- (2) The board shall develop a run report form for the use of each class of ambulance provider and medical first response provider containing the data required in subsection (1) of this section. An ambulance provider or medical first response provider may utilize any run form it chooses in lieu of or in addition to the board

developed run report form. However, the data captured on the run report form shall include at least that required by the administrative regulations promulgated pursuant to subsection (1) of this section.

- (3) An ambulance provider or medical first response provider shall report the required run report data and information by completing an annual report as established by the board or by transmitting the required data and information to the board in an electronic format. If the board requires the use of a specific electronic format, it shall provide a copy of the file layout requirements, in either written or electronic format, to the licensed ambulance provider or medical first response provider at no charge.
- (4) The board may publish a comprehensive annual report reflecting the data collected, injury and illness data, treatment utilized, and other information deemed important by the board. The annual report shall not include patient identifying information or any other information identifying a natural person. A copy of the comprehensive annual report, if issued, shall be forwarded to the Governor and the General Assembly.

If a patient is not transported to a medical facility, the copy of the run report form that is to be given to the transporting ambulance provider or medical care facility shall be given to the patient or to the patient's parent or legal guardian. If the ambulance provider, medical facility, patient, or patient's legal guardian refuses delivery of their run report form or is unavailable to receive the form, that copy of the form shall be returned to the medical first response provider or ambulance provider and destroyed.

- (7) All ambulance services shall be required to keep adequate reports and records to be maintained at the ambulance base headquarters and to be available for periodic review as deemed necessary by the board. Required records and reports are as follows:
