STATEMENT OF EMERGENCY

101 KAR 2:210E

This emergency administrative regulation incorporates a plan for the self-insured plan offered through the Public Employee Health Insurance Program, commonly known as the Kentucky Employees' Health Plan. KRS 18A.2254(1) requires the Personnel Cabinet to promulgate an administrative regulation that incorporates the plan year handbook by reference and to file the administrative regulation by September 15 of each year. This emergency administrative regulation is necessary to meet the filing deadline established by state law at KRS 18A.2254(1)(a). KRS 18A.2254(1)(a) requires the Secretary of the Personnel Cabinet to annually promulgate an administrative regulation to incorporate by reference the plan year handbook. The handbook must contain, at a minimum, the premiums, employee contributions, employer contributions, and a summary of benefits, co-pays, coinsurance, and deductibles for each plan provided to public employees covered under the self-insured plan. The 2022 plan year handbook, or Benefits Selection Guide, contains the required and necessary information for public employees to make health insurance coverage decisions during open enrollment in October 2021. This administrative regulation incorporates by reference the 2022 Benefits Selection Guide that will be distributed by the Personnel Cabinet's Department of Employee Insurance to public employees covered under the self-insured plan. An ordinary administrative regulation is not sufficient due to the statutory filing deadlines and handbook distribution requirements. This emergency administrative regulation will be replaced by an ordinary administrative regulation. The ordinary administrative regulation is not identical to this emergency administrative regulation. This emergency administrative regulation will be in effect for part of the current 2021 plan year. The existing language in the Benefits Selection Guide for the 2021 plan year should remain until such time as the ordinary administrative regulation incorporating the Benefits Selection Guide for plan year 2022 replaces this emergency administrative regulation.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 18A.225, 18A.2253, 18A.2254, 18A.2255, 18A.2259, 18A.226, 18A.227, 18A.2271, 18A.228, 18A.2286, 18A.2287; 26 U.S.C. 21, 105, 106, 125, 129, 152, and 213 (Internal Revenue Code); Prop. Treas. Reg. 1.125-1 through 7; the Patient Protection and Affordable Care Act, Pub. L. No. 111-148 (2010); and the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152.

(c) How much will it cost to administer this program for the first year? Costs of implementing this program are believed to be similar to previous plan years.

(d) How much will it cost to administer this program for subsequent years? The 2022 plan year handbook will be online and distributed electronically rather than in printed hard copy. This method of distribution is expected to be a savings for the Public Employee Health Insurance Program during the 2021 open enrollment season and throughout the 2022 plan year. Should the distribution of the plan year handbook continue to be made available online and distributed only by electronic means in the future, the Public Employee Health Insurance Program could continue to recognize cost savings in subsequent years.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 C.F.R. Part 447.

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope as available to other individuals (non-Medicaid). Revising reimbursement methodology for outpatient drugs dispensed or administered to Medicaid recipients shall not change compliance standards.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter or different responsibilities than the federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter or different responsibilities than the federal requirements.

NECESSITY, FUNCTION, AND CONFORMITY: KRS 194A.050(1) requires the secretary (Secretary) of the Cabinet for Health and Family Services to promulgate administrative regulations necessary to operate programs and fulfill the responsibilities vested in the cabinet, qualify for the receipt of federal funds, and cooperate with other state and federal agencies for the proper administration of the cabinet and its programs. KRS 199.892 enables the Cabinet for Health and Family Services to promulgate administrative regulations to qualify to receive federal funds under provisions of the federal Social Security Act, 42 U.S.C. 9857-9858q, and to provide for effective regulation of child care centers. KRS 199.8994 requires the cabinet to administer all child care funds to the extent allowable under federal law or regulation and in a manner that is in the best interest of the clients to be served. This administrative regulation establishes requirements that enable the Cabinet for Health and Family Services to qualify for federal funds under the Child Care and Development Fund, and establishes procedures for the implementation of the Child Care Assistance Program to the extent that funding is available.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact persons: Laura Begin and Krista Quarles

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation enables the cabinet to qualify for federal funds under the Child Care and Development Fund (CCDF) and establishes procedures for the implementation of the Child Care Assistance Program (CCAP) to the extent that funding is available.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to qualify for federal funds under CCDF and for the proper administration of CCAP.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the authorized statutes by allowing the cabinet to qualify for federal funds and establishing procedures for the implementation of CCAP.

(g) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the administration of the CCAP in a manner that is consistent with federal and state requirements, including available funding, and the interests of the clients to be served, child care providers, and taxpayers.
incorporates the appropriated General Fund moneys in the amount of $12,000,000 in fiscal year 2021-2022 to the Department for Community Based Services to provide a $2 per child increase in the Child Care Assistance Program provider reimbursement rate for full-day care. This amendment is consistent with House Bill 405 (2021 Regular Session, Acts Chapter 176) and is reflected in the incorporated material – the DCC-94E, Kentucky Child Care, The Maximum Payment Rate Chart. The amendment also requires CCAP-participating child care providers to complete annual training on billing and makes other necessary updates and technical corrections in accordance with KRS Chapter 13A. This administrative regulation is being further amended in response to comment to increase the CCAP provider reimbursement rate to the eightieth percentile for Type I and Type II licensed child care centers and certified family child care homes, to increase the CCAP provider reimbursement rate for registered child care providers, and to cover the cost of the CCAP co-payment for families with a monthly income at or below $1,399.00 through the utilization of federal American Rescue Plan Act (ARPA) funds. The amendment also allows providers to use a cabinet-approved electronic system for keeping attendance as an alternative to the DCC-94E form.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to obligate additional funds from the General Fund appropriation to the Department for Community Based Services to provide a $2 per child increase in the Child Care Assistance Program provider reimbursement rate to the eightieth percentile for Type I and Type II licensed child care centers and certified family child care homes, to increase the CCAP provider reimbursement rate for registered child care providers, and to cover the cost of the CCAP co-payment for families with a monthly income at or below $1,399.00 through the utilization of federal American Rescue Plan Act (ARPA) funds. The amendment also allows providers to use a cabinet-approved electronic system for keeping attendance as an alternative to the DCC-94E form.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by aligning policy with more efficient operations, promoting parents’ efforts to achieve self-sufficiency and the provision of quality child care, enhancing program integrity, and preserving the health and welfare of vulnerable children. This amendment specifically conforms with an appropriations bill passed in the 2021 Regular Session.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the statutes through its refinement of CCAP in accordance with federal and state laws and the interests of households and children served.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: As of May 2021, there were 12,750 families and 23,346 children enrolled in CCAP, and over 1,600 child care providers participating in CCAP.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Participating providers will need to complete the cabinet approved training on billing and the DCC-94E annually or, upon a change in their billing staff. This will allow providers to receive a refresher on how to submit billing and become aware of any updates, allowing for a smoother reimbursement process. The amended after comments version of this administrative regulation allows providers to use a cabinet-approved electronic system for attendance keeping as an alternative to using the DCC-94E.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The amendment to this administrative regulation will create no new or additional costs to regulated entities.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Regulated entities will benefit from increased provider reimbursement rates.

(d) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The amendment to this administrative regulation will be implemented within available federal and state appropriations for CCAP. An additional $12 million in General Funds has been appropriated to implement this increase in provider reimbursement rates.

(b) On a continuing basis: The administrative regulation will be implemented within available federal and state appropriations for CCAP. The administrative body will continually monitor its costs to make any adjustments necessary to maintain CCAP and related services within available funding.

(c) As a result of compliance, what benefits will accrue to the regulated entities identified in question (3): The amendment to this administrative regulation does not establish any fees or directly or indirectly increase any fees.

(d) TIERING: Is tiering applied? The Child Care Assistance Program is implemented in a like manner statewide. However, provider payment rates are tiered to recognize the higher operating costs of certain geographical, more populated areas. The provider payment rates were initially established on the basis of the classification of cities. The rates are further supported by the analysis of the market rate survey results specified in KRS 199.899.

a. May be followed by subsequent doses if withdrawal persists; and

b. Shall not exceed the dose equivalency of sixteen (16) milligrams buprenorphine generic tablet on the first day of treatment.

(d) If the patient is transferred from another treatment provider and has previously experienced withdrawal without a relapse and has not had a lapse in treatment, the licensee [prescribing or dispensing physician] shall document the fact that:

1. Document that fact; and

2. Educate the patient about the potential for precipitated withdrawal; and

3. Continue maintenance treatment of the patient on the same or less dosage as established by the previous treatment provider and then as provided in paragraph (e) of this subsection.

(e) After initial induction of Buprenorphine-Mono-Product or Buprenorphine-Combined-with-Naloxone, the licensee [prescribing or dispensing physician] shall meet the requirements established in this paragraph.

1. If the licensee [physician] who prescribes, [or] dispenses, or administers Buprenorphine-Mono-Product or Buprenorphine-Combined-with-Naloxone medication, the licensee [physician] shall implement a treatment plan that requires objective behavioral modification by the patient. The behavioral modification shall include the patient’s participation in a behavioral modification program that may include counseling or a twelve (12) step facilitation.

2. The licensee [physician] shall prescribe, [or] dispense, or administer to the patient an amount of Buprenorphine-Mono-Product or Buprenorphine-Combined-with-Naloxone as soon as possible:

4. At least every three (3) months after initiation of treatment, the licensee [prescribing or dispensing physician] shall evaluate the patient to determine whether the patient’s dosage should be continued or modified and shall appropriately document that evaluation and clinical reasoning in the patient’s chart.

5. At least once every three (3) months, the licensee [prescribing or dispensing physician] shall obtain KASPER reports to help guide the treatment plan.

b. Appropriate clinical reasoning may include adjustment of dose strength, adjustment of frequency of visits, increased drug screening, a consultation with a specialist, or an alternative treatment.

c. Every twelve (12) months following initiation of treatment, if a patient’s prescribed daily therapeutic dosage exceeds the dose equivalency of sixteen (16) milligrams buprenorphine generic tablet per day and the licensee [prescribing or dispensing physician] is not certified by the American Board of Addiction Medicine, the American Board of Preventive Medicine, the American Board of Medical Specialties (ABMS) in psychiatry, or an American Osteopathic Association (AOA) certifying board in addiction medicine or psychiatry, then the licensee [prescribing or dispensing physician] shall obtain a consultation from a physician who is
certified by the American Board of Addiction Medicine, the American Board of Medical Specialties (ABMS) in psychiatry, or an American Osteopathic Association (AOA) certifying board in addiction medicine or psychiatry for an opinion as to whether continued treatment and dosage is appropriate and shall accurately document the results of that consultation in the patient chart.

d. The licensee [prescribing or dispensing physician] shall adjust dosages according to the individual patient’s condition and within acceptable and prevailing medical standards, with the goal of improving the patient’s quality of life and ability to function in the community.

f. The licensee [prescribing or dispensing physician] shall ensure that the patient is drug tested. A patient in early stages of treatment shall be tested at least once weekly and as the patient becomes more stable in treatment, the frequency of drug testing may be decreased, but shall be performed at least on a monthly basis. Individual consideration may be given for less frequent testing if a patient is in sustained remission. If the patient returns to substance use after a period of abstinence, the licensee [prescribing or dispensing physician] shall resume the early treatment testing schedule, in conjunction with an adapted or intensified treatment plan.

(iii) Appropriate clinical reasoning may include adjustment of dose strength, adjustment of frequency of visits, increased drug screening, a consultation with a specialist, or an alternative treatment.

6. The licensee [prescribing or dispensing physician] shall document a plan for handling any lost or stolen medication, which shall not provide for the automatic replacement of medication prior to the specified interval date.

Section 3. Use of transmucosal buprenorphine-mono-product or buprenorphine-combined-with-naloxone for treatment of opioid use disorder in an emergency situation or inpatient setting. (1) In an emergency, including in a hospital emergency department or similar outpatient urgent care setting, or in an inpatient setting, the licensee [prescribing or dispensing physician] may offer and initiate buprenorphine treatment to patients who present with opioid use disorder, without meeting the requirements established in Sections 1 and 2 of this administrative regulation and to the extent permitted by federal law, if:

(a) The licensee [physician] has determined that the use of buprenorphine-mono-product or buprenorphine-combined-with-naloxone will not result in a harmful interaction with other medications or substances in the patient’s system, including benzodiazepines, sedative hypnotics, carisoprodol, or tramadol;

(b) The licensee [physician] obtains and documents written informed consent from the patient specific to risks and benefits of buprenorphine treatment; and

The licensee [physician] shall initiate buprenorphine treatment under an observed induction protocol with an initial dose not to exceed the dose equivalency of four (4) milligrams buprenorphine generic tablet, which may be followed by subsequent doses, up to a maximum of twenty-four (24) milligrams buprenorphine generic tablet, if withdrawal persists and is not improving.

(1) Each licensee [physician] prescribing, [or] dispensing, or administering Buprenorphine-Mono-Product or Buprenorphine-Combined-With-Naloxone shall obtain and document all relevant information in a patient’s medical record in a legible manner and in sufficient detail to enable the board to determine whether the licensee [physician] is conforming to professional standards for prescribing, [or] dispensing, or administering Buprenorphine-Mono-Product or Buprenorphine-Combined-With-Naloxone and other relevant professional standards.

(2) If a licensee [physician] is unable to conform to professional standards for prescribing, [or] dispensing, or administering Buprenorphine-Mono-Product or Buprenorphine-Combined-With-Naloxone as set forth in this administrative regulation due to circumstances beyond the licensee’s [physician’s] control, or the licensee [physician] makes a professional determination that it is not appropriate to comply with a specific standard, based upon the individual facts applicable to a specific patient’s diagnosis and treatment, the licensee [physician] shall document those circumstances in the patient’s record and only prescribe, [or] dispense, or administer Buprenorphine-Mono-Product or Buprenorphine-Combined-With-Naloxone to the patient if the patient record appropriately justifies the prescribing, [or] dispensing, or administering of Buprenorphine-Mono-Product or Buprenorphine-Combined-With-Naloxone under the circumstances and in accordance with SAMHSA guidelines as set forth in: Substance Abuse and Mental Health Services Administration, [J.] Medications for Opioid Use Disorder, [J.] Treatment Improvement Protocol (TIP) Series 63, [J.] Publication No. PEP20-02-01-006, [J.] Rockville, MD: Substance Abuse and Mental Health Services Administration, 2020.

(7) Mediation may address issues surrounding the education of the child, including ongoing alleged violations of IDEA, compensatory education, or any other issue related to the child's enrollment in the school district.

Section 11. [Section 10.] Dispute Resolution. (1) Within fifteen (15) days of receiving notice of parental request for a due process hearing, the LEA shall convene a meeting with the parent and the relevant member or members of the ARC who have specific knowledge of the facts identified in the due process hearing request. A representative of the LEA who has decision-making authority on behalf of the LEA shall also attend this meeting. An attorney for the LEA shall not attend the meeting unless an attorney accompanies the parent.

(7) The timeline for issuing a final decision pursuant to 34 C.F.R. 300.515 shall begin at the expiration of the thirty (30) day timeline referred to in subsection (6) of this section, except for adjustments allowed in subsections (11) and (12) of this section.
(8) The failure of the parent who filed the due process hearing request to participate in the resolution meeting shall delay the timelines for the resolution process and the due process hearing until the meeting is held unless the parties have jointly agreed to waive the resolution process or use mediation.
(9) If the LEA is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made and documented, the LEA may request, at the conclusion of the thirty (30) day period, that a hearing officer dismiss the parent's due process hearing request.
(10) The LEA shall keep a record of the reasonable efforts made to obtain the participation of the parents in the resolution meeting such as:

(2) The Kentucky Department of Education shall provide a model form entitled "Request for a Due Process Hearing," that meets these requirements to assist parents in filing a request for a due process hearing.
(3) A party shall not have a due process hearing until the party, or the attorney representing the party, files a notice that contains the information listed in subsection (1) of this section. This notice shall be provided to the other party and to the Kentucky Department of Education.
(4) The procedures included in KRS Chapter 13B and IDEA Subpart E shall apply to a due process hearing.

Section 13. [Section 12.] Appeal of Decision. (1) A party to a due process hearing that is aggrieved by the hearing decision may appeal the decision to members of the Exceptional Children Appeals Board as assigned by the Kentucky Department of Education. The appeal shall be perfected by sending, by certified mail, to the Kentucky Department of Education, a request for appeal, within thirty (30) calendar days of the date of the hearing officer's decision.
(2) A decision made by the Exceptional Children Appeals Board shall be final unless a party appeals the decision to state circuit court or federal district court.
(3) Except as provided in Sections 15 [44] and 16 [45] of this administrative regulation, during the pendency of any administrative or judicial proceeding, including the dispute resolution meeting the child involved in the hearing or appeal shall
remain in the child's current educational placement, unless the LEA and the parent agree to another placement. However, the child shall not be required to remain in the child's current educational placement if the complaint involves an application for initial services for a child who is transitioning from the early intervention program into preschool and the complaint is no longer eligible for the early intervention program due to age. In that case the LEA shall not be required to provide the early intervention services the child had been receiving but would be required to provide any special education and related services that the child is eligible for and that are not in dispute between the parent and the LEA.

(4) If the hearing involves an application for initial admission to public school, and if there is consent of the parents, the child shall be placed in the public school until the proceedings are final.

Section 14 (Section 13) Discipline Procedures. (1) The ARC may consider any relevant circumstances [on a case-by-case basis] when determining whether to order a change in placement for a child with a disability who violates a code of student conduct. (2) School personnel may remove a student with a disability who violates a code of student conduct from the student's placement to an appropriate interim alternative education setting, another setting, or suspension, for not more than ten (10) consecutive school days (to the extent those alternatives are applied to children without disabilities).

(3) School personnel may remove a student with a disability from the student's current placement for additional periods of time or more than ten (10) consecutive school days in the same school year for separate incidents of misconduct as long as those removals do not constitute a change in placement because of disciplinary removals.

(4) If the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability (as described in Section 15 [14] of this administrative regulation), school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities for removals that would exceed ten (10) consecutive school days.

(5) After a child with a disability has been removed from the child's current placement for ten (10) school days in the same school year, educational services as described in subsection (6)(a) and (b) of this section shall be provided during any subsequent days of removal.

(6) A child with a disability who is removed from the child's current placement for more than ten (10) consecutive school days shall:

(a) Continue to receive a free, appropriate public education so as to enable the child to continue to participate in the general curriculum, although in another setting and to progress toward meeting the goals set out in the child's IEP; and

(b) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services, and modifications[,] that are designed to address the behavior violation so that it does not recur.

(7) The services described in subsection (6) of this section may be provided in an interim alternative educational setting.

(8) An LEA shall be required to provide educational services to a child with a disability during periods of removal of ten (10) or less school days in the same school year if it provides services to children without disabilities who are similarly removed.

(9) After a child with a disability has been removed from the child’s current placement for ten (10) school days in the same school year, and the current removal is for not more than ten (10) consecutive school days and is not a change in placement because of disciplinary removals, school personnel, in consultation with at least one (1) of the child's teachers, shall determine the extent to which educational services explained in subsection (6) of this section are needed.

(10) If a removal is a change in placement because of disciplinary removal, the child's ARC shall convene within ten (10) school days after the change of placement is made and shall determine the appropriate educational services for the child. If the student has been placed in an interim alternative educational setting, the LEA shall invite staff from that alternative setting to the ARC meeting.

Section 15 (Section 14) Manifestation Determination. (1) Within ten (10) school days of any decision to change the placement due to a child with a disability because of a violation of a code of student conduct, the relevant members of the child's ARC, as determined by the LEA and the parent, shall convene a meeting to review all relevant information in the student's file, including the child’s IEP, any teacher observations, teacher-collected data, and any relevant information provided by the parents to determine: (a) If the conduct in question was caused by, or had a direct and substantial relationship to the child’s disability; or (b) If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(2) The conduct shall be determined to be a manifestation of the child's disability if the ARC determines that either of the conditions in subsection (1)(a) or (b) of this section was met.

(3) If the ARC determines that the condition described in subsection (1)(b) of this section was met, the LEA shall take immediate steps to remedy those deficiencies.

(4) If the ARC determines that the conduct was a manifestation of the child’s disability, the ARC shall:

(a) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred and had implemented a behavioral intervention plan for the child; and

(b) Review the behavioral intervention plan, [56] if one had already been developed[,] and modify it, as necessary, to address the behavior; and

(c) Return the child to the placement from which the child was removed unless the LEA and the parent agree to a change of placement as part of the modification of the behavioral intervention plan or because of the special circumstances explained in subsection (5) of this section.

(5) School personnel may remove a child with a disability to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is a manifestation of the child’s disability, if the child:

(a) Carries a weapon to or possesses a weapon at school, on school premises, or at or to a school function under the jurisdiction of the Kentucky Department of Education or the LEA;

(b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the Kentucky Department of Education or the LEA; or

(c) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the Kentucky Department of Education or the LEA.

(6) On the date on which a decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of the code of student conduct, the LEA shall notify the parents of the decision and provide the parents with a copy of the procedural safeguards in accordance with Section 5(4) of this administrative regulation.

(7) The ARC of the child shall determine the interim alternative educational setting and the services for any child removed under Sections 14(4), 14(10), and 15(5) [13(4), (10), and (15)] of this administrative regulation.

Section 16 (Section 15) Appeals from Placement Decisions. (1) The parent of a child with a disability who disagrees with any decision regarding placement under Section 14 or 15 [12 or 14] of this administrative regulation or the manifestation determination, or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others may request a hearing by filing using the procedures contained in Sections 9 and 12 [8 and 11]. (2) A hearing officer shall hear and make a determination regarding an appeal requested pursuant to subsection (1) of this section.
(3) In making a determination, the hearing officer may order a change in placement of a child with a disability. The hearing officer may:
(a) Return the child to the placement from which the child was removed; or
(b) Order a change in placement of the child to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement is substantially likely to result in injury to the child or others.

(4) If an appeal has been requested pursuant to this section, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer, or until the expiration of the time provided for in subsection (3)(b) of this section, whichever occurs first, unless the parent and the LEA agree otherwise.

(5) An appeal under this section shall:
(a) Be conducted in an expedited manner;
(b) Shall occur within twenty (20) school days from the date the request is filed; and
(c) Shall result in a determination within ten (10) school days after the hearing.

Section 17. Basis of Knowledge. (1) An LEA shall be deemed to have knowledge that a child is a child with a disability if:
(a) The parent of the child has expressed concern in writing, by telephone, or in another manner that the child is in need of special education and related services;
(b) The LEA has received an evaluation pursuant to the requirements in 707 KAR 1:300; or
(c) The LEA has been informed by the teacher or teacher's representative of the child's needs.

(2) An LEA shall not be deemed to have knowledge that a child is a child with a disability if, after receiving information that the child may have a disability:
(a) The LEA conducted an evaluation and determined the child was not a child with a disability; or
(b) The LEA determined an evaluation was not necessary and provided notice to the parents of these determinations; or
(c) The parents refused to consent to an evaluation or refused initial services.

(3) If an LEA does not have knowledge that a child is a child with a disability prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities.

(4) If a request is made for an evaluation of a child during the period in which the child is subjected to disciplinary measures, the evaluation shall be conducted in an expedited manner. Until the evaluation is completed, the child shall remain in the educational placement determined by school authorities, which may include suspension or expulsion without educational services.

Section 18. Reporting to Law Enforcement Agencies. (1) Notwithstanding any provisions of 707 KAR Chapter 1, an agency may report a crime committed by a child with a disability to appropriate authorities.

(2) If an LEA reports a crime committed by a child with a disability, it shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to the extent the transmission is permitted by the Family Educational Rights and Privacy Act, 20 U.S.C. Section 1232g.

The vendor may begin submission of data once notified that it has been certified as an approved EDI vendor by the Department of Workers' Claims.

<th>Renewal Clause</th>
</tr>
</thead>

<td>Medical Expense</td>
<td>60% 55% 55% 50% 45%</td>

(c) The average annual premium per policy shall be computed by the insurer based on an anticipated distribution of business by all applicable criteria having a price difference, such as age, sex, amount, dependent status, rider frequency, etc., except assuming an annual mode for all policies (i.e., the fractional premium loading shall not affect the average annual premium or anticipated loss ratio calculation).

(d) The loss ratio for a Medicare supplement policy shall be as provided in 806 KAR 17:570 [806 KAR 17:050], regardless of renewal clause or average premium.

(2) Rate revisions. Except [Excepting] as provided in subsection (3) of this Section [below], with respect to filings of rate revisions for a previously approved form, benefits shall be deemed [reasonable in relation to premiums] if the following loss ratios meet the [above] standards for new forms, as established in subsection (1) of this Section and the loss ratio described in paragraph (b) of this subsection meet[meets] or exceed[exceeds] the initial filed expected loss ratio.

(a) The anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage.

(b) The anticipated loss ratio derived by dividing “A” by “B” where:

1. “A” is the sum of the accumulated value of the benefits, from the original effective date of the form or the effective date of this administrative regulation, whichever is later, to the effective date of the revision, and the present value of future benefits.

2. “B” is the sum of the accumulated value of the premiums from the original effective date of the form or the effective date of the administrative regulation, whichever is later, to the effective date of the revision, and the present value of future premiums.

3. The such present values shall[should] be taken over the entire period that [for which] the revised rates are computed to provide coverage, and the such values shall be calculated[such accumulated benefits and premiums] from the last date that [as of which an] accounting has been made to the effective date of the revision.

(3) Anticipated loss ratios other than those indicated in subsection (1) or (2) of this section shall[will] require justification based on the special circumstances that may be applicable.

(a) [Examples of] Coverages for which a lower loss ratio may receive special consideration are as follows:

1. Accident only;

2. Short term nonrenewable, e.g., airline trip, student accident;

3. Specified peril, e.g., common carrier; and

4. Other special risks.

(b) [Examples of other] Factors for which lower loss ratios may receive special consideration are as follows:

1. Marketing methods, giving due consideration to acquisition
and administration costs and to premium mode;
2. Extraordinary expenses;
3. High risk of claim fluctuation because of the low loss frequency or the catastrophic, or experimental nature of the coverage;
4. Product features such as long elimination periods, high deductibles and high maximum limits;
5. The industrial or debit method of distribution; and
6. Forms issued prior to the effective date of these guidelines.
(c) Insurers[Companies] shall [are urged to] review their experience periodically and [to] file rate revisions, as appropriate, in a timely manner to avoid the necessity of later filing of unacceptable large rate increases. For rate increases of more than thirty (30) percent, insurers[companies] may[will] be requested to implement the increase(rate increases of more than thirty (30) percent) over two (2) or more years.
(d) An example [Examples] of factors for which higher loss ratios may be required:
1. A form [Form] on which all initial expenses have been amortized.
2. A form [Form] on which rates have been increased to at least double their original level.
3. A form on which insurers[Companies] have not filed rate increases in a timely manner pursuant to subsection 3(c) of this section[Section 4.3(c)].
(e) When rates are submitted for new forms, the Department may require subsequent filings to demonstrate that the loss ratio required by subsection (1)(a) of this section[Section 4.1(a)] is being met.

Section 6.5 Miscellaneous Considerations.
(1) Additional data that [which] may be included in the support of rate filings includes data such as the[but is not limited to] substitution of actual claim run-offs for claim reserves and liabilities, in order to avoid the problems of short-term developments, accident-year loss ratios, supporting trends, the operation of any experience funds or stabilization reserves, and the adjustment of premiums to an annual mode basis.
(2) All additional data shall[must] be reconciled, as appropriate, to the required data, and any missing data explained.

Section 7.6 Severability. If any provision of this administrative regulation or the application thereof to any person or circumstance is for any reason held to be invalid, the remainder of this administrative regulation and the application of the provision to other persons or circumstances shall not be affected thereby.

807 KAR 5:015. Access and attachments to utility poles and facilities.

RELATES TO: KRS Chapter 278. 47 U.S.C.A. 224(c) 224(c)
STATUTORY AUTHORITY: KRS 278.030(1), 278.040(2), 278.040(3), HB 320 (2021)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 278.040(3) authorizes the commission to promulgate administrative regulations to implement the provisions of KRS Chapter 278. KRS 278.040(2) requires the commission to have exclusive jurisdiction over the regulation of rates and service of utilities. KRS 278.030(1) authorizes utilities to demand, collect, and receive fair, just, and reasonable rates. KRS 278.030(2) requires every utility to furnish adequate, efficient, and reasonable service. House Bill 320 from the 2021 Regular Session of the General Assembly requires the commission to promulgate administrative regulations regarding pole attachment or relocation of any existing telecommunications equipment or attachment, including those necessary for the provision of broadband. 47 U.S.C.A. § 224(c) requires that state regulation of pole attachments shall only preempt federal regulation of poles under federal jurisdiction if the state regulates the rates, terms, and conditions of access to those poles, has the authority to consider and does consider the interest of the customers of the pole, and the pole, owning utility, has effective rules and regulations governing attachments; and addresses complaint's regarding pole attachments within 360 days. This administrative regulation establishes the process by which the commission regulates the rates, terms, and conditions of utility pole attachments and access to other utility facilities, establishes specific criteria and procedures for obtaining access to utility poles within the commission's jurisdiction, and establishes a process by which the complaints of those seeking to access utility facilities shall be addressed within the period established by federal law.

Section 1. Definitions
(1) "Attachment" means any attachment by a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit to a pole owned or controlled by a utility.
(2) "Broadband internet provider" means a person who owns, operates, or manages any facility used to provide internet service to the public with download speeds of at least twenty-five (25) megabits per second and upload speeds of at least three (3) megabits per second. The term "broadband internet provider" does not include a utility with an applicable joint use agreement with the utility that owns or controls the pole to which it is seeking to attach.
(3) "Communication space" means the lower usable space on a utility pole, which is typically reserved for low-voltage communications equipment.
(4) "Complex make-ready" means any make-ready that is not simple make-ready, such as the replacement of a utility pole; splicing of any existing make-ready or relocation of existing wireless attachments, even within the communications space; and any transfers or work relating to the attachment of wireless facilities.
(5) "Existing attacher" means any person or entity with property on a utility pole.
(6) "Governmental unit" means an agency or department of the federal government, a state government, a county, or district, or other political subdivision of the Commonwealth of Kentucky.
(7) "Macro cell facility" means a wireless communications system site that is typically high-power and high-sited, and capable of covering a large physical area, as distinguished from a distributed antenna system, small cell, or WiFi attachment, for example.
(8) "Make-ready" means the modification or replacement of a utility pole, or of the lines or equipment on the utility pole, to accommodate additional facilities on the utility pole.
(9) "New attacher" means a cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit requesting to attach new or upgraded facilities to a pole owned or controlled by a utility, except that a new attacher does not include a utility with an applicable joint use agreement with the utility that owns or controls the pole to which it is seeking to attach or a person seeking to attach macro cell facilities.
(10) "Red tagged pole" means a pole that a utility that owns or controls the pole:
   (a) Designated for replacement based on the pole's[poles] non-compliance with an applicable safety standard;
   (b) Designated for replacement within two (2) years of the date of its actual replacement for any reason unrelated to a new attacher's request for attachment; or
   (c) Would have needed to replace at the time of replacement even if the new attachment were not made.
(11) "Telecommunications carrier" does not include a utility with an applicable joint use agreement with the utility that owns or controls the pole to which it is seeking to attach.
(12) "Simple make-ready" means make-ready in which existing attachments in the communications space of a pole could be rearranged without any reasonable expectation of a service outage or facility damage and does not require splicing of any existing communication attachment or relocation of an existing wireless attachment.

Section 2. Duty to Provide Access to Utility Poles and Facilities.
(1) Except as established in paragraphs (a), (b), and (c) of this subsection, a utility shall provide any cable television system operator, telecommunications carrier, broadband internet provider, or governmental unit nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by it.
(a) A utility may deny access to a pole, duct, conduit, or right-of-way on a non-discriminatory basis where there is insufficient capacity or for reasons of safety, reliability, and generally applicable engineering purposes;
(b) A utility shall not be required to provide access to any pole that is used primarily to support outdoor lighting; and
(c) A utility shall not be required to secure any right-of-way, easement, license, franchise, or permit required for the construction or maintenance of attachments or facilities from a third party for or on behalf of a person or entity requesting access pursuant to this administrative regulation to any pole, duct, conduit, or right-of-way owned or controlled by the utility.
(2) A request for access to a utility's poles, ducts, conduits or rights-of-way shall be submitted to a utility in writing, either on paper or electronically, as established by a utility's tariff or a special contract between the utility and person requesting access.
(3) If a utility provides access to its poles, ducts, conduits, or rights-of-way pursuant to an agreement that establishes rates, terms[charges], or conditions for access not contained in its tariff:
   (a) The rates, terms[charges], and conditions of the agreement shall be in writing; and
   (b) The utility shall file the written agreement with the commission pursuant to 807 KAR 5:011, Section 13.

Section 3. Pole Attachment Tariff Required.
(1) A utility that owns or controls utility poles located in Kentucky shall maintain on file with the commission a tariff that includes rates, terms, and conditions governing pole attachments.
in Kentucky that are consistent with the requirements of this administrative regulation and KRS Chapter 278.

(2) The tariff may incorporate a standard contract or license for attachments if its terms and conditions are consistent with the requirements of this administrative regulation and KRS Chapter 278, such as certain limitations on liability, indemnification and insurance requirements, and restrictions on access to utility poles for reasons of lack of capacity, safety, reliability, or generally applicable engineering standards.

(3) Standard contracts or licenses for attachments permitted by subsection (2) of this section shall prominently indicate that the contracts or licenses are based wholly on the utility’s tariff and that the tariff shall control if there is a difference.

(4) The tariff may include terms, subject to approval by the commission, that are fair, just, and reasonable and consistent with the requirements of this administrative regulation and KRS Chapter 278, such as certain limitations on liability, indemnification and insurance requirements, and restrictions on access to utility poles for reasons of lack of capacity, safety, reliability, or generally applicable engineering standards.

(5) Overlashing [The tariff shall not prohibit overlashing except if doing so is justified by lack of capacity, safety, or reliability concerns, or applicable engineering standards.]

(a) A utility shall not require prior approval for an existing attacher that overlashes its existing wires on a pole; or for third party overlashing of an existing attachment that is conducted with the permission of an existing attacher.

(b) A utility may not prevent an attacher from overlashing because another existing attacher has not fixed a preexisting violation. A utility may not require an existing attacher that overlashes its existing wires on a pole to fix preexisting violations caused by another existing attacher, unless failing to fix the preexisting violation would create a capacity, safety, reliability, or engineering issue.

(c) A utility may require no more than thirty (30) days’ advance notice of planned overlashing. If a utility requires advance notice for overlashing, then the utility must include the notice requirement in its tariff or include the notice requirement in the agreement with the existing attacher. If after receiving advance notice, the utility determines that an overlash would create a capacity, safety, reliability, or engineering issue, it must provide specific documentation of the issue to the party seeking to overlash within the thirty (30) day advance notice period. If the party seeking to overlash does not agree with the utility’s advance notice requirement within fifteen (15) days after receipt of the utility’s determination, the party seeking to overlash must address any identified issues before continuing with the overlash even if the utility modifies its proposal or by explaining why, in the party’s view, a modification is unnecessary.

(d) A party that engages in overlashing is responsible for its own equipment and shall ensure that it complies with reasonable safety, reliability, and engineering practices. If damages to a pole or other existing attachment result from overlashing or overlashing work causing safety or engineering standard violations, then the overlashing party is responsible at its expense for any necessary repairs.

(e) An overlashing party shall notify the affected utility within fifteen (15) days of completion of the overlash on a particular pole. The notice shall provide the affected utility at least ninety (90) days from receipt in which to inspect the overlash. The utility has fourteen (14) days after completion of its inspection to notify the overlashing party of any damage or code violations to its equipment caused by the overlash. If the utility discovers damages or code violations caused by the overlash on equipment belonging to the utility, then the utility shall inform the overlashing party and provide adequate documentation of the damage or code violations. The utility may either complete any necessary remedial work and bill the overlashing party for the reasonable costs related to fixing the damage or code violations or require the overlashing party to fix the damage or code violations at its expense within fourteen (14) days following notice from the utility.

(6) Signed standard contracts or licenses for attachments permitted by subsection (2) of this section shall be submitted to the commission but shall not be filed pursuant to 807 KAR 5.011, Section 13.

(7) Tariffs conforming to the requirements of this administrative regulation and with a proposed effective date no later than March 31, 2022, shall be filed by February 28, 2022.

(1) All time limits established in this section shall be calculated according to 807 KAR 5:001, Section 4(7).

(2) Application review and survey.

(a) Application completeness.

1. A utility shall review a new attacher’s pole attachment application for completeness before reviewing the application on its merits and shall notify the new attacher within ten (10) business days after receipt of the new attacher’s pole attachment application if the application is incomplete.

2. A new attacher’s pole attachment application shall be considered complete if the application provides the utility with the information necessary under its procedures, as established in the utility’s applicable tariff or a special contract regarding pole attachments between the utility and the new attacher, to begin to survey the affected poles.

If the utility notifies a new attacher that its attachment application is not complete, then it must specify all reasons for finding it incomplete.

4. If the utility does not respond within ten (10) business days after receipt of the application, or if the utility rejects the application as incomplete but fails to state any reasons in the utility’s response, then the application shall be deemed complete.

(b) Survey and application review on the merits.

1. A utility shall complete a survey of poles for which access has been requested within forty-five (45) days of receipt of a complete application to attach facilities to its utility poles (or within sixty (60) days in the case of larger orders as established in subsection (7) of this section) for the purpose of determining if the attachments may be made and identifying any make-ready to be completed to allow for the attachment.

2. Participation of attachers in surveys conducted by a utility.

(a) A utility shall allow the new attacher and any existing attachers on the affected poles to be present for any field inspection conducted as part of a utility’s survey conducted pursuant paragraph (b)(1) of this subsection.

b. A utility shall use commercially reasonable efforts to provide the affected attachers with advance notice of not less than five (5) business days of any field inspection as part of the survey and shall provide the date, time, and location of the inspection, and name of the contractor, if any, performing the inspection.

3. If a new attacher has conducted a survey pursuant to subsection (10)(b)(c) of this section, or a new attacher has otherwise conducted and provided a survey, after giving existing attachers notice and an opportunity to participate in a manner consistent with subsection (10)(b)(e), a utility may elect to satisfy survey obligations established in this paragraph by notifying affected attachers of the intent to use the survey conducted by the new attacher and by providing a copy of the survey to the affected attachers within the time period established in subparagraph 1 of this paragraph.

4. Based on the results of the applicable survey and other relevant information, a utility shall respond to the new attacher either by granting access or denying access within forty-five (45) days of receipt of a complete application to attach facilities to its utility poles (or within 60 days in the case of larger orders as described in subsection (7) of this section).

5. A utility’s denial of a new attacher’s pole attachment application shall be specific, shall include all relevant evidence and information supporting the denial, and shall explain how the evidence and information relate to a denial of access for reasons of lack of capacity, safety, reliability, or engineering standards.

6. Payment of survey costs and estimates.

a. A utility’s tariff may require prepayment of the costs of surveys made to review a pole attachment application, or some other reasonable security or assurance of credit worthiness, before a utility shall be obligated to conduct surveys pursuant to this section.

b. If a utility’s tariff requires prepayment of survey costs, the
utility shall include a per pole estimate of costs in the utility’s tariff and the payment of estimated costs shall satisfy any requirement that survey costs be prepaid.

c. The new attacher shall be responsible for the costs of surveys made to review the new attacher’s pole attachment application even if the new attacher decides not to go forward with the attachments.

(3) Payment of make-ready estimates.

(a) Within fourteen (14) days of providing a response granting access pursuant to subsection (2)(b)4. of this section, a utility shall send a new attacher whose application for access has been granted a detailed, itemized estimate in writing, on a pole-by-pole basis if requested and reasonably calculable, and consistent with subsection (6)(b) of this section, of charges to perform all necessary make-ready.

(b) A utility shall provide documentation that is sufficient to determine the basis of all estimated charges, including any projected material, labor, and other related costs that form the basis of the estimate.

(c) A utility may withdraw an outstanding estimate of charges to perform make-ready beginning fourteen (14) days after the estimate is presented.

(d) A new attacher may accept a valid estimate and make payment any time after receipt of an estimate, except a new attacher shall not accept the estimate after the estimate is withdrawn.

(4) Make-ready. Upon receipt of payment for survey costs owed pursuant to the utility’s tariff and the estimate specified in subsection (3)(d) of this section, a utility shall, as soon as practical but in no case more than seven (7) days, notify all known entities with existing attachments in writing that could be affected by the make-ready.

(a) For make-ready in the communications space, the notice shall:
   1. State where and what make-ready will be performed;
   2. State a date for completion of make-ready in the communications space that is no later than thirty (30) days after notification is sent (or up to seventy-five (75) days in the case of larger orders as established in subsection (7) of this section);
   3. State that any entity with an existing attachment may modify the attachment consistent with the specified make-ready before the date established for completion;
   4. State that, if make-ready is not completed by the completion date established by the utility in subparagraph 2. of this paragraph, the new attacher may complete the make-ready specified pursuant to subparagraph 1. of this paragraph; and
   5. State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

(b) For make-ready above the communications space, the notice shall:
   1. State where and what make-ready will be performed;
   2. State a date for completion of make-ready that is no later than ninety (90) days after notification is sent (or 135 days in the case of larger orders, as established in subsection (7) of this section);
   3. State that any entity with an existing attachment may modify the attachment consistent with the specified make-ready before the date established for completion;
   4. State that the utility may assert the utility’s right to fifteen (15) additional days to complete make-ready;
   5. State that if make-ready is not completed by the completion date established by the utility in subparagraph 2. of this paragraph or, if the utility has asserted its fifteen (15) day right of control, fifteen (15) days later), the new attacher may complete the make-ready specified pursuant to subparagraph 1. of this paragraph; and
   6. State the name, telephone number, and email address of a person to contact for more information about the make-ready procedure.

(c) Once a utility provides the notices required by this subsection, the utility shall provide the new attacher with a copy of the notices and the existing attachers’ contact information and address where the utility sent the notices. The new attacher shall

be responsible for coordinating with existing attachers to encourage completion of make-ready by the dates established by the utility pursuant to paragraph (a)2. of this subsection for communications space attachments or paragraph (b)2. of this subsection for attachments above the communications space.

(5) A utility shall complete its make-ready in the communications space by the same dates established for existing attachers in subsection (4)(a)2. of this section or its make-ready above the communications space by the same dates for existing attachers in subsection (4)(b)2. of this section (or if the utility has asserted its fifteen (15) day right of control, fifteen (15) days later).

(6) Final invoice.

(a) Within a reasonable period, not to exceed 120(ninety-(90)) days after a utility completes the utility’s make-ready, the utility shall provide the new attacher:
   1. A detailed, itemized final invoice of the actual survey charges incurred if the final survey costs for an application differ from any estimate previously paid for the survey work or if no estimate was previously paid; and
   2. A detailed, itemized final invoice, on a pole-by-pole basis if requested and reasonably calculable, of the actual make-ready costs to accommodate attachments if the final make-ready costs differ from the estimate provided pursuant to subsection (3)(d) of this section.

(b) Limitations on make-ready costs.

1. A utility shall not charge a new attacher, as part of any invoice for make-ready, to bring poles, attachments, or third-party or utility equipment into compliance with current published safety, reliability, and pole owner construction standards or the poles, attachments, or third-party or utility equipment were out of compliance because of work performed by a party other than the new attacher prior to the new attachment.

2. A utility shall not charge a new attacher, as part of any invoice for make-ready, the cost to replace any red tagged pole with a replacement pole of the same type and height.

3. If a red tagged pole is replaced with a pole of a different type or height, then the new attacher shall be responsible, as part of any invoice for make-ready, only for the difference, if any, between the cost for the replacement pole and the cost for a new utility pole of the type and height that the utility would have installed in the same location in the absence of the new attachment.

4. The make ready cost, if any, for a pole that is not a red tagged pole to be replaced with a new utility pole to accommodate the new attacher’s attachment shall be charged in accordance with the utility’s tariff or a special contract regarding pole attachments between the utility and the new attacher.

(7) For the purposes of compliance with the time periods in this section:

(a) A utility shall apply the timeline as established in subsections (2) through (4) of this section to all requests for attachment up to the lesser of 300 poles or zero and five-tenths (0.5) percent of the utility’s poles in the state;

(b) A utility may add up to fifteen (15) days to the survey period established in subsection (4) of this section to larger orders up to the lesser of 1,000 poles or 1.50 percent of the utility’s poles in Kentucky.

(c) A utility may add up to forty-five (45) days to the make-ready periods established in subsection (4) of this section to larger orders up to the lesser of 1,000 poles or 1.50 percent of the utility’s poles in Kentucky.

(d) A utility shall negotiate in good faith the timing of all requests for attachment larger than the lesser of 1,000 poles or 1.50 percent of the utility’s poles in Kentucky;

(e) A utility may treat multiple requests from a single new attacher as one request if the requests are submitted within thirty (30) days of one another; and

(f) As soon as reasonably practicable, but no less than sixty (60) days before the new attacher expects to submit an application in which the number of requests exceed the lesser of the amounts identified in paragraph (a) of this subsection, a new attacher shall provide written notice to a utility in the manner and form stated in the utility’s tariff that the new attacher expects to submit a high volume request.
Deviations from make-ready timeline

(a) A utility may deviate from the time limits specified in this section before offering an estimate of charges if the new attacher failed to satisfy a condition in the utility’s tariff or in a special contract between the utility and the new attacher.

(b) A utility may deviate from the time limits established in this section during performance of make-ready for good and sufficient cause that renders it infeasible for the utility to complete make-ready within the time limits established in this section. A utility that so deviates shall immediately notify, in writing, the new attacher and affected existing attachers and shall identify the affected poles and include a detailed explanation of the reason for the deviation and a new completion date. The utility shall deviate from the time limits established in this section for a period no longer than necessary to complete make-ready on the affected poles and shall resume make-ready without discrimination once the utility returns to routine operations.

(c) An existing attacher may deviate from the time limits established in this section during performance of complex make-ready for reasons of safety or service interruption that renders it infeasible for the new attacher to complete complex make-ready within the time limits established in this section. An existing attacher that so deviates shall immediately notify, in writing, the new attacher and other affected existing attachers and shall identify the affected poles and include a detailed explanation of the basis for the deviation and a new completion date, which shall not extend beyond sixty (60) days from the completion date provided in the notice. Make-ready described in subsection (4) of this section shall be deemed completed by the utility (or up to 105 days in the case of larger orders described in subsection 6(b) and (c) of this section). The existing attacher shall not deviate from the time limits established in this section for a period longer than necessary to complete make-ready on the affected poles.

Self-help remedy

(a) Surveys. If a utility fails to complete a survey as established in subsection (2)(b) of this section, then a new attacher may conduct the survey in place of the utility by hiring a contractor to complete a survey as specified in Section 5 of this administrative regulation.

1. A new attacher shall allow the affected utility and existing attachers to be present for any field inspection conducted as part of the new attacher’s survey.

2. A new attacher shall use commercially reasonable efforts to provide the affected utility and existing attachers with advance notice of not less than five (5) business days of a field inspection as part of any survey the new attacher conducts.

3. The notice shall include the date and time of the survey, a description of the work involved, and the name of the contractor being used by the new attacher.

(c) Make-ready is not complete by the applicable date established in subsection (4) of this section, then a new attacher may conduct the make-ready in place of the utility and existing attachers by hiring a contractor to complete the make-ready as specified in Section 5 of this administrative regulation.

1. A new attacher shall allow the affected utility and existing attachers to be present for any make-ready.

2. A new attacher shall use commercially reasonable efforts to provide the affected utility and existing attachers with advance notice of not less than seven (7) days of the impending make-ready.

3. The notice shall include the date and time of the make-ready, a description of the work involved, and the name of the contractor being used by the new attacher.

(d) Pole replacements. Self-help shall not be available for pole replacements.

One-touch make-ready option. For attachments involving simple make-ready, new attachers may elect to proceed with the process established in this subsection in lieu of the attachment process established in subsections (2) through (6) and (9) of this section.

(a) Attachment application.

1. A new attacher electing the one-touch make-ready process shall elect the one-touch make-ready process in writing in its attachment application and shall identify the simple make-ready that it will perform. It is the responsibility of the new attacher to ensure that its contractor determines if the make-ready requested in an attachment application is simple.

2. Application completeness.

a. The utility shall review the new attacher’s attachment application for completeness before reviewing the application on its merits and shall notify the new attacher within ten (10) business days after receipt of the new attacher’s application as to whether or not the application is complete.

b. An attachment application shall be considered complete if the application provides the utility with the information necessary under its procedures, as established in the utility’s applicable tariff or a special contract regarding pole attachments between the utility and the new attacher, to make an informed decision on the application.

c. If the utility notifies the new attacher that an attachment application is not complete, then the utility shall state all reasons for finding the application incomplete.

d. If the utility fails to notify a new attacher in writing that an application is incomplete within ten (10) business days of receipt, then the application shall be deemed complete.

The utility or the existing attacher shall review the merits of an application within fifteen (15) days of the utility’s receipt of a complete application (or within thirty (30) days in the case of larger orders as established in subsection (7)(b) of this section or within a time negotiated in good faith for requests equal to or larger than those established in (7)(d)).

If the utility denies the application on its merits, then the utility’s decision shall be specific, shall include all relevant evidence and information supporting its decision, and shall explain how the evidence and information relate to a denial of access.

b. Within the fifteen (15) days application review period (or within thirty (30) days in the case of larger orders as established in subsection (7)(b) of this section or within a time negotiated in good faith for requests equal to or larger than those established in (7)(d)), a utility or an existing attacher may object to the designation by the new attacher’s contractor that certain make-ready is simple.

c. An objection made pursuant to clause b. of this subparagraph shall be specific and in writing, include all relevant evidence and information supporting the objection, be made in good faith, and explain in detail how the application deviates from the time limits established in this section.

3. If the utility’s or the existing attacher’s objection to the new attacher’s determination that make-ready is simple complies with the requirements established in subsection (7)(c) of this section, then the make-ready shall be deemed to be complex and the new attacher may not proceed with the affected proposed one-touch make-ready.

(b) Surveys.

1. The new attacher shall be responsible for all surveys required as part of the one-touch make-ready process and shall use a contractor as established in Section 5(2) of this administrative regulation to complete surveys.

2. The new attacher shall allow the utility and any existing attachers on the affected poles to be present for any field inspection conducted as part of the new attacher’s surveys.

3. The new attacher shall use commercially reasonable efforts to provide the utility and affected existing attachers with advance notice of not less than five (5) business days of a field inspection as part of any survey and shall provide the date, time, and location of the surveys, and name of the contractor performing the surveys.

(c) Make-ready. If the new attacher’s attachment application is approved and if the attachment has provided fifteen (15) days prior written notice of the make-ready to the affected utility and existing attachers, the new attacher may proceed with make-ready using a...
Section 5. Contractors for Survey and Make-ready.

1. Contractors for self-help complex and above the communications space on a utility's poles that is complex and self-help surveys and make-ready that is above the communications space on the utility's poles. The new attacher must use a contractor from this list to perform self-help work that is complex or above the communications space. New and existing attachers may request the addition to the list of any contractor that meets the minimum qualifications in subsection (3) of this section and the utility shall not unreasonably withhold its consent.

2. Contractors for surveys and simple work. A utility may keep up-to-date a reasonably sufficient list of contractors the utility authorizes to perform surveys and make-ready that is complex and self-help surveys and make-ready that is above the communications space on the utility's poles. The new attacher shall choose a contractor from this list to perform self-help work that is complex or above the communications space. New and existing attachers may request the addition to the list of any contractor that meets the minimum qualifications in subsection (3) of this section and the utility shall not unreasonably withhold its consent.

(a) 1. If the utility does not provide a list of approved contractors for surveys or simple make-ready or no utility-approved contractor is available within a reasonable time period, then the new attacher may choose its own qualified contractor that shall meet the requirements in subsection (3) of this section.

