6. "Individually identifiable health information" as defined by 45 C.F.R. 160.103, except for education records covered by the Family Educational Rights and Privacy Act, as amended, 20 U.S.C. 1232g; or

(b) To redact the paper, the filing party shall replace the identifiers with neutral placeholders or cover the identifiers with an indelible mark that so obscures the identifiers that the identifiers cannot be read.

(c) The responsibility to review for compliance with this section and redact a paper shall rest with the party that files the paper.

(11) Intervention and parties.

(a) A person who wishes to become a party to a case before the commission may, by timely motion, request leave to intervene.

(b) The commission shall grant a person leave to intervene if the commission finds that he or she has made a timely motion for intervention and that he or she has a special interest in the case that is not otherwise adequately represented or that his or her intervention is likely to present issues or develop facts that will assist the commission in fully considering the matter without unduly complicating or disrupting the proceedings.

(c) Unless electronic filing procedures established in Section 8 of this administrative regulation are used in the case, a party shall serve a person granted leave to intervene with all papers submitted prior to the issuance of that order unless the commission otherwise orders.

(d) Unless the commission finds good cause to order otherwise, a person granted leave to intervene in a case shall, as a condition of his or her intervention, be subject to the procedural schedule in existence in that case when the order granting the person's intervention is issued.

(e) A person who the commission has not granted leave to intervene in a case may file written comments regarding the subject matter of the case.

1. These comments shall be filed in the case record.
2. A person filing written comments shall not be deemed a party to the proceeding and need not be named as a party to an appeal.

(12) Requests for information.

(a) If permitted by administrative regulation or by order of the commission, a party may in accordance with this section request information from another party to the case. The requesting party shall serve its request upon the party from which it seeks the requested information and shall also file its request with the commission.

(b) Commission staff, through the commission's executive director, may request information from any party to a case on the
commission's behalf.

(c) Unless otherwise established in administrative regulation, the commission shall establish by order in a case the time for parties to issue and to respond to requests for information.

(d) Responses to requests for information.

1. Responses to requests for information shall be appropriately bound, tabbed, and indexed.

2. Each response shall:
   a. Include the name of the witness responsible for responding to the questions related to the information provided; and
   b. Be answered under oath or, for representatives of a public or private corporation, a partnership, an association, or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the person that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

3. If the requested information has previously been provided in the case, a responding party may, in lieu of providing the requested information, provide a reference to the specific location of the requested information in the case record.

4. A responding party shall make timely amendment to its prior response if the party obtains information that indicates that the response was incorrect when made or, though correct when made, is subsequently incorrect in any material respect.

5. If a party served with a request for information fails or refuses to furnish all or part of the requested information, the party shall provide a written explanation of the specific grounds for the failure to completely and precisely respond.

6. The responding party shall file with the commission the party's response to a request for information and shall serve it upon all parties to a case.

(e) A party shall compel compliance with the party's request for information by motion to the commission, which shall include:

1. A description of the information requested;
2. The reasons why it is relevant to the issues in the case; and
3. The efforts taken to resolve any disagreement over the production of the requested information.

(13) Each report, specification, drawing, and plan that a professional engineer or professional land surveyor prepared and that is filed with the commission shall contain the seal or stamp and signature of that professional engineer or land surveyor in accordance with KRS 322.340.

(14) Consolidation of cases.

(a) The commission may order two (2) or more proceedings involving a similar question of law or fact to be consolidated if rights of the parties or the public interest will not be prejudiced.

(b) Upon ordering the consolidation of cases, the commission shall specify into which case the other case shall be consolidated.

(c) All papers received after the order of consolidation has been issued shall be filed in the record of the designated case.

(d) Papers filed prior to the order of consolidation shall remain in their respective case files.

Section 5. Motion Practice. (1) All requests for relief that are not required to be made in an application, petition, or written request shall be by motion. A motion shall state precisely the relief requested.

(2) Unless the commission orders otherwise, a party to a case shall file a response to a motion no later than seven (7) days from the date of filing of a motion.

(3) Unless the commission orders otherwise, a party shall file a reply no later than five (5) days of the filing of the most recent response to the party's motion. The reply shall be confined to points raised in the responses to which they are addressed, and shall not reiterate an argument already presented.

Section 6. Proof of Service. (1) Except as provided in Section 8 of this administrative regulation, all papers filed in a case shall contain proof of the date and manner of service of the papers on all parties.

(2) Proof shall be made by certificate of the filer's attorney, by affidavit of the person who served the papers, or by a comparable proof.

(3) The certificate or affidavit shall identify by name the person served and the date and method of service.

(4) Proof of electronic service shall state the electronic notification address of the person served.

Section 7. Filing Procedures. (1) Unless the commission orders otherwise or the electronic filing procedures established in Section 8 of this administrative regulation are used, if a paper is filed with the commission, an original unbound and ten (10) additional copies in paper medium shall be filed.

(2) Each paper filed with the commission shall conform to the requirements established in this subsection.

(a) Form. Each filing shall be printed or typewritten, double spaced, and on one (1) side of the page only.

The Department for Medicaid Services (DMS) is repealing the aforementioned administrative regulations as they contain archaic and duplicative provisions that are being addressed in six (6) new administrative regulations being promulgated in conjunction with this repealer administrative regulation. The new administrative regulations are 907 KAR 15:040E, Coverage provisions and requirements regarding targeted case management for individuals with a substance use disorder; 907 KAR 15:045E, Reimbursement provisions and requirements regarding targeted case management for individuals with a substance use disorder; 907 KAR 15:050E, Coverage provisions and requirements regarding targeted case management for individuals with co-occurring mental health or substance use disorders and chronic or complex physical health issues; 907 KAR 15:055E, Reimbursement provisions and requirements regarding targeted case management for individuals with severe mental illness and children with a severe emotional disability; and 907 KAR 15:065E, Reimbursement provisions and requirements regarding targeted case management for individuals with severe mental illness and children with a severe emotional disability. This administrative regulation must be promulgated on an emergency basis as the companion administrative regulations are necessary to be promulgated on an emergency basis in order to prevent a loss of federal Medicaid funds and to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation. This emergency administrative regulation shall not be replaced by an ordinary administrative regulation as this emergency administrative regulation repeals six (6) administrative regulations leaving nothing to be repealed by an ordinary administrative regulation. No ordinary administrative regulation is being promulgated.

STATEMENT OF EMERGENCY
907 KAR 15:040E

This emergency administrative regulation is being promulgated in conjunction with 907 KAR 15:045E, Reimbursement provisions and requirements regarding targeted case management for individuals with a substance use disorder - to comply with a federal mandate. The Affordable Care Act mandates coverage of substance use disorder services for all Medicaid recipients (who meet qualifying criteria) and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that Medicaid recipients are able to access mandated substance use disorder services. Targeted case management ensures that Medicaid recipients with a mental health diagnosis and a substance use disorder are monitored to ensure that they receive the services most beneficial to their particular illness. As mental illness and substance use disorders are often life-threatening and require long-term treatment, targeted case management gives continuity of care to a Medicaid recipient whose illness needs long-term monitoring. This action must be taken on an emergency basis to prevent a loss of Medicaid federal funds, to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation, and so as not to delay providing this service to Medicaid recipients at risk. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Stuart Owen

(1) Provide a brief summary of:
(a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program targeted case management services for Medicaid recipients with a substance use disorder. This administrative regulation is being promulgated in conjunction with 907 KAR 15:045E (Reimbursement for targeted case management service services for individuals with a substance use disorder). Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the recipient’s needs for services by taking the recipient’s history, identifying the recipient’s needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment; developing a customized care plan for the recipient; referring the recipient or related activities to help the recipient obtain needed services; and monitoring activities to ensure that the recipient’s care plan is implemented effectively and adequately addresses the recipient’s strengths and needs.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that recipients (who have a substance use disorder) receive necessary services and care. The targeted case manager provider is the individual or entity responsible for coordinating the recipient’s services/care, facilitating access to services/care, and monitoring individual progress or difficulties while receiving services/care. Targeted case management helps ensure that the recipient receives the appropriate and necessary services and care they need rather than randomly receive services/care or fail to receive any services/care at all.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by helping ensure that recipients with a substance use disorder receive necessary services and care.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the authorizing statutes by helping ensure that recipients with a substance use disorder receive necessary services and care.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation rather than an amendment.
(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation rather than an amendment.
(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation rather than an amendment.
(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation rather than an amendment.
(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this
administrative regulation: Entities eligible to provide targeted case management services (such as community mental health centers, individual behavioral health service providers/provider group or behavioral health services organizations) will be affected by this administrative regulation as well as the various professionals who are authorized to provide services either independently or via the aforementioned providers. Medicaid recipients, who qualify for targeted case management services will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify and wish to provide targeted case management services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation [complete and application and submit it to the Department for Medicaid Services (DMS)] and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program. The professionals authorized to provide services will benefit by having more employment opportunities in Kentucky. Medicaid recipients in need of targeted care management will benefit from having the option to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately $1.05 million state funds/$3.87 million federal funds initially.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under "Medicaid expansion" recedes from its current 100 percent to 90 percent.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated however, substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management service provider base to include targeted case management for substance use disorders will help ensure Medicaid recipient access to these services.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.05 million state funds/$3.87 million federal funds.
million federal funds initially.

(d) How much will it cost to administer this program for subsequent years?: DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under "Medicaid expansion" recedes from its current 100% to 90%.

STATEMENT OF EMERGENCY
907 KAR 15:045E

This emergency administrative regulation is being promulgated in conjunction with 907 KAR 15:045E, Coverage provisions and requirements regarding targeted case management for individuals with a substance use disorder - to comply with a federal mandate. The Affordable Care Act mandates coverage of substance use disorder services for all Medicaid recipients (who meet qualifying criteria) and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that Medicaid recipients are able to access mandated substance use disorder services. Targeted case management ensures that Medicaid recipients with a mental health diagnosis and a substance use disorder are monitored to ensure that they receive the services most beneficial to their particular illness. As mental illness and substance use disorders are often life-threatening and require long-term treatment, targeted case management gives continuity of care to a Medicaid recipient whose illness needs long-term monitoring. This action must be taken on an emergency basis to prevent a loss of Medicaid federal funds, to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation, and so as not to delay providing this service to Medicaid recipients at risk. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Entities eligible to provide targeted case management services (such as community mental health centers, individual behavioral health service providers/provider group, behavioral health provider groups, or behavioral health services organizations) will be affected by this administrative regulation as well as the various professionals who are authorized to provide services either independently or via the administrative services. Medicaid recipients who qualify for targeted case management services will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify and wish to provide targeted case management services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation [complete and application and submit it to the Department for Medicaid Services (DMS)] and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The entities referenced in paragraph (a) will benefit by receiving Medicaid Program reimbursement. Medicaid recipients in need of targeted case management will benefit from having the option to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately $1.05 million state funds/$3.87 million federal funds initially.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under “Medicaid expansion” recedes from its current 100 percent to 90 percent.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and
Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Similarly, 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: “…provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

**FISCAL NOTE ON STATE OR LOCAL GOVERNMENT**

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately ($1.05 million state funds/$3.87 million federal funds) initially.
   (c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program targeted case management services for Medicaid recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues. This administrative regulation is being promulgated in conjunction with 907 KAR 15:05SE (Reimbursement provisions and requirements regarding targeted case management for individuals with co-occurring mental health or substance use disorders and chronic or complex physical health issues.) Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the recipient’s need for services by taking the recipient’s history, identifying the recipient’s needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment; developing a customized care plan for the recipient; referring the recipient or related activities to help the recipient obtain needed services; and monitoring activities to ensure that the recipient’s care plan is implemented effectively and adequately addresses the recipient’s needs.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that recipients (who have co-occurring mental health or substance use disorders and chronic or complex physical health issues) receive necessary services and care. The targeted case manager provider is the individual or entity responding for coordinating the individual’s services/care, facilitating access to services/care, and monitoring individual’s progress or difficulties while receiving services/care. Targeted case management helps ensure that the recipient receives the appropriate and necessary services and care they need rather than randomly receive services/care or fail to receive any services/care at all.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by helping ensure that recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues receive necessary services and care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by helping ensure that recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues receive necessary services and care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation rather than an amendment.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation rather than an
amendment.  
(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation rather than an amendment.  
(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation rather than an amendment.  
(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Entities eligible to provide targeted case management services (such as community mental health centers, individual behavioral health service providers or behavioral health provider groups, behavioral health services organizations, federally-qualified health centers (FQHCs), FQHC look-alikes, rural health clinics, primary care centers) will be affected by this administrative regulation as well as the various professionals who are authorized to provide services either independently or via the aforementioned providers. Medicaid recipients who qualify for targeted case management services will also be affected by this administrative regulation.  
(3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:  
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify and wish to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.  
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) will benefit by receiving Medicaid Program reimbursement. The professionals authorized to provide services will benefit by having more employment opportunities in Kentucky. Medicaid recipients in need of targeted case management will benefit from having the option to receive these services.  
(5) Provide an estimate of how much it will cost to implement this administrative regulation:  
(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$5.47 million federal funds initially.  
(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$9.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under “Medicaid expansion” recedes from its current 100 percent to 90 percent.  
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.  
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.  
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.  
(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.  
FEDERAL MANDATE ANALYSIS COMPARISON  
1. Federal statute or regulation constituting the federal mandate. Section 1392(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a (a)(23).  
2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”  
3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated; however, Section 1392(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to “provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides services through a prepaid group practice arrangement, or a prepayment basis), who undertakes to provide him such services.” Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management service provider base to include targeted case management for recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues will help ensure Medicaid recipient access to these services.  
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.  
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.  
FISCAL NOTE ON STATE OR LOCAL GOVERNMENT  
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.  
2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).  
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:  
(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year?
The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$5.47 million federal funds initially.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$3.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under “Medicaid expansion” recedes from its current 100% to 90%.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

STATEMENT OF EMERGENCY
907 KAR 15:055E

This emergency administrative regulation is being promulgated in conjunction with 907 KAR 15:050E, Coverage provisions and requirements regarding targeted case management for individuals with co-occurring mental health or substance use disorders and chronic or complex physical health issues - to comply with a federal mandate. The Affordable Care Act mandates coverage of behavioral health services (including substance use disorder services) and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that Medicaid recipients are able to access mandated behavioral health services. Targeted case management ensures that Medicaid recipients with a co-occurring mental health diagnosis and substance use disorder and chronic or complex physical health issues are monitored to ensure that they receive the services most beneficial to their particular illnesses. As mental illness and substance use disorders are often life-threatening and require long-term treatment, targeted case management gives continuity of care to a Medicaid recipient whose illness needs long-term monitoring. This action must be taken on an emergency basis to prevent a loss of Medicaid federal funds, to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation, and so as not to delay providing this service to Medicaid recipients at risk. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

3. Uniform standards contained in the federal mandate. Targeted case management services are not federally mandated; however, Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment," 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) to comply with a federal mandate. The Affordable Care Act mandates coverage of behavioral health services and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Similarly, 42 U.S.C. 1396a(a)(23) requires Medicaid state plans to: “provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(3)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are also available to the general population in the geographic area.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$5.47 million federal funds initially.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$5.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100% to 90%.

Note: If specific dollar estimates cannot be determined, provide a narrative to explain the fiscal impact of the administrative regulation.

STATEMENT OF EMERGENCY

907 KAR 15:060E

This emergency administrative regulation is being promulgated in conjunction with 907 KAR 15:065E, Reimbursement provisions and requirements regarding targeted case management for individuals with a severe mental illness and children with a severe emotional disability - to comply with a federal mandate. The Affordable Care Act mandates coverage of behavioral health services and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that Medicaid recipients are able to access mandated behavioral health services. Targeted case management ensures that Medicaid recipients with a severe mental illness or with a severe emotional disability are monitored to ensure that they receive the services most beneficial to their particular illnesses. As mental illness can be life-threatening and require long-term treatment, targeted case management gives continuity of care to a Medicaid recipient whose illness needs long-term monitoring. This action must be taken on an emergency basis to prevent a loss of Medicaid federal funds, to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation, and so as not to delay providing this service to Medicaid recipients at risk. This emergency
administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Stuart Owen
(1) Provide a brief summary of:
   (a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program targeted case management services for individuals with a severe mental illness or children with a severe emotional disability. This administrative regulation is being promulgated in conjunction with 907 KAR 15:065E (Reimbursement provisions and requirements regarding
targeted case management for individuals with a severe mental illness and children with a severe emotional disability.) Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the recipient's need for services by taking the recipient's history, identifying the recipient's needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment; developing a customized care plan for the recipient; referring the recipient or related activities to help the recipient obtain needed services; and monitoring activities to ensure that the recipient's care plan is implemented effectively and adequately addresses the recipient's needs.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that children who have a severe emotional disability or individuals who have a severe mental illness receive necessary services and care. The targeted case manager provider is the individual or entity responding for coordinating the recipient's services/care, facilitating access to services/care, and monitoring recipient's progress or difficulties while receiving services/care. Targeted case management helps ensure that the recipient receives the appropriate and necessary services and care they need rather than randomly receive services/care or fail to receive any services/care at all.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by helping ensure that children with a severe emotional disability and individuals with a severe mental illness receive necessary services and care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by helping ensure that children with a severe emotional disability and individuals with a severe mental illness receive necessary services and care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 22 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(23).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect.

