The Administrative Regulation Review Subcommittee met on Thursday, July 8, 2021, and submits this report:

The subcommittee determined that the following effective emergency administrative regulation was deficient pursuant to KRS 13A.030(2)(a):

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Public Health: Division of Epidemiology: Communicable Diseases

902 KAR 2:212E. Covering the face in response to a declared national or state public health emergency. Julie Brooks, regulation coordinator, and Wes Duke, general counsel, represented the division.

In response to questions by Co-Chair Hale, Ms. Brooks stated that this emergency administrative regulation was filed June 16, 2021. Mr. Duke stated that the governor's coronavirus (COVID-19) pandemic orders were lifted June 11, 2021. A health care setting was described in Centers for Disease Control guidelines, and the department had directed the public to that document for a definition of a "health care setting." Mr. Duke stated that he was unsure of the specific definition for "long-term care setting." A nursing home would be included in the definition; however, Mr. Duke was unsure if an assisted living facility would also be included. The division would follow up to the subcommittee with that information. Examples of health care settings included facilities such as hospitals, medical clinics, and pharmacies that were within a medical setting such as a hospital or clinical setting. Retail pharmacies that were not in a clinical setting were not included. This division had advised that retail pharmacies might set their own requirements for face coverings, but the division did not require face coverings in those settings. Ms. Brooks and Mr. Duke stated that this emergency administrative regulation did not establish exemptions. Businesses and other establishments had the ability to mandate their own face covering policies that would be more stringent than this emergency administrative regulation, which established minimum requirements. Ms. Brooks stated that this emergency administrative regulation did not incorporate the Centers for Disease Control guidelines because those guidelines changed frequently, even daily, which was not a situation conducive to incorporation.

Co-Chair Hale stated that this emergency administrative regulation seemed confusing and unnecessary.

In response to questions by Representative Frazier, Mr. Duke stated that the division removed the enforcement provisions from this emergency administrative regulation that had been included in previous versions of emergency administrative regulations related to this subject matter. The goal of this emergency administrative regulation was to protect vulnerable populations in accordance with Centers for Disease Control guidance. This emergency administrative regulation did not include fines or penalties for violations.

In response to questions by Representative Bridges, Mr. Duke stated that the division's intention was to focus on certain, vulnerable populations, such as those who were immunocompromised or the elderly with underlying health conditions. The Centers for Disease Control guidance was clear and targeted. The coronavirus (COVID-19) pandemic featured continually changing circumstances and new information, making dynamic standards necessary. The division sought to establish clear and narrowly targeted provisions. The Centers for Disease Control clearly stated that face coverings protected vulnerable populations.

In response to questions by Senator Raque Adams, Mr. Duke stated that House Joint Resolution 77 from the 2021 Regular Session of the General Assembly, which mandated that Kentucky adhere to the Centers for Disease Control standards, was involved in ongoing litigation; therefore, those provisions were in question. The division believed that face coverings were the most effective way to protect vulnerable populations. The division had a small number of reports of health care settings that were noncompliant. Most health care facilities and long-term care facilities were cooperating.

Senator Raque Adams stated that the lack of specificity in this emergency administrative regulation was a concern, especially related to a possibly subjective response to noncompliance.

Representative Bridges stated that this emergency administrative regulation was too vague.

Representative Bridges made a motion, seconded by Representative Frazier, to find this emergency administrative regulation deficient. A roll call vote was conducted and, with six (6) votes to find this emergency administrative regulation deficient and one (1) vote against deficiency, this emergency administrative regulation was found deficient.

School districts could apply for reimbursement for those supplements; however, that program had not been fully funded. The difference between the state funding and the supplement had been required to be paid by the local board of education. Changes to this administrative regulation, which were the result of legislative changes, required the

local board of education to provide the amount funded by the state. The local board of education then had the option, rather than the mandate, to provide the difference.
