

1 A JOINT RESOLUTION directing the Kentucky Division of Water in the Energy  
2 and Environment Cabinet to study privately owned and operated small wastewater  
3 treatment systems and declaring an emergency.

4 WHEREAS, there are over 200 privately owned wastewater package treatment  
5 plants in operation in the Commonwealth with a presence in nearly every county; and

6 WHEREAS, these privately owned and operated small wastewater treatment plants  
7 are commonly older than their design life and are approaching critical service junctures  
8 wherein the plants may need significant infrastructure investments to continue service;  
9 and

10 WHEREAS, environmental regulation, relatively small customer bases, and aging  
11 infrastructure may affect the costs of operation of these plants; and

12 WHEREAS, owners of privately owned and operated small wastewater treatment  
13 plants, for a variety of reasons, including death, financial distress, and abandonment,  
14 become divested of the plants, leaving the users in a situation that is not easily remedied;  
15 and

16 WHEREAS, these privately owned and operated small wastewater treatment plants  
17 are all regulated by way of the Clean Water Act Section 402 permit process and related  
18 programs and commonly cannot meet compliance standards; and

19 WHEREAS, the financial, managerial, and technical capacities of these privately  
20 owned and operated small wastewater treatment plants are commonly such that the  
21 continued operation of these plants is not sustainable;

22 NOW, THEREFORE,

23 ***Be it resolved by the General Assembly of the Commonwealth of Kentucky:***

24 ➔Section 1. The Division of Water in the Energy and Environment Cabinet is  
25 directed to:

26 (1) (a) Identify the privately owned and operated small wastewater treatment  
27 plants in Kentucky and collect the relevant information regarding the plant and collection

1 system attributes;

2 (b) Identify indicators that are useful and necessary in conducting an assessment  
3 of the risks of financial failure, technical failure, structural failure, or abandonment of  
4 privately owned and operated small wastewater treatment plants;

5 (c) Identify potential emergency intervention methods to respond to plant failures  
6 in a collaborative manner between state and local entities; and

7 (d) Identify legislative changes that may assist to mitigate the failure or  
8 abandonment of small wastewater treatment plants or to otherwise provide for continuity  
9 of service to the plants' customers.

10 (2) The Division of Water shall prepare a report that outlines potential measures  
11 to ensure the sustainability of privately owned and operated small wastewater treatment  
12 plants and identifies actions, including proposed legislative changes, that may mitigate  
13 the failure or abandonment of privately owned and operated small wastewater treatment  
14 plants.

15 ➔Section 2. The Division of Water is further directed to accomplish the directives  
16 set out in Section 1 of this Resolution by conferring with the following entities:

- 17 (1) Kentucky Infrastructure Authority;
- 18 (2) Kentucky Public Service Commission;
- 19 (3) Kentucky Department for Public Health;
- 20 (4) Kentucky Rural Water Association;
- 21 (5) Kentucky Rural Community Assistance Partnership;
- 22 (6) Kentucky League of Cities;
- 23 (7) Kentucky Council of Area Development Districts;
- 24 (8) Kentucky Water and Wastewater Operators Association;
- 25 (9) Kentucky Association of Counties;
- 26 (10) Kentucky Municipal Utilities Association;
- 27 (11) American Council of Engineering Companies—Kentucky; and

1 (12) Any other entity or individual whose involvement is deemed necessary by the  
2 Division to accomplish the goals of the study.

3 ➔Section 3. The Division of Water shall:

4 (1) No later than July 31, 2017, present a progress report to the Legislative  
5 Research Commission, which shall refer the report to the Interim Joint Committee on  
6 Natural Resources and Environment and the Interim Joint Committee on Local  
7 Government. That report shall include a summary of the division's research it has  
8 gathered relative to subsection (1) of Section 1 of this Act, as well as providing a planned  
9 timeline for the remaining work. The report may include such other information the  
10 division deems useful or otherwise informative to the committees.

11 (2) On or before November 1, 2017, prepare and present to the Legislative  
12 Research Commission the report required by subsection (2) of Section 1 of this  
13 Resolution. The Legislative Research Commission shall refer that report to the Interim  
14 Joint Committee on Natural Resources and Environment and the Interim Joint Committee  
15 on Local Government.

16 ➔Section 4. Whereas, the Division of Water will require time to complete the  
17 study prior to the report deadlines and the commencement of the 2018 Regular Session of  
18 the General Assembly, and to allow time for any legislative recommendations to be  
19 considered prior to that session, an emergency is declared to exist, and this Act takes  
20 effect upon its passage and approval by the Governor or upon its otherwise becoming a  
21 law.