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated however, Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or agents thereof and carries on such services". Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care.
organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management service provider base to include targeted case management for children with a severe emotional disability or individuals with a severe mental illness will help ensure Medicaid recipient access to these services.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be affected by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

STATEMENT OF EMERGENCY
907 KAR 15:065E

This emergency administrative regulation is being promulgated in conjunction with 907 KAR 15:060E, Coverage provisions and requirements regarding targeted case management for individuals with a severe mental illness and children with a severe emotional disability - to comply with a federal mandate. The Affordable Care Act mandates coverage of behavioral health services and federal law requires Medicaid Programs to ensure that recipients have access to services. These two (2) administrative regulations will help ensure that individuals are able to access mandated behavioral health services. Targeted case management ensures that Medicaid recipients with a severe mental illness or with a severe emotional disability are monitored to ensure that they receive the services most beneficial to their particular illnesses. As mental illness can be life-threatening and require long-term treatment, targeted case management gives continuity of care to a Medicaid recipient whose illness needs long-term monitoring. This action must be taken on an emergency basis to prevent a loss of Medicaid federal funds, to meet a deadline for the promulgation of an administrative regulation necessary under federal law and regulation, and so as not to delay providing this service to Medicaid recipients at risk. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

This administrative regulation is being promulgated in conjunction with 907 KAR 15:060E (Coverage provisions and requirements regarding targeted case management for individuals with a severe mental illness and children with a severe emotional disability.) Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the individual’s need for services by taking the individual’s history, identifying the individual’s needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment; developing a customized care plan for the individual; referring the individual or related activities to help the individual obtain needed services; and monitoring activities to ensure that the individual’s care plan is implemented effectively and adequately addresses the individual’s needs. For these services the Department for Medicaid Services (DMS) will pay a monthly rate (encompassing all services provided to the recipient during the given month) of $334.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that children who have a severe emotional disability or individuals who have a severe mental illness receive necessary services and care. The targeted case manager provider is the individual or entity responding for coordinating the individual’s services/care, facilitating access to services/care, and monitoring individual’s progress or difficulties while receiving services/care. FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs, including mental health and substance use disorder services, including behavioral health treatment.” 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services.” Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Similarly, 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: “...provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(j)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

STATEMENT OF EMERGENCY
922 KAR 2:160E

This emergency administrative regulation is necessary to maintain compliance with provisions of 2014 Ky. Acts ch. 117, which restore the Child Care Assistance Program (CCAP), in tandem with new standards to improve the quality of child care purchased through the program and provided to Kentucky’s most vulnerable and at-risk child populations. The emergency administrative regulation assures compliance with recent state appropriations; preserves and makes additional gains for the positive development (i.e., health), safety, and welfare of children prioritized for CCAP, including children receiving Child Protective Services, children with special needs, children of teen parents, children whose parents are transitioning from cash assistance or welfare, and children from low-income households; and reads Kentucky’s child care community for forthcoming federal legislation or regulation redefining purposes of the Child Care and Development Fund Block Grant to include enhanced focuses on quality. An ordinary administrative regulation would not allow the agency sufficient time to implement changes in standards for child care providers participating in CCAP, to assure accountability for public funds and the highest quality services for Kentucky’s most vulnerable or at-risk child populations, concurrent with CCAP’s restoration. Child care providers are required to take steps in the near-term to adhere to the new quality rating standards by the timeframe identified within the emergency administrative regulation. This emergency administrative regulation will be replaced by an emergency administrative regulation. The emergency administrative regulation is identical to this emergency administrative regulation. This emergency administrative regulation differs from the previous emergency regulation filed August 1, 2014, due to the new quality standards applied to child care providers participating in CCAP.

NECESSITY, FUNCTION, AND CONFORMITY: KRS 194A.050(1) requires the Secretary of the Cabinet for Health and Family Services to promulgate administrative regulations necessary to operate programs and fulfill the responsibilities vested in the cabinet, qualify for the receipt of federal funds, and cooperate with other state and federal agencies for the proper administration of the cabinet and its programs. KRS 199.892 enables the Cabinet for Health and Family Services to promulgate administrative regulations to qualify to receive federal funds under provisions of the federal Social Security Act, 42 U.S.C. 601-619, and to provide for effective regulation of child care centers.       (a) How the amendment will change this existing administrative regulation: The amendment increases the CCAP income eligibility criteria, specifies the federal poverty level, in accordance with available revenues, including the restoration of CCAP authorized by 2014 Ky. Acts ch. 117. In addition, the amendment delinks child care provider payment rates from the classification of cities, reinforces quality within CCAP by requiring licensed and certified child care providers’ participation in the STARS for KIDS NOW Program and one-time free-of-charge training concerning CCAP billing and technical corrections and clarifications in accordance with KRS Chapter 13A.
      (b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to restore CCAP to a higher service level in response to 2014 Ky. Acts ch. 117, state budgetary context, and to protect and preserve provider rates from fluctuations that would otherwise be created by changes to city classifications. In addition, the amendment is necessary to improve the quality of child care purchased through the program and provided to Kentucky’s most vulnerable and at-risk children populations thereby preserving and making additional gains for the positive development (i.e., health, safety, and welfare of children prioritized for CCAP, including children receiving Child Protective Services, children with special needs, children of teen parents, children whose parents are transitioning from cash assistance or welfare, and children from low-income households; and readying Kentucky’s child care community for forthcoming federal legislation or regulation redefining purposes of the Child Care and Development Fund Block Grant to include enhanced focuses on quality. As of September 30, 2014, there were 392 certified family child-care homes. Of those, 335 certified family child-care homes were not in STARS and were serving 838 children receiving benefits through the CCAP. Sixty-two (62) certified homes were STARS-rated and were serving 139 children receiving benefits through CCAP. There were 2,041 licensed child-care centers. Of those, 1,263 licensed centers were not participating in STARS and were serving 13,086 children receiving benefits through CCAP. Seventy and seventy-eight (778) licensed centers were not in STARS and were serving 9,259 children receiving CCAP benefits. There are no registered child care providers participating in STARS. Three hundred fifty-four (354) CCAP children are receiving child care through 203 registered providers.
      (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
         (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The amendment to this administrative regulation will open the program for newly eligible low-income working families and will assure the use of public funds for the highest quality child care for Kentucky’s most vulnerable and at-risk children.
         (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): This administrative regulation imposes no direct cost to applicants and recipients of CCAP. If not already participating, a licensed or certified child care provider will realize new administrative burden and operating costs to participate in the state’s quality rating program and to qualify for federal Child Care and Development Fund (CCDF) and administrative regulation enables the Cabinet to qualify for federal funds under the Child Care and Development Fund (CCDF) and establishes procedures for the implementation of the Child Care Assistance Program (CCAP) to the extent that funding is available.
         (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Kentucky’s most vulnerable and at-risk children will have improved access to quality child care.
         (d) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
            (a) Initially: Funds to restore CCAP were appropriated in 2014 Ky. Acts ch.117. Changes contained in this amendment are within available revenues.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: The amendment to this administrative regulation does not establish any fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? The Child Care Assistance Program is implemented in a like manner statewide. Provider payment rates are tiered to recognize the higher operating costs of certain geographical, more populated areas. While this administrative regulation protects and preserves the current provider payment rates by delinking the rates from the classification of cities, the provider payment rates were originally established based on the classification of cities. The rates are further supported by the analysis of the market rate survey results specified in KRS 199.899.

(4) Turbidity sampling. For a bottled water system, regardless of source, turbidity sampling shall be conducted once every four (4) hours the system is in operation. The system may substitute continuous monitoring for grab sampling, with cabinet approval, and may use the turbidity value for every four (4) hours to determine compliance with the turbidity performance criterion. The turbidity level of the system’s product water shall be less than or equal to three tenths (0.3) nephelometric turbidity units (NTU), in at least ninety-five (95) percent of the measurements taken each month, and shall never exceed one (1) NTU.

First time starters and horses without a past performance record at a pari-mutuel race track must complete two (2) official timed workouts, one (1) from the gate, and be approved to start by the stewards and starter before entering any race. Horses entered to race around a turn must have officially started in a race around a turn or will be required to have an official work around the turn where they are racing and must be approved by the stewards.

Section 7. Closings. (1) Entries for purse races and subscriptions to stakes races shall close at the time designated by the association in previously published conditions for such races. If a race is not split, no entry, subscription, or declaration shall be accepted after such closing time, except that in event of an emergency, or if a purse race fails to fill them the racing secretary may, with the approval of the stewards, extend such closing time.

(2) If the hour of closing is not specified for stakes races, then subscriptions and declarations therefor may be accepted until midnight of the day of closing; provided, they are received in time for compliance with every other condition of such race.

(3) Entries which have closed shall be compiled without delay by the racing secretary along with declarations, be posted.

Section 8. Number of Starters in a Race. (1) The maximum number of starters in any race shall be limited to the number of starting positions allowed by the association starting gate approved by the commission as can be positioned across the width of the track at the starting point for such race, and such maximum number of starters further shall be limited by the number of horses which, in the opinion of the stewards, considering the safety of the horses and riders, and the distance from the start to the first turn, can be afforded a fair and equal start.

(2) Any claiming race in the printed condition book for which eight (8) or more horses representing different betting interests are entered must be run. All other purse races in the printed condition book for which six (6) or more horses representing different betting interests are entered must be run.

(3) If any purse race in the printed condition book fails to fill with the minimum number of entries required by subsection (2) of...
this section to be run, then the association may cancel or declare off such race. The names of all horses entered therein shall be publicly posted in the office of the racing secretary not later than 1 p.m. the same day.

Section 9. Split or Divided Races. (1) In the event a race is cancelled or declared off, the association may split any race programmed for the same day and which may previously have been closed. Races printed in the condition book shall have preference over substitute and extra races.

(2) When a purse race is split, forming two (2) or more separate races, the racing secretary shall give notice thereof not less than fifteen (15) minutes before such races are closed so as to grant time for the making of additional entries to such split races.

(3) Division of entries upon the splitting of any race shall be made in accordance with the conditions under which entries and subscriptions therefor were made, and in the absence of specific prohibition by such conditions:

(a) Horses originally joined as a mutuel entry may be placed in different divisions of a split race unless the person making such multiple entry, at the time of such entry, indicates such coupling of horses is not to be uncoupled when such race is split.

(b) Division of entries in any split stakes race may be made according to age, or sex, or both.

(c) Entries for any split race not divided by any method provided above by this rule, shall be divided by lot so as to provide a number of betting interests as near equal as possible for each division of such split race.

Section 10. Post Positions. Post positions for all races shall be determined by lot, drawn in the presence of those making the entries for such race. Post positions in split races also shall be redetermined by lot in the presence of those making the entries for such split race. The racing secretary shall assign pari-mutuel numbers for horses to conform with the post position drawn, except when a race includes two (2) or more horses joined as a single betting interest.

Section 11. Also Eligible List. (1) If the number of entries for a purse race exceed the number of horses permitted to start in such race as provided by Section 8 of this administrative regulation, then the names of as many as eight (8) horses entered but not drawn into such race as starters shall be posted on the entry sheet as “also eligible” to start.

(2) After any horses have been excused from a purse race at scratch time, the starting and post position of the also eligible list shall be determined by the best preference date. Horses having equal preference dates shall be drawn by lot.

(3) Any owner or trainer of any horse on the also eligible list who does not wish to start such horse in such race shall so notify the racing secretary prior to scratch time for such race and such horse shall forfeit any preference to which it may have been entitled.

(4) Where entries are closed two (2) racing days prior to the running of a race, any horse on an also eligible list, and which also has been drawn into a race as a starter for the succeeding day, shall not be given an opportunity to be drawn into the earlier race for which he had been listed as also eligible.

Section 12. Preferred List: Stars. (1) The racing secretary shall maintain a list of horses which were entered but denied an opportunity to race because eliminated from a race programmed in the printed condition book either by overfilling or failure to fill. Horses eliminated shall be awarded preferential treatment of a “star” for each such elimination, and as to drawing in from the also eligible list to subsequent races of similar distance and similar conditions, such horses shall be given preference over horses with fewer number or no preference stars.

(2) No preference shall be given a horse otherwise entitled thereto for a race if such horse also is entered for a race on the succeeding day.

(3) No preference shall be given a horse otherwise entitled thereto for a race unless preference is claimed at the time of entry by indicating same on the entry with the word “preferred.”

Section 13. Arrears. No horse may be entered or raced if the owner thereof is in arrears as to any stakes fees due by such owner, except with the approval of the racing secretary.

Section 14. Declaration. Withdrawal of a horse from a race before closing thereof by the owner or trainer or person deputized by either, such being known as a “declaration,” shall be made in the same manner as to form, time, and procedure as provided for the making of entries. Declarations and scratches are irrevocable. No declaration fee shall be required by any licensed association.

Section 15. Scratches. Withdrawal of a horse from a race after closing thereof by the owner or trainer or person deputized by either, such being known as a “scratch,” shall be permitted only under the following conditions:

(1) A horse may be scratched from a stakes race for any reason at any time up until fifteen (15) minutes prior to post time for the racing preceding such stakes race by the filing in writing of such intention with the racing secretary. Upon receiving a scratch from a stakes race, the racing secretary shall promptly notify the stewards and pari-mutuel manager, and shall cause public announcement of same to be made.

(2) No horse may be scratched from a purse race without approval of the stewards and unless such intention to scratch has been filed in writing with the racing secretary or his assistant at or before the time of scratch time therefor for a race unless preference is claimed at the time of such entry.

(3) In purse races, horses that are physically disabled or sick shall be given the opportunity to race because eliminated from a race programmed in the condition book either by overfilling or failure to fill. Such eliminated horses also may be placed in purses previously had been listed as also eligible.

(4) No horse which has been scratched, or excused from starting by the stewards, because of a physical disability or sickness shall not be accepted until the expiration of three (3) calendar days after such horse was scratched or excused.

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation requires the counseling degree to be from a program accredited by the Council on Accreditation of Counseling and Related Programs.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary because it will ensure that counseling has been the core focus of the applicants’ training and eliminate the need for the board to review various programs to determine the sufficiency of an individual applicant’s education and degree.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 335.525(1)(c) requires that applicants for licensure shall have received a master’s or doctoral degree in counseling or a related field from a regionally-accredited institution. The profession recognizes The Council on Accreditation of Counseling and Related Programs as the entity most focused on the training of counseling, specifically.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will eliminate the need for the board to review applications to determine its sufficiency. The board has previously determined the coursework in programs accredited by the Council on Accreditation of Counseling and Related Programs is sufficient, so the time to review applications will be significantly reduced.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The board receives approximately 100 applications for licensure yearly.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will need to be taken by applicants.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no cost.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): It will be an automatic conclusion for the board that the applicant for licensure will have acquired an education necessary to practice professional counseling in a competent manner to protect the public.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: None.

(a) Initially: None

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Agency funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No fee increase is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? No. This administrative regulation applies to all applicants for licensure.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes requirements for the grant of a surface coal mining permit.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the criteria to grant a surface mining permit.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 350.028(1) authorizes the cabinet to promulgate administrative regulations relating to surface and underground coal mining operations. KRS 350.060 authorizes the cabinet to require a permit before coal mining can begin within the Commonwealth. This administrative regulation establishes the criteria for the issuance of a permit for surface mining operations.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes the criteria for the issuance of an underground permit which is required by KRS 350.060.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment clarifies the process by which an entity submits proof of right of entry procedures on proposed coal mines sites with severed minerals. The amendment made in response to comment was to add the corresponding federal regulatory language rather than the statutory language.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to clarify the agency's position on right of entry for proposed coal mining sites with severed minerals. The amendment made in response to comment was necessary to add the appropriate federal language.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 350.060 authorizes the cabinet to require a permit before coal mining can begin within the Commonwealth. 405 KAR 8:040. Underground coal mining permits.

