Compiler's Note: In the October Register, the incorrect version of this administrative regulation was published. Instead of the amendment approved by the Interim Joint Committee on Natural Resources and Environment at its meeting on September 3, 2015, the October Register included a repeat publication of the amendment previously approved by the Administrative Regulation Review Subcommittee at its meeting on July 14, 2015. Here is the amendment from the September 3, 2015 meeting that should have been published in the October Register. (This administrative regulation, as amended, became effective September 3, 2015.)

(e) The manufacturer or distributor may correct the defect, if possible, without issuing a total recall if the affected electronic pulltab devices and electronic pulltabs are not offered for sale, lease, or use if and until the department allows. The manufacturer or distributor shall make all corrections within a reasonable time, however, not to exceed forty-five (45) days after the manufacturer or distributor shall demonstrate the correction to the department. If the department believes that the defect has been corrected and that the defect no longer affects game security or otherwise threatens public confidence in the game, the department shall issue written notification that the affected electronic pulltab system, devices, or pulltab game may be reoffered for sale, lease, or use.

(9) All games including game themes, sounds, and music shall be approved by the department prior to being available for play on an electronic pulltab device in the Commonwealth of Kentucky.

Section 3. Electronic Pulltab System Requirements. (1) Any element of the central computer system that holds or maintains game data, other than an electronic pulltab device or point of sale station when in use, shall be kept in a locked and secure enclosure with limited access to designated personnel. The system shall provide a secure physical and electronic means for securing the games and game data against alteration, tampering, or unauthorized access.

(2) The central computer system shall include a central server located in the Commonwealth of Kentucky that is accessible to the department so the department has the ability to remotely verify the operation, compliance, and internal accounting systems of the electronic pulltab system at any time. The department shall have real time and complete read-only access to all data for all systems and games.

(a) The manufacturer shall provide to the department all current protocols, passwords, and any other required information needed to access the electronic pulltab system prior to the operation of the system within Kentucky, and at all times while the system remains operational within Kentucky.

In such cases, traceability of unauthorized access including time and date, users involved, and any other relevant information shall be available.

[(7)(6)] An electronic pulltab system shall not permit the alteration of any accounting or significant event information. Significant events shall include power resets or failures, communication loss between an electronic pulltab device and the electronic pulltab system, any award in excess of the single win limit for an electronic pulltab, or corruption of the electronic pulltab system memory or storage. An electronic pulltab system shall have the ability to allow for an independent integrity check of the components from an outside source and is required for all control programs that may affect the integrity of the electronic pulltab system. This shall be accomplished by being authenticated by a third-party device, which may be embedded within the electronic pulltab system software or having an interface or procedure for a third-party application to authenticate the component. This integrity check shall provide a means for field verification of the electronic pulltab system software components.

[(11)(9)] The electronic pulltab system shall have a medium for securely storing electronic pulltab game sets which shall be mirrored in real time by a backup medium. The electronic pulltab system shall also provide a means for storing duplicates of the game sets already transmitted to the electronic pulltab devices so as to reflect, on an ongoing basis, changes in the transmitted game sets as they occur.

An electronic pulltab system's central computer system may be used to record the data used to verify game play and to configure and perform security checks on electronic pulltab devices, if the functions do not affect the security, integrity, or outcome of any game and meet the requirements set forth in this administrative regulation regarding program storage devices.

An electronic pulltab system shall not display to the player, the licensed organization, or the licensed distributor the number of electronic pulltabs that remain in a game set, or the number of winners or losers that have been drawn or still remain in the game set, while the game set is still open for play. Once a game set has been closed, it shall not be able to be opened for play.

The electronic pulltab system shall render unplayable the electronic pulltabs of a charitable organization once the organization logs out of the system at the end of the organization's gaming occasion and until the organization logs back onto the system at the start of the organization's next scheduled gaming occasion. If multiple organizations use the same electronic pulltab devices and electronic pulltab system, one (1) organization's electronic pulltab games and data shall not be accessible or played by another organization.

An electronic pulltab system may include player tracking software. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: LaDonna Koebel
(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation incorporates by reference the policies and procedures governing the operation of the Department of Juvenile Justice including the classification and placement of juveniles committed to the Department.
(b) The necessity of this administrative regulation: To conform to the requirements of SB 200 “2014” and the amendments to the Unified Juvenile Code as well as KRS 15A.065, 15A.0652 and 15A.069.
(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation governs the management, policy and coordination of all matters relating to the classification, evaluation, and placement of juveniles committed to or detained by the Department of Juvenile Justice.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: By providing clear and concise direction and information to the Department of Juvenile Justice employees and the residential as to the classification, placement and transportation of youth.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment shall bring the Department of Juvenile Justice into compliance with statutory amendments to the Unified Juvenile Code as established through SB 200 “2014”.
(b) The necessity of the amendment to this administrative regulation: To conform to the requirements of KRS 15A.065, 15A.069.
(c) How the amendment conforms to the content of the authorizing statutes: The amendments establish and amend practices and procedures relating to the classification, evaluations, and placement of juveniles committed to the Department of Juvenile Justice.
(d) How the amendment will assist in the effective administration of the statutes: The amendment will help the Department of Juvenile Justice classify and place youth within the new statutory mandates under SB 200 and KRS 635.060 [effective July 1, 2015].
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Approximately 1,400 employees of the Department in community and residential settings, approximately 2,267 youth in all programs, and all visitors and volunteers to Department of Juvenile Justice facilities.
(4) Provide analysis of how the entities identified in question (3) will be impacted by the implementation of this administrative regulation, if new, or by the change if it is an amendment, including: To ensure youth are placed in the least restrictive placement based on their assessed risk and treatment needs, and to provide a clearer understanding of the policies and procedures by employees and residents regarding the classification, placement, and timeframes for commitment and out of home treatment.
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Community staff will administer a risk and needs assessment on all adjudicated youth, residential staff and the community will have a clear understanding of the classification and placement of youth in the least restrictive placement based on their treatment needs and level risk to reoffend which is commensurate with the severity of the committing offense.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Estimated costs to the Department of Juvenile Justice to implement all policy revisions to come into compliance with the provisions of SB 200 “2014” are estimated as follows: Salaries & Staffing Costs: Approximately $847,591.00. Training Costs: Approximately $300,000.00. Validation of Risk Assessment tools: Approximately $250,000.00. CourtNet Access to AOC data to complete risk assessments: $28,200.00. Approximate Total Estimated Costs: $1,425,791.00.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Youths who are committed to the Department of Juvenile Justice will remain in placement and commitment to the Department for shorter periods of time and in the least restrictive placement which can meet their treatment needs consistent with the severity of their committing offense. The benefit to the revised classification and placement is to reduce the length of stay in out of home placements for youth, reduce the costs of out of home placements by the Department, and reduce recidivism by returning lower level offending youth to the community sooner. A child who is adjudicated for an offense that would be a misdemeanor if committed by an adult, other than an offense for which a child has been declared a juvenile sex offender or an offense involving a deadly weapon may only be committed for a period not to exceed twelve (12) months, and may only receive treatment in an out of home placement for up to four (4) months [unless treatment needs require additional treatment in an out of home setting, not to exceed the maximum length of commitment]. A child who is adjudicated for an offense that would be a Class D felony if committed by an adult, other than an offense for which a child has been declared a juvenile sex offender or an offense involving a deadly weapon may only be committed for a period not to exceed eighteen (18) months, and may only receive treatment in an out of home placement for up to eight (8) months [unless treatment needs require additional treatment in an out of home setting, not to exceed the maximum length of commitment].
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: Approximately $1,425,791.00.
(b) On a continuing basis: $925,791.00.
(6) What is the source of funding to be used for the enforcement of this administrative regulation: Department of Juvenile Justice General Funds and Restricted Funds if necessary.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No.
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No.
(9) Tiering: Is tiering applied? No. Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as the Sections 2 and 3 of the Kentucky Constitution.

