After review by the Subcommittee, the administrative regulation shall be referred by the Legislative Research Commission to an appropriate jurisdictional committee for a second review. EMERGENCY ADMINISTRATIVE REGULATIONS

STATEMENT OF EMERGENCY
32 KAR 1:050E

This emergency administrative regulation is being promulgated to revise and update the political committee registration form in response to changes to KRS Chapter 121 as a result of 2018 House Bill 157 (2018 Acts Chapter 4). The Kentucky Registry of Election Finance ("Registry") is expressly required to promulgate administrative regulations necessary to carry out the provisions of KRS Chapter 121 under KRS 121.120(1)(g), and to adopt official forms to implement the provisions of KRS Chapter 121 under KRS 121.120(4). Failure to enact this administrative regulation on an emergency basis would pose imminent threat to the public health, safety or welfare of Kentucky. An ordinary administrative regulation would be insufficient because the current political committee registration form (KREF 010 Revised 06/2011) does not provide a means for registration of an executive committee or contributing organization. This administrative regulation defines "minor political party" and "executive committee" for purposes of administering the Campaign Finance Regulation (KRS Chapter 121). Finally, the revised KREF 010 provides a means for the registration of an executive committee or contributing organization, as these reporting entities are recognized by KRS 121.015, are subject to the contribution limits of KRS 121.150, and required to submit campaign finance reports under KRS 121.180. This emergency administrative regulation is identical to and shall be replaced by an ordinary administrative regulation.

CRAIG C. DILGER, Registry Chairman

Kentucky Registry of Election Finance
(Emergency Amendment)

32 KAR 1:050E. Political organization[committee] registration.

RELATES TO: KRS 121.015(3), (4), 121.170

STATUTORY AUTHORITY: KRS 121.015(3), (4), 121.120(1)(g), (4), 121.170(1)

EFFECTIVE: January 14, 2019

NECESSITY, FUNCTION, AND CONFORMITY: KRS 121.120(1)(g) authorizes the Registry to promulgate administrative regulations necessary to carry out the provisions of KRS Chapter 121. KRS 121.120(4) requires the registry to promulgate administrative regulations and prescribe forms for the making of reports under KRS Chapter 121. KRS 121.015(3)(b)5. requires the Registry to determine by administrative regulation what constitutes a minor political party for purposes of committee registration. As defined in KRS 121.015(4), a "contributing organization" is subject to contribution limits and required to file periodic reports of campaign finances under KRS 121.180(6). This administrative regulation defines "minor political party" and "executive committee" for purposes of Kentucky's Campaign Finance Regulation (KRS Chapter 121), specifies the form to be used for registration by [political] committees and contributing organizations, and incorporates the form by reference.

Section 1. Definitions.

(1) "Executive committee" means an organizational unit or affiliate recognized within the document governing a political party, that raises and spends funds to promote political party nominees, and performs other activities commensurate with the day-to-day operation of a political party, including voter registration drives, assisting candidate fundraising efforts, holding state conventions or local meetings, and nominating candidates for local, state and federal office.

(2) "Minor political party" means an association, committee, organization, or group having constituted authority for its governance and regulation, which nominates or selects a

candidate for election to any federal or statewide-elected state office in Kentucky, whose name appears on an election ballot as the candidate of the association, committee, organization, or group, and does not have a recognized caucus campaign committee within the Kentucky House or Senate, as defined in KRS 121.015(3)(b)1.-4.

(3) "Political organization" means any committee or contributing organization, as those terms are defined in KRS 121.015(3) and (4).

Section 2. Political Organization[Committee] Registration. The "Political Organization[Committee] Registration" form, KREF 010, revised 01/2019[06/2011,] shall be the official form to be used for the registration of campaign committees, caucus campaign committees, political issues committees, permanent committees,[and] inaugural committees, executive committees, and contributing organizations.

Section 3[2]. Incorporation by Reference.

(1) "Political Organization[Committee] Registration" form, KREF 010, revised 01/2019[06/2011,] is incorporated by reference.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Dennis

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation amends and updates the current political committee registration form to include contributing organization and executive committee registrants. The administrative regulation also defines the terms "political organization," "minor political party," and "executive committee."

(b) The necessity of this administrative regulation: KRS 121.120(1)(g), KRS 121.120(4), KRS 121.170(1) and KRS 121.015(3)(b)(5) require the Registry to promulgate this administrative regulation. 2018 House Bill 157 amended KRS 121.015(3)(b) to permit a minor political party with a recognized state executive committee in Kentucky to form caucus campaign committees. This administrative regulation defines the term "minor political party" and "executive committee" to clarify the statutory definition of caucus campaign committee, as amended by 2018 House Bill 157. In addition, the revised registration form will provide a means for the registration of executive committees and contributing organizations.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation specifically conforms to the provisions of KRS 121.120(1)(g), as it promulgates an administrative regulation to carry out the provisions of Chapter 121; KRS 121.120(4), as it prescribes a form for the registration of committees and contributing organization; and KRS 121.015(3)(b)5., as it sets forth how a minor political party may register a caucus campaign committee.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation assists in the effective administration of the reporting requirements under KRS 121.180, as it provides a means for the registration of committees and contributing organizations and defines terms necessary to determine how a minor political party may register a caucus campaign committee.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the latest version of the political committee registration form and defines terms in compliance with 2018 House Bill 157.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the Registry to adopt official forms. KRS 121.170(1) requires registration by committees, and KRS 121.180 requires election finance statements to be filed on a periodic basis by committees and contributing organizations. KRS 121.015(3)(b)5. defines caucus campaign committee to include subdivisions of the state executive committee of a minor political party, which serve the same function as Democratic and Republican caucus campaign committees in the House and the Senate, as determined by administrative regulations promulgated by the registry. Amendment to the administrative regulation is necessary to define the terms "executive committee" and "minor political party" and to provide a means for registration of executive committees and contributing organizations.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) by promulgating an administrative regulation to carry out the provisions of KRS Chapter 121. The administrative regulation also conforms to KRS 121.120(4) by prescribing a necessary form for the registration of committees and contributing organizations and conforms to KRS 121.015(3)(b)5. by defining terms necessary to determine how a minor political party may register a caucus campaign committee.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will bring the committee registration form into compliance with changes in KRS 121.015 due to the passage of 2018 House Bill 157 and will further assist in the effective administration of the reporting requirements specified in KRS 121.180 by providing a means for registration of executive committees and contributing organization.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All contributing organizations and committees required to register with the Registry will be affected by this administrative regulation. To the extent the public, media, and other interest groups depend on the Registry's disclosure function, they will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The Registry will provide the new form, both in hard copy format and electronically, to the regulated entities. All training materials will be updated to reflect the new form.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is anticipated to be incurred by regulated entities as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The change to the administrative regulation will provide a clear means for a minor political party to register a caucus campaign committee, as provided in 2018 House Bill 157, and provides a means for registration by executive committees and contributing organizations.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Initial costs to implement the administrative regulation are estimated to be no more than \$5,000.

(b) On a continuing basis: Ordinary printing costs are anticipated in the Registry's budget.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Registry budget funding will be used for implementation and enforcement.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation establishes no fees either directly or indirectly.

(9) TIERING: Is tiering applied? No, tiering is not applied because the provisions of this administrative regulation apply equally to all contributing organizations and committees required to register and file reports with the Registry.

STATEMENT OF EMERGENCY 32 KAR 1:070E

This emergency administrative regulation is being promulgated to revise and update the waiver from filing candidate election finance statement form to allow for a slate of candidates to file a single form instead of two (2) forms and to update the administrative regulation's reference to a form incorporated by reference in 32 KAR 1:050 which will be renamed as of the filing of an emergency and ordinary amendment to 32 KAR 1:050. The Kentucky Registry of Election Finance ("Registry") is expressly required to promulgate administrative regulations necessary to carry out the provisions of KRS Chapter 121 under KRS 121.120(1)(g), and to adopt official forms to implement the provisions of KRS Chapter 121 under KRS 121.120(4). Failure to enact this administrative regulation on an emergency basis would pose imminent threat to the public health, safety or welfare of

Kentucky. An ordinary administrative regulation would be insufficient because the current administrative regulation makes reference to a form rendered obsolete by the filing of a separate emergency administrative regulation. In addition, the revised KREF 011 provides a means for a slate of candidates to file a single waiver from filing candidate election finance statements instead of having to file separate waiver forms. This emergency administrative regulation is identical to and shall be replaced by an ordinary administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Dennis

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation amends and updates the current waiver from filing candidate election finance statement form. The updated form is reformatted, includes lines on which the candidate can include an electronic mail address, and has signature lines for both the candidate for Governor and candidate for Lieutenant Governor in the event a gubernatorial slate chooses to register a campaign committee.

(b) The necessity of this administrative regulation: KRS 121.120(1)(g), 121.120(4), KRS 121.180(9) require the Registry to

promulgate this administrative regulation. KRS 121.180(9) relieves a candidate or slate of candidates of the duty personally to file reports and keep records of receipts and expenditures if the candidate or slate of candidates states in writing that he or she agrees to certain conditions with respect to campaign funds received by the campaign of the candidate or slate. This regulation prescribes the form for a candidate to exercise the waiver from filing candidate election finance statements, as required by KRS 121.120(1)(g) and (4).

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation specifically conforms to the provisions of KRS 121.120(1)(g), as it promulgates an administrative regulation to carry out the provisions of Chapter 121, and KRS 121.120(4), as it prescribes a form for candidates and slates to file in order to be relieved personally of the duty to file reports and keep records of receipts and expenditures as set forth in KRS 121.180(9).

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation assists in the effective administration of the reporting requirements under KRS 121.180, as it provides a means for a candidate or slate of candidates to request a waiver from filing candidate election finance statements, as provided by KRS 121.180(9).

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the latest version of the waiver from filing candidate election finance statement form. The amended form includes signature lines for both members of a gubernatorial slate and provides blanks for a candidate or slate of candidates to include an electronic mail address for contact purposes.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the Registry to adopt official forms. KRS 121.180(9) permits a candidate or slate of candidates to be relieved of the duty personally to file election finance statements and keep records of receipts and expenditures, provided that certain conditions are met as set forth in the statute. The candidate or slate must indicate in writing or on a form provided by the Registry that he, she, or they (in the case of a slate) will conform to certain conditions spelled out in KRS 121.180(9) in order to be personally exempt from the reporting and recordkeeping requirements of the campaign finance regulation.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) as the Registry is authorized to promulgate administrative regulations to carry out the provisions of KRS Chapter 121. The administrative regulation also conforms to KRS 121.120(4), by prescribing a necessary form for a candidate or slate of candidates to state in writing the intent to comply with the requirements of KRS 121.180(9). Finally, the regulation incorporates the terms of KRS 121.180(9), thereby providing a means for a candidate or slate of candidates to agree to the conditions of the statute permitting a candidate to be exempt from reporting and recordkeeping requirements so long as these conditions are met by the candidate or slate of candidates.

(d) How the amendment will assist in the effective administration of the statutes: This amendment updates the waiver from filing candidate election finance statement form so that a slate of candidates only has to file one (1) waiver form instead of two (2) waiver forms. The amended form also provides a means for a candidate or slate of candidates to provide electronic mail address information so that the Registry may more quickly and efficiently contact the campaign regarding regulatory requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All candidates and slate of candidates who authorize a campaign committee are required to complete this form to request a waiver from filing election finance statements as required by KRS 121.180(9).

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this

administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The Registry will provide the new form, both in hard copy format and electronically, to the regulated entities. All training materials will be updated to reflect the new form.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is anticipated to be incurred by regulated entities as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The change to the administrative regulation will provide a slate of candidates the means to file a single form to request a waiver from filing candidate election finance statement and allows candidates and slates of candidates a means to provide the Registry with an electronic mail address so the Registry may more efficiently contact candidates and slates.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Initial costs to implement the administrative regulation are estimated to be no more than \$5,000.

(b) On a continuing basis: Ordinary printing costs are anticipated in the Registry's budget.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Registry budget funding will be used for implementation and enforcement.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this amendment to an existing administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation establishes no fees either directly or indirectly.

(9) TIERING: Is tiering applied? No, tiering is not applied because the provisions of this administrative regulation apply equally to all candidates who choose to request a waiver from reporting and recordkeeping requirements under KRS 121.180(9).

STATEMENT OF EMERGENCY 200 KAR 3:020E

This emergency administrative regulation is being promulgated in order to provide clear guidance regarding public use of state-owned facilities and grounds. The administrative regulation aims to protect the health, safety, and welfare of visiting members of the public, as well as staff at state-owned facilities and grounds. An emergency administrative regulation is necessary, pending replacement by an ordinary administrative regulation, to provide clear and comprehensive guidelines in regard to items and activities that pose a threat to public health, safety, and welfare at state-owned facilities and grounds. Over the years, public interest in, and attendance of, the regular business of the Kentucky Legislature has steadily increased to the extent that concerns have arisen regarding the health, safety, and welfare of visiting members of the public and staff. With a regulation session of the Kentucky Legislature imminent, the provision of this administrative regulation should be given immediate effect. This emergency administrative regulation shall be replaced by an ordinary administrative regulation being filed with the Administrative Regulations Compiler contemporaneously with this emergency administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

200 KAR 3:020E. Use of state-owned facilities and grounds.

RELATES TO: KRS 42.019, 42.425, 56.010, 56.463

STATUTORY AUTHORITY: KRS 42.019, 42.425, 56.010, 56.463

EFFECTIVE: January 4, 2019

NECESSITY, FUNCTION, AND CONFORMITY: This administrative regulation establishes uniform rules for the governance of state facilities and grounds. While all state facilities and grounds are owned by the people of the Commonwealth at large, it is sometimes detrimental to the effective carrying-out of the people's business for persons, or groups of persons, to disregard reasonable conditions established for use of state facilities and state grounds. The purpose of this administrative regulation is to balance the interests of the citizens of the Commonwealth at large with the interests of individual citizens, or groups of citizens, to use state facilities and grounds in a reasonable fashion in order to redress their grievances and coordinate various uses of public buildings and grounds, to preserve historic properties, to ensure the health and safety of the public and state employees while on state property, and to protect the public from unnecessary financial losses. KRS 42.019 directs that the Division of Historic Properties shall be responsible for management and preservation of state-owned historic properties. KRS 42.425 entrusts the Department for Facilities and Support Services with primary responsibility for developing and implementing policies applicable to all state agencies to ensure effective planning for and efficient operation of state office buildings. KRS 56.010 states that the Finance and

Administration Cabinet is empowered to institute civil proceedings in the name of the Commonwealth for any trespass or injury to state property under its control. KRS 56.463 authorizes the Finance and Administration Cabinet to adopt rules and promulgate administrative regulations as may be necessary to govern the acquisition, control, and disposition of the real property.

STATEMENT OF EMERGENCY 301 KAR 2:095E

This emergency administrative regulation establishes procedures for the importation and possession of cervid carcasses or carcass parts. Chronic Wasting Disease (CWD) has recently been detected in deer populations in several surrounding states. CWD may persist in the environment for years before clinical symptoms develop in cervids or the disease is discovered. An ordinary administrative regulation will not suffice because it is necessary to immediately prohibit cervid carcasses or certain carcass parts from entering Kentucky in order to protect the state's deer and elk herds. Thus, an emergency administrative regulation is necessary pursuant to KRS 13A.190(1)(a)(4). The Department of Fish and Wildlife Resources is extremely dependent upon the sale of hunting licenses and deer permits in order to operate. Deer hunting also contributes hundreds of millions to the state's economy. If CWD becomes established in Kentucky, then license and permit sales and the state's economy will be negatively impacted. An ordinary administrative regulation will not suffice because it is necessary to immediately prohibit cervid carcasses or certain carcass parts from entering Kentucky. Thus, an emergency administrative regulation is necessary pursuant to KRS 13A.190(1)(a)(2). This emergency regulation will be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

(a) What this administrative regulation does: This regulation establishes procedures for the importation and possession of cervid carcasses or carcass parts from other states or countries.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to prevent the importation of cervid parts most likely to be contaminated with the agent that causes Chronic Wasting Disease (CWD).

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the department to promulgate administrative regulations to establish the requirements for the transportation of wildlife. (3) The formulary shall be made available by the department. Subsequent updates shall be effective on the first day of the month following the update.

(4) To the extent this regulation or the formulary conflict with any state or federal statute or regulation limiting prescriptive authority, including KRS 218A.172, KRS 218A.020(3), KRS 314.011(8) and 201 KAR 9:260, the statute or administrative regulation limiting prescriptive authority shall apply.

Section 3. Application.

(1) An employer or its payment obligor is liable for payment of up to a seven (7)-day supply of a "Y" drug dispensed to or prescribed for an injured employee within seven (7) days of a work-related injury in treatment of that work-related injury even if the employer ultimately denies liability for the claim. Payment by the employer or its payment obligor pursuant to this subsection does not waive the employer's right to contest its liability for the claim or benefits to be provided.

(2) Unless the employer, in good faith, denies the claim as not compensable, drugs assigned "Y" status in the formulary on the date the prescription is issued shall be filled without the need for preauthorization and without delay if prescribed for and appropriate for the work injury or occupational disease. Utilization review shall not be required for a "Y" drug but may be conducted retrospectively to determine medical reasonable-ness and necessity. A denial of a "Y" drug based on retrospective utilization review shall apply only to refill prescriptions of that drug after the date of the utilization review.

