15 wastewater systems information, which for each system shall include but not be
16 limited to permit application date, permit application status, system installation

27 which the department shall make available, along with guidance and expertise, to

1 local health departments. Local health departments shall provide the list of
2 approved technologies to on-site wastewater professionals and permit applicants.
3 With respect to on-site sewage disposal systems that utilize greywater to reduce
4 total daily waste flows, the local health department shall inform the permit
5 applicant, at the time of making an application to construct an on-site sewage
6 disposal system that utilizes greywater to reduce daily waste flows, of the
7 opportunity to consult with the environmental health program evaluators in the

16 property owner or owner's agent to protect and maintain the suitability of an
17 approved site and to notify the local health department for a reinspection if site
18 conditions substantively change. If a site previously determined to be suitable is
19 thereafter declared unsuitable by the local health department, remedial measures
20 shall be provided in writing to the property owner or owner's agent within fifteen
21 (15) working days.

22 (4) After the conclusion of the site evaluation, the local health department shall, upon
23 request, provide a list of all options that may be approved for the property, including
24 new and emerging technologies. It shall be the responsibility of the owner of
25 advanced treatment, alternative, experimental, or new and emerging technology
26 systems to contract with a management entity, certified system operator, or trained
27 system operator to develop and implement an approved operations and maintenance

- 2 (5) No person, firm, or corporation shall construct, install, alter, or cause to be
3 constructed, installed, or altered, any on-site sewage disposal system subject to
4 regulation by the cabinet without having first obtained an on-site sewage disposal
5 permit from the local health department. In lieu of inspection and certification by
6 the local health department a licensed professional engineer in private practice
7 licensed by the Commonwealth of Kentucky may perform site evaluations and
8 approve system designs for an on-site sewage disposal system including those
9 systems that utilize greywater for reductions in daily waste flows for the person,
10 firm, or corporation and apply for the permit from the local health department. The
11 final systems installation inspection shall be performed by the local health
12 department as soon as practicable. All applicable provisions of KRS Chapter 322
13 shall govern the licensed professional engineer. A professional engineer shall not

15 an on-site sewage disposal system on property owned by himself, an employee, or a
16 partner of an engineering firm by which he is employed, or on property owned by
17 the engineering firm. Nothing in this section shall be construed to deny a farmstead
18 owner the right to obtain a permit. Except for farmstead owners on their own
19 property, the construction, installation, or alteration shall be performed only by a
20 person certified by the cabinet pursuant to KRS 211.357.
- 21 (6) A local health department that issues a permit for an on-site sewage disposal
22 system, including systems that utilize greywater to reduce total daily waste flows,
23 based on the site evaluation or system design of a licensed professional engineer in
24 private practice licensed by the Commonwealth of Kentucky shall not be held liable
25 for any defects or failures of the on-site sewage disposal system due to the site
26 evaluation or system design.
- 27 (7) No person, firm, or corporation shall use or continue to use or permit the use or

1 continued use of any on-site sewage disposal system, including those systems that
2 utilize greywater to reduce total daily waste flows, that is constructed, installed, or
3 altered under an on-site sewage disposal permit if the cabinet or local health
4 department through a duly authorized inspector, employee, agent, or licensed
5 professional engineer in private practice licensed by the Commonwealth of
6 Kentucky finds that the system was not constructed, installed, or altered in
7 conformance with the permit and regulations issued by the cabinet.

8 (8) No certified electrical inspector acting under authority of KRS 227.491 shall issue
9 the certificates of approval of temporary or permanent electrical wiring unless the
10 inspector has in his or her possession a notice of release as described in paragraphs
11 (a) and (b) of this subsection. The inspector shall record the number of the notice of
12 release on the certificate of approval. The person requesting approval of electrical
13 wiring shall be responsible for obtaining the release from the local health
14 department and providing it to the electrical inspector. This requirement shall only
15 apply to dwellings, mobile homes, manufactured housing, buildings, or other
16 structures that are constructed or installed after July 15, 1998. This requirement
17 shall not apply to structures that do not have sewage waste fixtures or to those that
18 are connected to a sewage waste disposal system approved by the Energy and
19 Environment Cabinet. Nothing in this section shall be construed to deny the
20 continued use of any electrical service connected to wiring approved prior to July
21 15, 1998.

22 (a) An initial notice of release to allow temporary electrical power for
23 construction shall be issued to the property owner or owner's agent by the
24 local health department upon the application for a site evaluation.

25 (b) A final notice of release to allow for permanent electrical power shall be
26 issued to the property owner or owner's agent by the local health department
27 upon approval of an on-site sewage disposal plan.

- 1 (c) This section shall not apply to any county that has adopted the Uniform State
2 Building Code and has and enforces on-site sewage disposal permitting.
- 3 (9) All applications for on-site sewage disposal permits shall be accompanied by plans
4 and specifications for the proposed system, including results of soils tests and other
5 information as directed by the cabinet by regulation. If the site evaluation or
6 approval of the system design is performed by a licensed professional engineer in
7 private practice licensed by the Commonwealth of Kentucky, the application shall
8 be accompanied by a statement by the engineer that he has met the requirements of
9 the regulations issued by the cabinet for site evaluation and system design. Any
10 action to deny an application shall be subject to appeal, and upon appeal an
11 administrative hearing shall be conducted in accordance with KRS Chapter 13B.
- 12 (10) The cabinet shall fix a schedule of fees for the functions performed by the cabinet
13 relating to the regulation of on-site sewage disposal systems. The fees shall be
14 designed to fully cover the cost of the service performed but shall not exceed the
15 cost of the service performed. Fees payable to the cabinet shall be paid into the
16 State Treasury and credited to a trust and agency fund to be used by the cabinet in
17 carrying out its responsibilities relating to the regulation of on-site sewage disposal
18 systems. No part of the fund shall revert to the general fund of the Commonwealth.
- 19 (11) Any regulation relating to on-site sewage disposal that is in effect on July 15, 1992,
20 shall remain in effect until altered by the secretary, except that administrative
21 regulations that govern total daily waste flows shall be updated in accordance with
22 KRS 211.351. The secretary may issue additional regulations necessary to carry out
23 the purposes of this section.
- 24 (12) Nothing in this section shall authorize or allow the cabinet to inspect or take
25 enforcement action against on-site sewage disposal systems installed on farmsteads
26 prior to July 15, 1992, or modifications to those systems unless the actions are
27 determined in writing by the cabinet, upon a written, verified complaint, to be

1 necessary to prevent imminent harm or damage to the safety, life, or health of a
2 person. In this instance, the cabinet shall deliver to the landowner a copy of the
3 written determination and the verified complaint prior to the commencement of the
4 inspection or enforcement action.

5 (13) As used in this section:

6 (a) "Blackwater" means wastewater containing liquid or solid waste generated
7 through use of a urinal, water closet, garbage disposal, or similar sanitary
8 fixture; and

9 (b) "Greywater" means wastewater generated by hygiene activities, including but
10 not limited to wastewater from laundry, lavatory sinks, and showers, but shall