STATUTORY AUTHORITY: KRS 241.060

NECESSITY, FUNCTION, AND CONFORMITY: Pursuant to KRS 241.060, the board has authority to promulgate administrative regulations regarding matters over which the board has jurisdiction. The control of alcoholic beverages in the Commonwealth of Kentucky, as codified in Chapters 241 - 244 of the Kentucky Revised Statutes, has been established by the Kentucky legislature as a "three tiered" system. The three (3) tiers of this system are designated as manufacturer/producer/producer, wholesaler/distributor, and retailer. Each of these three (3) levels operates separately, distinctly, and apart from each other for the purpose of control. In order for this control to be effectively administered by this board, it is necessary to prevent any type of interlocking substantial interest by and among the three (3) separate tier levels. The purpose of this administrative regulation is to provide additional detail regarding licenses and prohibited financial interests among the tiers which will be prohibited by this board.

Section 1. Definitions. As used in this administrative regulation unless otherwise specified:

(1) "Manufacturer" means any person or entity who is a distiller, rectifier, blender, winery, brewer, or who otherwise produces alcoholic beverages. [Manufacturers include distillers, rectifiers, blenders, wineries, and brewers] whether located within or without this state.

(2) "Retailer" means any person or entity who sells alcoholic beverages at retail, whether located within or without this state, excepting manufacturers with limited retail privileges; or the right to hold certain retail licenses.

(3) "Substantial interest" means:

(a) Membership in, or a direct or indirect ownership interest in, or membership in, a business, sole proprietorship, partnership, corporation, limited liability company, limited liability partnership, or other legal entity, whether individually, or by a spouse, or in combination with a spouse, which amounts to ten (10) percent or greater of the total ownership or membership interests; or

(b) A common owner, partner, or member, including a spouse, or in combination with a spouse, or entity who is a wholesaler, distributor, or who sells alcoholic beverages at wholesale [Wholesalers include wholesalers of distilled spirits and wine and distributors of malt beverages], located within this state.

Section 2. No manufacturer[or their immediate family members,] of distilled spirits and wine shall have or acquire a substantial interest [financial interest, directly or indirectly, by stock ownership, or through interlocking directors in a corporation,] in the establishment, maintenance, or operation of [the business of a] liquor and wine wholesaler or a retailer. No manufacturer[or their immediate family members,] shall have or acquire, by ownership, leasehold, mortgage, or otherwise, directly or indirectly, a substantial [financial] interest in the premises of a retailer.

Section 3. No manufacturer or wholesaler[or their immediate family members,] shall have or acquire a substantial interest [financial interest, directly or indirectly, by stock ownership, or through interlocking directors in a corporation,] in the establishment, maintenance, or operation of [the business of a] manufacturer or retailer. No manufacturer or wholesaler[or their immediate family members,] shall have or acquire, by ownership, leasehold, mortgage, or otherwise, directly or indirectly, a substantial [financial] interest in the premises of a retailer.

Section 4. No retailer[or their immediate family members,] shall have or acquire a substantial interest in the establishment, maintenance, or operation of the business of a manufacturer or wholesaler.

Section 5. The malt beverage administrator and[or] distilled spirits administrator, as appropriate, shall examine every applicant for a new or renewal license to determine whether issuance or renewal of the license is prohibited under applicable law or this administrative regulation. If the issuance or renewal of the license is prohibited, the appropriate administrator shall not issue or renew the license[the ownership and management of new applicants or existing licensees to determine the presence of any substantial interlocking financial interest herein prohibited prior to issuance or renewal of licenses].

Section 6.[5] This administrative regulation shall not apply to:

(1) Prohibit any affiliated business arrangement which meets the requirements provided in 804 KAR 4:280. Section 2;

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Noelle J. Bailey
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation requires licensed charitable gaming distributors to file quarterly financial reports with the Department of Charitable Gaming in order for the department to be specifically apprised of all charitable gaming supplies being distributed in the state and which organizations they are going to.
(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to enable the department to be accurately and currently apprised of precisely what charitable gaming supplies are being distributed to distributors and licensed charitable organizations in Kentucky. Organizations are prohibited by law from purchasing charitable gaming supplies from non-licensed entities. All charitable gaming supplies are inventoried and contain identifying and tracking information. Quarterly reports by distributors enable the department to track charitable gaming supplies and ensure all gaming supplies utilized in the state are legal.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 238.515(9) authorizes the department to promulgate administrative regulations in order to carry out and implement KRS Chapter 238. KRS 238.530(5) authorizes the department to require licensed distributors to report on their activities, with the frequency and content of those reports to be determined by administrative regulation.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The department is charged with the responsibility of licensing and regulating charitable gaming in Kentucky. KRS 238.530(5) authorizes the department to require licensed distributors to report on their activities, with the frequency and content of those reports to be determined by administrative regulation. This amendment therefore conforms to the content of the authorizing statutes.
(d) How the amendment will assist in the effective administration of the statutes: This amendment to the regulation will assist the department in knowing and tracking charitable gaming supplies and equipment, specifically electronic pulltabs and devices, being used in the Commonwealth in order to make sure the supplies and equipment being used in the state are from licensed manufacturers and distributors.
(3) List the type and number of individuals, businesses, organizations, or state and local governments that will be affected by this administrative regulation: The sixteen (16) licensed distributors of charitable gaming supplies that are currently licensed in Kentucky if those distributors are distributing electronic pulltabs and devices. FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.