(3) Unless the employer, in good faith, denies the claim as not compensable, drugs assigned "N" status in the formulary on the date the prescription is issued shall require preauthorization. A prescription for a drug with an "N" status issued with-out articulated sound medical reasoning does not constitute a request for preauthorization nor a request for payment. Within two (2) business days of presentation of a prescription for a drug with an "N" status without articulated sound medical reasoning, the insurance carrier shall notify the medical provider that preauthorization is required for the prescribed drug.

(4) Except as provided in subsection (1) of this Section, drugs dispensed for outpatient use by any person other than a pharmacist require preauthorization.

(5) Any prescription drug not listed in the formulary shall require preauthorization. Any non-prescription drug shall not require preauthorization.

(6) Compound medications require preauthorization even if all of the components of the compound are listed as "Y" drugs in the formulary.

(7) Medical providers are required to prescribe in accordance with the formulary unless the medical provider can sufficiently articulate sound medical reasoning for deviating from the

formulary, which may include:

(a) Documentation that reasonable alternatives allowable in the formulary have been adequately trialed and failed;

(b) The clinical rationale that justifies the proposed treatment plan, including criteria that will constitute a clinically meaningful benefit; or

(c) Any other circumstances that reasonably preclude the approved formulary options.

(8) Before an employer denies authorization for a drug that requires preauthorization, the employer must consider any sound medical reasoning furnished by the medical provider for prescribing that drug.

Section 4. Preauthorization.

(1) Requests for preauthorization shall be subject to utilization review unless the employer waives utilization review.

(2) Except as modified in this Section, 803 KAR 25:190 Sections 5, 7, and 8 apply to all prescriptions for which preauthorization is required under this administrative regulation. If the medical provider has provided sound medical reasoning for the prescription, the employer shall not deny a prescribed drug based solely on the status of the drug in the formulary.

(3) If as a result of utilization review the carrier denies a request for preauthorization, the medical provider may request reconsideration of the denial to include a peer-to-peer conference with a utilization review physician. The request for a peer-to-peer conference shall be made by electronic communication and shall provide:

(a) A telephone number for the reviewing physician to call;

(b) A date for the conference not less than two (2) business days after the date of the request; and

(c) A one (1) - hour period during which the requesting medical provider (or its designee) will be available to participate in the conference between the hours of 8:00 a.m. and 6:00 p.m. (Eastern Time), Monday through Friday.

(4) The peer-to-peer conference must be conducted by a physician of the same specialty as the medical provider re-requesting reconsideration.

(5) Failure of the reviewing physician to participate in the peer-to-peer conference during the date and time specified shall result in the approval of the request for preauthorization and approval of the requested prescription. Failure of the re-requesting medical provider or its designee to participate in the peer-to-peer conference during the time he or she specified availability may result in denial of the request for reconsideration.

(6) Pursuant to 803 KAR 25:190 Section 8(1)(c), a written reconsideration decision shall be rendered within ten (10) days of date of the peer-to-peer conference. The written decision shall be entitled "FINAL UTILIZATION REVIEW DECISION."

(7) If a Final Utilization Review Decision is rendered denying authorization for a prescribed drug before an award has been entered by or agreement approved by an administrative law judge, the requesting medical provider or the injured employee may file a medical dispute pursuant to 803 KAR 25:012. If a Final Utilization Review Decision is rendered denying authorization for a prescribed drug after an award has been entered by or agreement approved by an administrative law judge, the employer shall file a medical dispute pursuant to 803 KAR 25:012.

(8) Pursuant to KRS 342.285(1), a decision of an administrative law judge on a medical dispute is subject to review by the workers' compensation board under the procedures set out in 803 KAR 25:010, Section 22.

Section 5. Effective Dates.

(1) For claims with a date of injury or last exposure on or after January 1, 2019, the formulary applies to all drugs that are prescribed or dispensed on or after July 1, 2019, for outpatient use;

(2) For claims with a date of injury or last exposure prior to January 1, 2019, the formulary applies as follows:

(a) For a prescription that is not a refill prescription, the formulary applies to all drugs prescribed or dispensed on or after July 1, 2019, for outpatient use;

(b) For a refill prescription of a drug initially prescribed prior to

July 1, 2019, the formulary applies to all drugs pre-scribed or dispensed on or after January 1, 2020, for outpatient use.

This is to certify that the commissioner has reviewed and recommended this administrative regulation prior to its adoption, as required by KRS 342.260 and 342.035.

Providers may experience administrative costs resulting from a Medicaid recipient refusing to pay a copayment obligation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Enrollees and recipients will be able to fully access Medicaid benefits, and providers will be able to charge for services provided.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS)

Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 1396a(a)(14) authorizes a state's Medicaid program to impose cost sharing only as allowed by 42 U.S.C. 1396o. 42 U.S.C. 1396o establishes categories of individuals for whom a state's Medicaid program may not impose cost sharing as well as cost sharing and premium limits. 2 C.F.R. 447.50 through 447.60 also establishes limits on cost sharing (based on income of the given Medicaid eligibility group); Medicaid populations exempt from cost sharing (children, pregnant women, institutionalized individuals for example); services exempt from cost sharing (emergency services, family planning services to child-bearing age individuals); prohibition against multiple cost sharing for one (1) service; and a requirement that managed care organizations' cost sharing must comply with the aforementioned federal regulations. 42 C.F.R. 438.108 establishes that a managed care organization's cost sharing must comply with the federal cost sharing requirements for Medicaid established in 42 C.F.R. 447.50 through 42 C.F.R. 447.90.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Stricter requirements are not imposed.

STATEMENT OF EMERGENCY 921 KAR 2:015E

This emergency administrative regulation is necessary to increase the standards of need for all levels of care in the State Supplementation Program for persons who are aged, blind, or have a disability due to the federal and state agreement to pass through the Supplemental Security Income 2019 cost of living adjustment. Failure to comply with this agreement jeopardizes the state's Medicaid funds pursuant to 20 C.F.R. 416.2099. The Social Security Administration notified the Department for Community Based Services of the Supplemental Security Income cost of living adjustment in October of 2018. An ordinary administrative regulation would not allow the agency sufficient time to have an administrative regulation in place in order to revise the payment standards effective January 1, 2019. This emergency administrative regulation will be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to the emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Laura Begin, Phone: (502) 564-3798, Email: Laura.Begin@ky.gov; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes a program for supplemental payments to persons who are aged, blind, or have a disability in accordance with KRS 205.245 and the Mental Illness or Intellectual Disability (MI/ID) Supplement Program.

(b) The necessity of this administrative regulation: The administrative regulation is needed to establish conditions and requirements regarding the State Supplementation Program and the MI/ID Program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the authorizing statutes through its establishment of a

supplemental program of persons who are aged, blind, or have a disability and its compliance with the agreement with the Social Security Administration, formerly a part of the U. S. Department of Health, Education, and Welfare, to maintain the state's eligibility for federal Medicaid funding.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing the eligibility requirements and standards of need for the State Supplemental Program for persons who are aged, blind, or have a disability.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the cost of living adjustment (COLA) to be implemented in calendar year 2019 by the Social Security Administration for Supplemental Security Income (SSI) recipients. The Social Security Administration deemed the COLA to be an increase of 2.8%. In addition, the training requirement is being amended to add serious mental illness, activities of daily living, and adult learning principles to the topics included in the training and to require attendance once every two years rather than every year. The term "specialized personal care home" and references to it are being deleted because they are no longer necessary. The STS-3 and STS-4 forms are being amended for consistency with the regulatory amendment.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the COLA to be implemented in calendar year 2019 by the Social Security Administration for SSI recipients.

(c) How the amendment conforms to the content of the authorizing statutes: 42 U.S.C. 1382 authorizes the cabinet to administer a state funded program of supplementation to all former recipients of the Aid to the Aged, Blind, and Disabled Program as of December 13, 1973, and who were disadvantaged by the implementation of the Supplemental Security Income Program. KRS 205.245 establishes the mandatory supplementation program and the supplementation to other needy persons who are aged, blind, or have a disability. This administrative regulation establishes the provisions of the supplementation program. The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the COLA to be implemented in calendar year 2019 by the Social Security Administration for SSI recipients.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the statutes by passing along the 2019 2.8% COLA for the Supplemental Security Income benefit by modifying the standard of need for all levels of care for the State Supplementation Program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: In SFY 18, there were 3,085 individuals who received State Supplementation Program benefits. As of fall 2018, there are 23 personal care homes participating in the MI/ID Supplement Program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: There is no new action required of regulated entities.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: There is no new action required of regulated entities.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no new or additional cost to the regulated entities.

(c) As a result of compliance, what benefits will accrue to the

entities identified in question (3): A 2.8% increase in the COLA for SSI recipients.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be negligible fiscal impact to the Cabinet for Health and Family Services to implement the mandated COLA pass-through money.

(b) On a continuing basis: There will be negligible fiscal impact to the Cabinet for Health and Family Services to implement the mandated pass-through of the 2019 SSI COLA. Not complying with the federal pass-through mandate would jeopardize the state's federal Medicaid funding.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: General funds and agency funds are used to implement and enforce the State Supplementation Program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees.

(9) TIERING: Is tiering applied? Tiering is not applied because this administrative regulation will be applied in a like manner statewide.

~~(11)(12)~~ If the division director or designee determines, in writing, that delivery prohibition at a UST facility would jeopardize the availability of, or access to, motor fuel in a rural and remote area, the cabinet shall defer the application of delivery prohibition for a UST system for a period not to exceed forty-five (45) days, unless an extension is approved in accordance with Section 22 of this administrative regulation by the division director or designee.

~~(12)(13)~~ This ~~section~~~~[administrative regulation]~~ shall not apply to a regulated UST used to fuel an emergency backup generator.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the scope of the UST program, including provisions for exclusions, registration requirements, annual fees, delivery prohibition, performance standards, operation, and maintenance of UST systems, operator training, walkthrough inspections, requirements for demonstrating financial responsibility for corrective action, compensation of third parties for bodily injury and property damage, and lender liability.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 224.10-100 requires the cabinet to develop and conduct programs that provide for the prevention, abatement, and control of contaminants that may threaten the environment. KRS 224.60-105 requires the cabinet to regulate UST by requiring registration, minimum construction and performance standards, leak detection, recordkeeping, release reporting, corrective action, closure, financial responsibility, and other requirements to protect public health and the environment. KRS 224.60-105 requires the cabinet to establish a regulatory program that implements federal requirements for UST systems. KRS 224.60-150 states that the cabinet shall levy and collect an annual fee of thirty (30) dollars per tank from the owners or operators of USTs for the purpose of funding the administration of

the UST Program. KRS 224.10-100(28) authorizes the cabinet to promulgate administrative regulations not inconsistent with the provisions of law administered by the cabinet.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes requirements for UST systems as required by KRS 224.60-105, and collect annual fees in accordance with KRS 224.60-150.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments will change this existing administrative regulation by clarifying confusing language in the regulation and in the material incorporated by reference, on delivery prohibition, exclusions, and emergency reporting; removing dates intended as the effective date of the regulation; and correcting typographical and organizational mistakes.

(b) The necessity of the amendment to this administrative regulation: This amendment after comments is necessary to make corrections and clarify the regulations according to the comments received.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 224.10-100 requires the cabinet to develop and conduct programs that provide for the prevention, abatement, and control of contaminants that may threaten the environment. KRS 224.60-105 requires the cabinet to regulate USTs by requiring registration, minimum construction and performance standards, leak detection, recordkeeping, release reporting, corrective action, closure, financial responsibility, and other requirements to protect public health and the environment. KRS 224.60-105 requires the cabinet to establish a regulatory program that implements federal requirements for UST systems. KRS 224.60-150 states that the cabinet shall levy and collect an annual fee of thirty (30) dollars per tank from the owners or operators of USTs for the purpose of funding the administration of the UST Program. KRS 224.10-100(28) authorizes the cabinet to promulgate administrative regulations not inconsistent with the provisions of law administered by the cabinet.

(d) How the amendment will assist in the effective administration of the statutes: This amendment establishes requirements for UST systems, implements the federal requirements for UST systems, and establishes registration procedures as required by KRS 224.60-105. In addition, this administrative regulation establishes annual fees as required by KRS 224.60-150.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect the owner and operator of a UST facility, eligible company that contract with that owner or operator, a certified laboratory that processes samples collected at a UST facility, and a certified tank installer/remover. There are 3,216 UST facilities, 58 eligible companies that contract with those owners or operators, 37 certified laboratories that process samples collected at UST facilities, and 228 certified tank installers/removers.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Owners and operators of UST facilities will have to comply with requirements for registration, annual fees, performance standards, compliance testing, operator training, walkthrough inspections, and financial responsibility. Certified installers/removers are responsible for installing UST systems in accordance with this administrative regulation. Other entities identified in question (3) will not have to take any actions as a result of this amendment as it pertains to the owner and operator.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Owners and operators of UST facilities will have an increase in operational testing costs for the new federally

mandated compliance testing for spill containment and overfill prevention. The increase in cost for owners and operators to comply with additional testing is estimated to be \$3,000 every three years. This cost is based on the average UST facility having three (3) tanks. There will also be cost increase estimates ranging from \$1,000 to \$2,500 for the initial overfill prevention testing/replacement, per tank for owners and operators that utilize flow restrictors (ball floats) as their method of overfill protection. Other entities identified in question (3) will not have costs associated as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The benefits to owners and operators include compliance with both the federal and state regulations, and a reduced risk for releases into the environment.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: Initially: There is no cost associated with implementing this amendment.

(a) On a continuing basis: There is no cost associated with implementing this amendment.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation and enforcement of this administrative regulation would be achieved by a combination of tank fees, the PSTeAF, and grants from the U.S. Environmental Protection Agency.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no need for an increase in funding or fees to implement this amendment.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation describes the procedures to submit annual tank fees thirty (30) dollar annual fee on a per tank basis mandated by KRS 224.60-105. This fee, formerly established within 401 KAR 42:200, remains unchanged and has been incorporated in 401 KAR 42:020 as part of the Governor's Red Tape Initiative to reduce and streamline regulations.

(9) TIERING: Is tiering applied? Tiering is not applied. KRS 224.60-150 bases the thirty (30) dollar annual fee on a per tank basis.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will impact any units of state or local government that own or operate a UST facility, as well as the Division of Waste Management.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 224.10-100, 224.60-105, 224.60-150, 40 C.F.R. Part 280, Subparts A, B, C, D, G, H, I, J, K, Part 281, Subpart D, 42 U.S.C. 2011 – 2021, 2022 – 2286i, 2296a – 2297h-13, 6991 – 6991m

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. This administrative regulation will not affect the expenditures and revenues of a state or local government agency as the UST program is already in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will not generate additional revenue for state or local government as the UST program is already in effect. Currently the division receives \$287,700 in tank fees and \$24.2 Million PSTeAF annually, and \$1,925,333 Leaking Underground Storage Tank (LUST) Prevention and LUST Cleanup biennially in federal grants to administer the UST program.

(b) How much revenue will this administrative regulation

generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not generate additional revenue for state or local government as the underground storage tank program is already in effect. However, the division expects to receive \$287,700 in tank fees and \$24.2 Million PSTeAF annually, and \$1,925,333 LUST Prevention and LUST Cleanup biennially in federal grants to administer the UST program for subsequent years.

(c) How much will it cost to administer this program for the first year? The UST program is already in effect and costs \$25.5 Million to administer as a whole, including reimbursement to owners and operators for eligible corrective action costs.

(d) How much will it cost to administer this program for subsequent years? \$25.5 Million, as a whole, including reimbursement to owners and operators for eligible corrective action costs.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): \$1,925,333(biennially) in federal grant funding (LUST Prevention and LUST Cleanup), \$287,700 tank fees, \$24.2 Million PSTeAF.