RELATES TO: KRS 350.060, 350.151, 7 C.F.R. Part 657, 30 C.F.R. Parts 77.216-1, 77.216-2, 730-733, 735, 773.13(a), 778, 783, 784, 785.17(b), (d), 917, 40 C.F.R. Parts 136, 434, 16 U.S.C. 1276(a), 1531 et seq., 30 U.S.C. 1253, 1255, 1257, 1258, 1263, 1267, 1269, 1271,

STATUTORY Necessity, Function, and Conformity: KRS 350.028(1), (5), 350.151(1), and 350.465(2) authorize the cabinet to promulgate administrative regulations relating to surface and underground coal mining operations. This administrative regulation establishes requirements for the grant of a permit for underground coal mining operations. This administrative regulation differs from the corresponding federal regulations as follows:

(1) Section 16 of this administrative regulation requires information on alternative sources of water supply if the applicant’s determination of probable hydrologic consequences under Section 32 of this administrative regulation finds that water supplies may be adversely affected. There is no exact federal counterpart to this requirement for alternative water supply information for underground mines, although a close parallel is found in the subsidence control plan requirements at 30 C.F.R. 784.20(b)(8), which require a description of measures to be taken to replace adversely affected protected water supplies. This administrative regulation makes underground mines and surface mines subject to the same requirements regarding water supply replacement, consistent with KRS 350.421 as amended in 1994.

(2) Section 26(1) of this administrative regulation requires that the application contain an example of the letter by which the applicant proposes to notify the owners of structures for which a presubsidence condition survey is required under 405 KAR 18:210. Section 1(4). The corresponding federal regulation does not require a sample letter. The federal regulations are structured so that these presubsidence surveys must be included in the permit application prior to permit issuance. The cabinet’s administrative regulations allow the detailed surveys of structures to be submitted after permit issuance. The example letter is needed in the permit application to ensure that the applicant is prepared to provide proper notice to owners of structures after permit issuance.

(3) Section 26 of this administrative regulation does not include the requirement at 30 C.F.R. 784.20(a)(3) for detailed surveys of the presubsidence condition of structures that may be damaged by subsidence. These surveys may be submitted after permit issuance, and therefore are required under 405 KAR 18:210 rather than this administrative regulation.

(4) Section 26 of this administrative regulation applies to water supplies for “domestic, agricultural, industrial, or other legitimate use”, whereas the corresponding federal regulation is limited to “drinking, domestic, or residential” water supplies. This administrative regulation applies to water supplies protected under KRS 350.421, whereas the federal regulation applies to water supplies protected under 30 U.S.C. 1309a.

(4) Section 26 of this administrative regulation requires that the applicant’s determination of probable hydrologic consequences shall include a finding on whether the proposed underground mining activities conducted after July 16, 1994 may proximately result in contamination, diminution, or interruption of an underground or surface source of water for domestic, agricultural, industrial, or other legitimate use within the permit area or adjacent area at the time the application is submitted. The corresponding federal requirement at 30 C.F.R. 784.14(e)(3)(iv) applies to underground mining activities conducted after October 24, 1992 and wells or springs used for domestic, drinking, or residential use. This administrative regulation addresses water supplies protected under KRS 350.421, as amended July 16, 1994. The federal regulation addresses water supplies protected under 30 U.S.C. 1309a, effective October 24, 1992.

(5) Section 32(3)(e) of this administrative regulation requires that the cabinet makes underground mining activities conducted after October 24, 1992 and wells or springs used for domestic, drinking, or residential use. This administrative regulation addresses water supplies protected under KRS 350.421, as amended July 16, 1994. The federal regulation addresses water supplies protected under 30 U.S.C. 1309a, effective October 24, 1992.

(6) Section 34(3) and (5) of this administrative regulation require that the following be submitted to the cabinet after approval by the Mine Safety and Health Administration (MSHA):

(a) A copy of the final approved design plans for impounding structures;

(b) A copy of all correspondence with MSHA;

(c) A copy of technical support documents requested by MSHA;

(d) A notarized statement by the applicant that the copy submitted to the cabinet is a complete and correct copy of the final plan approved by MSHA. These requirements are necessary to minimize duplication of technical review by MSHA and the cabinet, and to minimize conflicts that may arise from duplication of review.

(c) The application shall contain a statement of the methods and documentation that under applicable state law, the applicant has the legal authority to extract coal by those methods.
probable cumulative impacts of all anticipated mining on the hydrologic balance in the cumulative impact area;

c. Determine pursuant to 405 KAR 8:010, Section 14(2) and (3) whether reclamation as required by 405 KAR can be accomplished and whether the proposed operation has been designed to prevent material damage to the hydrologic balance; and

d. Design surface and groundwater monitoring systems pursuant to Section 32(4) of this administrative regulation for the during-mining and postmining period which, together with the baseline data collected under Sections 14(1) and 15(1) of this administrative regulation, will demonstrate whether the mining operation is meeting applicable effluent limitations and stream standards and protecting the hydrologic balance.

(2)(a) Geologic and hydrologic information pertaining to the area outside the permit and adjacent area but within the cumulative impact assessment area shall be provided to the applicant by the cabinet:
1. If this information is needed in preparing the cumulative impact assessment; and

Section 13. Baseline Geologic Information. (1) The application shall contain baseline geologic information collected from the permit area which shall meet the requirements of Section 12(1) of this administrative regulation and shall include at a minimum:
(a) The results of samples obtained from continuous cores; drill cuttings; channel cuttings from fresh, unweathered, rock outcrops; or other rock or soil material which has been collected using acceptable sampling techniques.
1. For those areas where overburden will be removed, the vertical extent of sampling shall include those strata from the surface down to and including the stratum immediately below the lowest coal seam to be mined; and
2. For those areas overlying underground workings where overburden will not be removed, the vertical extent of sampling shall include those strata above and below the coal seam to be mined which may be impacted by the mining operation.
3. Where aquifers within the permit area are located above or below the coal seam to be mined and these aquifers may be adversely affected by the mining operation, the vertical extent of sampling shall also include the aquifer and those strata which lie between the coal seam and the aquifer.
4. The areal and vertical density of sampling shall, at a minimum, be sufficient to determine the distribution of strata which have a potential to produce acid drainage and to determine the areal and vertical extent of aquifers which may be adversely affected.
5. If the vertical extent, and the areal and vertical density of sampling specified in subparagraphs 1 through 4 of this paragraph are not sufficient to locate suitable strata for use as a topsoil substitute, to determine the potential for subsidence, or for other required design or analysis, additional sampling shall be conducted as necessary to furnish adequate geologic information.

(b) 1. To identify strata which have a potential to produce acid or toxic drainage for areas where overburden will be removed, chemical analyses including, but not limited to, maximum potential acidity and neutralization potential of each overburden stratum and the stratum immediately below the lowest coal seam to be mined; and
2. To identify strata which have a potential to produce acid or toxic drainage for areas overlying underground workings where overburden will not be removed, chemical analyses including maximum potential acidity and neutralization potential of the strata immediately above and below the coal seam to be mined.

(c) Chemical analyses of the coal seam to be mined to determine the potential to produce acid or toxic drainage, including the parameters of total sulfur and pyritic sulfur, except that the cabinet shall not require an analysis for pyritic sulfur if the applicant can demonstrate to the satisfaction of the cabinet that an analysis for total sulfur provides adequate information to assure protection of the hydrologic balance.

(d) For standard room and pillar mining operations, the engineering properties of clays or soft rock such as clay shale, if any, located immediately above and below each coal seam to be mined.

(e) Collection of geologic information from the permit area as required in this subsection may be waived in whole or in part if:
1. The applicant can demonstrate to the satisfaction of the cabinet through geologic correlation or other procedures that information collected from outside the permit area is representative of the permit area and is sufficient to meet the requirements of Section 12(1) of this administrative regulation;

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities interested in applying for licensure as a behavioral health services organization will be required to comply with the licensure standards established in this administrative regulation.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Entities licensed under this new administrative regulation will be subject to the licensure fees described in the response to question (7).

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Entities licensed under this administrative regulation will be eligible to enroll in the Kentucky Medicaid Program for reimbursement of covered behavioral health services provided to Medicaid recipients. Additionally, the anticipated expansion in the number of behavioral health services providers ensures that Medicaid recipients will have access to Medicaid-covered services for the treatment of substance use disorders, mental health disorders, or co-occurring disorders.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The cost of implementing this administrative regulation is expected to be absorbable because the licensure fee is anticipated to cover the cost of implementing the administrative regulation, clinical behavior services organizations, including initial and routine surveys conducted by at least one (1) nurse consultant inspector, investigation of complaints, processing applications, supervisory review, travel costs, and other indirect costs.

(b) On a continuing basis: The cost of implementing this administrative regulation is expected to be absorbable as the licensure fee is anticipated to cover the cost of regulating behavioral health services organizations on a continuing basis.

A processing fee of twenty-five (25) dollars will be charged for a change of name and a fee of $100 will be charged for a change of location. A change of ownership must be documented on a new licensure application and submission of an accompanying fee of $750.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This new administrative regulation establishes licensure fees as described in the response to question (7).

(9) TIERING: Is tiering applied? Tiering is not applicable as compliance with this administrative regulation applies equally to all individuals or entities who elect to be regulated by it.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Under this administrative regulation, clinical behavioral health services entities may apply for licensure as a behavioral health services organization. Upon approval of licensure, behavioral health services organizations may enroll in the Kentucky Medicaid Program for reimbursement of covered behavioral health services provided to Medicaid recipients.
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The Cabinet will collect an initial fee of $750 from each applicant for licensure as a behavioral health services organization. The Cabinet anticipates fifty (50) to seventy-five (75) applicants during the first year. Therefore, the Cabinet may collect between $37,500 to $56,250 in licensure fees.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The Cabinet will collect an annual renewal fee of $500 from each licensed behavioral health services organization. The Cabinet anticipates there will be approximately seventy-five (75) licensed behavioral health services organizations operating in subsequent years. Therefore, the Cabinet may collect approximately $37,500 in licensure fees during subsequent years.

(c) How much will it cost to administer this program for the first year? The cost of implementing this administrative regulation is expected to be absorbable because the licensure fee is anticipated to cover most of the costs of regulating behavioral health services organizations, including initial and routine surveys conducted by at least one (1) nurse consultant inspector, investigation of complaints, processing applications, supervisory review, travel costs, and other indirect costs.

(d) How much will it cost to administer this program for subsequent years? The cost of implementing this administrative regulation is expected to be absorbable as the licensure fee is anticipated to cover the cost of regulating behavioral health services organizations on a continuing basis.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the patient cost per day for board, maintenance and treatment for a facility owned by the state which shall be the uniform charge for persons receiving those services.
(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to comply with the provisions of KRS 210.720(2).
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 210.720(2) requires the cabinet to establish, at frequent intervals, the patient cost per day for board, maintenance and treatment for a facility owned by the state.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes the patient cost per day for board, maintenance and treatment for a facility owned by the state as required by KRS 210.720(2). The per diem rates are determined by applying a formula that has been in use since the 1980s. This formula calculates per diem rates by dividing actual costs for a state owned facility (using cost reports from a previous fiscal year) by the total number of patient days.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How this amendment will change this existing administrative regulation: This administrative regulation is being amended to establish the revised patient cost per day for facilities owned by the state as required by KRS 210.270(2).
(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to assure that the cabinet complies with KRS 210.720(2) by establishing the patient cost per day for board, maintenance, and treatment for each facility owned by the state.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 210.720(2) requires the cabinet to establish the patient cost per day for board, maintenance and treatment for a facility owned by the state at a frequent interval.
(d) How the amendment will assist in the effective administration of the statutes: KRS 210.720(1) requires that every patient admitted to a facility. The per diem rates are determined by applying a formula that has been in use since 1980. This formula calculates per diem rates by dividing actual costs for a state owned facility (using cost reports from a previous fiscal year) by the total number of patient days.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: There are sixteen (16) state owned facilities affected by this administrative regulation. In addition, this amendment will affect only a small number of patients (approximately ten (10) on any given day out of an average daily statewide census in excess of 1,000) who are prisoners transferred in accordance with KRS 202A.201 shall be charged for board, maintenance, and treatment. This administrative regulation establishes a rate for board, room, and treatment which is based on a formula in use for over twenty (20) years that calculates per diem rates by dividing actual costs for a state owned facility (using cost reports from the previous fiscal year) by the total number of patient days.

(4) Provide an analysis of how the entities identified in question (3): There will not be any cost for a state owned facility to comply with this administrative regulation. For those few patients who are uninsured and have the resources to be 100 percent self-pay, the per diem rate will increase in some state owned facilities. Thus, they would pay more for services. In other state owned facilities, the per diem rate will decrease resulting in a lower cost for patients who are 100 percent self-pay and uninsured.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: There will be no additional cost to implement this administrative regulation.
(b) On a continuing basis: There will be no additional cost to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Residential services are funded primarily with restricted agency funds generated from patient charges.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change if it is an amendment: This administrative regulation adjusts the charge rates as required by statute. Because only a small number of patients (those who have the resources to be 100 percent self-pay and who are uninsured) will be affected, it is estimated that the revenue increase would be approximately $14,000. Medicare, Medicaid and private insurance payors do not base their reimbursement on this billed amount, but on Medicare and Medicaid reimbursement requirements. And private insurers and MCOs are based on negotiated rates.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment to this administrative regulation establishes, as required by law, charges for room, board, and treatment at state owned facilities. At some state owned facilities, the per diem rate will increase; at other facilities, the per diem rate will decrease. Per diem rates are set utilizing the facilities most recently completed cost reports.

(9) Tiers: Is tiering applied? Tiering is not appropriate in this administrative regulation because all facility rates are set based on actual cost.

**FISCAL NOTE ON STATE OR LOCAL GOVERNMENT**

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation: KRS 210.720(2)

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:
(a) How much revenue will this administrative regulation generate for the state or local government agency (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will generate a minimal amount of additional revenue for the Department for Behavioral Health, Developmental and Intellectual Disabilities – approximately $14,000 in the first year.

This table can be used to relate SAT I V+M scores to ACT Composite scores. The estimates are based on the test scores of 103,525 students from fourteen (14) universities and two (2) states who took both the ACT and the SAT I between October 1994 and December 1996. Because the ACT and the SAT I have different content, students’ actual scores on the ACT could differ significantly from the concordance estimates in the table.

(3) Any modification or change to a registered program shall be promptly submitted to the registration office and, if approved, shall be recorded and acknowledged as an amendment to the program.
(4) The request for registration of an apprenticeship program, together with all documents and data required by this administrative regulation, shall be submitted in writing or electronic transmission to the supervisor of apprenticeship programs.
(5)(a) If a program is proposed for registration by an employer or employers’ association, written acknowledgement of union agreement or “no objection” to the registration shall be required if,[1] the standards, collective bargaining agreement, or other instrument provides for participation by a union in any manner in the operation of substantive matters of the apprenticeship program;[and]
(b) If union participation is not evidenced and practiced, the employer or employers’ association shall simultaneously furnish a copy of the apprenticeship program and its application for registration to the union collective bargaining agent, if any, of the employees to be trained.
(c) The supervisor shall provide a reasonable time period of not less than forty-five (45) [thirty (30) days nor more than sixty]
Section 3. The following standards established in this section shall apply to an apprenticeship program:

(1) The program shall be an organized, written plan embodying the terms and conditions of qualification, recruitment, selection, employment, training, and supervision of one (1) or more apprentices in an apprenticeship occupation and subscribed to by a sponsor who has undertaken to carry out the apprenticeship program.

(2) The standards shall contain the equal opportunity pledge prescribed in the Kentucky State Plan for equal employment opportunity in apprenticeship and, if applicable, an affirmative action plan and a selection method in accordance with the Kentucky State Plan for equal employment opportunity in apprenticeship, and provisions concerning the following:

(a) The employment and training of the apprentice in a skilled occupation; and

(b) A term of apprenticeship, which for an individual apprentice may be measured either through the completion of the industry standard for on-the-job learning (at least 2,000 hours) (time-based approach), the attainment of competency (competency-based approach), or a blend of the time-based and competency-based approaches (hybrid approach) (at least 2,000 hours of work experience, consistent with training requirements as established by industry practices).

1. The time-based approach measures skill acquisition through the individual apprentice’s completion of at least 2,000 hours of on-the-job learning as described in a work process schedule.

2. The competency-based approach measures skill acquisition through the individual apprentice’s successful demonstration of acquired skills and knowledge, as verified by the program sponsor. Programs utilizing this approach shall still require apprentices to complete an on-the-job learning component of registered apprenticeship. The program standards shall address how on-the-job learning will be integrated into the program, describe competencies, and identify an appropriate means of testing and evaluation for the competencies.

3. The hybrid approach measures the individual apprentice’s skill acquisition through a combination of specified minimum number of hours of on-the-job learning and the successful demonstration of competency as described in a work process schedule.