2. State compliance standards. KRS 224.60-105
3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 6991k, 42 U.S.C. 6991e
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Division of Waste Management.
2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. 42 U.S.C. 6991k, 42 U.S.C. 6991e, KRS 224.60-105, and KRS 224.60-150.
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities,
counties, fire departments, or school districts) for the first year? This administrative regulation will generate between $30,000 and
$65,000 for the first year as a result of compliance by UST owners
or operators. If red tagging induced 70% of active facilities (TAC) and 20% of temporarily closed (TTC) facilities to register and pay
tank fees, an additional $30,363.00 in paid fees would be collected. If 100% of the tank fee due were collected the net amount would be
$65,290.00.
(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will generate approximately and additional $30,000 annually as a result of compliance by UST owners or operators. If we red tagged the remaining active facilities a second time and achieved 100% payment of fees, that would obtain an additional $10,386 in paid fees for year two (above and beyond our annual tank fees that we bill approximately $30,000 per fiscal year).
(c) How much will it cost to administer this program for the first year? Initially, the costs for additional delivery prohibition measures implemented pursuant to this administrative regulation by the UST program and field personnel will be $36,242.00.
(d) How much will it cost to administer this program for subsequent years? For subsequent years, the costs for additional delivery prohibition measures implemented pursuant to this administrative regulation by the UST program and field personnel will be from zero to $4,000. The argument for zero costs is that in时限 the tag for failure to register will be integrated into the normal inspection cycle. Therefore, the notices of violations and enforcement procedures will blend with present activities. It would be a very rare event for an inspector to red-tag a site for failure to register as the only compliance issue. Additionally, proper registration will help identify and provide notice to tank owners and operators who are presently difficult to identify. This will reduce the amount of time spent trying to identify owners.
Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.
Revenues (+/-): In the first two years it is expected that between $30,000 and $60,000 will be raised in additional tank fees collected by additional compliance from non-registered UST system owner and operators and the timely submittal of annual tank fees. After the initial start up period revenues from tank fees will settle to about an additional $30,000 annually. As compliance with tank registration improves, an additional $75,000 per year will be saved in subsequent years due to the reduction of staff time used to collect tank fees and locate tank owners and operators.
Expenditures (+/-): First and second year expenditures will be approximately $40,422.00
Other Explanation: The additional costs for implementation of the additional delivery prohibition measures implemented pursuant to this administrative regulation will be negated by the annual tank fees received from non-registered UST system owner and operator. Costs will, additionally, be off-set by a reduction in the staff time used to locate tank owners and operators.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Patrick B. Shirley

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes guidelines for administration of Kentucky's obligation under the Rehabilitation Act to provide vocational rehabilitation services to Kentuckians, specifically the state's provision of rehabilitation services to applicants and eligible individuals with disabilities.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to implement provisions of Section 721(a)(5) of the Rehabilitation Act and regulations, 34 C.F.R. §§ 361.36, 361.54.
(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation provides information necessary for specific guidance and operation of the state's provision of rehabilitation services as set out in, and mandated by, Section 721(a)(5) of the Rehabilitation Act and regulations, 34 C.F.R. §§ 361.36, 361.54.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation provides specific administrative guidance for the implementation of the state's provision of rehabilitation services to applicants and eligible individuals with disabilities as required by Section 721(a)(5) of the Rehabilitation Act and regulations, 34 C.F.R. §§ 361.36, 361.54.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The proposed amendment is made to adapt the regulations to provide better guidance to individuals with disabilities and to provide for more efficient use of limited agency resources. The revision expands on what services will be subject to an economic needs test that consumers obtain from the agency, specifically for hearing aids.
(b) The necessity of the amendment to this administrative regulation: Changes to the regulations were needed to prevent possible abuse or waste of increasingly limited resources for operation of the program. The changes made to the regulation were needed to more clearly define what can be provided to each applicant and eligible individual with disabilities.
(c) How the amendment conforms to the content of the authorizing statute: This amendment conforms to the authorizing statute by specifying guidance for the requirements of providing rehabilitation assistive technology devices to applicants or eligible individuals as necessary for the achievement of the employment outcome.

(2) How the amendment will assist in the effective administration of the statutes: This amendment provides more specific guidance to individuals with disabilities on what is required to obtain vocational rehabilitation services, when those services can be provided, and what services may be provided in the future, specifically with regards to hearing aids.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Any disabled individual with a disability seeking vocational rehabilitation vehicle modifications to assist in the achievement of an employment outcome, and all vocational rehabilitation staff statewide that assists disabled individuals with disabilities.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Agency staff will not have any additional requirements as a result of this amendment. Individuals with disabilities seeking hearing aids will be subject to proof of financial need. The amendment is only intended to ask those to share in the cost that are able to share in the cost. As with almost all services by the agency, most individuals fall below the income guidelines and won't be asked to cost share.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There are no new costs to staff or businesses affected. However, certain individuals, to be determined by applying the economic needs test in subsection (5) of this section of the regulation, will be required to contribute to hearing aids that cost more than $1,000.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Both agency staff and applicants and eligible individuals with disabilities will have a better understanding of the requirements for obtaining rehabilitation assistive technology devices. It is hoped that the measure will be a cost-saving measure for the agency.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: No additional costs are expected.

(b) On a continuing basis: The proposed amendment does not result in additional costs.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal Rehabilitation Funds received by the Office of Vocational Rehabilitation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no increase in fees or funding necessary to implement this amendment to the existing regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish fees or directly or indirectly increase any fees. However, individuals that meet the economic needs test provided for in subsection (5) of this section of the regulation may have to contribute to the cost of hearing aids that cost more than $1,000.

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all consumers.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Michael Mullins

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes safety standards controlling the use and operation of equipment in the Commonwealth's surface type coal and clay mines, which include strip and auger mining operations.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to require safety standards for equipment used on surface coal mines and clay mines within the Commonwealth.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 351.070(12) provides that the Commissioner may "prescribe reasonable safety standards governing the use of explosives, and electrical and mechanical equipment in the operation of open-pit or surface mines." This administrative regulation provides safety standards for equipment.

(d) How this administrative regulation currently assists or will assist in the enforcement of the statutes: This administrative regulation provides details concerning safety requirements for equipment used at surface type coal and clay mines which include strip and auger mining operations.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment will delay the effective date of the requirements to have roll over protection installed on excavators and will require excavator operators on licensed facilities to be certified by the Division of Mine Safety.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to require safety training for excavator operators on licensed facilities and delay the effective date of roll over protection requirement.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the authorizing statutes by requiring excavator operators to attend safety training and receive certification from the Division of Mine Safety as well as providing additional time for mine facilities to comply with roll over protection requirements.

(d) How the amendment will assist in the effective administration of the statues: KRS 351.070(12) provides that the Commissioner may "prescribe reasonable safety standards
governing...mechanical equipment in the operation of open-pit or surface mines." This amendment will assist in the effective administration of the authorizing statutes by requiring excavator safety training for operators on licensed facilities.

3. List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All surface mines in the Commonwealth and a few underground mines, depending on if they are using excavators in areas where there are dangers of roll over, could be impacted.

4. Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

They would also be required to ensure all excavators in operation at a licensed facility are equipped with the current ISO protection in effect at that time.
   (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): It is difficult to provide a cost that relates to all entities in the Commonwealth. Retrofitting some of the excavator units currently in use would have an upfront cost of approximately $60,000 for initial engineering costs. After engineering plans are developed for a particular make and model the price would drop significantly.
   (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): These entities will provide a safer working environment for excavator operators.
   (5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
   (a) Initially: There will be no costs to the administrative body with implementation of this amendment.

6. Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The amendments to this administrative regulation will not require an increase in fees or funding.

7. State whether or not this administrative regulation established any fees or directly or indirectly increased any fees:
   (3) will be unchanged related to this amendment.

8. Tiering: Is tiering applied? No. All entities that use excavators will be required to meet the same requirements.

(2) Maximum allowable working pressure (MAWP) for nonstandard boilers.