Expenditures (+/-): \$24.4 Million, as a whole.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 10 C.F.R. Part 50, 40 C.F.R. Part 280, Subparts A, B, C, D, G, H, I, J, K, Part 281, Subpart D, 42 U.S.C. 2011 – 2021, 2022 – 2286i, 2296a – 2297h-13, 6991 – 6991m

2. State compliance standards. KRS 224.10-100, 224.60-105, 224.60-150

3. Minimum or uniform standards contained in the federal mandate. 10 C.F.R. Part 50, 40 C.F.R. Part 280, Subparts A, B, C, D, G, H, I, J, K, Part 281, Subpart D, 42 U.S.C. 2011 – 2021, 2022 – 2286i, 2296a – 2297h-13, 6991 – 6991m

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes. This administrative regulation does impose stricter, additional, or different requirements than those required by the federal regulation, that are currently already in effect. Kentucky requires owners to notify the cabinet prior to an installation of an underground storage tank (UST) or entire piping run and requires documentation supporting the transfer of a UST system if requested. The allowance of upgrading steel tanks that have interior lining as the sole method of corrosion protection was removed. Interior-lined steel tanks that have not been upgraded with external corrosion protection must be permanently closed. Inventory control, vapor monitoring, and groundwater monitoring are not allowed as methods of release detection. Add an allowance for an integrity assessment if not protected from corrosion for more than 365 days. Include an allowance for an alternate approach for UST systems that use flow restrictors (ball floats) as overfill prevention by allowing owners and operators the option to install alternate methods of overfill protection. The amendment after comments does not further add any stricter, additional, or different requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The differences in this administrative regulation are statutory requirements and are consistent with current administrative regulations. The cabinet notification of a UST or entire piping run installation allows for the formal photographic documentation of the components of the UST system as they are being installed. The cabinet may require supporting documentation for UST system ownership to protect the previous UST owner. In the current regulations, Kentucky removed the allowance for interior-lined tanks as the sole method of corrosion protection with a deadline to upgrade with another form of corrosion protection by December 22, 2013. In conjunction with this addition, all interior-lined steel tanks

that have not been upgraded with external corrosion protection were required to be permanently closed. Historically, interior-lined tanks have been associated with catastrophic releases into the environment. Kentucky's current regulation has not allowed inventory control, vapor monitoring, or groundwater monitoring as methods of release detection since April 1, 2012. Historically, these three (3) methods of release detection have not adequately detected releases, and do not have the same level of protectiveness. Kentucky has included an option for the completion of an integrity assessment if not protected from corrosion for more than 365 days. This allows owners and operators to demonstrate compliance with performance standards without having to perform permanent closure. If an owner or operator utilizes flow restrictors (ball floats) as a method of overfill prevention, the owner or operator may install additional overfill prevention devices which will activate prior to the level of the existing flow restrictor, if they are able to do so. This allows the owners and operators the opportunity not to be required to evaluate the existing flow restrictor which may not be easily accessible for evaluation.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will impact state or local governments that own or operate an underground storage tank (UST) facility as well as the Division of Waste Management.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 224.1, 224.1-400(11), 224.10, 224.40, 224.43, 224.46, 224.60, 40 C.F.R. 280, Subparts E, F, G, 40 C.F.R. 281, Subpart D, 42 U.S.C. 6991 – 6991m

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. This administrative regulation will not affect the expenditures and revenues of a state or local government agency as the UST program is already in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will not generate additional revenue for state or local government as the underground storage tank program is already in effect. Currently the division receives \$287,700 in tank fees and \$24.2 Million PSTeAF annually, and \$1,925,333 Leaking Underground Storage Tank (LUST) Prevention and LUST Cleanup biennially in federal grants to administer the underground storage tank program.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not generate additional revenue for state or local government as the underground storage

tank program is already in effect. However, the division expects to receive \$287,700 in tank fees and \$24.2 Million PSTeAF annually, and \$1,925,333 LUST Prevention and LUST Cleanup biennially in federal grants to administer the underground storage tank program for subsequent years.

How much will it cost to administer this program for the first year? The underground storage tank program is already in effect and costs \$25.5 Million to administer as a whole, including reimbursement to an owner and operator for eligible corrective action costs.

(c) How much will it cost to administer this program for subsequent years? \$25.5 Million, as a whole, including reimbursement to an owner and operator for eligible corrective action costs.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): \$1,925,333(biennially) in federal grant funding (LUST Prevention and LUST Cleanup), \$287,700 tank fees, \$24.2 Million PSTeAF.

Expenditures (+/-): \$24.4 Million, as a whole.

Other Explanation:

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 40 C.F.R. 280, Subparts E, F, G, 40 C.F.R. 281, Subpart D, 42 U.S.C. 6991 – 6991m

2. State compliance standards. KRS 224.10-100, 224.60-105, 224.60-137

3. Minimum or uniform standards contained in the federal mandate. 40 C.F.R. 280, Subparts E, F, G, 40 C.F.R. 281, Subpart D, 42 U.S.C. 6991 – 6991m

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes. This administrative regulation does impose additional or different requirements than those required by the federal regulation. Kentucky requires a Professional Engineer (P.E.) or Professional Geologist (P.G.) registered/licensed in the state of Kentucky to certify the assessment reports. Groundwater or vapor monitoring in lieu of an assessment at permanent closure is not an option for an owner and operator.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The current regulation requires a P.E. or P.G. to certify the assessment reports based on the nature of the corrective action work performed, including recommendations and conclusions. Kentucky's current regulation has not allowed inventory control, vapor monitoring, or groundwater monitoring as methods of release detection since April 1, 2012. Historically, these three (3) methods of release detection have not adequately detected releases and do not have the same level of protectiveness as allowed methods of release detection.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Heather Alexander

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the eligibility requirements and rates for reimbursement from the Small Owners Tank Removal Account (SOTRA).

(b) The necessity of this administrative regulation: This administrative regulation is necessary to institute the eligibility requirement and rates for reimbursement from SOTRA.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 224.60-130(1)(j) requires the establishment of an account to reimburse small owners for the reasonable cost of permanent closure, and authorizes the cabinet to promulgate administrative regulations to establish this account. This administrative regulation establishes the eligibility

requirements and rates for reimbursement from the Small Owners Tank Removal Account (SOTRA).

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in administration of the statutes and the underground storage tank (UST) program, implemented by the provisions of KRS 224.60-130(1)(j) by establishing SOTRA to reimburse reasonable costs of a petroleum storage tank removal for small owners.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment after comments will not change the requirements or responsibilities of this administrative regulation. Only one amendment after comments was made to this administrative regulation that removed a date that was intended to be included as the effective date of the regulation.

(b) The necessity of the amendment to this administrative regulation: The necessity of the amendment after comments to this administrative regulation is to remove confusion or redundancy as the promulgation process will determine the effective date of the regulation.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 224.60-130(1)(j) requires the establishment of an account to reimburse small owners for the reasonable cost of permanent closure, and authorizes the cabinet to promulgate administrative regulations to establish this account. This administrative regulation establishes the eligibility requirements and rates for reimbursement from SOTRA.

(d) How the amendment will assist in the effective administration of the statutes: KRS 224.60-130(1)(j) requires the establishment of an account to reimburse small owners for the reasonable cost of permanent closure, and authorizes the cabinet to promulgate administrative regulations to establish this account. This administrative regulation establishes the eligibility requirements and rates for reimbursement from the SOTRA. This amendment is part of the consolidation and streamlining of administrative regulations implementing the underground storage tank program as a part of the Governor's Red Tape Initiative.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect owners and operators of underground storage tank facilities. There are 3,216 UST facilities that are potentially eligible for SOTRA. The SOTRA program is voluntary; therefore the number of entities is dependent upon the level of participation by these entities. The type of entities affected would include individuals, businesses, organizations, state, and local governments that are small owners of USTs. There are approximately thirty (30) SOTRA applications submitted per year.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities identified in question (3) will not have to take any actions as it is a voluntary program.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): This amendment will not cost entities identified in question (3) any funds as it is a voluntary program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question: Benefits for entities in compliance with SOTRA will include reimbursement for expenses incurred during permanent tank closure.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no cost associated with implementing this amendment.

(b) On a continuing basis: There is no cost associated with implementing this amendment.

(6) What is the source of the funding to be used for the

implementation and enforcement of this administrative regulation: Implementation and enforcement of this administrative regulation would be achieved by a combination of tank fees, the Petroleum Storage Tank Environmental Assurance Fund (PSTEAF), and grants from the U.S. Environmental Protection Agency.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no need for an increase in funding or fees to implement this amendment.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees directly or indirectly.

(9) TIERING: Is tiering applied? Tiering is not applied. This administrative regulation applies to all entities that are small owners of USTs, including individuals, businesses, organizations, state and local governments.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will impact state or local governments that own or operate an underground storage tank (UST) facility as well as the Division of Waste Management.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 224.60-130(1)(j).

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. This administrative regulation will not affect the expenditures and revenues of a state or local government agency as the UST program is already in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will not generate additional revenue for state or local government as the UST program is already in effect. Currently the division receives \$287,700 in tank fees and \$24.2 Million Petroleum Storage Tank Environmental Assurance Fund (PSTEAF) annually, and \$1,925,333 Leaking Underground Storage Tank (LUST) Prevention and LUST Cleanup biennially in federal grants to administer the UST program.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not generate additional revenue for state or local government as the underground storage tank program is already in effect. However, the division expects to receive \$287,700 in tank fees, \$24.2 Million PSTEAF annually, and \$1,925,333 LUST Prevention and LUST Cleanup biennially in federal grants to administer the UST program for subsequent years.

(c) How much will it cost to administer this program for the first year? The underground storage tank program is already in effect and costs \$25.5 Million to administer as a whole, including reimbursement to owners and operators for eligible corrective action costs and the reimbursement of tank removals under SOTRA.

(d) How much will it cost to administer this program for subsequent years? \$25.5 Million, as a whole, including reimbursement to owners and operators for eligible corrective action costs and reimbursement of tank removals under SOTRA.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): \$1,925,333(biennially) in federal grant funding (LUST Prevention and LUST Cleanup), \$287,700 tank fees, \$24.2 Million PSTEAF.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Steve Davis, 502-564-9592, SteveD.Davis@ky.gov; or Chase Coffey, (502) 564-6746, CHFSregs@ky.gov; and Laura Begin

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation addresses the nonsubstantive review of certificate of need applications. Nonsubstantive review is an expedited review process granted to certain applications pursuant to KRS 216B.095. 900 KAR 6:075 expands upon the types of applications qualified for nonsubstantive review per the statute.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with the content of the authorizing statutes, specifically KRS 216B.010, 216B.015(18), and 216B.095.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by adding types of certificate of need applications that qualify for nonsubstantive review status and setting forth the procedure for granting nonsubstantive review status and performing the expedited review as well as the procedure for affected parties to request a hearing to dispute the review status or application.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by adding types of certificate of need applications qualified for nonsubstantive review status and setting forth the procedure for granting nonsubstantive review status and performing the expedited review as well as the procedure for affected parties to request a hearing to dispute the review status and/or application.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment will change the existing administrative regulation by revising the identity of the regulating agency to reflect the dissolution of the Office of Health Policy and the Office of Inspector General's adoption of the certificate of need program and by adding a type of ambulance application to the list of type of applications qualified for nonsubstantive review status. Additionally, three (3) categories of nonsubstantive review have been deleted in accordance with 2018 Ky. Acts ch. 143 (House Bill 444), which amended KRS 216B.020 to exempt those categories from certificate of need requirements. The Amended After Comments version amended Section 1 to define "base station" and "satellite location" and amended Section 2(3)(d) to clarify that there shall not be more than one (1) licensed Class I ground ambulance service that has both a license to serve the entire county that the applicant is proposing to serve and that has a base station or satellite station, or both, located in the county that the applicant is proposing to service.

(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to address a public health emergency created by lack of access to Class I ambulances in Kentucky's larger counties. According to a recent (July 2018)

report published by the Pegasus Institute, "Certificate of Need: Kentucky's CON Regulations and Their Impact on Ambulance Care," counties above 50,000 residents have 25.65% fewer ambulance providers (all classes) compared to six (6) other states that either border the Commonwealth or are in the same region. As a result of these findings, the Pegasus Institute's top recommendation to the Commonwealth, which is one (1) of only four (4) states with certificate of need requirements for ambulance providers, is that Kentucky immediately suspend its CON requirements for ground ambulances in counties above 50,000 residents and begin phasing out CON laws in rural counties. This administrative regulation is a more conservative response than the recommendation, as it preserves the certificate of need requirement but provides for nonsubstantive review, which is an expedited review process that gives the applicant proposing the service the presumption that the service is needed and transfers the burden of proof to the affected party opposing the application's proposal. The additional changes to delete the three (3) categories of nonsubstantive review are necessary to comply with 2018 Ky. Acts ch. 143 (House Bill 444), which amended KRS 216B.020 to exempt those categories from certificate of need requirements. Amendments made in the Amended After Comments version are necessary to make changes based on comments received during the public comment process as explained in the Statement of Consideration, filed simultaneously with this Amended After Comments version.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by promulgating an administrative regulation conveying nonsubstantive review status to a specific type of certificate of need application that is necessary to improve access to quality health care in Kentucky and by deleting three (3) categories that are now exempt from certificate of need requirements.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the statutes by revising the identity of the regulating agency to reflect the dissolution of the Office of Health Policy and the Office of Inspector General's adoption of the certificate of need program and by adding a type of ambulance application to the list of type of applications qualified for nonsubstantive review status. The additional changes to delete the three (3) categories of nonsubstantive review are necessary to comply with 2018 Ky. Acts ch. 143 (House Bill 444), which amended KRS 216B.020 to exempt those categories from certificate of need requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects certificate of need applicants proposing Class I ambulance services and affected parties. In 2018 to date, seven (7) applications proposing Class I ambulance services have been filed. Nineteen (19) of Kentucky's 120 counties have more than 50,000 residents. Of these counties, eleven (11) counties have only one (1) Class I ambulance and three (3) counties (McCracken, Laurel, and Warren) only have one (1) Class I ambulance service that is not owned or operated by a public organization.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Certificate of need applications proposing to establish a Class I ambulance provider serving a county with at least 50,000 residents and only one (1) existing ambulance provider that is not owned or operated by a public organization may be submitted during any batching cycle and request nonsubstantive review status.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost to entities to comply with this amendment other than the certificate of need application filing fee,

which is determined using a methodology calculated using the capital expenditure of the proposed service. The certificate of need application filing fee is the same for nonsubstantive review and formal review and is established in a separate administrative regulation, 900 KAR 6:020.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): If an applicant proposes to establish a Class I ambulance service in a county with a population of at least 50,000 and only one (1) other Class I ambulance provider that is not owned or operated by a public organization with a base station, satellite location or both located in the county and that is also licensed to serve the entire county, then that applicant will benefit from nonsubstantive review, be relieved of the formal application batching cycle, have the presumption of need, and have an expedited review process.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: No additional costs will be incurred to implement this administrative regulation.

(b) On a continuing basis: No additional costs will be incurred.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No new funding will be needed to implement the provision of the amended administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No fee or funding increase is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: The administrative regulation does not establish or increase fees.

(9) TIERING: Is tiering applied? Tiering is used as the CON review criteria for applications proposing a Class I ground ambulance service in a county with a population of at least 50,000 and only one (1) existing ambulance provider that is not owned or operated by a public organization and that has a base station, satellite location or both located in the county and that is also licensed to serve the entire county, will be expedited and less rigorous than the review criteria for applications proposing other ambulance services.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation impacts the Office of Inspector General and may impact any government owned or operated ambulance providers if the public organization is in a county with a population of at least 50,000 and only one (1) other Class I ambulance provider in the county, which ambulance provider is not owned or operated by a public organization, with a base station, satellite location or both located in the county and that is also licensed to serve the entire county.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 216B.010, 216B.015(18), and 216B.095.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will generate revenue for a local government only if the government applies to establish a Class I ambulance for a county with a population over 50,000 and with only one (1) Class I provider that is not owned or operated by a public organization with a base station, satellite location or both located in the county and that is also licensed to serve the entire county. If a local government in a county with a population over 50,000 and with only one (1) Class I provider that is not owned or operated by a public organization and with a base station, satellite location or both located in the county and that is also licensed to serve the entire county, applies for certificate of need authority to establish its own Class I ambulance service and the application is approved, that government owned service may generate revenue from fees for ambulance runs as well as a public necessity tax on residents. The amount of revenue will depend on volume, rate of reimbursement, operational costs, and tax if imposed.

(c) How much will it cost to administer this program for the first year? No additional costs will be incurred to implement this administrative regulation.

(d) How much will it cost to administer this program for subsequent years? No additional costs will be incurred to implement this administrative regulation on a continuing basis.

This administrative regulation defines the term "minor political party" and "executive committee" to clarify the statutory definition of caucus campaign committee, as amended by 2018 House Bill 157. (2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the latest version of the political committee registration form and defines terms in compliance with 2018 House Bill 157.

Republican caucus campaign committees in the House and the Senate, as determined by administrative regulations promulgated by the registry. Amendment to the administrative regulation is necessary to define the terms "executive committee" and "minor political party" and to provide a means for registration of executive committees and contributing organizations.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) by promulgating an administrative regulation to carry out the provisions of KRS Chapter 121. (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The Registry will provide the new form, both in hard copy format and electronically, to the regulated entities. All training materials will be updated to reflect the new form.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is anticipated to be incurred by regulated entities as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The change to the administrative regulation will provide a clear means for a minor political party to register a caucus campaign committee, as provided in 2018 House Bill 157, and provides a means for registration by executive committees and contributing organizations.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Dennis

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation amends and updates the current waiver from filing candidate election finance statement form. The updated form is reformatted, includes lines on which the candidate can include an electronic mail address, and has signature lines for both the candidate for Governor and candidate for Lieutenant Governor in the event a gubernatorial slate chooses to register a campaign committee.

(b) The necessity of this administrative regulation: KRS 121.120(1)(g), 121.120(4), and 121.180(9) require the Registry to promulgate this administrative regulation. KRS 121.180(9) relieves a candidate or slate of candidates of the duty personally to file reports and keep records of receipts and expenditures if the candidate or slate of candidates states in writing that he or she agrees to certain conditions with respect to campaign funds received by the campaign of the candidate or slate. This regulation prescribes the form for a candidate to exercise the waiver from filing candidate election finance statements, as required by KRS 121.120(1)(g) and (4).

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation specifically conforms to the provisions of KRS 121.120(1)(g), as it promulgates an administrative regulation to carry out the provisions of Chapter 121, and KRS 121.120(4), as it prescribes a form for candidates and slates to file in order to be relieved personally of the duty to file reports and keep records of receipts and expenditures as set forth in KRS 121.180(9).

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation assists in the effective administration of the reporting requirements under KRS 121.180, as it provides a means for a candidate or slate of candidates to request a waiver from filing candidate election finance statements, as provided by KRS 121.180(9).