4. The determination of the proper approach for the program standards is made by the program sponsor, subject to approval by the registration agency of the determination as appropriate to the apprenticeable occupation for which the program standards are registered.

(c) An outline of the work processes in which the apprentice will receive supervised work experience and training on the job, and the allocation of the approximate time to be spent in each major process;

(d) Provision for organized related and supplemental instruction in technical subjects related to the occupation; and

2. Have training in teaching techniques and adult learning styles, which may occur before or after the apprenticeship instruction, has participated in related technical instruction; The instruction may be given in a classroom, through trade, industrial, or correspondence courses of equivalent value, or other forms of approved self-study;

(e) A progressively increasing schedule of wages to be paid the apprentice consistent with the skill acquired and whether the required school time shall be compensated. The entry wage shall not be less than forty (40) percent of the established journeyman rate or not less than the minimum wage prescribed by federal or state law, whichever is greater. On projects where the wage rate has been established by law, the apprentice’s rate of pay shall be based upon the established journeyman rate;

(f) Periodic review and evaluation of the apprentice’s progress in job performance and related instruction and maintenance of appropriate progress records;

(g) The ratio of apprentices to journeymen consistent with proper supervision, training, and continuity of employment, and applicable provisions in collective bargaining agreements, but in a ratio of not more than one (1) apprentice for the first journeyman, and one (1) apprentice for each additional three (3) journeymen; unless approval is granted by the supervisor in cooperation with the commissioner and the Apprenticeship and Training Council;

(h) A probationary period of reasonable duration in relation to the full apprenticeship term (not more than four (4) months) during which the apprenticeship agreement may be terminated by either party, with full credit for this period toward completion of apprenticeship. The probationary period shall not exceed twenty-five (25) percent of the term of the apprenticeship or one (1) year, whichever is shorter;

(i) Grant of advance standing or credit for previously acquired experience, training skills, or aptitude for all applicants equally, with commensurate wages for any accorded progression step;

(j) The transfer of an apprentice between apprenticeship programs and within an apprenticeship program shall be based on agreement between the apprentice and the affected apprenticeship committees or program sponsors, and shall comply with the following requirements:

1. The transferring apprentice shall be provided a transcript of related instruction and on-the-job learning by the committee or program sponsor;

2. Transfer shall be to the same occupation; and

3. A new apprenticeship agreement shall be executed when the transfer occurs between program sponsors; transfer of employer’s training obligation to another employer, if warranted, with full credit to apprentice for satisfactory time and training earned;

(k) Assurance of qualified training personnel and adequate supervision on the job;

(l) The placement of an apprentice under an apprenticeship agreement as required by KRS Chapter 343 and 803 Chapter 1. The agreement shall directly, or by reference, incorporate the standards of the program as part of the agreement;

(m) The required minimum qualifications for persons entering an apprenticeship program, with an eligible starting age to be not less than sixteen (16) years;

(n) Recognition for successful completion of apprenticeship evidenced by an appropriate certificate issued by the registration agency;

(p) Program standards that utilize the competency-based or hybrid approach for progression through an apprenticeship and that choose to issue interim credentials shall clearly identify the interim credentials, demonstrate how these credentials link to the components of the apprenticeable occupation, and establish the process for assessing an individual apprentice’s demonstration of competency associated with the particular interim credential. Further, interim credentials shall only be issued for recognized components of an apprenticeable occupation, thereby linking interim credentials specifically to the knowledge, skills, and abilities associated with those components of the apprenticeable occupation.

(q) Identification of the registration agency;

[r][sq] Name and address of the appropriate authority under
the program to receive, process, and make disposition of complaints;  
(e)(e) Recording and maintenance of all records concerning apprenticeship as may be required by the state apprenticeship agency or other applicable law; and  
(f)(f) Provision that all controversies or differences shall be resolved in accordance with KRS 343.050(8).  

Section 4. Program Performance Standards. (1) Every registered apprenticeship program shall have at least one (1) registered apprentice, except for the following specified periods of time, which shall not exceed one (1) year:  
(a) Between the date when a program is registered and the date of registration for its first apprentice; or  
(b) Between the date that a program graduates an apprentice and the date of registration for the next apprentice in the program.  

(2) Registration agencies shall evaluate performance of registered apprenticeship programs.  
(a) The tools and factors to be used shall include, but are not limited to quality assurance assessments, equal employment opportunity (EEO) compliance reviews, and completion rates.  
(b) Any additional tools and factors used by the registration agency in evaluating program performance shall adhere to the goals and policies of the department articulated in this administrative regulation and in guidance issued by the Office of Apprenticeship.  

(3) In order to evaluate completion rates, the registration agency shall review a program’s completion rates in comparison to the national average for completion rates. Based on the review, the registration agency shall provide technical assistance to programs with completion rates lower than the national average.  

(4) Cancellation of apprenticeship agreements during the probationary period shall not have an adverse impact on a sponsor’s completion rate.  

Section 5. The apprenticeship agreement shall contain explicitly:  
(1) The information required by KRS 343.050;  
(2) The signatures required by KRS 343.060;  
(3) Name and address of the program sponsor and registration agency;  
(4) A reference incorporation as part of the agreement standards of the apprenticeship program as it exists on the date of the agreement and as it may be amended during the period of the agreement; and  
(5) A statement that the apprentice will be accorded equal opportunity in all phases of apprenticeship employment and training, without discrimination because of race, color, national origin, sex, or age.  

Section 6. Deregistration of a program may be initiated upon the voluntary action of the sponsor by request for cancellation of the registration, or upon a finding of good and sufficient reason by the supervisor instituting formal deregistration proceedings in accordance with the provisions of this section.  
(1) Request by sponsor. The supervisor may cancel the registration of an apprenticeship program for good and sufficient reason by written acknowledgment of the request stating, but not limited to, the following matters:  
(a) The registration is cancelled at sponsor’s request, the reason for the cancellation, and effective date; and  
(b) That, within fifteen (15) days of the date of the acknowledgment, the sponsor shall notify all apprentices:  
1. Of the cancellation, the reason for the cancellation, and the effective date;  
2. That the cancellation automatically deprives the apprentice of individual registration; and  
3. That the deregistration of the program removes the apprentice from coverage for state and federal purposes; and  
4. That all apprentices are referred to the registration agency for information about potential transfer to other registered apprenticeship programs.  
(2) Deregistration by the registration agency upon reasonable cause. Formal deregistration. Deregistration proceedings may be undertaken if the apprenticeship program is not conducted, operated, and administered in accordance with the registered provisions or the requirements of this administrative regulation, except that deregistration proceedings for violation of equal opportunity requirements shall be processed in accordance with the provisions in the Kentucky State Plan for equal employment opportunity in apprenticeship.  
(a) If it appears the program is not being operated in accordance with the registered standards or this administrative regulation, the supervisor shall so notify the program sponsor in writing. The notice shall be sent by certified mail, with return receipt requested. The notice shall state the violations and the remedy required, and that a determination of reasonable cause for deregistration will be made unless corrective action is effected within fifteen (15) days. Upon request by the sponsor for good cause, the fifteen (15) day term may be extended by the supervisor. During the period for correction, the sponsor shall be assisted in every reasonable way to achieve conformity. If the required correction is not effected within the allotted time, the supervisor shall send a notice to the sponsor, by certified mail, return receipt requested, stating the following:  
1. The notice is sent pursuant to this section;  
2. Certain deficiencies (stating them) were called to sponsor’s attention and remedial measures requested, with dates of the occasions and letters; and that the sponsor has failed or refused to effect correction; and  
3. Based upon the stated deficiencies and failure of remedy, a determination of reasonable cause has been made and the program may be deregistered unless, within fifteen (15) days of the receipt of this notice, the sponsor requests a hearing.  
(b) If a request for a hearing is not made, the supervisor shall issue a determination with respect to deregistration of the program.  
(c) If the sponsor has not requested a hearing, the supervisor shall file his determination with the commissioner[executive director]. This determination shall contain all pertinent facts and circumstances concerning the nonconformity, including the findings and copies of all relevant documents and records.  
(d) The supervisor’s determination shall become final in accordance with KRS 343.070.  
(e) If the sponsor requests a hearing, the commissioner[executive director] shall convene a hearing after due notice to the parties and shall make a final decision on the basis of the record before him.  
(f) Any party to the dispute aggrieved by the order or decision of the commissioner[executive director] may appeal in accordance with KRS 343.070.  

Section 7. The commissioner shall accord reciprocal approval for federal purposes to apprentices, apprenticeship programs, and standards that are registered in other states by the Office of Apprenticeship or a registration agency if reciprocity is requested by the apprenticeship program sponsor. Program sponsors seeking reciprocal approval shall meet the wage and hour provisions and apprentice ratio standards of the reciprocal state; and any apprenticeship programs and standards of employers and unions in other than the building and construction industry, which jointly form a sponsoring entity on a multistate basis and are registered pursuant to all requirements of this administrative regulation by any recognized state apprenticeship agency or by the bureau, shall be accorded registration or approved reciprocity by the supervisor if this reciprocity is requested by the sponsoring entity].

(a) What this administrative regulation does: It establishes standards for the registration of apprenticeship and training programs to the content of the authorizing statutes; Establishes standards for the registration of the apprentice, promoting apprenticeship opportunities, and providing policies and procedures to ensure safe and acceptable apprenticeship programs. It builds incentives for apprenticeship training, to assure the quality of the training provided, and create a workforce of well-trained tradespeople.
(b) The necessity of this administrative regulation: Authorizes the Commissioner to carry out the apprenticeship training program, thereby producing highly skilled workers who are able to meet the demands of employers who are competing in a highly competitive environment.
(c) How this administrative regulation conforms to the content of the authorizing statutes: Establishes standards for the registration of apprenticeship programs which provide safety for the apprentice, promotes apprenticeship opportunities, and provides for safe and acceptable apprenticeship programs which will produce skilled craftsmen and tradesmen.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: Authorizes the Commissioner to establish registration standards that meet federal and state standards for the safety of apprentices in the apprenticeship training program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: Amendment primarily updates the regulation which will incorporate name changes due to Governor Beshear’s issuance of Executive Order 2008-472 elevating the Labor Department to the Labor Cabinet. (i.e., "Executive Director" to "Commissioner")
(b) The necessity of the amendment to this administrative regulation: Due to the Labor Department being elevated to the Labor Cabinet, substantive changes regarding names and titles were required to be made. Additional safeguards regarding the registration of apprenticeship programs have been added to ensure all programs meet the federal and state standards.
(c) How the amendment conforms to the content of the authorizing statutes: Establishes registration standards for apprenticeship training and programs for the safety of the apprentice, for promoting apprenticeship opportunities, and for establishing safe and acceptable apprenticeship programs which will produce skilled craftsmen and tradesmen.
(d) How the amendment will assist in the effective administration of the statutes: Authorizes the Commissioner to carry out the apprenticeship training program, thereby producing highly skilled workers who are able to meet the demands of employers who are competing in a highly competitive environment.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Federal government and Kentucky state government. Employers, employer associations, apprentices and journeyworkers in the following sectors: construction, manufacturing, telecommunications, information technology/networking, service and retail industries, health care, public utilities, and public sector.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Same as previously with the addition of the following: Section 2(c) which provides for individual registration of apprentices under a registered program; Section 2(d) which establishes certification of person in probationary employment to the state apprenticeship agency; Section 3(b) establishes a time-based approach, competency-based approach, and a blend of the time-based approach and competency-based approach—hybrid approach to the measure a term of apprenticeship; and Section 4 which provides program performance standards.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The program sponsors will pay most of the training costs while also progressively increasing wages to their apprentices as they gain skills.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): For employers: Skilled workers trained to industry/employer specifications to produce quality results; reduced turnover; increased productivity; industry’s need to remain competitive by investing in the development and continuous upgrade of the skills of its workforce; reduced worker compensation costs due to an emphasis on safety training and compliance with federal and state equal opportunity requirements facilitated. For apprentices and journeyworkers: Jobs that usually pay higher wages; higher quality of life and skills versatility; portable credentials recognized nationally and often globally; and opportunities for college credit and future degrees.
(d) How the amendment will assist in the effective administration of apprenticeship programs and receipt of associated benefits: Hybrid approach to the measure a term of apprenticeship; and providing policies and procedures to ensure safe and acceptable apprenticeship programs. It builds incentives for apprenticeship training, to assure the quality of the training provided, and create a workforce of well-trained tradespeople.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: Employers or groups of employers and unions finance apprenticeship programs regardless of whether the programs are registered with the Commonwealth. Staff is already in place to administer the program. No additional costs are anticipated.
(b) On a continuing basis: As these changes are limited to regulatory criteria for administration, no additional costs are anticipated beyond funds in the current budget.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Employers or groups of employers and unions finance registered apprenticeship programs and the program sponsors will pay most of the training costs while also progressively increasing wages to their apprentices as they gain skills.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The Cabinet currently has two staff working to oversee the current statutory regime. No increase in fees or funding will be necessary as the changes requested are limited to registration requirements for recognition.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees are established directly or indirectly.

(9) TIERING: Is tiering applied? Tiering is not applied as registration of apprenticeship programs and receipt of associated benefits is voluntary. If an entity does not wish to have its apprenticeship program recognized by the Kentucky Labor Cabinet, it does not have to comply with the regulations.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative
regulation will be implemented by the Labor Cabinet but no state or local government entities currently maintain employer provided apprenticeship programs to their employees. No impact is expected to units, parts, or divisions of state or local government.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 343.020, KRS 336.015, KRS 336.040, KRS 343.010-343.090

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The effect of the amendment upon state and local government agency expenditures is expected to be negligible.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? None directly, but the efficient and effective enforcement of payment of wages could have an indeterminable positive effect on potential payroll taxes and reduction in public assistance benefits paid out.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None directly, but the efficient and effective enforcement of payment of wages would have an impact upon payroll taxes collected.

(c) How much will it cost to administer this program for the first year? The amendments should have a negligible change in cost to administer the program.

(d) How much will it cost to administer this program for subsequent years? The amendments should have a negligible change in cost to administer the program.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): There should be negligible change in revenues generated based upon the amendment to the administrative regulation. It is foreseeable some employers in the building and specialty trades will elect to increase their workforce size due to reduced wage costs for apprentices registered in a recognized apprenticeship program. To that extent, there could be indeterminable positive effect on potential payroll taxes.

Expenditures (+/-): There should be negligible change in expenditures based upon the amendment to the administrative regulation. It is foreseeable some employers in the building and specialty trades will elect to increase their workforce size due to reduced wage costs for apprentices registered in a recognized apprenticeship program. To that extent, there could be indeterminable positive effect on expenditures as more citizens enter the workforce.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 29 C.F.R. 28
2. State compliance standards. KRS Chapter 343
3. Minimum or uniform standards contained in the federal mandate. Registration program standards are established in federal law and mirrored in this administrative regulation.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No the requirements are the same.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation was reviewed by the Federal Department of Labor to ensure it matched standards established by Federal requirements contained in 29 C.F.R. § 29. The Commonwealth’s regulations were found to meet minimum requirements. Federal DOL has requested the Commonwealth amend 803 KAR 1:010 to incorporate more detailed information about program registration requirements, responsible stakeholders, provisional approval of new programs, methodologies for measuring apprentice progress through apprenticeship programs, transfer of time between apprenticeship programs, methods for delivery of apprenticeship education, instructor qualifications, and reciprocal recognition of apprenticeship programs. As these changes were suggested to bring the Commonwealth into compliance with existing Federal Department of Labor regulations, incorporation of the requested amendments to 803 KAR 1:010 will not impose stricter requirements or responsibilities on regulated entities than those required by Federal DOL.

(2) If a drug, medication, or substance is found to be present in a pre-race or post-race sample or possessed or used by a licensee at a location under the jurisdiction of the commission that is not classified in the schedule, the commission may establish a classification after consultation with either or both of the Association of Racing Commissioners International and the Racing and Medication Consortium or their respective successors.
(3) The judges and the commission shall consider any mitigating or aggravating circumstances properly presented when assessing penalties pursuant to this administrative regulation. (4) Pursuant to KRS 230.320, the commission may suspend or revoke the commission-issued license of an owner, trainer, veterinarian, or other licensee.
(5) A licensee whose license has been suspended or revoked in any racing jurisdiction or a horse that has been deemed ineligible to race in any racing jurisdiction shall be denied access to locations under the jurisdiction of the commission during the term of the suspension or revocation.

(13) If a person is charged with committing multiple or successive overages involving a Class C or Class D drug, medication, or substance, the judges or the commission may charge the person with only one (1) offense if the person demonstrates that he or she was not aware that overages were being administered because the positive test results showing the overages were unavailable to the person charged. In this case, the
person alleging that he or she was not aware of the overages shall bear the burden of proving that fact to the judges or the commission.