(a) The maximum allowable working pressure (MAWP) on the shell of a nonstandard boiler, pressure vessel, or drum shall be determined by the strength of the weakest section of the structure, computed from the thickness of the plate, the tensile strength of the plate, the efficiency of the longitudinal joint or tube ligaments, the inside diameter of the weakest course, and the factor of safety allowed by paragraph (h) of this subsection (b) Formulas. (TS times t times E) divided by (R times FS) equals maximum allowable working pressure in psi; where:

TS = ultimate tensile strength of shell plates psi.
R = minimum thickness of shell plate, of weakest course, in inches.
E = efficiency of longitudinal joint.
FS = factor of safety permitted.

(b) For riveted construction, E shall be determined under Paragraph A-30 of ASME Section I, Boiler and Pressure Vessel Code for Power Boilers.

R = inside radius of the weakest course of the shell or drum in inches.

FS = factor of safety permitted.

have an inside diameter equal to, or greater than, the seat diameter.

(c) The minimum relieving capacity of a valve, or valves, shall be governed by the capacity-marking on the boiler.

(d) The minimum valve capacity in pounds per hour shall be the greater value as determined by the methods established in this paragraph.

A. The maximum BTU output obtained at the boiler nozzle shall be divided by 1,000.

b. The pounds of steam generated per hour per square foot of boiler heating surface shall be calculated in accordance with Table A (of that determined by dividing the maximum BTU output at the boiler nozzle obtained by the firing of any fuel for which the unit is installed by 1000, or shall be determined on the basis of the pounds of steam generated per hour per square foot of boiler heating surface as given in Table "A." In many cases, a greater relieving capacity of valves will have to be provided than the minimum specified by the Table. 3. [If when] a boiler, or any part of the boiler, is designed for operation at a maximum steam pressure equal to or less than a boiler or boilers are designed to be fired, the minimum relieving capacity of the safety valve or safety relief valve shall be calculated in accordance with [see] ASME Code for Heating Boilers, paragraph HG-403 [HG403].

(e) The safety valve capacity for each steam boiler shall be sufficient to prevent the pressure from rising more than five (5) psi above the maximum allowable working pressure (MAWP) when the fuel-burning equipment is installed and operated at maximum capacity.

(f) If operating conditions are changed or additional boiler heating surface is installed, the valve capacity shall be increased, if necessary, to meet the new conditions and be in accordance with paragraph (e) of this subsection. If an additional valve is required, the valve may be installed on the outlet piping if there is no intervening valve.

(g) In all cases, the pressure relieving capacity of the safety valve or safety relief valve shall equal or exceed the maximum possible output capacity of the boiler.

(h) Materials that are likely to fail due to deterioration or vulcanization when subjected to saturated steam temperature corresponding to capacity test pressure shall not be used.

(i) Materials used and location.

(a) Piping materials listed in the ASME Code, Section IV, shall be used up to the first stop valve.

(b) Mechanical pipe couplings tested and listed by a nationally recognized testing laboratory shall be permitted in lieu of flanged, threaded, or welded joints within the complete pressure piping system of boilers in which the operating temperature and pressure shall not exceed the manufacturer's designed pressure/temperature rating. Temperatures shall not exceed 200 degrees Fahrenheit and operating pressures shall not exceed 100 psi.

(c) All mechanical pipe couplings shall be fabricated and installed in accordance with the manufacturer's written procedures and using only factory approved tooling.

(d) A mechanical coupling shall not be installed unless the temperature controls on the boiler are set.
Section 3. Existing Installations, Heating Boilers. (1) ASME Code boilers. The maximum allowable working pressure of a boiler built in accordance with the ASME Code shall not exceed the temperature indicated by the manufacturer's identification stamped or cast upon the boiler or upon a plate secured to it.

(2) Noncode cast iron boilers. The maximum allowable working pressure (MAWP) on the shell of a noncode riveted heating boiler shall be determined in accordance with 815 KAR 15:040, Section 2 (power boiler installations) except that the maximum allowable working pressure (MAWP) of a steam boiler shall not exceed fifteen (15) psi or a hot water boiler shall not exceed 160 psi at a temperature not to exceed 250 degrees Fahrenheit.

(3) Noncode welded boilers. The maximum allowable working pressure (MAWP) of a noncode steel or wrought iron heating boiler of welded construction shall not exceed fifteen (15) psi. For other than steam service, the maximum allowable working pressure (MAWP) shall be calculated in accordance with Section IV of the ASME Boiler and Pressure Vessel Code, as established by KRS 236.040(2).

(4) Noncode cast iron boilers. (a) The maximum allowable working pressure (MAWP) of a noncode boiler, composed principally of cast iron, shall not exceed fifteen (15) psi for steam service or thirty (30) psi for hot water service.

(b) The maximum allowable working pressure (MAWP) of a noncode boiler having cast iron shell or heads and steel or wrought iron tubes shall not exceed fifteen (15) psi for steam service or thirty (30) psi for hot water service.

(5) Hydrostatic tests. (a) If a repair is necessary that affects the working pressure or safety of a boiler, the boiler repair shall be subjected to a hydrostatic test of the greater of sixty (60) psig or one and one-half (1 1/2) times the maximum allowable working pressure (MAWP) that is stamped on the boiler.

(b) In making a hydrostatic pressure test, the pressure shall be controlled to prevent the required test pressure from being exceeded by more than ten (10) psig.

(c) Hydrostatic test water shall be at no less than ambient room temperature, but in no case less than seventy (70) degrees Fahrenheit for boilers and thirty (30) degrees Fahrenheit above the minimum design metal temperature for pressure vessels, nor high enough to allow the metal temperature to exceed 120 degrees Fahrenheit.

(d) The safety valve or safety relief valve shall be removed or each valve disc shall be held to its seat by means of a testing clamp.

(e) To test for tightness, the test pressure shall be equal to the relieving pressure of the safety valve having the lowest relief setting.

(6) General. If the boiler inspector or special inspector finds that a steam heating boiler is unsafe for operation at the pressure previously approved, the pressure shall be reduced, proper repair made, or the boiler retired from service.

(a) A blood spot test to detect inborn errors of metabolism and other inherited or congenital disorders and conditions identified in Sections 2 and 3 of this administrative regulation; and

(b) Pulse oximetry testing to detect critical congenital heart disease.

(2) If a baby is not born in a hospital or institution, the attending primary care provider or midwife shall ensure that both tests required by subsection (1) of this section are:

(a) Administered between twenty-four (24) and forty-eight (48) hours of age;

(2) If the pre-transfusion blood spot specimen was obtained before twenty-four (24) hours of age, or if it was not obtained due to an emergency situation, then the hospital or primary care provider shall use all reasonable efforts to obtain a repeat capillary blood specimen from the transfused infant and submit it to the laboratory according to the following schedule:

(a) Seventy-two (72) hours after last blood transfusion, rescreen for inborn errors of metabolism and inherited and congenital disorders and conditions listed in Section 2 and 3 of this administrative regulation; and

(6) If using a single pediatric pulse oximetry sensor, pulse oximetry screening shall be performed on the infant’s right hand and either foot, one after the other, to obtain oxygen saturation results.

Section 11. Pulse Oximetry Testing Results. (1) A passed result shall not require further action if:

(a) The pulse oximetry reading in both extremities is greater than or equal to ninety-five (95) percent; and

(b) The difference between the readings of both the upper and lower extremity is less than three (3) percent.