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative

regulation: This amendment updates the latest version of the waiver from filing candidate election finance statement form. The amended form includes signature lines for both members of a gubernatorial slate and provides blanks for a candidate or slate of candidates to include an electronic mail address for contact purposes.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the Registry to adopt official forms. KRS 121.180(9) permits a candidate or slate of candidates to be relieved of the duty personally to file election finance statements and keep records of receipts and expenditures, provided that certain conditions are met as set forth in the statute. The candidate or slate must indicate in writing or on a form provided by the Registry that he, she, or they (in the case of a slate) will conform to certain conditions spelled out in KRS 121.180(9) in order to be personally exempt from the reporting and recordkeeping requirements of the campaign finance regulation.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) as the Registry is authorized to promulgate administrative regulations to carry out the provisions of KRS Chapter 121. The administrative regulation also conforms to KRS 121.120(4), by prescribing a necessary form for a candidate or slate of candidates to state in writing the intent to comply with the requirements of KRS 121.180(9). Finally, the regulation incorporates the terms of KRS 121.180(9), thereby providing a means for a candidate or slate of candidates to agree to the conditions of the statute permitting a candidate to be exempt from reporting and recordkeeping requirements so long as these conditions are met by the candidate or slate of candidates.

(d) How the amendment will assist in the effective administration of the statutes: This amendment updates the waiver from filing candidate election finance statement form so that a slate of candidates only has to file one (1) waiver form instead of two (2) waiver forms. The amended form also provides a means for a candidate or slate of candidates to provide electronic mail address information so that the Registry may more quickly and efficiently contact the campaign regarding regulatory requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All candidates and slate of candidates who authorize a campaign committee are required to complete this form to request a waiver from filing election finance statements as required by KRS 121.180(9).

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The Registry will provide the new form, both in hard copy format and electronically, to the regulated entities. All training materials will be updated to reflect the new form.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost is anticipated to be incurred by regulated entities as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The change to the administrative regulation will provide a slate of candidates the means to file a single form to request a waiver from filing candidate election finance statement and allows candidates and slates of candidates a means to provide the Registry with an electronic mail address so the Registry may more efficiently contact candidates and slates.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Initial costs to implement the administrative regulation are estimated to be no more than \$5,000.

(b) On a continuing basis: Ordinary printing costs are anticipated in the Registry's budget.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

Registry budget funding will be used for implementation and enforcement.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this amendment to an existing administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation establishes no fees either directly or indirectly.

(9) TIERING: Is tiering applied? No, tiering is not applied because the provisions of this administrative regulation apply equally to all candidates who choose to request a waiver from reporting and recordkeeping requirements under KRS 121.180(9).

1. A Change of Option Following Termination of Marriage form, if the participant wants to change his or her retirement option, which shall be done within sixty (60) days of the final divorce decree;

2. A Change of Retirement Beneficiary form, if the participant had chosen retirement Option I or Option II and does not want to change his or her retirement option, but wants to name a new beneficiary;

3. A Designation of Beneficiary for TRS Life Insurance Benefit form, if the participant wants to designate a beneficiary other than his or her estate; or

4. A W-4P Withholding Certificate for Pension or Annuity Payments[-] or "W-4P", if the participant wants to change the amount of federal tax withheld from his or her retirement benefit; or

(b) If the participant is an active member, he or she shall request:

1. A Designation of Beneficiary for TRS Retirement Account Balance form, if the participant wants to designate a beneficiary other than his or her estate; or

2. A Designation of Beneficiary for TRS Life Insurance Benefit form, if the participant wants to designate a beneficiary other than his or her estate.

(2) Thirty (30) days prior to filing the QDRO with TRS, the participant or alternate payee shall present a written request for benefits information for divorce purposes. The participant, alternate payee, or third party, including the party's legal counsel, shall provide a completed TRS Authorization for Release of Information form with the request.

(3) For a QDRO directed to an active account from which a participant is not currently receiving a retirement allowance, TRS may, for the current fiscal year, provide the unaudited salary

information electronically submitted to TRS by the participant's employer upon receipt of the written request and release.

(4) If the QDRO is directed to an account from which the participant is not currently receiving a retirement allowance, TRS shall not project future earnings or future service. TRS shall provide:

(a) The participant's total accrued service credit, including service credit purchased during the marriage, and the member account balance, including the total amount of accrued contributions and interest, as posted at the end of each fiscal year during the marriage and for which an employer annual report has been received by TRS and for which the member has not received a refund; and

(b) An estimate of the monthly retirement allowance the participant would receive if the participant retired without a statutory reduction of the basic retirement allowance based upon the participant's final compensation and total accrued service credit as of the date of dissolution of marriage or receipt of the request for information.

(5) If the participant has retired, TRS shall provide the amount of the participant's monthly retirement allowance, the participant's accumulated account balance at retirement, the total retirement allowance received to date, and the participant's total accrued service credit, including any service credit purchased during the marriage. The parties, their legal counsel, or the court may use the information to decide what portion of the participant's account is marital. TRS shall not decide whether, or if, any portion of the participant's account is marital and potentially subject to division.

(6) The participant, alternate payee, or legal counsel shall submit a Qualified Domestic Relations Order to Divide Teachers' Retirement System Benefits form to TRS for review forty-five (45) days prior to filing the QDRO with the court. If more than one (1) of the participant's accounts is subject to classification and division as marital property, a separate QDRO shall be issued for each TRS account.

(7) TRS shall not review the QDRO unless it is accompanied by the following:

(a) The TRS Administrative Regulatory Compliance form, or the draft QDRO, which has been approved by the:

- 1. Participant or legal counsel; and
- 2. Alternate payee or legal counsel;

(b) A \$300 nonrefundable processing fee, by certified check or on the attorney's trust account, made payable to the Kentucky State Treasurer, except that a processing fee shall not be charged for a QDRO issued solely for child support;

(c) The TRS Confidential Information form, which shall include the participant's and alternate payee's address, Social Security number, and date of birth;

(d) Copies of the participant's and alternate payee's signed Social Security cards;

(e) TRS Authorization for Direct Deposit form; and

(f) Any other documents that are required to confirm additional service credit purchased, or sought to be purchased, for retirement calculation purposes under KRS 161.220 through 161.716, including TRS Military Service Certification and Affidavit form, with a copy of the discharge papers.

(8) Within twenty (20) days of receipt of the QDRO, TRS shall notify the participant and alternate payee in writing whether the QDRO meets TRS requirements. If the QDRO meets TRS requirements, TRS shall approve the QDRO and circulate an original, signed QDRO for signature by the participant and alternate payee for submission to the court. If the participant or alternate payee is represented by legal counsel, the approved QDRO shall instead be provided to their legal counsel for signature by counsel and submission to the court. TRS shall forward a W-4P Withholding Certificate for Pension or Annuity Payments form to the alternate payee.

(9) If the QDRO does not meet TRS requirements, TRS shall notify the participant and alternate payee in writing, identifying those provisions which are not in compliance and the amendments needed to bring the QDRO into compliance. If the participant or alternate payee is represented by legal counsel, this notice shall instead be provided to their legal counsel. The amended QDRO

shall be submitted to TRS for review and approval prior to filing with the court.

(10) TRS shall reject any QDRO entered by a court that has not been reviewed or approved by TRS prior to its submission to the court. TRS shall notify the participant, the alternate payee, or their legal counsel, and the court in writing, identifying those provisions that are not in compliance and the amendments needed to bring the QDRO into compliance before it shall be accepted by TRS.

(11) If the QDRO is subsequently amended before filing with the court, the amended QDRO shall be resubmitted to TRS with a \$150 nonrefundable processing fee for review and approval.

(12) Following approval by the court, the participant, alternate payee, or legal counsel shall file a certified copy of the QDRO with TRS.

(a) The QDRO shall not become effective until the certified copy is received by TRS.

(b) Upon receipt of the certified copy, TRS shall designate the participant's account for implementation of the QDRO.

(c) While a separate account balance shall not be maintained for the alternate payee, a separate payroll account shall be established.

(d) If the participant is a retired member, payments to the alternate payee shall commence in the calendar month following the date that a certified copy of the QDRO is received by TRS, if the alternate payee has supplied a correctly executed W-4P form. If the alternate payee either fails to return the W-4P or does not correctly execute the form, TRS shall apply the IRS default option of married with three (3) exemptions, which results in no withholding of federal tax. If the Alternate Payee chooses a different option and then provides a correctly executed W-4P, future payments shall be adjusted.

(e) If the participant is an active member, payments to the alternate payee shall commence in the calendar month in which the participant begins to receive a monthly annuity, if the alternate payee has provided his or her current address, a correctly executed W-4P and banking information as required by subsection (15) of this section. If the alternate payee either fails to return the W-4P or does not correctly execute the form, TRS shall proceed in the same manner as described in paragraph (d) of this subsection.

(f) If the participant is an active member who withdraws from service prior to eligibility for retirement and requests a refund of his or her accumulated account balance, the provisions of 102 KAR 1:060, setting forth the requirements for processing payment of the refund to the participant and the alternate payee, shall be followed. If the parties fail to designate the alternate payee's share of a refund in the QDRO, TRS shall refund the entire participant's account to the participant in accordance with the provisions of this administrative regulation and 102 KAR 1:060, and TRS and its staff shall have no liability for making the refund in this manner.

(13) If TRS is enforcing a QDRO that is subsequently amended or terminated by the court, then either the participant, alternate payee, or legal counsel shall submit a certified copy of the amended QDRO or order of termination to TRS for processing.

(14) The participant, alternate payee, or legal counsel shall not submit a QDRO that is not final and under consideration by an appellate court.

(15) The alternate payee shall be responsible for notifying TRS of any change in name, mailing address, or banking information.

(a) TRS shall provide a Name or Change of Address form or Authorization for Direct Deposit form upon request.

(b) TRS shall contact the alternate payee at the last known mailing address on file to notify the alternate payee when an annuity benefit subject to the QDRO becomes payable.

(c) Other than sending a notice as established in paragraph (b) of this subsection, TRS shall have no duty or responsibility to search for, or locate, the alternate payee.

(d) If the notification sent to the alternate payee's last known address is returned due to the alternate payee's failure to notify TRS of an address change or if the bank notifies TRS that the alternate payee's account has been closed, within sixty (60) days of the return of the notification to the alternate payee or receipt of notification from the bank, the amounts otherwise payable to the

alternate payee shall be paid to the participant until a new address or bank account information is provided by the alternate payee.

(e) TRS shall have no liability to the alternate payee with respect to amounts paid to the participant.

(16) The participant shall be responsible for notifying TRS in writing of an event that causes benefit payments to the alternate payee spouse, child, or other dependent to cease.

(a) The participant shall provide TRS with a certified copy of the alternate payee's death certificate or marriage certificate. TRS shall suspend payments due the alternate payee provided that submission of proof of the death or marriage of the alternate payee, if marriage terminates payments under the terms of the QDRO, is received by the beginning of the month following receipt of the participant's written notification.

(b) The alternate payee shall also be responsible for notifying TRS in writing of the alternate payee's remarriage if, under the terms of the QDRO, that is an event that terminates the alternate payee's right to receive any payments.

(c) TRS shall not be responsible for payments made to the alternate payee until it is given timely written notice and documentation of any event terminating those payments.

Section 4. A QDRO may apply to a participant's:

- (1) Retirement allowance;
- (2) Disability retirement allowance; or
- (3) Termination refund.

Section 5. A QDRO shall not apply to a participant's:

- (1) Survivor annuity that becomes payable after the member's death;
- (2) Survivor benefits that become payable after an active contributing member's death;
- (3) Accounts that are not vested at the time of the dissolution of marriage;
- (4) Life insurance benefit;
- (5) Refund as a result of an error;
- (6) Refund of an active or retired account in response to a member's death;
- (7) Health insurance; and
- (8) Any other payment or benefit not described in Section 4 of this administrative regulation.

Section 6. If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant's annuity benefits and dies before the participant dies, retires, or withdraws his account, the entire remaining account value shall be restored to the participant.

Section 7. Calculation and Payment.

(1)(a) If the participant has retired, the portion of the participant's benefits payable to the alternate payee as a percentage of the participant's total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated by the following fraction:

1. The numerator of which shall be the participant's total full and fractional years of creditable TRS service earned during the marriage, including service credit purchased during the marriage; and

2. The denominator of which shall be the participant's total full and fractional years of TRS service credit through the date of retirement.

(b) The resulting fraction shall be converted to a percentage that shall be divided by two (2).

(c) Option C may be utilized if the duration of the retired participant and the alternate payee's marriage was less than the participant's total full and fractional years of TRS service at the date of retirement. The parties or their legal counsel shall report the marital years in Option C of the QDRO.

(2)(a) For an active account, the portion of the participant's benefits payable to the alternate payee as a percentage of the

participant's total service retirement allowance, disability retirement allowance, or refundable account balance, accrued through the date of dissolution of marriage, that is in excess of the retirement benefits of the alternate payee as provided under KRS 403.190(4), shall be calculated by the following fraction:

1. The numerator of which shall be the participant's total full and fractional years of creditable TRS service earned during the marriage, including service credit purchased during the marriage, as reported by the parties or their legal counsel in Option C of the QDRO; and

2. The denominator of which shall be the participant's total full and fractional years of TRS service credit as determined by TRS at the time that the participant retires either by service retirement or disability retirement or requests a refund of his or her account balance.

(b) The resulting fraction shall be converted to a percentage that shall be divided by two (2).

(3) If the participant is or will be receiving a disability retirement allowance, the participant's total annuity benefit for purposes of this administrative regulation shall be calculated under the service retirement formula established under KRS 161.661(5), even if the entitlement period described under KRS 161.661(3) and (4) has not expired.

(4) If an alternate payee has, under the terms of the QDRO, been awarded a share of the participant's disability retirement allowance that is subsequently discontinued, the alternate payee shall not receive a benefit. Further, if a participant remains disabled at the end of his or her entitlement period, pursuant to KRS 161.661(5), the disability benefits shall be recalculated and may result in a lower monthly payment to both the participant and the alternate payee.

(5) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, the participant's total annuity benefit shall be calculated without inclusion of the discounts required under KRS 161.620(1)(b) and (d).

(a) If at retirement the participant is subject to discounts required under KRS 161.620(1)(b) and (d), and if the QDRO establishes a set dollar amount to be withheld from the retirement benefits that are payable to the participant and to be paid to the alternate payee, TRS shall reduce the amount to be paid to the alternate payee under the QDRO by the amount of the discounts.

(b) TRS shall increase the amount paid to the alternate payee in amount equal to any discounts that are subsequently eliminated as the result of the participant's return to work after retirement under the provisions of KRS 161.605(11), upon the participant's resumption of receipt of retirement benefits.

(6) If the QDRO is directed to an account from which the participant is not receiving a retirement allowance, and the participant at issuance of the QDRO is not eligible for calculation of his total annuity benefit based on his three (3) highest salaries as provided under KRS 161.220(9), then his total annuity benefit shall be calculated on his five (5) highest salaries.

(7) The participant may select any retirement option.

Section 8. Any person who attempts to make TRS a party to a domestic relations action in order to determine an alternate payee's right to receive a portion of the annuity benefits payable to the participant shall be liable to TRS for its costs and legal fees.

(1) Provide a brief summary of:

(a) What this administrative regulation does: Establishes the requirements, procedures and forms for the approval and processing of qualified domestic relations orders (QDRO) by Teachers' Retirement System (TRS).

(b) The necessity of this administrative regulation: This administrative regulation establishes and ensures compliance with the requirements of KRS 161.700.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by (1) setting forth the procedures and timelines to be followed in filing a QDRO with TRS, (2) setting the filing fees, (3) providing the formula for calculating the amount to be paid to the alternate payee, and (4) incorporating the forms required by TRS.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the statutes by informing TRS participants, their alternate payees, legal counsel and the courts what is required to expedite approval and implementation of a QDRO.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendments (1) clarify which option will be utilized

to pay the alternate payee recurring monthly payments, (2) for an active, contributing participant, require the parties to state whether the alternate payee will receive a share in a participant's termination refund as either a set dollar amount or a percentage, and (3) put the parties on notice that if they fail to designate the alternate payee's share in a termination refund, TRS shall have no liability for refunding accumulated contributions to the participant.

(b) The necessity of the amendment to this administrative regulation: To place the parties on notice of the necessity of not only choosing an option for the recurring monthly annuity payments, but for ensuring that when the participant is in active, contributing status, an option is chosen the alternate payee's share of a termination refund.

(c) How the amendment conforms to the content of the authorizing statutes: The amendments to the administrative regulation and the QDRO form clarify that in a divorce involving an active, contributing participant, an option for both a recurring monthly payment and the share of a termination refund must be chosen.

(d) How the amendment will assist in the effective administration of the statutes: TRS will not be left in the untenable position of how to process a refund application if the parties have chosen an option for a recurring monthly payment but failed to designate what portion of a termination refund an alternate payee shall receive, thus delaying processing of both the QDRO and the refund request.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Participants and alternate payees of participants of TRS who subject to a QDRO.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Alternate payees will be permitted access to participant's retirement benefits and termination refunds.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There is no cost to implement this regulation.

(b) On a continuing basis: Continuing costs will be determined by the number of QDROs filed with TRS and cannot be quantified at this point.

(6) What is the source of funding to be used for the implementation and enforcement of this administrative regulation: Administrative expenses of TRS incurred in processing QDROs will be paid via the processing fees.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no increase in fees or funding required.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This regulation does not establish any fees or directly or indirectly increase any fees.

b. The consultation shall be obtained from a physician who is certified by the American Board of Addiction Medicine, the American Board of Medical Specialties (ABMS) in psychiatry, or an American Osteopathic Association (AOA) certifying board in addiction medicine or psychiatry or from an obstetrician or maternal-fetal medicine specialist[who is also qualified to prescribe buprenorphine].