(b) 1. The utility may disqualify any contractor chosen by the new attacher that is not on a utility-provided list, but a disqualification shall be based on reasonable safety or reliability concerns related to the contractor's failure to meet any of the minimum qualifications established in subsection (3) of this section or to meet the utility's publicly available and commercially reasonable safety or reliability standards.

2. The utility shall provide notice of the utility's objection to the contractor within the notice periods established by the new attacher in Section 4(9)(a)2., (9)(b)2., (10)(b)3., and (10)(c) of this administrative regulation and in the utility's objection must identify at least one available qualified contractor.

3. Contractor minimum qualification requirements. Utilities shall ensure that contractors on a utility-provided list, and new attachers shall ensure that contractors selected pursuant to subsection (2)(a) of this section, meet the minimum requirements established in paragraphs (a) through (e) of this subsection.

(a) The contractor has agreed to follow published safety and operational guidelines of the utility, if available, but if unavailable, the contractor shall agree to follow National Electrical Safety Code (NESC) guidelines.

(b) The contractor has acknowledged that the contractor knows how to read and follow licensed-engineered pole designs for make-ready, if required by the utility.

(c) The contractor has agreed to follow local, state, and federal laws and regulations including the rules regarding Qualified and Competent Persons under the requirements of the Occupational and Safety Health Administration (OSHA) rules.

(d) The contractor has agreed to meet or exceed any uniformly applied and reasonable safety and reliability thresholds established by the utility, if made available.

(e) The contractor shall be adequately insured or shall establish an adequate performance bond for the make-ready the contractor will perform, including work the contractor will perform on facilities owned by existing attachers.

4. A consulting representative of a utility may make final determinations, on a nondiscriminatory basis, if there is insufficient capacity and reasonable safety, reliability, and generally applicable engineering purposes.

Section 6. Notice of Changes to Existing Attachers.

1. Unless otherwise established in a joint use agreement or special contract, a utility shall provide an existing attacher no less than sixty (60) days written notice prior to:

(a) Removal of facilities or termination of any service to those facilities if that removal or termination arises out of a rate, term, or condition of the utility's pole attachment tariff or any special contract regarding pole attachments between the utility and the attacher; or

(b) Any modification of facilities by the utility other than make-ready noticed pursuant to Section 4 of this administrative regulation, routine maintenance, or modifications in response to emergencies.

2. Stays from removals, terminations, and modifications noticed pursuant to subsection (1) of this section.

(a) An existing attacher may request a stay of the action contained in a notice received pursuant to subsection (1) of this section by filing a motion pursuant to 807 KAR 5:001, Section 4 within fifteen (15) days of the receipt of the first notice provided pursuant to subsection (1) of this section.

(b) The motion shall be served on the utility that provided the notice pursuant to 807 KAR 5:001, Section 5(1).

(c) The motion shall not be considered unless it includes the relief sought, the reasons for such relief, including a showing of irreparable harm and likely cessation of cable television system operator or telecommunication service, a copy of the notice, and a certificate that service was provided pursuant to paragraph (b) of this subsection.

(d) The utility may file a response within ten (10) days of the date the motion for a temporary stay was filed.

(e) No further filings under this subsection shall be considered unless requested or authorized by the commission.

3. Transfer of attachments to new poles.

(a) Unless an applicable tariff or special contract or Section 4 of this administrative regulation establishes a different timeframe, existing attachers shall transfer their attachments within sixty (60) days of receiving written notice from the utility pole owner.

(b) Existing attachers may deviate from the time limit established in paragraph (a) of this subsection for good and sufficient cause that renders it infeasible for the existing attacher to complete the transfer within the time limit established. An existing attacher that requires such a deviation shall immediately notify, in writing, the utility and shall identify the affected poles and include a detailed explanation of the reason for the deviation and the date by which the attacher shall complete the transfer. An existing attacher shall deviate from the time limits established in paragraph (a) of this subsection for a period no longer than is necessary to complete the transfer.

(c) If an existing attacher fails to transfer its attachments within the timeframe established in paragraph (a) of this subsection and...
the existing attacher has not notified the utility of good and
sufficient cause for extending the time limit pursuant to paragraph
(a) of this subsection, a utility pole owner may transfer attachments
at the existing attacher’s expense.

(d) A utility pole owner may transfer an existing attacher’s
attachment prior to the expiration of any period established by
paragraph (a) or (b) of this subsection if an expedited transfer is
necessary for safety or reliability purposes.

Section 7. Complaints for Violations of This Administrative
Regulation.

(1) Contents of complaint. Each complaint shall be headed
“Before the Public Service Commission,” shall establish the names
of the complainant and the defendant, and shall state:
(a) The full name and post office address of the complainant;
(b) The full name and post office address of the defendant;
(c) Fully, clearly, and with reasonable certainty, the act or
omission, of which complaint is made, with a reference, if
practicable, to the law, order, or administrative regulation, of which
a failure to comply is alleged, and other matters, or facts, if any, as
necessary to acquaint the commission fully with the details of the
alleged failure; and
(d) The relief sought.

(2) Signature. The complainant or his or her attorney, if
applicable, shall sign the complaint. A complaint by a corporation,
association, or another organization with the right to file a
complaint, shall be signed by its attorney.

(3) How filed.
(a) Complaints shall be filed in accordance with the electronic
filing procedures in 807 KAR 5:001, Section 8.
(b) Notwithstanding 807 KAR 5:001, Section 8(3), the filing
party shall file two (2) copies in paper medium with the commission
in the manner required by 807 KAR 5:001, Section 8(12)(a)2.

(4) Procedure on filing of complaint.
(a) Upon the filing of a complaint, the commission shall
immediately examine the complaint to ascertain if it establishes a
prima facie case and conforms to this administrative regulation.
1. If the commission finds that the complaint does not establish
a prima facie case or does not conform to this administrative
regulation, the commission shall notify the complainant and provide
the complainant an opportunity to amend the complaint within a
stated time.
2. If the complaint is not amended within the time or the
extension as the commission, for good cause shown, shall grant,
the complaint shall be dismissed.
(b) If the complaint, either as originally filed or as amended,
establishes a prima facie case and conforms to this administrative
regulation, the commission shall serve an order upon the person
complained of, accompanied by a copy of the complaint, directed
to the person complained of and the defendant, if the complaint
complained of be satisfied, or that the complaint be answered in
writing within ten (10) days from the date of service of the order.
The commission may require the answer to be filed within a shorter
period if the complaint involves an emergency situation or
otherwise would be detrimental to the public interest.
(5) Satisfaction of the complaint. If the defendant desires to
satisfy the complaint, he or she shall submit to the commission,
within the time allowed for satisfaction or answer, a statement of
the relief that the defendant is willing to give. Upon the acceptance
of this offer by the complainant and with the approval of the
commission, pursuant to KRS Chapter 278 and this administrative
regulation, the case shall be dismissed.
(6) Answer to complaint. If the complainant is not satisfied with
the relief offered, the defendant shall file an answer to the
complaint within the time stated in the order or the extension as the
commission, for good cause shown, shall grant.
(a) The answer shall contain a specific denial of the material
allegations of the complaint as controverted by the defendant and
also a statement of any new matters constituting a defense.
(b) If the defendant does not have information sufficient to
answer an allegation of the complaint, the defendant may so state in
the answer and place the denial upon that ground.
(7) Burden of proof.

(a) The complainant has the burden of establishing it is entitled
to the relief sought.
(b) The commission may presume that a pole replaced to
accommodate a new attachment was a red tagged pole if:
1. There is a dispute regarding the condition of the pole at the
time it was replaced; and
2. The utility failed to document and maintain records that
inspections were conducted pursuant to 807 KAR 5:006 and that
no deficiencies were found on the pole or poles at issue, or if
inspections of poles are not required pursuant to 807 KAR 5:006,
the utility failed to periodically inspect and document the condition
of its poles.
(b) Time for final action.
(a) The commission shall take final action on a complaint
regarding the rates, terms, or conditions for alleging a
person or entity was unlawfully denied access to a utility’s pole,
duct, conduit, or right-of-way within 180 days of a complaint
establishing a prima facie case being filed, unless the commission
finds it is necessary to continue the proceeding for good cause for
up to 360 days from the date the complaint establishing a prima
facie case is filed.
(b) The period within which final action shall be taken may be
extended beyond 360 days upon agreement of the complainant
and defendant and approval of the commission.

This is to certify that the Public Service Commission approved
promulgation of this administrative regulation, pursuant to KRS
278.040(3), on September 15, 2021.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: J.E.B. Pinney
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative
regulation provides the process by which the commission regulates the
rates, terms, and conditions of utility pole attachments and
access to other utility facilities, establishes specific criteria and
procedures for obtaining access to utility poles within the Kentucky
Public Service Commission’s (PSC) jurisdiction, and establishes a
procedure by which the complaints of those seeking to access utility
facilities shall be addressed within the period established by federal
law.
(b) The necessity of this administrative regulation: House Bill 320
from the 2021 Regular Session of the General Assembly requires the
Commission to promulgate administrative regulations regarding pole
attachments under its jurisdiction, including those necessary for the
provision of broadband by December 31, 2021. Further, pursuant to
47 U.S.C.A. § 224(c), if a state does not regulate the rates, terms,
and conditions of access to utility poles in a manner prescribed therein,
then poles owned by investor owned utilities are subject to regulation by
the Federal Communications Commission (FCC). Finally, various state and federal efforts to
expand broadband access, as well as changes in technology, have
or are likely to result in increased interest in new pole attachments,
and there is a need for a clear process to govern pole attachments
to avoid delays that may slow or prevent broadband deployment in
Kentucky.
(c) How this administrative regulation conforms to the content of
the authorizing statutes: KRS 278.040(3) provides that the
Commission may promulgate administrative regulations to
implement the provisions of KRS Chapter 278. KRS 278.040(2)
states that the Commission has exclusive jurisdiction over the
regulation of rates and services of utilities. KRS 278.030(1)
provides that all rates received by a utility shall be fair, just, and reasonable. KRS 278.030(2) provides that every utility shall furnish adequate, efficient, and reasonable service. In Kentucky CATV Ass'n v. Volz, 675 S.W.2d 393 (Ky. App. 1983), the Court of Appeals held that utility pole attachments are a service that is provided for a rate. House Bill 320 from the 2021 Regular Session of the General Assembly requires the PSC to promulgate administrative regulations regarding pole attachments under its jurisdiction, including those necessary for the provision of broadband. This administrative regulation creates a uniform process with specific timelines and self-help remedies by which cable television providers, telecommunications carriers, broadband internet providers, and government units may seek to make new attachments, while minimizing burdens placed on utilities and considering the fair allocation of costs between attachers and the traditional utility customers.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation creates a uniform process with specific timelines and self-help remedies, including one-touch make-ready, by which cable television providers, telecommunications carriers, broadband internet providers, and government units may seek to make new attachments, while minimizing burdens placed on utilities and considering the fair allocation of costs between attachers and traditional utility customers. The amendment will reduce the number of formal complaints with regard to pole attachments and promote the deployment of broadband service in the Commonwealth as required by General Assembly in House Bill 320.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) In what ways will the amendment change this existing administrative regulation: The amendments will respond to some of the concerns of the commenters by clarifying vague or ambiguous language or by providing additional guidance regarding the process for attaching to utility poles. The amendment will also change some applicable timelines for utility pole owners.
(b) The necessity of the amendment to this administrative regulation after comment: The Commission is making amendments to the following provisions of the amendment: Section 3(5) in order to clarify and strengthen the rules addressing overlapping of third party attachers and to reduce confusion regarding the timing of notice of overlapping and, to clarify that overlapping may only be done on an attacker’s own facilities or two existing facilities with the permission of the owner; Section 2(1) to provide clarify regarding engineering standards and to clarify language in Section 2(1) that language in Section 3(4) caters to broadband classification should pay for the cost of the service they are being provided.
(c) The administrative regulation creates a uniform process with specific timelines and self-help remedies, including one-touch make-ready, by which cable television providers, telecommunications carriers, broadband internet providers, and government units may seek to make new attachments, while minimizing burdens placed on utilities and considering the fair allocation of costs between attachers and traditional utility customers.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3):
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Currently, utilities process pole attachment requests pursuant to their current pole attachment tariffs. The PSC reviews the pole attachment tariffs when they are filed or modified to determine if they meet the requirements of KRS Chapter 278, such as whether service provided is adequate, efficient, and reasonable and whether rates charged are fair, just, and reasonable.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) have taken to comply with this administrative regulation or amendment: The PSC has approved the same principles it applies when establishing rates for other customers—that each customer classification should pay for the cost of the service the service is being provided.
the cost causation principles the PSC applies when setting rates for other customers, utilities are able to recover the costs of processing pole attachment applications and completing make-ready from the attaching entities that caused them to be incurred, so the timelines for reviewing applications and completing make-ready should not result in the regulated entities incurring uncompensated costs. Further, while attaching entities will bear those costs, the process outlined in this regulation should actually reduce their overall costs by reducing or eliminating costly disputes and delays in the pole attachment process. Thus, this administrative regulation is expected to result in a net reduction in costs.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The adoption of a uniform process should reduce potential conflicts in the future that would have to be resolved through the complaint process. This should reduce the overall cost of pole attachments by reducing or eliminating costly delays.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: Zero Dollars; no fiscal impact.
(b) On a continuing basis: Zero Dollars; no fiscal impact.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The PSC does not anticipate this amendment increasing its enforcement cost. The PSC currently funds enforcement of regulations through its general operating budget funded through annual assessments paid by regulated entities pursuant to KRS 278.130, et. seq., and this amendment has no effect on that funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No fiscal impact.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No new fees are established and existing fees will not be affected.

(9) TIERING: Is tiering applied? Yes. The speed at which utilities are required to process applications and complete make-ready is tiered based on the number of poles owned the utility. Tiering the regulation in this manner, which is consistent with how the federal regulation is tiered, will allow smaller utilities to process pole attachment applications at slower rates, while maintaining a relatively consistent attachment speed throughout the state.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Government units will be affected to the extent that they are seeking to attach to poles owned or controlled by regulated utilities. As with other attaching entities, it is expected that costly delays will be reduced or eliminated.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 278.040; HB 321 (2021).

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. Zero Dollars; no fiscal impact.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? Zero Dollars; no fiscal impact.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Zero Dollars; no fiscal impact.

(c) How much will it cost to administer this program for the first year? Zero Dollars; no fiscal impact.

(d) How much will it cost to administer this program for subsequent years? Zero Dollars; no fiscal impact.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Rebecca Gilpatrick
(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation sets forth the definitions of terms used in the administration of the Early Childhood Development Scholarship Program.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to define or reference certain statutory definitions of terms commonly used in the administration of the Early Childhood Development Scholarship Program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 164.518(3) requires the authority...
to promulgate administrative regulations for the administration of the Early Childhood Development Scholarship Program.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by defining terms applicable to the Early Childhood Development Scholarship program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment will change this existing administrative regulation by adding “master degree in interdisciplinary early childhood education” to the definition of the “ECAC-approved early childhood development credential” in Subsection (7)(a).

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary in order to expand the types of credentials for which Early Childhood Development Scholarship funds can be used to include Master’s degrees at the request of the Cabinet for Health and Family Services (CHFS) and the Kentucky Governor’s Office of Early Childhood. This expansion of eligible credentials will enable utilization of the newly awarded grant funds under the American Rescue Plan. Further, it is necessary to remove the religious education exclusion since this has been deemed irrelevant to this scholarship program. Finally, “ECAC” needs to be substituted as the proper approval entity for the program—the Early Childhood Advisory Council— to be consistent with the remainder of the regulation.

(c) How the amendment conforms to the content of the authorizing statutes: The authorizing statutes require the Authority to promulgate administrative regulations establishing terms and conditions for the administration of the Early Childhood Development Scholarship program. The amendment to this administrative regulation conforms to the content of those statutes by identifying eligible credentials for which an award under this program is eligible and expanding that to include the master’s degree.

(d) How the amendment will assist in the effective administration of the statutes: The authorizing statutes require the Authority to promulgate administrative regulations establishing terms and conditions in order to administer the Early Childhood Development Scholarship program. The amendment to this administrative regulation enhances the administration thereof by expanding eligible credentials under the program and correctly identifying the Early Childhood Advisory Council as the governing body for this program.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Applicants for the Early Childhood Development Scholarship will be positively impacted by the amendment to this administration regulation in that they will now be eligible to pursue a post-baccalaureate degree with scholarship award funds, enroll in more hours each semester and receive a larger award.

(4) Provide an analysis of how the entities identified in (3) above will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take in order to comply with this administrative regulation or amendment: No action will be required of those individuals impacted by this regulation in order to comply therewith.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost will be imposed on those individuals impacted by this regulation in compliance therewith.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Those individuals who meet the eligibility criteria for this program and apply therefore will be considered for scholarship awards.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: None.

(b) On a continuing basis: See paragraph (5)(a) above.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Funding for the Early Childhood Development Scholarship Program has previously been provided through a combination of money designated to the Commonwealth from the master settlement agreement signed on November 22, 1998, between the participating tobacco manufacturers and the forty (40) settling states and related federal legislation, as provided in 2000 Ky. Acts ch. 549, Part XI and civil penalties. However, in Fiscal Year 2019, the Kentucky General Assembly redirected the tobacco settlement funds to other state initiatives. Since that time, KHEAA has been able to keep the program going at a reduced level by using that continued from year to year. All available funding would have been exhausted during the current year had the CHFS received a $30.0 million grant under the American Rescue Plan. This grant will provide the funding for the enhanced ECDS program for a period of three (3) years, from 2022 to 2024.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees will be necessary. Increased funding will be required and is being provided through the American Rescue Plan as described in (6) above.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish any fees nor does it directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? No. Tiering was not applied to the amendment of this administrative regulation. The concept is not applicable to this amendment of this administrative regulation. The administrative regulation is intended to provide equal opportunity to participate within parameters, and consequently does not inherently result in disproportionate impacts on certain classes of regulated entities or regulated persons.

(b) On a continuing basis: Same as (a) above.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Funding for the Early Childhood Development Scholarship Program was previously provided through a combination of money designated to the Commonwealth from the master settlement agreement signed on November 22, 1998, between the participating tobacco manufacturers and the forty (40) settling states and related federal legislation, as provided in 2000 Ky. RELATES TO: KRS 17.140, 17.150, 61.872, 61.878, 61.884

STATUTORY AUTHORITY: KRS 15A.150, [17.080], 17.150

NECESSITY, FUNCTION, AND CONFORMITY: KRS 17.150(5) makes that portion of KRS Chapter 61 which deals with administrative and judicial remedies for the inspection of public records and penalties appealable. KRS 61.884 allows the individual record subject to access their personal CHRI [relating to him] or other data in which the record subject is mentioned by name. This administrative regulation establishes guidelines by which CHRI may be accessed by the individual record subject.

Section 1. This administrative regulation [These administrative regulations] shall provide for the initiation and review [access/review] procedures [at each of CHRI maintained by the Kentucky State Police [Repos throughout] The [Commonwealth with the exception of Franklin Post 12. The] Record Section shall serve as the location for record access and review [access/review] for individuals near Franklin.[Access/review procedure shall be uniform throughout the various designated sites.]

Section 2. Access and Review Procedures [Access/Review Procedure]. The record subject shall complete the “Request for Review” form provided by Records [at the respective access/review site]. A duplicate copy of the [said] form shall be provided to the requester, or requester’s legal counsel. The requester shall be required to provide one [1] set of rolled fingerprints. [from] The [requester on a completed KSP Form 22, will be forwarded to Records where] submitted fingerprints will be used to verify the record subject’s identity. The Records staff shall note the date of the request as indicated on the “Request for Review” form and shall schedule the record review within three (3) working days of the receipt of the request, unless a detailed explanation of the cause is given for further delay along with the place, time and earliest date on which the CHRI will be available for inspection. The requester shall be notified [forthwith] by Records of the scheduled date of review. [All record reviews will be conducted from 8 a.m. through 4 p.m. Monday through Friday with the exception of legal holidays, at the designated State Police Post or the Records Section. Records shall return to the post of the respective
access review request, the “Request for Review” form, the fingerprints taken from the individual for identity verification, a copy of the letter to the record subject scheduling the review date, and a certified copy of the individual’s criminal history record.

Section 3. Record Reviewing Procedures. In order to insure that the subject appearing at the Post for the scheduled review of the CHRI supplied from Records is in fact the same person the submitted set of fingerprints were obtained from, visual recognition is required by Post personnel before allowing the individual to actually access the CHRI. The individual, and his attorney (if written approval is submitted by the record subject!) shall be allowed to inspect the copy of the CHRI. Reasonable assistance shall be provided by Post personnel to insure understanding of the CHRI. After the record subject has inspected the CHRI, Post personnel should ascertain if a challenge of the content of the records will be initiated. Basic for challenge shall stem from erroneous information, misinformation, or fictitious information. The individual shall be informed that a challenge must be initiated within thirty (30) working days of the actual review. If a challenge is not initiated at the time of review, a copy of the individual’s record will be retained at the Post and will be filed with the individual’s “Request for Review” form in a manner convenient to the Post. Information regarding the “Request for Review” shall remain at the Post not less than thirty (30) working days from the actual date of review to allow the individual ample time to challenge the record content. If, after thirty (30) working days a challenge has not been initiated, all material regarding the review shall be returned to Records where a permanent record of the review shall be maintained.

Section 4. Challenge of Record Contents. If the record subject desires to challenge the contents of the record, the individual shall complete the “Challenge of Record” form (bottom portion of the original form...). The form shall be signed and completed for the record by the individual. It should be noted on the form if the individual requests a copy of the record for purposes of challenge. A copy of the individual’s record furnished through the Post by Records shall be given to the individual if a challenge is initiated and the individual states a need for a copy of the record for purposes of pursuing a challenge. The copy provided by Records shall be permanently marked or stamped to indicate that the copy is for the purpose of challenge and that any other use thereof would be in violation of federal and state law. The Post shall forward to Records a “Challenge of Record” form and any documents submitted by the individual in support of the challenge.

Section 5. Processing of Challenge by Records. Records shall conduct a comparison of the information under challenge with the original input documents and information contained in the repository files. Any errors or omissions discovered in the repository files shall be corrected. If no error is found, Records shall forward a copy of the original challenge form, a copy of the record as contained in the files, and any other relevant information to the agency or agencies which the Record Section’s records indicate as contributing the information under challenge and shall request them to examine in an expeditious manner all relevant files to determine the validity of the challenge. Records shall notify the individual or his legal counsel in writing of the status of said challenge within thirty (30) working days of the challenge date. Status of challenge includes, but is not limited to, notice of clarification of record, expungement of erroneous data, substantiating record or ongoing research process.

Section 6. Administrative Review. If the record subject is dissatisfied with the action taken by Records, the individual may request an Administrative Review. This request shall be submitted in writing and directed to the attention of the Commander of the Records Section. The Commander of the Records Section shall notify in written form the Administrative Review Officer of the request for Administrative Review upon receipt. An individual within the Department of State Police and designated by the Commissioner as the Administrative Review Officer shall review the individual’s record in the same manner as performed by Records. The Administrative Review Officer shall notify the individual, in writing, of the decision of the Administrative Review. This notification shall be within thirty (30) days of submission of the written request for the Administrative Review. Any further appeal by the individual will be directed to the court for judicial review.

Section 7. Action Taken if Error or Omission Found Within Record. Records shall correct necessary documents maintained in custody. Notification of all known criminal justice recipients of the erroneous information within the past year and corrections shall be effected in written form. Records shall furnish the individual, upon request, a written list of known noncriminal justice recipients within the past year and of corrections to be made. Records will require that the agency originating the erroneous information notify all known criminal justice recipients within the past year and of corrections to be made. Further, the originating agency will be requested to furnish the individual, upon request, a written list of all known noncriminal justice recipients of erroneous information within the past year.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment modifies the penalty range for disciplinary actions. The amendment also adds “private erotic materials” to the description of prohibited materials, bringing the language up to date with changes to KRS 531.010.
(b) The necessity of the amendment to this administrative regulation: The amendment will modify the penalty range to eliminate “loss of privileges.” This penalty is no longer practical given changes to course structure and meal arrangements in recent years. This penalty was rarely used in general. This amendment also adds the penalty of “suspension” for in-service courses. This penalty removes a trainee from the remainder of the immediate course but allows the trainee to return within two years. This amendment modifies the language of the section addressing possession of obscene materials on DOCJT’s campus, bringing the language in line with changes made to KRS 531.010.
(c) How the amendment conforms to the content of the authorizing statutes: The authorizing statutes requires that the Department of Criminal Justice Training supervise and coordinate in-service courses. This necessarily includes supervision and coordination in the areas of trainee conduct and discipline.
(d) How the amendment will assist in the effective administration of the statutes: The amendment will bring the regulation up to date with a more practical penalty range and will incorporate changes to KRS 531.010.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All law enforcement agencies that employ certified peace officers in the Commonwealth will have the benefit of a more practical penalty range and up to date statutory references.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Each agency’s officers agree to abide by DOCJT’s conduct requirements upon entering an in-service course.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Costs to the individual law enforcement agencies will not be affected.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): All law enforcement agencies that employ certified peace officers in the Commonwealth will have the benefit of a more practical penalty range and up to date statutory references.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: The result should be no fiscal impact.
(b) On a continuing basis: The result should be no fiscal impact.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The current source of funds, flowing from the Kentucky Law Enforcement Foundation Program Fund, will be the ongoing source of funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There are no increased fees associated with this amendment. No increased funding is anticipated.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No

(9) TIERING: Is tiering applied? Tiering is not applicable.

503 KAR 5:100. Disbursement of salary supplement funds; audits.

RELATES TO: KRS 15.460, 15.470, 15.490, 15.500(1)
STATUTORY AUTHORITY: KRS 15.450(1)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 15.460, 15.470 and 15.500(1) pertain to disbursements from the Law Enforcement Foundation Program Fund; KRS 15.490(1) pertains to reports from local units to the Justice Cabinet; and KRS 15.490(2) pertains to payroll deductions. This administrative regulation expands on these disbursement, reporting, and recordkeeping provisions.

