The administrative body shall schedule a public hearing on proposed administrative regulations, which shall not be held before the 21st day or later than the last workday of the month of publication. STATEMENT OF EMERGENCY
103 KAR 15:180E

This emergency administrative regulation is being promulgated in order to provide qualified community development entities procedures necessary when applying for and administering the New Markets Development Program tax credit. $5 million of the $10 million New Markets Development Program credit cap is available for allocation after June 30, 2016. An ordinary administrative regulation is not sufficient, because qualified community development entities will begin applying for the $5 million increase in New Markets Development Program tax credits on July 15, 2016. This emergency administrative regulation shall be replaced by an ordinary administrative regulation which is being filed with the Regulations Compiler along with this emergency administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

STATEMENT OF EMERGENCY
804 KAR 4:400E

During its 2016 regular session, the General Assembly passed Senate Bill 11, which amended numerous provisions within the statutory scheme that regulates the alcoholic beverage industry. See 2016 Ky Acts ch. 80. Senate Bill 11 is effective on July 15, 2016. Senate Bill 11 created new license types and made certain businesses eligible for existing licenses. The new license types are Rectifier's Class A license, Rectifier's Class B license, and Authorized Public Consumption license. In addition, Senate Bill 11 made distilleries and bed and breakfasts eligible for an NO3 license. This emergency administrative regulation will ensure that the Department may issue the newly created licenses established by the General Assembly in Senate Bill 11 on its effective date. This emergency administrative regulation will also allow distilleries and bed and breakfasts to apply for an NO3 license on the effective date of Senate Bill 11. The Department's existing forms do not reflect these provisions of Senate Bill 11, so the forms must be amended. Therefore, this emergency administrative regulation is required pursuant to KRS 13A.190(a)(3) to meet a deadline for the promulgation of an administrative regulation that is established by state law. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Melissa McQueen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation incorporates the forms the department uses to issue and renew alcoholic beverage licenses.

(b) The necessity of this administrative regulation: This regulation is necessary because the department is required by statute to set forth what information is needed to obtain or renew an alcoholic beverage license.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 243.380 and 243.390 require the department to set forth what information is required to obtain or renew a license.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation clarifies what information needs to be provided to the department in order to obtain or renew an alcoholic beverage license. By incorporating the application and renewal application, the information that is required to apply for, or renew, an alcoholic beverage license is ascertainable.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the renewal form and includes information on how to utilize the Kentucky One-Stop Business ("KyBoS") Portal for on-line renewals. Additionally, the basic application and renewal application forms have also changed in order to comply with the numerous provisions of Senate Bill 11 ("SB 11"), which created several new license types.

(b) The necessity of the amendment to this administrative regulation: The renewal application needed to be amended to add information about the KyBoS Portal website for licensees to renew
online through that portal, and this amended form needs to be incorporated into the administrative regulation. Additionally, the basic application and renewal application forms have also been amended to account for new license types created by SB 11.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 243.380 and 243.390 require the department to set forth what information is required to obtain or renew a license. This amendment updates the renewal form to clarify what website licensees need to use to utilize the KyBoS Portal if they wish to renew online. With this amendment, the basic application and renewal application forms will also comply with the requirements of SB 11, which goes into effect on July 15, 2016.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will make the basic application and renewal application compliant with the provisions of SB 11, which adds new license types. Additionally, it clarifies what information licensees need in order to renew their alcoholic beverage licenses through the KyBoS Portal.

(3) List the type and number of individuals, businesses, organizations, or local governments affected by this administrative regulation: Any person or entity who wishes to apply for any alcoholic beverage license, or renew an alcoholic beverage license online, will be affected by this administrative regulation. The Department of Alcoholic Beverage Control will also be affected by this regulation.

(4) Provide an analysis of how the entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The required actions of applying, or renewing, a license are no different than the process the licensees and applicants currently follow to obtain or renew an alcoholic beverage license. However, they will be receiving information on how to do this through the KyBoS Portal instead of going directly through the department’s website.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The KyBoS Portal will be utilized for online renewals and is incorporated by reference on the revised renewal form. The Department will continue to utilize the KyBoS Portal for online renewals. The Commonwealth Office of Technology (“COT”), through its representative(s), has repeatedly stated that the Department will have no additional costs for utilizing the KyBoS Portal.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): There are no financial benefits to this administrative regulation amendment.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: It is estimated that this will cost the Department approximately $290,000 per year to utilize the KyBoS Portal.

(b) On a continuing basis: It is estimated that this will cost the Department approximately $290,000 per year to utilize the KyBoS Portal for online license renewals.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: It is estimated that it will cost the Department approximately $290,000 per year to utilize the KyBoS Portal for online license renewals.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: There is no anticipated increase in fees or funding necessary to amend this administrative regulation based upon representations by COT.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increased any fees: This administrative regulation amendment does not directly or indirectly establish or increase any fees.

(9) TIERING: Is tiering applied? No tiering is applied because this regulation applies equally to the regulated entities.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 241.060(1) authorizes the board to promulgate administrative regulations. The One-Stop Business Portal was created by KRS 14.250.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. STATEMENT OF EMERGENCY

804 KAR 4:410E

During its 2016 regular session, the General Assembly passed Senate Bill 11, which amended numerous provisions within the statutory scheme that regulates the alcoholic beverage industry. See 2016 Ky Acts ch. 80. Senate Bill 11 is effective on July 15, 2016. Senate Bill 11 amended KRS 243.120 to create the new Class C Rectifier’s license and the new Class B Rectifier’s license. Previously, only a single Rectifier’s license existed. The new Class B Rectifier’s license will aid small businesses by saving them $1,755 upon licensure renewal. Additionally, Senate Bill 11 amended KRS 243.0305, KRS 243.086, and KRS 243.120 to allow distilleries in certain territories to sell alcohol by the drink on the distillery’s premises. This emergency administrative regulation will ensure that the Department may review, consider, and issue licenses established by the General Assembly in Senate Bill 11 on its effective date. The Department’s existing forms are insufficient to give intent to Senate Bill 11, so they must be amended. Therefore, this emergency regulation is required pursuant to KRS 13A.190(a)(3) to meet a deadline for the promulgation of an administrative regulation that is established by state law. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is

STATEMENT OF EMERGENCY

804 KAR 11:010E

During its 2016 regular session, the General Assembly passed Senate Bill 11, which amended numerous provisions within the statutory scheme that regulates the alcoholic beverage industry. See 2016 Ky Acts ch. 80. Senate Bill 11 is effective on July 15, 2016. KRS 244.590 generally prohibits brewers and distributors from furnishing, giving, renting, lending, or selling equipment, services, or other things of value to retailers, except as permitted by the director of the Division of Malt Beverages upon consideration of public health, the quantity and value of the articles involved, and the prevention of monopoly. Senate Bill 11 amended KRS 244.590 to permit a brewer or distributor to give, rent, loan, or sell certain retailers a refrigerated cooler that bears the advertising material of the brewer or distributor. This emergency administrative regulation is required to define the term “refrigerated coolers” until such time as the department may establish the standards for giving, renting, loaning, or selling refrigerated coolers bearing advertising materials to a retailer. Without a definition for this term, the Department of Alcoholic Beverage Control would be without the standards necessary to enforce the provisions of Senate Bill 11 relating to refrigerated coolers. Therefore, this action is taken in accordance with KRS 13A.190(1)(a)(3) to meet a deadline for the promulgation of an administrative regulation that is established by state law. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is not identical to this emergency administrative regulation.

Section 2. Combination of Radionuclides. (1) \[\text{NOTES:}\] For purposes where there is involved a combination of radionuclides in known amounts, the limit for the combination shall be derived by determining [as follows: (1) Determine] for each radionuclide in
the combination, the ratio between the quantity present in the combination and the limit otherwise established for the specific radionuclide when not in combination; and

211.844(1) The sum of the ratios for all radionuclides in the combination shall not exceed one (1)["1", that is, or unity. 

The quantities listed above were derived by taking 1/10th of the most restrictive ALI listed in Table 1, Columns 1 and 2, of KAR 100.140 Section 44, rounding to the nearest factor of 10, and constraining the values listed between 0.001 and 1,000 μCi (37 Bq and 37 MBq). Values of 100 μCi (3.7 MBq) have been assigned for radionuclides having a radioactive half-life in excess of 10.0±9 years, except rhenum, 1,000 μCi (37 MBq), to take into account their low specific activity.

To convert μCi to kBq, multiply the μCi value by 37.

Section 2, Special Cases: 7 C.F.R. 271.4. The following applies to the combination of nuclides:
(1) In expressing the concentrations in Section 2 of this administrative regulation, the activity stated is that of the parent nuclide and takes into account the daughters.
(2) For purposes of 902 KAR 100:045, Section 3, if a combination of nuclides is involved, the limit for the combination shall be derived by determining, for each nuclide in the product, the ratio between the radioactivity concentration present in the product and the exempt radioactivity concentration established in Section 2 of this administrative regulation for the specific nuclide if not in combination. The sum of the ratios shall not exceed one (1), or unity.

Department for Community Based Services
Division of Family Support
(As Amended at ARRS, July 14, 2016)

921 KAR 3:035. Certification process.
within the state. KRS 194A.050(1) requires the secretary to promulgate administrative regulations necessary to implement programs mandated by federal law or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs. This administrative regulation establishes the certification process used by the cabinet in the administration of SNAP.

Section 1. Eligibility and Benefit Levels. (1) Eligibility and benefit levels shall be determined by the cabinet by considering a household’s circumstance for the entire period for which each household is certified.

(2) Certification criteria shall be applicable to all households.

(3) Certain households shall require special or additional certification procedures as specified in Section 5 of this administrative regulation.

Section 2. Certification Periods. (1) In accordance with 7 C.F.R. 273.10(i), the cabinet shall establish a definite period of time within which a household shall be eligible to receive benefits.

(2) Except as provided in subsection (3) of this section, a household shall be certified for at least:

(a) Twelve (12) months; or

(b) Twenty-four (24) months if all members:

1. Are elderly or have a disability as defined in 921 KAR 3:010; and

2. Have no earned income.

(3)(a) A household shall be certified for one (1) or two (2) months if the household meets criteria to:

1. Expedite benefits in accordance with 7 C.F.R. 273.2(j)(1); and

2. Postpone verification.

(b) At the end of a one (1) or two (2) month certification, a household may be recertified for six (6) months; or

(c) Twelve (12) months if all members:

1. Are elderly or have a disability as defined in 921 KAR 3:010; and

2. Have no earned income.

(d) The ineligible member’s share of dependent care and shelter costs.

(e) Income from the household’s self-employment enterprise that has been in existence for less than one (1) year shall be averaged over the period of time the business has been in operation and a monthly amount projected over the coming year.

(f) The cabinet shall calculate the self-employment income on anticipated earnings if the:

1. A new household member who is non-elderly or non-disabled;

2. A gain of earned income.

(b) If a household fails to return a completed FS-2 or the required income verification, the cabinet shall take action in accordance with 7 C.F.R. 273.12(a)(5).

Section 3. Certification Notices to Households. In accordance with 7 C.F.R. 273.10(g), the cabinet shall provide an applicant with one (1) of the following written notices as soon as a determination is made, but no later than thirty (30) days after the date of the initial application:

(1) Notice of eligibility;

(2) Notice of denial; or

(3) Notice of pending status.

Section 4. Application for Recertification. The cabinet shall process an application for recertification as specified in 921 KAR 3:030, Section 1, as follows:

(1) If a household files the application:

(a) By the 15th day of the last month of the certification, the cabinet shall:

1. Allow the household to return verification or complete a required action through the last calendar day of the application month; and

2. Provide uninterrupted benefits, if the household is otherwise eligible; or

(b) After the 15th day, but prior to the last day of the last month of the certification, the cabinet shall allow the household thirty (30) days to return verification or complete a required action; or

(2) If the household fails to provide information required for the cabinet to process the application for recertification within a time period established in subsection (1) of this section, the cabinet shall take action in accordance with 7 C.F.R. 273.14(e)(2).

Section 5. Certification Process for Specific Households. Pursuant to 7 C.F.R. 273.11, certain households have circumstances that are substantially different from other households and therefore shall require special or additional certification procedures. (1) A household with a self-employed member shall have its case processed as established in this subsection.

(a) Income shall be annualized over a twelve (12) month period, if self-employment income:

1. Represents a household’s annual income; or

2. Is received on a monthly basis which represents a household’s annual support.

(b) Self-employment income, which is intended to meet the household’s needs for only part of the year, shall be averaged over the period of time the income is intended to cover.

(c) Income from a household’s self-employment enterprise that has been in existence for less than one (1) year shall be averaged over the period of time the business has been in operation and a monthly amount projected over the coming year.

RELATES TO: KRS 335.070(3)
STATUTORY AUTHORITY: KRS 335.070(3), (6)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 335.070(3) authorizes the board to promulgate administrative regulations pursuant to KRS Chapter 13A to carry out the provisions of KRS 335.010 to 335.160 and KRS 335.990. This administrative regulation establishes the requirements for a licensee to request approval from the board to place his or her license on inactive (nonpractice) status. This administrative regulation establishes the requirements relating to inactive licenses, extension of inactive status, return to active status, and reinstatement.

Section 1. Request for Inactive Status. A licensee may request that his or her license be placed on inactive licensure status by submitting to the board:
(1) Written request for his or her license to be placed on inactive status, received by the board no sooner than ninety (90) days before the license expiration date;
(2) Payment of an inactive license status fee of fifty (50) dollars made payable to the Kentucky State Treasurer. The licensee shall be relieved of his or her obligation to pay the license renewal fee established in 201 KAR 23:020 for his or her license level; and
(3) A copy of certificates of attendance or completion to show proof of continuing education requirements for renewal as established in 201 KAR 23:075.

Section 2. Additional Extension of Inactive Status. A licensee whose license is on inactive status may request an additional extension of the inactive license status and shall submit to the board:
(1) Written request to continue the license on inactive status, received by the board no sooner than ninety (90) days before the license expiration date;
(2) Payment of an inactive status fee of (a) fifty (50) dollars made payable to the Kentucky State Treasurer; and (b) an inactive status fee of (b) fifty (50) dollars made payable to the Kentucky State Treasurer;
(3) A copy of continuing education certificates of completion or attendance, awarded to the licensee during the period of inactive status, to show proof of continuing education requirements for renewal as established in 201 KAR 23:075.

Section 3. License Expiration. If the licensee does not submit a request for extension of the inactive status or the licensee fails to renew his or her license before the license expiration date, the license shall expire.

Section 4. Return to Active License Status. At any time within the three (3) year period of being granted inactive licensure status, a licensee may request his or her license be returned to active status by submitting to the board:
(1) Written request to the board to return his or her license to active status;

(3) A copy of continuing education certificates of completion or attendance, awarded to the licensee during the period of inactive status, to show proof of continuing education requirements for renewal as established in 201 KAR 23:075.

Section 5. Renewal of Expired License. Following expiration of a license under Section 3 of this administrative regulation, a licensee who desires to practice social work in Kentucky shall follow the requirements for reinstatement established in 201 KAR 23:050.
reinstatement.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: This administrative regulation establishes a new level of license for licensees who do not want their license to expire, but who do not desire to practice social work in Kentucky, no longer need a license for their career, are employed in a position that does not require a license, or for those who do not live in Kentucky. The licensee can request the change to inactive status, and as a result, pay a reduced fee and avoid expiration of the license and the time and cost of reinstatement.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The board has established a $50 fee for inactive status license, which is reduced from the renewal fee for each level of license ($200 renewal fee for licensed clinical social worker, $125 for certified social worker, and $75 for licensed social worker). It will cost less for a licensee to return his or her license to active status than if the license had expired.

(c) As a result of compliance, what benefits will accrue to the regulated entities identified in question (3): A licensee will have the option to change his or her active social work license to inactive status when life circumstances make an active license to practice social work in Kentucky unnecessary.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The board estimates that it will incur no additional costs to implement this administrative regulation.

(b) On a continuing basis: The board estimates that no additional costs will be incurred by this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The board’s operation is wholly self-funded by various fees paid by the licensees, applicants and continuing education providers and sponsors.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: Yes, this administrative regulation directly establishes a decreased fee for inactive status license at time of renewal.

(9) TIERING: Is tiering applied? Tiering was not applied as the regulation is applicable to all licensees. This regulation does not distinguish between similarly situated individuals on the basis of any factor.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Board of Social Work will be impacted by this administrative regulation.

(2) Identify each state or federal statute or state or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 335.070(3) authorizes the board to promulgate administrative regulations to carry out the provisions of KRS 335.010 to 335.160 and KRS 335.990.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The board estimates that its revenues may decrease slightly due to the lowered fee for the inactive status.

(4) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of inactive licensees fees that will be generated by this administrative regulation is not known at this time.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None.

(c) How much will it cost to administer this program for the first year? The board estimates that no additional costs of any significance will be incurred by this amendment.

(d) How much will it cost to administer this program for subsequent years? The board estimates that no additional costs of any significance for subsequent years will be incurred by this amendment.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Florence S. Huffman

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the minimum requirements for continuing education for renewal as a method for ensuring the continued professional competence of licensed social workers and compliance with Kentucky law. This administrative regulation specifies the number of hours to be obtained for each renewal period and defines courses in certain content areas required by the board and Kentucky law for initial licensure, renewal and reinstatement. It also prescribes methods and defined standards the board will use to assess and approve continuing education program content, including qualifications of instructors, submitted by course providers and sponsors.

(b) The necessity of this administrative regulation: This administrative is necessary to establish the continuing education requirements for continuing professional competence and as a condition of renewal and reinstatement, and to define standards for approval of courses.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 335.070(6) authorizes the board to renew licenses and require continued education as a condition for license renewal, and to authorize organizations to provide or sponsor continuing education programs. KRS 210.366 authorizes the board to implement administrative regulation to require a minimum six (6) hour course on suicide prevention assessment, treatment, and management for social workers.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation informs applicants and licensed social workers of the continuing education requirements for renewal and reimbursement established by the board. In addition, KRS 210.366 mandates a six (6) hour training program in suicide assessment, treatment, and management for social workers. It also removes the HIV/AIDS course requirement.

(e) How the amendment will change this existing administrative regulation: This amendment establishes that the required social work ethics course for renewal may be taken online (and removes the mandate of in-person training); and permits licensees to take 100 percent of continuing education courses for renewal online, through home study, distance learning or other electronic media. The amendment also revises the requirements for sponsors and providers of continuing education programs.

(f) The necessity of the amendment to this administrative regulation: This administrative is necessary to allow licensees to take the social work ethics course online and remove the face-to-face, in-person requirement; to permit licensees to acquire 100 percent of continuing education courses online or through distance learning; to implement suicide prevention training as a requirement for renewal; to remove the requirement that licensees must complete an HIV/AIDS course and to make other corrections.

(g) How the amendment conforms to the content of the authorizing statutes: KRS 335.070(6) authorizes the board to renew licenses and require continued education as a condition for license renewal, and to authorize organizations to provide or sponsor continuing education programs; KRS 210.366 authorizes the board to implement administrative regulation to require a minimum six (6) hour course on suicide prevention assessment, treatment, and management; and KRS 214.615 was repealed effective June 24, 2015.

(h) How the amendment will assist in the effective administration of the statutes: This administrative regulation removes a potential barrier and permits licensees to comply with the board’s requirements for continuing education for renewal through the growing advantages of technology and adult education.

(i) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Approximately 5,000 licensed social workers.

(2) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an
amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: This amendment to permit the social work ethics course to be taken online or through distance learning will relieve licensees of attending the course in person – this will be particularly helpful for licensees who find it difficult to attend the in-person courses, and those who live outside Kentucky to comply with the renewal requirement without the necessity of physically traveling to Kentucky to take the: it alleviates the current requirement that only fifty percent of continuing education courses may be taken online or through home study.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? The board anticipates that the only cost will be the expense of the suicide prevention training course incurred by the licensee.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): By allowing 100 percent of continuing education courses to be taken online or through home study, licensees may elect online or distance learning courses to meet renewal requirements if they are ill, cancellations are caused by inclement weather or challenges due to the distances between rural settings. The amendment will also let licensees take advantage of growing technological opportunities for training. Also, by permitting the social work ethics course to be taken online, out-of-state licensees can comply with this requirement without having to go to the expense of traveling to Kentucky to take an in-person course.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The board estimates that it will incur no additional costs to implement this amendment.

(b) On a continuing basis: The board estimates that no additional costs will be incurred by this amendment.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The board’s operation is wholly self-funded by fees paid by the licensees and applicants as well as continuing education providers and sponsors.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation amendment does not directly establish or increase fees; individual licensees or their employers who decide to pay for the cost of continuing education as an employment benefit may incur the cost of the suicide prevention training.

(9) TIERING: Is tiering applied? Tiering was not applied as the administrative regulation is applicable to all licensees. This regulation does not distinguish between similarly situated individuals on the basis of any factor.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Kevin R. Winstead

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes a cremation authorization form identified in KRS 367.97501(6), a crematory annual report form identified in KRS 367.97504(6), a preneed cremation authorization form identified in KRS 367.97501(15) prior to its amendment effective July 15, 2016, that may be completed and executed before July 15, 2016, a statement of training for crematory operators identified in KRS 367.97514(6), and a crematory authority license application form identified in KRS 367.97504(1). This administrative regulation also identifies the records and information that must be maintained by the crematory operator as identified in KRS 367.97504(5), and establishes guidelines for crematory inspections regarding KRS 367.97504(1) and (5), 367.97511(4), 367.97514(5), and 367.97534.
(b) The necessity of this administrative regulation: This administrative regulation is necessary for the efficient and uniform application of the requirements of the cremation and crematory authority statutes in KRS 367.97501 to .97537. Senate Bill 103 (2016 Ky. Acts ch. 59), effective July 15, 2016, makes changes to KRS 367.97501 to .97537, and enacts KRS 367.93101 to .93121 regarding funeral planning declarations that also affect cremations and crematory authorities, thereby affecting this administrative regulation and certain forms created by this administrative regulation.
(c) How this administrative regulation conforms to the content of the authorizing statutes: Senate Bill 103, effective July 15, 2016, amends the cremation and crematory authority statutes in KRS 367.97501 to .97537 by deleting the order of authority in the definition of "authorization agent", deleting the preneed cremation authorization form and replacing references to it with references to the new funeral planning declaration form prescribed by administrative regulation promulgated by the Attorney General, and establishes a new order of authority for the right to control the final disposition of a deceased's body. The amendments in this administrative regulation will make certain conforming and other changes to the cremation authorization form, and provide that the preneed cremation authorization form cannot be completed or executed on or after July 15, 2016. The amendments will also amend the record maintenance requirements regarding cremations to include the new funeral planning declaration form if that form is used to authorize a cremation. The crematory authority license application will in the future amend the new record maintenance requirements regarding cremations to include the new funeral planning declaration form if that form is used to authorize a cremation, and amending the crematory authority license application to reduce required owner identification information and financial institution documentation, require additional documentation regarding owners that are business entities, and clarify other statements in the application.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of KRS 367.97501 to .97537, as amended by Senate Bill 103, effective July 15, 2016, by amending the cremation authorization form to include changes to the order of authority for the right to control the final disposition, including cremation, of a decedent's body, and by providing that the preneed cremation authorization form, which was deleted by Senate Bill 103, cannot be completed or executed on or after July 15, 2016. The administrative regulation will also assist in the effective administration of the statutes by amending record maintenance requirements regarding cremations to include the new funeral planning declaration form if that form is used to authorize a cremation, and amending the crematory authority license application to reduce required owner identification information and financial institution documentation, require additional documentation regarding owners that are business entities, and clarify other statements in the application.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendments to the existing administrative regulation will make certain changes to cremation forms to conform to statutes enacted or amended in Senate Bill 103. The cremation authorization form will be amended to reflect the new order of authority for the right to control the final disposition of a decedent's body (KRS 367.93117) and to revise or clarify other statements in the form concerning the parties' rights and responsibilities. The amendments will provide that the preneed cremation authorization form cannot be completed or executed on or after July 15, 2016. The amendments will also amend the record maintenance requirements regarding current forms to include the new funeral planning declaration form if that form is used to authorize a cremation. The crematory authority license application will also be
amended to reduce required owner identification information and financial institution documentation, require additional documentation regarding owners that are business entities, and clarify other statements in the application.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary for the efficient and uniform application of the requirements of KRS 367.97501 to .97537, as amended by Senate Bill 103 effective July 15, 2016. Senate Bill 103, among other things, changes the order of authority for the right to control the final disposition, including cremation, of a decedent’s body, deletes the preneed cremation authorization form, and allows individuals to declare their preferences regarding final disposition of their body and related arrangements by using a funeral planning declaration form prescribed by administrative regulation promulgated by the Attorney General. The amendment to this administrative regulation will make certain conforming and other changes to the cremation authorization form, and provide that the preneed cremation authorization form cannot be completed or executed on or after July 15, 2016. The amendments will also amend the record maintenance requirements regarding cremations to include the new funeral planning declaration form if that form is used to authorize a cremation. The crematory authority license application will also be amended to reduce required owner identification information and financial institution documentation, require additional documentation regarding owners that are business entities, and clarify other statements in the application.

