Accepted October 6, 2014, by the
Education Assessment and Accountability Review Subcommittee

Foreword

In December 2013, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in December 2013. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. It is followed by five tables that sort districts by adjusted average daily attendance, free and reduced-price lunch eligibility, per-pupil state revenue, per-pupil property assessment, and junior composite ACT average for the 2013 school year. These tables allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on school membership, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, where appropriate, percentages.

The Staffing section includes district data on certified personnel, classified personnel, and full-time equivalent teachers. Additional data on average salaries, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, local, and other sources. Each district's fund balance percentage and end-of-year general fund balance are reported.

The Performance section includes data from EXPLORE, PLAN, and ACT; Advanced Placement exams and trends; and a breakdown of the 2013 Next-Generation Learners assessment scores.

Additional appendices break down district data for comparative purposes. These appendices show how data can be grouped to compare trends across districts of similar size, demographics, or performance.

Overall, the *Kentucky District Data Profiles* provide a snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The profiles present a broad array of indicators across multiple areas of interest.

Use Of The Profiles

The Kentucky Department of Education encourages districts to annually review data for inaccuracies. If KDE confirms data have been inaccurately reported, the data are changed and updated on KDE's website. As a result, the data in the Office of Education Accountability's annual *Kentucky District Data Profiles* report may vary slightly from year to year. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are limited. The following symbols are used to designate incomplete data:

- Three dashes indicate data not reported pursuant to the Family Educational Rights and Privacy Act. When fewer than 10 students are tested, the number of students is not reported; in some cases, the test results are also not reported.
- N/A The data element N/A indicates no available data or not applicable. This may be the case when a district offers only kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.
- 0 A data point that is 0 reflects an observed measure of 0 for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a 0 populates the field.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2012-2013 fiscal or school year is referred to as 2013, the 2011-2012 fiscal year is 2012, and so on. School district fiscal years start on July 1 and end on June 30. A total of 174 districts are profiled in the report.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview And Trends

A1 Schools: The number of schools under administrative control of a principal and eligible to establish a school-based decision-making council. An A1 school is not a program operated by or as a part of another school.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. August 12, 2014.

EOY AADA: According to KRS 157.320(1), the end-of-year adjusted average daily attendance is determined by the aggregate days attended by pupils in a public school, adjusted for weather-

related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Source: Kentucky. Dept. of Educ. *FY2013-2014 SEEK Final*. Web. April 1, 2014.

Membership: Membership data are reported twice in the Overview and Trends section of the report. Membership is based on the last day of school. Membership data under the student attendance bar graph includes all exceptional children but does not include preschool students. Model Lab schools are excluded.

Calendar 2013: The number of instructional days and hours that children attend school. Regular days include any day that had at least 6 hours of instruction. Short days are early-release days not having at least 6 hours. Because schools within a district may have different schedules, a minimum and maximum number of instructional hours have been included for the district.

Demographic Profile

Free & Reduced Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches.

LEP: Limited English proficiency refers to an individual

- who is between ages 3 through 21;
- who is enrolled or preparing to enroll in an elementary or secondary school;
- who
 - was not born in the United States or whose native language is a language other than English; or
 - is a Native American or Alaska Native, or a native resident of the outlying areas, and comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
 - is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual
 - the ability to meet the state's proficient level of achievement on state assessments;
 - the ability to successfully achieve in classrooms where the language of instruction is English; or
 - the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and another country for the purpose of seeking temporary or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without

their parents and are seeking temporary or seasonal employment in qualifying activities. Because of a change in the way data were collected, numbers may not compare from year to year.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. July 24, 2014.

Discipline

Expulsions: The number of students permanently removed from a school for a violation of district policy. Because of a change in the way the data was collected, numbers may not compare from year to year.

Tangible Property Tax: The local tangible tax rate per \$100 of assessed value of equipment or inventory used in the operation of a business, including personal property of public service corporations. The rate shown is the total tangible tax rate and includes the original growth nickel, equalized growth nickel, recallable nickel, and equalized facility funding nickel if levied by a district.

Utility Gross Receipts Tax: A utility gross receipts license tax not to exceed 3 percent of the gross receipts derived from the sale of communications services; electric power; water; and natural, artificial, and mixed gas.

Occupational Tax: An occupational license tax not to exceed 0.5 percent, or 0.75 percent for counties with 300,000 or more residents, on salaries or wages of individuals for work done in a county, and on the net profits of all businesses, professions, and occupations from activities conducted in a county.

Original Growth Levy: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

Equalized Growth Levy: Districts that continued to meet the growth criteria had the option to levy a second growth nickel prior to April 24, 2008. This second nickel called the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

Recallable Levy: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

BRAC Levy: School districts have the opportunity to levy a 5-cent tax for building needs. The local district must be located in a county that will have more students as a direct result of the new mission established for Ft. Knox by the Base Realignment and Closure (BRAC). The commissioner of education has determined that the projected increased number of students is sufficient to require new facilities or the major renovation of existing facilities and has approved the imposition of the additional levy.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

Category 5 Levy: School districts that had school facilities classified as Category 5 on May 18, 2010, had the ability to levy an additional 5-cent equivalent tax rate for building purposes without being subject to recall, or the local board may have had the issue placed on the ballot. Districts would receive equalization the following year.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: Kentucky. Dept. of Educ. *2012-2013 Local District Tax Levies*. Web. July 28, 2014.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no other nickel equalization other than the Facilities Support Program of Kentucky.

Per-Pupil Assessment: Assessment divided by EOY AADA with growth. The assessment contains property valuations for real estate, personal property, public service real estate, public service personal property, and motor vehicles. The assessment is certified to the Kentucky Department of Education by the Department of Revenue.