Section 1. Disbursement from Fund to Local Unit. (1) Local unit's entitlement. Upon becoming eligible to participate in the fund, a local unit is entitled to receive annually, from the fund, salary supplement funds of $4,000 [2,500] for each qualified police officer it employs. If the fund is insufficient to provide funds at this rate, the cabinet shall establish the rate to be paid to the local units.

(2) Procedural requirements.

(a) A participating local unit shall submit to the fund administrator, within five (5) working days of the action, personnel action forms containing the information (hiring, firings, etc.) required by the fund administrator or his designee in order to determine the amount of salary supplement funds to be disbursed to the local unit.

(b) The fund administrator or his designee shall mail fund checks promptly to all eligible local units which have submitted timely personnel action forms.

(c) The local unit shall be required to acknowledge, to the fund administrator, receipt of funds on a form provided for this purpose. (These forms are available from the Kentucky Law Enforcement Foundation Program Fund, Department of Criminal Justice Training, 4449 Kit Carson Drive, Funderburk Building [107 Stratton Building, Eastern Kentucky University], Richmond, Kentucky 40475.)

(d) Local units shall provide such other information and reports as the fund administrator or his designee reasonably deems necessary.

Section 2. Disbursement from Local Unit to Police Officer. (1) Purposes for which local unit may use funds. The funds shall be used only as a cash salary supplement to police officers who meet the qualifications established by statute and by this administrative regulation. The funds shall not be used to supplant existing salaries or as a substitute for normal salary increases. The funds shall be received, held, and expended only in accordance with the law.

(2) Qualifications for receiving a salary supplement. In order to be entitled to receive a salary supplement from a local unit, a person must be:

(a) A "police officer" - that is, a "full-time member" of a "lawfully organized department" of county, urban-county, or city government (for definitions, see 503 KAR 5:080); and

(b) Employed by a local unit of government which is eligible to participate in the fund. (For participation requirements for local units, see 503 KAR 5:090.)

(3) Determining the amount of the salary supplement.

(a) Each police officer shall be paid by his local unit that amount of money which is paid from the fund to the local unit because of his qualifications. Thus a qualified officer who is employed "full time" for an entire year shall entitle his local unit to receive, or, if the fund is insufficient to provide funds at this rate, the amount established by the cabinet), and he shall be paid this same amount by his local unit.

(b) Funds shall be disbursed from the fund to local units on a monthly basis, and a police officer's salary supplement shall be determined on a monthly basis. [For example, $208.33 per month if the annual supplement is $2,500.]

(c) Salary, for salary supplement purposes, shall include pay for leave (such as annual, sick, compensatory, military, civil or educational leave). Leave without pay shall not be included.

(d) A police officer shall be paid a salary supplement while suspended from duty with pay, but shall not be paid one while suspended without pay.

(e) A police officer shall not be paid a salary supplement for pay for overtime work (hours over forty (40) per week).

(f) A police officer, provided he is qualified to participate in the fund during the period, shall be paid a salary supplement for that period of time during which he is not receiving a salary but is receiving workers' compensation benefits. This salary supplement shall be determined at the same monthly rate and, if a time period of less than a month is involved, hourly rate as is provided for in subsection (3)(b) of this section.

(g) The local unit shall keep hourly-employment records to document:

1. That a police officer is "full time" and thus qualifies for a salary supplement, and:

2. The salaried hours (work, leave with pay, suspension with pay, etc.) of each officer receiving a salary supplement.

(4) Payroll deductions. Under KRS 15.490(2), local units shall include the salary supplement paid to a police officer from the fund as a part of the officer's salary in determining all payroll deductions.
Section 3. Audit of Local Unit. (1) The cabinet shall have the authority to audit, or to authorize an audit of, local units receiving salary supplement funds.

(2) For audit purposes, the local unit shall maintain accurate financial records which shall include, but not be limited to, books of original entry, source documents supporting accounting transactions, a general ledger, subsidiary ledgers, personnel and payroll records, cancelled checks, and related documents and records.

(3) These records shall be retained by the local unit until destruction is authorized by the cabinet.

3. Letters of Credit.

   a. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement, as duly approved by the commissioner, to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.

   b. The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct, or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where a draw would be required shall be deemed to be negligence, willful misconduct, or both.

4. A specific security provided to a ceding insurer by an assuming insurer pursuant to Section 7 of this administrative regulation shall be applied, until exhausted, to the payment of liabilities of the assuming insurer to the ceding insurer holding the specific security prior to, and as a condition precedent for, presentation of a claim by the ceding insurer for payment by the trustee of a trust established by the assuming insurer pursuant to this section.

Section 6. Certified Reinsurers. (1) The commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that has been certified as a reinsurer in this state at rates for which statutory financial data for reinsurance is claimed under this section. The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the commissioner. The security shall be in a form consistent with the provisions of KRS 304.5-140(3)(e) and Sections 10, 11, or 12 of this administrative regulation. The amount of security required in order for full credit to be allowed shall correspond with the following requirements:

(a) Ratings Security Required:

   Secure – 1 0%;
   Secure – 2 10%;
   Secure – 3 20%;
   Secure – 4 50%;
   Secure – 5 75%; and
   Vulnerable – 6 100%

(b) Affiliated reinsurance transactions shall receive the same opportunity for reduced security requirements as all other reinsurance transactions.

(c) The commissioner shall require the certified reinsurer to post 100% security, for the benefit of the ceding insurer or its estate, upon the entry of an order of rehabilitation, liquidation, or conservation against the ceding insurer.

(d) In order to facilitate prompt payment of claims, a certified reinsurer shall not be required to post security for catastrophe recoverable for a period of one (1) year from the date of the first instance of a liability reserve entry by the ceding company as a result of a loss from a catastrophic occurrence as recognized by the commissioner. The one (1) year deferral period is contingent upon the certified reinsurer continuing to pay claims in a timely manner. Reinsurance recoverables shall only be included in the deferral for [for only] the following lines of business set forth in KRS 304.5-140(3)(m)3. as reported on the NAIC annual financial statement related specifically to the catastrophic occurrence shall be included in the deferral:

   1. Line 1: Fire;
   2. Line 2: Allied Lines;
   3. Line 3: Farm-owner multiple peril;
   4. Line 4: Homeowners multiple peril;
   5. Line 5: Commercial multiple peril;
   7. Line 12: Earthquake; and
   8. Line 21: Auto physical damage.

(e) Credit for reinsurance under this section shall apply only to reinsurance contracts entered into or renewed on or after the effective date of the certification of the assuming insurer. Any reinsurance contract entered into prior to the effective date of the certification of the assuming insurer that is subsequently amended after the effective date of the certification of the assuming insurer, or a new reinsurance contract, covering any risk for which collateral was provided previously, shall only be subject to this section with respect to losses incurred and reserves reported from and after the effective date of the amendment or new contract.

(f) Nothing in this section shall prohibit the parties to a reinsurance agreement from agreeing to provisions establishing security requirements that exceed the minimum security requirements established for certified reinsurers under this section.

(2) Certification process.

(a) Upon receipt of an application for certification, the commissioner shall promptly post notice at insurance.ky.gov, including instructions on how members of the public may respond to the application.

(b) No fewer than thirty (30) days after posting the notice required by paragraph (a) of this subsection, the commissioner shall issue written notice to an assuming insurer that has made application and been approved as a certified reinsurer, which shall include the rating assigned the certified reinsurer in accordance with subsection (1) of this section.

(c) To be eligible for certification, the assuming insurer shall:

   1. Be domiciled and licensed to transact insurance or reinsurance in a Qualified Jurisdiction, as determined by the commissioner pursuant to subsection (3) of this section.

2. Maintain capital and surplus, or its equivalent, of no less than $250,000,000 calculated in accordance with subparagraph (d)8. of this subsection. This requirement may also be satisfied by an association including incorporated and individual
unincorporated underwriters having minimum capital and surplus equivalents, net of liabilities, of at least $250,000,000 and a central fund containing a balance of at least $250,000,000.

3. Maintain financial strength ratings from two (2) or more rating agencies deemed acceptable by the commissioner. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings shall be one (1) factor used by the commissioner in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:
   a. Standard & Poor's;
   b. Moody's Investors Service;
   c. Fitch Ratings;
   d. A.M. Best Company; or
   e. Any other Nationally Recognized Statistical Rating Organization.

4. Comply with any other requirements reasonably imposed by the commissioner.

(d) Each certified reinsurer shall be rated on a legal entity basis, with the rating in effect for the group rating at the appropriate time, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors considered as part of the evaluation process shall include:

1. The certified reinsurer’s financial strength rating from an acceptable rating agency. The commissioner shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two (2) financial strength ratings from acceptable rating agencies shall result in loss of eligibility for certification;

2. The business practices of the certified reinsurer in dealing with its ceding insurers, including its record of compliance with reinsurance contracts terms and obligations;

3. For certified reinsurers domiciled in the U.S., a review of the most recent applicable NAIC Annual Statement Blank, either Schedule F or Schedule S;

4. For certified reinsurers not domiciled in the U.S., a review annually of Form CR-F or Form CR-S;

5. The reputation of the certified reinsurer for prompt payment of claims under reinsurance agreements, based on an analysis of ceding insurers’ Schedule F reporting of overdue reinsurance recoverables, including the proportion of obligations that are more than ninety (90) days past due or are in dispute, with specific attention given to obligations payable to companies that are in administrative supervision or receivership;

6. Regulatory actions against the certified reinsurer;

7. The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in subparagraph 8. of this paragraph;

8. For certified reinsurers not domiciled in the U.S., audited financial statements, regulatory filings, and actuarial opinion, as filed with the non-U.S. jurisdiction supervisor, with a translation into English. Upon the initial application for certification, the commissioner shall consider audited financial statements for the last two (2) years filed with the certified reinsurer’s supervisor, with a translation into English. Upon the initial certification, audited financial statements for the last two (2) years filed with the certified reinsurer’s supervisor;

9. At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;

10. A certification from the certified reinsurer’s domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction’s highest regulatory action level; and

11. Any other information that the commissioner may reasonably require.

(e) Based on the analysis conducted under subparagraph (d)(5). of this subsection, of a certified reinsurer’s reputation for prompt payment of claims, the commissioner may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the commissioner shall, at a minimum, increase the security the certified reinsurer is required to post by one (1) rating level under subparagraph (d)(1). of this subsection, if the commissioner finds that:

1. More than fifteen (15) percent of the certified reinsurer’s ceding insurance clients have overdue reinsurance recoverables on paid losses of ninety (90) days or more which are not in dispute and which exceed $100,000 for each cedent; or

2. The aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by ninety (90) days or more exceeds $50,000,000.

(f) The assuming insurer shall submit a properly executed Form CR-1 as evidence of its submission to the jurisdiction of this state, appointment of the commissioner as an agent for service of process in this state, and agreement to provide security for 100% of the assuming insurer’s liabilities attributable to reinsurance ceded by U.S. ceding insurers if it resists enforcement of a final U.S. judgment. The commissioner shall not certify any assuming insurer that is domiciled in a jurisdiction that the commissioner has determined does not adequately and promptly enforce final U.S. judgments or arbitrations.

(g) The certified reinsurer shall agree to meet applicable information filing requirements as determined by the commissioner, both with respect to an initial application for certification and on an ongoing basis. All information submitted by certified reinsurers that is not otherwise public information subject to disclosure shall be exempted from disclosure under the Kentucky Open Records Act, KRS 61.872 to 61.884, and shall be withheld from public disclosure. The applicable information filing requirements are, as follows:

1. Notification within ten (10) days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license or any change in rating by an approved rating agency, including a statement describing the changes and the reasons therefore;

2. Annually, Form CR-F or CR-S, as applicable;

3. Annually, the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in subsection (4) of this section;

4. Annually, the most recent audited financial statements, regulatory filings, and actuarial opinion, as filed with the certified reinsurer’s supervisor, with a translation into English. Upon the initial certification, audited financial statements for the last two (2) years filed with the certified reinsurer’s supervisor;

5. At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;

6. A certification from the certified reinsurer’s domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction’s highest regulatory action level; and

7. Any other information that the commissioner may reasonably require.

(h) Change in Rating or Revocation of Certification.

1. In the case of a downgrade by a rating agency or other disqualifying circumstance, the commissioner shall, upon written notice, assign a new rating to the certified reinsurer in accordance with the requirements of subparagraph (d)(1). of this subsection.

2. The commissioner shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer’s certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the commissioner to reconsider the certified reinsurer’s ability or willingness to meet its contractual obligations.

3. If the rating of a certified reinsurer is upgraded by the commissioner, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the commissioner shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded
by the commissioner, the commissioner shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.

4. Upon revocation of the certification of a certified reinsurer by the commissioner, the assuming insurer shall be required to post security in accordance with Section 7 of this administrative regulation in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with Section 5 of this administrative regulation, the commissioner may allow additional credit equal to the ceding insurer’s pro rata share of the funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer’s rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer shall not be denied credit for reinsurance for a period of three (3) months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the commissioner to be at high risk of uncollectibility.

(i) The commissioner shall publish a list of all certified reinsurers and the domiciliary jurisdiction.

(3) Qualified Jurisdictions. (a) If, upon conducting an evaluation under this section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the commissioner determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the commissioner shall publish notice and evidence of recognition in an appropriate manner. The commissioner shall determine the appropriate approach for evaluating the qualifications of the jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the commissioner as eligible for certification. A qualified jurisdiction shall agree to share information and cooperate with the commissioner with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the commissioner, include:

1. The framework under which the assuming insurer is regulated.
2. The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.
3. The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.
4. The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.
5. The domiciliary regulator’s willingness to cooperate with U.S. regulators in general and the commissioner in particular.
6. The history of performance by assuming insurers in the domiciliary jurisdiction.
7. Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction shall not be considered to be a qualified jurisdiction if the commissioner has determined that it does not adequately and promptly enforce final U.S. judgments or arbitration awards.
8. Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or successor organization.
9. Any other matters deemed relevant by the commissioner.

(c) A list of qualified jurisdictions shall be published through the NAIC QJ-001 process. The commissioner shall consider this list in determining qualified jurisdictions. If the commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the commissioner shall provide thoroughly documented justification with respect to the criteria provided under subsection (3)(b)1. to 9. of this section.

(d) U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.

(4) Recognition of Certification Issued by an NAIC Accredited Jurisdiction.

(a) If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the commissioner has the discretion to defer to that jurisdiction’s certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR1 and any additional information as the commissioner requires. The assuming insurer shall be considered to be a qualified reinsurer in this state.

(b) Any change in the certified reinsurer’s status or rating in the other jurisdiction shall apply automatically in this state as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the commissioner of any change in its status or rating within ten (10) days after receiving notice of the change.

(c) The commissioner may withdraw recognition of the other jurisdiction’s rating at any time and assign a new rating in accordance with subsection (2)(h) of this section.

(d) The commissioner may withdraw recognition of the other jurisdiction’s certification at any time by providing written notice to the certified reinsurer. Unless the commissioner suspends or revokes the certified reinsurer’s certification in accordance with subsection (2)(h) of this section, the certified reinsurer’s certification shall remain in good standing in this state for a period of three (3) months, which shall be extended if additional time is necessary to consider the assuming insurer’s application for certification in this state.

(5) Mandatory Funding Clause. In addition to the clauses required under Section 14(12) of this administrative regulation, reinsurance contracts entered into or renewed under this section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposition of any financial statement penalty on the ceding insurer under this section for reinsurance ceded to the certified reinsurer.

(6) The commissioner shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

Section 7. (1) Pursuant to KRS 304.5-140(4), the commissioner shall allow a reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of KRS 304.5-140(3) in an amount not exceeding the liabilities carried by the ceding insurer. The reduction shall be in an amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the exclusive benefit of the ceding insurer, under a reinsurance contract with the assuming insurer as security for the payment of obligations under the reinsurance contract. The security shall be held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution as defined in KRS 304.5-140(1)(b). This security shall be in the form of any of the following:

(a) Cash;
(b) Securities listed by the Securities Valuation Office of the National Association of Insurance Commissioners, including those deemed exempt from filing as defined by the Purposes and Procedures Manual of the Securities Valuation Office, and qualifying as admitted assets;
(c) Clean, irrevocable, unconditional and "evergreen" letters of credit issued or confirmed by a qualified United States institution, as defined in KRS 304.5-140(1)(a), effective no later than December 31 of the year for which filing is being made, and in the possession of, or in trust for, the ceding insurer on or before the filing date of its annual statement.

Letters of credit meeting applicable standards of issuers or accepting banks shall meet the requirements of the dates of their issuance or confirmation shall, notwithstanding the issuing or confirming institution’s subsequent failure to meet applicable standards of

1368
issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification, or amendment, whichever first occurs; or

(d) Any other form of security acceptable to the commissioner.

(2) An admitted asset or a reduction from liability for reinsurance ceded to an unauthorized assumed insurer pursuant to this section shall be allowed only when the requirements of Section 14(43) of this administrative regulation and the applicable portions of Sections 10, 11, or 12 of this administrative regulation have been satisfied.

Section 8. Requirements for Trust Agreements Qualified under KRS 304.5-140(3). (1) The trust agreement shall be entered into between the beneficiary, the grantor, and a trustee, which shall be a qualified United States financial institution as defined in KRS 304.5-140(1)(b).

(2) The trust agreement shall create a trust account into which assets shall be deposited.

(3)(a) Except as provided by paragraph (b) of this subsection, assets in the trust account shall be held by the trustee at the trustee's office in the United States.

(b) A bank may apply for the executive director's permission to use a foreign branch office of the bank as trustee for trust agreements. If the commissioner [executive director] approves the use of a foreign branch office as trustee, its use shall be approved by the beneficiary in writing. The trust agreement shall provide that the written notice described in subsection (4)(a) of this section shall be presentable, as a matter of legal right, at the trustee's principal office in the United States.

(4) The trust agreement shall provide that:

(a) The beneficiary shall:

1. Have the right to withdraw assets from the trust account at any time after giving written notice to the trustee; and
2. Not be required to give notice to the grantor;

(b) The beneficiary:

1. May be required to acknowledge receipt of withdrawn assets; and
2. Shall not be required to present other statements or documents in order to withdraw assets.

(c) The agreement shall not be subject to conditions or qualifications outside of the trust agreement; and

(d) The agreement shall not contain references to other agreements or documents except as provided by subsection (11) of this section.

(5) The trust agreement shall be established for the sole benefit of the beneficiary.

(6) The trust agreement shall require the trustee to:

(a) Receive and hold all assets in a safe place; and
(b) Determine that all assets are in a form that the beneficiary, or the trustee upon direction by the beneficiary, may negotiate any assets whenever necessary, without consent or signature from the grantor or any other person or entity;

(c) Furnish to the grantor and the beneficiary a statement of all assets in the trust account both at the inception and at intervals no less frequent than the end of each calendar quarter;

(d) Notify the grantor and the beneficiary within ten (10) days of any deposits to or withdrawals from the trust account;

(e) Upon written demand of the beneficiary, immediately take all steps necessary to:

1. Transfer absolutely and unequivocally all right, title, and interest in the assets held in the trust account to the beneficiary; and
2. Deliver physical custody of the assets to the beneficiary; and

(f) Allow no substitutions or withdrawals of assets from the trust account, except upon:

1. Written instructions from the beneficiary; or
2. The call or maturity of a trust asset, in which case the trustee may withdraw the asset so long as the proceeds are paid into the trust account without the consent of the beneficiary and after notice to the beneficiary.

(7) The trust agreement shall provide that at least thirty (30) days, but not more than forty-five (45) days, prior to termination of the trust account, written notification of termination shall be delivered by the trustee to the beneficiary.

(8) The trust agreement shall be made subject to and governed by the laws of the state in which the trust is established.

(9) The trust agreement shall prohibit invasion of the trust corpus for the purpose of paying compensation to or reimbursing the expenses of the trustee. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement, as duly approved by the commissioner, to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.

(10) The trust agreement shall provide that the trustee shall be liable for its own negligence, willful misconduct, or lack of good faith.

(11)(a) The trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer for the purposes permitted by paragraphs (b) through (d) of this subsection, if the:

1. A trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities, and accident and health; and
2. It is customary practice to provide a trust agreement for a specific purpose.

(b) To pay or reimburse the ceding insurer for the:

1. Amounts withdrawn pursuant to subparagraph 1. of this paragraph, if the:

   a. Ceding insurer has received notification of termination of the trust account; and
   b. Assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination date.

   2. Amounts withdrawn pursuant to subparagraph 1. of this paragraph shall be deposited:

      a. In the name of the ceding insurer; and
      b. In a qualified United States financial institution, as defined in KRS 304.5-140(1)(a), as a segregation of the ceding insurer's assets; and
      c. In trust for the uses and purposes specified in paragraphs (a) and (b) of this subsection that may remain executory after the withdrawal for any period after the termination date.

(12) The reinsurance agreement entered into in conjunction with the trust agreement may contain the provisions required by Section 10(1)(b) of this administrative regulation, so long as the conditions required by this section are included in the trust agreement.

(13) The reinsurance agreement or trust agreement shall stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by the Insurance Code, or any combination thereof, provided investments in or issued by an entity controlling, controlled by, or under common control with either the grantor or the beneficiary of the trust shall not exceed five (5) percent of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities, or accident and health risks, then the provisions required by this paragraph shall be included in the reinsurance agreement.
Section 9. Permitted Conditions for Trust Agreements Qualified under KRS 304.5-140(3).
(1) The trust agreement may provide that the:
   (a) Trustee may resign only if written notice of resignation is:
       1. Given to the beneficiary and grantor; and
       2. Effective not less than ninety (90) days after receipt of the notice.
   (b) Grantor may remove the trustee if written notice is:
       1. Given to the trustee and beneficiary;
       2. Effective not less than ninety (90) days after receipt of the notice;
   (c) Resignation or removal of the trustee shall not be effective until:
       1. A successor trustee has been duly appointed and approved by the beneficiary and grantor; and
       2. All assets in the trust have been duly transferred to the new trustee.
   (2)(a) The grantor may have the full and unqualified right to:
       1. Vote any shares of stock in the trust account; and
       2. Receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account.
   (b) Interest or dividends shall be:
       1. Forwarded promptly upon receipt to the grantor; or
       2. Deposited in a separate account established in the grantor's name.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Abigail Gall

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes requirements for reinsurers to become accredited, certified, or use trust agreements in Kentucky. The administrative regulation ensures the ceding insurer may credit amounts reinsured to these assuming insurers on their financial statements. The administrative regulation also stipulates the process for becoming a qualified jurisdiction where a reinsurer may be domiciled and become certified. The test for a transcript is critical as it means the country has passed a specific regulatory test to provide certainty that insurers within its jurisdiction adhere to similar and strict regulatory rules. The changes included within the administrative commence the process of conforming Kentucky law to the United States covered agreements with the European Union and United Kingdom regarding reinsurance collateral requirements. It moves away from recognizing only 100% collateral as the way to judge financial stability, and moves to a more rounded approach and review of both the company and regulatory jurisdiction where the company is domiciled.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to conform Kentucky law to the United States Covered Agreement with the European Union or else face federal preemption from the Federal Insurance Office (FIO). Historically, U.S. regulators did not impose direct control over non-U.S. reinsurers. Instead, they regulated non-U.S. reinsurance markets by only allowing a statutory credit on the ceding insurer's balance sheet when the non-U.S. reinsurer maintained 100% collateral for its reinsurance obligations. U.S. regulators then began requesting more information from non-U.S. based reinsurers to ensure they were compliant with the requirement and the statutory credit was permissible. This created a tightening of the market for reinsurance, restricted the free flow of capital, and reduced the potential investments an insurer and reinsurer could make. It also created a global fragmented regulatory system, especially within the United States, creating a barrier for many reinsurance companies to operate. The United States Department of Treasury and the European Union entered into intense negotiations to develop a regulatory framework reforming the collateral requirements for reinsurers in and outside the United States, and on September 22, 2017, the parties entered into a Covered Agreement. The agreement requires states to eliminate reinsurance collateral requirements within five (5) years, or risk preemption under the Covered Agreement.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation provides further clarity on the manner to become an accredited or certified reinsurer pursuant to KRS 304.5-140.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation provides specific details and a process for the commissioner to certify reinsurers, as well as, determine qualified jurisdictions.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment incorporates a process to determine the reciprocal and qualified jurisdiction list. These amendments derive from the June 2019 “red-lining” of the National Insurance Commissioner’s Model Law 786. The statute also requires the Commissioner to design a list of such jurisdictions within the regulation.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to include a specific process for accreditation and certification of reinsurers following the 2018 statutory amendments to KRS 304.5-140, and the United States covered agreement with the European Union and United Kingdom. The Department has also been required by the NAIC to incorporate the June 201 amendments in order to abide by their Financial Accreditation process, which ensures reciprocity and uniformity across states.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment uses the authority provided to the commissioner by KRS 304.5-140 to establish a list of reciprocal and qualified jurisdictions of reinsurers.
(d) How the amendment will assist in the effective administration of the statutes: This amendment is based on the most recent version of the NAIC’s Model Regulation 786, and meets the requirements set forth in KRS 304.5-140 to establish a list of reciprocal and qualified jurisdictions of reinsurers. It is necessary to ensure reinsurers meet the new standards negotiated by the United States federal government and incorporated within KRS 304.5-140.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The administrative regulation will impact those domestic insurers that reinsure risks in the United States and through entities outside of the United States.
(4) Provide an analysis of how this administrative regulation may be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Reinsurers interested in taking advantage of the ceding process will need to comply with the new filing requirements in order to become an accredited or certified reinsurer.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: The requirements included within the administrative regulation are part of an NAIC Model Law and Regulation, and are required to be enacted in every jurisdiction across the United States. In the event states do not uniformly enact the changes, the Federal Insurance Office will assert federal preemption based on the covered agreement. Therefore, it will not cost regulated entities any amount to comply with these requirements as they have been enacted in other jurisdictions previously.
(c) As a result of compliance, what benefits will accrue to the entities: The requirements set forth in this administrative regulation will expand the pool of reinsurance available to insurers, and allow those more productive reinsurers to take advantage of the credit, unnecessarily holding it in reserve. Additionally, more reinsurers will qualify to allow ceding insurers to take advantage of the credit,
so reinsurance will be more widely available and potentially cheaper. Reinsurers will also greatly benefit from the uniform standards making it easier, cheaper, and more efficient for them to do business in the United States.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: Implementation of this amendment is not anticipated to have an initial cost on the Department of Insurance.
(b) On a continuing basis: Implementation of this amendment is not anticipated to have an on-going cost on the Department of Insurance.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The Department will use funds from its current operational budget to perform the tasks necessary.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: An increase of fees will not be necessary because additional personnel is likely unnecessary.