The amendments to the authorizing statutes: The amendment to this administrative regulation conforms to the content of the authorizing statutes as follows: It amendments the cremation authorization form, which is authorized by KRS 367.97501(6), to reflect the new order of authority for the right to control the final disposition of a decedent’s body (KRS 367.93117) and to revise or clarify other statements in the form concerning the parties’ rights and responsibilities. It provides that the preneed cremation authorization form cannot be completed or executed on or after July 15, 2016. Senate Bill 103, effective July 15, 2016, deletes the statute authorizing the preneed cremation authorization form, KRS 367.97501(15), and replaces references to it in KRS 367.97527 with references to the new funeral planning declaration form that is the subject of a separate new administrative regulation. It amends the record maintenance requirements regarding cremations to include the new funeral planning declaration form if that form is used to authorize a cremation. KRS 367.97504(5) provides that a crematory authority shall maintain a record of each cremation including certain information and any other information the Attorney General may require by administrative regulation, and that the records shall be kept at the crematory for at least ten years for inspection by the Attorney General. (2) Thirty (30) days prior to filing the QDRO with KTRS, the participant or alternate payee shall present a written request for benefits information for divorce purposes. The participant, alternate payee, or third party, including the party's legal counsel, shall provide a completed KTRS Authorization for Release of Information form with the request.
(3) For a QDRO directed to an active account from which a participant is not currently receiving a retirement allowance, KTRS may, for the current fiscal year, provide the unaudited salary information electronically submitted to KTRS by the participant's employer upon receipt of the written request and release.
(4) If the QDRO is directed to an account from which the participant is not currently receiving a retirement allowance, KTRS shall not project future earnings or future service. KTRS shall provide:
(a) The participant's total accrued service credit, including service credit purchased during the marriage, and the member account balance, including the total amount of accrued contributions and interest, as posted at the end of each fiscal year during the marriage and for which an employer annual report has been received by KTRS and for which the member has not received a refund; and
(b) An estimate of the monthly retirement allowance the participant would receive if the participant retired without a statutory reduction of the basic retirement allowance based upon the participant's final compensation and total accrued service credit as of the date of dissolution of marriage or receipt of the request for information.
(5) If the participant has retired, KTRS shall provide the
amount of the participant's monthly retirement allowance, the participant's accumulated account balance at retirement, the total retirement allowance received to date, and the participant's total accrued service credit, including any service credit purchased during the marriage. The parties, their legal counsel, or the court may use the information to decide what portion of the participant's account is marital. **KTRS** shall not decide whether, or if, any portion of the participant's account is marital and potentially subject to division.

(6) The participant, alternate payee, or legal counsel shall submit a Qualified Domestic Relations Order to Divide (QDRO) for review forty-five (45) days prior to filing the QDRO with the court. If more than one (1) of the participant's accounts is subject to classification and division as marital property, a separate QDRO shall be issued for each **KTRS** account.

(7) **KTRS** shall not review the QDRO unless it is accompanied by the following:

(a) The **KTRS** Administrative Regulatory Compliance form, or the draft QDRO, which has been approved by the:

1. Participant; and
2. Alternate payee or legal counsel;

(b) A $300.00 (thirty-dollar) nonrefundable processing fee, by certified check or on the attorney's trust account, made payable to the Kentucky State Treasurer, except that a processing fee shall not be charged for a QDRO issued solely for child support;

(c) The **KTRS** Confidential Information form, which shall include the participant's and alternate payee's address, Social Security number, and date of birth;

(d) Copies of the participant's and alternate payee's signed Social Security cards;

(e) **KTRS** Authorization for Direct Deposit form; and

(f) Any other documents that are required to confirm additional service credit purchased, or sought to be purchased, for retirement calculation purposes under KRS 161.220 through 161.716, including **KTRS** Military Service Certification and Affidavit form, with a copy of the discharge papers.

(8) Within twenty (20) days of receipt of the QDRO, **KTRS** shall notify the participant and alternate payee in writing whether the QDRO meets **KTRS** requirements. If the QDRO meets **KTRS** requirements, **KTRS** shall approve the QDRO and circulate an original, signed QDRO for signature by the participant and alternate payee for submission to the court. If the participant or alternate payee is represented by legal counsel, the approved QDRO shall instead be provided to their legal counsel for signature by counsel and submission to the court. **KTRS** shall forward a W-4P Withholding Certificate for Pension or Annuity Payments form to the alternate payee.

(9) If the QDRO does not meet **KTRS** requirements, **KTRS** shall notify the participant, alternate payee, or legal counsel in writing, identifying those provisions which are not in compliance and the amendments needed to bring the QDRO into compliance. If the participant or alternate payee is represented by legal counsel, this notice shall instead be provided to their legal counsel. The amended QDRO shall be submitted to **KTRS** for review and approval prior to filing with the court.

(10) **KTRS** shall reject any QDRO entered by a court that has not been reviewed or approved by **KTRS** prior to its submission to the court. **KTRS** shall notify the participant, alternate payee, or their legal counsel, and the court in writing, identifying those provisions that are not in compliance and the amendments needed to bring the QDRO into compliance before it shall be accepted by **KTRS**.

(11) If the QDRO is subsequently amended before filing with the court, the amended QDRO shall be resubmitted to **KTRS** with a $150.00 (fifty-five twenty-five dollar) nonrefundable processing fee for review and approval.

(12) Following approval by the court, the participant, alternate payee, or legal counsel shall file a certified copy of the QDRO with **KTRS**.

(13) The QDRO shall not become effective until the certified copy is received by **KTRS**.

(a) Upon receipt of the certified copy, **KTRS** shall designate the participant's account for implementation of the QDRO.

(b) While a separate account balance shall not be maintained for the alternate payee, a separate payroll account shall be established.

(c) If the participant is a retired member, payments to the alternate payee shall commence in the calendar month following the date that a certified copy of the QDRO is received by **KTRS**, if the alternate payee has supplied a correctly executed W-4P form. If the alternate payee fails to return the W-4P or does not correctly execute the form, **KTRS** shall apply the IRS default option of married with three (3) exemptions, which results in no withholding of federal tax. If the alternate payee chooses a different option and then provides a correctly executed W-4P, future payments shall be adjusted.

(e) If the participant is an active member, payments to the alternate payee shall commence in the calendar month in which the participant begins to receive a monthly annuity, if the alternate payee has provided his or her current address, a correctly executed W-4P and banking information as required by subsection (15) of this section. If the alternate payee either fails to return the W-4P or does not correctly execute the form, **KTRS** shall proceed in the same manner as described in paragraph (d) of this subsection.

(f) If the participant is an active member who withdraws from service prior to eligibility for retirement and requests a refund of his or her accumulated account balance, 102 KAR 1:060 sets the requirements, for processing the refund to the participant and the alternate payee.

(13) If **KTRS** is enforcing a QDRO that is subsequently amended or terminated by the court, then either the participant, alternate payee, or legal counsel shall submit a certified copy of the amended QDRO or order of termination to **KTRS** for processing.

(14) The participant, alternate payee, or legal counsel shall not submit a QDRO that is not final and under consideration by an appellate court.

(15) The alternate payee shall be responsible for notifying **KTRS** of any change in name, mailing address, or banking information.

(a) **KTRS** shall provide a Name or Change of Address form or Authorization for Direct Deposit form upon request.

(b) **KTRS** shall contact the alternate payee at the last known mailing address on file to notify the alternate payee when an annuity benefit subject to the QDRO becomes payable.

(16) Other than sending a notice as established in paragraph (b) of this subsection, **KTRS** shall have no duty or responsibility to search for, or locate, the alternate payee.

(17) If the notification sent to the alternate payee's last known address is returned due to the alternate payee's failure to notify **KTRS** that the alternate payee's account has been closed, within sixty (60) days of the return of the notification to the alternate payee or receipt of notification from the bank, the amounts otherwise payable to the alternate payee shall be paid to the participant until a new address or bank account information is provided by the alternate payee.

(e) **KTRS** shall have no liability to the alternate payee with respect to amounts paid to the participant.

(18) The participant shall be responsible for notifying **KTRS** in writing of an event that causes benefit payments to the alternate payee spouse, child, or other dependent(s) to cease.

(a) The participant shall provide **KTRS** with a certified copy of the alternate payee's death certificate or marriage certificate. **KTRS** shall suspend payments due the alternate payee provided that submission of proof of the death or marriage of the alternate payee, if marriage terminates payments under the terms of the QDRO, is received by the beginning of the month following the receipt of the participant's written notification.

(b) The alternate payee shall also be responsible for notifying **KTRS** in writing of the alternate payee's remarriage if, under the terms of the QDRO, that is an event that terminates the
alternate payee’s right to receive any payments.

(c) **TRS** shall not be responsible for payments made to the alternate payee until it is given timely written notice and documentation of any event terminating those payments.

Section 4. A QDRO may apply to a participant’s:

1. Retirement allowance;
2. Disability retirement allowance; or
3. Termination refund.

Section 5. A QDRO shall not apply to a participant’s:

1. Survivor annuity that becomes payable after the member's death;
2. Survivor benefits that become payable after an active contributing member’s death;
3. Accounts that are not vested at the time of the dissolution of marriage;
4. Life insurance benefit;
5. Refund as a result of an error;
6. Refund of an active or retired account in response to a member's death;
7. Health insurance; and
8. Any other payment or benefit not described in Section 4 of this administrative regulation.

Section 6. If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant’s annuity benefits and dies before the participant dies, retires, or withdraws his account, the entire remaining account value shall be restored to the participant.

Section 7. Calculation and payment. (1)(a) If the participant has retired, the portion of the participant’s benefits payable to the alternate payee as a percentage of the participant’s total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated by the following fraction:

1. The numerator of which shall be the participant’s total full and fractional years of creditable **TRS** service earned during the marriage, including service credit purchased during the marriage;
2. The denominator of which shall be the participant’s total full and fractional years of **TRS** service credit through the date of retirement.

(b) The resulting fraction shall be converted to a percentage that shall be divided by two (2).

(c) Option C may be utilized if the duration of the retired participant and the alternate payee’s marriage was less than the participant’s total full and fractional years of **TRS** service at the date of retirement. The parties or their legal counsel shall report the marital years in Option C of the QDRO.

(2)(a) For an active account, the portion of the participant’s benefits payable to the alternate payee as a percentage of the participant’s total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated by the following fraction:

1. The numerator of which shall be the participant’s total full and fractional years of creditable **TRS** service earned during the marriage, including service credit purchased during the marriage, as reported by the parties or their legal counsel in Option C of the QDRO;
2. The denominator of which shall be the participant’s total full and fractional years of **TRS** service credit as determined by **TRS** at the time that the participant retires either by service retirement or disability retirement or requests a refund of his or her account balance.

(b) The resulting fraction shall be converted to a percentage that shall be divided by two (2).

(3) If the participant is or will be receiving a disability retirement allowance, the participant’s total annuity benefit for purposes of this administrative regulation shall be calculated under the service retirement formula established under KRS 161.661(5), even if the entitlement period described under KRS 161.661(3) and (4) has not expired.

(4) If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant’s disability retirement allowance that is subsequently discontinued, the alternate payee shall not receive a benefit. Further, if a participant remains disabled at the end of his or her entitlement period, pursuant to KRS 161.661(5), the disability benefits shall be recalculated that may result in a lower monthly payment to both the participant and the alternate payee.

(5) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, the participant’s total annuity benefit shall be calculated without inclusion of the discounts required under KRS 161.620(1)(b) and (d).

(a) If at retirement the participant is subject to discounts required under KRS 161.620(1)(b) and (d), and if the QDRO establishes a set dollar amount to be withheld from the retirement benefits that are payable to the participant and to be paid to the alternate payee, **TRS** shall reduce the amount to be paid to the alternate payee under the QDRO by the amount of the discounts.

(b) **TRS** shall increase the amount paid to the alternate payee in amount equal to any discounts that are subsequently eliminated as the result of the participant’s return to work after retirement under the provisions of KRS 161.605(11), upon the participant’s resumption of receipt of retirement benefits.

(6) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, and the participant at issuance of the QDRO is not eligible for calculation of his total annuity benefit based on his three (3) highest salaries as provided under KRS 161.220(9), then his total annuity benefit shall be calculated on his five (5) highest salaries.

(7) The participant may select any retirement option.

Section 8. Any person who attempts to make **TRS** a party to a domestic relations action in order to determine an alternate payee’s right to receive a portion of the annuity benefits payable to the participant shall be liable to **TRS** for its costs and legal fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Barry Dunn (1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes license requirements and fees of those seeking licensure and renewal of licensure with the Kentucky Boxing and Wrestling Commission (“KBWC”);
(b) The necessity of this administrative regulation: This regulation is necessary to establish licensure requirements and fees;
(c) How this administrative regulation conforms to the content...
of the authorizing statutes: This regulation conforms with KRS 229.171, which grants the Commission authority to control and manage shows and exhibitions. KRS 229.180 also authorizes the Commission to adopt and promulgate, amend or abrogate rules and regulations considered by it necessary or expedient for the performance of its functions provided in KRS Chapter 229. KRS 229.021 requires all participants to be licensed. KRS 229.071 sets the license requirements for shows and exhibitions. KRS 229.081 sets the eligibility requirements for licensees. KRS 229.091 subjects all licensees to the administrative regulations promulgated by the Commission.

