Education Assessment and Accountability Review Subcommittee

Foreword

In October 2024, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles 2024*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The *Kentucky District Data Profiles 2024* (DDP) provides a snapshot of education data for each of Kentucky's 171 school districts, along with aggregate data for the state and comparative data for surrounding states. The report was requested by the Education Assessment and Accountability Review Subcommittee (EAARS) in October, 2024, as part of the annual research agenda for the Office of Education Accountability (OEA).

Data points included in the report were chosen from the many available because they are concise, reliable, or relevant indicators of district trends over time or comparative data among districts. Given differences in district size, geography, socioeconomic conditions, and local labor markets, the profiles are not always conducive to direct comparisons of district effectiveness or efficiency.¹

Profiles

The body of the report includes profile pages for each district, organized by the following topical areas:

- Overview and Trends
- Staffing
- Finance
- Performance

The Kentucky page reports state-level data on metrics reported for individual districts.

Overview and Trends. The overview and trends section provides data on membership, attendance, number of A1 schools, student demographics, educational attainment, chronic absenteeism, and school discipline.²

Staffing. The Staffing section includes data on numbers and relative percentages of full time equivalent (FTE) classified and certified personnel; number of FTE teachers, district administrators and school administrators; ratios of pupils to teachers and pupils to counselors; and data on teachers' years of experience. It reports the percentage of district general fund expenditures comprised of salary and benefits generally and provides detailed data on teacher salaries, in particular: average teacher salary broken out by salary for base pay, extended pay and extra duty pay; and district certified salary schedules by rank and experience.

¹ Page 11 of OEA's 2023 *Effectiveness And Efficiency Of Kentucky School Districts* report describes challenges associated with comparing spending and outcomes for districts with varying characteristics in greater detail.

² An A1 school is a school under the administrative control of a principal and eligible to establish a school-based decision-making council (SBDM). An A1 school is not a program operated by or as part of another school.

Finance. The Finance section reports per-pupil revenue by source and current expenditures by function, both in per-pupil amounts and as a percentage of all current expenditures. Each district's end-of-year general fund balance and general fund balance as a percentage of expenditures is reported. In addition, the amount of state SEEK funding and any adjustments are included along with tax rate information. Note that, due to space limitations on the individual profile pages, additional finance information for each district is provided in appendixes. Appendix B provides levied equivalent tax rates for each district and Appendix C reports data for each district on additional revenue collected through facility tax nickels.

Performance. The Performance section includes data from the Kentucky Summative Assessment (KSA), the ACT and components of the state's accountability system for districts and schools, including detailed data for postsecondary readiness indicators.

Trend Data

Each profile page includes comparative data for previous years as space permits, to show trends over time. The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2023-2024 fiscal or school year is referred to as 2024. District fiscal years start on July 1 and end on June 30.

Online, Interactive DDP

The DDP's online, interactive version provides a variety of ways to compare district values in 2024, including geographic heat maps and a feature that allows metrics to be sorted by value for all districts. It can be found in the "Interactive Features" portion of the LRC Publications posted to the LRC website.

Surrounding States And National Comparative Data

Following the profiles, Kentucky is compared to its surrounding states and the nation based on student characteristics, staffing ratios, teacher salaries, per-pupil expenditures, and student outcomes on the ACT and National Assessment of Educational Progress (NAEP). The most recent available data as of May, 2025 are included; due to lapses in availability of some National Center for Education Statistics (NCES) data in 2025, previous years' data are reported for some metrics. State comparative data are also available in on the online, interactive DDP.

Technical Appendix

The report's technical appendix defines terms, identifies data sources, and describes any OEA staff calculations for each component of the report.

Data And OEA Calculations. All of the data on the district and state profile page comes from the Kentucky Department of Education (KDE). Much of the district data are calculated by KDE staff and available on KDE's school report card or elsewhere on KDE's website. The DDP also contains many data points calculated by OEA staff because they may be of interest to the General Assembly but are not available on the KDE website. OEA also conducts its own

calculations that are similar to data points available on the KDE website when these additional calculations facilitate comparisons among districts or between and other states. Calculations use data from complete data sets received from KDE including professional staff data (PSD), classified staff data (CSD), districts' annual financial reports (AFRs), and performance data received from KDE's Office of Assessment and Accountability.

