.959 is now deemed in compliance with 1926.1407 through 1926.1411. This amendment will require 1926.1400, to reference the Mechanical Equipment standard in construction, instead of the general industry standard in 1910.269. It is also removing and reserving paragraph 1926.1410(d)(4)(iii), Power Line Safety (all voltages)—equipment operations closer than the Table A Zone, and amending paragraphs 1926.1410(c)(2) and 1926.1410(d)(4)(iii). This amendment requires the employer to use the approach distances found in 1926.960(c)(1)(i) instead of the clearance distances found in table V-1 in 1926.950. The amended 1926.1410(d)(4)(i) standard requires the requirements of 1926.1410(d)(4)(i) to comply with any part of Subpart V. With the May 29, 2013 final rule, OSHA is broadening the exemption for derricks in the construction standard for cranes and derricks. The final rule amendment specific to this KAR requires excludes compliance with Subpart CC of the regulation if the requirements of 1910.268 are followed when using a derrick for specified purposes. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1922 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. This amendment related to the May 29, 2013 rule did not impose any additional or more stringent requirements on employers than the existing standard. The Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, the amendments to 803 KAR 2.505, related to both final rules were all adopted by the Kentucky OSH Standards Board on May 08, 2014.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote worker health and safety throughout Kentucky and keep the state program as effective as the federal program.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926. Section 2 also updates the C.F.R. to July 2013 and establishes the amendments to 29 C.F.R. 1926.1400 published in the May 29, 2013 Federal Register, Volume 78, Number 103 and the amendments to 1926.1400 and 1926.1410 published in the April 11, 2014 Federal Register, Volume 79, Number 70. The amendments to the regulation related to the May Federal Register broaden the exemption requirements related to the use of derricks. The amendments related to the April Federal Register will require 1926.1410, to reference the Mechanical Equipment standard in construction, instead of the general industry standard in 1910.269. It also removes the requirements of 1926.1410(d)(4)(i) to comply with any part of Subpart V, and removes and reserves two other amendments. This amendment also updates the administrative regulation to meet KRS Chapter 13A considerations.
(b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments related to the May 29, 2013 final rule did not impose any additional or more stringent requirements on
employers than the existing standard. The Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, the amendments to 803 KAR 2:505, related to both final rules, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. This amendment promotes worker health and safety throughout Kentucky and keeps the state program as effective as the federal program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in construction industry activities covered by KRS Chapter 338.

(4) Provide an analysis of how the entities identified in question (3) will be affected by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No additional compliance duties are expected from the revisions to 1926.1400 as set forth in the May 29, 2013 final rule. The Federal Register will not impact business. Changing the clearance distances to approach distances found in table V-2 and V-7 of 1926.960 while working near exposed live parts will provide a more effective means of protecting employees from electric shock than existing OSHA standards.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The April 11, 2014 final rule will have a total annualized cost of $49 million. No information was available specific to this state. There are no costs associated with the May 29, 2013 final rule broadening the exemption for digger derricks.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection is likely to result from the promulgation of this amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There will be no cost to implement this specific amendment.

(b) On a continuing basis: There will be no costs on a continuing basis to implement this amendment to the administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.

Public Law 91-596, the Occupational Safety and Health Act of 1970, Section 18; 29 C.F.R. Part 1952; 29 C.F.R. Part 1953

2. State compliance standards. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments related to the May 29, 2013 direct final rule did not impose any additional or more stringent requirements on employers than the existing standard. The Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, the amendments to 803 KAR 2:505, related to both final rules, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

3. Minimum or uniform standards contained in the federal mandate. The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the April 11, 2014 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements by October 11, 2014. The amendments related to the May 29, 2013 direct final rule did not impose any additional or more stringent requirements on employers than the existing standard. The Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, the amendments to 803 KAR 2:505, related to both final rules, were all adopted by the Kentucky OSH Standards Board on May 06, 2014.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Section 3 of this administrative regulation does impose stricter, additional, or different requirements than those required by the federal standards in that it requires safety fall protection at ten (10) feet rather than fifteen (15) feet, thus making for safer working conditions for Kentucky workers. This state-specific amendment has been enforced since October 7, 2011. The amendments to the regulation do not impose stricter requirements than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Section 3 of this administrative regulation does impose stricter, additional, or different requirements or responsibilities than those required by the federal standards in that it requires safety fall protection at ten (10) feet rather than fifteen (15) feet, thus making for safer working conditions for Kentucky workers. This state-specific amendment has been enforced since October 7, 2011. The amendments to the regulation do not impose stricter requirements than those required by the federal mandate.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Paula Goff

(1) Provide a brief summary of 902 KAR 30:120:
(a) What this administrative regulation does: This administrative regulation establishes a child’s initial eligibility and the annual redetermination of eligibility for the Kentucky Early Intervention System. The requirements for child evaluation are included in this regulation.

