The proposed project will be aligned with the "CMV safety" emphasis area within Kentucky's Strategic Highway Safety Plan (SHSP). The specific project objectives are as follows: 1. Identify high concentrations of CMV crashes (e.g., total crashes, fatal crashes, serious crashes, number of fatalities, and number of serious injuries) in Kentucky to provide CMV crash hot spots; 2. Conduct comprehensive survey of long-haul truck drivers in Kentucky to identify the specific concerns and difficulties encountered by the drivers; 3. Conduct before-and-after CMV crash analysis while investigating recent geometric design modifications along some interstate interchanges (e.g., on-ramps and off-ramps) in Kentucky to better accommodate CMVs, e.g., geometric design changes made at Interstate-75 on Exit 63 (northbound on-ramp) and on Exit 115 (southbound on-ramp); and 4. Propose potential countermeasures and outreach programs from the crash analysis and survey responses to reduce CMV fatalities in Kentucky. |
