EDUCATION AND WORKFORCE DEVELOPMENT CABINET: Office of Learning Programs Development: Office of Instruction

704 KAR 3:305. Minimum requirements for high school graduation. David Cook, Division of Innovation Director; Deanna Durrett, general counsel; and Wayne Lewis, commissioner, represented the department.

In response to a question by Co-Chair West, Mr. Lewis stated that the Kentucky Board of Education decided to revise the minimum requirements for high school graduation based on Kentucky-specific data correlating education with life outcomes, including postsecondary matriculation rates, employment outcomes, and earning rates. An examination of the data indicated that the current minimum requirements for high school graduation were not meeting the needs of the Commonwealth. Proposed revisions to the minimum requirements for high school graduation included increased flexibility pertaining to course selection by students, with the condition that courses still comply with Kentucky's academic standards and with a student's individualized learning program; a demonstration of basic competence in mathematics and reading, demonstrated through existing assessments in eighth or tenth grade or through a student-compiled portfolio approved by the local superintendent; and graduation qualifiers, consisting of a list of eight (8) criteria of which a student must meet at least one (1). Graduation qualifiers were not synonymous with transition readiness qualifiers in the accountability system, but were a step toward transition readiness.

In response to questions by Co-Chair West, Mr. Lewis stated that, regardless of whether or not the department revised the minimum requirements for high school graduation, students would be taking the same assessments. The proposed revisions to the minimum requirements for high school graduation included the additional option of a student-compiled portfolio to demonstrate competency in lieu of deriving the demonstration of competency from the existing assessments. State law already required assessments, usually done through end-of-course examinations. Kentucky was moving toward replacing end-of-course examinations with end-of-span examinations. It was reasonable to expect a Kentucky student to demonstrate at least basic competence with mathematics and reading prior to high school graduation.

In response to a question by Co-Chair Hale, Mr. Lewis stated that the department agreed to defer consideration of this administrative regulation. Without objection, and with agreement of the agency, this administrative regulation was deferred to the February 11 meeting of the subcommittee.

A motion was made and seconded to approve the following amendments: to amend Sections 1 through 5, 7, 8, and 10 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.