2024 Data Notes

This year's report includes data notes (Appendix E) necessary for understanding some of the notations you will find in this year's report related to data in Cloverport Independent district and state revenue trends.

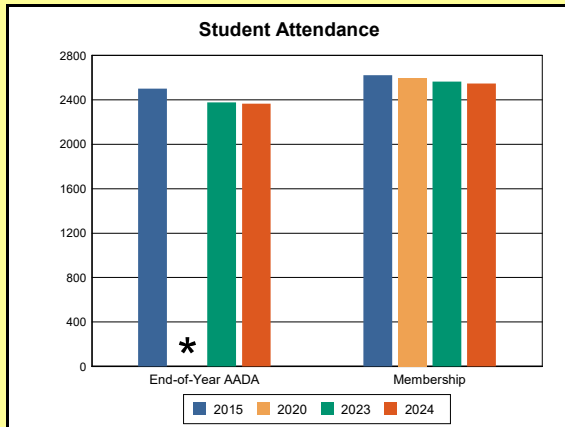

Data Notations

Data for individual metrics are not reported in some cases. The following symbols are used to explain why data are not reported:

- Three dashes indicate data not reported pursuant to the Family Educational Rights and Privacy Act. This happens when fewer than 10 students are tested or when the performance of individual students can otherwise be derived from aggregate data.
- N/A The data element N/A indicates data not available or not applicable. This may be the case when a district offers only kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores reported for 11th grade students.
- 0 A data point that is 0 reflects an observed measure of 0 for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a 0 populates the field.
- % A data point that is less than 1 percent. Note that in the online, interactive version, these data points may appear as blank fields.
- * Data are deemed to be invalid for comparative purposes. This can happen when the data for an individual metric is incomplete or otherwise inaccurate.

Appendix A

Surrounding States And National Comparative Data

This appendix contains comparative data for Kentucky, its surrounding states, and the nation on data related to student demographics and performance; per-pupil expenditures, and staffing. The appendix includes the most recent data available as of May, 2025. Due to limitations in the data available in 2025, updated data are not available on all indicators. The report's technical appendix, Appendix D reports the definition and source for each data point.

Appendix D

Technical Appendix

The data sources used in the *Kentucky District Data Profiles* (DDPs) are included below with brief definitions. Data sources are dated to account for any differences between what is reported in the DDP and what may be publicly available at a later date. The Kentucky Department of Education (KDE) encourages districts to annually review data for inaccuracies. If KDE confirms that data have been inaccurately reported, the data are changed and updated on KDE's website. As a result, in the Office of Education Accountability's (OEA) annual *Kentucky District Data Profiles* report, a district's data may vary slightly from what was reported for any given year in previous editions.

Overview And Trends

A1 Schools: The number of schools under administrative control of a principal and eligible to establish a school-based decision-making council. An A1 school is not a program operated by or as a part of another school.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

EOY AADA: According to KRS 157.320(1), the end-of-year adjusted average daily attendance (EOY AADA) is determined by the aggregate days attended by pupils in a public school, adjusted for weather-related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Source: Kentucky. Department of Education. *Superintendents' Annual Attendance Report*, March 3, 2025. Web.

Note: Prior to 2024, OEA used the final SEEK calculations as the data source for AADA.

Membership: Membership, which is a count of students enrolled as of the last day of school, is reported twice in the Overview and Trends section of the report. Membership data under the student attendance bar graph do not include preschool students.

Sources: Kentucky. Department of Education. *Historical SAAR Data*, March 3, 2025. Web; Kentucky. Department of Education. *School Report Card*, March 03, 2025. Web.