SEEK Distribution: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Source: Kentucky Dept. of Educ. *FY2012-13 SEEK Final Summary Data*. Web. April 1, 2014.

State Fiscal Stabilization Fund: The State Fiscal Stabilization Fund (SFSF), part of the American Recovery and Reinvestment Act, is a one-time appropriation of approximately \$48.6 billion that the US Department of Education awarded governors to help stabilize state and local budgets in fiscal years 2010 and 2011.

The impact of the SFSF money can be seen in the chart titled Per-Pupil Revenues by Source. School districts were instructed by KDE to code SFSF money as federal revenue (Fund 2); however, 29 districts incorrectly coded it as state revenue in fiscal year 2010, and 24 districts incorrectly coded it in fiscal year 2011. OEA staff reclassified these revenues to ensure accurate and consistent coding. For the purposes of this report, to ensure accurate and consistent coding, the following districts' SFSF funds were reclassified as federal revenue.

Performance

EXPLORE, PLAN, And ACT: The Educational Planning and Assessment System (EPAS) comprises three related exams created by ACT Inc. In 2006, Senate Bill 130 mandated, beginning with the 2009 school year, that all Kentucky public school students be required to take the EPAS tests. Eighth-grade students take EXPLORE, 10th-grade students take PLAN, and 11th-grade students take the ACT. The EPAS series of exams is designed to help students measure their current academic development, explore career/training options, and make plans for the remaining years of high school and post-graduation years.

The profiles report average English, reading, math, and science scores and the composite score. They also report the percentage of district students whose scores met or surpassed the college readiness benchmarks listed below. EXPLORE and PLAN benchmarks were set by ACT Inc., based on analysis of data from a national sample of students. Benchmarks for the ACT exam

were set by the Kentucky Council on Postsecondary Education (CPE), based on analysis of Kentucky data. Because there is no CPE benchmark for science, college readiness for the science portion of the ACT is not reported.

Subject	EPAS Benchmark		
	EXPLORE	PLAN	ACT
English	13	15	18
Reading	15	17	20
Mathematics	17	19	19
Science	20	21	N/A

AP Analysis: Advanced Placement (AP) test scores range from 1 to 5; scores of 3 or above are considered eligible for college credit (passing). The average AP exam score and the percentage of students with a 3 or above on the AP exam are reported. AP data for 2012 were not available, due to missing records in the file.

Next-Generation Learners: This section summarizes the five student performance components of the state accountability system. The components, described below, are achievement, gap, growth, college and career readiness, and graduation. Components are reported in terms of number of points, which is usually a percentage, and score, which is the number of points multiplied by the weight used for computing the total summary score, as described below. For all components, accountability is based on students enrolled a full academic year (100 days).

Achievement: Achievement reports the combined results of student assessments in six content areas. Points are calculated in the following way: In each content area, assessment scores are grouped into four performance levels and assigned points, with 0 for novice, 0.5 for apprentice, or 1 for proficient or distinguished. A bonus of 0.5 is added if the number of distinguished scores is more than the number of novice scores. The combined points are the weighted average of reading (weighted 20%), mathematics (20%), science (20%), social studies (20%), language mechanics (16%), and writing (4%). If data for one content area are not available, weights are redistributed proportionally to the content areas that are available.

Gap: This summarizes achievement results for a single gap group that includes students with membership in the following groups, as required by federal guidelines: African American, Hispanic, Native American, students with disabilities, poverty (qualified for free or reduced-price lunch), and students with limited English proficiency.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. August 1, 2013.

Growth: Each individual student's score is compared to the average score of the student's academic peers, using 2 years of test scores in reading and mathematics in grades 4 through 8 and at grade 11. Points indicate the percentage of students making typical or higher growth.

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. August 1, 2013.

College and Career Readiness (CCR): This measure reflects how many students are ready for college or careers or both, based on test scores, certifications earned, and courses taken. Middle school CCR is the percentage of students meeting college readiness benchmarks on EXPLORE. For high school, CCR is based on the ACT exam, college placement tests, career readiness exams, industry-recognized career certificates, and career or technical courses taken. When calculating the percentage of students who are college and career ready, each student who is college ready only or career ready only counts as one, while a student who is both college and career ready counts as 1.5.

Graduation Rate: This is the percentage of students who graduated with a regular diploma within 4 years of high school. In previous years, the accountability system used the Averaged Freshman Graduation Rate. In 2013, it started using the 4-year adjusted cohort graduation rate, defined by KDE as

the number of students who graduate in 4 years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of grade 9, students who are entering that grade for the first time form a cohort that is subsequently “adjusted” by adding any students who transfer into the cohort later during grade 9 and the next 3 years and subtracting any students who transfer out, emigrate to another country or die during that same period.

Total Summary: This the weighted average of the five components of Next-Generation Learners. Weights are shown in the table below. For example, the elementary total summary score is: (achievement score X 30 + gap score X 30 + growth score X 40), divided by 100.

Grade Range	Achievement	Gap	Growth	College/ Career Readiness	Graduation Rate	Total
Elementary	30	30	40	N/A	N/A	100
Middle	28	28	28	16	N/A	100
High	20	20	20	20	20	100

Source: Kentucky. Dept. of Educ. *School Report Card*. Web. August 1, 2013.

Percentile Rank: Each district’s total summary score on Next-Generation Learners is combined with results of program reviews in the district to create one overall accountability score, with Next-Generation Learners weighted 77 percent and program reviews weighted 23 percent. Districts are ranked by this overall score and assigned a percentile rank relative to all districts. For example, a percentile rank of 60 means that the district’s overall accountability score is higher than the scores of 60 percent of all districts.