(8) An administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees directly or indirectly.

(9) TIERING: Is tiering applied? No, tiering is not applied as it applies to all ceding and assuming insurers equally.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department as the implementer.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 304.5-140 and the September 22, 2017 United States Covered agreement with the European Union and the United Kingdom.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The administrative regulation will not generate any revenue for state or local government for the first year?

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue is expected to be generated.

(c) How much will it cost to administer this program for the first year? No cost is expected, this will be handled on the Department’s current operating budget.

(d) How much will it cost to administer this program for subsequent years? No cost is expected, this will be handled on the Department’s current operating budget.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): Neutral
Expenditures (+/-): Neutral

Other Explanation: The program including receipt and review of new filings will be handled by internal personnel. At this point, the Department anticipates all duties will be handled by current personnel due to the minimal nature of Kentucky specific filings. If filings exceed expectations additional staff may become necessary; however, the overseas reinsurance is not large for the small number of Kentucky domestic insurers. Thus, we anticipate a low volume of overall filings.

(Amendment)

810 KAR 5:030. Claiming races.

RELATES TO: KRS 139.531(1)(c), 230.215, 230.260(1)
STATUTORY AUTHORITY: KRS 230.215(2), 230.260
NECESSITY, FUNCTION, AND CONFORMITY: KRS 230.215(2) and 230.260 authorize the Kentucky Horse Racing Commission (commission) to regulate conditions under which harness racing shall be conducted in Kentucky. This administrative regulation establishes the requirements for claiming races.

Section 1. (1) A horse entered in a claiming race may be claimed for its entered price by:
(a) A licensed horse owner who has a horse programmed to start in a pari-mutuel race at that meeting;
(b) A licensed horse owner who has received a claim certificate from the commission; or
(c) A person who has qualified for a license as a horse owner and who has received a claim certificate from the commission.

(2) Upon filing with the judges a completed, signed Authorized Agent form (KHR 2-060-01), incorporated by reference in 810 KAR 2:060, an authorized agent may claim for a qualified owner in his own right, but only for the account of the person for whom he is agent.

(3) To qualify for a license as an owner, the applicant shall have a current United States Trotting Association or Standardbred Canada membership as an owner or membership as an associate-member.

(4) A person shall not knowingly effect a false claim by inducing another to claim a horse for him or her.

Section 2. Prohibitions.

(1) A person shall not claim his or her own horse and shall not claim a horse trained or driven by him or her.

(2) A person shall not claim more than one (1) horse in a race, and a person shall not have multiple claims on any one (1) horse in a race.

(3) A qualified owner or the owner's agent shall not claim a horse for another person.

(4) An owner shall not cause his or her horse to be claimed directly or indirectly for his or her own account.

(5) A person shall not offer, or enter into an agreement, to claim or not to claim or attempt to prevent another person from claiming any horse in a claiming race.

(6) A person shall not enter a horse that has a mortgage, bill of sale, or lien of any kind pending, unless the written consent of the holder is filed with the clerk of the course of the association conducting that claiming race.

(7)(a) A person shall not have more than one (1) claim on any one (1) horse in any claiming race.
(b) Owners utilizing the same trainer may claim different horses from the same race, but the trainer cannot make the claim on behalf of either owner. [The trainer shall not act on behalf of either owner if the trainer has more than one (1) horse in the same race.]

Section 3. Claiming Procedure. (1) Owner's credit.

(a) A person submitting a claim shall provide to the association:
1. Proof of possession of a valid license issued by the commission for the current year;

(b) By accepting the claim, the association assumes responsibility for and shall make payment to the owner of the horse claimed.
(c) The money due for a claimed horse shall be paid to the owner of the claimed horse within forty-eight (48) hours after the end of the race, Sundays excepted, by the association, if the horse has a current test complying with subsection (14) of this section and if a signed claiming authorization and proper registration papers are provided to the clerk of the course.

(1) The claiming price shall be printed on the program, and all claims shall be for the amount so designated. Any horse entered in a claiming race may be claimed for the designated amount.

(3) A claim shall be examined by the judges or their designee prior to the start of the race. The association’s designee shall be prepared to state whether sufficient funds are on deposit in the amount equivalent to the specified claiming price and any other required fees and taxes. The judges shall have a public announcement made and information scrolled on the simulcast video stating there has been a claim made or, in the case of multiple claims, the number of claims made on a horse during the post parade. The successful claimant shall be announced after the completion of the race.

(4) An official shall not open the claim box or give any information on claims filed until after the horses leave the paddock for the post parade.

(5) If more than one (1) claim is filed for the same horse, the owner shall be determined by lot by the judges.

(6) A horse claimed shall be delivered immediately by the original owner or his or her trainer to the successful claimant upon authorization of the judges after the post-race tests are finished; and:

(a) The horse’s halter shall accompany the horse;

(b) The horse’s shoes shall not be altered or removed; and

(c) The hobbles measurements of a claimed horse shall be made available to the successful claimant by the paddock judge.

(7) An owner shall not refuse to deliver a horse legally claimed out of a claiming race.

(8) An owner shall not refuse to deliver a horse legally claimed race in all heats or dashes of the event in the interest and for the account of the owner who declared it in the event.

(b) Title to the claimed horse shall be vested in the successful claimant from the time the word "go" is given in the first heat or dash.

(c) The judges shall void the claim and return the title to the original owner if:

1. The horse suffers a fatality during the running of the race or dies or is euthanized before leaving the track; or

2. The commission veterinarian determines the horse will be placed on the Veterinarian’s List as bled, unsound, or lame before the horse is released to the successful claimant.

(d) The judges shall not void the claim if, prior to the race in which the horse is claimed, the claimant indicates on the claim envelope that he or she elects to claim the horse regardless of whether the commission veterinarian determines the horse will be placed on the Veterinarian’s List as bled, unsound, or lame.

(e) The final vesting of title to a claimed horse shall be subject to the conditions and provisions set forth in this administrative regulation.

(10)(a) The judges may require any person making a claim for a horse to affirm by affidavit that the claimant is claiming the horse for his or her own account or as authorized agent and not for any other person.

(b) A person shall not knowingly make a false statement regarding the claiming process.

(11)(a) A claimed horse may start in a race in which the claiming price is less than the price at which the horse was claimed.

(b) If a horse is claimed, a right, title, or interest in that horse shall not be sold or transferred for a period of thirty (30) days following the date of claiming, except in a claiming race.

(c) A claimed horse shall be required to race at the association where claimed for a period of thirty (30) days or the balance of the current racing meeting, whichever occurs first.

(12) A horse that has been claimed shall not be eligible to start in a race in the name or interest of the previous owner for thirty (30) days. The horse shall not remain in the same stable, or under the care or management of the first owner or trainer, or anyone connected with the previous owner unless reclaimed out of another claiming race.

(13) A horse scratched from a claiming race shall not be eligible to be claimed.

(a) If a horse drawn to start in a claiming race is claimed and has been declared to start in a subsequent race, that horse shall be scratched from that race.

(b) For a period of thirty (30) days, a horse scratched from a claiming race and then entered in a subsequent race, regardless of claiming declaration, shall [not] be eligible to be claimed for the same price as the claiming race from which the horse was scratched [if any association licensed by the commission for the same claiming price the horse was carrying in the race from which it was scratched, except scratches that were due to and verified as race office errors].

1. The claiming price shall be listed in the program where normal claiming prices are carried;

2. The announcement of the right to claim shall be made by the track announcer; and

3. The claiming price shall be scrolled on the simulcast provider.

(14)(a) A claimed horse not otherwise selected by the judges for post-race testing shall be subjected to post-race testing in blood for substances regulated by 810 KAR Chapter 8. The results of the test shall be reported to the presiding judge.

(b) If a test is positive for a substance associated with a Class A, B, or C penalty, or for a TCO2 violation, the claim may be voided at the option of the claimant and the claimant shall be entitled to return of all sums paid for the claimed horse and of all expenses incurred after the date of the claim.

(c) While awaiting test results, a claimant:

1. Shall exercise due care in maintaining and boarding a claimed horse; and

2. Shall not materially alter a claimed horse.

(d) An Equine Infectious Anemia (Coggins) test shall not be required of a horse that has been claimed if that horse has a valid certificate stating that within twelve (12) months of the day of the claim the horse has received a Coggins test and is negative for Equine Infectious Anemia. The certificate shall contain the horse’s lip tattoo number or a uniform or standardized means of identification approved by the commission.

(15)(a) A filly or mare that has been bred shall not be declared into a claiming race for at least forty-five (45) days following the last breeding of the filly or mare. Following that period, a filly or mare that has been bred shall be declared into a claiming race only after a veterinarian has pronounced the filly or mare not to be in foal.

(b) A filly or mare pronounced in foal shall not be declared into a claiming race.

(c) If a filly or mare is claimed out of a claiming race and subsequently proves to be in foal from a breeding that occurred prior to the race from which she was claimed, the claim may be voided by the judges at the option of the claimant, if the mare is subjected to a pregnancy examination no later than twenty-one (21) days after the date of the claim that shows the mare is pregnant.

(d1. A claimant seeking to void the claim shall file a petition to void that claim with the judges within three (3) days after the results of the pregnancy examination are received. Following the filing of the petition, the judges shall conduct a hearing after due notice to all parties.

1. If the judges determine that the claim is void, the claimant shall receive a reasonable cost from the previous owner to cover the cost of the pregnancy examination and reimbursement from the previous owner of all reasonable costs associated with the claiming process and the post-race test, including the costs of transportation, board, reasonable training fees, and the testing process.
Section 4. In accordance with Section 3(1)(b) of this administrative regulation, the association shall pay the claiming price to the owner when the registration certificate and a signed claiming authorization are delivered for presentation to the successful claimant. The association shall withhold and pay the Kentucky sales tax to the Commonwealth pursuant to KRS 139.531(c).

Section 5. Claiming Conditions. (1) Unless prior approval is given by the presiding judge, claiming races shall be written to separate horses five (5) years and older from younger horses and to separate males from females.

(2)(a) If sexes are mixed, mares shall be given a twenty (20) percent minimum price allowance, except there shall not be any price allowance given to a spayed mare racing in a claiming race.

(b) An allowance for age shall be given as follows:
   1. Two (2) year olds shall be given a 100 percent allowance;
   2. Three (3) year olds shall be given a fifty (50) percent allowance;
   3. Four (4) year olds shall be given a twenty-five (25) percent allowance.

(c) Claiming races for two (2) year olds may have conditions.

(d) Claiming races for three (3) year olds may have conditions.

(e) A claiming class may have conditions, if deemed necessary by the racing secretary and approved by the judges.

Section 6. Except as provided in 810 KAR 5:020, Section 16, a horse owner shall not be prohibited from determining the price for which his horse shall be entered.

Section 7. To facilitate transfer of claimed horses, the presiding judge or racing secretary may sign the transfer if he or she then sends the registration certificate and claiming authorization to the registrar for transfer.

Section 8. Fraudulent Claim. (1) A person shall not fraudulently declare a horse to a claiming race. If the judges determine that the declaration of a horse to a claiming race is fraudulent on the part of the declarer, they shall void the claim at the option of the claimant, and order the horse returned to the person declaring it in.

(2) A person shall not submit a fraudulent claim on a horse in a claiming race. If the judges determine that a claim of a horse is fraudulent on the part of the person making the claim, they shall:

A letter received later than seven (7) days following the closing date of the event shall not be considered a valid entry or payment.

Section 4. Deviation from Published Conditions. An entry and payment not governed by published conditions shall be void and any deviation from published conditions shall be a violation of this administrative regulation. A nominator who is allowed privileges not in accordance with the published conditions of the race, or which are in conflict with the published conditions or with Title 810 KAR, shall be barred from receiving any portion of the purse, and any person who knowingly allows the privileges shall be in violation of this administrative regulation.

Section 5. (1) Ineligible Horse in a Stakes Race.

(6) Transfer provisions for change of gait.
(a) The following conditions shall govern transfers if there is a change of gait, unless the association makes available to the commission, at least thirty (30) days prior to the first publication, its early closing conditions and receives the approval of the commission for those conditions:
1. If a condition published for early closing events allows transfer for change of gait, the transfer shall be to the slowest class for which the horse is eligible, and eligibility shall be determined at time of closing of entries.
2. The race to which transfer may be made shall be the race nearest in time to the date of the event for which the horse was originally entered.
(b) A two (2) year old, three (3) year old, or four (4) year old entered in a class that corresponds to its age group shall be permitted to transfer only to a class for the same age group at the adopted gait, and shall be the race nearest in time to the date of the original event. If transfer is made, entry fees shall be so adjusted.

Section 10. Subsequent Payments; List of Eligibles. If subsequent payments are required by the published conditions, a complete list of those horses withdrawn or declared out shall be made available within fifteen (15) days after:

(2) The list has been made available to each nominator and the commission.

Section 11. Trust Funds. Fees paid in early closing events shall be segregated and held as trust funds until the event is contested.

Section 12. Early Closing Events by New Track. An early closing event at a pari-mutuel meeting shall not be advertised, nor shall nominations be taken for an early closing event, until the event has been approved by the commission. An association accepting nominations to early closing races, late closing races, stakes, or futurities shall provide stable space to a horse nominated and eligible to the event the day before, the day of, and the day after the race.

Section 13. Limitation on Conditions. Conditions of an early closing event or a late closing race shall not add a horse that has not been nominated to an event or eliminate an already nominated horse from an event by reason of the performance of the horse at an earlier meeting during the same season, and conditions purporting to do so shall be considered to be invalid. An early closing event or a late closing event shall not have more than two (2) also eligible conditions.

Section 14. Purse Requirements. In early closing races, late closing races, and overnight races requiring entry fees, all monies paid in by the nominators in excess of eighty-five (85) percent of the advertised purse shall be added to the advertised purse and the total shall then be considered to be the advertised purse. In addition to adding excess entry fees as provided in this section, the sponsor shall add at least fifteen (15) percent to the advertised purses of late closing races and overnight races. Fifteen (15) percent of all monies paid in by the nominators shall be added to all early closing races by the sponsor.

Section 15. Requirement to Run Race.

(2) If six (6) or more betting interests are declared in to start an early closing event or a late closing event, the race shall be run, unless it is declared off. Stakes and futurities shall be raced if one (1) or more horses are declared in to start unless declared off as provided in 810 KAR 5:070.

(3) In an early closing event, if fewer horses are declared in than are required to start, and all declarers are immediately so notified, the horse or horses declared in and ready to race shall be entitled to the sum of the entry fees submitted.

Section 16. Elimination Heats or Two (2) Divisions.
(1) If the number of horses declared in to start exceeds twelve (12) on a half-mile track or sixteen (16) on a larger track, the association conducting the race shall have the option, before positions are drawn, of announcing that the race shall be run in elimination heats. A maximum of two (2) tiers of horses, allowing eight (8) feet per horse, shall start in any race.

(2) If an early closing event or late closing event is divided, each division shall race for at least seventy-five (75) percent of the advertised purse unless otherwise specified in the conditions of the race.

(3) If a stake race or futurity is divided, the conditions of the race shall determine the number of starters per division and the purse distribution.

For that single event race-off, the participating horses shall be assigned post positions according to the order of their finish in the previous heat or dash.

Section 18. Overnight Events. More than nine (9) horses shall not start on a half-mile track in overnight events and more than
twelve (12) horses shall not start on larger tracks at extended pari-mutuel meetings allowing eight (8) feet per horse.

   (b) With the permission of the presiding judge.
(10) Horse omitted through error.
   (a) Except as provided in this subsection, a drawing shall be final unless there is conclusive evidence that a horse was properly declared and omitted from the race, and the omission is verified to be due to an error of the association’s racing office.
   (b) The race shall be redrawn if the error is found prior to scratch time.
   (c) If the race has multiple divisions, a horsemen’s representative and a judge shall draw the division by lot rather than redraw the entire race.
   (d) If there is a division or divisions with short fields, the division or divisions shall be chosen by lot to determine which division shall be drawn.
   (e) If the error is found after scratch time, then the horse shall be added to the outside.

   (5)(a) The judges may require a horse that has been on the judge’s list to successfully complete a qualifying race.

   (c) In overnight events, part of an uncoupled entry drawing also requires a horse to be declared at a stated time, failure to declare on time. If an association requires a horse to be declared at a stated time, failure to declare at that time shall be considered a withdrawal from the event.
   (d) With the permission of the presiding judge.
(10) Horse omitted through error.

(b) A wager on one (1) of the horses coupled as an "entry" shall be a wager on all horses in the entry.
(2)(a) If a trainer enters two (2) or more horses, under bona fide separate ownerships or the same ownership, each horse may race as a separate betting entry if:
1. The association has requested they be permitted to race as separate betting entries; and
2. The judges approve the request.
(3)(a) In overnight events the entries do not exclude any single interest.
(b) In overnight events, part of an uncoupled entry drawing also eligible may not be moved into a race to replace another part of the uncoupled entry.
(c) If more than one (1) horse is trained by the same person, that fact shall be stated prominently in the program.

(4) A horse shall not be added to a race as an also eligible unless the horse was drawn at the time declarations closed.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Jennifer Wolsing
(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation establishes requirements and prohibitions concerning the taking of entries into standardbred races, the rules concerning starters, and declarations to start. These rules provide an orderly means of determining which horses will be considered eligible to enter a race.
(b) The necessity of this administrative regulation: The administrative regulation is necessary to provide specific requirements and methods for taking entries, starters, and declarations in standardbred racing.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 230.215(2) and 230.260(8) authorize the Commission to promulgate administrative regulations prescribing the conditions under which racing shall be conducted in Kentucky. This rule prescribes conditions under which horses become eligible to race in particular standardbred races.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation fulfills the Commission’s statutory mandate to prescribe the conditions under which horse racing is conducted in the Commonwealth by establishing a comprehensive set of rules governing the selection of horses for entry into standardbred racing.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This regulation includes proposed changes to eliminate redundant language, clarify unclear portions of the regulation, provide needed discretion to the standardbred judges, and carve out a standardbred exception for the veterinary examination requirement.
(b) The necessity of the amendment to this administrative regulation: These proposed amendments clarify the regulation, provide discretion to the judges, and eliminate an unnecessary examination requirement. Standardbred horses warm up for one (1) hour prior to racing, in a public location that is open and available for observation by the KHRC veterinary staff. This increased observation period makes the Section 29 requirement for a pre-race veterinary examination unnecessary for Standardbred races.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 230.215(2) and 230.260(8) authorize the Commission to promulgate administrative regulations prescribing the conditions under which racing shall be conducted in Kentucky. This proposed amendment prescribes conditions under which horses become eligible to race in particular standardbred races.
(d) How the amendment will assist in the effective administration of the statutes: This proposed amendment fulfills the Commission’s statutory mandate to prescribe the conditions under which horse racing is conducted in the Commonwealth by establishing a comprehensive set of rules governing the selection of horses for entry into standardbred racing.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation pertains to the conduct of racing at the Kentucky’s two licensed standardbred race tracks, and all individual participants in horse racing, are potentially affected by this proposed amendment’s clarification of rules pertaining to the conduct of racing. In 2017, the Commission licensed over 22,000 individuals to participate in horse racing. This number is consistent from year to year.
(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Participants in horse racing, and especially owners and trainers, will be required to adhere to the requirements and rules set forth in this administrative regulation pertaining to entries and starters in standardbred racing.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: No significant costs are associated with complying with this proposed regulatory amendment.
(c) As a result of compliance, what benefits will accrue to the entities: Participants in racing will benefit from clearly-defined rules that enhance the integrity of racing.
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: There is no initial administrative cost to implement this proposed amendment.
(b) On a continuing basis: There is no continuing cost to implement this proposed amendment.
(6) What is the timeline of the funding to be used for the implementation and enforcement of this administrative regulation: No significant funding will be necessary to implement and enforce this
administrative regulation. Any minimal costs will be funded from the Commission’s budget.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This proposed amendment does not establish any new fees or increase any current fees to participate.

Section 1. Driving Violations. A leading horse shall be entitled to any part of the track. After selecting a position in the home stretch, a driver of a horse shall not:

(1) Change either to the right or left during any part of the race if another horse is so near the driver that in altering positions, the driver:

(11) Drive in a careless or reckless manner or fail to maintain reasonable control of the horse at all times during the race;

(12) Whip under the arch of the sulky;

(13) Cross the inside limits of the course;

Section 2. Leaving the Course.

(1) A horse or a horse’s sulky that leaves the course by brushing, running over, or going inside of a pylon demarcation shall have violated this administrative regulation and may be penalized by a disqualification if in the opinion of the judges:

(a) The action results in the horse gaining an unfair advantage over other horses in the race;

(b) The action helps the horse improve its position in the race; or

(c) The driver goes inside the pylons and does not immediately correct position.

(2) A horse using the inside to pass shall have complete clearance of the pylons.

(3) A driver striking pylons but not gaining an unfair advantage may be cited for a violation of this administrative regulation unless he was forced to strike the pylons by circumstances beyond his control.

Otherwise, penalties shall be applied individually to the drivers of any entry.

Section 4. Complaints, Reports of Interference.

(1) Complaints.

(a) A complaint by a driver relating to driving or other misconduct during a heat shall be made at the termination of the heat, unless the driver is prevented from doing so by an accident or injury.

(b) In an inconsistent manner with the intent to improperly manipulate the outcome of a race; or

(c) To perpetrate or to aid in a fraud.

(3) The judges shall substitute a competent and reliable driver at any time prior to the start of the heat or race if the judges have reason to doubt the competence or reliability of the original driver.

Section 6. Removal and Substitution of Driver. A driver may be removed and another driver substituted after the positions have been assigned in a race if, in the opinion of the judges, a driver:

(1) Is unfit or incompetent to drive;

(2) Refuses to comply with the directions of the judges; or

(3) Is reckless in his or her conduct and endangers the safety of horses or other drivers in the race.

Section 7. Failure to Finish. If, for any cause other than being interfered with or broken equipment, a horse fails to finish after starting in a heat, that horse shall be ruled "did not finish."

Section 8. Disruptive Conduct.

(1) A driver shall not engage in disruptive or distracting, improper conduct during a race.

(2) A driver may remove a foot from the stirrup temporarily for the purpose of pulling earplugs.

Section 9. Whipping.

(3) (a) A whip or crop shall not be used in a brutal, excessive, or indiscriminate manner during a race, training exercise, or while on association grounds.

(b) A driver shall use a whip only in the conventional manner, by holding the handle and whipping the horse only above the shafts with wrist and elbow movement only. Full swings or going behind the head is prohibited.

(c) Welts, cuts, or whip marks on a horse resulting from whipping shall constitute a prima facie violation of this section.

(d) A driver shall not:

1. Whip a horse under the arch or shafts of the sulky;

2. Kick a horse;

3. Punch a horse;

4. Jab a horse;

5. Use the whip so as to interfere with or cause disturbance to any other horse or driver in a race;

(3) A person shall not remove or alter a horse's hopples during a race, or between races, for the purpose of fraud.

(4) A horse habitually wearing hopples shall not start in a race without them unless:

(1) If a horse breaks from its gait in trotting or pacing, the driver shall at once, if clearance exists, take the horse to the outside and pull it to its gait.

(2) A driver shall not:

(a) Fail to properly attempt to pull the horse to its gait;

(b) Fail to take to the outside or inside if clearance exists;

(c) Fail to lose ground by the break; or

(d) Fail to prevent extended break.

(3) If there has been no failure on the part of the driver in complying with subsection (2) of this section, the horse shall not be set back unless a contending horse on its gait is lapped on the hind quarter of the breaking horse at the finish.

(4) A driver shall not allow a horse to break for the purpose of fraudulently losing a heat.

(5) If a horse or driver's actions cause another horse to be off-stride at the wire, the offending horse shall be placed behind the horse with whom it interfered after all other placements have been made.

(6) A horse making a break, which causes interference with other contesting horses, shall be placed behind all offended horses.

(7) The judges shall set a horse back one (1) or more places if this section is violated.

Section 12. Breaks. One (1) of the judges shall call out every break made, and the clerk shall at once note the break and its character in writing.

on the track, or is involved in an accident after starting to warm up, that horse shall be permitted to start only after examination and approval by the commission veterinarian.

(2) Any action prohibited by subsection (1) of this section shall be immediately reported to the judges who shall promptly inform the racing association and the commission.

Section 20. (1) An owner, trainer, agent, or driver of a horse shall not threaten or join with others in threatening not to race, or not to declare in, because of the entry of a certain horse or a particular stable, thereby compelling or attempting to compel the racing secretary to reject an eligible entry.

(2) An action prohibited by subsection (1) of this section shall be immediately reported to the commission.

Section 21. An owner, agent, or driver who has entered a horse shall not demand of the association a bonus of money or other special award or consideration as a condition for starting the horse.

Section 22. Wagering. (1) A driver shall not place a wager, or cause a wager to be placed on his or her behalf, or accept a ticket or winnings from a wager on a race, except:

Section 24. Denerving. (1) A horse that has had a chemical, surgical, or thermal neurectomy at or above the fetlock shall not be permitted to race.

(2) A horse that has had a palpable or plantar digital neurectomy may be permitted to race if:

(a) The neurectomy has been reported by the trainer to the stewards; and

(b) The horse has been approved for racing by the commission veterinarian prior to being entered to race.

(3) A horse on which a neurectomy has been performed shall have that fact designated on its registration certificate, virtual certificate, racing permit, and entry in the electronic registration system. Responsibility for ensuring that the neurectomy is correctly noted on the horse’s registration certificate, virtual certificate, racing permit, and entry in the electronic registration system shall fall:

(a) Jointly on the practicing veterinarian who performed the operation and the trainer of the denerved horse if the neurectomy was performed at a location under the commission's jurisdiction; and

(b) Solely on the owner of the denerved horse if the neurectomy was performed at a location not under the commission's jurisdiction.

(4) If a horse races in violation of this section and participates in the purse distribution, a protest shall not be considered unless submitted in writing to the stewards within forty-eight (48) hours after the race.

(5) If a horse races in violation of this section and is claimed, a protest shall not be considered unless the successful claimant submits a protest in writing within forty-eight (48) hours requesting that the claim be voided. If the claim is voided, the horse shall be returned to the owner who started the horse in the race, and the claim price shall be returned to the claimant.

(6) A list of all denerved horses shall be made publicly available.

Section 25. Spayed Mares. If a mare has been spayed:

(1) It shall be noted on the:

(a) Registration certificate;

(b) Electronic eligibility certificate; and

(a) Notify the United States Trotting Association that the mare has been spayed; and

(b) Return the mare’s papers to the United States Trotting Association for correction.

Section 26. Starting Gate. (1) Starter's control. The starter shall have control of the horses from the formation of the parade until the word, “go,” is given.

(2) Before or during the parade, the starter shall inform the drivers of the number of scores permitted. After one (1) or two (2) preliminary warming up scores, the starter shall notify the drivers to proceed to the starting gate.

(3) A horse shall not be brought to the starting gate nearer than one eighth (1/8) of a mile before the start, if the length of the stretch permits.

(4) On a mile track, a horse shall be brought to the starting gate at the head of the stretch.

(5) The starting point shall be a point on the inside rail a distance of at least 200 feet from the first turn. The starter shall give the word “go” at the starting point.

(6) When a speed has been reached in the course of a start there shall not be a decrease except in the case of a recall.
(7) If a recall is necessary, a light plainly visible to the driver shall be flashed and a recall sounded and, if possible, the starter shall leave the wings of the gate extended and gradually slow the speed of the gate to assist in stopping the field of horses. The starter may close the wings of the gate if an emergency situation arises.

(8) There shall not be a recall after the word “go” has been given and any horse, regardless of position or accident, shall be considered a starter from the time the horse enters into the starter's control, unless dismissed by the starter or judges pursuant to subsection (10) of this section.

(9) The starter shall endeavor to start all horses in position and on gait, but a recall shall not be sounded for a breaking horse.

(10) The starter may sound a recall only for the following reasons, if the starter believes the integrity of the race may be jeopardized:
    (a) A horse scores ahead of the gate;
    (b) There is interference;
    (c) A horse has broken equipment;
    (d) A horse falls before the word “go” is given;
    (e) There is a deflection of the starting gate;
    (f) A horse comes to the gate out of position; or
    (g) A circumstance arises that will not allow a fair start, as determined by the starter.

Section 27. Holding Horses Before Start.

(1) A horse shall not be held on the backstretch for more than three (3) minutes awaiting post time, except if delayed by an emergency or by permission of the judges.

(2) Post time shall be posted no later than two (2) minutes following a previous race with the exception of mutuel malfunction.

(3) Horses shall not be held on the track more than ten (10) minutes unless permission is granted by the Presiding Judge.

Section 28. Two (2) Tiers.

(1) If there are two (2) tiers of horses, the withdrawal of a horse that has drawn or earned a position in the front tier shall not affect the position of the horses that have drawn or earned positions in the second tier.

(2) (a) If a horse is drawn from any tier, horses on the outside shall fill the vacancy.

(b) If a horse has drawn a post position in the second tier, the driver of the horse may elect to score out behind any horse in the first tier, if the driver does not interfere with another trailing horse or deprive another trailing horse of a drawn position.

Section 29. Starters.

(1) A horse shall be considered to have started when the word “go” is given by the starter, and a horse shall be required to complete the course except in case of accident, broken equipment, or other circumstance which, in the opinion of the judges, makes it impossible or unsafe to complete the course.

(2) For the purpose of declaring a horse a nonstarter, the judges shall consider the actual starting point on the track regardless if there was a start.

Section 30. Unmanageable Horse.

(1) If, in the opinion of the judges or the starter, a horse is unmanageable or may cause accidents or injury to another horse or to any driver, it shall be scratched. The starter shall notify the judges of the scratch, who shall then notify the public.

(2) A horse shall be considered unmanageable if it causes two (2) recalls in the same dash or heat, in which case it shall be scratched.

Section 31. Bad Acting Horse. At a meeting where there is no wagering, the starter may place a bad acting horse on the outside. At a pari-mutuel meeting, this action may be taken only if there is time for the starter to notify the judges, who shall in turn notify the public prior to the sale of tickets for the race. If tickets have been sold, the bad acting horse shall be scratched under the provisions of Section 30 of this administrative regulation.

Section 32. Post Positions; Heat Racing. The horse winning a heat shall take the pole (or inside position) in the succeeding heat, unless otherwise specified in the published conditions, and all others shall take their positions in the order they were placed in the last heat. If two (2) or more horses finish in a dead heat, their positions shall be settled by lot.

Section 33. Shield. The arms of a starting gate shall be provided with a screen or a shield in front of the position for each horse, and the arms shall be perpendicular to the rail.

Section 34. Unfair Advantage Prior to Start. If a horse comes to the gate out of its assigned post position and gains an unfair advantage by moving either to the left or right to its assigned post position before the starter gives the word, “go,” that horse shall be disqualified and placed by the judges.

Section 35. Malfunction of the Gate. A licensed starter shall check the starting gate for malfunctions before commencing a meeting and shall practice the measures to be followed if there is a malfunction. Both the starter and the driver of the gate shall know and practice emergency measures, and the starter shall be responsible for the training of drivers in taking emergency measures.

Section 36. Timing Races. The time of a heat shall be taken by:

(1) One electronic timing device; and

(2) One hand-held timing device.

Section 37. Track Measurement Certificate. An association shall file with the commission a certificate from a duly licensed civil engineer or land surveyor attesting that the track has been measured from wire to wire three (3) feet out from the pole or inside hub rail, and certifying in linear feet the result of the measurement. If there is a change or relocation of the hub rail, the track shall be measured and recertified.

Section 38. Time for Lapped Break. The leading horse shall be timed and his time only shall be announced. A horse shall not obtain a win race record by reason of the disqualification of another horse unless the horse’s actual race time can be determined by photo finish or electronic timing.

Section 39. Time for Dead Heat. If there is a dead heat, the time shall constitute a record for the horses making a dead heat and both shall be considered winners.

Section 40. Timing Procedure. The time shall be taken from the first horse leaving the point from which the distance of the race is measured until the winner reaches the wire.

Section 41. Time Performances. Time performances shall be permitted with the permission of the presiding judge subject to the following:

(1) A urine test or blood test or both shall be required for any horse with a winning time performance; and

(2) A workout for the judges or time trial performance shall not
be used to qualify a horse to race.

Section 42. Unless otherwise provided in the conditions, a purse shall be distributed on the dash basis with the money awarded according to a horse’s position in each separate dash or heat of the race. Purse money distribution in overnight events shall be limited to the first five (5) finishers.

Section 43. Dashes.
(1) Except for stakes or futurities as established in 810 KAR 5:050, Section 7, unless otherwise specified in the conditions, the money distribution in dashes shall be in the following percentages: fifty (50), twenty-five (25), twelve (12), eight (8), and five (5).
(2) In early closing races, late closing races, or added money events, if there are less than five (5) starters, the remaining purse shall go to the race winner unless the conditions call for a different distribution.
(3) In overnight events, if there are less than five (5) starters, the purse for the position for which there are no starters shall be retained by the association pending the decision of the protest review commission. A purse for the position for which there are no starters shall be divided among the nominators who have horses declared in and eligible to participate in purse distribution from subsequent heats.
(4) If there is a purse for which horses have started but were unable to finish due to an accident, all non-offending horses that did not finish shall share equally in the premium or premiums.
(5) If there is a purse for which horses have started but were unable to finish and the situation is not covered by subsection (4) of this section, the purse shall be paid to the winner.

Section 44. If unfavorable weather or other unavoidable cause exists that necessitates postponement of a race, and the judges consent, an association shall postpone a race in the following manner:
(1) Early closing races, stakes, and futurities shall be postponed to a definite hour the next fair day and good track.
(2) A late closing race, early closing race, stake, or futurity (except as provided in subsections (4) and (5) of this section) that cannot be raced during the scheduled meeting shall be declared off, and the entrance money and forfeits shall be divided equally among the nominators who have horses declared in and eligible to start.
(3) A late closing race or early closing race that has been started and remains unfinished on the last day of the scheduled meeting shall be declared ended and the full purse divided according to the summary. A late closing race or early closing race that has been started but postponed by rain earlier in the meeting shall be declared ended and the full purse divided according to the summary, if there is sufficient time to conduct the race during the scheduled meeting.
(4) A stake or futurity shall be raced where advertised, and the race meeting, if necessary, shall be extended. A stake or futurity that has been started and remains unfinished on the last day of the scheduled meeting shall be declared ended and the full purse divided according to the summary, unless the association elects to extend the meeting to complete the race. A horse that is scratched after a heat and before a race is declared finished shall not participate in purse distribution from subsequent heats.
(5) Unless otherwise provided in the conditions of the race, unanimous consent shall be obtained from the association and from those with eligibles in the race before a stakes race or futurity may be transferred to another meeting.
(6) A meeting of more than five (5) days duration, an overnight event may be postponed and carried over for a maximum of two (2) racing days.
(7) At a meeting of five (5) days duration or less, an overnight event or late closing race shall be cancelled and starting fees shall be returned if postponement occurs, unless the association adds the postponed race to the advertised program and the race is held within two (2) weeks of cancellation.
(8) A postponed race may, at the option of the association, be contested in a single mile dash. If a race is postponed under this administrative regulation, the association shall select the order in which the events shall be raced in any combined program.

Section 45. Post Time.
(1) If racing is conducted at night or twilight, the racing program shall be completed no later than 12:00 a.m., midnight.
(2) Post time for the first race of the evening shall be fixed by the association. A delay in the first post of not more than ten (10) minutes from the established post time may be taken without prior approval of the commission.

Section 46. Number of Races Per Program.
(1) If eight (8) races are programmed, four (4) completed races shall constitute a completed program.
(2) If nine (9) races are programmed, five (5) completed races shall constitute a completed program.
(3) If ten (10) or more races are programmed, six (6) completed races shall constitute a completed program.

Section 47. Postponements.
(1) Racing shall not be conducted by an association over a track that is dangerous to drivers or horses.
(2) If inclement weather or other conditions appear to make the track dangerous, the presiding judge, a representative of the association, and a representative of the Kentucky Harness Horseman’s Association or the Kentucky Harness Association shall determine whether racing shall be conducted or postponed.
(3) If a difference of opinion exists between the representative of the association and the representative of the Kentucky Harness Horseman’s Association or the Kentucky Harness Association as to whether racing shall be conducted or postponed, the decision of the presiding judge shall be final.

Section 48. Protests. Protests shall:
(1) Be made only by:
(a) An owner;
(b) A manager;
(c) A trainer; or
(d) A driver;
(2) Be made at any time before distribution of the purse is made;
(3) Be made in writing;
(4) Be sworn to; and
(5) Contain at least one (1) specific charge questioning eligibility which, if true, would prevent the offending horse from competing in the race.

Section 49. The judges shall, in case of protest, demand that the driver and the owner or owners, if present, shall immediately testify under oath. If a person refuses to testify after being ordered to do so and the race has not yet started, that person’s horse shall not be allowed to start or continue in the race, but shall be ruled out, and any entrance money shall be forfeited.

Section 50. Unless the judges find satisfactory evidence to warrant excluding the horse, they shall allow a horse to start or continue in the race under protest. If the race is won by that horse, it shall be retained by the association on behalf of the commission to allow the interested parties to continue the protest proceeding, in accordance with Section 53 of this administrative regulation.

Section 51. A person shall not knowingly, and with intent to influence the results of a race, protest a horse falsely and without cause.

Section 52. This administrative regulation shall not affect the distribution of the pari-mutuel pools at tracks where pari-mutuel wagering is conducted, if the distribution is made upon the official placing at the conclusion of the heat or dash.

Section 53. (1) A protest shall be reviewed and appealed in accordance with the procedures set forth in 810 KAR 8:030 and KRS Chapter 13b.
(2) The purse money affected shall be deposited with the association pending the decision of the protest review or appeal.
VOLUME 48, NUMBER 4—OCTOBER 1, 2021

Section 54. A judge shall not refuse to accept a protest.

Section 55. A person who has knowledge, prior to a race, of information that would prevent an ineligible horse from running in a race, and who fails to file a protest prior to the race with regard to that horse, shall have waived the right to protest after the race if the protest would have prevented the ineligible horse from running in the race.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Julie Brooks or Krista Quarles

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes fee amounts for reviewing construction plans and conducting construction inspections, annual fees for inspections of public swimming and bathing facilities including those with interactive water features, spray and splash pads or parks, and
beaches, and fees for annual permitting of these facilities.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish a schedule of fees to help support the local health departments (LHD) and the cabinet in administering a program for public and semipublic swimming and bathing facilities.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 194A.050(2) authorizes the secretary to promulgate regulations to establish a fee schedule for permitting and annual inspection of efforts regarding compliance with program standards administered by the cabinet.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist with addressing the cost to administer public swimming and bathing facility construction, permitting and inspection programs.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation establishes an annual fee schedule for the costs of reviewing construction plans and conducting construction inspections, annual fees for inspections of public swimming and bathing facilities including those interactive water features, spray and splash pads or parks, and beaches, and fees for annual permitting of these facilities. This change in the schedule of fees is consistent with the amount of time and effort expended by LHDs and cabinet staff conducting plan reviews and inspections based on the size and complexity of the establishment and the amount of time the establishment is open during the year that determines the number of inspections.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to offset the cost of administering this program.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 194A.050(2) authorizes the secretary to promulgate regulations to establish a fee schedule for permitting and annual inspection of efforts regarding compliance with program standards administered by the cabinet.

(d) How the amendment will assist in the effective administration of the statutes: The increase in inspection and permitting fees will help to offset the costs incurred by the cabinet and LHD when inspecting, reviewing construction plans, and permitting public and semipublic swimming and bathing facilities. This will ensure all public and semipublic swimming and bathing facilities are in full compliance with program standards.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: There are currently 2,250 public swimming pools, 188 semipublic pools, and 233 beaches regulated by the department. The department receives approximately 115 requests for plan review each year.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in questions (3) will have to take to comply with this administrative regulation or amendment: The permitted swimming and bathing facilities will pay a set permitting fee based on the time required to administratively track and renew permits in the Environmental Health Management Information System (EHMIS) database. Fees for inspections are being increased since this regulation was last amended in 2001 to help recoup the cost borne by local health departments and the cabinet to administer this program based on current salary rates, time and effort expended dependent upon facility size and complexity and the number of months open throughout the year.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the identities identified in question (3): A reasonable schedule of permitting and inspection fees is established in this amendment which help LHDs and the cabinet partially recover the full cost of running these programs. These fees are based on current salary requirements, time and effort spent conducting inspections which is largely dependent on size and complexity and the number of months a facility is open during the year.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): All swimming and bathing facilities are required to be inspected and permitted by the cabinet. The fees paid for inspection and permitting help to ensure swimming and bathing facilities are in compliance with state laws.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The one-time cost to be taken by the cabinet for Data Processing to update the inspection fees in EHMIS and to create a new permitting fee in EHMIS.

(b) On a continuing basis: There are no additional costs on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The funds received from fees continue to be used to implement and enforce this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change, if it is an amendment: This amendment does result in an increase in fees paid by swimming and bathing facilities. There is no increase in funding necessary for this regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees. The amendment to this administrative regulation increases the fees associated with operating public or semipublic swimming pools and recreational beach facilities. The administrative costs to local health departments and the cabinet is approximately $150 per hour for local health department environmental health inspectors of swimming and bathing facilities. This cost includes the salary of the inspector, fiscal year 2018 Kentucky Employee Retirement System (KERS), Federal Insurance Contributions Act (FICA) contributions, and health and life insurance cost. The total costs across all local health departments and the state is approximately $2,376,885 per year. The size and complexity of the establishment as well as the number of months the facility is open during a year all have an impact on the time required to conduct an inspection as well as the number of inspections performed throughout the year. All public and semi-public swimming and bathing facilities require a minimum of two (2) full facility inspections and monthly monitoring inspections per year. Facilities open year round have a total of twelve (12) inspections while seasonal facilities will have a total of five (5) inspections.

The current fee structure for swimming pools is based on the total square footage of the water surface area and separated into two (2) categories of 1,000 feet or less and 1,001 feet or more. This fee structure does not take into account the complexity of the inspection required for larger swimming pools, nor does it account for interactive or specialized water features. The current fee structure for beaches is based on the linear square feet of the beachfront and is separated into two (2) categories of 149 feet or less and 150 feet or more. This does not account for the complexity of inspecting larger beach areas, nor does it account for interactive or inflatable water features.

The proposed fee structure for swimming pools keeps the categories based on total square footage for water surface area but adds two (2) additional categories of 1,001 to 1,500 square feet and 1,501 to 2,000 square feet. Swimming pools 2,001 square feet and more will pay an additional fifty (50) dollars for each additional 500 square feet. The proposed fee structure for beaches adds one (1) additional category of 150 to 200 linear square feet. Beaches 201 or more linear square feet of beachfront will pay an additional fifty (50) for each additional 50 feet.

The proposed amendment to the fee structure includes the following new fees: seventy-five (75) dollars for each interactive water feature, including inflatable water features; $150 for spas and hot tubs; $250 for splash pads operated by local governments; and $100 annual permit fee for all facilities.

(9) TIERING: Is tiering applied? (Explain why or why not.) Tiering is applied. The inspection of complex swimming and bathing facilities and the facilities open more than 5 months in a year (not seasonal) requires more time and attention to detail. These facilities will pay a larger annual inspection fee. All swimming and bathing facilities will pay the same annual permitting fee to cover the administrative cost of tracking these facilities in EHMIS and renewing permits.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment impacts the Department for Public Health, Division of Public Health Protection and Safety, Environmental Management and Public Safety Branches, and all local health departments. Furthermore, those counties and municipalities that operate and maintain public swimming and bathing facilities will be impacted as will be the Kentucky Department of Parks which operates public swimming and bathing facilities including public beaches.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.050 and 211.180.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The change in fee structure will generate an estimated $286,450 in the first year. The new permit fee will generate an estimated $228,800 in the first year.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The annual permit fee will generate an estimated $286,450 in subsequent years. The annual permit fee will generate an estimated $228,800 in subsequent years.

(c) How much will it cost to administer this program for the first year? The costs associated with administering the permitting and inspection program is $2,376,885.

(d) How much will it cost to administer this program for subsequent years? There will be no change in program cost.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. The department, managed care organizations and providers will need to not assess or collect copayments in order to comply with the changes made to the administrative regulation.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Enrollees and recipients will incur no costs in complying with this administrative regulation.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Enrollees, recipients, and providers will be able to participate fully in the Medicaid program.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: The Department for Medicaid Services (DMS) has recently implemented changes that reduce all cost-sharing to no more than $1 per year. As such, DMS does not anticipate additional costs in implementing this administrative regulation. Furthermore, this administrative regulation will allow for improved treatment adherence and removing a barrier to care for many low-income recipients. DMS anticipates that these costs may be neutralized by improved and earlier care.
(b) On a continuing basis: The Department for Medicaid Services (DMS) is already working to continue substantial reductions in cost-sharing, due to recent regulatory and COVID-19 pandemic changes. As such, DMS does not anticipate additional costs in implementing this administrative regulation. (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding will be necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendments to this administrative regulation neither establish nor increase any fees.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.

2. State compliance standards. KRS 205.520(3), KRS 205.6312, and KRS 194A.050(1).

KRS 1396a(1) establishes categories of individuals for whom a state’s Medicaid program may not impose cost sharing as well as cost sharing and premium limits.

42 C.F.R. 447.50 through 447.60 also establish limits on cost sharing (based on income of the given Medicaid eligibility group); Medicaid populations exempt from cost sharing (children, pregnant women, institutionalized individuals for example); services exempt from cost sharing (emergency services, family planning services to child-bearing age individuals); prohibition against multiple cost sharing for one (1) service; a requirement that state Medicaid programs do not increase a provider’s reimbursement by the amount of cost sharing; and a requirement that managed care organizations’ cost sharing must comply with the aforementioned federal regulations.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Stricter requirements are not imposed.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate: 42 U.S.C. 1396a(a)(30) and 42 C.F.R.447.205.
2. State compliance standards. KRS 205.520(3) states, “to qualify for federal funds the secretary for health and family services may by this administrative regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the
secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Medicaid reimbursement for services is required to be consistent with efficiency, economy and quality of care and be sufficient to attract enough providers to assure access to services. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "... provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available to the general population in the geographic area."

42 C.F.R. 447.205 mandates that the state provide public notice of reimbursement changes.

4. Shall this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The amendment does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The policy is not stricter than the federal standard.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) shall be impacted by this administrative regulation? The Department for Medicaid Services (DMS) shall be impacted by the amendment.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. of the authorizing statutes: KRS 620.142(5) requires the cabinet to promulgate administrative regulations developing custodial, permanency, and service options that shall be available to a relative or fictive kin caregiver. This administrative regulation conforms to the content of the authorizing statutes through its establishment of the service array for a relative or fictive kin caregiver.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes through its establishment of a service array for a relative or fictive kin caregiver.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment includes that fictive kin caregivers may receive the one-time placement support benefit that was previously available to only relative caregivers, in compliance with the amendment to KRS 620.142(1) accomplished through House Bill 492 (2021 Regular Session). As included in the amendment, federal law prohibits the provision of Temporary Assistance for Needy Families (TANF) Block Grant funds to fictive kin caregivers or reimbursement to the state for this purpose; therefore, this support benefit shall be provided to fictive kin caregivers to the extent that this provision is appropriated through General Funds. The amendment makes other minor technical updates.

(b) The necessity of the amendment to this administrative regulation: House Bill 492 was passed in the 2021 Regular Session and included that the one-time placement support benefit provided to relative caregivers of children in the state’s custody (out of home care) also be available to fictive kin caregivers. Federal TANF funds cannot be provided to a caregiver who is not a relative or reimbursed to the state for this purpose; therefore, this provision must be paid through the General Fund appropriation. One million dollars has been appropriated to this program for each year of the implementation and enforcement of this administrative regulation. The cabinet anticipates a need for this appropriation to be increased in order to continue providing this support to relative and fictive kin caregivers.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 620.142(1) was amended to include that the one-time placement support benefit provided to relative caregivers of children in out of home care be available to fictive kin caregivers as well.

(d) How the amendment will assist in the effective administration of the statutes: The amendment is necessary for consistency with enacted legislation.

(3) List the type and number of individuals, organizations, or state and local governments affected by this administrative regulation: As of August 1, 2021, there were 1,430 children in the state’s custody who are not relatives and who qualify for the one-time placement support benefit.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Someone who meets the definition of being fictive kin to a child who has been removed from their home and placed in the state’s custody must either receive the support benefit or assist with the placement of the child. The fictive kin caregiver may choose to apply for the benefit, and if so, provide tax status and contact information, as currently required of relative caregivers.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3) to comply with the new requirements? The cabinet anticipates a need for this appropriation to be increased in order to continue providing this support to relative and fictive kin caregivers.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): This one-time support benefit is provided to assist with costs associated with placing a child, such as the cost of a bed or crib, clothes, car seat, etc.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The cost of providing this benefit to fictive kin is difficult to estimate given that the number of fictive kin caregivers accepting placement varies from year to year and because a relative or fictive kin caregiver may choose to not receive this benefit. As of August 1, 2021, there were 1,430 children in the custody of the state, placed with a relative or fictive kin caregiver (including relative or fictive kin foster parents). One million dollars in General Funds is appropriated to this program each year and the appropriation has been exhausted by relative caregivers alone. The cabinet anticipates a need for this appropriation to be increased in order to continue providing this support to relative and fictive kin caregivers.

(b) On a continuing basis: The cabinet anticipates that providing this support to relative and fictive kin caregivers will exceed the one million dollar appropriation received for this program. TANF funds may not be used to reimburse the state for benefits provided to fictive kin caregivers.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The one million dollar per year General Fund appropriation specifically for the Relative Placement Support Benefit. This funding is used as Maintenance of Effort General Funds applied towards the other requirements of 42 U.S.C. 601, 671, 673, 675. This administrative regulation does not establish or increase any fees.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is no associated increase in fees. The cabinet anticipates a General Fund increase in funding for this program may be necessary.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish or increase any fees.

(9) TIERING: Is tiering applied? No, this administrative regulation is applied in a like manner statewide.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate: 42 U.S.C. 601-619, 671, 673, 675
2. State compliance standards: KRS 194A.050(1), 605.130(7), 605.150(1), 620.142(5)
3. Minimum or uniform standards contained in the federal mandate: 42 U.S.C. 601-619, 671, 673, 675
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation will not impose stricter requirements than those required by the federal mandate. It does vary in providing cash assistance to fictive kin caregivers pursuant to state law, KRS 620.142(1).
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements: This administrative regulation will not impose stricter requirements than those required by federal mandates.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Cabinet for Health and Family Services and government-supported programming for relative and fictive kin caregivers will be impacted by this administrative regulation.
2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation: KRS 194A.050(1), 605.130(7), 605.150(1), 620.142(5), 42 U.S.C. 601-619, 671, 673, 675
3. Estimate the effect of this administrative regulation on the
expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation is not anticipated to generate revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation is not anticipated to generate revenue.