(iii) The prescribing or dispensing physician shall see the patient in shorter intervals if the patient demonstrates any noncompliance with the treatment plan.

c. If extenuating circumstances arise that require a patient to

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 15 U.S.C. 6304; 6305(a), (b)

2. State compliance standards. Those wishing to participate in boxing must submit an application to obtain a boxing identification card that is valid for four years. The boxer must also submit an application for licensure and a physical from a physician who certifies that the boxer is physically fit to compete. Moreover, no boxing match may occur unless a physician is continuously ringside and an ambulance and resuscitation equipment is on-site. Boxers must also be provided with health insurance.

3. Minimum or uniform standards contained in the federal mandate. 15 U.S.C. 6304 requires that every boxer undergo a physical examination and be certified by a physician to be physically fit to compete safely in a match. The law also requires an ambulance or resuscitation equipment to be onsite at all boxing matches and for a physician to be present at ringside. Finally, health insurance is required for each boxer. 15 U.S.C. 6305 requires a boxer to register with the boxing commission in the boxer's state of residence. That state must issue a federal boxing identification card to the boxer.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification or the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Cindy Stinnett

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes requirements and rules for kickboxing shows authorized by the Kentucky Boxing and Wrestling Commission.

(b) The necessity of this administrative regulation: This regulation is necessary to establish boxing and kickboxing show requirements and to carry out the commission's mandate to ensure licensees have the ability to compete without the risk of serious physical injury.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms with KRS 229.171, which grants the commission authority to regulate unarmed combat shows and exhibitions. KRS 229.171 also authorizes the commission to promulgate rules and regulations it considers necessary or expedient for the performance of its functions as provided in KRS Chapter 229. KRS 229.055 authorizes the commission to impose time limits on rounds and requires show promoters to file contracts with the commission.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes requirements and rules that will govern boxing and kickboxing shows authorized by the commission pursuant to KRS Chapter 229 and 201 KAR Chapter 27. It also sets requirements that provide for the safety of participants.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment requires boxing and kickboxing licensees to provide the Commission with HIV antibody, Hepatitis B antigen, and Hepatitis C antigen tests at least forty-eight (48) hours prior to participation in an event, up from twenty-four (24) hours. The results of such tests must now be no more than 365 days old, previously limited to 180 days. The amendment also modifies the use of a standing eight (8) count to be at the referee's discretion, establishes a minimum of three (3) and maximum of five (5) judges, and eliminates the mandatory seven (7) day rest period following competition in an event. The amendment also requires the final approved card for a show to comprise a minimum of five (5) complete bouts, no later than two (2) business dates prior to the show date.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to enable the Commission to provide better services and safety for its licensees.

The Commission grants approximately 1,250 total licenses in a year.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Boxing and kickboxing participants will have to submit their test results 48 hours prior to an event rather than 24. However, the results may now be as old as 365 days instead of 180 days. Referees will now have discretion regarding the use of a standing 8 count, and participants will no longer be subject to an automatic 7-day rest period.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Licensed unarmed combat participants will not have any additional costs to comply with this administrative regulation – the same tests are required, but they must be submitted to the commission an additional 24 hours in advance of participation in an event.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The proposed amendments enhance the safety of fighters and increase referee discretion to the benefit of all licensees and participants in boxing and kickboxing shows.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no initial cost to implement this administrative regulation.

(b) On a continuing basis: There is no ongoing cost to implement this administrative regulation.

(6) What is the source of the funding to be used for implementation and enforcement of this administrative regulation? There is no additional cost associated with the implementation and enforcement of this amendment.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding are required for the implementation of this amendment.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: There is no increase in fees.

(9) TIERING: Is tiering applied? Tiering is not applied because all licensing requirements are for the health and safety of the licensees and fees are consistent between the license types.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 15 U.S.C. 6304; 6305(a), (b)

2. State compliance standards. Those wishing to participate in boxing must submit an application to obtain a boxing identification card that is valid for four years. The boxer must also submit an application for licensure and a physical from a physician who certifies that the boxer is physically fit to compete. Moreover, no boxing match may occur unless a physician is continuously ringside and an ambulance and resuscitation equipment is on-site. Boxers must also be provided with health insurance.

3. Minimum or uniform standards contained in the federal mandate. 15 U.S.C. 6304 requires that every boxer undergo a physical examination and be certified by a physician to be physically fit to compete safely in a match. The law also requires an ambulance or resuscitation equipment to be onsite at all boxing matches and for a physician to be present at ringside. Finally, health insurance is required for each boxer. 15 U.S.C. 6305 requires a boxer to register with the boxing commission in the boxer's state of residence. That state must issue a federal boxing identification card to the boxer.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification or the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Cindy Stinnett

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes requirements and rules for mixed martial arts shows authorized by the Kentucky Boxing and Wrestling Commission.

(b) The necessity of this administrative regulation: This regulation is necessary to establish mixed martial arts show requirements and to carry out the commission's mandate to ensure licensees have the ability to compete without the risk of serious physical injury.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms with KRS 229.171, which grants the commission authority to regulate unarmed combat shows and exhibitions. KRS 229.171 also authorizes the commission to promulgate rules and regulations it considers necessary or expedient for the performance of its functions as provided in KRS Chapter 229. KRS 229.055 authorizes the commission to impose time limits on rounds and requires show promoters to file contracts with the commission.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes requirements and rules that will govern mixed martial arts shows authorized by the commission pursuant to KRS Chapter 229 and 201 KAR Chapter 27. It also sets requirements that provide for the safety of participants.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment clarifies that the approval of a bout does not signify approval of every participant; such approval remains contingent upon individual physicals. The amendment requires mixed martial arts licensees to provide the Commission with HIV antibody, Hepatitis B antigen, and Hepatitis C antigen tests at least forty-eight (48) hours prior to participation in an event, an increase from the current twenty-four (24) hours. The results of such tests must now be no more than 365 days old, previously limited to 180 days. The amendment also updates permissible weight for the light heavyweight, heavyweight, and super heavyweight classes and eliminates the mandatory seven (7) day rest period following competition in an event. The amendment also requires the final approved card for a show to comprise a minimum of five (5) complete bouts, no later than two (2) business days prior to the show date.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary for the Commission to provide better services and safety for its licensees under KRS Chapter 229.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms with KRS 229.171, which grants the Commission authority to control and manage shows and exhibitions.

(d) How the amendment will assist in the effective administrative of the statutes: This amendment enables the commission to provide better services to its licensees under KRS Chapter 229.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation impacts commission licensees and applicants seeking to participate in mixed martial arts shows. The Commission grants approximately 1,250 total licenses in a year.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Mixed martial arts participants will have to submit their test results 48 hours prior to an event rather than 24. However, the results may now be as old as 365 days instead of 180 days. Additionally, participants will no longer be subject to an automatic 7-day rest period.

(b) In complying with this administrative regulation or

amendment, how much will it cost each of the entities identified in question (3): Licensed unarmed combat participants will not have any additional costs to comply with this administrative regulation – the same tests are required, but they must be submitted to the commission an additional 24 hours in advance of participation in an event.

RELATES TO: KRS Chapter 217B, 7 U.S.C. 136

STATUTORY AUTHORITY: KRS 217B.050, 217B.060

NECESSITY, FUNCTION, AND CONFORMITY: KRS 217B.050 requires the Department of Agriculture to promulgate administrative regulations to implement the provisions of KRS Chapter 217B. KRS 217B.060 authorizes the department to establish classifications of pesticide licenses. This administrative regulation establishes a system of certification for persons required to be licensed or certified under KRS Chapter 217B.

Section 5. Specific Standards of Competency. In addition to meeting the requirements of Sections 3 and 4 of this administrative regulation, persons requesting certification for a specific category shall demonstrate competence relating to that category as follows:

(1) Category 1. Agricultural. This category shall be subdivided as follows:

(a) Plant and animal. Persons requesting agricultural plant and animal certification shall demonstrate practical knowledge of crops and specific pests of those crops for which they may be using pesticides. Practical knowledge shall be required concerning soil and water problems, preharvest intervals, reentry intervals, phytotoxicity, potential for environmental contamination, nontarget injury, and community problems resulting from the use of pesticides in agricultural areas. They shall demonstrate practical knowledge of agricultural animals and their associated pests. A practical knowledge shall also be required concerning specific pesticide toxicities and residue potentials since host animals will frequently be used for food. Further, the person shall know the relative hazards associated with such factors as formulation, application techniques, age of animals, stress, and extent of treatment.

(b) Agricultural fumigation. This category shall include persons requesting agricultural fumigation certification. They shall demonstrate practical knowledge of the use of pesticide gases and fumigants in the treatment of enclosed areas used for the production, storage, or transportation of agricultural commodities and the use of pesticide gases and fumigants in preparing land for the production of agricultural commodities and for the control of pests in growing agricultural commodities.

(2) Category 2. Forestry. Persons requesting forest certification shall demonstrate practical knowledge of types of forests, forest nurseries, seed production in the Commonwealth, and the pests involved therein. They shall possess practical knowledge of the cyclic occurrence of certain pests and their specific population dynamics as a basis for programming pesticide applications. A practical knowledge shall be required of the relative biotic agents and their vulnerability to the pesticides to be applied. Because forest stands may be large and frequently include natural aquatic habitation and harbor wildlife, the consequences of pesticide use may be difficult to assess. The applicator shall, therefore, demonstrate practical knowledge of control methods which will minimize the possibility of secondary problems such as unintentional effects on wildlife. Proper use of specialized equipment shall be demonstrated, especially as it may relate to meteorological factors and adjacent land use.

(3) Category 4. Seed treatment. Persons requesting seed treatment certification shall demonstrate practical knowledge of the types of seeds that require chemical protection against pests and factors such as seed coloration, carriers, and surface active agents which influence pesticide binding and may affect germination. They shall demonstrate practical knowledge of the hazards associated with handling, sorting, mixing, misuse of treated seed such as introduction of treated seed into food and feed channels, and proper disposal of unused treated seeds.

(4) Category 5. Aquatic. Persons requesting aquatic certification shall demonstrate practical knowledge of the secondary effects which can be caused by improper application rates, incorrect formulations, and faulty application of pesticides used in this category. They shall demonstrate practical knowledge of various water-use situations and potential pesticide effects on plants, fish, birds, beneficial insects, and other organisms which may be present in aquatic environments. They shall also demonstrate practical knowledge of the principles of limited-area application.

(5) Category 6. Right-of-way. Persons requesting right-of-way certification shall demonstrate practical knowledge of a wide variety of environments since rights-of-way can traverse many different terrains, including waterways. They shall demonstrate practical knowledge of problems of run-off, drift, excessive foliage destruction, and the ability to recognize target organisms. They

shall also demonstrate practical knowledge of the nature of herbicides, the need for containment of these pesticides within the right-of-way area, and the impact of their application activities upon the adjacent areas and communities. ~~[(6) Category 9. Regulatory. Persons applying for certification in this category shall demonstrate practical knowledge of regulated pests, applicable laws relating to quarantine and other regulation of pests, and the potential impact on the environment of pesticides used in suppression and eradication programs. They shall demonstrate knowledge of factors influencing introduction, spread, and population dynamics of relevant pests. Their knowledge shall extend beyond that required by their immediate duties since their services are frequently required in other areas of the country where emergency measures are invoked to control regulated pests and where individual judgments must be made.]~~

~~[(7)]~~ Category 10. Demonstration and research. Persons demonstrating the safe and effective use of pesticides to other persons and the public shall meet comprehensive standards reflecting a broad spectrum of pesticide use. Practical knowledge of problems, pests, and population levels occurring in each demonstration situation shall be required. Further, they shall demonstrate an understanding of pesticide-organism interactions and the importance of integrating pesticide use with other control methods. In general, persons conducting demonstration pest control work shall possess a practical knowledge of all of the standards detailed in this administrative regulation.

~~[(7)]~~ Category 11. Aerial certification. Persons applying pesticides using aircraft shall obtain aerial certification. Aerial applicators shall possess knowledge of aerial application equipment and calibration of that equipment, spray efficiency testing, field flight patterns, swath markings, turning procedures and subsequent considerations, awareness of obstacles and obstructions, personal safety of pilot, flagman, and ground crew, and preflight checklists of spray personnel. Persons obtaining certification in this category shall also be certified in at least one (1) other category of pesticide use as appropriate for their business.

~~[(8)]~~ Category 12. Pesticide sales agent. GENERAL GOVERNMENT CABINET Department of Agriculture Office of Consumer and Environmental Protection (Amendment)

302 KAR 28:050. Certification.

RELATES TO: KRS Chapter 217B, 7 U.S.C. 136

STATUTORY AUTHORITY: KRS 217B.050, 217B.060

NECESSITY, FUNCTION AND CONFORMITY: KRS 217B.050 requires the Department of Agriculture to promulgate administrative regulations to implement the provisions of KRS Chapter 217B. KRS 217B.060 authorizes the department to establish classifications of pesticide licenses. This administrative regulation establishes a system of certification for persons required to be licensed or certified under KRS Chapter 217B.

Section 1. Applicability.

(1) A person shall not be licensed to sell or apply pesticides unless they are[he-is] certified in a category consistent with the sale or application. A person shall not purchase restricted use pesticides unless he or she is licensed or certified in a category consistent with the purchase.

(2) A pesticide operator, pesticide applicator, noncommercial applicator, or private applicator shall not apply any pesticide unless he or she is certified in a category consistent with the application, as provided in this administrative regulation, with the exception of a registered trainee acting under the direct on the job supervision of a certified person.

(3) The department may, after payment of all applicable fees, waive the certification requirement and issue a license to any person who holds a valid license in another state if the person is employed by a dealer registered in Kentucky and if, in the opinion of the department, the other state's requirements are substantially similar to that of Kentucky and the other state agrees to reciprocate with Kentucky.

Section 2. Certification.

(1) Certification may be obtained from the department as a pesticide operator, noncommercial applicator, pesticide applicator, or pesticide sales agent pursuant to Section 3 of this administrative regulation, in the following categories of pesticide use or application:

(2) Category 3. Ornamental and lawn care. This category shall include persons applying pesticides or fertilizer to control insects, weeds, and diseases in residential and commercial lawns, and maintenance of ornamental trees, shrubs and flowers, including the control of pests that do not normally invade structures, such as bagworms, grubs, and moles. Certification in this category shall not qualify an applicator to make applications to sports turf or golf courses.

(3) Category 12. Pesticide sales agent. This category shall include any individual who sells or distributes restricted use pesticides or any individual who sells and makes recommendations for the use and application of pesticides to the final user. Category 12 certification as a pesticide sales agent under this administrative regulation shall meet the requirements of Category 12 certification under 302 KAR Chapters 27 and 29. Persons taking orders or explaining service programs without naming or making recommendations for pesticide use shall be excluded from certification, if the person selling or distributing pesticides is licensed as a pesticide sales agent.

(4) Category 18. Golf course. This category shall include persons who apply pesticides or fertilizer to land on which turf and ornamental care is done for the purpose of preparing the land for use in the game of golf.

(5) Category 19. Interior Plantscapes. This category shall include persons using pesticides to control insects, weeds, and diseases in or on interior plantscapes, regardless of who owns the plants.

(6) Category 20. Sports turf. This category shall include persons applying pesticides to control insects, weeds, and diseases to or on turf on which sports activities occur. Certification in this category shall not qualify an applicator to make applications to golf courses.

Section 3. General Requirements. To obtain certification, a person shall take and pass, with a minimum score of seventy (70) percent, a certification examination in the category or categories in which certification is requested. Competency in the use and handling of pesticides shall be determined and based upon standards established in Sections 4 and 5 of this administrative regulation. The examination and testing shall include the general standards applicable to all categories and the additional standards specifically identified for each category or subcategory in which a person desires to be certified. A person shall pay an initial certification examination fee of twenty-five (25) dollars. For persons testing in multiple categories, there shall be an additional examination fee of ten (10) dollars for each additional category. Examination fees shall be charged each time a person takes a certification examination and

shall be charged regardless of the passing or failing of the examination. Upon successfully passing an exam, a person will have ninety (90) days from the date of testing to activate the licenses and certification requested. After ninety (90) days have expired, a person shall have to retake and pass the examination before activation of a license and certification may occur.

Section 4. General Standards of Competency. Testing shall be based on examples of problems and situations appropriate to the particular category or subcategory of the requested certification and may include the following areas of competency:

(13) If a dispute arises between KECSAC and a local school district that cannot be resolved by the parties, the dispute shall be submitted, for resolution, to the interagency advisory group by written request of either party. The request shall identify in detail the issue in dispute. The interagency advisory group shall schedule a meeting with the parties, during which each party shall explain its position. The interagency advisory group shall render a written report and recommendation to the commissioner of the department responsible for the program in dispute within fifteen (15) days of the meeting. (2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment updates references to 707 KAR. After 707 KAR was amended in connection with providing individual education programs for each child with a disability, this regulation contained references to 707 KAR that are no longer accurate. The amendment would provide for corrected and accurate references to 707 KAR. The amendment additionally provides clarification regarding deadlines for local school districts associated with discontinuing the provision of educational services for state agency children.

(b) The necessity of the amendment to this administrative regulation: To conform to the requirements of KRS 605.110.