(b) The necessity of this administrative regulation: States must establish the specific detail for eligibility to receive early intervention services while federal statute and regulation describe the mandatory populations of infants and toddlers to be served under Part C of the Individuals with Disabilities Education Improvement Act (PL 108-446), states set the specific procedures and criteria for eligibility.

(c) How this administrative regulation conforms to the content of the authorizing statute: KRS 200.650-200.676 requires the state to develop and implement a comprehensive, statewide early intervention system that complies with federal statute and regulation. KRS 200.652 (2) specifically requires the state to provide assistance and support to the family of an infant or toddler with a disability.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation will ensure that children who are eligible for early intervention services are appropriately identified. It also provides for the requirement for continued eligibility requirements to establish a child’s eligibility determination process, including the evaluation and assessment of the child. The listing of eligible medical conditions is updated.

(e) The necessity of the amendment to this administrative regulation: The amendments are necessary to reduce costs for unnecessary evaluations and assessments and to specify procedures for federal requirements for reporting the entry and exit status of all children served by Part C of Pub.L. 108-446 (Federal requirement is found at 34 C.F.R. 303.721).

(f) How the amendment conforms to the content of the authorizing statute: KRS 200.650(6) and KRS 200.652(3) require a statewide system, comprehensive early intervention system that is in compliance with federal statute and regulation.

(g) How the amendment will assist in the effective administration of the statute: The changes to the eligibility determination process will allow the state regulations to align with federal regulations.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by the administrative regulation: Approximately 200 intervention providers, including Point of Entry staff, will be affected by these regulations. Over 6,000 eligible children and their families will be affected by the service changes related to the regulations. No state or local governments are affected by the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The early intervention providers, including service coordinators, will need to learn and implement the amended requirements. Families currently receiving early intervention services will need to understand how the system operates so that they are informed consumers.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The Kentucky Early Intervention System currently costs approximately $40 million. The revisions to this administrative regulation will not cost the affected entities any additional dollars. Changes to evaluation and assessment represent an elimination of unnecessary and duplicative testing, resulting in efficiencies to the system as a whole.

(c) As a result of the compliance, what benefits will accrue to the entities identified in question (3): The amended regulations will benefit early intervention providers, including service coordinator by providing needed clarity so that they are more effective in their roles within the system. Families will benefit by not undergoing unnecessary and duplicative testing and will be more informed consumers of the public services.

(5) Provide an estimate of how much it will cost to implement this regulation:

(a) Initially: No new costs are incurred in implementing this regulation.

(b) On a continuing basis: No new costs are incurred in implementing this regulation.

(6) What is the source of the funding that will be used for the implementation and enforcement of the administrative regulation: Federal funds (twelve (12) percent) and eighty-eight (88) percent state general funds will be used to implement this administrative regulation. No state match is required.

(7) Provide an assessment of whether an increase in fees of funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary to implement this administrative regulation or its amendments.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: There is no direct or indirect increase in fees.

(9) TIERING: Is tiering applied? Tiering is not applied because First Steps regulations apply consistently across all children and families participating in the First Steps program as well as all providers participating in the First Steps program.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 34 C.F.R. 303.310 through 303.322 outlines the states responsibilities in indentifying, evaluating and assessing children potentially eligible to receive early intervention services. This amendment ensures full compliance with the provisions under that part.

2. State compliance standards.KRS 200.650 charges the Cabinet for Health and Family Services, Department for Public Health to comply with all federal statutes and regulations.

3. Minimum or uniform standards contained in the federal mandate. By revising this administrative regulation to differentiate the process for initial eligibility (and the redetermination of eligibility) Kentucky has streamlined the evaluation and assessment process.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This amendment does not impose stricter than federal requirements.

The Administrative Regulation Review Subcommittee met on Tuesday, May 13, 2014, and submits this report:

The Subcommittee determined that the following administrative regulation did not comply with statutory requirements and was deficient:

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Medicaid Services: Medicaid Services
907 KAR 1:604 & E. Recipient cost-sharing. Lawrence Kissner, commissioner, and Stuart Owen, regulation coordinator, represented the department. Nancy Galvagni, senior vice president, and Sarah Nicholson, vice president, represented the Kentucky Hospital Association and appeared in opposition to this administrative regulation.

Ms. Galvagni stated that the Kentucky Hospital Association was opposed to this administrative regulation because of provisions for an eight (8) dollar copay for nonemergency use of an emergency room. The copay itself was not the issue. The cabinet had federal approval regarding the state plan to determine what constituted nonemergency use of an emergency room; however, two managed care organizations (MCOs) were using different standards to determine nonemergency use. Coventry and WellCare, in policies developed subsequent to contracts between the MCOs and the providing hospitals, established criteria that differed from that approved for Kentucky by the federal agency.

Ms. Galvagni stated that the appropriate party to determine if use of an emergency room was for nonemergency reasons would be hospital medical personnel, as established in the federal approval of the cabinet’s determination criteria. The determination criteria established by Coventry and WellCare were not part of any negotiated policies with the providing hospitals. The hospitals had not agreed to and were opposed to these policies. Ms. Galvagni requested that the eight (8) dollar copay requirements be removed from this administrative regulation until the related issues were resolved. If the cabinet declined to amend this administrative regulation to remove the copay, Ms. Galvagni requested that the Subcommittee find this administrative regulation deficient.

In response to a question by Senator Clark, Ms. Galvagni stated that the copay was being increased from six (6) to eight (8) dollars, which was a difference of two (2) dollars. The issue however was with the independent policies established by Coventry and WellCare MCOs.

In response to a question by Representative Damron, Ms. Galvagni stated that Kentucky had five (5) Medicaid MCOs. Three (3) of the five (5) seemed to be following federally approved guidelines regarding determination of nonemergency room use; however, Coventry and WellCare did not seem to be complying with those standards.

In response to a question by Co-Chair Harris, Mr. Kissner stated that the cabinet could not agree to remove the copay because of financial imbalances that would result.

In response to a question by Senator Kerr, Subcommittee staff stated that there were representatives of the MCOs present at the Subcommittee meeting.

In response to a question by Senator Clark, Mr. Kissner stated that the cabinet did not have authority regarding MCO compliance with contracts between the MCOs and the providing hospitals.

In response to questions by Co-Chair Bell, Mr. Kissner stated that the decision regarding if an emergency room visit is an actual emergency was made by the patient’s attending physician. Thecco hospital, Mr. Kissner stated that the cabinet could not agree to remove the copay, Ms. Galvagni requested that the Subcommittee find this administrative regulation deficient.

In response to questions by Co-Chair Bell, Mr. Kissner stated that the cabinet declined to defer this administrative regulation to remove the copay, Ms. Galvagni requested that the Subcommittee find this administrative regulation deficient.

In response to a question by Senator Clark, Ms. Galvagni stated that the cabinet did not have authority regarding MCO compliance with contracts between the MCOs and the providing hospitals.

In response to questions by Co-Chair Bell, Mr. Kissner stated that the cabinet declined to defer this administrative regulation to remove the copay, Ms. Galvagni requested that the Subcommittee find this administrative regulation deficient.
to amend Section 2 to: (a) establish the copayment amount for services at a federally qualified health center look-alike; and (b) specify that the full amount of the established copayment shall be deducted from the provider reimbursement. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 3:090. Administrative fees for applications and services.
In response to a question by Co-Chair Harris, Mr. Van Zant stated that the filing fee was being increased to meet the board’s budget needs because new requirements increased expenses while a twelve (12) percent reduction in the number of licensees and the elimination of the principal examination and its fee decreased income. The fee had not been increased since 2003.
A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO; STATUTORY AUTHORITY; and NECESSITY, FUNCTION, AND CONFORMITY paragraphs to add statutory citations; (2) to amend Section 1 to: (a) establish the $125 examination fee for each new applicant with the board; and (b) delete the payment of an additional late fee after the six (6) month grace period; (3) to amend Section 4 to require a licensee to pay the renewal recovery fee of thirty (30) dollars to reactivate a license placed in escrow; and (4) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Sections 1, 2, 4, and 6 to comply with the drafting requirements of KRS Chapter 13A. Board of Barbering: Board
201 KAR 14:090. School curriculum. Sonja Minch, administrator, and Francis Simpson, chair, represented the board.
In response to questions by Co-Chair Harris, Ms. Minch stated that the one (1) hour per day lecture and demonstration requirement has been an on-going requirement; however, in the previous amendment to this administrative regulation, the requirement was inadvertently deleted. A total of 1,500 total hours was required for licensure.
A motion was made and seconded to approve the following amendments: to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Section 1 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

301 KAR 2:132. Elk depredation permits, landowner cooperator permits, and quota hunts. Karen Waldrop, wildlife division director, and David Wicker, general counsel, represented the department.
In response to a question by Senator Clark, Ms. Waldrop stated that provisions related to elk depredation were for homeowners who had experienced property damage due to elk.
In response to questions by Co-Chair Harris, Ms. Waldrop stated that elk were present in the sixteen (16) counties that constituted the Elk Restoration Zone, and elk had not strayed much from those counties. A hunter who found an elk outside of the Elk Restoration Zone may take the elk if the hunter has a deer permit. Initially, approximately 1,500 elk were brought into the Elk Restoration Zone, and today there were approximately 10,000 elk.
A motion was made and seconded to approve the following amendment: to amend Section 5 to clarify subsection (14). Without objection, and with agreement of the agency, the amendment was approved.
JUSTICE AND PUBLIC SAFETY CABINET: Department of State Police: Driver Testing Branch: Breath Analysis Operators

500 KAR 8:030. Administration of breath alcohol tests and chemical analysis tests. Morgain Sprague, counsel, represented the department.

This admonition, they stated, clarified that a letter shall suffice as the annual submittal in odd-numbered years if there were not significant changes, such as changes in qualified personnel.

Department of Vehicle Regulation: Division of Motor Carriers: Motor Carriers

601 KAR 1:230. Education and safety training for motor carrier operators.

A motion was made and seconded to approve the following amendments: (1) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Sections 1, 2, and 4 to comply with the drafting requirements of KRS Chapter 13A; and (2) to amend Section 6 to revise the application form incorporated by reference. Without objection, and with agreement of the agency, the amendments were approved.

LABOR CABINET: Kentucky Occupational Safety and Health Review Commission: Commission

803 KAR 50:010. Hearings; Procedure, Disposition. Fred Huggins, attorney, and Eddie Jacobs, executive director, represented the commission.

In response to questions by Senator Clark, Mr. Huggins stated that a non-person entity that was unable to afford or for another reason retain a licensed attorney typically did not appear at hearings; therefore, the matter would result in default of the entity.

Representative Damron stated that the General Assembly had experienced similar problems pertaining to the autonomy of the Judicial Branch. For example, Frankfort’s former Home Depot building had been obtained and remodeled without authority of the General Assembly and with independent, unaccounted for funds of the branch. The Judicial Branch lacked adequate auditing standards, and the State Auditor did not have constitutional authority to investigate the financial matters of the branch. The requirement to hire a licensed attorney seemed inappropriate.

In response to a question by Co-Chair Bell, Mr. Huggins stated that the language was added back into this administrative regulation after ethics opinion. Case law focused exclusively on the idea that a nonattorney shall not practice law.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph to include additional relevant citations; (2) to amend Section 2 to delete requirements that repeated statutory provisions; (3) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Sections 9, 13, 26, 28, 29, 33, 45, and 51 to include cross-references and make other changes for clarity; and (4) to amend Sections 1, 3, 4, 6 through 11, 13 through 18, 20, 21, 22, 26 through 32, 35 through 37, 39, 40, 42, and 44 through 59 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

PUBLIC PROTECTION CABINET: Department of Alcoholic Beverage Control: Advertising Distilled Spirits and Wine

804 KAR 1:051. Repeal of 804 KAR 1:050. Trey Hiememan, legislative liaison, represented the department.

Quotas

804 KAR 9:050. Quota retail drink licenses.

In response to a question by Co-Chair Harris, Mr. Hiememan stated that this was not a new ratio and was intended to create parity with the administrative regulation governing quota licenses by the drink.