Attendance %: Percentage of students who regularly attend school. The percentage is calculated by the sum of present days for all students divided by total present plus absent student days—that is, $\text{Present}/(\text{Present} + \text{Absent})$.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

Chronic Absent %: Percentage of students chronically absent, where chronic absenteeism is indicated when a student is present for 90 percent or less of full-time equivalency (FTE). KDE calculates chronic absenteeism by dividing a student's FTE present minutes by FTE instructional minutes. Note that KDE's method is more precise than the chronic absenteeism data reported by the National Center for Education Statistics in the state comparison section. Thus, the internally reported state rate and the national comparative data differ.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

Demographic Profile

This section reports the number and percentages of students from various demographic groups. With the exception of free or reduced-priced lunch students, percentages are calculated by OEA using numbers cited in each source divided by the membership of the district.

Free Or Reduced-Priced Lunch: Students from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those from families with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

Homeless: This label refers to a child who was determined homeless under the McKinney-Vento Homeless Education Assistance Improvement Act for students who lack a fixed, regular, and adequate nighttime residence. It is a broad definition that ranges from temporary shelters to sharing housing with others.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

LEP: Limited English proficiency (LEP) applies to an individual

- who is between ages 3 through 21;
- who is enrolled or preparing to enroll in an elementary or secondary school;
- who
 - was not born in the United States or whose native language is a language other than English; or
 - is a Native American or Alaska Native, or a native resident of the outlying areas, and comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
 - is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual
 - the ability to meet the state's proficient level of achievement on state assessments;
 - the ability to successfully achieve in classrooms where the language of instruction is English; or
 - the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and another country for the purpose of seeking temporary or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary or seasonal employment in qualifying activities. Because of a change in the way data were collected, numbers may not compare from year to year.

Foster Care: Foster care is a system in which a minor has been placed into a ward, group home, or private home of a state-certified caregiver, referred to as a “foster parent,” or with a family member approved by the state.

Source: Kentucky. Department of Education. *School Report Card*, March 3, 2025. Web.

Exceptional Child: A child who is evaluated in accordance with 707 KAR 1:300 as meeting the criteria listed in the definitions for autism, deaf-blindness, developmental delay, emotional-behavior disability, hearing impairment, mental disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment that has an adverse effect on the child’s educational performance and who, as a result, needs special education and related services. Numbers of students are reported by classifications of severe, moderate, and speech. The percent calculation is using student membership.

Source: Kentucky. Department of Education. *FY2024-2025 Final SEEK Data*, March 3, 2025. Web.

Race: The head count of students enrolled on the last day of school, reported by the following categories: Caucasian/White, Black, Hispanic, and Other (students who are Asian, Hawaiian/Pacific Islander, American Indian or Alaska Native, or multiracial). Hispanic students may be of any race or combination of races; all other categories are non-Hispanic.

Staffing Data

All of the data included in the staffing section are calculated by OEA staff using professional staff data (PSD) or classified staff data (CSD) using the methods described.

Classified Personnel: The number of full-time equivalent (FTE) noncertified support staff employed at the district. FTE for classified personnel is 712 hours a year for bus drivers and 1062 hours for all other classified personnel.

Source: Kentucky. Department of Education. FTP Server. December 13, 2024.

Certified Personnel: The number of FTE certified employees who work in the district. This does not include substitute teachers or teachers on a Memorandum of Agreement (MOA).

Source: Kentucky. Department of Education. FTP Server. December 13, 2024.

Number FTE Teachers: The number of FTE employees reported on the Professional Staff Data file. This includes teachers with job class codes of 2010, 2025, 2030, 2040, 2050, 2060, 2070, 2080, 2090, 2095, 2096, 2100, and 2211.

2023 SEEK Analysis - Tax Rates

Calculated SEEK Base Funding: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Less 30 Cent Local Effort: The amount of locally generated tax revenue raised pursuant to KRS 160.470(9)(a), which mandates that each district must levy a minimum equivalent tax rate of 30 cents per \$100 in assessed value of property and motor vehicles in the district in order to receive SEEK funding.

Source: Kentucky. Department of Education. *FY2023-2024 SEEK Final Summary*, April 12, 2024. Web.