(2)(a) A pending result shall:

1. Occur if:

   a. The pulse oximetry reading is between ninety (90) and ninety-four (94) percent; or

   b. The difference between the readings of both the upper and lower extremity is greater than three (3) percent; and

2. Be repeated using the pulse oximetry screening in one (1) hour.

(b) If a repeated pulse oximetry screen is also interpreted as pending, it shall be performed again in one (1) hour.

(c) If the pulse oximetry result on the third screen continues to meet the criteria as pending after three (3) screenings have been performed, it shall be considered failed and the procedures established in subsection (3) of this section shall be followed.

(3) A failed result shall occur if the initial pulse oximetry reading is less than ninety (90) percent in the upper or lower extremity and shall require the following action:

(a) The primary care provider shall be notified immediately; and

(b) The infant shall be evaluated for the cause of the low saturation reading; and

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Laura Begin

(a) What this administrative regulation does: This administrative regulation requires that all infants born in Kentucky receive the newborn screening test. It requires that infants be tested for inborn errors of metabolism and other inherited and congenital disorders and conditions as specified in KRS 214.155, establishes how tests are to be performed and results reported, and establishes the schedule of fees to cover actual costs of the newborn screening program.

(b) The necessity of this administrative regulation: This administrative regulation improves outcomes for Kentucky's infants by ensuring testing for inborn errors of metabolism and other inherited and congenital disorders and conditions so that they may be diagnosed and potentially treated. KRS 214.155 requires the Cabinet for Health and Family Services to operate this screening program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 194A.050(1) requires the Secretary of the Cabinet for Health and Family Services to adopt administrative regulations necessary to protect the health of the individual citizens of the Commonwealth and necessary to operate the programs and fulfill the responsibilities vested in the Cabinet. KRS 214.155 requires the Cabinet to operate the newborn screening program for heritable and congenital disorders. The disorders listed in this administrative regulation are consistent with the recommendations of the American College of Medical Genetics, as required by KRS 214.155, except for the addition of Krabbe Disease, which is required by Senate Bill 75 of the 2015 regular legislative session. Krabbe Disease is currently not federally recommended to be part of the newborn screening program by the U.S. Department of Health and Human Services, in part, because of unreliable testing. New York's experience screening for Krabbe Disease in the first five years of testing indicates only an 8% positive predictive value (of 25 babies that screened positive, only two developed symptoms). The disease is also not federally recommended because of the controversial follow-up for a positive diagnosis. The only potentially effective treatment is hematopoietic stem cell transplant; however, the mortality rate afterwards is 5-10% and 10% of patients develop severe graft-vs-host disease (Lantos, John D. "Dangerous and expensive screening and treatment for rare childhood diseases: the case of Krabbe disease." Developmental Disabilities Research Reviews 17 (2011): 15-18). The Division of Laboratory Services of the Cabinet presently have the resources in-house to test for this disorder, resulting in: a fee to ship the blood spots to Mayo Medical Laboratories for Krabbe testing, the cost of a full-time employee to process the specimens and receive and issue test reports, and expanded follow-up in the Newborn Screening Program to contract with universities for further testing.

(4) How this administrative regulation currently assists or will assist in the administration of the statutes: KRS 214.55 requires the Cabinet for Health and Family Services to operate a newborn screening program for inborn errors of metabolism and other inherited and congenital disorders and conditions. The specific tests on the newborn screening panel are consistent with the recommendations of the American College of Medical Genetics as required by statute, except for the addition of Krabbe Disease which is required by Senate Bill 75 of the 2015 General Assembly, although as mentioned previously this disorder is not federally recommended to be part of the newborn screening program because of unreliable testing and because of the controversial follow-up for a positive diagnosis. The only potentially effective treatment to date is hematopoietic cell transplant usually using umbilical cord blood. Studies show the patient may benefit from an early hematopoietic stem cell transplant; however, the mortality rate afterwards is 5-10% and 10% of patients develop severe graft-vs-host disease. The Division of Laboratory Services does not have the resources in-house to test for this disorder, resulting in: a fee to ship the blood spots to Mayo Medical Laboratories for Krabbe testing, the cost of a full-time employee to process the specimens and receive and issue test reports, and expanded follow-up in the Newborn Screening Program, which tracks positive diagnoses and contracts further testing with
...universities.

(b) The necessity of the amendment to this administrative regulation: The 2015 Regular Session enacted Senate Bill 75, which added Krabbe Disease to the panel of diseases to be screened for in newborns. To complete this testing, the newborn screening fee must be increased to cover the associated costs of implementation.

(c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation must be consistent with KRS 214.155, which was amended to include Krabbe Disease during the 2015 Regular Session.

(d) How the amendment will assist in the effective administration of the statutes: Once this amendment is effective, Kentucky newborns will be screened for Krabbe Disease, which is conservatively estimated to be present in 1 in 100,000 individuals.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: There are approximately 60,000 newborns in Kentucky every year. As a result of Senate Bill 75, the Division of Laboratory Services will ship blood spots to Mayo Medical Laboratories for testing and Mayo Clinic will return the results to the Division. To pay for this processing and testing, informational materials for parents, follow-up tracking, and contracts with universities for further testing pursuant to KRS 214.155, hospitals or other entities submitting newborn blood spots for testing will be required to pay an additional $24.00 per child.

(4) Provide an analysis of how the entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The Division of Laboratory Services will have to ship newborn blood spots to Mayo Medical Laboratories. This will require the employment of one full time employee to process and ship the blood spots, receive them back, and report the test results plus the expansion of the Newborn Screening Program which contracts with universities to confirm diagnoses and ensure specialist care for positive diagnoses. To pay for all this, pursuant to KRS 214.155, submitters will be required to pay an additional $24.00 fee.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the identified entities in question (3): The addition of Krabbe Disease to the panel of diseases screened for will cost the Division of Laboratory Services $20.00 per blood spot to have them delivered to Mayo Medical Laboratories, tested (possibly re-tested), and results reported. The Division has estimated it will cost the state $2.00 per blood spot to cover the costs to handle and process the blood spots, report the test results, provide informational materials to parents, medical follow-up of positive diagnoses; and $2.00 for contracts with the University of Kentucky and the University of Louisville for follow-up testing of positive diagnoses (the two university contracts will be increased by $50,000 each). Therefore, blood spot submitters will be charged an additional $24.00 per sample to cover this cost. This cost will likely be borne primarily by insurers or individuals if they have no health insurance.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The estimated 60,000 newborns in Kentucky per year will be tested for Krabbe Disease. Pompe Disease and Hurler’s Disease are also being added to the screening panel in this administrative regulation in order to be consistent with disorders included on the RUSP. If a newborn is diagnosed with Krabbe Disease, as is expected in about one out of every 100,000 individuals, the Newborn Screening Program contracts with universities for testing confirmation and the contacting of a specialist for the disorder positively diagnosed. For Krabbe Disease, the parents may elect for their child to receive further testing and may consider the controversial stem cell transplant treatment. In the first 5 years of its program, New York’s screening of Krabbe Disease produced an 8% positive predictive value (of 25 babies that screened positive, only two developed symptoms). The only potentially effective treatment is hematopoietic cell transplant usually using umbilical cord blood. Studies show the disease may benefit from an early hematopoietic stem cell transplant; however, the mortality rate afterwards is 5-10% and 10% of patients develop severe graft-versus-host disease (Lantos, John D. "Dangerous and expensive screening and treatment for rare childhood diseases: the case of Krabbe disease." Developmental Disabilities Research Reviews 17(1), (2011): 15-18).

