

**224.16-090 Discharge permits requiring rapid and complete mixing.**

- (1) As used in this section, "rapid and complete mixing" means the limited area surrounding or downstream from a wastewater discharge location where complete mixing of treated wastewater and receiving water occurs rapidly, including through the use of a submerged high-rate multi-port diffuser or outfall structure.
- (2) The cabinet shall apply rapid and complete mixing in establishing permit limitations and conditions for any discharge regulated under a Kentucky Pollutant Discharge Elimination System permit where the discharge occurs through a submerged high-rate multi-port diffuser or outfall structure.

**Effective:** March 24, 2021

**History:** Created 2021 Ky. Acts ch. 103, sec. 2, effective March 24, 2021.