State Tier I: Districts are permitted to raise tax revenue above the minimum requirement for local effort, up to 15 percent of the revenue generated through the adjusted SEEK Base funding. The state equalizes the additional Tier I revenue at 150 percent of the statewide average per-pupil assessment, which is equalization level. The General Assembly sets the equalization level through the budget bill each biennium. The Tier I equalization mechanism provides more state funding to those districts with less property wealth than it provides to a property-wealthy district. The number reported is the state portion of Tier I.

Adjustments:

- **Prior Year Adjustment:** An adjustment made by KDE through the fiscal year to account for changes that are temporary in nature or not coded into the SEEK program.
- **Hold Harmless:** A provision that guarantees a district will not receive less state SEEK funding per pupil than it received in 1991, without regard to the property wealth of the district.
- **Adjustments to Appropriations:** If appropriations are inadequate to fully fund the amount generated by the formula, each district receives a pro rata reduction. In addition, an adjustment may be made for correction(s) of a prior-year SEEK calculation.

Facilities Nickels (Included Only Appendix C)

Original Growth Levy: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Source: Kentucky. Department of Education. *FY2023-2024 Local District Tax Levies*, April 12, 2024. Web.

Equalized Growth Levy: Districts that continued to meet the growth criteria had the option to levy a second growth nickel, which is a 5-cent tax, prior to April 24, 2008. This second nickel is called the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Source: Kentucky. Department of Education. *FY2023-2024 Local District Tax Levies*, April 12, 2024. Web.

Recallable Levy: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Source: Kentucky. Department of Education. *FY2023-2024 Local District Tax Levies*, April 12, 2024. Web.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: Kentucky. Department of Education. *FY2023-2024 Local District Tax Levies*, April 12, 2024. Web.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no nickel equalization other than the Facilities Support Program of Kentucky.

Source: Kentucky. Department of Education. *FY2023-2024 Local District Tax Levies*, April 12, 2024. Web.

BRAC Levy: School districts have the opportunity to levy a 5-cent tax for building needs. The local district must be located in a county that will have more students as a direct result of the new mission established for Fort Knox by the Base Realignment and Closure (BRAC) Commission. The commissioner of education has determined that the projected increased number of students is sufficient to require new facilities or the major renovation of existing facilities and has approved the imposition of the additional levy.

Category 5 Levy: School districts that had school facilities classified as Category 5 on May 18, 2010, had the ability to levy an additional 5-cent equivalent tax rate for building purposes without being subject to recall, or the local board may have had the issue placed on the ballot. Districts would receive equalization the following year.

Performance

Kentucky Summative Assessment Proficiency Rates

The Kentucky Summative Assessment (KSA) is the state test implemented to comply with federal and state testing requirements. KSA aligns with state standards in tested content areas and was developed in consultation with Kentucky teachers.

Students taking the KSA receive one of four broad performance designations that range from novice (lowest) to apprentice, proficient, and distinguished (highest). The percentage of students scoring proficient or distinguished is known as the “proficiency rate.”

The profiles report proficiency rates for all KSA subjects included in Kentucky’s accountability system. Table D.1 shows these subjects along with the grades in which students are tested. At the district level, scores are aggregated into grade-level spans as shown in Table D.1.

Table D.1
KSA Subjects Included In Kentucky’s Accountability System
By Grades Tested And Grade-Level Span

	Grade-Level Spans Tested		
	Elementary	Middle	High
Math	3, 4, 5	6, 7, 8	10
Reading	3, 4, 5	6, 7, 8	10
Science	4	7	11
Social studies	5	8	11
Combined writing	5	8	11

Note: KSA = Kentucky Summative Assessment.

District And State Proficiency Rates: Each district’s profile includes proficiency rates for all students in the district and the state.

Economically Disadvantaged, Proficiency Rates—Math And Reading: Proficiency rates for economically disadvantaged students in the district and state are reported separately in math and reading. Economically disadvantaged students are those who qualify for free or reduced-price lunch.

Average ACT 11th Grade

Students in 11th grade are required to take the ACT. The profiles report average English, reading, math, and science scale scores and the composite score. They also report the percentage of district students whose scores met or surpassed the college readiness benchmarks listed in Table D.2. Benchmarks for the ACT exam were set by the Kentucky Council on Postsecondary Education (CPE), based on analysis of Kentucky data. Because there is no CPE benchmark for science, college readiness scores for science are not reported.