(d) How this administrative regulation currently assists or will assist in the effective administrative of the statutes: This regulation establishes fees that provide the funds to pay for the regulatory oversight provided by the KBWC in administering KRS Chapter 229 and 201 KAR Chapter 27. It also sets requirements that provide for the safety of participants.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

An example of this change is that additional boxing and wrestling contests will be required to submit an annual physical for licensure, thus improving safety.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms with KRS 229.171, which grants the Commission authority to control and manage shows and exhibitions. KRS 229.091 subjects all licensees to the administrative regulations promulgated by the Commission.

(d) How the amendment will assist in the effective administrative of the statutes: This amendment slightly raises fees (mostly by five to ten dollars) that provide for payment of employees administering KRS Chapter 229 and 201 KAR Chapter 27. FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 15 U.S.C. 6304; 6305(a), (b)

2. State compliance standards. Those wishing to participate in boxing must submit an application to obtain a boxing identification card that is valid for four years. The boxer must also submit an application for licensure and a physical from a physician who certifies that the boxer is physically fit to compete. Moreover, no boxing match may occur unless a physician is continuously ringside and an ambulance and resuscitation equipment is on-site. Boxers must also be provided with health insurance.

3. Minimum or uniform standards contained in the federal mandate. 15 U.S.C. 6304 requires that every boxer undergo a physical examination and be certified by a physician to be physically fit to compete safely in a match. The law also requires an ambulance or resuscitation equipment to be on-site at all boxing matches and for a physician to be present at ringside. Finally, health insurance is required for each boxer. 15 U.S.C. 6305 requires a boxer to register with the boxing commission in the boxer’s state of residence. That state must issue a federal boxing identification card to the boxer.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification or the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.
FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Boxing and Wrestling Commission.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. The statutory authority for this administrative regulation KRS 229.021, 229.071, 229.081, 229.091, 229.171, 229.180, 15 U.S.C. 6305

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. This amendment will generate around $10,000 in additional revenue in the first full year of implementation.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment will generate around $10,000 in additional revenue in the first year of implementation.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will generate around $10,000 in additional revenue in subsequent years.

(c) How much will it cost to administer this program for the first year? The KWBC does not anticipate any net change in the cost to administer this program in the first year. The KBWC plans to utilize the additional funds to remain self-sustaining. Moreover, the funds will be used for programs to improve the health and safety of fighters. For example, the KBWC is in the planning stages of a fighter health summit and is studying whether to require tests to establish neurological baselines that may be used if a fighter is suspected of having suffered a head injury.

(d) How much will it cost to administer this program for subsequent years? The KWBC does not anticipate any net change in the cost to administer this program in the first year. The KBWC plans to utilize the additional funds to remain self-sustaining. Moreover, the funds will be used for programs to improve the health and safety of fighters. For example, the KBWC is in the planning stages of a fighter health summit and is studying whether to require tests to establish neurological baselines that may be used if a fighter is suspected of having suffered a head injury. Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Larry Disney
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the standards and requirements of certification and licensure for appraisers.

(b) The necessity of this administrative regulation: This regulation is necessary to comply with 12 U.S.C. 3331 through 3351 and KRS 324A.035(1) and (3), requiring the board to promulgate administrative regulations for certification and licensure of state licensed and certified real property appraisers.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation is in conformity as the authorizing statute gives the board the ability to promulgate regulations regarding the standards and requirements of practice.

(d) How the amendment will assist in the effective administration of the statutes: This amendment to the administrative regulation allows the board to regulate appraisers who supervise a person acquiring experience toward a Certified General Real Property Appraiser certificate.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment allows real property appraisers, who are certified real estate appraisers in Kentucky, to apply for supervised practice in Kentucky if they have been a certified real estate appraiser in any state or jurisdiction for three (3) years, rather than having to be a Kentucky certified real estate appraiser for three (3) years.

(b) The necessity of the amendment to this administrative regulation: This amendment will reflect a change in the Real Property Appraiser Qualification Criteria by the Appraiser Qualification Board (AOB) that is effective July 1, 2016. The AOB establishes the qualification criteria for state licensing, certification, and recertification of real property appraisers. According to the Financial Institutions Reform, Recovery, and Enforcement Act, all state licensed and certified appraisers must meet the minimum education, experience, and examination requirements put forth by the AOB.

(c) How the amendment conforms to the content of the authorizing statutes: The regulation is in conformity as the authorizing statute gives the board the ability to promulgate regulations regarding the standards and requirements of practice.

(d) How the amendment will assist in the effective administration of the statutes: This amendment to the administrative regulation allows the board to regulate appraisers who supervise a person acquiring experience toward a Certified General Real Property Appraiser certificate.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: There are approximately one thousand eight hundred persons certified by the board.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: A real property appraiser shall have been certified by a state, or other jurisdiction, certifying board for three (3) years and presently be certified by the Kentucky Real Estate Appraisers Board prior to applying to become a supervising appraiser. This amendment lessens the burden for potential supervising appraisers as they will now only be required to have been certified for three (3) years by any state or jurisdiction, rather than specifically by the Kentucky Real Estate Appraisers Board.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There are no additional costs for complying with the amendment other than cost of the board-approved supervision practices course required every three (3) years.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be required to implement the changes made by this regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish fees or directly or indirectly increase any fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Mark Cramer

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation limits the size of boats and motors on small lakes in the state.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to protect the safety of individuals boating on these small lakes and to minimize interference with other users.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.620 authorizes the Department to promulgate administrative regulations governing the use of small lakes in the state.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation helps fulfill the purpose of KRS 150.620 and 235.280 by providing fair, reasonable, equitable, and safe use of small lakes in the state.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment will require all boats to operate at idle speed only on Beulah Lake in Jackson County and all Ballard and Boatwright WMA lakes in Ballard County.
(b) The necessity of the amendment to this administrative regulation: The Jackson County Water Association recently passed a local ordinance requiring idle speed operation of motor boats on their water supply lake (Beulah Lake). The Department manages the fisheries on this lake through a management agreement with the water association and therefore requires an idle speed regulation on Beulah Lake to enforce the local ordinance. All lakes on Ballard and Boatwright WMA’s, with the exception of Swan Lake, are currently regulated under a trolling motor only restriction. Many of these lakes are long and narrow and tough to access exclusively with a trolling motor. Area managers feel the lakes could be better utilized by anglers and hunters by allowing access with outboard motors operated at idle speed.
(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.
(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals who access Beulah Lake and all lakes on Ballard and Boatwright WMA’s from a boat are affected by this administrative regulation.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: People accessing Beulah Lake and all Ballard and Boatwright WMA lakes will only be able to operate a boat motor at idle speed.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost to individuals as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): All individuals accessing Beulah Lake and all Ballard and Boatwright WMA lakes from a boat will be able to do so safely.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no cost initially to implement this administrative regulation.

(b) On a continuing basis: There will be no additional cost on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase fees or funding.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees will be directly or indirectly increased.

(9) TIERING: Is tiering applied? Tiering was not applied because all individuals will be treated the same.

**CONTACT PERSON:** Mark Cramer, Department of Fish and Wildlife Resources, Arnold L. Mitchell Building, #1 Sportsman's Lane, Frankfort, Kentucky 40601, phone (502) 564-3400, fax (502) 564-0506, email: republiccomments@ky.gov

**REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT**

Contact Person: Mark Cramer  
(1) Provide a brief summary of:  
(a) What this administrative regulation does: This administrative regulation establishes size limits, daily creel limits, and possession limits for sport fish that may be taken from Kentucky waters.  
(b) The necessity of this administrative regulation: This administrative regulation is necessary to effectively manage the sport fish populations of Kentucky.  
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the Department to promulgate administrative regulations to establish seasons for the taking of fish and wildlife, to regulate creel limits and methods of take, and to make these requirements apply to a limited area. KRS 150.470 authorizes the department to establish creel and size limits for fish.  
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the statutes by limiting the number and size of fish that may be taken from Kentucky’s waters.  
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:  
(a) How the amendment will change this existing administrative regulation: This amendment will remove the 30-fish daily creel limit on yellow bass statewide, remove the largemouth bass slot size limit regulation on Pennyrile Lake, decrease the rainbow trout daily creel limit on Trammel Creek from 8 fish to 5 fish, simplify the trout regulations on the upper section of Hatchery Creek by making it a 5 fish daily creel limit, with no size limit, singly or in combination for all trout species, add the Kentucky Horse Park lakes to the list of special lakes and ponds in Section 7, and add the Lake Chumley night-time closure restriction to this regulation as a cleanup.  
(b) The necessity of the amendment to this administrative regulation: The 30-fish statewide daily creel limit on yellow bass has no biological significance to the population which can reach nuisance levels at times. Increased harvest will be beneficial to this population as well as other sport fish species. Over the course of the slot size limit regulation on Pennyrile Lake, no positive change in the largemouth bass population was documented. In order to simplify regulations, reversion to the statewide largemouth bass regulation is recommended. Trammel Creek has the potential to produce older, larger trout for anglers. In order to allow more trout to survive to these larger sizes, a reduction in the rainbow trout daily creel limit from 8 fish to 5 fish is recommended. With the construction of the new, lower section of Hatchery Creek, there have been some larger trout entering the upper section, which has created confusion with anglers concerning what they can keep. In order to simplify the regulations on the upper section of the creek, it is recommended that anglers be able to keep 5 trout of any species daily, with no size restriction. The Kentucky Horse Park is now allowing the public to fish ponds on the property. One of the ponds (Rolex Pond) is now part of the Fishing in Neighborhoods (FINS) program. To avoid confusion, all ponds on the Kentucky Horse Park property should follow the FINS fishing regulations. Night-time access to Lake Chumley and the department property surrounding it is currently regulated under 301 KAR 1:192. It is recommended to include this access restriction in 301 KAR 1:201 as a cleanup and to subsequently repeal 301 KAR 1:192.  
(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.  
(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.  
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All anglers fishing at the water bodies and for the species identified in 2(a) above will be affected.  
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:  
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Anglers will need to comply with the changes identified in 2(a).  
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost incurred by the anglers.  
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Anglers who fish at the water bodies and for the fish the species identified in 2(a) above will benefit in the long run from higher quality sport fisheries and better angling opportunities.  
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:  
(a) Initially: There will be no initial cost to implement this administrative regulation.  
(b) On a continuing basis: There will be no additional cost on a continuing basis.  
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The funding source for this program is the State Game and Fish Fund.  
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any other fees or to increase funding to implement this administrative regulation.  
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No new fees will be established.  
(9) TIERING: Is tiering applied? Tiering was not applied because all individuals fishing in Kentucky are treated equally with these amendments.  

**FISCAL NOTE ON STATE OR LOCAL GOVERNMENT**

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Department of Fish and Wildlife Resources Divisions of Fisheries and Law Enforcement will be impacted by this administrative regulation.  
(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 150.025(1) authorizes the Department to promulgate administrative regulations to regulate bag, creel, and possession limits of game and fish. KRS 150.470 authorizes the department to promulgate creel and size limits for fish.  
(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:  
(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This regulation will not generate direct revenue. It is unknown if this administrative regulation could indirectly increase any fishing license sales during the first year.  
(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? There will be no direct revenue generated in subsequent years, and it is unknown if fishing license sales will be indirectly
increased because of this amendment.
(c) How much will it cost to administer this program for the first year? There will be no initial cost to implement this administrative regulation for the first year.
(d) How much will it cost to administer this program for subsequent years? There will be no cost in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Mark Cramer
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the requirements for the elk permit drawing and quota hunts, the conditions under which special commission, landowner cooperator permits and cooperator voucher permits can be used, procedures for elk damage abatement, and any postseason hunt held after the quota hunts.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to effectively manage elk populations in Kentucky, while providing optimal elk hunting opportunities.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the department to promulgate administrative regulations to establish hunting seasons, bag limits, and the methods of taking wildlife. KRS 150.177 authorizes the department to issue special commission permits for game species to nonprofit wildlife conservation organizations. KRS 150.178 authorizes the department to issue cooperative permits to landowners who enroll property for public hunting access. KRS 150.390(3) authorizes the department to promulgate administrative regulations establishing the conditions under which depredation permits for elk may be issued.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist the statutes by establishing the requirements for the elk permit drawing, quota hunts, legal methods of harvest, the conditions under which special commission permits, landowner cooperator permits, and voucher cooperator permits can be used, the procedures for elk damage abatement and any postseason hunt held after the quota hunts.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment modifies the ineligibility period for drawn elk hunters. Previously, only those hunters drawn for an antlered elk tag were required to sit out 3 years before applying for the quota hunt. This amendment will require a hunter who was drawn for any elk quota hunt to be ineligible for 3 years before applying for another elk quota hunt.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to improve a hunter's chances of getting drawn for an elk permit by requiring those individuals who have been drawn for any elk permit in the last 3 years to sit out.
(c) How the amendment conforms to the content of the authorizing statutes: See 1(c) above.
(d) How the amendment will assist in the effective administration of the statutes: See 1(d) above.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation or amendment: Any hunter drawn for an elk quota hunt will be ineligible to apply for the following 3 years. Hunters who received permits through other means will not be affected.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) What the costs and benefits that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Any hunter drawn for an elk quota hunt will be ineligible to apply for the following 3 years. Hunters who received permits through other means will not be affected.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): This amendment will not change any cost to the entities identified in (3).
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Additional hunters may have the opportunity to get drawn for a quota hunt permit due to the reduction of individuals in the applicant pool resulting from the ineligibility period for all drawn hunters.
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: Other than a minor administrative cost, there will be no additional cost to the agency to implement this administrative regulation.
(b) On a continuing basis: There will be no additional cost to the agency on a continuing basis.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Additional fees for direct implementation of this regulation are not necessary, as infrastructure for conducting all aspects of elk management and quota hunts already exists.
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish any fees or does it indirectly increase any fees.
(9) TIERING: Is tiering applied? Yes. Residents of the counties within the EMUs who are not drawn for the regular quota hunt shall be eligible for a late season depredation hunt. This hunt allows residents to assist landowners in removing elk causing property damage in 2 areas with chronic nuisance elk problems. Fewer than 50 tags for antlerless and spike bulls will be drawn. These tags can only be used on private land within one of the 2 Elk Management Units (EMUs). The number of tags to be issued will be determined by the level of nuisance elk cases or property damage caused by elk documented within the EMUs prior to January each year.