(c) How much will it cost to administer this program for the first year? The many services contained in this administrative regulation are provided and funded through different programs and varying funding streams, exceeding millions of dollars. The cost of this amendment is anticipated to exceed the one million dollars currently appropriated to this program in General Funds each year.

(d) How much will it cost to administer this program for subsequent years? The many services contained in this administrative regulation are provided and funded through different programs and varying funding streams, exceeding millions of dollars. The cost of this amendment is anticipated to exceed the one million dollars currently appropriated to this program in General Funds each year and an increase in program funding may be necessary if relative and fictive kin caregiver placements increase.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Joshua Newton
(1) Provide a brief summary of:
   (a) What this administrative regulation does: This administrative regulation creates a license for in state non-producing distillers and outlines the process for applying it. The new license types are called “in-state supplier license” and a “limited in-state supplier license.”
   (b) The necessity of this administrative regulation: Many entities in Kentucky are participating in the alcohol industry as non-producing distillers. There is currently no specific license for this type of entity. Historically, some have applied for an in-state license and been granted other license types to which these activities do not apply. As there is not a current license type for non-producing distillers, it is necessary to create one by regulation.
   (c) How this administrative regulation conforms to the content of the authorizing statute: KRS 243.030 outlines various distilled spirits and wine licenses and also allows the Alcoholic Beverage Control Board to create necessary license types by regulation. This administrative regulation creates a new license type for non-distilling producers located within Kentucky. Specifically, it creates
an in-state supplier license and limited in-state supplier license which will allow for appropriate licensing for non-distilling producers.

(d) This administrative regulation currently assists or will assist in the effective administration of the statutes: There are many non-producing distillers operating in Kentucky. Historically, because there is no specific license for non-distilling producers, these entities have applied for and been given different licenses like wholesaler licenses (which are inappropriate for producers) or supplier licenses (which may only be granted to out of state applicants). This administrative regulation will allow for these entities to be properly licensed and incur the correct rights and responsibilities.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: NA
(b) The necessity of the amendment to this administrative regulation: NA
(c) How the amendment conforms to the content of the authorizing legislation: NA
(d) How the amendment will assist in the effective administration of the statutes: NA

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The number of individuals or businesses that will be affected by this regulation is unknown. Non-distilling producers licensed under other license types will not be affected other than their current license being renamed to reflect in-state supplier status, which for some will result in reduced license fees. There should be no effect on state or local governments or other organizations.

(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Regulated entities will not be required to undertake any action to comply with this regulation. Those licensed under other license types will simply surrender their current license and receive a new license with the correct title. Their rights and responsibilities will not change. Some will pay a lower rate when they renew the license, depending on the type of license they received originally.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: Licensees will incur no additional costs in complying with this regulation.

An renewal is necessary. For example, some non-producing distillers are licensed as wholesalers. That license type is $2,060 per year. The newly created in-state supplier license cost will the business $1,550 or $260 per year, depending on production amounts. Further, those licensed under the new license type will be considered “manufacturers” and will incur all the benefits associated with that label, including the ability to apply for a direct to consumer shipping license.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Joshua Newton
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation permits and defines alternating proprietorship agreements so that two or more licensees may share possession or ownership of a licensed premises and alternate exclusive use of the premises.
(b) The necessity of this administrative regulation: KRS 243.220 requires a licensed premise to be owned or leased by the licensee for the term of the license. This regulation allows licensees to enter into agreements to share a licensed premise and identify when each will have sole use of it. This is beneficial to smaller businesses who will now be able to share in the costs of maintaining a premise they may not need to use full-time.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation permits sharing of a licensed premise by two or more licensees and outlines how they may accomplish that. KRS 241.060 authorizes the board to promulgate reasonable regulations governing licensing and traffic of alcoholic beverages. This regulation is in conformity with the governing statute in outlining how a premise may be licensed to more than one licensee.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: KRS 243.220 prohibits a premise from being licensed unless the applicant has ownership or possession of the premise under a written agreement for the term of the license. This regulation outlines how two or more licensees may share a premise to be licensed and the written agreement required.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: NA
(b) The necessity of the amendment to this administrative regulation: NA
(c) How the amendment conforms to the content of the authorizing statutes: NA
(d) How the amendment will assist in the effective administration of the statutes: NA
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The number of licensees that will be affected by the regulation is unknown as it will allow current licensees to share premises under a written agreement and may open the door to others who would like to obtain a license but haven’t had the financial ability or logistical need to own or lease a premises individually. Because the regulation does not change production limits or the prohibition on interlocking substantial interests, it will not adversely affect the industry or the consumer. There are no affects to state or local government operations.
(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Regulated entities will not be required to undertake any action to comply with this regulation unless they want to enter into an alternating proprietorship agreement and combine licensed premises. Those wishing to enter into such agreements will continue to operate under the laws they were subject to before implement the proposed changes.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: There are no additional costs associated with compliance with this regulation, though many licensees may receive a cost benefit by sharing space.
(c) As a result of compliance, what benefits will accrue to the entities: If the regulated entities choose to combine premises they may receive a cost benefit in the reduction of overhead costs for their operations.
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: There is no additional cost associated with implementation of this regulation.
(b) On a continuing basis: There is no additional cost associated with implementation of this regulation.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: There is additional no cost associated with implementation of this regulation and no funding is required.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation did not establish any fees, and did not directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? Tiering is not applied because this will affect all regulated entities equally.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Joshua Newton

(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation empowers the Board to continue administrative proceedings to adjudicate violations of KRS Chapters 241 to 244 by licensees and former licensees despite the surrender of their licenses in order to ensure that licensees who violate alcoholic beverage control laws may be held accountable and duly prevented from becoming licensed again for two years in accordance with KRS 243.100.
(b) The necessity of this administrative regulation: KRS 243.100 prohibits a licensee whose license has been revoked for violations of alcoholic beverage control laws from obtaining another license for two years. However, no statutory provision exists to explain what happens to proceedings against licensees facing revocation if they surrender their license before issuance of a final order. This regulation enables the Board to hold licensees accountable for violations despite surrender of their license.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the statutory requirements of KRS 243.100 by allowing the Board to identify a licensee who should be prohibited from obtaining a license to traffic in alcohol for two years after violating alcoholic beverage laws, rather than merely surrendering the current license to avoid official action and then immediately reapplying for another one. This is a common practice that prevents the Board from enforcing the legislative intent of KRS 243.100.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation will assist the Board in enforcing the legislative intent of KRS 243.100 that licensees who violate alcoholic beverage laws shall not obtain a license for two years.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: NA
(b) The necessity of the amendment to this administrative regulation: NA
(c) How the amendment conforms to the content of the authorizing statutes: NA
(d) How the amendment will assist in the effective administration of the statutes: NA

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation will only affect licensees who violate alcoholic beverage laws and seek to avoid responsibility by surrendering their license. The number licensees affected is uncertain but this regulation should act as a deterrent to violations because it will ensure that those precluded from licensing under KRS 243.100 are actually prohibited.

(4) Provide an analysis of how the entities identified in the previous question will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions each of the regulated entities have to take to comply with this regulation or amendment: Regulated entities will not be required to undertake any action to comply with this regulation.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities: Compliance with this administrative regulation will present no cost to those licensees complying with alcoholic beverage laws but will merely prohibit those who should be prohibited from licensing from receiving future licenses.
(c) As a result of compliance, what benefits will accrue to the entities: No benefits will accrue to licensed entities.
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
   (a) Initially: There is no cost to the administrative body to implement this regulation.
   (b) On a continuing basis: There are no ongoing costs to the administrative body as a result of implementation of this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Because there is no cost associated with implementation and enforcement of this administrative regulation, no funding will be required.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Implementation of this administrative regulation will require no increase in fees or funding.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation did not establish any fees, and did not directly or indirectly increase any fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Phyllis W. Sosa Krista Quarles

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the process for submitting curricula for cabinet approval that will meet the minimum training requirements for direct-care staff serving individuals exhibiting symptoms of Alzheimer's or other dementias as established pursuant to KRS 216.713.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to implement the training requirement set forth in KRS 216.713.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to KRS 216.713 by establishing the process of submission and approval of direct-care training curricula for provider staff who serve individuals exhibiting symptoms of Alzheimer's or other dementias.

(d) How this administrative regulation will assist in the effective administration of the statutes: This administrative regulation defines the procedure to obtain curriculum approval for use as well as mandates DAIL to maintain a list of approved standardized curricula from which provider agencies can choose. This will ensure that provider agency staff will receive dementia-specific training that influences the quality of their care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of: This is a new administrative regulation.

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation.

(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation.

(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect any of the 217 certified personal services agencies and 133 assisted-living facilities that serve individuals who exhibit symptoms of Alzheimer's and other dementias. It will also affect citizens experiencing symptoms of Alzheimer's and other dementias as well as their family caregivers.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Each provider agency will be required to submit for DAIL approval the training curriculum they intend to use to train their direct-care providers who serve individuals with Alzheimer's disease or other dementias, or they may indicate which of the DAIL approved standardized curriculum they intend to use.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): As there are numerous free dementia specific curricula already endorsed by the Alzheimer's Association, that will be considered as approved standardized curriculum, no additional expense is anticipated.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The agency staff will be more prepared to serve people experiencing symptoms of Alzheimer's disease and other dementias, which will improve the quality of care given to this population.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: It is estimated that the Office of Dementia Services Staff Assistant position will spend approximately 30% of his/her time analyzing and approving curricula. Since this position is not yet filled, this fiscal year's cost will be approximately $21,000.

(b) On a continuing basis: The estimated annual cost will be approximately $28,000 (based on 30% of a grade 17 salary). There may be a reduction in the percentage of time the department staff will spend in reviewing and approving curriculum after the first year. This will be dependent upon the number of new agencies submitting curriculum for approval and the number of existing providers that submit updated curriculum for review.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Implementation of this administrative regulation will initially be funded by the Older Americans Act of 1965, as amended through P.L. 116-131 (3/25/2020). The Administrative Regulation Review Subcommittee conducted a supplemental meeting on Tuesday, August 17, 2021, and submits this report:

In response to a question by Co-Chair West, Dr. Glass stated that the policy of universal face coverings in schools had generated significant differences of opinion. The Kentucky Board of Education used data in determining the appropriateness of this policy. Because of the evolving of the virus, rather than begin a new policy, this administrative regulation established a return to universal face coverings in schools, which was the policy during the previous school year. Face covering policies had been effective in order to continue in-person instruction for students, teachers, and staff. This was a difficult decision for the board, and the board considered local control and decision-making and personal health decisions were important values; however, the board was required to balance those values with the need to protect the health and safety of students, especially our most vulnerable students. Universal face coverings in Kentucky schools would help reduce viral transmission rates and protect Kentucky's medical resources.

Professor Young stated that, while face coverings alone were not a singularly effective strategy against coronavirus, a layered mitigation approach led to returning students to a safe, in-person learning environment. Vaccinations of school personnel, social distancing, hand hygiene, sanitation, and universal face coverings in schools formed a comprehensive mitigation strategy. Universal face coverings in schools should reduce the number of students and school personnel who would be required to quarantine after viral exposure. The Kentucky Board of Education was statutorily required to promulgate administrative regulations as necessary or advisable. Based on expert guidance from the Centers for Disease Control and Kentucky public health officials, the Kentucky Board of Education determined unanimously that this administrative regulation was necessary and advisable. The board had no intent to extend the face covering policy longer than was necessary to reduce viral transmission, quarantine days, and sick days that kept students from in-person instruction.

Pragya Upreti stated that she was a senior at Lafayette High School and a co-leader of the Kentucky Student Voice Team. The team strongly supported a universal face covering policy for schools as established in this administrative regulation. The Kentucky Student Voice Team conducted a survey of 10,000 students from 119 Kentucky Counties. The survey demonstrated that students' shared experiences pertaining to virtual instruction included a devolution in academic standards and achievement; increased responsibilities at home and work; social isolation; technological challenges, such as inconsistent Wi-Fi services; challenges regarding planning for future education; and physical, financial, and emotional instability. Returning to in-person instruction also included challenges, including anxiety pertaining to students without face coverings in various situations.

Audrey Gilbert stated that she was a junior at Frankfort High School and a co-leader of the Kentucky Student Voice Team. Because Frankfort High School eliminated the virtual option for students for this coming academic year, many students had anxiety about becoming infected with or transmitting coronavirus and returning to in-person instruction, and dealing with encounters with students without face coverings. The Kentucky Board of Education’s administrative regulation addressed the anxiety of many students. Mandating universal face coverings in schools would keep schools open for in-person instruction, while failure to do so would put schools and communities at risk.

Shannon Stocker stated that her daughter, student Cassidy Stocker, was currently battling brain cancer, was in active
chemotherapy treatment, and was immunocompromised. There were many medically fragile students in Kentucky. Cassidy stated that she experienced anxiety about becoming infected with coronavirus if this administrative regulation were lifted. Ms. Stocker stated that this administrative regulation was used by Cassidy’s oncology team to decide that Cassidy would be able to return to in-person instruction. Universal face coverings in schools was not a personal choice because refusal to observe these requirements put the community at risk. Medically fragile students deserved the protection of this administrative regulation.

Kristen Worthen stated that her family kept her school-aged children home last school year in order to protect their medically fragile brother from infection by coronavirus. The children’s education suffered during virtual instruction. The delta variant was impacting children more than at any other time during the pandemic, and face coverings were an effective mitigation method; therefore, this was not the time to lift this administrative regulation. Without a requirement in place, it stood to reason that COVID-cautious families would wear face coverings and other families would not, which would place all at risk.

Katie Basham, public school parent, stated that her 11 year old son was too young to be vaccinated against coronavirus. Pre-pandemic Kentucky led the nation in schoolchildren being raised by grandparents and great-grandparents, who might be at increased risk of negative outcomes from infection by coronavirus.

Arnold’s opinion, most parents believed that coronavirus was a threat to their children. Parents in Madison County had hoped to be able to vaccinate their charges in a healthy environment. Some school districts were already seeing the beginning of staffing shortages, which could be exacerbated if Kentucky eliminated universal face coverings in schools. For the health and safety of Kentucky’s children, please uphold this administrative regulation.

Rebecca Blankenship stated that, as stepmother to seven children, five of whom were school aged, she supported this administrative regulation. Because many children were too young to be vaccinated against coronavirus, it was too early to relax universal face covering requirements for schools. If we fail to vote to uphold this administrative regulation, we should be prepared to accept the list of Kentuckians who would die as a result, including teachers, parents, grandparents, and children.

Chuck Eddy requested that the subcommittee uphold this administrative regulation. Coronavirus was contagious, transmissible, and deadly, and because of the delta variant, more schoolchildren were becoming infected. Approximately 620,000 Americans and at least 7,451 Kentuckians had died from coronavirus. Face coverings were an important and necessary way to reduce the spread and to allow in-person instruction. Half of the children in schools were under 12 years old and ineligible for vaccination. 2,100 new cases of coronavirus were reported in Kentucky on August 16, 2021. 548 of those cases were persons under 18 years of age. Twenty-five percent of new cases were children.

Chris Henning, Bullitt County resident, stated that universal face coverings for schools was a bad decision. There was extensive data to support not requiring that schoolchildren wear face coverings. The Declaration of Independence listed repeated injuries and usurpations by the British Crown, including two that were synonymous with the actions of Governor Beshear and the Kentucky Department of Education. He has refused his ascent to the laws and combined with others to subject us to a jurisdiction foreign to our Constitution and acknowledged by our laws, giving his ascent to their acts as pretended legislation. Citizens should have the equal choice to wear a face covering or not in order to adhere to the principles of liberty. As a veteran of this nation, Mr. Henning found it shameful that we were not following our founding documents. Our oath stated that we were to follow the Constitution. Have courage and stop being afraid. If face coverings worked, why haven’t face coverings worked?

Dr. Chuck Thurston stated that he had worked as a physician for almost half a century in nine (9) states and in many countries. He spent the last year as a COVID ICU hospitalist managing ventilators and pronouncing hundreds of people deceased. He worked at Billie Jean King, 471 FEMA Hospital, in New York City, where hydroxychloroquine was used and, to his knowledge, no one died. He proceeded to work in the Rio Grande area, where hydroxychloroquine was not used and there was a 75 to 95 percent death rate. All the patients who died had been wearing face coverings. Dr. Thurston states that face masks do not work especially since most are not N95 masks or properly worn. All of his patients who died in El Paso were allergic or had a relative who was allergic to Lisinopril. The primary mode of coronavirus spread was not respiratory, but through touch. Face coverings would not help the medically fragile or immunocompromised. Our creator endowed us with the rights and mechanisms to sabotage viruses. Viruses did not mutate; they were sabotaged by the cell. Social distancing and face coverings eliminated that sabotage of the virus by the cell.

Elizabeth Park stated that she approached this matter from a product liability and product safety perspective. If we assumed that face coverings worked and could protect the medically fragile, was it safe for healthy children to wear face coverings for long periods of time? Face coverings were intended for brief use, not for use for nine hour periods. This might constitute product misuse. Research indicated questions regarding the safety of extended face covering use, but not enough investigation had been conducted. There might be long-term neurological effects that show up later in life from oxygen deprivation and too much carbon dioxide.

Marcie Timmerman stated that she was a public school parent, a PTA member, and a person with a disability and an autoimmune disorder. Her ability to work was directly related to upholding this administrative regulation. She was not equipped to home school. Her son was a second grader who was too young for vaccination against coronavirus but who had no difficulties wearing a face covering. Because her medication for her autoimmune disorder significantly weakened her immune system, she was especially susceptible to death from coronavirus infection, even after vaccination, including boosters. This administrative regulation made it possible to send her son to school for in-person instruction; therefore, she and many parents, teachers, and schoolchildren supported universal face coverings in schools during the pandemic.

Ray Arnold stated that he felt great after being vaccinated and hoped to be able to vaccinate his children before universal face coverings in schools were lifted. Parents in the Commonwealth have been unable to vote for school board members since the pandemic began; therefore, parents had no real choice regarding school mitigation measures to prevent coronavirus. In Mr. Arnold’s opinion, most parents believed that coronavirus was a serious threat. Students who lived in poverty had been unable to participate effectively in virtual instruction. There might be potential legal liability related to schools losing insurance coverage. He asked the subcommittee to table this discussion until the court system resolved this dispute or until Kentucky was out of the coronavirus red zone. Nathan Arnold, aged 11, wanted to wear face coverings in school even though he was anxious about going to school amid the pandemic even with face covering requirements in place. Lincoln Arnold, aged eight, presented artwork he had produced that depicted a person with a face covering and a person without a face covering. Delvin Williams stated that he had three children in the school system. Cloth face coverings had been proven to be insufficient protection against coronavirus. While most schoolchildren wore the cloth face coverings; even, N95 face coverings were insufficient protection against viruses. As was stated in earlier testimony, this country was founded on freedom, and we should have freedom of choice whether our children would wear a face covering or not.
covering in school or not. His children would prefer not to wear the face coverings, but had complied in order to avoid school disciplinary action. He was opposed to this administrative regulation. This should be a personal choice, and he believed that most people agreed.

Terri Conen stated that she was a mother of two students from McClean County. The members of the Kentucky Board of Education were not elected and had been appointed by Governor Beshear. This gave the appearance that the school board might not be acting solely in the interest of the children, but might be a partisan arm of the Governor. Members of Ms. Conen’s small rural community rarely wore face coverings throughout the pandemic, but coronavirus outbreaks had been few. According to the Cabinet for Health and Family Services’ Web site, McClean County had a total case rate of zero and two-tenths percent, while Jefferson County’s rate was listed at seventeen and 17.3 percent. Imposing the same restrictions on rural and urban areas was ill considered. There were costs to this policy, including effects on children from not seeing each other’s faces, treating each other like lepers to be avoided, and fearing respiratory illnesses from adults who coughed or sneezed. How were children expected to learn to enunciate? These policies could have long-term effects that were not being considered in this debate. Ms. Conen advocated for a class-action lawsuit against policy makers if there were negative long-term effects for children because of these policies.

Jarrod Burgess stated that his wife was a public school teacher and he had two children in the public school system in Western Kentucky. He agreed with Commissioner Glass that there was a wide difference of opinion about this policy. Freedom and the United States Constitution was not open to opinion; these were rights given by God. Mr. Burgess said that officials were taking away his right to determine what was best for his children. He had the liberty to raise his children the way he saw fit.

Rita Yates, Kentucky Prayer Coalition, stated that she was speaking on behalf of the children who did not have a voice in this debate. Ms. Yates was retired critical care nurse for almost 30 years and was trained in the proper use of face coverings. There was a lot of improper use by the public of personal protective equipment, including pulling at a face covering and not being changed frequently. The standards established by the Kentucky Board of Education allowed for almost anything tied to the face to constitute a face covering. Face coverings did not protect against coronavirus. Proper hand hygiene and keeping hands away from the face were more protective than misused face coverings. Coronavirus was a real disease that was best avoided by being conscious of our environment and using protective equipment properly. Sweden was the only western country that did not shut down, mandate face coverings, or close schools and not one child perished. We had the liberty to choose for ourselves and should have the right to choose what was best for our children. She stated that the lawlessness of Kentucky’s Governor should not go unchecked, as he was under an injunction by the Boone County Circuit Court.

Dawn Perkins, founder of Let them Play, stated that, beginning August 2020, children’s anxiety levels became concerning to her. If we could play sports, we could go to school. Student athletes were students first. No one addressed mental health or overall well-being. Children were educated virtually, and all sports were put on hold. Let them Play became involved with House Bills 208 and 563 and Senate Bill 128 from the Regular Session of the General Assembly. Let them Play believed that unproven face coverings might have mental health effects on children. The Governor had dismissed our children and the leadership in local districts in the name of public health. This administrative regulation was rushed quickly and unexpectedly through the back door and was unnecessary because a 30 day mandate was already in place. Superintendents had been authorized by the Kentucky Board of Education. Children’s needs varied by region, and this policy should be a decision for local districts. Where was the end game and where were the children’s mental health briefings?

Sarah Durand of the Bluegrass Institute for Public Policy, stated that coronavirus posed a smaller risk to children than influenza. The Kentucky Board of Education had never issued a face covering mandate for influenza. This administrative regulation was filed as an emergency to avoid public comment and to usurp local control. Educators had access to this vaccine before higher-risk groups in order to avoid the current situation. Some school boards and superintendents weighed the minimal health risks to children against the negative psychological and learning consequences and chose to leave face covering decisions to parents. It was not the role of the Kentucky Board of Education, the Governor, or the Centers for Disease Control to make health decisions for her children. Face coverings had negative impacts on children. This administrative regulation should be found deficient because it did not meet the criteria for an emergency. It should go through the proper process required by law, which provided for adequate vetting of this policy.

In response to a question by Co-Chair West, Dr. Glass stated that individual rights ended at the point where the rights of others became affected. Established speed limits and restaurant health and safety precautions, for example, were appropriate. The Kentucky Board of Education was operating pursuant to the authority established by KRS 156.160, which directed the board to promulgate administrative regulations to respond to the “emergency and necessary” for “the protection of the health and physical welfare of public schoolchildren.” This authority was separate from the Governor’s authority pursuant to KRS Chapter 39A, which authorized Executive Orders. The Kentucky Board of Education was appropriately appointed, confirmed, and empowered to promulgate this administrative regulation. There was a comment period for this emergency administrative regulation, and administrative notice was conducted in accordance with state law. Experimental and correlational studies, including a study by researchers at Duke University, demonstrated that face coverings were effective reducing the probability of transmission and should be used in combination with other virus-mitigation strategies. In Sweden, face coverings had been voluntary, rather than mandatory, and Sweden had the worst per-capita coronavirus mortality in Europe. The American Academy of Pediatrics stated that face coverings could be worn safely by children two years and older, including most children with underlying health conditions. This administrative regulation considered short-term and long-term impacts of this policy and weighed those concerns against protecting the health and safety of students and the preservation of their opportunities for in-person instruction, which were the primary values. Mr. Allen stated that the board compiled with KRS Chapter 13A, which provided for a public comment process for this administrative regulation.

In response to questions by Co-Chair West, Dr. Glass stated that face coverings could be worn by most young children safely for the school day. Face coverings were used effectively last academic year, and the board was unaware of any claims of negative effects. Professor Young stated that this administrative regulation authorized face covering removal outdoors and at times of social distancing. The Kentucky Board of Education members were not health experts; therefore, the board relied on expert medical advice and data. Dr. Glass stated that face coverings were also authorized for removal for articulation in learning to read. Mr. Allen stated that this administrative regulation was authorized by KRS 156.160, not the Governor’s Executive Order.

Co-Chair West stated that, pursuant to Senate Bill 2 from the 2021 Regular Session of the General Assembly, the Governor had a limited amount of time to promulgate an administrative regulation to effectuate an Executive Order. This administrative regulation was promulgated solely based on the authority established by KRS 156.160 and the Governor’s Executive Order.
did not have an administrative regulation promulgated thereto, the Executive Order would become null and void. Mr. Allen stated that the authority the board relied upon to promulgate this administrative regulation was KRS 156.160, not the Governor’s Executive Order issued pursuant to KRS Chapter 39A.

In response to questions by Co-Chair West, Dr. Glass stated that a noncompliant school would be assessed based on the level of noncompliance. Individual student noncompliance would be addressed through the school’s code of conduct procedures, the same as in the previous academic year. Noncompliance by staff would be addressed through established human resources procedures and possibly through licensure board disciplinary action. Institutional noncompliance by a board, district, or superintendent would be addressed based on the penalties established in the Executive Order or through licensure disciplinary action. If many students became quarantined or ill due to noncompliance, attendance data, which was tied to funding, would be affected. There might also be repercussions related to maintaining liability insurance. Professor Young stated that this administrative regulation did not cover face coverings. Noncompliance with other administrative regulations promulgated by the board. Mr. Allen stated that Section 2 of this administrative regulation required superintendents to develop and implement procedures to ensure compliance. If penalties were implemented, notice and due process procedures would apply. In the interim between academic years, more information was available to develop a layered mitigation method to operate schools safely. Schools did not have adequate space for social distancing; however, the board had learned that social distancing could be relaxed if face coverings were worn. Professor Young stated that in-person instruction in a safe environment was the board’s primary priority to return students to school for this academic year.