Postsecondary Readiness Rates

These rates report the percentage of a district's graduates and 12th-grade nongraduates who met or exceeded one or more indicators of postsecondary readiness. As shown in Table D.3, KDE labels indicators as "academic" or "career." Career indicators are those associated with career and technical education (CTE) pathways. The profiles report districts' total postsecondary readiness rates as well as their total academic- and career-ready postsecondary rates. Students can meet more than one indicator, so districts' academic- and career-ready rates can sum to be greater than their total postsecondary rates. Similarly, the percentage of students who met particular academic- or career-ready indicators can sum to be greater than a district's total academic- or career-ready rate. Table D.3 defines postsecondary readiness rates reported on the profiles.

Table D.3
Postsecondary Readiness Indicators

Indicator	Component	Description
Total Postsecondary Ready		Met one or more academic- or career-ready indicator.
Total Academic Ready		Met one or more academic-ready indicator.
Academic-Ready Indicators	College Readiness Benchmark	Met or exceeded a college readiness benchmark score on one or more college admissions or college placement examinations approved by Council on Postsecondary Education.
	Advanced Placement (AP)	Achieved passing score on at least one AP exam. AP scores range from 1 to 5; 3 is considered a passing score.
	Dual Credit	Earned a grade of C or above on a dual-credit course. Dual-credit courses allow students to earn high school and college credit for the same course. Dual-credit courses must be approved as eligible by an in-state postsecondary institution and the Kentucky Department of Education (KDE). Dual-credit courses may be taught on the high school campus, on the college campus, or online.
Total Career Ready		Met one or more career-ready indicator.
Career-Ready Indicators	Industry Certification	Earned at least one industry certification approved by the Kentucky Workforce Innovation Board and KDE.
	CTE End-Of-Program Assessment	Passed at least one state-developed assessment aligned with a CTE career pathway.
	Dual Credit	Earned a grade of C or above on a dual-credit course that is aligned with a CTE career pathway.
	Apprenticeship	Completed an apprenticeship program approved by KDE or the Kentucky Education and Labor Cabinet.
	Work-Based Learning	Completed a cooperative or internship program that is a minimum of 300 hours and is aligned with a credential or associate degree.

Note: Students who earn passing scores on Cambridge Advanced International or International Baccalaureate exams are also considered academic ready. Data for these exams were not available for inclusion in the profiles, but their absence has little or no effect on district postsecondary readiness rates, because students who pass these exams are typically postsecondary ready on other measures. Districts are awarded additional points for students completing industry-recognized certifications, licensures, or credentials in pathways identified as high-demand. CTE = career and technical education.

Accountability Ratings

KRS 158.6455 requires that Kentucky's accountability system describe the overall performance of each district, school, and student subgroup in the state based on a combination of academic and school quality indicators.

Overall Performance Rating: A district's overall performance rating is determined by combining data from the state indicators, some of which carry more weight than others in the calculation of the overall performance rating. Data from each state indicator are based on a combination of current performance status as well as change from the previous year.

State Indicators And Relative Weights

Table D.4 describes the state indicators that constitute the accountability measures, along with the relative weights of each, by grade-level span, in the calculation of overall accountability. The relative weights were determined by the Kentucky Board of Education. Reading and math have the greatest weight at every level. State indicators for graduation rate and postsecondary readiness are included in calculations for overall accountability at the high school level only.

Table D.4
State Indicators And Relative Weights In Determining Overall Performance

State Indicator	Description	Weights By Level		
		Elem	Middle	High
Reading and math	Student performance on KSA tests by performance level*	51	46	45
Science, social studies, writing	Student performance on KSA tests by performance level*	40	45	20
School climate and safety	Student responses on a quality of school climate survey administered to students in tested grades**	4	4	4
English language learner progress	Individual growth compared to prior-year performance for LEP students on an English proficiency test	5	5	5
Graduation rate	Graduation rate based on 4- and 5-year graduation rates	---	---	6
Postsecondary readiness	Percentage of graduates and 12 th -grade nongraduates who meet one or more indicator of postsecondary readiness	---	---	20

Note: Elem = elementary; KSA = Kentucky Summative Assessment; LEP = limited English proficiency.