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: It is estimated to cost the Cabinet $24.00 per blood spot to be screened and tracked. Pursuant to KRS 214.155, this cost is being passed on to the blood spot submitter.

(b) On a continuing basis: $24.00 per blood spot for processing, reporting, and the follow-up of positive diagnoses is being passed on to blood spot submitters pursuant to KRS 214.155.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change, if it is an amendment: This amendment includes a fee increase, resulting from 2015 Regular Session legislation. Senate Bill 75 added Krabbe Disease to KRS 214.155, requiring it to be added to the list of disorders screened for in Kentucky newborns. The Division of Laboratory Services presently does not have the resources for screening this disease, so dried blood spots will be sent to the Mayo Medical Laboratories. This fee covers the cost of the testing being done at the Mayo Medical Laboratories, processing and handling the samples, and the expansion of the Newborn Screening Program.

(9) TIERING: Is tiering applied? No. All blood spot submitters (such as hospitals) are subject to this administrative regulation.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Division of Laboratory Services is required to screen newborn blood spots for Krabbe Disease as a result of 2015 legislation (Senate Bill 75). This screening, plus the follow-up performed by the Department for Public Health will cost approximately $24.00 per blood spot, with approximately 60,000 blood spots per year.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.050(1) requires the Secretary of the Cabinet for Health and Family Services to adopt administrative regulations necessary to protect the health of the individual citizens of the Commonwealth and necessary to operate the programs and fulfill the responsibilities vested in the Cabinet. KRS 214.155 requires the Cabinet to operate the newborn screening program for heritable and congenital disorders. The disorders listed in this administrative regulation are consistent with the recommendations of the American College of Medical Genetics as required by statute, except for the inclusion of Krabbe Disease, which is required by Senate Bill 75 of the 2015 Regular Session.

3. Estimate the effect of this administrative regulation on the
expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will generate approximately $7 million, which will cover the cost of the Newborn Screening Program, as required by KRS 214.155.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will generate approximately $7 million per year, which will cover the cost of the Newborn Screening Program, as required by KRS 214.155.

(c) How much will it cost to administer this program for the first year? This amendment to screen blood spots for Krabbe Disease will cost $24.00 per blood spot, with approximately 60,000 samples per year. The program costs approximately $7 million per year. This cost is being passed to blood spot submitters (such as hospitals) by increasing the newborn screening fee included in this amendment.

(d) How much will it cost to administer this program for subsequent years? This entire program costs approximately $7 million per year. Blood spot submitters (such as hospitals) pay for this program.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Contact Person: Stuart Owen
(1) Provide a brief summary of:
(a) This administrative regulation does: This administrative regulation establishes the Medicaid program coverage provisions and requirements regarding home and community based (HCB) waiver services. This program enables individuals who have nursing facility level of care needs to be able to reside in and receive services in a community setting (including their own residence) rather than have to be admitted to a nursing facility.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the Medicaid program coverage provisions and requirements regarding
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by helping enable individuals who have nursing facility level of care needs to reside in and receive services in a community setting rather than in a nursing facility.
(d) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendments including establishing that the provisions in this administrative regulation apply to individuals receiving services under the current version of this waiver program until they transition to a new version – Version 2. The Department for Medicaid Services (DMS) is concurrently promulgating administrative regulations (907 KAR 7:010 and 907 KAR 7:015) which establish provisions and requirements associated with Version 2 of this waiver program. Individuals currently receiving HCB waiver services will continue to receive services pursuant to this administrative regulation until their next recertification. The recertification is an annual process whereby individuals are re-assessed to verify that they continue to meet the criteria to qualify for HCB waiver services. At the time individuals are recertified (provided they continue to meet the criteria) they will transition to Version 2 of this program. Until then they will receive services pursuant to this administrative regulation (Version 1 of the program.) After all individuals have transitioned to Version 2, DMS intends to repeal this administrative regulation. Additional amendments include safeguards to protect program participants such as prohibiting HCB provider staff (as well as individuals who provide participant directed services) from providing services if they’ve pled guilty to or been convicted of a sex crime of
violent crime or have a felony conviction; requiring providers to perform background checks such as a criminal records check of the Kentucky Administrative Office of the Courts, a Nurse Aid Abuse Registry check, a Caregiver Misconduct Registry check, a Central Registry check (or allowing the checks established in the Office of Inspector General’s Kentucky Applicant Registry and Employment Screening (KARES) Program satisfy the aforementioned checks); requiring providers to have staff complete training in abuse, neglect, fraud, and exploitation; requiring provider staff to obtain cardiopulmonary resuscitation (CPR) certification and first aid certification; requiring provider staff to have been assessed for tuberculosis (TB) risk and prohibited from providing care if signs of TB are present; prohibiting providers from hiring individuals who have not successfully passed a drug test; requiring individuals chosen by participants to represent them (representatives) or to provide participant-directed services to them to meet background and related check requirements; requiring individuals who provide participant-directed services to obtain CPR and first aid certification; and other safeguards. Other amendments include defining terms for clarity; replacing the term “consumer-directed option” or “CDO” with “participant-directed services” or “PDS”; and language or formatting revisions to comply with KRS Chapter 13A standards.

(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to enable DMS to transition individuals who receive HCBS waiver services over the course of a year from this version of the program to Version 2. Additional amendments are necessary to protect the health, safety, and welfare of individuals receiving services via this program.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by enabling DMS to transition individuals from the current version of this program to a new version over the course of a year and by enhancing health, safety, and welfare safeguards for individuals who receive services via this program.

(d) How the amendment will assist in the effective administration of the authorizing statutes: The amendment will assist in the effective administration of the authorizing statutes by enabling DMS to transition individuals from the current version of this program to a new version over the course of a year and by enhancing health, safety, and welfare safeguards for individuals who receive services via this program.

(e) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: There are currently sixty-three (63) providers (home health departments and adult day health care centers) enrolled as HCBS waiver program providers. Over 9,500 individuals are currently receiving services through the program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action is required by providers. No action is required.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): This administrative regulation continues the program as is temporarily; thus, there is no change in benefits.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

Section 7. Applicability and Transition to Version 2. (1) The provisions and requirements established in this administrative regulation shall:
(a) Apply to HCB waiver services provided to an HCB waiver service pursuant to 907 KAR 1:160; and
(b) Not apply to individuals receiving HCB waiver services version 2 pursuant to 907 KAR 7:010.

(2) The provisions and requirements established in this administrative regulation shall become null and void at the time that every eligible HCB waiver recipient served in accordance with 907 KAR 1:160 has transitioned to the HCB waiver services version 2 program pursuant to 907 KAR 7:010.

Section 8. Appeal Rights. An HCB service provider may appeal a department decision as to the application of this administrative regulation as it impacts the provider’s reimbursement in accordance with 907 KAR 1:671, Sections 8 and 9.