In response to questions by Co-Chair Hale, Dr. Glass stated that, as requested by the Local Superintendents Advisory Council, the board considered tabling this policy and working with localized models. Based on the board’s mandate established in KRS 156.160, the board determined that this was not a local matter because most of Kentucky (all except six (6) counties) was in the coronavirus (COVID-19) red zone. The board was unaware of any response from the Local Superintendent Advisory Council. The board believed that, due to the delta variant and the fast-approaching beginning of the academic year, the situation was too dire to table. Dr. Glass hoped that the face covering policy would not need to be in place for the entire school year, and the board planned to lift the policy once it was safe to do so. This administrative regulation was in place for 270 days as established in KRS Chapter 13A, and the board established in their motion a trigger to lift this policy if appropriate. Mr. Allen stated that this administrative regulation could be withdrawn at any time if it became safe to lift this policy.

Senator Alvarado stated that he was a board-certified pediatrician. Coronavirus would not be ending; this virus would continue, like influenza. The Kentucky Board of Education consisted of unelected individuals, while local school boards were elected.

In response to questions by Senator Alvarado, Dr. Glass stated that he believed the parents of Kentucky, the superintendents, and the local school boards loved their children and that he cared about the wellbeing of all Kentucky children.

Senator Alvarado stated that the board did not seem to trust parents and neither did the Governor. Why was the board not asking for input from experts, such as pediatricians? Many superintendents were not commenting on this policy because they were in fear of retribution against their jobs or their districts’ funding. This was a matter of process and policy, not an opposition to facial coverings themselves.

In response to questions by Senator Alvarado, Mr. Glass stated that staff of the Kentucky Department of Education were not medical experts; therefore, they relied on expert advice from the Centers for Disease Control, the American Academy of Pediatrics, the American Medical Association, and the Kentucky Department for Public Health.

Senator Alvarado stated that Governor Beshear, in his veto response to House Bill 1 from the 2021 Regular Session of the General Assembly, had indicated that Centers for Disease Control guidelines were not intended to be prescriptive for administrative regulations or law. In response to a question by Senator Alvarado, Dr. Glass agreed that some countries had more experience dealing with the delta variant than the United States. Senator Alvarado stated that The World Health Organization and the United Nations Children’s Fund recommended adherence to local standards related to mitigation against coronavirus infection. There was limited research on face coverings for children under six years of age; therefore, the Centers for Disease Control and the United Nations Children’s Fund recommended that children under six years of age wear face coverings. They additionally listed factors to consider before requiring face coverings for children six to 11 years of age. Medically fragile children were at risk from influenza, as well as coronavirus. Vaccination, not face coverings, was the solution to increasing population immunity.

In response to questions by Senator Alvarado, Mr. Glass stated that he was unaware of how many teachers had been vaccinated against coronavirus (COVID-19). The board was not currently considering mandatory vaccinations for teachers and school staff. Senator Alvarado stated that this was an issue for local districts.

Representative Marzian stated that House Bill 1 from the 2021 Regular Session of the General Assembly authorized Kentucky to match the Centers for Disease Control guidelines for addressing coronavirus. She worked thirty-eight years in nursing, including being an ICU nurse. Nursing staff were exhausted and frustrated from the current caseload due to coronavirus, much of which was unnecessary and the result of vaccine hesitancy and the refusal to wear face coverings. Concerns about the effect of face coverings on children’s mental health should also apply to children’s mental health in situations of child abuse and domestic abuse, especially because Kentucky ranked first in national incidents of child abuse and domestic abuse. She thanked the board for this policy on behalf of her district.

Senator Yates thanked Senator Alvarado for raising the issue of using the Centers for Disease Control guidelines. House Bill 1 from the 2021 Regular Session of the General Assembly authorized Kentucky to match the Centers for Disease Control guidelines. In response to questions by Senator Yates, Mr. Glass stated that the board’s decision to promulgate this administrative regulation was unanimous. The board consisted of diverse members from both parties. Face coverings were a mitigation method, and Kentucky should be doing whatever was practical to maintain in-person instruction this academic year. Many students experienced difficulties with virtual instruction. The Kentucky Chamber of Commerce was in support of this administrative regulation for economic reasons. Senator Yates thanked the subcommittee for raising this issue for discussion. He noted that this subcommittee could not stop this administrative regulation from remaining in effect.

Senator Alvarado stated that House Bill 1 from the 2021 Regular Session of the General Assembly gave local districts the option whether or not to match Centers for Disease Control guidelines.

Representative Bridges stated that Dr. Glass referenced people in the schools knowing best and the phrase, “in good faith.” In response to questions by Representative Bridges, Dr. Glass stated that people in the schools knew what to do in terms of mitigating against coronavirus. He had been appointed by the
Kentucky Board of Education, who were in turn appointed by Governor Beshear and confirmed by the Kentucky Local superintendents were better suited to make these decisions than appointed members of a board, who were not working directly with schools and students. The recommendations of superintendents went unconsidered, and some were fearful of retribution. He questioned whether the actions of the board were sincerely for the health and wellbeing of the children or whether this policy was the directive of a higher governing power.

In response to questions by Co-Chair West, Dr. Glass stated that this administrative regulation was promulgated pursuant to KRS 156.160, not under authorization of the Governor’s Executive Order.

Co-Chair West stated that this subcommittee could not strike down an administrative regulation. KRS Chapter 13A authorized three actions the subcommittee could take which are to request deferral, request withdrawal, or find an administrative regulation deficient. An administrative regulation found deficient could remain effective upon decision by the Governor. Deficient administrative regulations could then be found null and void by the legislature. A finding of deficiency indicated the intent of legislators regarding that policy.

In response to a question by Co-Chair West, Dr. Glass stated that the department declined to withdraw this administrative regulation. Professor Young stated that the board also declined to withdraw this administrative regulation.

Senator Alvarado made a motion, seconded by Representative Bridges, to find this administrative regulation deficient. Co-Chair West opened the floor for discussion on the motion.

Senator Alvarado stated that he was not opposed to face coverings and that he supported vaccinations. He believed that this policy should be for the local level. Many experts stated that it was inappropriate for very young children down to the age of (2) years old to wear face coverings. It was in many cases easier to potty train a two (2) year old in a month than to train a two (2) year old to safely wear a face covering.

Co-Chair Hale stated that he was not opposed to face coverings. He encouraged those who wanted to wear face coverings to wear them properly. He was not opposed to vaccinations and believed vaccinations were the solution to public immunity but also believed vaccination to be a personal health choice. Local school boards and superintendents were the appropriate people to direct these policies, not the unelected Kentucky Board of Education appointed by the Governor. Many superintendents and school boards were in disagreement with this policy and feared retribution for their opposition. House Bill 1 from the 2021 Regular Session of the General Assembly was passed by the legislature, vetoed by the Governor, and that veto was overridden by the General Assembly. Because the Governor did not like that legislation, he began litigation. Those bills had been with the General Assembly. Because the Governor did not like that legislation, he began litigation. Those bills had been with the legislature without a ruling for months. This was a matter of our common humanity. He thanked parents and caregivers for their support.

Representative Frazier stated that either we had a representative government with local officials who had the power to act locally or we did not.

Representative Bridges stated that there were no guidelines or metrics. What positivity rate would trigger this policy to be lifted by the board? The board should establish definitions and guidelines for consideration by local districts. Pertaining to transmission rates, students did not mingle among schools as, for example, restaurant patrons. This was a matter for local districts, and counties with a shared border were zoned differently with regard to coronavirus positivity rates. Freedom was not a baseless consideration.

Co-Chair West stated that this subcommittee was about due process and the rule of law. The Constitution and the rule of law applied, especially during time of a pandemic. This administrative regulation was not passed by the General Assembly and received no due diligence. The biggest concern was that this administrative regulation had no penalty provisions for noncompliance and no provisions for due process; therefore, he advocated that this administrative regulation be found deficient. The department was making the rules and penalties up as they went. Previous administrative regulations pertaining to face coverings were found deficient by this subcommittee based on these same concerns. This administrative regulation was arbitrary, and our Constitution and the Kentucky Bill of Rights, Section 2, disallowed arbitrary power.

A roll call vote was conducted and, with five votes to find this administrative regulation deficient and two votes against deficiency, this administrative regulation was found deficient.

Representative Marzian explained her no vote. This was a case of political theatre, not health care. Sixty percent of Americans supported face covering mandates. This was a matter of protecting our children’s health and ensuring in-person instruction. Coronavirus would not be limited by county boundaries. It would continue to spread, and medical resources would collapse.

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Public Health: Division of Epidemiology

902 KAR 2:213E. Childcare standards for covering the face in response to declared national or state public health emergency. Wes Duke, general counsel, and Eric Friedlander, secretary, represented the division. Chuck Eddy, citizen, appeared in support of this administrative regulation. Melanie Barker, owner of ABC Children’s Academy and developer of the Kentucky Association of Childcare Owners; Senator Danny Carroll, daycare operator; and Tony Wheatley, parent and member of Constitutional Kentucky; appeared in opposition to this administrative regulation.

In response to a question by Co-Chair West, Mr. Friedlander stated that the policy of universal face coverings in childcare facilities was recommended by the Centers for Disease Control and the American Academy of Pediatrics and was an important strategy to reduce transmission of coronavirus and keep children present in preschool and childcare settings. Vaccines were the solution to establishing general public immunity. He urged everyone to get vaccinated. Currently, most children were too young for vaccination. Until vaccination was available for younger children, the goal was to use mitigation methods to keep them as safe as possible. Mitigation methods for childcare settings included sanitation, hygiene, face coverings, and social distancing. Kentucky was experiencing spikes in infection, hospitalizations, and ICU. There was a concern that medical resources were quickly being outpaced by patients infected with coronavirus. There were currently seventeen children hospitalized in Kentucky because of coronavirus. That was more ventilator-dependent children in Kentucky than at any other time during the pandemic. This was a matter of our common humanity. He thanked parents of medically fragile children because it was a very difficult task.

Chuck Eddy supported this administrative regulation for childcare facilities, including requiring face coverings for children two years and older. Twenty-five percent of yesterday’s newly ventilated coronavirus patients were for children under the age of 18. Children could transmit the virus to parents and grandparents who...
are caregivers to children. Coronavirus was easily transmissible, highly contagious, and deadly. Failure to uphold this policy would likely result in the closure of childcare facilities. These closures would have negative impacts on the economy and on the parents who would miss work to care for these children.

Melanie Barker, owner of ABC Children's Academy and developer of the Kentucky Association of Childcare Owners, stated that two and three year olds could not consistently wear face coverings properly. Children older than three were somewhat better at wearing face coverings, but enforcement was still impractical. It was impossible to keep the face coverings sanitary and to enforce the requirements. It was good to encourage face coverings, but not practical to force this mandate. The majority of time in childcare settings was now spent enforcing the face covering requirements, rather than in educating. A cardiologist client stated to her that this mandate was inappropriate for young children aged two to four. This policy should be lifted immediately.

Tony Wheatley, parent to five daughters, two of whom were medically fragile, stated that he was with Constitutional Kentucky and that he and his daughters would never wear a face covering if they had a choice. Children could not wear face coverings properly for long periods of time. He was trying to develop an alternative school, and 1,100 families had expressed interest in attending an alternative school. Citizens should have the right to wear a face covering or not and should have the right to determine whether or not their children would wear a face covering. He thanked the subcommittee for defending the Constitution.

Senator Danny Carroll, daycare operator, stated that it was counterintuitive to expect a two or three year old to wear a face covering properly. Four and five (5) year olds were somewhat more able to wear the face coverings. He reiterated the earlier testimony of Melanie Barker. This policy was making the situation worse, not better, and would mean the entire day would be spent putting face coverings back on and washing hands. That would be the extent of the development for the children each day. This policy was neither productive nor safe because broken face coverings included parts, such as rubber bands, that were dangerous for young children. He was not opposed to face coverings, but this was a decision for parents. It was unclear whether or not the administration had consulted childcare providers to determine if this policy was practical. This policy was more stringent than Centers for Disease Control guidelines, which stated that only unvaccinated children two years of age and older should wear the face coverings. This situation would have been better addressed with a team approach from both branches of government that included input from childcare providers. This policy was inconsistent and unfair to parents and especially to young children.

In response to a question by Co-Chair West, Mr. Friedlander stated that the department was attempting to implement the recommendations from the Centers for Disease Control and the American Association of Pediatrics.

In response to questions by Senator Alvarado, Mr. Friedlander stated that this administrative regulation required face coverings for children two years of age and older as they were able to wear them. Senator Alvarado stated that he had concerns about hazards, such as choking, related to face coverings worn by very young children.

In response to questions by Senator Alvarado, Mr. Friedlander stated that the Department for Public Health was not responsible for licensing childcare facilities, with the exception of some food establishment components. The Office of Inspector General, in collaboration with the Department for Community Based Services, was responsible for licensing childcare facilities. The department had consulted across the cabinet, including the Division of Childcare, through the general counsel regarding this policy. Mr. Friedlander and Mr. Duke were unaware whether or not childcare operators were consulted regarding this policy. Neither had directly consulted childcare operators. Mr. Duke stated that the cabinet had broad authority pursuant to KRS 214.020, 211.180, and several other statutes, regarding communicable diseases in the Commonwealth, including quarantine and other authority. The Kentucky Board of Education seemed better suited to promulgate an administrative regulation establishing universal face coverings in schools; however, if necessary, it could be argued that the Department for Public Health also had authority to do so, as would local health departments through local ordinances. Waivers regarding the choking and suffocation risks to young children wearing face coverings were required last year. Because there was an exemption for children who could not wear face coverings safely, the waivers were not being used this year. A good faith effort pertaining to encouraging young children wearing face coverings would be similar to a good faith effort with encouraging them to wear shoes. The department had tried to be reasonable with this administrative regulation.

In response to questions by Co-Chair West, Mr. Duke stated that the cabinet had no intention this year to require waivers regarding the choking and suffocation risks to young children wearing face coverings. Childcare facilities themselves, as a contractual matter, did not seem to be prohibited from requiring the waivers. Mr. Friedlander stated that a willfully noncompliant childcare facility was subject to licensure action in conjunction with due process as established in KRS Chapter 13B. Mr. Duke stated that childcare requirements were enforced pursuant to 922 KAR 2:190, which established a hearing process. The cabinet intended to work closely with childcare facilities to assist with compliance, answer questions, and alleviate fears of overbearing enforcement. The goal was health and safety. This administrative regulation did not cross reference 922 KAR 2:190 or KRS Chapter 13B. The cabinet decided to use the authority already existing in 922 KAR 2:190 to make the regulation for childcare providers. Joint Resolution 77 from the 2021 Regular Session of the General Assembly were part of pending litigation, with competing injunctions in place, it was difficult to determine the outcome. The cabinet would comply with any Kentucky Supreme Court order. The cabinet did not believe that the preliminary injunction by the Boone Circuit Court made this administrative regulation void for lack of legal authority because there was a competing injunction by the Franklin Circuit Court. Both injunctions were awaiting a decision by the Kentucky Supreme Court.

In response to questions by Senator Alvarado, Mr. Duke stated that “childcare center” and “family home” were defined in another existing administrative regulation. This policy would not include, for example, children in Sunday school. Mr. Friedlander stated that there were developmental and behavioral affects from dealing with coronavirus across all age spectrums.

In response to questions by Co-Chair West, Mr. Friedlander stated that this policy was necessary because the delta variant was causing an unprecedented spike in infections, hospitalizations, and ICU use. More children were being affected than at any time during the pandemic. Vaccines were the solution, but they were not yet available for young children.

In response to questions by Co-Chair West, Mr. Friedlander stated that there was ongoing research regarding the effects of face covering mandates. This situation would be studied for many years. So far, the preponderance of the evidence was on the side of wearing face coverings because of their efficacy in reducing the transmission of disease. There had been spread of coronavirus within childcare facilities because the delta variant was far more contagious. Co-Chair West stated that after previous face covering mandates were implemented, there were significantly more coronavirus cases. He stated that he hoped that this would not be the case with these mandates.
Co-Chair Hale made a motion, seconded by Senator Alvarado, to find this administrative regulation deficient. Co-Chair West opened the floor for discussion on the motion.

Co-Chair West stated that this administrative regulation was the same as those face covering mandates previously found deficient by this subcommittee. This administrative regulation was silent regarding penalties and due process. The message that this sent to childcare providers was that failure to comply would result in a lost license. While the cabinet said it would work with providers, this administrative regulation did not include provisions for that. As Attorney General Daniel Cameron stated, the Governor, like everyone else, was bound to the law. The Governor was enjoined and prohibited from issuing this administrative regulation. Because the Constitution and the rule of law still applied, Co-Chair West advocated that this administrative regulation be found deficient.

A roll call vote was conducted and, with five votes to find this administrative regulation deficient and two votes against deficiency, this administrative regulation was found deficient.

Senator Alvarado explained his yes vote. He stated that children aged two to five were too young for requirements for face coverings. This administrative regulation did not include the latitude the cabinet had stated it would employ. This promised latitude was not uncommon in healthcare settings, but was sometimes abandoned in situations of noncompliance.

Representative Bridges explained his yes vote. The word, “preponderance,” which meant “a greater weight,” had been used today; however, the preponderance should rest with the health and safety concerns for children. Senator Alvarado was an expert in this area and, if he believed that this was inappropriate, then Representative Bridges agreed that this age group was too young to require face coverings.

Other Business: Co-Chair West welcomed new subcommittee member, Senator Ralph Alvarado.

The subcommittee adjourned at 1:45 p.m. The next meeting of this subcommittee was tentatively scheduled for September 14, 2021, at 1 p.m.
Call to Order and Roll Call

Present were:

The Administrative Regulation Review Subcommittee met on Tuesday, September 14, 2021, and submits this report:

The following administrative regulation was considered for discussion only:

LABOR CABINET: Department of Workers' Claims
803 KAR 25:190. Utilization review – Medical Bill Audit – Medical Director – Appeal of Utilization Review Decisions. Sam Flynn, general counsel; John Ghaelian, general counsel; Dale Hamblin, assistant general counsel; and Robert Walker, interim commissioner, represented the department. Ed O’Daniel, American Property Casualty Insurance Association, appeared in opposition to this administrative regulation.

In response to a question by Co-Chair Hale, Mr. Walker stated that the most important change proposed in this administrative regulation, was establishing a medical director position. The medical director would be a substitute for the appeals and reconsideration processes, which was intended to streamline and expedite treatment for injured workers.

In response to questions by Co-Chair West, Mr. Walker stated that the current process for appeals and reconsideration often delayed treatment by three (3) to six (6) months. A medical director should be able to address the issues so that an injured worker could get treatment within weeks, rather than months. A medical director could proactively contact injured workers who did not have representation to assist those workers with further petition of cases. Mr. Flynn stated that the medical director would not add a layer of bureaucracy and would remove and streamline a complex process.

In response to questions by Senator Alvarado, Mr. Walker stated that injured workers could continue to appeal decisions after the medical director through the Workers’ Compensation Board and, afterward, through the court of appeals. This was different from a medical review board with one (1) decision maker, which had been deemed unconstitutional by the Kentucky Supreme Court, because injured workers would have access to the court system much more quickly. Mr. Hamblin stated that this situation might also be different because injured workers were automatically entitled to treatment. The question be-fore the medical director was limited to the appropriateness of the proposed treatment. Mr. Flynn stated that workers’ compensation provisions were established statutorily, not by the Kentucky Constitution directly. Senator Yates stated that workers’ compensation treatment for injuries was different from medical malpractice cases related to direct compensation.

In response to a question by Co-Chair Hale, Mr. O’Daniel stated that he was concerned that this administrative regulation might conflict with statutory guidelines for treatment. The threshold for a requirement for utilization review has been $3,000. This administrative regulation proposed to change that threshold to $1,000, which could result in a dramatic increase in cases for review. Medical directors in other states did not have to address each case directly. This requirement could create a backlog of cases and increase employer costs. Mr. O’Daniel requested that this administrative regulation be paused.

In response to a question by Co-Chair West, Mr. Flynn and Mr. Walker stated that this administrative regulation had not been discussed in any other legislative committee.

Co-Chair West stated concerns regarding this administrative regulation. A medical director actively seeking appeals would result in more claim cases. Decision making seemed consolidated into one (1) person, which could cause swings in decisions. The medical director might be swayed by political matters. This administrative regulation represented a major programmatic change and had not been reviewed or approved by the General Assembly.

FINANCE AND ADMINISTRATION CABINET: Kentucky Infrastructure Authority
200 KAR 17:110E. Guidelines for Kentucky Infrastructure Authority Drinking Water and Wastewater Grant Program. Bill Pauley, staff attorney, and Sandy Williams, deputy executive director, represented the authority.

In response to questions by Representative Bridges, Ms. Williams stated that the administrative fee established in this emergency administrative regulation was intended to finance administration of the program for six (6) years as federally authorized. The administrative regulation pertaining to broadband had not been filed or presented to the Kentucky Infrastructure Authority board. Representative Bridges stated that the board should, in order to maximize funds, consider using a single computer and accounting system for both the Drinking Water and Wastewater
Grant Program and the program related to the new broadband fund. Ms. Williams stated that the recommendation would be taken into consideration by the board. Mr. Pauley stated that the concerns about redundancy and streamlining were good ideas and it was important to note that the American Rescue Plan Act authorized the administrative fee established in this emergency administrative regulation. Representative Bridges stated that Senate Bill 36 from the 2021 Regular Session of the General Assembly limited administrative funding to the allocated $75,000.

In response to questions by Co-Chair West, Ms. Williams stated that Senate Bill 36 from the 2021 Regular Session of the General Assembly authorized $25 million from the American Rescue Plan Act for broadband development. Those funds were separate from the funds for the Drinking Water and Wastewater Grant Program, although both were authorized through the American Rescue Plan Act. The authority had already received over 400 applications for over $7 million in funds for this program. This emergency administrative regulation did not directly cite the American Rescue Plan Act. Regarding the administrative fee, Mr. Pauley stated that this emergency administrative regulation referenced “as allowed by law.” Co-Chair West stated that a direct citation would be best in this circumstance because it was possible that the statute was limiting what was authorized, but not mandated, by the act.

In response to a question by Co-Chair Hale, Ms. Williams stated that the authority would defer if necessary but would prefer to allow this emergency administrative regulation to move forward and to add the necessary citation to the ordinary administrative regulation. Representative Marzian stated that this emergency administrative regulation would also be reviewed by the subject matter committee of appropriate jurisdiction.

201 KAR 2:360. Naloxone dispensing.

In response to questions by Senator Alvarado, Ms. Davis stated that because pharmacies always gave patients the option for more information at dispensing, the board was proposing to delete safety information requirements. Senator Alvarado stated that, because naloxone could cause pulmonary edema and because the person acquiring the naloxone was not the same person to whom it would be administered, the safety information requirements should be retained. Mr. Hadley stated that the board would consider revising these provisions.

In response to questions by Co-Chair Hale, Mr. Dreves stated that special fish permits for Kentucky and Barkley Lakes included, for example, permits for roe-bearing species such as paddlefish. He did not believe that the department received the maximum number of special permit applications for these lakes, which was twenty-five (25).
A motion was made and seconded to approve the following amendments: to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph and Section 1 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

In response to questions by Co-Chair Hale, Mr. Dreves stated that Kentucky had a large contingent of commercial fishing of Asian carp. Approximately 9 million pounds had been harvested this year. Most of the harvested Asian carp was used to make fish meal; therefore, little storage was necessary. There were processors available to store fish harvested for human consumption or bait.

Locator Index - Effective Dates

Lists all administrative regulations published or continuing through the KRS Chapter 13A review process during this Register year. It also lists the page number on which each regulation is published, the effective date of the regulation after it has completed the review process, and other actions that may affect the regulation. NOTE: Regulations listed with a “47 Ky.R.” or “48 Ky.R.” notation are regulations that were originally published in previous years’ issues of the Administrative Register of Kentucky but had not yet gone into effect when the last Register year ended.

KRS Index

A cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each regulation submitted for publication during this Register year.

Certifications Index

A list of administrative regulations for which certification letters have been filed pursuant to KRS 13A.3104 during this Register year.

Technical Amendment Index

A list of administrative regulations that have had technical, non-substantive amendments made during this Register year. Subject Index

A general index of administrative regulations published during this Register year, and is mainly broken down by agency.
LOCATOR INDEX - EFFECTIVE DATES

Administrative regulations published in previous Register years may appear in this index if a regulation had not completed the KRS Chapter 13A review process by the beginning of Register year 48. The "Register number" or "Ky.R. number" is listed the first time a regulation is published during that Register year. Once the regulation has been published in another Register year, the new Ky.R. number will appear next to the page number entry. To view versions of regulations published in 46 Ky.R. or 47 Ky.R., please visit our online Administrative Registers of Kentucky.

CERTIFICATION LETTER SUMMARIES

The certification process is established in KRS 13A.3104. If the certification letter states the regulation shall be amended, the administrative body shall file an amendment to the regulation within 18 months of the date the certification letter was filed. If the certification letter states that the regulation shall remain in effect without amendment, the last effective date of the regulation is changed to the date the regulations compiler received the letter.

* KRS 13A.010(6) - “Effective” or “eff.” means that an administrative regulation has completed the legislative review process established by KRS 13A.290, 13A.330, and 13A.331.

The Technical Amendment Index is a list of administrative regulations that have had technical, nonsubstantive amendments made during the 48th year of the Administrative Register of Kentucky. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.2255(2), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published to show the technical corrections in the Register. NOTE: Technical amendments may be available online for a short period of time before finalized versions of the technically amended regulations are available. To view regulations on the Legislative Research Commission Web site go to https://apps.legislature.ky.gov/law/kar/titles.htm.

‡ - A technical change was made to this administrative regulation during the promulgation process, pursuant to KRS 13A.320(1)(e).
† - A nonsubstantive change was made by the Compiler pursuant to KRS 13A.040(9).