*Points awarded based on performance category: Novice (0), Apprentice (0.5), Proficient (1), Distinguished (1.25).

**Scores are calculated based on the degree of positive responses on questions that are answered. Scores of students who skip the survey or individual questions are not included.

Color-Coded Performance Levels

Accountability ratings for overall performance and for state indicators are reported in the profiles based on data published by KDE on an online dashboard. As shown in Figure D.A, overall performance as well as state indicator performance are reported with color-coded performance levels of red, orange, yellow, green, and blue, with red being the lowest and blue the highest.

And State Indicator Performance In Kentucky's Accountability System

Status And Change

A district's overall performance as well as its performance on individual state indicators are based on measures of current performance, or "status," and measures of "change" between prior-year performance and current-year performance. Status levels range from "very low" to "very high," and change levels range from "declined significantly" to "increased significantly."

The profiles report each district's overall performance rating and its rating on each state indicator. Measures of status and change on each indicator are available on KDE's online School Report Card at: <https://www.reportcard.kyschools.us>.

Kentucky Profile

The Kentucky Profile page aggregates data for all 171 school districts; specialty schools, such as the Kentucky School for the Deaf and the Kentucky School for the Blind, which are managed by the Kentucky Department of Education (KDE); and other specialty schools, such as Model Lab, Fort Campbell, Fort Knox, and the Challenge Academy.

Kentucky And Surrounding States Graduation Rates

Public high school 4-year adjusted cohort graduation rate (ACGR). The ACGR is the percentage of public high school freshmen who graduate with a regular diploma within 4 years of starting 9th

grade. Students who are entering 9th grade for the first time form a cohort for the graduating class. This cohort is adjusted by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out, emigrate to another country, or die. Source: US. NAEP Scores

The National Assessment of Educational Progress (NAEP) provides important information about student achievement and learning experiences in various subjects. Also known as The Nation's Report Card, NAEP has provided meaningful results to improve education policy and practice since 1969. Results are available for the nation, states, and 27 urban districts. NAEP is a congressionally mandated program overseen and administered by the National Center for Education Statistics, within the US Department of Education and the Institute of Education Sciences. The National Assessment Governing Board, an independent body appointed by the US secretary of education, sets NAEP policy. Results are reported as scores and as percentages of students reaching NAEP achievement levels: NAEP Basic, NAEP Proficient, and NAEP Advanced.

Appendix E

Data Notes

This appendix provides contextual information helpful in understanding data included in the print and interactive versions of the report related to state revenue data trends; adjusted average daily attendance (AADA) data for 2020; and 2024 data for Cloverport Independent.

State Revenue Data Trends

Variation in state revenue data in some years reflects additional funds appropriated by the General Assembly to support the solvency of the Teachers' Retirement System (TRS), as explained below.

2023 And 2024 School Years

State revenue data in 2023 include additional sick leave TRS liability payments recorded as district TRS on-behalf revenue. These one-time, lump-sum payments reflect an additional appropriation of \$479.2 million which was authorized by the General Assembly for FY 2022. Consistent with Government Accounting Standards Board (GASB) standards, these additional payments were recorded as district on-behalf revenue in 2023.

On-behalf payments are recorded as both revenue and expenditures on each district's annual finance report. For that reason, both revenues and expenditures in 2023 reflect these additional payments.