(c) How the amendment conforms to the content of the authorizing statutes: It provides an update with accurate references to 707 KAR with regard to the governance, curriculum, and other topics necessary to educate state agency children.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will help the Department of Juvenile Justice to operate more efficiently in that it provides updates to references to other regulations that were no longer accurate.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Approximately 250 employees of the Department of Juvenile Justice, approximately 1100 youth in all programs, the Kentucky Education Collaborative for State Agency Children, local school districts, and all visitors and volunteers to Department of Juvenile Justice.

(4) Provide an analysis of how the entities identified in question

(3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: All entities will be provided with additional clarification regarding the use of individual education programs for each state agency child with a disability by making accurate references to applicable regulations contained within 707 KAR.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Upon information and belief, all agencies are already taking the actions required by this amendments to the regulation in that the Kentucky Education Collaborative for State Agency Children currently has developed written procedures for the operation of the state-wide education system for state agency children, and the relevant local school districts implement individual education programs for state agency children with disabilities. The amendment primarily updates references to 707 KAR so that the relevant regulations regarding individual education programs are appropriately incorporated by reference.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No additional cost is projected.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The regulation will now accurately reference the appropriate regulations within 707 KAR securing quality education for state agency children in compliance with Federal law.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: No Additional funding will be required.

(b) On a continuing basis: No Additional funding will be required on an annual basis

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Funds budgeted for this 2016-2018 biennium.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: None

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: None

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as the Sections 2 and 3 of the Kentucky Constitution.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Response: Department of Juvenile Justice, the Kentucky Education Collaborative for State Agency Children, the Kentucky Department of Education, the Cabinet for Health and Family Services, and local school districts with state agency children.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. Response: KRS 605.110, KRS 158.135, KRS 158.137, 20 U.S.C. § 1407 and 1412, 34 C.F.R. 300.100, 707 KAR 1:320.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. No additional cost is projected. Upon information and belief, the relevant local school districts are already complying with the regulation.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year?

Response: None.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Response: None.

(c) How much will it cost to administer this program for the first year? Response: No Additional funding will be required for the first year.

(d) How much will it cost to administer this program for subsequent years? Response: No additional cost is projected.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): No revenue will be generated from this regulation.

Expenditures (+/-): No additional cost is projected.

Other Explanation: This amendment updates the regulation to provide accurate references to 707 KAR after said 707 KAR has been revised. Upon information and belief, the applicable divisions of state and local government are currently in compliance.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Tim Cocanougher

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation sets forth the procedures for appealing the decisions of state or county governments affecting revenue or taxation.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to provide specific procedures mandated by KRS Chapter 49.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation complies fully with KRS Chapter 49, specifying the manner in which the commission is to carry out its functions.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation provides guidance to the commission, appellants, appellees, and state or county officials whose tax determinations are being appealed.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The proposed amendment will allow individuals or companies represented by counsel to have their counsel sign certifications and receive notices on their behalf.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary because larger companies appealing tax decisions by county or state officials may not always have the correct person to verify information contained in the petition available to sign the petition of appeal. Allowing their counsel to sign the petition on behalf of a client as well as receive notifications from the commission will alleviate a significant burden that some appellants have identified to commission staff.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 49.020(2) grants the commission the power to hear and determine appeals from final rulings, orders, and determinations of any agency of state or county government affecting revenue and taxation. KRS 49.020(5) authorizes the commission to promulgate, amend, and repeal suitable administrative regulations to carry out the provisions and purposes of the commission's statutory authority.

(d) How the amendment will assist in the effective administration of the statutes: This amendment facilitates filings for appellants before the Commission and complies with the requirements of KRS 49.190 to 49.250.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This amendment will affect any individual or company appealing tax decisions by a local or state official to the Commission, permitting their counsel to file, sign, and receive documents from the Commission.

(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: If an individual or company appealing a tax decision is represented by counsel, that counsel will be permitted to file, sign, and receive documents on the appellant's behalf without further action from the appellant.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: There will be no added cost to appellants to comply with this administrative

regulation.

(c) As a result of compliance, what benefits will accrue to the entities: Entities will have the benefit of the option to have their counsel sign, file, and receive documentation on their behalf. This has been identified as a potential problem to the commission staff, particularly among entities who may not have corporate officials locally available to sign documents.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no added cost to the commission because of this administrative regulation.

(b) On a continuing basis: There will be no added cost to the commission because of this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No additional funding is necessary for the implementation and enforcement of this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increases in fees or funding will be necessary to implement this amendment to the administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This amendment to the administrative regulation does not establish any fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? Explain why or why not. Tiering is not applied because this administrative regulation applies equally to all individuals or companies represented by counsel appealing tax decisions by state or local government.

If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment to the administrative regulation will not generate revenue for the state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment to the administrative regulation will not generate revenue for the state or local government.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Brian Black

(1) Provide a brief summary of:

(a) What this administrative regulation does: Section 1 of this administrative regulation defines terms not found in the federal standard. Section 2 of this administrative regulation, effective since February 12, 1996, retains requirements related to the use of 4,4'-Methylene bis (2-Chloroaniline). Section 3 of this administrative regulation, effective since February 12, 1996, retains requirements associated with research and quality control laboratory activities involving the use of the chemicals covered by 29 C.F.R. 1910.1003-1016 that are different from OSHA. Section 4 effective since July 17, 1997, retains requirements related to access to exposure or medical records that are different from OSHA. Section 5 of this administrative regulation, effective since October 7, 1992, retains requirements related to glove use as it applies to 29 C.F.R. 1910.1030 that are different from OSHA. Section 6 requires employers in general industry to comply with the requirements of Subpart Z of 29 C.F.R. 1910 and updates the C.F.R. to July 1, 2018. Section 6 also establishes the amendments to 29 C.F.R. 1910.1024 as established in the August 9, 2018 Federal Register, Volume, 83, Number 154.

OSHA's original January 9, 2017 final rule established a March 12, 2018 implementation date for most provisions of the standard. The enforcement date was then delayed by OSHA policy to May 11, 2018. Two (2) additional enforcement delays of certain provisions of the regulation were also enacted by OSHA policy. OSHA's August 9, 2018 final rule extended the compliance date for certain ancillary provisions of the general industry beryllium standard to December 12, 2018. The delay only affects the methods of compliance, beryllium work areas, regulated areas, personal protective clothing and equipment, hygiene areas and practices, housekeeping, communication of hazards, and recordkeeping provisions of the beryllium regulation.

The Labor Cabinet adopted OSHA's August 9, 2018 final rule pursuant to Executive Order 2018-586, which transfers the authority to adopt occupational safety and health (OSH) regulations from the OSH Standards Board to the Secretary.

(b) The necessity of this administrative regulation: The OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Kentucky was not required to adopt this final rule. However, to maintain consistency with the federal program and to codify the policy set forth by Labor Cabinet Administrative Order 2018-007, which notified the public of the OSH Program's intention to delay enforcement to remain consistent with OSHA, the Secretary adopted OSHA's August 9, 2018 final rule.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How this administrative regulation currently assists or will

assist in the effective administration of the statutes: This administrative regulation will promote employee health and safety throughout Kentucky and keep the state program as effective as the federal program by adopting the language in this final rule.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: Section 6 requires employers in general industry to comply with the requirements of Subpart Z of 29 C.F.R. 1910 and updates the C.F.R. to July 1, 2018. Section 6 also establishes the amendments to 29 C.F.R. 1910.1024 as set forth in the August 9, 2018 Federal Register, Volume, 83, Number 154. This Federal Register delays compliance dates for certain provisions in the beryllium standard to December 12, 2018. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations.

(b) The necessity of the amendment to this administrative regulation: The OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Kentucky was not required to adopt this final rule. However, to maintain consistency with the federal program and to codify the policy set forth by Labor Cabinet Administrative Order 2018-007, which notified the public of the OSH Program's intention to delay enforcement to remain consistent with OSHA, the Secretary adopted OSHA's August 9, 2018 final rule.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing a clear understanding of the requirements to employers and employees. This amendment promotes employee safety and health throughout Kentucky and keeps the state program consistent with the federal program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects all employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No immediate action is required. This final rule simply delays enforcement of provisions of the regulation to allow employers more time to comply.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no additional cost to implement this administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Improved employee protection will result from the promulgation of this amendment, due to the consistency with the federal requirement, providing a clear understanding of the requirements. This rule avoids disrupting general industry by extending the compliance date for provisions of the general industry beryllium standard so that it is consistent with OSHA's final rule.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There is no cost to the OSH Program to implement this administrative regulation.

(b) On a continuing basis: There is no continuing cost to the OSH Program to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change if it is an amendment: There is

neither an increase in fees nor an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. All employers covered by KRS Chapter 338 are treated equally.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. The OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the required final rule. Kentucky was not required to adopt this final rule. However, to maintain consistency with the federal program and to codify the policy set forth by Labor Cabinet Administrative Order 2018-007, which notified the public of the OSH Program's intention to delay enforcement to remain consistent with OSHA, the Secretary adopted OSHA's August 9, 2018 final rule pursuant to Executive Order 2018-586.

3. Minimum or uniform standards contained in the federal mandate. The OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. 29 C.F.R. 1953.5 requires state implementation of the new federal standard, or a more stringent amendment, within six (6) months of the required final rule. Kentucky was not required to adopt this final rule. However, to maintain consistency with the federal program and to codify the policy set forth by Labor Cabinet Administrative Order 2018-007, which notifies the public of the OSH Program's intention to delay enforcement to remain consistent with OSHA, the Secretary adopted OSHA's August 9, 2018 final rule pursuant to Executive Order 2018-586.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Section 1 of this administrative regulation defines terms not found in the federal standard. Section 2 of this administrative regulation, effective since February 12, 1996, retains requirements related to the use of 4,4'-Methylene bis (2-Chloroaniline). Section 3 of this administrative regulation, effective since February 12, 1996, retains requirements associated with research and quality control laboratory activities involving the use of the chemicals covered by 29 C.F.R. 1910.1003-1016 that are different from OSHA. Section 4, effective since July 17, 1997, retains requirements related to access to exposure or medical records that are different from OSHA. Section 5 of this administrative regulation, effective since October 7, 1992, retains requirements related to glove use as it applies to 29 C.F.R. 1910.1030 that are different from OSHA. Section 6 requires employers in general industry to comply with the requirements of Subpart Z of 29 C.F.R. 1910 and updates the C.F.R. to July 1, 2018. Section 6 also establishes the amendments to 29 C.F.R. 1910.1024 as established in the August 9, 2018 Federal Register, Volume, 83, Number 154.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements: The amendment does not impose stricter requirements.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Brian Black

(1) Provide a brief summary of:

(a) What this administrative regulation does: Section 1 defines terms not found in the federal standard. Section 2 requires employers to comply with the requirements of 29 C.F.R. 1926.1427. Section 2, as amended, updates the C.F.R. to July 2018 and establishes the amendments to 29 C.F.R. 1926.1427 published in the November 9, 2018 Federal Register, Volume 83, Number 218. The amendment to 1926.1427 clarifies each employer's duty to ensure the competency of crane operators through training, certification or licensing, and evaluation. OSHA's November 9, 2018 final rule amends a provision that required operator certification based on crane type and the rated lifting capacity of the crane. Testing organizations are not required to issue certifications based on rated capacities, but they are permitted to do so. Employers may also choose to rely on certifications based on crane type alone. Finally, OSHA's final rule establishes minimum requirements for determination of operator competency and will maintain safety and health protections for

workers as it reduces compliance burdens.

(b) The necessity of this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA's amendment did not impose any additional or more stringent requirements on employers than the existing standard, the OSH Program was not obligated to adopt this amendment. However, to promote consistency with OSHA, and provide employers and employees with a clear understanding of the requirements, the Secretary adopted the final rule pursuant to Executive Order 2018-586.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061, as well as Executive Order 2018-586. KRS 338.051(3) and 338.061 authorize the Kentucky Occupational Safety and Health Standards Board to promulgate occupational safety and health rules and administrative regulations and standards. Executive Order 2018-586 transfers the authority to adopt, amend, or repeal regulations from the Occupational Safety and Health Standards Board to the Secretary of the Kentucky Labor Cabinet.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will promote employee health and safety throughout Kentucky and keep the state program as effective as the federal program. OSHA's November 9, 2018 final rule amends a provision that required operator certification based on crane type and the rated lifting capacity of the crane. Testing organizations are not required to issue certifications based on rated capacities, but they are permitted to do so. Employers may also choose to rely on certifications based on crane type alone. The amendment establishes minimum requirements for determination of operator competency and will maintain safety and health protections for workers as it reduces compliance burdens.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(b) The necessity of the amendment to this administrative regulation: The Kentucky OSH Program is mandated by 29 C.F.R. Parts 1952 and 1953 to be at least as effective as OSHA. Since OSHA's amendment did not impose any additional or more stringent requirements on employers than the existing standard, the OSH Program was not obligated to adopt this amendment. However, to promote consistency with OSHA and provide employers and employees with a clear understanding of the requirements, the Secretary adopted the final rule pursuant to Executive Order 2018-586.

(c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS Chapter 338.051 and 338.061, as well as Executive Order 2018-586. KRS 338.051(3) and 338.061 authorize the Kentucky Occupational Safety and Health Standards Board to promulgate occupational safety and health rules and administrative regulations and standards. Executive Order 2018-586 transfers the authority to adopt, amend, or repeal regulations from the Occupational Safety and Health Standards Board to the Secretary of the Kentucky Labor Cabinet.

(d) How the amendment will assist in the effective administration of the statutes: This amendment maintains consistency with the federal requirements, providing a clear understanding of the requirements. This amendment promotes employee health and safety throughout Kentucky and keeps the state program consistent with the federal program. OSHA's November 9, 2018 final rule amends a provision that required operator certification based on crane type and the rated lifting capacity of the crane. Testing organizations are not required to issue certifications based on rated capacities, but they are

permitted to do so. Employers may also choose to rely on certifications based on crane type alone. The amendment establishes minimum requirements for determination of operator competency and will maintain safety and health protections for workers as it reduces compliance burdens.

(a) Initially: There is no additional cost to the OSH Program to implement this administrative regulation.

(b) On a continuing basis: There is no continuing cost to the OSH Program to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

This amendment updates the administrative regulation to conform to the two (2) year duration, carrying out the will of the General Assembly.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The Department of Professional Licensing, all currently registered athlete agents, and all persons seeking to be registered athlete agents in the future will be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Registrants must complete a form and submit it to the Department of Professional Licensing, accompanied by a registration fee. Registrants must subsequently renew at least once every two (2) years, or their registration will be automatically revoked.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: Complying with this amendment will cost each initial registrant \$300, and each renewing registrant \$200 every other year. Moving to biennial registration renewal is a reduction in red tape, and removing the arbitrary March 31 deadline will ensure that registrants get the full two year period they paid for. Special consideration will be afforded to individuals who registered between July of this year, when the statutory change took effect, and the effective date of this administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities: Athlete agents complying with the administrative regulation will have their frequency of renewals reduced to every other year.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no initial cost to the Department of Professional Licensing to implement this administrative regulation.

(b) On a continuing basis: There will be no continuing cost to the Department of Professional Licensing to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No additional funding is necessary for the implementation and enforcement of this administrative regulation. Current Department of Professional Licensing staff suffice to meet all requirements.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no increase in fees or funding necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not increase any fees directly or indirectly; it merely clarifies the duration of the registration's validity.

(9) TIERING: Is tiering applied? Tiering is not applied because the administrative regulation applies equally to all registrants.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Athlete Agent Registry will be affected by this administrative regulation.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 164.6905, 164.6911

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation is anticipated to generate approximately \$30,000 for the state government. This administrative regulation will not generate revenue for local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation is anticipated to generate approximately \$30,000 for the state government on an annual basis. This administrative regulation will not generate revenue for local government.

(c) How much will it cost to administer this program for the first year? There will be no additional cost to administer this program for the first year.

(d) How much will it cost to administer this program for subsequent years? There will be no additional cost to administer this program for subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): \$30,000

Expenditures (+/-): \$30,000

Other Explanation: Recent amendments to the statutory scheme provide significantly increased penalties for violations; enforcement action cost and quantity may increase in the future, but that is likely to be offset by revenue from related penalties.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Jonathan Scott, (502) 564-4321, ext. 2015, jonathant.scott@ky.gov; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the Department for Medicaid Services' (DMS's) Kentucky integrated health insurance premium payment (KI-HIPP) program provisions. The KI-HIPP program is a program by which DMS purchases health insurance coverage for an individual by paying the individual's (and family members if applicable) health insurance premiums, deductibles and coinsurance if doing so would be cost effective to DMS. To qualify for the KI-HIPP program, an individual (or at least one individual in the case of a family enrolling in the KI-HIPP program) must be Medicaid eligible; however, the actual benefits are provided by the individual's group health insurance carrier.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to provide cost-effective medical benefits to Medicaid beneficiaries; thus, prudently utilizing DMS's resources.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by providing cost-effective medical benefits to Medicaid individuals.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by providing cost-effective medical benefits to Medicaid beneficiaries.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendments change the administrative regulation by changing the name of the program to KI-HIPP, requiring that the cost-effectiveness analysis include the department's managed care capitation rate, requiring an annual cost-effectiveness review, terminating enrollees from Medicaid that do not report ESI, allowing reporting and submission of forms to the KI-HIPP office, and deleting an application form incorporated by reference. In addition, the amendments integrate the establishment of the Kentucky HEALTH program within the scope of this administrative regulation.

(b) The necessity of the amendment to this administrative regulation: The amendments are necessary to update the health insurance premium payment program.