**FISCAL NOTE ON STATE OR LOCAL GOVERNMENT**

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kristi Redmon

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 1, defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1904 and updates the C.F.R. to July 1, 2016. Section 12.20 establishes the May 12, 1904 published in the May 12, 2016 Federal Register, Volume 81, Number 92 as well as the correction to this Federal Register published in the May 20, 2016 Federal Register, Volume 81, Number 98. Section 3 amends and replaces the requirements of 29 C.F.R. 1904.39 with state-specific reporting occupational injuries and illnesses that have been in effect since 2006. With the May 12, 2016 final rule OSHA is amending the recordkeeping text of Section 12.20 to require certain employers to electronically report injury and illness statistics. The final rule also adds language clarifying how an employer must inform employees of their right to report injuries and illnesses and clarifies that reporting policies must not deter or discourage employees from reporting injuries and illnesses. The new requirement to report will affect all employers with 250 or more employees and only specified employers is high hazard industries with 20-249 employees will have to report. The report will be made electronically to OSHA and will contain information that is already collected by the employer to fulfill the 300(A)(1) log requirements. This information will be submitted once a year and will be used to more efficiently direct enforcement and compliance assistance resources. The second element of this final rule clarifies an employer's obligation to inform employees of their right to report workplace injuries and illnesses to the standard to prevent an employer from discriminating or retaliating against and employee who reports an injury or illness. The new requirements also ensure an employer's reporting procedure or policy does not deter or discourage employees from reporting work related injuries and illnesses. The May 20, 2016 Federal Register simply reinstates language related to access to the 300(1) log information, which was inadvertently deleted in the May 12, 2016 final rule. Finally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the May 12, 2016 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements in Section 2 of the regulation.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This amendment conforms to the content of the federal standard.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: According to OSHA, the recordkeeping and reporting regulation enhances worker safety throughout Kentucky by maintaining a useful database of injuries and illnesses and keeps the state occupational safety and health program at least as effective as the federal program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Section 12.20 of the amendments to Section 2.

(b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the May 12, 2016 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal requirements in Section 2 of the regulation.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the federal standard.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing all a clear understanding of the requirements. According to OSHA, the recordkeeping and reporting regulation ensures that data collected in Kentucky are useful in comparing illness and injury incident rates to those nationally.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth covered by KRS Chapter 338.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: This amendment will require employers with over 250 employee to annually report information that is already required by the standard and will require the reporting of specified employers that employee 20-249 employees. Employers may also need to amend their in-house injury and illness reporting procedures and policies if they are deemed to deter or discourage an employee from reporting an injury or illness.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): OSHA estimates that it will cost each employer somewhere between $183 and $9 per year (dependent on the size of the employer) to comply with the amendments.
amendment due to the consistency with the federal requirement, providing all a clear understanding of the requirements.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
   (a) Initially: There will be no cost to implement this specific amendment.
   (b) On a continuing basis: There will be no costs on a continuing basis to implement this amendment to the administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Restricted state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.
   Public Law 91-596, the Occupational Safety and Health Act of 1970, Section 18(c)(2), 29 U.S.C. 667

2. State compliance standards. This amendment requires employers to comply with the recordkeeping requirements of 29 C.F.R. 1904 for recording occupational injuries and illnesses. Additionally, employers must report hospitalizations, amputations, and the loss of eye as required under Section 3 of the regulation.

3. Minimum or uniform standards contained in the federal mandate. The Kentucky OSH Program is mandated by 29 C.F.R. 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the May 12, 2016 final rule. Kentucky does not have an effective alternative to the final rule. Accordingly, in order to maintain its state program as effective as the federal program, Kentucky must incorporate the federal recordkeeping requirements in Section 2 of the regulation.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation poses different requirements than the federal mandate in Sections 1 and 3, in that the definition of amputation and injury reporting times are different, but this difference is not stricter than the federal mandate. This amendment does not impose stricter requirements than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The requirement to report occupational hospitalizations, amputations, and fatalities has been in place since 2006. The additional requirement to report the loss of eye aligns the reporting requirements with the federal mandate.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will affect any unit, part, or division of local government covered by KRS 338.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 338.161, Public Law 91-596 84 STAT. 1590; 29 C.F.R. Part 1953.4.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? None.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None.
   (c) How much will it cost to administer this program for the first year? OSHA requires that the Department of Labor and Industrial Relations (State of Kentucky) (KRS 341.410) pay the actual cost of any additional or different responsibilities or requirements to comply with the amendments. There are no associated costs related to the reporting revisions as the reporting requirements have been in place since 2006.

4. Additional or different responsibilities or requirements have been in place since 2006. The additional requirement to report occupational injuries or illnesses has been in place since 2006. The additional requirement to report occupational fatalities has been in place since 2006. The additional requirement to report occupational hospitalizations, amputations, and the loss of eye aligns the reporting requirements with the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

6. What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Restricted state and federal funding.

7. Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

8. State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

9. TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Melissa McQueen

(1) Provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the renewal form and includes information on how to utilize the Kentucky One-Stop Business ("KyBOS") Portal for on-line renewals. Additionally, the basic application and renewal application forms have been amended to comply with the numerous provisions of Senate Bill 11 ("SB 11"), which created several new license types.

(b) The necessity of the amendment to this administrative regulation: The renewal application needed to be amended to add information about the KyBos Portal website for licensees to renew online through that portal, and this amended form needs to be incorporated in the administrative regulation. Additionally, the basic application and renewal application forms have been amended to account for new license types created by SB 11.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 243.380 and 243.390 require the department to set forth what information is needed to obtain or renew an alcoholic beverage license. By incorporating the application and renewal application, the information that is required to apply for, or renew, an alcoholic beverage license is ascertainable.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the renewal form and includes information on how to utilize the Kentucky One-Stop Business ("KyBOS") Portal for on-line renewals. Additionally, the basic application and renewal application forms have been amended to comply with the numerous provisions of Senate Bill 11 ("SB 11"), which created several new license types.

(b) The necessity of the amendment to this administrative regulation: The renewal application needed to be amended to add information about the KyBos Portal website for licensees to renew online through that portal, and this amended form needs to be incorporated in the administrative regulation. Additionally, the basic application and renewal application forms have been amended to account for new license types created by SB 11.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 243.380 and 243.390 require the department to set forth what information is required to obtain or renew a license. This amendment updates the renewal form to clarify what website licensees need to use to utilize the KyBos Portal if they wish to renew online. With this amendment, the basic application and renewal application forms will also comply with the requirements of SB 11, which goes into effect on July 15, 2016.

(d) How the amendment will assist in the effective administration of the statutes: This administrative regulation amendment will make the basic application and renewal application compliant with the provisions of SB 11, which adds new license types. Additionally, it clarifies what information licensees need in order to renew their alcoholic beverage licenses through the KyBos Portal.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Any person or entity who wishes to apply for any alcoholic beverage license, or renew an alcoholic beverage license online, will be affected by this administrative regulation. (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The required actions of applying, or renewing, a license are no different than the process the licensee and applicants currently follow to obtain or renew an alcoholic beverage license, although they will be receiving information on how to do this through the KyBos Portal instead of going directly through the department’s website.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3) to comply with this regulation: The KyBos Portal will be utilized for on-line renewals and is incorporated by reference on the revised renewal form. The Department’s proposed budget allocates $290,000 per year of its restricted funds for on-line renewals through the KyBos Portal. Throughout discussions with the Department about utilizing the KyBos Portal for online renewals, the Commonwealth Office of Technology ("COT"), through its representative(s), has repeatedly stated that the Department will have no additional costs for using the KyBos Portal.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): There are no financial benefits to this administrative regulation amendment.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: On a continuing basis: It is estimated that this amendment will make the basic application and renewal application forms have been amended to comply with the numerous provisions of Senate Bill 11 ("SB 11"), which created several new license types.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: It is estimated that it will cost the Department approximately $290,000 per year to utilize the KyBos Portal.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: There is no anticipated increase in fees or funding necessary to amend this administrative regulation based upon representations by COT.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Kevin R. Winstead

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the funeral planning declaration form by which a person may set forth his or her preferences regarding the manner of disposition of his or her remains and instructions regarding the related services, merchandise, and arrangements, which is authorized by KRS 367.93101(3) and governed by KRS 367.93101 to KRS 367.93121 as enacted by Senate Bill 103 (2016 Ky. Acts ch. 59).

(b) The necessity of this administrative regulation: This regulation is necessary for the efficient and uniform application of the requirements of KRS 367.93101 to KRS 367.93121 regarding funeral planning declarations. KRS 367.93101(3) provides that a declaration is a funeral planning declaration setting forth a declarant’s preferences regarding the manner of disposition of the declarant’s remains and in a form prescribed by administrative regulation promulgated by the Office of the Attorney General.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation promulgates the funeral planning declaration form by which a person may set forth his or her preferences regarding the manner of disposition of his or her remains and instructions regarding the related services, merchandise, and arrangements. The form conforms to the content, execution, and other requirements of KRS 367.93101 to 93121.

2. KRS 367.93103 requires that a funeral planning declaration be voluntary, written, signed by the declarant or another person at the declarant’s direction and in the declarant’s presence, dated, signed before competent witnesses, and acknowledged before a notary public or other person authorized to administer oaths. The statute requires that the declarant be of sound mind and at least 18 years old. The statute allows a declarant to appoint a designee to carry out the terms of the declaration, and limits who may serve as a designee and as a witness to the execution of the declaration.

3. KRS 367.93105 provides that a declaration may specify the declarant’s preferences concerning the disposition of the declarant’s remains, the person who may direct the disposition of the declarant’s remains and the ceremonial arrangements, the person who may provide funeral services, specific directions about funeral services and ceremonial arrangements, the funeral and cemetery merchandise, and disinterment.

4. KRS 367.93107 provides that the most recent declaration prevails and the invalidity of a specific direction shall not affect the validity of the declaration.

5. KRS 367.93109 establishes immunity from liability for good-faith reliance on a declaration, and sets forth presumptions, absent to any actual contrary knowledge, that a declaration was validly executed and has not been revoked and that the declarant was competent at the time the declaration was executed. The statute also provides that directions in a declaration are binding as if the declarant were alive and competent at the time the declaration was executed.

6. KRS 367.93111 provides that a declaration remains effective until it is revoked in writing by the declarant and the revocation is delivered to the designee or the person to whom the declaration was given.

7. KRS 367.93115 directs that if a designee or alternate designee does not assume his or her obligations under the declaration within 5 days of notification of the declarant’s death, then the authority to make arrangements devolves pursuant to the terms of the declaration or KRS 367.117.

8. KRS 367.93117 establishes the order of authority for the right to control the disposition of a decedent’s body and make funeral, burial, and other ceremonial arrangements.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of KRS 367.93101 to KRS 367.93121, by establishing a funeral planning declaration form that a declarant may use to set forth his or her preferences regarding the disposition of his or remains.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Not applicable because this is a new administrative regulation.

(b) The necessity of the amendment to this administrative regulation: Not applicable because this is a new administrative regulation.

(c) How the amendment conforms to the content of the authorizing statutes: Not applicable because this is a new administrative regulation.

