KYTC is required to mitigate for stream and wetland impacts related to road construction, as required by Section 404 of the Clean Water Act. Until recently, KYTC was able to purchase stream and wetland credits throughout the state from the Kentucky Division of Fish and Wildlife Resources. In 2014, KDFWR suspended credit sales within the Big/Little Sandy Watersheds due to lack of availability. Due to this suspension of credits sales, KYTC is now forced to seek other methods of mitigation, primarily purchasing properties, and restoring the streams on those properties to gain the needed mitigation credits therefore causing us to pay Kentucky Waterway Alliance much more money than initially estimated. If KYTC cannot provide acceptable stream and wetland mitigation, all road construction requiring impacts to streams and wetlands within the Big/Little Sandy Waters will be halted by Clean Water Act regulations, until such time as credit sales are restored in the area. Contract will reimburse KWA for its costs of acquiring a property in various areas.