(c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by providing cost-effective medical benefits to Medicaid beneficiaries.

(d) How the amendment will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by providing cost-effective medical benefits to Medicaid beneficiaries.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Medicaid beneficiaries, MCOs, providers, and employers who employ Medicaid beneficiaries.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Potential KI-HIPP program enrollees will need to provide all required information, including their health insurance carrier's information, to DMS.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in

question (3). No cost is imposed on the regulated entities.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid beneficiaries who have access to private health insurance via their employers will still receive the full benefits provided through the Medicaid program as well as payment of the premiums for the health insurance through the Medicaid program.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) estimates savings of three-hundred and fifty dollars (\$350) per KI-HIPP participant per month.

(b) On a continuing basis: The Department for Medicaid Services (DMS) estimates savings of three-hundred and fifty dollars (\$350) per KI-HIPP participant per month. DMS intends to aggressively educate potential KI-HIPP program participants regarding the benefits of the KI-HIPP program in order to achieve a high participation rate.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds from state general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding are necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied as children are exempt from Medicaid disenrollment pursuant to 42 U.S.C. 1396e(b)(2).

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396e(a) through (e).

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope as available to other individuals (non-Medicaid).

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter or different responsibilities than the federal requirements.

(a) What this administrative regulation does: This administrative regulation establishes the licensure requirements for outpatient and residential alcohol and other drug treatment entities (AODE).

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with KRS 222.231(2), which requires the cabinet to promulgate administrative regulations to establish health, safety, and patient care standards for AODE programs according to type and range of services. Moreover, this administrative regulation is necessary to comply with the passage of HB 124 from the 2018 legislative session, a measure that required the cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to substance use disorder treatment programs and develop enhanced standards for treatment and recovery services.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 222.231(2) by establishing licensure requirements for outpatient and residential AODE programs.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This

administrative regulation assists in the effective administration of the statutes by establishing licensure requirements for outpatient and residential AODE programs.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment establishes licensure requirements for outpatient and residential AODE programs, including licensing procedures, fees, responsibilities of the governing authority, quality assurance and utilization review, policies and procedures, staff qualifications and training, client rights, client records, assessment, treatment planning, and adverse action procedures.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to comply with HB 124 passed during the 2018 legislative session, a measure that required the cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to substance use disorder treatment programs and develop enhanced standards for treatment and recovery services, including residential, outpatient, and medication-assisted treatment. Specific changes include: The amendment updates the process for identifying regulatory violations and accepting plans of correction to align with the same process established for health care facilities in 902 KAR 20:008; The amendment adds licensed clinical alcohol and drug counselors (LCADC) to the list of professionals who may serve as the AODE program's clinical services supervisor or otherwise work as a clinician in the facility; and If a clinician possesses a bachelor's degree in an area other than the field of human services, the amendment includes a new standard to require that the individual obtain temporary certification as an alcohol and drug counselor within two months from the date of employment.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of KRS 222.462(2)(a) by establishing a set of comprehensive quality standards and criteria based on nationally recognized and evidence-based standards for substance use disorder treatment and recovery programs.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the statutes by establishing licensure and quality standards for outpatient and residential AODE programs. In addition, this amendment is being filed concurrently with 908 KAR 1:372, Licensure of residential alcohol and other drug treatment entities, and 908 KAR 1:374, Licensure of nonhospital-based outpatient alcohol and other drug treatment entities, each of which establishes additional standards specific to each setting.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation impacts licensed AODE programs. Currently, there are approximately 210 outpatient AODE programs and approximately 60 residential AODE programs. In an effort to engage external stakeholders, the Cabinet hosted a webinar with AODE licensees and other interested groups on October 11, 2018. A preliminary draft of this administrative regulation, 908 KAR 1:372, and 908 KAR 1:374 was distributed to stakeholders during that webinar and drafts of these regulations were sent via email and posted online. Subsequent feedback from stakeholders was taken into consideration by the Cabinet and used to make changes to the drafts during the development of these administrative regulations.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities that operate residential or outpatient AODE programs must demonstrate compliance with the standards established by this administrative regulation and 908 KAR 1:372 or 908 KAR 1:374. AODE providers will have to meet the following new requirements based on the amendment of this

administrative regulation: A new section on co-occurring services to require outpatient and residential AODEs to screen for co-occurring disorders and treat or otherwise refer clients for needed services. This enhancement recognizes that in the AODE programs that treat individuals with co-occurring disorders, policies and procedures are necessary to govern the integrated treatment of substance use and mental health disorder; A new requirement for implementation of a language access plan to assure that AODE programs address the needs of clients who may have a visual impairment, may be deaf or hard of hearing, or might not be able to communicate because of a language barrier; A new requirement that recognizes the prevalence of trauma and requires that staff training cover the dynamics of retraumatization in an effort to help create a trauma-informed environment that ensures all staff are knowledgeable in evidence-based practices to avoid institutional processes that may re-traumatize clients; A new requirement for AODE programs to conduct a check of the child abuse and neglect central registry for staff members who work with adolescents; and The amendment clarifies that the client's treatment plan must be entered into the client's record within 72 hours of admission in a residential AODE and within 30 days of admission to an outpatient AODE. Review of the treatment plan must occur every two weeks in residential AODE programs, quarterly for intensive outpatient services (IOP) or partial hospitalization, and every six months for other outpatient services, such as outpatient treatment, ambulatory withdrawal management, office-based opiate treatment services, or narcotic treatment program services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Under this amendment, the fee for initial licensure and annual renewal as a residential or outpatient AODE program is \$500. The fee for each outpatient extension site is \$80 per location. The processing fee for a change of name is \$25. The processing fee for a change of location is \$80. The processing fee for a change of ownership is \$500. Under this amendment AODE licensed programs will no longer need a BHSO license to bill Medicaid for services. A BHSO license is \$500 annually.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The following benefits will accrue to the entities identified in question 3 as a result of compliance to this amendment: All AODE providers are currently subject to an annual licensure inspection. However, under the proposed amendment, fully accredited AODE programs will be subject to inspection every two years instead of annually. If necessary, the Cabinet may inspect a fully accredited AODE program more often, such as in the case of a complaint investigation. Non-accredited AODE programs will continue to be subject to annual survey visits; and The Cabinet has streamlined the licensing process by eliminating the requirement for dual licensure as a BHSO-AODE as a condition of enrollment in Medicaid. Licensure as an AODE that is fully accredited without the need for separate licensure as a BHSO will be acceptable for Medicaid payment.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no anticipated cost to the administrative body to implement this amendment.

(b) On a continuing basis: There is no anticipated cost to the administrative body to implement this amendment.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: There is no anticipated cost to the administrative body to implement this amendment.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: In effect since April 12, 2000, the fee for initial licensure of a residential or outpatient AODE program is \$155 and the fee for annual renewal is \$80. However, this amendment proposes to increase the licensure fee to \$500 for both initial licensure and annual renewal. The proposed increase is comparable to the \$500 fee currently established under 908 KAR 20:008 for initial licensure and annual renewal of other licensure categories, including home health agencies, hospice providers, psychiatric residential treatment

facilities, freestanding or mobile technology units, private duty nursing agencies, and prescribed pediatric extended care facilities. It is important to note that this amendment does not increase the \$80 fee for outpatient extension sites. Additionally, this amendment does not increase the \$25 processing fee for a change of name or the \$80 processing fee for a change of location. A change of ownership is treated like an initial application for a fee of \$500. Under this amendment AODE licensed programs will no longer need a BHSO license to bill Medicaid for services. A BHSO license is \$500 annually.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This amendment proposes to increase the initial and annual licensure fees, which have remained unchanged since adoption of this administrative regulation on April 12, 2000. The additional revenue generated by the increased fees will assist, but not offset all of the cabinet's costs associated with the licensure and inspection of Kentucky's 270 AODE programs. Therefore, the cabinet will continue to absorb a significant portion of the programmatic costs.

(9) TIERING: Is tiering applied? Tiering is not applicable as compliance with this administrative regulation applies equally to all individuals or entities regulated by it.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation impacts licensed outpatient and residential AODE programs and the Department for Behavioral Health, Developmental and Intellectual Disabilities.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 222.231 and 222.462

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? There are approximately 270 outpatient and residential AODE programs that will be subject to an annual renewal fee of \$500, however, under this amendment AODE licensed programs will no longer need a BHSO license to bill Medicaid for services. A BHSO license is \$500 annually.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? There are approximately 270 AODE programs that will be subject to an annual renewal fee of \$500, however, AODE licensed programs will no longer need a BHSO license to bill Medicaid for services. A BHSO license is \$500 annually.

(c) How much will it cost to administer this program for the first year? It is difficult to ascertain the direct cost of administering the AODE program because it is a part of daily business and not coded to one particular fund. There are no new costs anticipated from this administrative regulation.

(d) How much will it cost to administer this program for subsequent years? There are no new costs anticipated from this administrative regulation.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Contact Persons: Laura Begin, Phone: (502) 564-3798, Email: Laura.Begin@ky.gov; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes a program for supplemental payments to persons who are aged, blind, or have a disability in accordance with KRS 205.245 and the Mental Illness or Intellectual Disability (MI/ID) Supplement Program.

(b) The necessity of this administrative regulation: The administrative regulation is needed to establish conditions and requirements regarding the State Supplementation Program and the MI/ID Program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the authorizing statutes through its establishment of a supplemental program of persons who are aged, blind, or have a disability and its compliance with the agreement with the Social Security Administration, formerly a part of the U. S. Department of Health, Education, and Welfare, to maintain the state's eligibility for federal Medicaid funding.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing the eligibility requirements and standards of need for the State Supplemental Program for persons who are aged, blind, or have a disability.

(2) If this is an amendment to an existing administrative

regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the cost of living adjustment (COLA) to be implemented in calendar year 2019 by the Social Security Administration for Supplemental Security Income (SSI) recipients. The Social Security Administration deemed the COLA to be an increase of 2.8%. In addition, the training requirement is being amended to add serious mental illness, activities of daily living, and adult learning principles to the topics included in the training and to require attendance once every two years rather than every year. The term "specialized personal care home" and references to it are being deleted because they are no longer necessary. The STS-3 and STS-4 forms are being amended for consistency with the regulatory amendment.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the COLA to be implemented in calendar year 2019 by the Social Security Administration for SSI recipients.

(c) How the amendment conforms to the content of the authorizing statutes: 42 U.S.C. 1382 authorizes the cabinet to administer a state funded program of supplementation to all former recipients of the Aid to the Aged, Blind, and Disabled Program as of December 13, 1973, and who were disadvantaged by the implementation of the Supplemental Security Income Program. KRS 205.245 establishes the mandatory supplementation program and the supplementation to other needy persons who are aged, blind, or have a disability. This administrative regulation establishes the provisions of the supplementation program. The amendment to this administrative regulation will increase the standard of need in the State Supplemental Program to reflect the COLA to be implemented in calendar year 2019 by the Social Security Administration for SSI recipients.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the statutes by passing along the 2019 2.8% COLA for the Supplemental Security Income benefit by modifying the standard of need for all levels of care for the State Supplementation Program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: In SFY 18, there were 3,085 individuals who received State Supplementation Program benefits. (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): A 2.8% increase in the COLA for SSI recipients.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary to implement this administrative regulation.

NECESSITY, FUNCTION, AND CONFORMITY: This administrative regulation establishes uniform rules for the governance of state facilities and grounds. While all state facilities and grounds are owned by the people of the Commonwealth at large, it is sometimes detrimental to the effective carrying-out of the people's business for persons, or groups of persons, to disregard reasonable conditions established for use of state facilities and state grounds. The purpose of this regulation is to balance the interests of the citizens of the Commonwealth at large with the interests of individual citizens, or groups of citizens, to use state facilities and grounds in a reasonable fashion in order to redress their grievances and coordinate various uses of public buildings and grounds, to preserve historic properties, to ensure the health and safety of the public and state employees while on state property, and to protect the public from unnecessary financial losses. (2) The commissioner adopts the current edition and any future published updates of the ODG formulary currently published by MCG Health. The commissioner shall review the formulary not less than annually and update or amend this regulation, if necessary, to ensure that the formulary is consistent with the provisions of KRS 342.020 and KRS 342.035.

(3) The formulary shall be made available by the department. Subsequent updates shall be effective on the first day of the month following the update.

(4) To the extent this regulation or the formulary conflict with any state or federal statute or regulation limiting prescriptive authority, including KRS 218A.172, KRS 218A.020(3), KRS 314.011(8) and 201 KAR 9:260, the statute or administrative regulation limiting prescriptive authority shall apply.

Section 3. Application.

(1) An employer or its payment obligor is liable for payment of up to a seven (7)-day supply of a "Y" drug dispensed to or prescribed for an injured employee within seven (7) days of a work-related injury in treatment of that work-related injury even if the employer ultimately denies liability for the claim. Payment by the employer or its payment obligor pursuant to this subsection does not waive the employer's right to contest its liability for the claim or

benefits to be provided.

(2) Unless the employer, in good faith, denies the claim as not compensable, drugs assigned "Y" status in the formulary on the date the prescription is issued shall be filled without the need for preauthorization and without delay if prescribed for and appropriate for the work injury or occupational disease. Utilization review shall not be required for a "Y" drug but may be conducted retrospectively to determine medical reasonableness and necessity. A denial of a "Y" drug based on retrospective utilization review shall apply only to refill prescriptions of that drug after the date of the utilization review.

(3) Unless the employer, in good faith, denies the claim as not compensable, drugs assigned "N" status in the formulary on the date the prescription is issued shall require preauthorization. A prescription for a drug with an "N" status issued without articulated sound medical reasoning does not constitute a request for preauthorization nor a request for payment. Within two (2) business days of presentation of a prescription for a drug with an "N" status without articulated sound medical reasoning, the insurance carrier shall notify the medical provider that preauthorization is required for the prescribed drug.

(4) Except as provided in subsection (1) of this Section, drugs dispensed for outpatient use by any person other than a pharmacist require preauthorization.

(5) Any prescription drug not listed in the formulary shall require preauthorization. Any non-prescription drug shall not require preauthorization.

(6) Compound medications require preauthorization even if all of the components of the compound are listed as "Y" drugs in the formulary.

(7) Medical providers are required to prescribe in accordance with the formulary unless the medical provider can sufficiently articulate sound medical reasoning for deviating from the formulary, which may include:

(a) Documentation that reasonable alternatives allowable in the formulary have been adequately tried and failed;

(b) The clinical rationale that justifies the proposed treatment plan, including criteria that will constitute a clinically meaningful benefit; or

(c) Any other circumstances that reasonably preclude the approved formulary options.

(8) Before an employer denies authorization for a drug that requires preauthorization, the employer must consider any sound medical reasoning furnished by the medical provider for prescribing that drug.

Section 4. Preauthorization.

(1) Requests for preauthorization shall be subject to utilization review unless the employer waives utilization review.

(2) Except as modified in this Section, 803 KAR 25:190 Sections 5, 7, and 8 apply to all prescriptions for which preauthorization is required under this administrative regulation. If the medical provider has provided sound medical reasoning for the prescription, the employer shall not deny a prescribed drug based solely on the status of the drug in the formulary.

(3) If as a result of utilization review the carrier denies a request for preauthorization, the medical provider may request reconsideration of the denial to include a peer-to-peer conference with a utilization review physician. The request for a peer-to-peer conference shall be made by electronic communication and shall provide:

(a) A telephone number for the reviewing physician to call;

(b) A date for the conference not less than two (2) business days after the date of the request; and

(c) A one (1) - hour period during which the requesting medical provider (or its designee) will be available to participate in the conference between the hours of 8:00 a.m. and 6:00 p.m. (Eastern Time), Monday through Friday.

(4) The peer-to-peer conference must be conducted by a physician of the same specialty as the medical provider requesting reconsideration.

(5) Failure of the reviewing physician to participate in the peer-to-peer conference during the date and time specified shall result

in the approval of the request for preauthorization and approval of the requested prescription. Failure of the requesting medical provider or its designee to participate in the peer-to-peer conference during the time he or she specified availability may result in denial of the request for reconsideration.

(6) Pursuant to 803 KAR 25:190 Section 8(1)(c), a written reconsideration decision shall be rendered within ten (10) days of date of the peer-to-peer conference. The written decision shall be entitled "FINAL UTILIZATION REVIEW DECISION."

(7) If a Final Utilization Review Decision is rendered denying authorization for a prescribed drug before an award has been entered by or agreement approved by an administrative law judge, the requesting medical provider or the injured employee may file a medical dispute pursuant to 803 KAR 25:012. If a Final Utilization Review Decision is rendered denying authorization for a prescribed drug after an award has been entered by or agreement approved by an administrative law judge, the employer shall file a medical dispute pursuant to 803 KAR 25:012.

(8) Pursuant to KRS 342.285(1), a decision of an administrative law judge on a medical dispute is subject to review by the workers' compensation board under the procedures set out in 803 KAR 25:010, Section 22.

Section 5. Effective Dates.

(1) For claims with a date of injury or last exposure on or after January 1, 2019, the formulary applies to all drugs that are prescribed or dispensed on or after July 1, 2019, for outpatient use;

(2) For claims with a date of injury or last exposure prior to January 1, 2019, the formulary applies as follows:

(a) For a prescription that is not a refill prescription, the formulary applies to all drugs prescribed or dispensed on or after July 1, 2019, for outpatient use;

(b) For a refill prescription of a drug initially prescribed prior to July 1, 2019, the formulary applies to all drugs prescribed or dispensed on or after January 1, 2020, for outpatient use.