(14) If a penalty for a medication violation requires a horse to be placed on the judges’ list for a period of time, the judges may waive this requirement if ownership of the horse was legitimately transferred prior to the trainer’s notification by the commission of the positive result.

(15) Any person who has been fined under this administrative regulation shall be suspended until the fine has been paid in full.

(16)(45) A fine shall not be paid directly or indirectly by a person other than the person upon whom it is imposed and any payment made shall not serve to abate or satisfy any penalty imposed.

(17) Written or printed notice of the assessment of a penalty shall be made to the person penalized, notice shall be posted immediately at the office of the association, and notice shall be forwarded immediately to the office of the commission, the United States Trotting Association, and the Association of Racing Commissioners International by the presiding judge or clerk of the course.

(21)(49) An association shall not willfully allow the use of its track or grounds by a licensee whose license has been suspended or revoked, or a horse that has been suspended.

(22)(50) If a person is excluded from a pari-mutuel association by the association, the commission shall be notified.

(23)(51) A person subject to current suspension, revocation, or expulsion shall not act as an officer of an association. An association shall not, after receiving notice of the penalty, employ or retain in its employ an expelled, suspended, disqualified, or excluded person at or on the track during the progress of a race meeting.

(24)(52) A licensee that has been suspended shall serve any suspension imposed:

(a) During the current race meet, if there are enough remaining days to serve out the suspension;

(b) During the next regularly scheduled race meet at the operating race track where the infraction took place if there are not enough remaining days to serve out the suspension; or

(c) During a race meet at another operating track in this state where the licensee seeks to engage in the activity for which he or she is licensed if the track where the infraction took place closes before another race meet is held at that track.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Susan B. Speckert

(1) Provide a brief summary of:

(a) The administrative regulation being considered;

(b) The necessity of this administrative regulation:

(2) The regulatory impact analysis and tiering statement:

(a) How this administrative regulation conforms to the content of the authorizing statute: KRS 230.215(2) mandates that the commission establish the conditions under which thoroughbred racing and pari-mutuel wagering thereon shall be conducted in Kentucky and charges it to, "promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth..." KRS 230.240(2) states that, "[t]he commission is hereby declared the purpose and intent of this chapter in the interest of the public health, safety, and welfare, to vest in the racing commission forceful control of horse racing in the Commonwealth with plenary power to promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth..." Without this administrative regulation, the commission would be unable to fulfill the statutory mandates set forth above.

(b) The necessity of this administrative regulation:

(3) How this administrative regulation currently assists or will assist in the effective administration of the statutes: KRS 230.215 articulates the commission’s statutory mandate to regulate horse racing in Kentucky "free of any corrupt, incompetent, dishonest, or unprinciplined horse racing practices, and to regulate and maintain horse racing at race meetings in the Commonwealth so as to dissipate any cloud of association with the undesirable and maintain the appearance as well as the fact of complete honesty and integrity of horse racing in the Commonwealth." See KRS 230.215.
restricting or prohibiting the administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendments make the penalty rule more consistent with the Model Rules issued by the Association of Racing Commissioners International, the umbrella organization for horse racing regulators in North America. To make the regulation clearer and more user-friendly, the penalties are presented in a chart. If a penalty for a medication violation requires a horse to be placed on the stewards' list, the stewards may waive this requirement if the ownership of the horse was legitimately transferred prior to the trainer's notification by the commission of the positive test result. The amendments create a new form and require claimants who choose to have a claimed horse tested to complete the form and include the form in the claim envelope. The form must be filled out completely and included in the claim envelope in order for the request to be valid.
(b) The necessity of the amendment to this administrative regulation: The amendments are necessary to ensure that our penalties are appropriate and clear. The amendments help provide a fair and effective mechanism for enforcing KHRC rules and regulations.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which thoroughbred racing and pari-mutuel wagering thereon shall be conducted in Kentucky and charges it to, “promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth.” KRS 230.240(2) requires the commission to promulgate administrative regulations restricting or prohibiting the administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations.
(d) How the amendment will assist in the effective administration of the statute: This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect all participants in horse racing in Kentucky, including owners, trainers, jockeys, and the commission.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The amendments to this regulation will not require any particular action on the part of regulated entities. It provides notice to those entities of the potential penalties associated with a rule or regulation violation.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There are no costs associated with this regulation.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The amendments establish a fair penalty structure consistent with the Model Rules and presents the penalties in a clear and easy-to-understand format. This regulation provides notice to participants of the potential penalties associated with a rule or regulation violation.

A licensee may provide evidence to the stewards or the commission that the licensee complied fully with the withdrawal guidelines as a mitigating factor.

(3) The commission may suspend or revoke the commission-issued license of an owner, trainer, veterinarian, or other licensee.

(4) A licensee whose license has been suspended or revoked in any racing jurisdiction or a horse that has been deemed ineligible to race in any racing jurisdiction, shall be denied access to locations under the jurisdiction of the commission during the term of the suspension or revocation.

(5) A suspension or revocation shall be calculated in Kentucky racing days, unless otherwise specified by the stewards or the commission in a ruling or order.

(6) A person assessed any penalty, including a written warning, pursuant to this administrative regulation shall have his or her name and the terms of his or her penalty placed on the official Web site of the commission and the Association of Racing Commissioners International, or its successor. If an appeal is pending, that fact shall be so noted.

(7) A horse administered a substance in violation of 811 KAR 2:096 may be required to pass a commission-approved examination as determined by the stewards pursuant to 811 KAR 2:065, Section 10, or be placed on the veterinarian's list pursuant to 811 KAR 2:096, Section 18.

(b) A person who claims a horse may be tested for the presence of prohibited substances if the claimant completes the Request for Pest Race Testing of Claimed Horse form and includes the form in the claim envelope, which is required the test when the claim form is completed and deposited in the association's claim box. The request shall not be valid if the form is not filled out completely and included in the claim envelope. The claimant shall bear the costs of the test. The results of the test shall be reported to the chief state steward.

(8) A person who claims a horse may void the claim if the post-race or TCO2 test indicates a Class A, B, or C drug violation, or a total carbon dioxide (TCO2) level exceeding 37.0 millimoles per liter. If the claim is voided, the person claiming the horse shall then be entitled to reimbursement from the previous owner of all reasonable costs associated with the claiming process and the post-race or TCO2 testing, including the costs of transportation, board, training, veterinary or other medical services, testing, and any other customary or associated costs.

(9) While awaiting test results, a claimant:
   1. Shall exercise due care in maintaining and boarding a claimed horse; and
   2. Shall not materially alter a claimed horse.

(10) To protect the racing public and ensure the integrity of racing in Kentucky, a trainer whose penalty for a Class A violation or a Class B third offense violation has not been fully and finally adjudicated may, if stall space is available, be required to house a horse that the trainer has entered in a race in a designated stall for the twenty-four (24) hour period prior to post time of the race in which the horse is entered. If the stewards require the trainer's horse to be kept in a designated stall, there shall be twenty-four (24) hour surveillance of the horse by the association, and the cost shall be borne by the trainer.

(11) In addition to the penalties contained in Section 4 of this administrative regulation for the trainer and owner, any other person who administers, is a party to, facilitates, or is found to be responsible for any violation of 811 KAR 2:096 shall be subject to the relevant penalty as provided for the trainer or other penalty as may be appropriate based upon the violation.

(12) An administrative action or the imposition of penalties pursuant to this administrative regulation shall not constitute a basis or be considered jeopardy to prosecution of an act that violates the criminal statutes of Kentucky.

(13) If a person is charged with committing multiple or successive overages involving a Class C or D drug, the stewards or the commission may charge the person with only one (1) offense if the person demonstrates that he or she was not aware that overages were being administered because the positive test results showing the overages were unavailable to the person charged. In this case, the person alleging that he or she was not aware of the overages shall bear the burden of proving that fact to the stewards or the commission.

(14) If a penalty for a medication violation requires a horse to be placed on the stewards' list for a period of time, the stewards may waive this requirement if ownership of the horse was legitimately transferred prior to the trainer's notification by the commission of the positive test result.

Section 3. Prior Offenses. A prior offense occurring in Kentucky or any other racing jurisdiction shall be considered by the stewards and by the commission in assessing penalties. The stewards shall attach to a penalty judgment a copy of the offender's prior record containing violations that were committed.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Susan B. Speckert

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes penalties for violations of 811 KAR 2:096 and other regulations and statutes thereby giving licensees and other participants notice of consequences of violations.

(b) The necessity of this administrative regulation: This regulation is necessary to fulfill the statutory mandates found in KRS 230.215(2) and KRS 230.240(2). KRS 230.215(2) states that, “[t]he commission establish the conditions under which all legitimate horse racing and wagering thereon shall be conducted in Kentucky and charges it to, “promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth.” KRS 230.240(2) further requires the commission to promulgate administrative regulations restricting or prohibiting the administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations. Along with KRS 230.215(2) mandates that the commission shall promulgate administrative regulations for effectively preventing the use of improper devices, and restricting or prohibiting the use and administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. Without this administrative regulation, the commission would be unable to fulfill the statutory mandates set forth above.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 230.215(2) mandates that the commission establish the conditions under which Quarter Horse, Appaloosa and Arabian racing and pari-mutuel wagering thereon shall be conducted in Kentucky and charges it to, "promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth." KRS 230.240(2) requires the commission to promulgate administrative regulations restricting or prohibiting the administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations.

(d) How the amendment will assist in the effective administration of the statute: This regulation helps provide a fair and effective mechanism for enforcing KHRC rules and regulations.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) The amendment will change this existing administrative regulation: The amendments make the penalty rule more consistent with the Model Rules issued by the Association of Racing Commissioners International, the umbrella organization for horse racing regulators in North America. To make the regulation clearer and more user-friendly, the penalties are presented in a chart. If a penalty for a medication violation requires a horse to be placed on the stewards’ list, the stewards may waive this requirement if the ownership of the horse was legitimately transferred prior to the trainer’s notification by the commission of the positive test result. The amendments create a new form and require claimants who choose to have a claimed horse tested to complete the form and include the form in the claim envelope. The form must be filled out completely and included in the claim envelope in order for the request to be valid.

(b) The necessity of the amendment to this administrative regulation: The amendments are necessary to ensure that our penalties are appropriate and clear. The amendments help provide a fair and effective mechanism for enforcing KHRC rules and regulations.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which Quarter Horse, Appaloosa and Arabian racing and pari-mutuel wagering thereon shall be conducted in Kentucky and charges it to, "promulgate administrative regulations prescribing conditions under which all legitimate horse racing and wagering thereon is conducted in the Commonwealth." KRS 230.240(2) requires the commission to promulgate administrative regulations restricting or prohibiting the administration of drugs or stimulants or other improper acts to horses prior to the horse participating in a race. This regulation enables the commission to fulfill its statutory mandates by providing a means to enforce its rules and regulations.

(d) How the amendment will assist in the effective administration of the statute: The amendments establish a fair penalty structure consistent with the Model Rules and presents the penalties in a clear and easy-to-understand format. This regulation provides notice to participants of the potential penalties associated with a rule or regulation violation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect all participants in horse racing in Kentucky, including owners, trainers, jockeys, and the commission.

(a) Initially: There are no costs associated with implementing this administrative regulation.

(b) As a result of compliance, what benefits will accrue to the entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The amendments established any fees or directly or indirectly increased any fees: the amendments establish a fair penalty structure consistent with the Model Rules and presents the penalties in a clear and easy-to-understand format. This regulation provides notice to participants of the potential penalties associated with a rule or regulation violation.

(4) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) There are no costs associated with implementing this administrative regulation.

(b) On a continuing basis: There are no costs associated with implementing this administrative regulation.

(5) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: N/A.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the uniform Kentucky Building Code as required pursuant to KRS 198B.050.

(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to adopt the Kentucky Building Code as required pursuant to KRS 198B.050.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation utilizes the International Building Code as the basis for construction standards and allows the Board of Housing, Buildings and Construction to make amendments unique to Kentucky after due consideration of equivalent safety measures as required by KRS 198B.050.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The regulation sets forth standards authorized by the statute for the enforcement of the uniform state building code, incorporating all applicable laws into uniform processes.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Updates the 2013 Kentucky Building Code to increase the basic plan review and inspection fee for each type of building occupancy by approximately fourteen (14) percent; increase the costs associated with plan review and inspection for alterations or repairs from $0.0025 to $0.0030; and revise the minimum plan review fee from $250 to $285.

(b) The necessity of the amendment to this administrative regulation: The primary reason for the proposed fee increases is significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. In addition, the Division of Building Code Enforcement is already no longer generating sufficient revenue to sustain its existing fixed expenditures necessary to maintain a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support the existing plan review and inspection program.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 198B.050 mandates the Board of Housing, Buildings and Construction to establish a uniform Kentucky Building Code, and KRS 198B.080 authorizes the Board to amend the Code at any time. KRS 198B.060 authorizes the Department to establish a schedule of fees for the functions performed under KRS Chapter 198B. These fee increases were unanimously approved for amendment by the Board on August 21, 2014.

(d) How the amendment will assist in the effective administration of the statutes: This amendment to the Kentucky Building Code is necessary to generate the revenue required for the Division of BCE to maintain its current level of services and sustain its statutorily-mandated plan review and inspection program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All construction projects subject to plan review and inspection under the Kentucky Building Code will be affected by the amendments to this regulation; architects; engineers; contractors; project managers; businesses; and local government.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: This amendment does not require new action by building industry tradespersons. It merely updates the existing fees required for the Division’s plan review and inspection program.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Individuals or contractor entities engaged in building construction and related activities subject to state plan review and inspection will have to pay the appropriate fee from this amended schedule, which sum may vary depending upon the type of occupancy and size of the project.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include continued ability to obtain plan approval and inspections at the current time intervals and level of service.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There are no anticipated additional costs to administer these regulatory amendments.

(b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of these administrative regulations is anticipated to result in no additional costs to the agency. Any agency costs resulting from these administrative amendments will be met with existing agency funds, including receipts from the amended fees proposed herein.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment increases a) the existing schedule of fees for building plan review and inspection. These increases are necessary to cover significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. OSBD has increased projected Current Receipts for FY15 and FY16 in anticipation of these proposed increases so that expenditures could be covered. In addition, even without these increased expenses, the Division already no longer generates sufficient revenue to sustain its existing expenditures necessary to maintain a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support existing programs with no increase in staffing levels and will more closely bring revenues in line with existing expenditures to cover the agency’s current level of service and actual costs to administer its statutorily-mandated plan review and inspection program.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: See #7 above.

(9) TIERING: Is tiering applied? Tiering is not applied as all buildings, contractors, local governments and owners will be subject to the amended requirements.

Any person who wishes to be heard will be given an opportunity to present their comments on the proposed administrative regulation. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis
(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the application, examination and renewal requirements and fees for master HVAC contractors.

(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to promulgate administrative regulations necessary to enforce the provisions of KRS 198B.650 to 198B.699; specifically, the licensing requirements of KRS 198B.656, qualification requirements of KRS 198B.658 and 198B.659, the examination requirements of KRS 198B.660 and the renewal, restoration, reinstatement and reactivation requirements of KRS 198B.664.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 198B.650 to 198B.664 incorporates the board of HVAC to promulgate administrative regulations necessary to enforce the provisions of KRS 198B.650 to 198B.699; KRS 198B.658 establishes qualifications for licensure and requires the Board to prescribe licensing examinations and promulgate licensing fees; KRS 198B.664 establishes renewal, restoration, reactivation and inactive requirements, requires the board to promulgate fees associated therewith, and authorizes the board to establish additional qualifications and requirements by administrative regulation; KRS 198B.664 authorizes the board to promulgate an administrative regulation with standards for continuing education.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation directly implements the authorizing statutes and establishes the licensing, examination and renewal requirements for master HVAC contractors to be administered by
level of service.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There are no anticipated additional costs to administer these regulatory amendments.

(b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of these amendments is anticipated to result in no additional costs to the agency. Any agency costs resulting from these administrative amendments will be met with existing agency funds, including those generated by this amendment.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: An increase in fees is necessary to cover significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. OSBD has increased projected Current Receipts for FY15 and FY16 in anticipation of these proposed increases so that expenditures could be covered while maintaining a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support existing programs with no increase in staffing levels and will more closely bring revenues in line with existing expenditures to cover the agency’s current level of service and actual costs to administer its statutorily-mandated permitting, inspection and enforcement program.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: 13 RS HB 337 GA newly establishes an optional process for license reinstatement upon payment of a reinstatement fee, which has not previously been established. Accordingly, this amendment establishes that fee, which merely equates to what the existing annual renewal fee would have been had the licensee maintained his or her license in a timely fashion in accordance with existing requirements. See also #7 above.