Section 9. Incorporation by Reference. (1) The following material is incorporated by reference:
(a) “MAP-1021, ADHC Payment Determination Form”, August 2000 [Edition];
(b) “Adult Day Health Care Attending Physician Statement”, August 2000 [Edition];
(c) “The Home Health and Home and Community Based Cost Report”, November 2007 [Edition]; and

(2) This material may be inspected, copied, or obtained, subject to applicable copyright law, at:
(a) The Department for Medicaid Services, 275 East Main Street, Frankfort, Kentucky, 40601, Monday through Friday, 8 a.m. to 4:30 p.m.; or
provided pursuant to 907 KAR 1:160 will continue to be as
established in this administrative regulation. The recertification is
an annual process whereby individuals are re-assessed to verify
that they continue to meet the criteria to qualify for HCB waiver
services. At the time individuals are recertified (provided they
continue to meet the criteria) they will transition to Version 2 of
this program. Until then they will receive services pursuant to 907 KAR
1:160 (Version 1 of the program) and for which DMS will continue
to pay pursuant to this administrative regulation. After all
individuals have transitioned to Version 2, DMS intends to repeal
907 KAR 1:160 and this administrative regulation.

(b) The necessity of the amendment to this administrative
regulation: Eliminating the safety net reimbursement is necessary
as it is no longer necessary to ensure an adequate provider base and
to comply with the federal upper payment limit. When DMS
launched the safety net provider reimbursement two (2) entities
qualified with one (1) eventually no longer qualifying. The existing
qualifying entity has ended up receiving reimbursement well above
costs as well as the federal upper payment limit. Consequently,
DMS is terminating the payment to protect the receipt of federal
Medicaid funding, to protect taxpayer monies, and to ensure
compliance with federal payment requirements. The amendment
regarding transitioning to Version 2 for the program is necessary
to enable DMS to transition individuals who receive HCB waiver
services over the course of a year from this version of the program
to Version 2.

(c) How the amendment conforms to the content of the
authorizing statutes: The amendment conforms to the content of
the authorizing statutes by ensuring compliance with federal upper
payment limits and by enabling DMS to transition individuals from
the current version of this program to a new version over the
course of a year.

(d) How the amendment will assist in the effective
administration of the statutes: The amendment will assist in the
effective administration of the authorizing statutes by ensuring
compliance with federal upper payment limits and by enabling DMS
to transition individuals from the current version of this program
to a new version over the course of a year.

(3) List the type and number of individuals, businesses,
organizations, or state and local government affected by this
administrative regulation: There are currently sixty-three (63)
providers (home health agencies and adult day health care
care centers) enrolled in the HCB waiver program. Approximately
9,600 individuals are currently receiving services through the program.

(4) Provide an analysis of how the entities identified in question
(3) will be impacted by either the implementation of this
administrative regulation, if new, or by the change, if it is an
amendment, including:

(a) List the actions that each of the regulated entities identified
in question (3) will have to take to comply with this administrative
regulation or amendment: No action is required by providers.

(b) In complying with this administrative regulation or
amendment, how much will it cost each of the entities identified in
question (3): No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the
entities identified in question (3): Participants in the program will
benefit by being able to receive services under this version of the
program until they transition to the transformed version of the
program that is addressed in 907 KAR 7:010 and 907 KAR 7:015.

(5) Provide an estimate of how much it will cost to implement
this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS)
anticipates no costs initially as a result of the amendment.

(b) On a continuing basis: DMS anticipates no costs on a
continuing basis as a result of the amendment.

(6) What is the source of the funding to be used for the
implementation and enforcement of this administrative regulation:
The sources of revenue to be used for implementation and
enforcement of this administrative regulation are federal funds
authorized under the Social Security Act, Title XIX and matching
funds, and general fund appropriations.

(7) Provide an assessment of whether an increase in fees or
funding will be necessary to implement this administrative
regulation, if new, or by the change if it is an amendment. Neither
an increase in fees nor funding is necessary to implement the
amendment.

(8) State whether or not this administrative regulation
establishes any fees or directly or indirectly increases any fees:
The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate
in this administrative regulation because the administrative regulation
applies equally to all those individuals or entities regulated by it.

by regulation comply with any requirement that may be imposed or

expenditures and revenues of a state or local government agency
(including cities, counties, fire departments, or school districts) for
the first full year the administrative regulation is in effect.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation requires applicants to comply with the federal requirements contained in 10 C.F.R. Part 37. The U.S. Nuclear Regulatory Commission (NRC) issued orders requiring licensees to implement enhanced security to control access to radioactive material quantities of concern and to protect sensitive security-related information and regulations. Kentucky is required to do this as an Agreement State with the primary authority to regulate, inspect, and take enforcement actions against licensees.
(b) The necessity of this administrative regulation: As an Agreement State with the authority to operate its radiation program, the Department for Public Health, Radiation Health Branch, is required to maintain a compatible set of regulations to those of the NRC which govern the receipt, transfer, possession, use, and distribution of radioactive material in the Commonwealth. The NRC adopted the federal counterpart to this regulation on March 19, 2013, and the Department has three years to promulgate a compatible regulation in its own program. KRS 194A.050(1) requires the Secretary of the Cabinet for Health and Family Services to adopt administrative regulations necessary to protect the health of the individual citizens of the Commonwealth and necessary to operate the programs and fulfill the responsibilities vested in the Cabinet.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Stuart Owen
(1) Provide a brief summary of:
   (a) What this administrative regulation does: This administrative regulation establishes the Medicaid program coverage provisions and requirements regarding a new version – Version 2 – of home and community based (HCB) waiver services. HCB waiver services are a Medicaid program that provides personal care services to eligible for HCB waiver services. The HCB program enables individuals who have nursing facility level-of-care needs to live, and receive services, in a community setting rather than in a nursing facility. Individuals will be transitioned to the new version of the HCB program at the time of their next level-of-care certification/determination. The certification is a process that assesses the individual to determine if they still meet HCB waiver program criteria (i.e., still have nursing facility level-of-care needs). Differences between Version 2 and Version 1 include establishing new federally-mandated case management requirements (that case management be free from conflict of interest); requiring, as federally mandated, that an online portal (Medicaid Waiver Management Application or MMWA) be used to apply for admission to the program and to complete forms and documents associated with the program; establishing a person-centered service plan along with associated requirements (federally mandated) for each program participant. The overarching requirement of the person-centered service plan is to more greatly involve and afford more choice by the participant and/or participant’s representative in designing the plan and related components as well as better enable them to assimilate into their community. Additional differences include adding home-delivered meals as a covered service; creating a new service (home and community supports) by consolidating former services (homemaking and personal care); establishing a specialized and non-specialized version of respite; adding a new service called participant-directed service (PDS) coordination; adds new rights that must be guaranteed for individuals receiving services; require providers to check the Good Conduct Registry before hiring an individual and prohibits the hiring of anyone listed on the registry; and narrows the classes of incidents (to be reported) from

1681
two (2) classes to one (1) class (critical).

(b) The necessity of this administrative regulation: The administrative regulation is necessary to establish coverage policies for a new version – Version 2 - of Medicaid’s home and community based waiver program and in accordance with federal requirements.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The administrative regulation conforms to the content of the authorizing statutes by establishing Medicaid coverage provisions and requirements for a new version of a program that enables individuals who have nursing facility level-of-care needs to live, and receive services, in a community setting rather than in a nursing facility.