A motion was made and seconded to approve the following amendments: (1) to amend Section 2 to clarify this administrative regulation’s applicability to cities that have already been given quotas; (2) to amend Section 3 to establish the standard the board shall use to determine if a city shall receive an increased quota; (3) to add new Sections 5 and 6 to establish procedures for quota vacancies and reductions; (4) to add a new Section 7 to establish that if a dry county with a wet city becomes wet, the quota for the county shall supersede the city quota; and (5) to amend Sections 1, 2, and 3 to reorganize provisions and comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Medicaid Services: Medicaid Services

In response to a statement by Senator Gregory, Mr. Owen stated that all of these administrative regulations were not mandated by the Affordable Care Act, but all related to the expansion of Medicaid.

A motion was made by Senator Gregory and seconded by Representative Turner to find these administrative regulations deficient due to lack of statutory authority. A roll call vote was conducted, and, with four (4) votes to find these administrative regulations deficient, one (1) pass vote, two (2) votes against a finding of deficiency, and one (1) member absent, the motion failed. A majority vote of at least five (5) votes for a finding of deficiency is required for the motion to pass.

Representative Damron stated that he voted against finding these administrative regulations deficient because there were many good things in these administrative regulations, including provisions for substance abuse treatment and eye care.

A motion was made and seconded to approve the following amendments: (1) to amend Sections 1 through 5, 7, 8, 9, 13, 14, 15, and 17 to comply with the drafting and formatting requirements of KRS Chapter 13A; (2) to amend Section 3 to delete from the list of drugs excluded from coverage a barbiturate or a benzodiazepine; and (3) to amend Section 17 and the forms incorporated by reference to update the forms required to request prior authorization for drugs. Department for Behavioral Health, Developmental and Intellectual Disabilities: Division for Behavioral Health: Mental Health

908 KAR 2:240 & E. Kentucky Youth Peer Support Specialist.

Mary Begley, commissioner; Ijeoma Enegie, regulation coordinator; Beth Jordan, branch manager; Vestena Robbins, policy advisor; Kara Fresh, program administrator; and Natalie Kelly, division director, represented the cabinet.

In response to a question by Representative Damron, Ms. Begley stated that provider groups were in support of these administrative regulations.

In response to a question by Senator Gregory, Ms. Begley stated that these administrative regulations, both of which were new administrative regulations, were the result of Medicaid expansion pursuant to the Affordable Care Act.

A motion was made by Senator Gregory and seconded by Representative Turner to find these administrative regulations deficient due to lack of statutory authority. A roll call vote was conducted, and, with four (4) votes to find these administrative regulations deficient, three (3) votes against a finding of deficiency, and one (1) member absent, the motion failed. A majority vote of at least five (5) votes for a finding of deficiency is required for the motion to pass.

Representative Damron stated that he voted against finding these administrative regulations deficient because they established standards for the Kentucky Youth Peer Support program. Without these administrative regulations, the program would be without protocol.

A motion was made and seconded to approve the following amendments: (1) to amend Section 7 to: (a) insert a new list of professionals that can serve as a KYPS specialist; and (b) require a written record of supervision; (2) to amend the RELATES TO and NECESSITY, FUNCTION, AND CONFORMITY paragraphs to add statutory citations; (3) to amend Section 1 to add a definition for “child-serving agency”; (4) to amend Section 3 to establish standards for the department to approve the required training courses; (5) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Sections 1 through 8 to clarify various provisions; (6) to amend and apply with the requirements of this administrative regulation; and (7) to amend Sections 1, 3, 6, and 7 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

OTHER BUSINESS:

ENERGY AND ENVIRONMENT CABINET: Department for Environmental Protection: Division of Water

401 KAR 10:031. Surface water standards. Peter Goodmann, executive director; Randall Payne, environmental scientist III; and Bruce Scott, commissioner, represented the division. Ted Withrow, Kentuckians for the Commonwealth, appeared in opposition to this administrative regulation.

In response to questions by Representative Turner, Mr. Scott stated that the division became aware of the December 27, 2013 letter from Virgil Lee Andrews, Jr., field office supervisor, U.S. Fish and Wildlife, to Andy Godfrey, chief, Water Quality Standards Section, U.S. Environmental Protection Agency (EPA), in February 2014. The letter addressed an issue of consultation between U.S. Fish and Wildlife and U.S. EPA. The issue concerned the selenium standard established in 401 KAR 10:031. The main concern by U.S. Fish and Wildlife was the division’s lack of peer review regarding the studies used to support the selenium standard. The division was not a direct party to the letter. U.S. EPA had approved the standard and disagreed with concerns expressed by U.S. Fish and Wildlife. U.S. EPA was drafting a response letter to U.S. Fish and Wildlife and was working on a national fish-tissue based selenium standard, which would probably differ from Kentucky’s standard because it would be a national standard. U.S. EPA approved the Kentucky standard after considering U.S. Fish and Wildlife’s concerns regarding threatened and endangered species. There was also on-going litigation regarding U.S. EPA’s approval of the standard and a second notice of intent to litigate on the same issue. The standard was comparable or more stringent than many other states, and the division believed it to be a protective standard. Analytical methods were the same from state to state because they were based on federally approved methods. The division considered U.S. EPA’s approval to be a form of peer review and the matter had been fully addressed at the federal level.