(9) TIERING: Is tiering applied? Tiering is not applied as all master HVAC licensees will be subject to the amended requirements.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the application, examination and renewal requirements and fees for journeyman HVAC mechanics.

(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to implement KRS Chapter 198B.650 to 198B.689; specifically, the licensing requirements of KRS 198B.656, qualification requirements of KRS 198B.658 and 198B.659, the examination requirements of KRS 198B.660 and the renewal, restoration, reinstatement and revocation requirements of KRS 198B.664.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 198B.654(1) requires the board of HVAC to promulgate administrative regulations necessary to enforce the provisions of KRS 198B.650 to 198B.689; KRS 198B.658 establishes qualifications for licensure and requires the board to prescribe licensing examinations and promulgate licensing fees; KRS 198B.664 establishes renewal, restoration, reinstatement and inactive requirements, requires the board to promulgate fees associated therewith, and authorizes the board to establish additional qualifications and requirements by administrative regulation; KRS 198B.684 authorizes the board to promulgate an administrative regulation with standards for continuing education.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation directly implements the authorizing statutes and establishes the licensing, examination and renewal requirements for journeyman HVAC mechanics to be administered by the Division of HVAC.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment implements recently-enacted 13 RS HB 337 GA, which expanded the qualifications for licensure of master HVAC contractors and journeyman HVAC mechanics and amended renewal requirements to allow a sixty (60)-day grace period before the termination of a license as well as a limited means to reactivate a terminated license without having to reapply for a new license and examination. This amendment also deletes now outdated and unused language regarding application to the Division of HVAC for licensing examinations, which are now administered by approved third party testing facilities. In addition, this amendment extends to a journeyman HVAC mechanic the same option to place his or her license into inactive status as is currently afforded to master HVAC contractors, for the same fee as is applicable to that existing service. Finally, this amendment establishes the reinstatement fee required by KRS 198B.664(4) as well as the inactive status fee, and increases the existing fee associated with the issuance of a duplicate license.

(b) The necessity of the amendment to this administrative regulation: To comply with 13 RS HB 337 GA, conform the regulation to the Division of HVAC's current examination program, provide greater uniformity between HVAC licensing options, and generate sufficient revenue to sustain the administrative cost at the associated services being provided and still maintain a minimum level and quality of statewide service without an increase in staffing.
levels.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment directly implements the new provisions of 13 RS HB 337 GA, which relates to the qualifications for HVAC licensure, examination, renewal, restoration and reinstatement. This amendment also directly conforms to existing statutory authority to establish reasonable fees for the services and functions performed by the division pursuant to this administrative regulation.

(d) How the amendment will assist in the effective administration of the statute: This amendment is necessary to implement 13 RS HB 337 GA, which has expanded HVAC licensing and renewal qualifications beyond the current scope of this administrative regulation. Additionally, the fees established or increased by this amendment will provide the necessary funding for the Division of HVAC to perform the new administrative services associated with the fee.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals engaged in the HVAC trade as a journeyman or mechanic within the Commonwealth.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: This regulation or amendment does not require new action by HVAC tradespersons. Rather, the identified entities will now be able to rely on appropriate out-of-state or military work experience to satisfy the requirements for licensure, will have a longer period of time after the expiration of a license to reactivate the license without having to submit to a new examination, and the option to avoid the need for restoration or reinstatement by voluntarily placing the license in inactive status. However, regulated entities will be required to observe the revised fees reflected in this amendment if applicable to the voluntary service they are requesting.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Affected entities are not anticipated to incur any substantial new expenses with respect to the newly expanded work experience qualifications. However, with respect to the license reinstatement, the affected entities will be required to pay the associated fees, which are equivalent to what would have already been required to maintain timely renewal of licensure under existing provisions. In addition, affected entities choosing to place the license in inactive status will be expected to pay the applicable inactive fee and, if applicable, reactivation fee, and a person seeking to reactivate a fee-based license will be expected to pay the revised fee for that service.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include increased opportunities to obtain licensure as well as increased opportunities to preserve or regain licensure.

(5) Provide an estimate of how much it will cost to implement this administrative regulation or amendment:

(a) Initially: There are no anticipated additional costs to administer these regulatory amendments.

(b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of these amendments is anticipated to result in no additional costs to the agency. Any agency costs resulting from these administrative amendments will be met with existing agency funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment increases the existing fee for issuance of a duplicate license from ten (10) dollars to twenty (20) dollars. This increase is necessary to offset the actual administrative costs of the service and thereby minimize the effect of significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. OSBD has increased projected Current Receipts for FY15 and FY16 in anticipation of this and other HVAC-related proposed increases so that expenditures could be covered while maintaining a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support the actual costs of the existing service without drawing from other division revenues, and thereby contribute toward the division’s efforts to more closely bring revenues in line with existing expenditures to administer its statutorily-mandated permitting, inspection and enforcement program.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: 13 RS HB 337 GA newly establishes an optional process for license reinstatement upon payment of a reinstatement fee, as well as makes inactive status newly available to journeyman mechanics, for neither of which has a fee been previously established. Accordingly, this amendment establishes those fees, which in the case of reinstatement merely equates to what the existing annual renewal fee would have been had the licensee maintained his or her license in a timely fashion in accordance with existing requirements, and in the case of inactivity merely mirrors the inactive and reactivation fees applicable to master HVAC contractors. See also #7 above.

(9) TIERING: Is tiering applied? Tiering is not applied as all journeyman HVAC licensees will be subject to the amended requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department of Housing, Buildings and Construction, Division of HVAC.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. This regulation is authorized by KRS 198B.654 and 198B.658.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment is not anticipated to generate significant additional revenues for the agency; rather, this amendment is anticipated to result in a loss of journeyman license renewal revenue to the extent of those existing licensees who choose to inactivate the license for the lower fee.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment is not anticipated to generate significant additional revenues for the agency; rather, this amendment is anticipated to result in a loss of journeyman license renewal revenue to the extent of those existing licensees who choose to inactivate the license for the lower fee.

(c) How much will it cost to administer this program for the first year? There are no anticipated additional costs to administer this regulatory amendment.

(d) How much will it cost to administer this program for subsequent years? There are no anticipated additional costs to administer this regulatory amendment.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis
(1) Provide a brief summary of:
   (a) What this administrative regulation does: This
administrative regulation establishes the process for continuing
education provider registration and course approval.
   (b) The necessity of this administrative regulation: This
administrative regulation is necessary in order to implement KRS
Chapter 198B.650 to 198B.689: specifically, the regulatory
authority of the Board of HVAC Contractors over continuing
education requirements for HVAC licensees and certificate holders
established in KRS 198B.684.
   (c) How this administrative regulation conforms to the content
of the authorizing statutes: KRS 198B.684 authorizes the Board to
promulgate administrative regulations governing the standards for
continuing education for HVAC licensees and certificate holders.
   (d) How this administrative regulation currently assists or will
assist in the effective administration of the statutes: This
administrative regulation directly implements the authorizing
statutes and establishes the continuing education requirements for
licensees and certificate holders authorized by KRS 198B.684.
   (2) If this is an amendment to an existing administrative
regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative
regulation: This amendment establishes a continuing education
provider registrations fee necessary to offset the administrative
costs associated with processing such applications and
implementing the continuing education program.
   (b) The necessity of the amendment to this administrative
regulation: The new fee is calculated to generate sufficient revenue
to sustain the administrative cost of the associated services being
provided and still maintain a minimum level and quality of
staffing to continue complying with the current staffing levels.
   (c) How the amendment conforms to the content of the
authorizing statutes: This amendment implements the fee
approved by the board consistent with the board’s mandate in KRS
198B.684.
   (d) How the amendment will assist in the effective
administration of the statutes: The fee established by this
amendment will provide the necessary funding for the Division of
HVAC to continue performing the administrative services
associated with the fee.
   (3) List the type and number of individuals, businesses,
organizations, or state and local governments affected by this
administrative regulation: All individuals and entities engaged in
providing HVAC continuing education for Kentucky licensees and
certificate holders.
   (4) Provide an analysis of how the entities identified in question
(3) will be impacted by either the implementation of this
administrative regulation, if new, or by the change, if it is an
amendment, including:
   (a) List the actions that each of the regulated entities identified
in question (3) will have to comply with this administrative
regulation or amendment: This regulation does not require new
action by HVAC continuing education providers. It merely
establishes a registration fee to cover the administrative costs to
the Division of HVAC in managing the existing registration
program.
   (b) In complying with this administrative regulation or
amendment, how much will it cost each of the entities identified in
question (3): Each continuing education course provider will be
required to pay a $125 registration fee with each registration. Per
815 KAR 8:060, Section 1(2)(b), the registration is valid for two (2)
years. The fee must be submitted with each new registration.
   (c) As a result of compliance, what benefits will accrue to the
entities identified in question (3): The primary benefit of the new
fee will be the ability to the Division of HVAC to continue managing
the provider registration program as required by this regulation.
   (5) Provide an estimate of how much it will cost to implement
this administrative regulation:
   (a) Initially: There are no anticipated additional costs to
administer this amendment.
   (b) On a continuing basis: There are no anticipated additional
costs to administer this regulatory amendment.
   (6) What is the source of the funding to be used for the
implementation and enforcement of this administrative regulation:
Implementation of these amendments is anticipated to require any
additional funding other than the fee proposed herein. This
amendment will serve as the additional source of funding for maintaining the Division of HVAC’s current level of service regarding registration of continuing education providers. It is not anticipated that any other source of funding will be required for implementation and enforcement.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment establishes a new registration fee in order to fund the current Division of HVAC administrative functions implemented by this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation establishes a new registration fee of $125 applicable to all HVAC continuing education providers. This increase is necessary to offset the actual administrative costs of the service and thereby minimize the effect of significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and thereby contribute toward the Division’s increased projected Current Receipts for FY15 and FY16 in anticipation of this and other HVAC-related proposed increases so that expenditures could be covered while maintaining a minimum level and quality of statewide service. The additional revenue generated from the new fee increases will be used to support the actual costs of the existing service without drawing from other division revenues, and thereby help to offset the Division’s efforts to more closely bring revenues in line with existing expenditures to administer its statutorily-mandated permitting, inspection and enforcement program.

(9) TIERING: Is tiering applied? Tiering is not applied as all counties, fire departments, or school districts will be impacted by this administrative regulation? The Department of Housing, Buildings and Construction, Division of HVAC.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Michael T. Davis
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the permit and inspection fees for HVAC installations.
(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to implement KRS Chapter 198B.650 to 198B.689; specifically, the permit requirements of KRS 198B.6671 and the fee requirements of KRS 198B.6673.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 198B.654(1) requires the Board of HVAC to promulgate administrative regulations necessary to enforce the provisions of KRS 198B.650 to 198B.689; KRS 198B.6671 requires permits prior to the installation an initial HVAC system; KRS 198B.6673 requires the Board to establish a reasonable schedule of fees to implement the HVAC permitting and inspection program.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment increases the HVAC initial system installation permit fees applicable to one (1) or two (2)-family dwellings, multifamily dwellings, and commercial buildings, as well as the additional system permit fee for multifamily dwellings.
(b) The necessity of the amendment to this administrative regulation: The new fees are calculated to generate sufficient revenue to sustain the administrative cost of the HVAC Division’s permitting, inspection and enforcement programs. The necessity of this amendment is to effectuate the Board’s mandate in KRS 198B.6673.
(c) How this amendment conforms to the content of the authorizing statutes: This amendment implements the fees approved by the Board consistent with the Board’s mandate in KRS 198B.6673.
(d) How the amendment will assist in the effective administration of the statutes: This amendment is necessary to generate the revenue required for the Division of HVAC to maintain its current level of services and maintain its statutorily-mandated permitting, inspection and enforcement programs.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals and entities engaged in the HVAC trade, and all individuals and organizations installing an HVAC system subject to permitting, as well as local governments approved by this agency to directly conduct that jurisdiction’s HVAC permitting and inspection programs.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: This regulation does not require new action by HVAC tradespersons. It merely updates the fees required for the Division’s existing permitting program.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Individuals or contractor entities installing systems subject to the fee increases implemented in this regulation will have to pay the new fees from this amended schedule.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include maintaining the ability to obtain HVAC permits and inspections at the current time intervals and level of service. These fee increases will not expand the current program of permitting and inspections.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: There are no anticipated additional costs to administer these regulatory amendments.
(b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of these amendments is not anticipated to require any additional funding other than the revised fee schedule proposed herein. These amendments will serve as the source of funding for maintaining the Division of HVAC’s current level of service.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment increases certain existing fees in order to offset the actual costs of the Division in administering its permitting and inspection program. This increase is necessary to cover significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. OSBD has increased projected Current Receipts for FY15 and FY16 in anticipation of these proposed increases to expenditures could be covered while maintaining a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support existing programs with no increase in staffing levels and will more closely bring revenues in line with existing expenditures to cover the agency’s current level of service and actual costs to administer its statutorily-mandated permitting, inspection and enforcement programs.
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish any fees, but does directly increase certain permitting fees.
(9) TIERING: Is tiering applied? Tiering is not applied as all individuals seeking HVAC permits will be subject to the amended fees where applicable.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the process for paying fees to the Division of HVAC and the fee for returned checks.
(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to implement KRS Chapters 198B.650 to 198B.689; specifically, the payment and collection of all fees authorized by KRS 198B.650 to 198B.689 and all administrative regulations promulgated thereunder.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 198B.654(1) requires the Board of HVAC to promulgate administrative regulations necessary to enforce the provisions of KRS 198B.650 to 198B.689; KRS 198B.650 to 198B.689 and the administrative regulations promulgated thereunder authorize the collection of various fees to fund the Division of HVAC for its enforcement of this range of statutes and regulations.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation directly implements the authorizing statutes and establishes the procedures for payment of fees and refunds of those fees in the authorizing statutes.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment increases the existing fee for the return of a submitted payment due to insufficient funds from thirty-five (35) dollars to fifty (50) dollars, in order to more closely cover the actual administrative cost or processing and collecting a returned payment.
(b) The necessity of the amendment to this administrative regulation: To provide adequate revenue to maintain the current level of services provided by the Division of HVAC.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment increases the existing returned check fee approved by the board consistent with the Board’s mandate in KRS 198B.6673.
(d) How the amendment will assist in the effective administration of the statutes: This amendment is necessary to generate the revenue required for the Division of HVAC to maintain the current services of its administrative program.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals and entities engaged in the HVAC trade, and all individuals and organizations installing an HVAC system subject to permitting or engaged in HVAC continuing education, and who submit any sort of Division-established fee by means other than currency or cashier’s check.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including;
(a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: This regulation does not require new action by HVAC tradespersons. It merely revises the existing fee associated with the return of a submitted fee as the result of nonpayment or insufficient funds.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Individuals who pay fees to the Division of HVAC and who fail to ensure adequate funds to cover the payment method submitted to pay the fee will be subject to an increased returned check fee of fifty ($50) dollars rather than thirty-five ($35) dollars.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include maintaining the ability to obtain Division of HVAC services at the current time intervals. This fee increase will not expand the current Division of HVAC programs.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There are no anticipated additional costs to administer these regulatory amendments.

(b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of this amendment is not anticipated to require any additional funding. This amendment will serve as a source of funding for maintaining the Division of HVAC's current level of service.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment increases the existing fee for the return of a submitted payment due to insufficient funds from thirty-five ($35) dollars to fifty ($50) dollars. This increase is necessary to offset the actual administrative costs of the service and thereby contribute toward the decreased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC), the Commonwealth Office of Technology (COT), enacted employee raises, and rising employee healthcare costs. OSBD has increased projected Current Receipts for FY15 and FY16 in anticipation of this and other HVAC-related proposed increases so that expenditures could be covered while maintaining a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increases will be used to support the actual costs of the existing service without drawing from other division revenues, and thereby contribute toward the division's efforts to more closely bring revenues in line with existing expenditures to administer its statutorily-mandated permitting, inspection and enforcement program.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does establish any fees, but does directly increase the returned check/payment fee at Section 2(1).

(9) TIERING: Is tiering applied? Tiering is not applied as all individuals making payments to the Division of HVAC will be subject to the amended fee.