(d) How much will it cost to implement this administrative regulation: This is a new administrative regulation rather than an amendment.

(e) How does the necessity of this administrative regulation, if new, or by the change, if it is an amendment. Neither

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts), for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment will not generate any additional revenue for state or local governments during the first year of implementation.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or local governments during subsequent years of implementation.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Stricter requirements are not imposed.
VOLUME 42, NUMBER 5 – NOVEMBER 1, 2015

(d) How much will it cost to administer this program for subsequent years? DMS anticipates that the amendment will be budget neutral in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This is a new administrative regulation which establishes the Medicaid program reimbursement provisions and requirements regarding a new
version of home and community based waiver program services (Version 2). This program enables individuals who have nursing facility level of care needs to, rather than receive services in a nursing facility, live in and receive services in a community setting. Differences between Version 1 and Version 2 include: adding reimbursement for a new service - home-delivered meals; adding reimbursement for home and community supports which results from consolidating former services (homemaking and personal care); establishing reimbursement for two (2) types of respite - specialized and non-specialized version; adding reimbursement for a new service called participant-directed service (PDS) coordination; increasing the rate for Level I adult day health care (ADHC) center services from $2.57 per unit to $2.83 per unit; revising the criteria for Level II adult day health care (ADHC) center reimbursement as well as increasing the rates from $3.12 per unit to $3.43 per unit; and eliminating reimbursement for a "safety net provider".

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the Medicaid program reimbursement provisions and requirements for a new version of the home and community based waiver services program. Increasing reimbursement for Level I and Level II ADHC services is necessary to help providers of such services meet the demand for services. Eliminating the safety net provider category and reimbursement is necessary to comply with a federal mandate and to ensure receipt of federal funds. The safety net provider category was created several years ago in response to a need for services in Eastern Kentucky. The provider that no longer meets the criteria and a new provider emerged whose reimbursement has ended up not only exceeding costs but the federal upper payment limit. The Department for Medicaid Services (DMS) is ending the reimbursement to comply with the federal upper payment limit and ensure receipt of federal funds for the program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the Medicaid program reimbursement provisions and requirements regarding a new version of the home and community based waiver services program and complying with federal requirements for the program.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the Medicaid program reimbursement provisions and requirements regarding a new version of the home and community based waiver services program and complying with federal requirements for the program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation which establishes reimbursement for a new version (Version 2) of the home and community based waiver program.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation which establishes reimbursement for a new version (Version 2) of the home and community based waiver program.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation which establishes reimbursement for a new version (Version 2) of the home and community based waiver program.

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation which establishes reimbursement for a new version (Version 2) of the home and community based waiver program.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Currently sixty-three (63) providers (home health departments and adult day health care centers) enrolled as HCBS waiver program providers over 9,500 individuals are receiving services through the program. There is one (1) entity that qualified in recent years as a safety net provider.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Participants who receive goods and services will have to produce three (3) quotes from providers for goods and services in order for the department to reimburse for the goods and services. Additionally, documentation justifying the need for goods and services and for environmental or minor home adaptations must also be documented in the MWMA portal.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Some costs could be experienced related to acquiring three (3) quotes for goods and services but the cost is indeterminable.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Home and community based waiver program participants will benefit by being able to receive home-delivered meals among other new services. ADHC centers will benefit from higher reimbursement for ADHC services and providers of home-delivered meals (a new service) will benefit by being reimbursed for such services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that this administrative regulation will be budget neutral initially.

(b) On a continuing basis: DMS anticipates that the amendments to this administrative regulation will be budget neutral on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal funds authorized under the Social Security Act, Title XIX and state matching funds from general fund and restricted fund appropriations are utilized to fund the this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it.

**Real Estate Commission: Commission**

201 KAR 11:170 & E. Real estate school and pre-license course approval. Kristen Reese, director of education and licensing, and Rhonda Richardson, general counsel, represented the commission. Sandra Hackney, associate professor at Bluegrass Community and Technical College; Pam Mooney, instructor at the A-Pass-Weikel Institute; John Weikel, Jr., president of the A-Pass-Weikel Institute; and John Weikel, Sr., appeared in opposition to these administrative regulations.

Ms. Hackney stated that, as real estate option coordinator at Bluegrass Community and Technical College, she believed that the original intent of the authorizing legislation was to include hands-on courses for post-licensure training, which would support licensees in understanding licensee responsibilities to the public and requirements of the commission. Ms. Hackney stated that, while she fully supported that intent, there were some practical problems with the requirements. For colleges, course requirements needed to be 120, rather than 90, hours, in order to fit the existing class time structure. All real estate commissions should be for thirty (30), hours, in order to fit the existing class time structure. Total class requirements should be for thirty-two (32), rather than thirty (30), hours, in order to fit the existing class time structure. All real estate education courses were designed to protect the public. Mr. Weikel, Jr. stated that he would not have supported the authorizing legislation had he known that it would be applied inflexibly in these administrative regulations.

In response to a question by Senator Raque Adams, Ms. Richardson stated that the commission met several times with Mr. Weikel, Jr. regarding the curriculum courses, and the commission did not agree to his proposed amendment. Licensees in the post-licensure education program would be sales associates, not brokers; therefore, a brokerage management class was not generally appropriate for credit. There were three (3) levels of education for sales associates: prelicensure, post-licensure, and continuing education. Each level of education required its own, topically based approval process. It was inappropriate for a brokerage management class to receive automatic approval for credit toward post-licensure education requirements. Brokerage management courses were generally directed toward career advancement, while the post-licensure intent was toward public protection. The workgroup, which consisted of geographically diverse providers throughout Kentucky, licensees, realtor association members, and public stakeholders, established the curriculum hour standards, including hour standards for specific topics. She stated that the commission would agree to revise 201 KAR 11:235, Section 2(8) to amend the total class requirements from thirty (30) to thirty-two (32) hours, to amend the elective class requirements from eighteen (18) to sixteen (16) hours, and to add a two (2) hour required class for Risk Management.

Ms. Mooney, a pre-license instructor at A-Pass-Weikel Institute, stated that she supported Mr. Weikel's proposed amendment to 201 KAR 11:235, Section 2(8).

In response to questions by Co-Chair Marzian, Mr. Weikel, Jr. stated that there were fourteen (14) pre-licensure education providers and forty-five (45) continuing education providers. University and college providers had a separate process for approval.

In response to a question by Co-Chair Harris, Ms. Richardson stated that the commission preferred not to defer consideration of these administrative regulations to the November meeting of the Subcommittee because these requirements needed to be in place by January 1, 2016.

Mr. Weikel, Sr., stated that brokerage management was the best real estate education course available, and it should be approved for credit toward post-licensure requirements. Brokerage management skills translated to sales associates.

A motion was made and seconded to approve the following amendments: (1) to amend Sections 1, 2, 3, 5, 7, and 8 to comply with the drafting and formatting requirements of KRS Chapter 13A; and (2) to amend Sections 1 and 9 to incorporate an application form by reference. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 11:175 & E. Instructor approval procedures and guidelines.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2014 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.