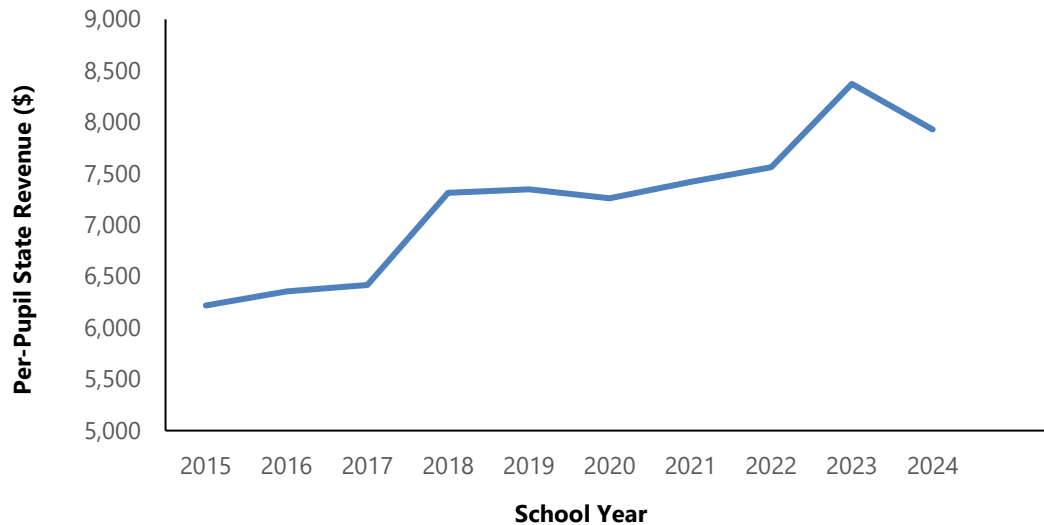

2017 And 2018 School Years

Increases in state revenue data from 2017 to 2018 reflect additional TRS on-behalf payments resulting from appropriations by the General Assembly to reduce the unfunded liability associated with TRS. Unfunded liability is the gap between the system's assets and its projected future obligations to retired and active teachers.

These appropriations began with \$498.6 million for 2017 and have continued each year, increasing over time. The revenues and expenditures associated with these additional appropriations were first recorded as on-behalf payments in 2018.

Figure E.A reflects the increases in 2018 and 2023 which resulted from additional on-behalf payments as explained above.

Average Adjusted Daily Attendance, 2020

Senate Bill 177, passed during the 2020 Regular Session, established alternate attendance provisions that school districts could use when calculating their Average Daily Attendance (ADA). Districts were permitted to use attendance data from the 2018–2019 school year in place of data from 2019–2020 when submitting the Superintendent’s Annual Attendance Report (SAAR). For this reason, 2020 AADA data are not comparable to AADA data reported in other years and are not included in the report.

Cloverport Independent, 2024

The Cloverport Independent profile page includes data for the district’s in-person K–12 school, and, beginning in 2024, the profile includes information for students enrolled in the Kentucky Virtual Academy (KVA)—a full-time virtual school launched by the district in the 2024 school year.

The availability of data for the district’s KVA students varied among the profile sections as explained below.

Overview and Trends

This section includes data for both the district’s in-person K-12 school and the KVA.

Staffing Data

Cloverport contracts with *Stride, Inc.* for management of the KVA and did not include KVA staff in the professional staff data entered for the district in 2024. Thus, 2024 staffing data reflects only those working in the in-person setting and does not include staff assigned to the KVA. Due to data limitations, valid calculations could not be made for the percentage of classified and certified staff, average teacher pay, staff-to-student ratios, years of experience, or rank. As a result, these fields are marked with an asterisk (*).

KDE has advised Cloverport that KVA staff must be Kentucky teachers and entered in the data in the future. KDE also advised OEA that the data were correctly entered in 2025.

The district certified staff salary schedule applies to both the in-person and KVA staff and is included in the profile.

Finance

Reporting of expenditures made by Cloverport to *Stride, Inc.* was reported in the instructional category only until January of 2024. Thus, the percentage of expenditures coded to instruction relative to other categories (such as administration), is likely greater than it would have been had expenses been properly coded for the entire year.

Performance

The performance section includes Kentucky Summative Assessment (KSA) and ACT data for both the in-person and KVA students. Note, however, that the district experienced challenges ensuring that all KVA students were tested in 2024, so the participation rate for KVA students is lower than the state. The district is working to correct this issue.

The Postsecondary Readiness Rates data include only in-person students as the KVA did not include 12th grade students in 2024.