The standard was determined based on science, not politics, and the division believed that more selenium impairments would be identified with this standard and method than the previous method. Numerous studies were listed from the past twenty (20) years to support that selenium was not a significant problem in Kentucky waterways.

Representative Turner thanked the agency for appearing and stated that the General Assembly had the authority to establish the standard through the legislative process and that he looked forward to more studies and information from the division regarding selenium.

Mr. Withrow stated that he was formerly employed by the Division of Water, and that this administrative regulation was insufficient to prevent selenium contamination. Outstanding State Resource Waters were rare, and there were only approximately 100 miles of waters in that classification. The public meetings conducted regarding this administrative regulation were really private meetings by invitation of the division. U.S. EPA was one (1) step in the process but did not constitute full peer review. The scientific studies used to support the standard were “cherry picked.” Outfields were not previously monitored. The technical method was difficult and expensive for the agency to sufficiently monitor, and because of the method’s difficulty and expense
watchdog oversight would not be feasible. This administrative regulation was a gift to the coal industry.

Senator Kerr requested that Subcommittee members be provided with more information about the Subcommittee’s duties, powers, and history, especially the reason for the creation of this Subcommittee. She stated that there was a pattern of a lack of respect toward the Subcommittee by those submitting testimony from the Executive Branch.

In response to questions by Senator Kerr, Subcommittee staff stated that some matters may be established or amended through legislation, but that the Subcommittee had limits based on case law, especially LRC v. Brown and Patton v. Sherman. Subcommittee staff stated that information would be personally provided to Senator Kerr about the Subcommittee’s duties, powers, and history.

The following administrative regulations were deferred to the June 10, 2014, meeting of the Subcommittee:

**GENERAL GOVERNMENT CABINET:** Board of Barbing:
- Board 201 KAR 14:085. Sanitation requirements.

**Board of Nursing:** Board
- 201 KAR 20:360. Evaluation of prelicensure registered nurse and practical nurse programs.

**Board of Physical Therapy:** Board

**Board of Licensure for Professional Art Therapists:** Board
- 201 KAR 34:060. Qualifying experience under supervision.

**JUSTICE AND PUBLIC SAFETY CABINET:** Department of Corrections: Office of the Secretary
- 501 KAR 6:020. Corrections policies and procedures. Amy Barker, assistant general counsel, represented the department.

In response to questions by Co-Chair Bell, Ms. Barker stated that this administrative regulation provided for an extension of time to address an inmate grievance if necessary to adequately investigate. The term “contraband” was amended to create parity for the term across the program. The term “cross-gender search” was amended to insert a word that was inadvertently missing. The term “exigent circumstances” changed “facility” to “institution.” A waiver was required of media in case of injury because it was impossible to 100 percent guarantee safety.

In response to a question by Co-Chair Harris, Ms. Barker stated that the intent of this administrative regulation was not to limit media access but to establish security measures pertaining to media situations. Ms. Barker agreed to defer consideration of this administrative regulation, as amended, to the June 10 Subcommittee meeting.

A motion was made and seconded to approve the following amendments: (1) to amend CPP 1.2, News Media, to: (a) establish the conditions under which an interview request may be denied; and (b) clarify identification requirements; (2) to amend CPP 9.8, Search Policy, to clarify definitions for contraband, cross-gender searches, and exigent circumstances; and (3) to amend Section 1 to change the edition dates for those revised policies. Without objection, and with agreement of the agency, the amendments were approved.

**TRANSPORTATION CABINET:** Department of Highways:
- Division of Maintenance: Billboards
  - 603 KAR 10:001. Definitions.
  - 603 KAR 10:010. Static advertising devices.

Technical Amendment Index

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2013 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2013 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published to show the technical corrections in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.
