- (5) (a) In an effort to ensure uniformity and to streamline the review and approval process, the department shall promulgate an administrative regulation pursuant to KRS Chapter 13A on or before October 1, 2017, establishing a

template that shall be used by local governments in drafting ordinances proposing to place the imposition of a local option sales and use tax on the ballot for voter approval. The template shall incorporate all requirements established for local option sales and use tax levies under subsection (2) of Section 3 of this Act and this section. In developing the template, the department shall consult with public entities as defined in KRS 65.310.

(b) Upon receipt of an ordinance proposing to place the imposition of a local option sales and use tax on the ballot for voter approval, as required by subsection (3)(a) of Section 3 of this Act, the department shall review the ordinance to ensure that the template was used, and that the provisions of the ordinance comply with the requirements established for local option sales and use tax levies under subsection (2) of Section 3 of this Act and this section.

(c) The department shall return the ordinance to the local jurisdiction with all changes necessary for compliance noted, or shall notify the local government that no changes are needed within thirty (30) days of receipt. The governing body of the local government shall make all changes required by the department and shall submit the revised ordinance to the department for review prior to filing the ordinance with the county clerk.

(6) Upon receipt of notification pursuant to Section 3 of this Act that a local option sales and use tax levy has been approved by the voters of a local government, the department shall:

(a) Immediately begin the process of providing notice and establishing or amending any database required by:

1. The SSUTA agreement, if Kentucky remains a member state and the SSUTA agreement is not replaced by federal legislation;
2. Federal legislation, if the SSUTA agreement is replaced by federal

- (b) If the tax rate or boundaries reported to the department change, the local government shall report the changes to the department at the time and in the form and format required by the department. If the local government does not report the changes to the department in a timely manner as required by the department, the effective date of the tax rate or boundary change shall be delayed to the first day of the calendar quarter following the required public notice period.
- (c) The department, any retailer or other person responsible for collecting and remitting local option sales and use taxes, and any person responsible for remitting local use taxes shall not be responsible for collection or distribution errors resulting from incorrect rate or boundary information provided by a local government, and may rely on the most recent tax rate and boundary information provided by the local government and published on the department's Web site.
- (8) (a) Any retailer required or voluntarily registered to collect the state sales and use taxes imposed under this chapter, or to remit state use taxes imposed

under this chapter shall also collect, report, and remit any local option sales and use tax or local option use tax imposed under Sections 1 to 4 of this Act. The local option sales and use tax shall be reported and remitted at the same time and in the same manner as the taxes imposed by KRS 139.200 and 139.310.

(b) Any local option sales and use tax to be collected by a retailer pursuant to this subsection constitutes a debt owed by the retailer to the local government and all amounts collected shall be held in trust for the applicable local government.

(9) The retailer or, if a purchaser is reporting a use tax, the purchaser shall separately identify and display the local option sales and use tax rate from the state sales tax rate and shall identify and display the applicable local government for which the tax is charged from the sales price, the price advertised in the premises, the marked price, or the other price on the sales receipt or other proof of sales.

(10) (a) 1. The department shall distribute the local option sales and use taxes collected to each local government imposing the taxes by the twenty-fifth day of the next calendar month following the month in which the taxes were received. Distributions shall be made in accordance with the information submitted by taxpayers to the department based upon where the transaction is sourced.

2. If the amount remitted by a taxpayer is less than the aggregate state and local option sales and use tax liability of the taxpayer, the amount collected shall be distributed pro rata to the state and the local governments. Subsequent collections shall apply first to the outstanding state liability before the remaining balance is distributed to local governments.