(d) How the amendment will assist in the effective
administration of the statutes: Not applicable because this is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects:

1. An unknown number of individuals who may desire to establish, before their deaths, their preferences regarding the disposition of their remains.
2. An unknown number of individuals who may be designated as a designee in a declaration.
3. An unknown number of persons or business entities that perform services related to the disposition of human remains, including funeral homes, crematories, and cemeteries. There are currently 33 crematory authorities licensed with the Attorney General, over 270 cemetery companies registered with the Attorney General, over 460 pre-need burial contract sellers licensed with the Attorney General, and over 510 funeral homes licensed with the Kentucky Board of Embalmers and Funeral Directors.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The regulated entities identified in question (3) will have to take the following actions to comply with this administrative regulation:

1. Except as provided by law, accept a valid funeral planning declaration form regarding the disposition of the declarant’s remains and the related services, merchandise, and arrangements, and comply with the directions stated in a funeral planning declaration form.
2. Use the funeral planning declaration form created by this administrative regulation if they provide services or assistance to a declarant in establishing the declarant’s preferences and directions stated in a declaration.
3. On and after July 15, 2016, use the funeral planning declaration form if a declarant desires to pre-authorize her or her cremation. The amendments by Senate Bill 103 to the cremation statutes in KRS 367.97501 to .97537, effective July 15, 2016, deleted the preneed cremation authorization form as a method for a person to pre-authorize their cremation, and authorized the declaration as the method to pre-authorize a cremation.
4. For each cremation that is pre-authorized by a funeral planning declaration form, the crematory authority shall attach the original of the declaration form to the cremation authorization form, and maintain the form for a period of time. (This is a requirement of the cremation forms regulation, 40 KAR 2:150, and KRS 367.97504(6).)

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): At ten cents per page, the cost to print the funeral planning declaration form is estimated to be $0.30 per copy. The estimated total printing cost is unknown because it depends on the number of copies printed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): By using the funeral planning declaration form prescribed by this administrative regulation, an individual will be able to execute a funeral planning declaration form that sets forth his or her preferences regarding the disposition of his or her remains, and persons or business entities may provide services or assistance to a declarant in establishing the declarant’s preferences and directions stated in a declaration. Additionally, a crematory authority, licensed funeral director, or cemetery acting pursuant to the terms of a declaration shall not be held liable for good-faith reliance on representations made in a valid declaration. Further, for cremations pre-authorized by a declaration, a crematory authority will be able to conduct cremations and accept bodies for cremation based on the declaration.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: None.
(b) On a continuing basis: None.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: General fund appropriations and agency receipts.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: None expected at this time.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The administrative regulation does not establish or increase any fees.

(9) TIERING: Tiering is not applied in this administrative regulation because the administrative regulation does not disproportionately impact certain classes of regulated entities and the requirements of the statutes apply uniformly to any regulated entity or other person operating in the Commonwealth of Kentucky.

FINANCE AND ADMINISTRATION CABINET
Department of Revenue
(New Administrative Regulation)

103 KAR 8:160. Valuation of municipal solid waste landfill facilities.

RELATES TO: KRS 132.020, 132.200, 224.1-010
STATUTORY AUTHORITY: KRS 131.130, 132.202
NECESSITY, FUNCTION, AND CONFORMITY: KRS 132.202 requires the department to promulgate an administrative regulation to implement a valuation methodology for the taxation of property used as a landfill, also known as a municipal solid waste disposal facility. This administrative regulation establishes a uniform system of ad valorem valuation for a municipal solid waste disposal facility as defined in KRS 224.1-010(15).

Section 1. Definitions. (1) "Compaction ratio" means the ratio that expresses the relationship of the number of tons (2,000 pounds) of waste that will fill one (1) cubic yard of landfill capacity. For example, a compaction ratio of 0.60 means that sixty (60)
percent of one (1) ton (1,200 pounds) of waste can be compacted
into one cubic yard of landfill capacity.

(2) "Cover materials" means soil or other suitable material that
is spread and compacted on the top and side slopes of disposed
waste in order to control disease vectors, gases, erosion, fires, and
infiltration of precipitation or run-on; support vegetation; provide
trafficability; or assure an aesthetic appearance.

(3) "Department" means Department of Revenue, Finance and
Administration Cabinet, Commonwealth of Kentucky.

(4) "Discount rate" means a pre-tax percentage rate used to
discount the annual royalty income over the projected remaining
economic life of the landfill to a present value. The discount rate
shall be seventeen (17) percent unless the landfill operator or the
department establishes a higher or lower discount rate based upon
applicable market factors and the applicable facts and
circumstances attributable to the landfill.

(5) "Effective tipping fee" means the average net dollar amount
collected per ton for depositing waste into the landfill being
assessed not including surcharges, host fees, and related taxes.

(6) "Landfill" means a municipal solid waste disposal facility as
defined by KRS 224.1-010(15) but does not include construction
and demolition debris (CDD) landfills of less than one (1) acre.

(7) "Landfill valuation method" means a discounted cash flow,
also known as yield capitalization, which is a valuation
methodology used to determine the fair cash value of a landfill's
real property.

(8) "Other landfill income" means the five (5) year average of
income generated by a landfill from sources other than effective
tipping fees, net of applicable expenses.

(9) "Present value" means the sum of the discounted projected
annual royalty income over the remaining life of the landfill. The
present value formula is:

\[ PV = \frac{CF_1}{(1 + Y)^1} + \frac{CF_2}{(1 + Y)^2} + \frac{CF_3}{(1 + Y)^3} + \frac{CF_4}{(1 + Y)^4} + \frac{CF_5}{(1 + Y)^5} + \ldots + \frac{CF_n}{(1 + Y)^n} \]

PV = present value of landfill
CF = the annual projected royalty income
Y = the annual pre-tax discount rate
n = the number of annual periods in the projection

(10) "Remaining permitted capacity" means the volume of
permitted airspace remaining for the placement of waste materials.

(11) "Reversionary value" means the potential future market
value of a landfill after all post-closure regulatory requirements,
including a required minimum post-closure monitoring period of at
least thirty (30) years, have been fulfilled by the owner or operator.

(12) "Royalty income" means that portion of effective tipping
fees and other landfill income that would be paid pursuant to a
presumed comparable market lease agreement by the landfill
operator to the real property owner in consideration for the right to
use the real property for landfill purposes.

(13) "Royalty rate" means a percentage rental rate to real
property applied to the sum of the annual effective tipping fee
revenue and other landfill income that results in the estimated
royalty income for each year of the estimated remaining economic
life of the landfill. The royalty rate shall be eighteen (18) percent
unless the landfill operator or the department establishes a higher or
lower royalty rate based upon applicable market factors and the
applicable facts and circumstances attributable to the landfill.

(14) "Tax year" means a calendar tax year.

(15) "Tons of waste" means the five (5) year average of annual
tons of waste received by the landfill, as determined utilizing
information submitted to the Division of Waste Management for the
Kentucky Department for Environmental Protection on Form DEP
7046 or DEP 7046Q. When calculating the average, consideration
shall be given to factors that alter the five (5) year average as an
appropriate estimate.

(16) "Waste" means waste as defined by KRS 224.1-
010(31)(a).

Section 2. Landfill valuation methodology formula. (1) The
department shall determine the fair cash value of a landfill's real
property in compliance with the landfill valuation method
established in this subsection.

(a) The department shall estimate the remaining permitted
economic life of the landfill by dividing the estimated annual cubic
yards of waste deposited into the landfill into the total remaining
permitted capacity of the landfill.

1. The compaction ratio shall be calculated by taking the
average of the five (5) most recent compaction ratios from the
Solid Waste Landfill Annual Survey submitted to the Division of
Waste Management for the Kentucky Department for
Environmental Protection on Form DEP 8059. When calculating
the average, consideration shall be given to factors that alter
the five (5) year average as an appropriate estimate.

2. The remaining permitted capacity shall be as reported on
the remaining airspace line item in the most recent Solid Waste
Landfill Annual Survey submitted to the Division of Waste
Management for the Kentucky Department for Environmental
Protection on Form DEP 8059 for the landfill being assessed. The
volume shall be adjusted for the capacity consumed from the date
of the survey used to prepare the calculation, until the end of the
tax year with no annual intake volume growth over the remaining
forecasted permitted life of the landfill. Actual tons for the
applicable dates shall be converted to permitted cubic yards using
the compaction ratio and the result shall be subtracted from the
remaining permitted capacity from the section presented in Form 8059. If cover
materials are used at the landfill, the total remaining permitted
capacity shall be multiplied by .85 to account for a standard
reduction of remaining permitted capacity for cover materials.

3. The estimated annual cubic yards of waste deposited into
the landfill shall be equal to the average of the annual cubic yards
of waste deposited into the landfill for the five (5) tax years prior to
the current tax year. The landfill operator shall report to the department the annual cubic yards of waste deposited into the landfill for the five (5) tax years prior to the current tax year by April 30 of the current tax year.

4. The remaining economic life of the landfill shall be calculated as follows: remaining permitted capacity (cubic yards) divided by the estimated annual cubic yards of waste deposited equals the remaining permitted economic life of the landfill.

5. The landfill operator shall provide the department with copies of the annual surveys and all quarterly reports filed by the landfill operator with the Division of Waste Management pursuant to 401 KAR 47:190 during the five (5) years on or before April 30 of the current tax year and a copy of its current operating permit.

(b) The department shall review the effective tipping fee calculation submitted by the landfill operator and shall estimate the annual cubic yards for the current tax year. Increases in forecasted effective tipping fees shall be determined by an indexed factor not to exceed the annual Consumer Price Index (CPI), as defined by KRS 154.30-010, for the year prior to the current tax year.

3. In estimating the annual effective tipping fee, the department shall consider any events or circumstances that may have an impact on current or future effective tipping fees.

(c) How this administrative regulation conforms to the content of the authorizing statutes: 2016 Ky. Acts, Ch. 93, § 1 (to be codified as KRS 132.202), which requires the Department of Revenue to promulgate administrative regulations under KRS Chapter 13A to implement a valuation methodology for landfills.

The reversionary value shall be discounted to its present worth as of January 1 of the current tax year and the resulting value shall be added to the sum of all year’s present values as calculated pursuant to paragraph (f) of this subsection.

(2) The fair cash value of any other real property, including improvements, not already included in the valuation of the landfill through the landfill valuation method shall be assessed by the department in the same manner as real property of all other taxpayers under KRS Chapter 132.

(a) State and local real property taxes shall be applied to the assessed value of the other real property and shall be added to the taxes assessed on the real property value determined by the landfill valuation method.

(3) Any information required to be supplied by the landfill owner or operator in connection with this administrative regulation shall be held in strict confidence by the department unless otherwise required by law.

(4) The allocation of value of tangible personal property incorporated into a landfill and certified as pollution control pursuant to KRS 132.020(1)(k) shall be determined by taking the present value of landfill royalty income, as determined in subsection (1) of this section and subtracting out the value attributable to undeveloped land and the value attributable to real property structures (i.e., buildings, improvements, real estate, of which include maintenance buildings, perimeter fencing, etc.) not certified as pollution control. The remaining value shall constitute the value allocation attributable to certified pollution control tangible personal property incorporated into the landfill.

CONTACT PERSON: Lisa Swiger, Staff Assistant, Department of Revenue, Finance and Administration Cabinet, 501 High Street, Stanion 9, Frankfort, Kentucky 40601, phone (502) 564-9556, fax (502) 564-2541, Lisa.Swiger@ky.gov(email).
landfills from the list of companies taxed as “public service companies” under KRS 136.120 et seq. § 1 of the Act requires the Department of Revenue to centrally assess all landfills and to bill and collect all ad valorem taxes on such facilities. This administrative regulation establishes a uniform valuation system for landfills based on a discounted cash flow model that determines the value of permitted landfill property based on the tipping fees (the fee charged per ton of waste disposed) it will earn over its remaining useful life. The regulation will establish the procedure for calculating the remaining years of economic life of a landfill—based on the information in the quarterly and annual reports permitted landfills already must file with the Kentucky Department of Waste Management—and will also establish how future tipping fees are to be estimated over the life of the landfill. It will also provide for the valuation of the real property outside the permitted landfill acreage and for the estimation of other income a landfill company may earn from activities such as the production of electricity from captured landfill gas. The definition of “landfills” excludes less-than-one-acre construction and demolition debris (“CDD”) landfills, as these facilities are generally privately-owned by construction and/or demolition companies and used to disjuncte of waste from their operations. Thus, most of them do not generate tipping fee revenues, which is what the landfill valuation model is based upon. These types of facilities were never subject to assessment by Revenue under the former statutory arrangement, and the legislature’s intention with regard to the revenue impact of HB 402 was to remain revenue neutral. Excluding CDD landfills from the regulation will accomplish this Senate intention, with assessment of those properties remaining the responsibility of the local PVAs.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The valuation system for landfills under KRS 136.120(1)(a)(17) was inherently flawed by the limited scope of the property identified in that statute subject to taxation (the statute identified the entities subject to tax as "municipal solid waste disposal facilities, as defined by KRS 224.120(9)(15), whereas all other public utilities under KRS 136.120 are either "companies" or "carriers"). This was inconsistent with the requirement under KRS 136.115 to assess the value of the franchise of companies identified in KRS 136.120, where the “franchise” represents the value of the business operation as a whole. The inconsistency between the statutes led to inconsistent and uneven assessments, which, in turn, led to annual protests of almost all landfill companies and used to disjuncte of waste from their operations. Thus, most of them do not generate tipping fee revenues, which is what the landfill valuation model is based upon. These types of facilities were never subject to assessment by Revenue under the former statutory arrangement, and the legislature’s intention with regard to the revenue impact of HB 402 was to remain revenue neutral. Excluding CDD landfills from the regulation will accomplish this Senate intention, with assessment of those properties remaining the responsibility of the local PVAs.