This is to certify that the commissioner has reviewed and recommended this administrative regulation prior to its adoption, as required by KRS 342.260 and 342.035.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Justin Dearing, email: Justin.Dearing@ky.gov, Phone: 502-782-7212; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the licensure requirements for residential alcohol and other drug treatment entities (AODE).

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with KRS 222.231(2), which requires the cabinet to promulgate administrative regulations to establish health, safety, and patient care standards for AODE programs according to type and range of services. Moreover, this administrative regulation is necessary to comply with HB 124 passed during the 2018 legislative session, a measure that required the cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to substance use disorder treatment programs and develop enhanced standards for treatment and recovery services, including residential services.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 222.231(2) by establishing licensure requirements for AODE programs that provide residential services, including clinically managed residential withdrawal management, general residential, family residential, residential transitional living, or adolescent residential treatment services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing licensure requirements for residential AODE programs that provide clinically managed residential withdrawal management, general residential, family residential, residential transitional living, or adolescent residential treatment services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative

regulation: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:370. However, notable changes include the following: A new section on adolescent residential treatment programs because the current AODE regulation does not address programs that treat adolescents. For example, this administrative regulation clarifies that adolescent residential treatment programs must ensure that an age range of no greater than 5 years applies to adolescent clients, and there must be at least 1 staff member for no more than 10 adolescents during waking hours and 1 staff member for no more than 20 adolescents during sleeping hours; This administrative regulation requires that clients spend at least 7 hours each day in structured activities. Within this daily requirement, clients must spend at least 10 hours each week in counseling, unless the program is a residential transitional living program, in which case the client must participate in counseling a minimum of five hours per week; and The Cabinet revised outdated language where needed, such as replacing references to "detoxification programs" with "clinically managed residential withdrawal programs"

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:370.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:370. This regulation conforms to the content of KRS 222.462(2)(a) by establishing a set of comprehensive quality standards and criteria based on nationally recognized and evidence-based standards for substance use disorder treatment and recovery programs

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:370. This regulation will assist in the effective administration of the statutes by establishing licensure and quality standards for outpatient AODE programs. In addition, this amendment is being filed concurrently with 908 KAR 1:370, Licensing procedures, fees, and general requirements for nonhospital-based alcohol and other drug treatment entities, and 908 KAR 1:374, Licensure of nonhospital-based outpatient alcohol and other drug treatment entities, each of which establishes additional standards.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation impacts the approximately 60 licensed residential AODE programs. In an effort to engage external stakeholders, the Cabinet hosted a webinar with AODE licensees and other interested groups on October 11, 2018. A preliminary draft of this administrative regulation, 908 KAR 1:370, and 908 KAR 1:374 was distributed to stakeholders during that webinar and drafts of these regulations were sent via email and posted online. Subsequent feedback from stakeholders was taken into consideration by the Cabinet and used to make changes to the drafts during the development of these administrative regulations.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities that operate residential AODE programs must demonstrate compliance with the standards established by this administrative regulation and 908 KAR 1:370. Changes for providers include: A new section on adolescent residential treatment programs because the current AODE regulation does not address programs that treat adolescents. For example, this administrative regulation clarifies that adolescent residential treatment programs must ensure that an age range of no greater than 5 years applies to adolescent clients, and there must be at least 1 staff member for no more than 10 adolescents during waking hours and 1 staff member for no more than 20

adolescents during sleeping hours; This administrative regulation requires that clients spend at least 7 hours each day in structured activities. Within this daily requirement, clients must spend at least 10 hours each week in counseling, unless the program is a residential transitional living program, in which case the client must participate in counseling a minimum of five hours per week; Residential AODE programs must ensure that the client's level of care determination is based on the most recent version of the ASAM Criteria; Residential AODE programs must screen for co-occurring disorders and treat or refer clients in need of co-occurring services; and Must have written policies and procedures for implementation of: A language access plan to address accommodation for communication access services; A process for creating a trauma-informed environment to avoid practices that might retraumatize a client; and If the facility provides services to clients under age eighteen (18), a process for ensuring that services and educational materials are developmentally appropriate and the client's family is involved in treatment to the extent possible and appropriate with the written consent of the client.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no new anticipated cost for providers. The licensure fees for residential AODE programs are established in 908 KAR 1:370.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Entities that demonstrate compliance with this administrative regulation and 908 KAR 1:370 will accrue the following benefits from this administrative regulation change versus the previous administrative regulations: Standards are more closely aligned with ASAM criteria to ease certification and standardize care; Withdrawal management is incorporated throughout the regulation similar to its use in care to allow easier understanding of requirements; Many requirements were adjusted to be consistent with ASAM and with the requirements of other states; and

A fully accredited outpatient AODE program with a license in good standing will now be eligible to participate in Kentucky's Medicaid program without having to obtain a separate BHSO license.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no anticipated initial cost to the administrative body to implement this regulation. The program was already in place and administered under 908 KAR 1:370. The regulatory changes are not expected to result in any change in cost to the Cabinet.

(b) On a continuing basis: The program was already in place and administered under 908 KAR 1:370. The regulatory changes are not expected to result in any change in cost to the Cabinet.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: State general funds and agency monies will be used to implement and enforce this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This administrative regulation does not increase any fees, although the AODE application fee is increased in 908 KAR 1:370. No additional funding will be needed to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees, although the AODE application fee is increased in 908 KAR 1:370.

(9) TIERING: Is tiering applied? Tiering is not applicable as compliance with this administrative regulation applies equally to all individuals or entities regulated by it.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Justin Dearing, email: Justin.Dearing@ky.gov, Phone 502-782-7212; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the licensure requirements for nonhospital-based outpatient alcohol and other drug treatment entities (AODE).

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with KRS 222.231(2) and (12), which requires the cabinet to promulgate administrative regulations to establish health, safety, and patient care standards for AODE programs according to type and range of services, including facilities that operate narcotic treatment programs. Moreover, this amendment is necessary to comply with HB 124 passed during the 2018 legislative session, a measure that required the cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to substance use disorder treatment programs and develop enhanced standards for treatment and recovery services, including outpatient and medication-assisted treatment services.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 222.231(2) by establishing licensure requirements for AODE programs that provide outpatient services, including ambulatory withdrawal management, general outpatient treatment, intensive outpatient services, or partial hospitalization.

This administrative regulation also conforms to the content of KRS 222.231 and 222.462 by establishing licensure requirements for programs that operate non-physician owned facilities that provide office-based opiate treatment services to fifty (50) percent or more of the facility's patients or operates as a narcotic treatment program utilizing methadone or buprenorphine formulations.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing licensure requirements for outpatient AODE programs.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:340 and 1:370. However, notable changes include the following: 908 KAR 1:370 currently in effect addresses "detoxification programs" that operate on a twenty-four (24) hour basis. Therefore, the Cabinet added a new section to this administrative regulation to establish standards for programs that provide ambulatory withdrawal management services in outpatient AODE settings; and The Cabinet clarified in this administrative regulation that a facility must be licensed as an outpatient AODE if any individual with ownership interest in the facility is not a Kentucky-licensed physician and the facility employs or has an affiliation with a physician or APRN who prescribes buprenorphine or other FDA approved drugs to 50% or more of the facility's patients.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:340 and 1:370. This regulation is necessary to comply with HB 124 passed during the 2018 legislative session, a measure that required the cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to substance use disorder treatment programs and develop enhanced standards for treatment and recovery services, including residential, outpatient, and medication-assisted treatment.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:340 and 1:370. This regulation conforms to the content of KRS 222.462(2)(a) by establishing a set of comprehensive quality standards and criteria based on nationally recognized and evidence-based standards for substance use disorder treatment and recovery programs.

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation that prescribes and amends requirements that are currently set out in 908 KAR 1:340 and 1:370. This regulation will assist in the effective administration of the statutes by establishing licensure and quality standards for outpatient AODE programs. In addition, this amendment is being filed concurrently with 908 KAR 1:370, Licensing procedures, fees, and general requirements for nonhospital-based alcohol and other drug treatment entities, and 908 KAR 1:372, Licensure of residential alcohol and other drug treatment entities, each of which establishes additional standards.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation impacts the approximately 210 licensed outpatient AODE programs. In an effort to engage external stakeholders, the Cabinet hosted a webinar with AODE licensees and other interested groups on October 11, 2018. A preliminary draft of this administrative regulation, 908 KAR 1:370, and 908 KAR 1:372 was distributed to stakeholders during that webinar and drafts of these regulations were sent via email and posted online. Subsequent feedback from stakeholders was taken into consideration by the Cabinet and used to make changes to the drafts during the development of these administrative regulations.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an

amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities that operate outpatient AODE programs must adhere to the following requirements, which are changes from the previous administrative regulations: For narcotic treatment programs licensed as an outpatient AODE, the process to apply for a license, apply for a medication station, and notify the Cabinet of changes in ownership has been clarified and is now the same as for all other AODEs; If a client is transferring from one narcotic treatment program to another, the programs will be required to communicate about the client and coordinate the transfer to avoid missed or duplicate doses; Outpatient AODE programs must ensure that the client's level of care determination is based on the most recent version of the ASAM Criteria and that diagnosis must be made by appropriately licensed treatment staff in accordance with the most recent version of the DSM; Outpatient AODE programs must screen for co-occurring disorders and treat or refer clients in need of co-occurring services; A language access plan to address accommodation for communication access services if required; and A process for creating a trauma-informed environment to avoid practices that might retraumatize a client if required.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The licensure fees for outpatient AODE programs are established in 908 KAR 1:370. No other costs are anticipated with this administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Entities that demonstrate compliance with this administrative regulation and 908 KAR 1:370 will accrue the following benefits from this administrative regulation change versus the previous administrative regulations: Standards are more closely aligned with ASAM criteria to ease certification and standardize care; Withdrawal management is incorporated throughout the regulation similar to its use in care to allow easier understanding of requirements; A new Phase 5 for NTPs was created for clients and providers to decrease the number of required visits at a later stage of treatment; Drug screenings were broadened to include all types of drug screenings so that providers would not be restricted to certain methods, and screening frequency was reduced in later stages of treatment; The requirement that AODEs obtain MOAs with other community agencies before opening has been revised to require only that the AODE communicate with those agencies. The requirement that AODEs allow clients to appeal the provider's termination of services has been deleted. NTPs will no longer need an AODE license and an NTP certification, only an AODE license; Many requirements were adjusted to be consistent with ASAM and with the requirements of other states; A fully accredited outpatient AODE program with a license in good standing will now be eligible to participate in Kentucky's Medicaid program without having to obtain a separate BHSO license; and In response to requests from providers, partial hospitalization has been added as a service that may be provided in the outpatient AODE setting and AODE programs that offer partial hospitalization must be fully accredited by the Joint Commission, Commission on Accreditation of Rehabilitation Facilities, Council on Accreditation, or an equivalent accrediting organization.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There is no anticipated initial cost to the administrative body to implement this regulation. The program was already in place and administered under 908 KAR 1:340 and 1:370. The regulatory changes are not expected to result in any change in cost to the Cabinet.

(b) On a continuing basis: The program was already in place and administered under 908 KAR 1:340 and 1:370. The regulatory changes are not expected to result in any change in cost to the Cabinet.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: State general funds and agency monies will be used to implement

and enforce this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This administrative regulation does not increase any fees, although the AODE application fee is increased in 908 KAR 1:370. No additional funding will be needed to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees, although the AODE application fee is increased in 908 KAR 1:370.

(9) TIERING: Is tiering applied? Tiering is not applicable as compliance with this administrative regulation applies equally to all individuals or entities regulated by it.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation impacts the approximately 210 licensed outpatient AODE programs and the Department for Behavioral Health, Developmental and Intellectual Disabilities.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 222.231 and 222.462

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will not generate additional revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not generate additional revenue.

(c) How much will it cost to administer this program for the first year? The program is already in place and is currently administered under 908 KAR 1:340 and 1:370. There will be no new cost to administer this program.

(d) How much will it cost to administer this program for subsequent years? The program is already in place and is currently administered under 908 KAR 1:340 and 1:370. There will be no new cost to administer this program.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 C.F.R. Part 8

2. State compliance standards. KRS 222.231 and 222.462

3. Minimum or uniform standards contained in the federal mandate. 42 C.F.R. Part 8 establishes the Federal guidelines for opioid treatment programs.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does impose stricter, additional, or different requirements than those required by federal mandate. 908 KAR 1:340 is being repealed and the requirements added to this administrative regulation. All of the stricter requirements are currently in place in 908 KAR 1:340. Some requirements remain the same and some requirements will be less stringent than what is currently in place. The following requirements are different than the federal requirements: Interim maintenance is not permitted; This

regulation requires prospective NTPs to attempt to communicate with local agencies. This requirement, while stricter than federal law, is actually less stringent than the current requirement for MOAs with local agencies; treatment phases are set; drug screening policies; credentials for program sponsor and medical director; security and inventory audits; take home procedures; and monitoring and violations.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Due to Kentucky's continuing opioid epidemic, the Cabinet has imposed these requirements since the state began regulating NTPs in 1996. These stricter and additional requirements are to: Improve the quality of care for clients; Improve the health, safety, and welfare of clients and staff; and Improve the success rate of treatment and reduce the opioid epidemic. Research of other states in Kentucky's region have shown using the minimum federal standards do not have the same effect as stricter standards in the areas of safety, recovery, controlled trafficking of prescribed drugs, and reduction in the number of individuals needing services.

**EDUCATION AND WORKFORCE DEVELOPMENT CABINET:
Office of Learning Programs Development: Office of Instruction**

704 KAR 3:305. Minimum requirements for high school graduation. David Cook, Division of Innovation Director; Deanna Durrett, general counsel; and Wayne Lewis, commissioner, represented the department.

In response to a question by Co-Chair West, Mr. Lewis stated that the Kentucky Board of Education decided to revise the minimum requirements for high school graduation based on Kentucky-specific data correlating education with life outcomes, including postsecondary matriculation rates, employment outcomes, and earning rates. An examination of the data indicated that the current minimum requirements for high school graduation were not meeting the needs of the Commonwealth. Proposed revisions to the minimum requirements for high school graduation included increased flexibility pertaining to course selection by students, with the condition that courses still comply with Kentucky's academic standards and with a student's individualized learning program; a demonstration of basic competence in mathematics and reading, demonstrated through existing assessments in eighth or tenth grade or through a student-compiled portfolio approved by the local superintendent; and graduation qualifiers, consisting of a list of eight (8) criteria of which a student must meet at least one (1). Graduation qualifiers were not synonymous with transition readiness qualifiers in the accountability system, but were a step toward transition readiness.

In response to questions by Co-Chair West, Mr. Lewis stated that, regardless of whether or not the department revised the minimum requirements for high school graduation, students would be taking the same assessments. The proposed revisions to the minimum requirements for high school graduation included the additional option of a student-compiled portfolio to demonstrate competency in lieu of deriving the demonstration of competency from the existing assessments. State law already required assessments, usually done through end-of-course examinations. Kentucky was moving toward replacing end-of-course examinations with end-of-span examinations. It was reasonable to expect a Kentucky student to demonstrate at least basic competence with mathematics and reading prior to high school graduation.

In response to a question by Co-Chair Hale, Mr. Lewis stated that the department agreed to defer consideration of this administrative regulation. Without objection, and with agreement of the agency, this administrative regulation was deferred to the February 11 meeting of the subcommittee.

A motion was made and seconded to approve the following amendments: to amend Sections 1 through 5, 7, 8, and 10 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

CUMULATIVE SUPPLEMENT

Locator Index - Effective Dates

H - 2

The Locator Index lists all administrative regulations published in VOLUME 45 of the *Administrative Register of Kentucky* from July 2018 through June 2019. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action that may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 44 are those administrative regulations that were originally published in VOLUME 44 (last year's) issues of the *Administrative Register of Kentucky* but had not yet gone into effect when the *2018 Kentucky Administrative Regulations Service* was published.

KRS Index

H - 17

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 45 of the *Administrative Register of Kentucky*.

Certifications Index

H - 34

The Certification Index lists of administrative regulations that have had certification letters filed during this VOLUME year. The certification process is established in KRS 13A.3104. If the certification letter states the administrative regulation shall be amended, the administrative body shall file an amendment to the regulation within 18 months of the date the certification letter was filed. If the certification letter states that the regulation shall remain in effect without amendment, the last effective date of the regulation is changed to the date the regulations compiler received the letter.

Technical Amendment Index

H - 46

The Technical Amendment Index is a list of administrative regulations that have had technical, nonsubstantive amendments entered since being published in the 2018 *Kentucky Administrative Regulations Service*. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.2255(2), 13A.312(2), or 13A.320(1)(d). Because these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the *Administrative Register of Kentucky*.

Subject Index

H - 47

The Subject Index is a general index of administrative regulations published in VOLUME 45 of the *Administrative Register of Kentucky*, and is mainly broken down by agency.

TECHNICAL AMENDMENT INDEX

The Technical Amendment Index is a list of administrative regulations that have had technical, nonsubstantive amendments entered since being published in the *2017 Kentucky Administrative Regulations Service*. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.2255(2), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published to show the technical corrections in the *Administrative Register of Kentucky*. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at <http://www.lrc.ky.gov-KAR-frntpage.htm>.

‡ - A technical change was made to this administrative regulation during the promulgation process, pursuant to KRS 13A.320(1)(e).