3. If the taxpayer fails to submit local allocation information along with payment of the local option sales and use tax collected, the department shall retain the amounts of local option sales and use taxes collected until the taxpayer provides information that will allow the department to allocate tax collections among the local governments. Any taxpayer failing to submit local allocation information along with payment of amounts collected shall be subject to the penalties imposed by subsection (17) of this section, in addition to any other penalties which may be applicable.
- (b) From each distribution, the department shall deduct an amount equal to one percent (1%) of the amount collected to offset the department's expenses incurred in the administration and collection of the local option sales and use taxes. The remaining local option sales and use taxes collected by the department on behalf of local governments shall remain the property of the local government levying the tax.
- (11) (a) The department shall provide to each local government for which it collects taxes a monthly report reflecting the amount collected, the amount retained by the department pursuant to subsection (10)(b) of this section, any adjustments or offsets due to refunds or reallocations, and any interest and penalties collected.
- (b) The department shall notify a local government at least thirty (30) days prior to making an offset, adjustment, or reallocation if the offset, adjustment, or reallocation represents twenty-five percent (25%) or more of the next scheduled distribution to that local government.
- (12) (a) Upon discovery of a misallocation by a taxpayer of local option sales and use tax receipts that requires a redistribution between or among local governments of twenty-five percent (25%) or more of the next scheduled

distribution to one (1) or more of the affected local governments, the department shall:

1. Make a proposed administrative adjustment to address the misallocation;
2. Notify the taxpayer and the impacted local governments in writing of the misallocation, including the dollar amount at issue, and the proposed administrative adjustment; and
3. Retain any local option sales and use tax revenues remitted and still on hand for distribution until the proposed administrative adjustment is final.

- (b) 1. The proposed administrative adjustment shall become final upon the earlier of the receipt by the department of written acceptance of the administrative adjustment by all impacted local governments or the expiration of forty-five (45) days from the date of the notice with no exception having been filed.
2. Exceptions to the proposed administrative adjustment shall be filed with the commissioner within forty-five (45) days from the date of the notice, and shall include a supporting statement setting forth the basis of the exception. A copy of any exception filed shall be mailed by the department to any other impacted local government.
 3. After an exception has been filed, the impacted local government may, in writing, request a conference with the department. The request shall be granted in writing stating the time and date of the conference. Other impacted local governments may also attend any conference. Additional conferences may be held upon mutual agreement.
 4. After considering the exceptions filed by the local government, including any information provided during any conferences, a final

administrative ruling shall be issued by the department. The final administrative ruling shall be mailed to all impacted local governments.

5. The local government filing the exception may request in writing a final administrative ruling at any time after filing exceptions and a supporting statement, and the department shall issue the ruling within thirty (30) days after the request is received by the department.

6. After a final administrative ruling has been issued, the local government may appeal to the Franklin Circuit Court.

(c) The taxpayer shall correct any allocation errors that impact the reporting of local government revenues going forward by the next filing period after notification by the department that a misallocation has occurred. Any taxpayer failing to correct misallocation errors shall be subject to the penalties established by subsection (17) of this section in addition to any other penalties that may be applicable.

(d) Any reallocation of local option sales and use tax receipts between or among local governments due to misallocation by a taxpayer on a return may go back a maximum of one (1) year from the date the misallocation was discovered.

(13) (a) Any refund of local option sales and use taxes shall be made solely at the discretion of the department in accordance with this chapter.

(b) 1. The department shall make authorized refunds, including interest, from the current tax collections in the account of the local government from which the refund is owed.

2. Applicable distributions to the local government shall be adjusted proportionately to reflect the refunds paid. If available funds in the local government account are insufficient, the department shall pay

the refunds from subsequent amounts collected for distribution to the local government until all refund payments, including interest, if applicable, have been made.

3. a. If the department receives a refund request related to local option sales and use taxes previously distributed to a local government that is no longer receiving monthly tax collections, the department shall forward the request to the local government.

b. The department shall assist the local government as necessary to confirm the validity of the refund and to facilitate payment of the amount due from the local government to the taxpayer.

(c) The amount of any claim for refund shall be reduced by the amount deducted by the taxpayer or certified service provider pursuant to Section 7 of this Act, at the time the taxes were paid to the department and by the administrative fee retained by the department pursuant to subsection (10)(b) of this section.