(e) How this administrative regulation will change the existing administrative regulation: N/A

(f) The necessity of the amendment to this administrative regulation: N/A

(g) How the amendment conforms to the content of the authorizing statutes: N/A

(h) How the amendment will assist in the effective administration of the statutes: N/A

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect all permitted landfills in Kentucky. There are currently 26 landfills operating in the state.

(4) Provide an analysis of how the entities identified in question 3 will be impacted by either the implementation of this administrative regulation as new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The municipal solid waste landfill owner will be required to file an annual return with the Department of Revenue along with copies of its permit the annual survey. KRS all quarterly reports filed by the landfill operator with the Division of Waste Management pursuant to 401 KAR 47:190 during the five years on or before April 30 of the current tax year. The landfill operator will also be required to provide the Department of Revenue with its calculation of the effective tipping fees for the five tax years prior the current tax year, together with its annual operating financial statements for each tax year which shall include tipping fee revenue, expenses for surcharges, host fees and related tax-exempt property and landfill income. If data for five years is not available due to the beginning date of operation being less than five years prior to the current tax year, a rolling average of the available years' data will be used.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No additional costs will be incurred by complying with the regulation. The uniform valuation methodology will provide consistency as to a landfill’s assessment on a year-to-year basis.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Municipal solid waste landfill owners will now have a greater degree of certainty from year-to-year what their assessments will be, as the value calculated by the methodology is based on information and records that are readily available to them.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The Department of Revenue will not incur additional costs as the result of this regulation.

(b) On a continuing basis: The Department of Revenue will not incur additional costs on an ongoing basis as the result of this regulation. 

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The implementation and enforcement of this administrative regulation will be done with existing funds and personnel primarily through the Department of Revenue, Office of Property Valuation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No

(9) TIERING: Is tiering applied? Tiering is not applied. This administrative regulation establishes the uniform valuation methodology for all municipal solid waste landfills in Kentucky.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Finance and Administration Cabinet, Department of Revenue, Office of Property Valuation and counties will be impacted by this administrative regulation and/or operate a municipal solid waste disposal facility ("landfill").

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 13A.100; KRS 131.130(1); KRS 132.202.

3. This administrative regulation establishes a uniform valuation methodology for all landfills in Kentucky.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No new revenues will be generated. Total revenue receipts for all landfills in Kentucky are approximately $2.1 million ($380,000 state, $1.72 million local) annually, and it is anticipated that the new valuation methodology will produce revenues very near to this amount. However, it is anticipated that there may be some landfill assessments that will be lower than prior years’ settlement amounts and some that will be higher than prior years’ settlement amounts. A review of the annual surveys will be conducted.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first five years? See above.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Richard T. Linio

(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation allows Morehead State University under the provisions of KRS 164A.560, to manage and administer capital construction projects in accordance with KRS 164A.575, 164A.580, 164A.585, 164A.590, 164A.595 and 164A.600.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to allow Morehead State University to manage and administer capital construction projects at the agency level instead of continuing to rely on the Finance and Administration Cabinet for this service.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation fully conforms to the requirement of KRS 164A.560 to allow the governing board of the postsecondary educational institution to manage and administer capital construction projects in accordance with KRS 164A.575, 164A.580, 164A.585, 164A.590, 164A.595 and 164A.600.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist Morehead State University in effectively administering the provisions of KRS 164A.575, 164A.580, 164A.585, 164A.590, 164A.595, and 164A.600 allowing Morehead State University under the provisions of KRS 164A.560, to manage and administer capital construction projects in accordance with KRS 164A.575, 164A.580, 164A.585, 164A.590, 164A.595 and 164A.600.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The entities affected by this administrative regulation are Morehead State University and the Finance and Administration Cabinet’s Department for Facilities and Support Services and its Division of Engineering and Contract Administration. This regulation will have no impact on any other business organization, or state and local government. Within Morehead State University, this regulation will affect the Assistant Vice President Office of Facilities Management, University Archives and Planning Department Staff, the Purchasing Department and the Accounting Department. Within the Department for Facilities and Support Services, its Division of Engineering and Contract Administration will be affected. Workload and project administration will be shifted from the Cabinet to the University. Cabinet staff who currently serve multiple agencies will be relieved of their responsibilities to service Morehead State University projects, allowing them more time to focus on other agencies projects. This staff includes project managers and other administrative staff who currently spend a portion of their time
managing projects for the University.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: Morehead State University will assume management and oversight of its capital construction projects. The Department for Facilities and Support Services will assist with the transition of projects to the University and continue to manage projects that are too advanced to effectively transfer to the University for management. Once those projects are either transitioned or completed the Department will no longer be involved in the University's construction program. In preparation for this, Morehead State University has adopted a Capital Construction Procedures Manual based on the procedures manual developed by the Finance Cabinet. Additionally processes will be put in place as needed to ensure that the requirements of KRS 164A and KRS 45A are complied with relating to capital construction project management. Morehead State University has project management staff in place and through some restructuring of current responsibilities minimal staff will be necessary. Additional salary costs for project administration will be less than $15,000 per year. Initial costs for software and equipment will be less than $15,000. The department for Facilities and Support Services may see a reduction in staff requirement as a result of this regulation. As a result of this regulation Morehead State University will be able to directly manage the schedule, budget, design and construction for its major facility projects. Since the oversight of these projects will be local better overall control will be realized. The Department for Facilities and Support Services should also realize a positive impact from this regulation by the reallocation of staff time currently dedicated to serving the needs of Morehead State University.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

   (a) Initially: The cost to implement the regulation will be minimal and will be limited to office equipment expense of less than $15,000.

   (b) On a continuing basis: The University already has project management staff in place and as we transition to managing all of our capital projects some additional staff will be needed. Cost associated with the additional staff primarily will include salaries, benefits and training. Since staff is already in place for project management the additional needs should be minimal. Some current staff will be given additional responsibilities relating specifically to the management of our capital construction program. Some additional accounting staff and purchasing staff may be necessary. The total additional cost for staffing should be $100,000 or less per year.

   (6) What is the source of the funding to be used for the implementation and enforcement of this Administrative regulation: The funding for implementation and enforcement of this regulation will come from university funds.

   (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this Administrative regulation, if new, or by the change, if it is an amendment: No additional increase in fees or funding is anticipated based on the projected project load.

   (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This regulation does not establish or directly or indirectly increase any fees.

   (9) TIERING: Is tiering applied? No, tiering is not applied. The regulation does not govern the activities of other entities and no entities will be disproportionately impacted by this regulation.

   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Jessica R. Sharpe
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes fees for services rendered by the Department of Financial Institutions to banks and trust companies.
(b) The necessity of this administrative regulation: This
regulation is needed to comply with the statutes directing the commissioner to be paid fees for services rendered to banks and trust companies.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 286.1-020(1) provides that the commissioner may promulgate administrative regulations as are necessary to interpret and carry out the provisions and intent of Chapter 286. KRS 286.3-145(4)(c) and KRS 286.3-145(5)(c) provide that a Kentucky state trust company shall pay a filing fee prescribed by the commissioner to establish or acquire and maintain a trust office or trust representative office in Kentucky or in a state other than Kentucky. KRS 286.3-146(4)(a)(3) provides that an out-of-state trust company shall pay a filing fee prescribed by the commissioner to establish or acquire and maintain a trust office or trust representative office in Kentucky. KRS 286.3-480(1)(a) provides that the commissioner shall be paid a fee by banks and trust companies for the investigation incident to the approval of articles of incorporation, applications for branch banks and loan production offices, and applications to relocate a main or branch office which is sufficient to cover the cost of investigation based upon fair compensation for time and actual expense. KRS 286.3-480(1)(c) provides that the commissioner shall be paid a fee by an institution for the examination of the assets held by the institution in a fiduciary capacity which is sufficient to cover the cost of the examination based upon fair compensation for time and actual expense. 

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation assists in the effective administration of the statutes by providing fees to offset the cost to the Department of rendering services to banks and trust companies.

(2) If this is an amendment to an existing administrative regulation provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new regulation.

(b) The necessity of the amendment to this regulation: This is a new regulation.

(c) How the amendment conforms to the content of the authorizing statute: This is a new regulation.

(d) How the amendment will assist in the effective administration of the statutes: This is a new regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation will affect trust companies and banks that are chartered in Kentucky. There are approximately five (5) trust companies that are chartered in Kentucky, and approximately two hundred banks that are chartered in Kentucky. The new regulation will affect applicants making an application for a Kentucky charter. There has been one (1) applicant for a Kentucky charter in the past two years. This regulation will also affect in-state and out-of-state banks seeking to establish or operate branches pursuant to an interstate merger transaction. The Department reviewed approximately one interstate merger transaction in each of the past two years. This regulation will affect out-of-state trust companies seeking to establish or acquire a trust office or trust representative office in Kentucky. There are approximately four (4) out-of-state trust companies that have established a trust office or trust representative office in Kentucky. Finally, this regulation could affect out-of-state bank branches and trust company offices that are subject to examination by the commissioner. There have been no examinations of such branches or offices in the past two years.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The new regulation will require these entities to pay the fee established for services rendered by the Department pursuant to KRS 286.3-145, 286.3-146, and 286.3-480.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The entities will have to pay the fee established by this regulation each time the entity is rendered the services specified by KRS 286.3-145, 286.3-146, and 286.3-480.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The regulation will ensure that the Department is vested with sufficient resources and expertise to provide the services specified by KRS 286.3-145, 286.3-146, and 286.3-480 to banks and trust companies.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: No cost anticipated.

(b) On a continuing basis: No cost anticipated.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Funds generated from the fees prescribed by this regulation are anticipated to cover the cost of services provided.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It is anticipated that an increase in fees or funding will not be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This regulation establishes fees for services that are provided to banks and trust companies pursuant to KRS 286.3-145, 286.3-146, and 286.3-480.

(9) TIERING: Is tiering applied? Yes. The filing fee for both in-state and out-of-state trust companies to obtain an office in a state other than the trust company’s chartering state is $1,000, while the filing fee for in-state trust companies to obtain an office in Kentucky is $500. These fees are tiered because the Department is required by KRS 286.3-146 and most out-of-state trust laws to engage in a reciprocal review of applications to approve requests for trust companies to obtain an office in a state other than the trust company’s chartering state. Tiering is also applied to the review of branch applications. A fee of $500 applies to requests to approve branches not established in accordance with an interstate merger transaction and a fee of $2,500 applies to applications to approve branches established pursuant to an interstate merger transaction. A higher fee is assessed for branches established pursuant to an interstate merger transaction because the Department is required by KRS 286.3-920 to engage in the additional review of an application and accompanying documentation and to ensure that additional statutory requirements are met. Tiering is also applied to the review of requests for approval to amend a bank’s articles of incorporation. A fee of $1,000 applies to a request for approval to amend a bank’s articles of incorporation pursuant to KRS 286.3-140(1) and a fee of $250 applies to a request for approval to amend a bank’s articles of incorporation for any other purpose. A higher fee is established for the amendment of articles pursuant to KRS 286.3-140(1) because the Department is required to engage in additional review of factors set forth in KRS 286.3-020, which is generally not required for requests made for any other purpose.

The Administrative Regulation Review Subcommittee met on Thursday, July 14, 2016, and submits this report:

Administrative Regulations Reviewed by the Subcommittee:

GENERAL GOVERNMENT CABINET: Board of Medical Licensure: Board

201 KAR 9:250. Registration and oversight of pain management facilities. Leanne Diakov, general counsel, represented the board.

In response to questions by Co-Chair Harris, Ms. Diakov stated that physician-present supervision requirements may have been established by KRS Chapter 218A, as well as this administrative regulation. Supervising physician presence was required at least fifty (50) percent of the time patients were present. Since amendment of KRS Chapter 218A, the board reported drastically fewer cases of inappropriate prescribing by these facilities. Co-Chair Marzian stated that nurse practitioners were authorized to prescribe scheduled substances on a very limited basis. A physical was required before prescribing, and the amendments to KRS Chapter 218A were having a positive impact on the problem of prescription abuse.

