Creates no new felonies. Since this bill does not create any new felonies, it will not have an impact on Department of Corrections (DOC) incarceration rate. The bill has the potential to increase the number of offenders in jails serving on misdemeanor offenses and DOC costs associated with county inmates in jail.

Increases in Cost of Providing County Inmates Access to Medical Network-The Department is responsible for payment for county offenders to be afforded access to medical network. The cost is calculated as follows: \$0.055 times the County Jail ADP for the month not to exceed \$165,958 based on a negotiated ADP of 8,318. Any increases in population beyond these parameters would require DOC to negotiate to amend the contract for the corresponding increased cost.

Increase in the Cost of Housing County Offenders for Medical Treatment – KRS 441.560 - Jails may request that a county offender be admitted to a DOC institution for treatment of catastrophic medical conditions. The Department assumes the cost of housing and medical care. In FY15 \$627,985 were expended for these admissions.

Acceleration in Depletion of Catastrophic Medical Fund – KRS 441.045 -The Department's Catastrophic Medical fund is utilized to reimburse jails for medical bills for county offenders which exceed \$1,000. Once this fund is depleted, county jails are responsible for these medical bills.

Misdemeanor Probation Supervision - This bill also has the potential to increase DOC supervision caseloads in counties where misdemeanor probation cases are supervised by Probation and Parole. Probation and Parole currently supervises district court misdemeanor probation cases in 18 counties and supervises circuit court misdemeanor probation cases in 101 counties. The cost to supervise an offender under the Division of Probation and Parole is \$3.46 daily.