Finally, this amendment revises the referenced application forms to make non-substantive corrections and provide clarifying language regarding the submission of payment and attachment of documentary proof.
      b) The necessity of the amendment to this administrative regulation: To provide consistency among both license types regarding the voluntary suspension of licensing activity and to establish clear limits and guidelines regarding the processing of applications and reexaminations.
      c) How the amendment conforms to the content of the authorizing statutes: This amendment directly conforms to the statutes’ mandate that the department prescribe the qualifications for licensure and prescribe fees for licenses, examinations and renewals.
      d) How the amendment will assist in the effective administration of the statutes: This amendment will enhance uniformity in the administration of inactive plumbing licenses and provide clarity and notice to applicants regarding the completion of the application process upon the receipt of a failed examination or portion thereof.
      e) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All plumbing licensees and applicants.
   f) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
      a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: The identified entities must comply with the new application procedures for reexamination or in order to place his or her license into inactive status.
      b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Affected entities must pay the applicable examination fee for each scheduled reexamination ($150 for a master, fifty (50) dollars for a journeyman), and journeyman plumbers must pay thirty (30) dollars to place or keep his or her license in inactive status.
      c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include increased opportunities to retake license examinations without restarting the entire application process, and to voluntarily suspend licensing status during times of trade inactivity.
      d) Provide an estimate of how much it will cost to implement this administrative regulation:
         a) Initially: There are no anticipated additional costs to administer these regulatory amendments.
         b) On a continuing basis: There are no anticipated additional costs to administer these regulatory amendments.
      e) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of these amendments is anticipated to result in no additional costs to the agency. Any agency costs that are not reimbursed by the associated fees established by this amendment will be met with existing agency funds.
      f) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment will not necessitate an increase in existing fees or require funding to the department for implementation.
      g) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment establishes a thirty (30) dollar fee for the new option for a journeyman plumber to voluntarily place his or her license into inactive status. This fee is one-half (1/2) of the existing fee currently required for a journeyman to annually renew his or her license. Therefore, since any existing licensee who may elect to apply for inactive status is currently paying the full applicable annual renewal fee, any use of this fee will in fact result a lowered fee to the licensee and in reduced overall licensing revenue.
      h) TIERING: Is tiering applied? Tiering is not applied as all licensees and applicants will be equally subject to the amended requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department of Housing, Buildings and Construction, Division of Plumbing.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Michael T. Davis

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the requirements, fees and charges for plumbing installation permits and inspections in Kentucky.
(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to implement the Division of Plumbing’s duty to administer and enforce uniform standards for the permitting and inspection of plumbing work. The law requires this administrative regulation to conform to the content of the authorizing statutes: KRS 318.134(3) requires the department to establish a reasonable schedule of fees and charges to be paid for plumbing installation permits and the necessary inspections incident thereto.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation assists Division of Plumbing in establishing uniform guidelines for the permitting and inspection fees to be charged in performing its oversight role over plumbing work in Kentucky.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment increases the “per opening” portion of the commercial plumbing installation permit fee from forty-five (45) dollars plus ten (10) dollars per opening to forty-five (45) dollars plus fifteen (15) dollars per opening.
(b) The necessity of the amendment to this administrative regulation: The primary reason for the fee increase is significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC) and the Commonwealth Office of Technology (COT); however, the Division is already no longer generating sufficient revenue to sustain its existing expenditures necessary to maintain a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increase will be used to support existing programs with no increase in staffing levels and will more closely bring revenues in line with existing expenditures to cover the agency’s current level of service.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 318.130 permits the department to adopt any reasonable rule or regulation to administer the provisions of Chapter 318.
(d) How the amendment will assist in the effective administration of the statutes: This amendment will help enable the Division to continue operating at the current level of service with no increase in staffing levels, and raise revenues to more closely match existing expenditures.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals engaged in commercial plumbing activity within the Commonwealth for which a permit is required.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to comply with this administrative regulation or amendment: This amendment requires the affected parties to pay the applicable permit fee associated with a commercial plumbing installation project.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The potential cost to individual affected entities will vary depending upon the size and nature of the commercial plumbing project, but such parties will incur an additional cost of five (5) dollars per commercial opening.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Benefits will include continued access to the Division’s current level of service, including the scheduling and completion of required installation inspections and project approvals.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: There are no anticipated additional costs to administer this amendment.
(b) On a continuing basis: There are no anticipated additional costs to administer this amendment.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of this amendment is anticipated to result in no additional costs to the agency. Any agency costs resulting associated with this amendment will be met with existing agency funds.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This amendment increases the “per opening” portion of the commercial plumbing installation permit fee. This increase is necessary due to significantly increased expenditures beyond agency control, including those associated with Actuarially-Required Retirement Contributions (ARC) and the Commonwealth Office of Technology (COT); however, the Division is already no longer generating sufficient revenue to sustain its existing expenditures necessary to maintain a minimum level and quality of statewide service. The additional revenue generated from the proposed fee increase will be used to support existing programs with no increase in staffing levels and will more closely bring revenues in line with existing expenditures to cover the agency’s current level of service. These fees do not cover the entire cost of that service, and this proposal is intended to lessen that operational deficit with no increase in staffing.
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment directly increases the “per opening” portion of the commercial plumbing installation permit fee.
VOLUME 41, NUMBER 5 – NOVEMBER 1, 2014

(9) TIERING: Is tiering applied? Tiering is not applied as all permitted commercial plumbing operations will be subject to the amended requirements.

An Exchange must establish eligibility and enrollment criteria for individuals wishing to enroll in qualified health plans offered on the Exchange.

Section 9. Asbestosis, Coal Worker's Pneumoconiosis, and Silicosis. (1) A reporting provider shall submit the following information relating to a person diagnosed with asbestosis, coal worker's pneumoconiosis, or silicosis:

(a) Name;
(b) Address;
(c) Date of birth; and
(d) County of residence.

(2) A reporting provider shall submit the required information to the department within three (3) months following the diagnosis.

Section 10. Incorporation by Reference. (1) The following material is incorporated by reference:

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment outlines which diseases are to be reported and how, including electronic reporting through the Kentucky Health Information Exchange. This amendment updates the prior regulation to allow for newly discovered organisms, diseases and viruses. The amendment also outlines a process whereby the Kentucky Department for Public Health can access data already being submitted electronically by hospitals and healthcare facilities so public health concerns can be more easily recognized and addressed.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary due to the ever changing state of diseases and their impact on the health of the community. Further, the implementation of the Kentucky Health Information Exchange allows data to be shared among reporting facilities, the CDC, and the Kentucky Department for Public Health. This amendment guides the sharing of this data.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment makes specific what diseases are to be reported and how, therefore helping to clarify what is required by the statute.

(d) How the amendment will assist in the effective administration of the statutes: This amendment assists in effective administration of the statutes as it clarifies the diseases to be reported and how they are to be reported. Because the regulation had not been amended in many years, several diseases, organisms, and materials of grave concern for the health of the public were not included in the current reporting requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Kentucky hospitals and healthcare facilities, Kentucky health departments, the Kentucky Department for Public Health and any Kentucky citizen exposed to or potentially exposed to a reportable disease will be affected by this regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Kentucky hospitals and healthcare facilities will be required to permit the Department for Public Health access to data they are reporting to the federal government. However, since they are currently reporting these diseases to the federal government, there will be no extra work or expense incurred by the hospitals or facilities. Hospitals and healthcare facilities are already working to connect with the Kentucky Health Information Exchange and will use that as the tool for sharing data with federal and state officials. A phase-in period has been provided in this amended regulation to allow hospitals and healthcare facilities time to implement electronic reporting, which is not required until October 1, 2016. Kentucky citizens will experience minimal change in reporting requirements as they are currently required to report diseases on a federal and state level.
There will be new modes of reporting with which the physicians must become familiar. However, education/training will be provided by state staff and regional epidemiologists to assist with the reporting. Because laboratories are currently required to report diseases on the state and federal level, they will experience minimal change in required action. Local health departments will see no change in their duties under this regulation as they are currently receiving disease reports and working with the cabinet to investigate risks to the public health. A Kentucky citizen exposed or potentially exposed to reportable diseases is, at present, required to report this exposure to the local health department in the county in which he resides. This has not been changed under the amendment to the regulation.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? There is no additional fiscal impact resulting from this amendment as hospitals, health professionals, and healthcare facilities currently report this information to the CDC.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Local health departments, the cabinet, health professionals, and healthcare facilities will have a better opportunity to cooperate to identify dangerous diseases and their infection patterns and identify possible large-scale threats. Working together will afford more protections for Kentuckians who will benefit as health officials are better able to identify dangerous disease patterns and outbreaks and address those as quickly as possible.

(2) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no fiscal impact to the administrative body from implementation of this amendment.

(b) On a continuing basis: There will be no fiscal impact to the administrative body from implementation of this amendment.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The cabinet currently operates the disease surveillance program using state general funds. No additional funding will be necessary to implement this amended regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There will be no new fees nor increase to existing fees due to this amendment.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees are established either directly or indirectly by this amendment.

(9) TIERING: Is tiering applied? No, tiering was not applied.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Local health departments and the Kentucky Department for Public Health will be impacted by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue will be generated by this amendment for the first year.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue will be generated by this amendment for subsequent years.

(c) How much will it cost to administer this program for the first year? Reporting and data surveillance is occurring. Therefore, there will be no additional costs in the first year to administer this program due to this amendment.

(d) How much will it cost to administer this program for subsequent years? The amendment to this regulation will create no additional costs in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

   (b) The difference between the readings of both the upper and lower extremity is less than or equal to three (3) percent.
   (2) (a) A pending result shall:
      1. Occur if:
         a. The pulse oximetry reading is between ninety (90) and ninety-four (94) percent; or
         b. The difference between the readings of both the upper and lower extremity is greater than three (3) percent; and
      2. Be repeated using the pulse oximetry screening in one (1) hour.
   (b) If a repeated pulse oximetry screen is also interpreted as pending, it shall be performed again in one (1) hour.
   (c) If the pulse oximetry result on the third screen continues to meet the criteria as pending after three (3) screenings have been performed, it shall be considered failed and the procedures...
established in subsection (3) of this section shall be followed.

(3) A failed result shall occur if the initial pulse oximetry reading is less than ninety (90) percent in the upper or lower extremity and shall require the following action:

(a) The primary care provider shall be notified immediately;
(b) The infant shall be evaluated for the cause of the low saturation reading; and
(c) If CCHD cannot be ruled out as the cause of the low saturation reading, the attending physician or advanced practice registered nurse shall:

1. Order a diagnostic echocardiogram to be performed without delay;
2. Ensure the diagnostic echocardiogram be interpreted as soon as possible; and
3. If the diagnostic echocardiogram results are abnormal, obtain a consultation with a pediatric cardiologist prior to hospital discharge.

Section 11. Reporting Results of Pulse Oximetry Screening. (1) Final results of the pulse oximetry screening shall be entered into the CCHD newborn screening system.

(2) A failed result shall be immediately reported to the program by fax or by the cabinet’s web-based system.

Section 12. Newborn Screening Fees. (1) Submitters obtaining and sending a blood spot specimen to the laboratory shall be billed a fee of ninety-nine (99) dollars [§53.50] for the initial newborn screening test.

(2) Submitters obtaining and sending a repeat blood spot specimen to the laboratory shall not be charged an additional fee of ninety-nine (99) dollars [§53.50].

(3) Fees due the Cabinet for Health and Family Services shall be collected through a monthly billing system.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Troi Cunningham

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation requires that all infants born in Kentucky receive the newborn screening test. This administrative regulation requires that infants be tested for inborn errors of metabolism and other inherited and congenital disorders and conditions as specified in KRS 214.155, and establishes the schedule of fees to cover the actual costs of the newborn screening program.
(b) The necessity of this administrative regulation: 902 KAR 4:030 improves outcomes for Kentucky’s infants by ensuring testing for inborn errors of metabolism and other inherited and congenital disorders and conditions.
(c) How this administrative regulation conforms to the content of the authorizing statute: KRS 214.155 requires the Cabinet for Health and Family Services to operate a newborn screening program for inborn errors of metabolism and other inherited and congenital disorders and conditions. The specific tests on the newborn screening panel are consistent with the recommendations of the American College of Medical Genetics as required by statute. This administrative regulation details the process and procedures for compliance with the statute and sets up a fee schedule to cover program costs.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The statute requires the Cabinet for Health and Family Services to operate a newborn screening program for inborn errors of metabolism and other inherited and congenital disorders and conditions. The specific tests on the newborn screening panel are consistent with the recommendations of the American College of Medical Genetics as required by statute. This administrative regulation details the process and procedures for compliance with the statute and sets up a fee schedule to cover program costs.
(e) How the amendment affects the cost of the program: The current newborn screening fee of fifty-three (53) dollars and fifty (50) cents was established in 2005 when the program expanded from performing four tests to performing twenty-eight (28) tests. The program now tests for fifty (50) disorders and conditions, and the cabinet is in the process of adding another test for Severe Combined Immune Deficiency in order to comply with KRS 214.155. Newborn screening fees have not increased since 2005 and, therefore, are insufficient to cover program maintenance and the additional testing for conditions and diseases. The current fee (fifty-three (53) dollars and fifty (50) cents) does not cover the materials, staffing, and equipment maintenance/replacement costs associated with this program — costs that have increased as more tests on the newborn screening panel have been added.
(f) How this administrative regulation conforms to the content of the authorizing statutes: KRS 214.155 requires the Cabinet for Health and Family Services, Department for Public Health to ensure that all infants born in Kentucky receive the newborn screening test, which now include all disorders as endorsed by the American College of Medical Genetics.
(g) How the amendment will assist in the effective administration of the statutes: This amendment increases the newborn screening fee. This will allow the cabinet to address additional costs resulting from an expansion in the number of tests performed, the replacement of aging equipment, increased staffing needs, laboratory supplies, and funding for life-sustaining metabolic foods and formulas required due to identified disorders.
(h) The necessity of the amendment to this administrative regulation: The current newborn screening fee of thirty-one (31) dollars and forty-five (45) cents is less than ninety (90) percent in the upper or lower extremity and satisfies the diagnosis of a congenital heart defect with delay; and
(i) How this administrative regulation conforms to the content of the authorizing statute: KRS 214.155 requires the Cabinet for Health and Family Services to operate a newborn screening program for inborn errors of metabolism and other inherited and congenital disorders and conditions.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment increases the newborn screening fee to cover increased program costs as a result of an expansion in testing in accordance with the recommendations of the American College of Medical Genetics.
(b) The necessity of the amendment to this administrative regulation: The current newborn screening fee of fifty-three (53) dollars and fifty (50) cents was established in 2005 when the program expanded from performing four tests to performing twenty-eight (28) tests. The program now tests for fifty (50) disorders and conditions, and the cabinet is in the process of adding another test for Severe Combined Immune Deficiency in order to comply with KRS 214.155. Newborn screening fees have not increased since 2005 and, therefore, are insufficient to cover program maintenance and the additional testing for conditions and diseases. The current fee (fifty-three (53) dollars and fifty (50) cents) does not cover the materials, staffing, and equipment maintenance/replacement costs associated with this program — costs that have increased as more tests on the newborn screening panel have been added.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 214.155 requires the Cabinet for Health and Family Services, Department for Public Health to ensure that all infants born in Kentucky receive the newborn screening test, which now include all disorders as endorsed by the American College of Medical Genetics.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by the administrative regulation: Kentucky’s birthing hospitals, primary care providers, midwives, and local health departments submitting newborn screening specimens to the state laboratory will be affected by this regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Birthing hospitals, primary care providers, midwives, and local health departments submitting newborn screening specimens will not be required to change their practices. However, the fee that they charge insurance providers or
patients for these tests will increase from fifty-three ($53) dollars and fifty (50) cents to ninety-nine ($99) dollars.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): An increase of forty-five ($45) dollars and fifty (50) cents per child per initial screening will be charged to entities to comply with the amended regulation. There will continue to be no charge for repeated newborn screening tests.

(c) As a result of the compliance, what benefits will accrue to the entities identified in question (3): The benefit to doctors, midwives, and birthing hospitals will result from assuring that their patients receive the care required by law, thereby reducing the infants’ risk of developmental delays, organ failure and, in some cases, death. Newborn screening and early intervention provide enormous savings compared to the costs of treating these disabling diseases. As a result, early intervention decreases overall health care dollars spent in the long term.

(5) Provide an estimate of how much it will cost to implement this regulation:

(a) Initially: There will be no additional cost to implement this administrative regulation as the program is presently operating. Currently, this program has required supplementation with general funds, and this fee increase will eliminate the program’s reliance on those general fund dollars.

(b) On a continuing basis: There will be no additional cost to implement this amended regulation on a continuing basis as the program is presently operating. Currently, this program has required supplementation with general funds, and this fee increase will eliminate the program’s reliance on those general fund dollars.

(6) What is the source of the funding that will be used for the implementation and enforcement of the administrative regulation? Agency fees and general funds support the operation of the program. It is anticipated that this fee increase will eliminate the program’s reliance on general fund dollars.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if this is an amendment: This amendment will increase the newborn screening fee. This will enable the replacement of aging equipment, increased staff needs, laboratory supplies and funding for life-sustaining metabolic foods and formulas required due to identified disorders. This amendment will increase fees to help pay for the program.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increase any fees? This administrative regulation increases newborn screening fees in order to eliminate the dependence on general funds, which has been necessary to supplement agency funds that have been insufficient to cover the cost of operating this program.

(9) TIERING: Is tiering applied? Tiering is not applied because the Newborn Screening regulations apply consistently for all infants born in Kentucky and their families.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment will generate revenue of approximately $2,366,000 (assuming the current trend of approximately 52,000 births per year).

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will generate revenue of approximately $2,366,000 (assuming the current trend of approximately 52,000 births per year).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Elizabeth Caywood
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation enables the Cabinet to qualify for federal funds under the Child Care and Development Fund (CCDF) and establishes procedures for the implementation of the Child Care Assistance Program (CCAP) to the extent that funding is available.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to qualify for federal funds under CCDF and for the proper administration of CCAP.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the authorized statutes by allowing the cabinet to qualify for federal funds and establishing procedures for the implementation of CCAP.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the administration of the CCAP in a manner which is consistent with federal and state requirements, including available funding, and the interests of the clients to be served, child care providers, and taxpayers.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment increases the CCAP income eligibility.
criteria, specifically the federal poverty level, in accordance with available revenues, including the restoration of CCAP authorized by 2014 Ky. Acts ch. 117. In addition, the amendment delinks child care provider payment rates from the classification of cities, reinforces quality within CCAP by requiring licensed and certified child care providers’ participation in the STARS for KIDS NOW Program and one-time free-of-charge training concerning CCAP billing, and makes technical corrections and clarifications in accordance with KRS Chapter 13A.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to restore CCAP to a higher service level in response to 2014 Ky. Acts ch. 117, state budgetary context, and to protect and preserve provider rates from fluctuations that would otherwise be created by changes to city classifications. In addition, the amendment is necessary to improve the quality of child care purchased through the program and provided to Kentucky’s most vulnerable and at-risk child populations thereby preserving and making additional gains for the positive development (i.e., health), safety, and welfare of children prioritized for CCAP, including children in foster care, pregnant women, children in protective services, children of teen parents, children whose parents are transitioning from cash assistance or welfare, and children from low-income households; and reading Kentucky’s child care community for forthcoming federal legislation or regulation redefining purposes of the Child Care and Development Fund Block Grant to include enhanced focuses on quality. Lastly, the amendment is necessary to assure compliance with KRS Chapter 13A.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the authorizing statutes by restoring CCAP in accordance with available federal and state funding and assuring stable child care provider payment rates and quality within CCAP.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the statutes by ensuring CCAP operates within available funding and quality standards.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: As of September 2014, CCAP served 21,023 children in 11,153 families, which was an increase from July’s figures, 18,857 and 9,829 respectively. As of September 30, 2014, there were 392 certified family child-care homes. Of those, 330 certified family child-care homes were not in STARS and were serving 838 children receiving benefits through the CCAP. Sixty-two (62) certified homes were STARS-rated and were serving 139 children receiving benefits through CCAP. There were 2,041 licensed centers. Of those, 1,263 licensed centers were not participating in STARS and were serving 13,086 children receiving benefits through CCAP. Seven hundred and seventy-eight (778) licensed centers were participating in STARS and were serving 9,259 children receiving CCAP benefits. There are no registered child care providers participating in STARS. Three hundred fifty-four (354) CCAP centers are receiving child care through 203 registered providers.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The amendment to this administrative regulation will open the program for newly eligible low-income working families and will assure the use of public funds for the highest quality child care for Kentucky’s most vulnerable and at-risk children.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): This administrative regulation imposes no direct cost to providers and recipients of CCAP. If not already participating, a licensed or certified child care provider will realize new administrative burden and operating costs to participate in the state’s quality rating program; however, the burden and costs should be minimal for providers entering the quality rating program at a Level 1 and should be offset by incentives and awards provided through the quality rating program. There is no fee associated with a provider’s application to participate in the state’s quality rating program; services are provided by the state without charge. Exceptions to a licensed or certified child care provider’s participation within the state’s quality rating program are also outlined within the administrative regulation to maintain compliance with associated federal mandates and to avoid imposing hardships on CCAP-eligible families and children.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Kentucky’s most vulnerable and at-risk children will have improved access to quality child care.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Funds to restore CCAP were appropriated in 2014 Ky. Acts ch.117. Changes contained in this amendment are within available revenues.

(b) On a continuing basis: Funds to restore CCAP were appropriated in 2014 Ky. Acts ch.117. Changes contained in this amendment are within available revenues. The administrative body will continually monitor its costs to make any adjustments necessary to maintain CCAP and related services within available funding.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding to be used for the implementation and enforcement of this administrative regulation are federal Child Care and Development Fund Block Grant, state matching, state maintenance of effort funds, and state general funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: An increase in funding for CCAP was provided in 2014 Ky. Acts ch.117.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: The amendment to this administrative regulation does not establish any fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? The Child Care Assistance Program is implemented in a like manner statewide. Provider payment rates are tiered to recognize the higher operating costs of certain geographical, more populated areas. While this administrative regulation protects and preserves the current provider payment rates by delinking the rates from the classification of cities, the provider payment rates were originally established based on the classification of cities. The rates are further supported by the analysis of the market rate survey results specified in KRS 199.889.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 601-619, 45 C.F.R. 98

2. State compliance standards. KRS 194A.050, 199.892, 199.894

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate.
FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Cabinet for Health and Family Services, Department for Community Based Services will be impacted by this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.050, 199.892, 199.8994, 42 U.S.C. 601-619, 45 C.F.R. 98

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The Child Care Assistance Program (CCAP) has been operational for a number of years. It does not directly generate revenues for the state; however, it supports the health, safety, and welfare of children and the ability of low-income parents to work and obtain additional skills and training. This administrative regulation will not directly generate any new revenue for the first year. Research suggests that quality early care and education help avoid future public costs.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not directly generate any new revenue for subsequent years.
   (c) How much will it cost to administer this program for the first year? The restoration of CCAP is supported through funds appropriated in 2014 Ky. Acts ch. 117. The restoration as proposed within this amendment is projected to fall within available federal and state revenues.

(e) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify and wish to provide targeted case management services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation [complete and application and submit it to the Department for Medicaid Services (DMS)] and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The entities referenced in paragraph (a) will benefit by receiving Medicaid Program reimbursement. The professionals authorized to provide services will benefit by having more employment opportunities in Kentucky.
Medicaid recipients in need of targeted case management will benefit from having the option to receive these services.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: DMS estimates that implementing the administrative regulation (reimbursement for the recipient referring the recipient to services and care) will cost approximately $1.05 million state funds/$3.87 million federal funds initially.
(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under "Medicaid expansion" recedes from its current 100 percent to 90 percent.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation.
regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed by opportunity that may be represented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated however, substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management services provider base to include targeted case management for substance use disorders will help ensure Medicaid recipient access to these services.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.05 million state funds/$3.87 million federal funds initially.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under "Medicaid expansion" recedes from its current 100% to 90%.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed as opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated for Medicaid programs. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the services so required (including federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100% to 90%.

Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) -- the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program -- has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Similarly, 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(j)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area."

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100% to 90%.

(d) How much will it cost to administer this program for subsequent years? REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program targeted case management services for Medicaid recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues. This administrative regulation is being promulgated in conjunction with 907 KAR 15:0555E (Reimbursement provisions and requirements regarding targeted case management for individuals with co-occurring mental health or substance use disorders and chronic or complex physical health issues.) Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the recipient’s need for services by taking the recipient’s history, identifying the recipient’s needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment; developing a customized care plan for the recipient; referring the recipient or related activities to help the recipient obtain needed services; and monitoring activities to ensure that the recipient’s care plan is implemented effectively and adequately addressing the recipient’s needs.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that recipients (who have co-occurring mental health or substance use disorders and chronic or complex physical health issues) receive necessary services and care. The targeted case manager provider is the individual or entity responding for coordinating the individual’s services/care, facilitating access to services/care, and monitoring individual’s progress or difficulties while receiving services/care. Targeted case management helps ensure that the recipient receives the appropriate and necessary services and care they need rather than randomly receive services/care or fail to receive any services/care at all.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes, as follows: Medicaid recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues receive necessary services and care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by helping ensure that recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues receive necessary services and care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation rather than an amendment.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation rather than an amendment.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation rather than an amendment.

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation rather than an amendment.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Entities eligible to provide targeted case management services (such as community mental health centers, individual behavioral health service providers or behavioral health provider groups, behavioral health services organizations, federally-qualified health centers (FQHCs), FQHC look-alikes, rural health clinics, primary care centers) will be affected by this administrative regulation as well as the various professionals who are authorized to provide services either independently or via the aforementioned providers. Medicaid recipients who qualify for targeted case management services will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that qualify and wish to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The entities referenced in paragraph (a) will benefit from receiving Medicaid Program reimbursement. The professionals authorized to provide services will benefit by having more employment opportunities in Kentucky. Medicaid recipients in need of targeted case management will benefit from having the option to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately $2.33 million state funds/$5.47 million federal funds initially.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$3.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under “Medicaid expansion” recedes from its current 100 percent to 90 percent.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriated by the Kentucky General Assembly.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) Statement whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a(a)(23).

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law.
Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect.

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated; however, Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management service provider base to include targeted case management for recipients with co-occurring mental health or substance use disorders and chronic or complex physical health issues will help ensure Medicaid recipient access to these services.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimation of effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.
   (c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$5.47 million federal funds initially.
   (d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$9.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for recipients eligible under "Medicaid expansion" recedes from its current 100% to 90%.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$9.47 million federal funds initially.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $2.28 million state funds/$9.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100 percent to 90 percent.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may enter into regulations or agreements with any entity that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated; however, Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Similarly, 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "...provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area."

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS estimates that implementing the administrative regulation will cost approximately $1.33 million state funds/$5.47 million federal funds initially.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing the administrative regulation will cost approximately $2.3 million state funds/$9.38 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100% to 90%.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This new administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program targeted case management services for individuals with a severe mental illness or children with a severe emotional disability. This administrative regulation is being promulgated in conjunction with 907 KAR 15:065E. (Reimbursement provisions and requirements regarding targeted case management for individuals with a severe mental illness and children with a severe emotional disability.) Targeted case management services are services that assist Medicaid recipients in accessing needed medical, social, educational, and other services. The components of targeted case management include assessing the recipient's need for services by taking the recipient's history, identifying the recipient's needs, and gathering information from other sources (family members, medical providers, social workers, and educators) to form a complete assessment. Developing a customized care plan for the recipient; referring the recipient or related activities to help the recipient obtain needed services; and monitoring activities to ensure that the recipient's care plan is implemented effectively and adequately addresses the recipient's needs.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to help ensure that children who have a severe emotional disability and individuals who have a severe mental illness receive necessary services and care. The targeted case manager provider is the individual or entity responsible for coordinating the recipient's services/care, facilitating access to services/care, and monitoring recipient's progress or difficulties while receiving services/care. Targeted case management helps ensure that the recipient receives the appropriate and necessary services and care they need rather than randomly receive services/care or fail to receive any services/care at all.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by helping ensure that children with a severe emotional disability and individuals with a severe mental illness receive necessary services and care.

(2) If this is an amendment to an existing administrative regulation, provide brief summary:
(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation rather than an amendment.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation rather than an amendment.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation rather than an amendment.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Entities eligible to provide targeted case management services (such as community mental health centers, individual behavioral health service providers, or behavioral health services organizations) will be affected by this administrative regulation as well as the various professionals who are authorized to provide services either directly or via the aforementioned providers. Medicaid recipients who qualify for targeted case management services will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Entities that quality and wish to provide targeted case management services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation [complete and application and submit it to the Department for Medicaid Services (DMS)] and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). The entities referenced in paragraph (a) could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The entities referenced in paragraph (a) will benefit by receiving Medicaid Program reimbursement. The professionals authorized to provide services will benefit by having more employment opportunities in Kentucky. Medicaid recipients in need of targeted case management will benefit from having the option to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: DMS estimates that implementing the administrative regulation will cost approximately ($1.35 million state funds/$12.04 million federal funds) initially.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $2.32 million state funds/$20.64 million federal funds for the second year of implementation. The federal funding will decrease somewhat when the federal matching percentage recipients eligible under "Medicaid expansion" recedes from its current 100 percent to 90 percent.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a(a)(23).

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Targeted case management services are not federally mandated however, following KAR 15:065E of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include "mental health and substance use disorder..."
services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the targeted case management service requires the department to include targeted case management for children with a severe emotional disability or individuals with a severe mental illness will help ensure Medicaid recipient access to these services.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(23), and 42 U.S.C. 1396a(a)(10)(B).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the current full year and the next fiscal year. The amendment is not expected to generate revenue for state or local government.

   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the current full year? The amendment is not expected to generate revenue for state or local government.

   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the next fiscal year? The amendment is not expected to generate revenue for state or local government.

   (c) How much will it cost to administer this program for the current full year? DMS estimates that implementing the administrative regulation will cost approximately $1.05 million state funds/$3.87 million federal funds initially.

   (d) How much will it cost to administer this program for the next fiscal year? DMS estimates that implementing the administrative regulation will cost approximately $1.79 million state funds/$6.64 million federal funds for the second year of implementation. The federal matching percent will decrease somewhat when the federal matching percent for individuals eligible under "Medicaid expansion" recedes from its current 100% to 90%.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

To qualify for federal funds the secretary for health and family services may be required to develop or comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated for Medicaid programs. Similarly, 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "...provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(3)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services to and assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area."

In response to questions by Co-Chair Harris, Ms. Evans stated that the national association established the standard for five (5) years of supervision. This administrative regulation was being amended to specifically establish that standard for one (1) of the categories of therapists. The Diagnostic and Statistical Manual of Mental Disorders had been updated and was in the process of being updated again.

201 KAR 37:010. Kentucky Veterans’ Program Trust Fund, administration of fund. Dennis Shepherd, staff attorney, represented the department.

In response to questions by Co-Chair Harris, Mr. Shepherd stated that the fund had been operating for fifteen (15) years under the previous requirements. The National Guard had not previously been included, and the department wanted to clarify what constituted appropriate fund use to avoid problems the fund had experienced. For example, sometimes funds had been allotted but were not used by the recipient.

TOURISM, ARTS AND HERITAGE CABINET: Department of Fish and Wildlife Resources: Fish
301 KAR 1:410. Taking of fish by nontraditional fishing methods. Ron Brooks, fisheries director, and David Wicker, general counsel, represented the department.

In response to questions by Representative Turner, Mr. Brooks stated that alligator gar were being restocked after they had been extirpated in past decades. Alligator gar was a unique species for local ecologies and for sport fishing. Typically alligator gar did not compete with other species for food. It was possible that young alligator gar, especially in low-light conditions, could be mistaken for other gar species; therefore, fish and wildlife officers had been instructed to take that into consideration in the enforcement of this administrative regulation.

In response to a question by Co-Chair Harris, Mr. Brooks stated that the department expected it to take ten (10) to twelve (12) years to reestablish alligator gar. Currently, the department was in the fourth year of the endeavor. The species was intentionally stocked in two (2) rivers but had migrated to other waterbodies and was expected to continue to migrate.

A motion was made and seconded to approve the following amendments: to amend Sections 1, 3, 4, and 5 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

Support: Supplemental Nutrition Assistance Program
921 KAR 3:035. Certification process. Elizabeth Caywood,
internal policy analyst, and Jason Dunn, program director,
represented the cabinet.
In response to questions by Representative Lee, Ms. Caywood
stated that the six (6) month resubmission requirement was not a
federally mandated policy, but was necessary because there had
been problems for participants who failed to file or improperly filed
a required six (6) month update. With this policy change, all
participants shall resubmit the application each six (6) months.
Some participants were confused about the update and did not
submit the appropriate information; therefore, they had had benefits suspended. The application submittal may be made
through the cabinet’s Web portal, via a call services center, or
through a paper submittal. The data from the six (6) month
submissions was not yet used at the state level in Kentucky to
demonstrate the effectiveness of the program. The average
household allotment was $200 to $250 per month. There was not a
monthly maximum allotment because the amount was calculated
based on the number of household members. The program was
limited to those at or below 130 percent of the federal poverty
guidelines.
A motion was made and seconded to approve the following
amendments: (1) to amend Section 5 to comply with the drafting
requirements of KRS Chapter 13A; and (2) to amend Section 8 and

TECHNICAL AMENDMENT INDEX

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2014 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

‡ - Pursuant to KRS 13A.320(e), this indicates a technical change was made to this administrative regulation during the promulgation process.