A motion was made and seconded to approve the following amendments: to amend Sections 3, 4, 5, and 6 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

Board of Barbering: Board

201 KAR 14:015. Retaking of examination. Brian Judy, assistant attorney general, and Sonja Minch, administrator, represented the board.

In response to questions by Senator Kerr, Ms. Minch stated that after 1,500 hours of formal education, a student may take the probationary examination. If the student failed the examination once, the student may retake the probationary examination; however, if the student failed the examination twice, the student was required to acquire eighty (80) additional clock hours of formal education at a Kentucky-licensed barber school. Typically, if a student failed the probationary exam after formal education at an out-of-state barber school, the failed portion was related to Kentucky’s sanitation laws, which would not be taught at an out-of-state school. Thus, a student who failed the probationary examination twice was required to acquire eighty (80) additional clock hours of formal education at a Kentucky-licensed barber school.

In response to a question by Co-Chair Harris, Ms. Minch stated that the 1,500 hours of formal education included both classroom and clinical training.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY and NECESSITY, FUNCTION, AND CONFORMITY paragraphs to correct citations; (2) to amend Section 1 to comply with the drafting requirements of KRS Chapter 13A; and (3) to amend Section 3 to change the terminology from "instructor" to "teacher" for consistency with KRS 317.440 and 317.450 and 201 KAR 14:125. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:030. Five (5) year expiration of license.

A motion was made and seconded to approve the following amendments: to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to: (1) make a technical correction; and (2) clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:045. Notification of new locations.

A motion was made and seconded to approve the following amendments: (1) to amend the TITLE to clarify that this administrative regulation applies to a new barber shop, which requires an inspection; (2) to amend the STATUTORY AUTHORITY paragraph to correct a citation; (3) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (4) to amend Section 3 to cross reference 201 KAR 14:040, which also regulates the inspections of shops and schools. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:090. School curriculum.

In response to questions by Senator Clark, Ms. Minch stated that this administrative regulation addressed concerns regarding lack of experience for barber school teachers. 201 KAR 14:125 was recently filed to more fully address this issue, but this administrative regulation required a minimum of three (3) years of experience for a head teacher.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph and Section 2 to correct citations; (2) to amend Section 1 to: (a) comply with the drafting requirements of KRS Chapter 13A; and (b) change the terminology from "instructor" to "teacher" for consistency with KRS Chapter 317; and (3) to amend Section 4 to delete the reference to "teacher assistant" and instead state that a teacher licensed for less than twelve (12) months who has not completed 600 hours of instructional experience obtained while under the supervision of a board-licensed teacher with a minimum of three (3) years of experience and in a barber school licensed by the board shall not be counted as a teacher for the purposes of compliance with the ratio requirement. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:110. School equipment; plant layout.

In response to a question by Co-Chair Harris, Ms. Minch stated that shrimp bowls with hot and cold running water were required to be in the room where barbering was done so that the client could witness the barber washing his or her hands before providing barbering services. It was a measure to ensure sanitation.

A motion was made and seconded to approve the following amendments: (1) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Sections 3, 4, 5, 8, 10, and 11: (a) for clarity; and (b) to comply with the drafting and formatting requirements of KRS Chapter 13A; and (2) to amend Section 12 to
clarify that the exemption applies to only the shampoo bowls with hot and cold running water established in Section 10 of this administrative regulation. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:150. School records.
A motion was made and seconded to approve the following amendments: (1) to amend Sections 1 and 3 to change references from "instructor" to "teacher"; and (2) to amend Section 6 to: (a) require the board to produce records immediately during the school is scheduled to be open and providing services; and (b) clarify that, if the request is made when the school is closed and not providing services, the school shall produce the record within two (2) hours of the next normal day of business. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 14:180. License fees, examination fees, renewal fees, and expiration fees.
A motion was made and seconded to approve the following amendments: (1) to amend Sections 1 through 4 to delete references to "teacher assistants" to conform with statutory authority; and (2) to add a new Section 7 to clarify the purpose of and what an individual shall be allowed to do in relation to certification and demonstration fees. Without objection, and with agreement of the agency, the amendments were approved.

Board of Respiratory Care: Board
201 KAR 29:015. Fees. John Marcus Jones, assistant attorney general; Tamara McDaniel, vice-chair; and Kathleen Schell, board member, represented the board.
In response to questions by Co-Chair Harris, Ms. McDaniel stated that it had been approximately ten (10) years since the board had raised fees. The board had experienced many cost increases, including retirement factor increases and significant rent increases. The fee increases in this administrative regulation would allow the board to meet its current budgetary needs. The board was very fiscally responsible.
A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO and STATUTORY AUTHORITY paragraphs to correct citations; and (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to correct definitions for and function served by this administrative regulation, as required by KRS 13A.220. Without objection, and with agreement of the agency, the amendments were approved.

Board of Medical Imaging and Radiation Therapy: Board
201 KAR 46:020. Fees. Sheryl Abercrombie, chair; Brian Judy, assistant attorney general; and Elizabeth Morgan, executive director, represented the board.

201 KAR 46:070. Violations and enforcement.
A motion was made and seconded to approve the following amendments: to amend Section 3 to: (1) clarify that the penalty applies to an individual who performed a procedure without valid licensure; and (b) delete a cross-reference. 401 KAR 31:040 & E. Lists of hazardous wastes. Tony Hatton, executive director, represented the division.

This administrative regulation also reclassified aluminum processing wastewater from the automotive industry as a nonhazardous, solid waste under specific circumstances, including that the waste shall not be placed on the land.
A motion was made and seconded to approve the following amendments: (1) to amend Section 1 to make technical corrections; and (2) to amend Sections 1 through 4 to insert citation replacements that were inadvertently omitted from the initial filing. LABOR CABINET: Department of Workplace Standards: Division of Occupational Safety and Health Compliance: Division of Occupational Safety and Health Education and Training: Occupational Safety and Health

803 KAR 2:300. General. Mike Pettit, safety standards interpretation; Kristi Redmon, occupational safety and health specialist; and Michael Swansburg, general counsel, represented the department.

In response to questions by Co-Chair Harris, Ms. Redmon stated that these administrative regulations were being amended pursuant to federal OSHA requirements. Kentucky was not required to adopt all of these requirements; however, the division adopted all of these requirements in order to be as protective as the federal program. Several administrative regulations in this package related to federally mandated protection from respirable silica particles. The new exposure limit was twenty (20) percent lower than the previous limit. Silica was a recognized carcinogen.

Co-Chair Marzian stated that, as a healthcare professional in a transplant office, there were workers with silica exposure who presented at her facility with cancer.

A motion was made and seconded to approve the following amendments: to amend Section 2 to correct a citation. Without objection, and with agreement of the agency, the amendments were approved.

803 KAR 2:308. Personal protective equipment.
In response to a question by Co-Chair Harris, Ms. Redmon stated that face and eye protection requirements were updated commensurate with federal consensus standards. There were no new compliance requirements, rather there were new equipment options that may be chosen in lieu of previous standards.

803 KAR 2:421. 29 C.F.R. Part 1926.950-968.
803 KAR 2:425. Toxic and hazardous substances.

PUBLIC PROTECTION CABINET: Department of Alcoholic Beverage Control: Quotas

804 KAR 9:040. Quota retail package licenses. Steven Edwards, commissioner; Stephen Humphress, general counsel; and Carol Beth Martin, malt beverage administrator, represented the department. Chris Daniels, Somerset retail package store owner; Jason Nemes, attorney; and Vinay Patel, Somerset retail package store owner, appeared in opposition to this administrative regulation.

In response to a question by Co-Chair Marzian, Mr. Edwards stated that the court directed the department to change the number of quota retail package licenses issued to City of Somerset. The department, in exercising the discretion directed by the court, issued ten (10) quota retail package licenses to City of Somerset based on market size.

In response to questions by Senator Clark, Mr. Humphress stated that at the time Somerset voted “wet,” the board was authorized to establish a specific quota for the city. At that time, this administrative regulation required the quota to be population based (one (1) per 2,500 people), which would have resulted in five (5) licenses. Because numerous cities within “dry” counties had been voting “wet,” this administrative regulation was then amended to still be population based, but with exceptions for cities that demonstrated a market size that warranted more licenses than the population calculation established. After that amendment, City of Somerset petitioned the board to present data to establish that more than five (5) licenses were warranted.

Mr. Nemes stated that this administrative regulation required quota retail package licenses to be issued based on population unless a city demonstrated changes that warranted additional licenses. Somerset had recently experienced a population decrease, not an increase. The court’s decision did not require the board to issue ten (10) licenses, but required the board to use its discretion to determine if this administrative regulation had already been harmed by the increased competition. Many other areas near Somerset recently also voted “wet,” therefore, there was more supply available than previously. There were already too many licenses available in Somerset that more than met the demand. The most Somerset should have been issued was five (5) licenses. This administrative regulation violated existing law, in that it allowed more than one (1) additional license per 2,500 people. A city requesting additional licenses was required to submit an economic impact study that demonstrated the necessity for more licenses, that there had been a change in circumstances, and that the current license quota was inadequate. Somerset failed to demonstrate that current license holders were failing to meet the demand. The issuance of ten (10) licenses was an arbitrary number, without basis from the economic data. Mr. Nemes supported free markets; however, alcohol sales was not a free market because of various forms of restraint, such as limited advertising, mandated pricing, restricted employees, and restricted sales. Normal, free-market competition was inappropriate for this industry. Three (3) years ago, when the citizens of Somerset voted “wet,” they did so with the understanding that there would be a maximum of five (5) licenses based on this administrative regulation. Current license holders who had made significant investments based on this administrative regulation had already been harmed by the increased competition. Sales were down thirty (30) percent in the last two (2) years. The new licenses would further reduce demand and sales. This administrative regulation should be found deficient or deferred until Somerset demonstrated the necessity for these licenses, as required by the statute and this administrative regulation.

Senator Clark stated that Mr. Nemes’ testimony regarding support of the free market seemed contradictory because Mr. Nemes did not support the free market as it pertained to Somerset’s licenses and this administrative regulation. Alcoholic beverage control statutes and administrative regulations were unusual because the law approached the subject from the view of prohibition, rather than from the view of the free market. Senator Clark stated that these requirements were too limited even with ten (10) licenses and that the free market should prevail in this industry. The significant sales in Somerset was at least partly the result of successful local tourism.

Mr. Edwards stated that the argument that the board was limited to the population ratio of one (1) license per 2,300 people was technically incorrect, as shown by a comparison of other cities with similar or larger populations. The economic data presented on behalf of additional licenses for Somerset was striking, in that Somerset was shown to have demand far greater than similarly populated cities and even some cities with larger populations. Somerset had annual sales of $673,739, which was more than Richmond, which was three (3) times as large in population; Ashland, which was twice as large in population; Nicholasville, which was nearly three (3) times as large in population; and other similarly large cities. Somerset had been ranked as one (1) of the top ten (10) performing micropolitan areas out of 536 micropolitan
areas. Based on the economic data, Somerset seemed to deserve the opportunity to grow and have these additional licenses. Mr. Humphress stated that the court order specifically directed the board to use the requirements established in the previous 2013 version of this administrative regulation; therefore, the economic demonstration was not necessary because that was not a component of this administrative regulation in that previous version.

SNAP recipients were also required to inform the cabinet of changes that may affect eligibility or benefits, such as income fluctuations or employment status.

A motion was made and seconded to approve the following amendments: (1) to amend Section 2 to delete language suggesting that the time periods for household certification were minimums, in order to comply with 7 C.F.R. 273.10(f), which indicated that these were maximum time periods; and (2) to amend Section 5 for clarification. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action that may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 42 are those administrative regulations that were originally published in VOLUME 42 (last year’s) issues of the Administrative Register of Kentucky but had not yet gone into effect when the 2016 Kentucky Administrative Regulations Service was published.

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 43 of the Administrative Register of Kentucky.

The Technical Amendment Index is a list of administrative regulations that have had technical, nonsubstantive amendments entered since being published in the 2016 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.2255(2), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky.

The Subject Index is a general index of administrative regulations published in VOLUME 43 of the Administrative Register of Kentucky, and is mainly broken down by agency.

**KRS INDEX**

The Technical Amendment Index is a list of administrative regulations that have had technical, nonsubstantive amendments entered since being published in the 2016 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.40(9) and (10), 13A.2255(2), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published to show the technical corrections in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at [http://www.lrc.ky.gov/KAR/frntpage.htm](http://www.lrc.ky.gov/KAR/frntpage.htm).

‡ - Pursuant to KRS 13A.320(1)(e), this symbol indicates a technical change was made to this administrative regulation during the promulgation process.
