13 (c) The statewide assessments shall not include any academic standards not
14 approved by the board under subsection (2) of this section.

15 (d) The board shall seek the advice of the Office of Education Accountability; the
16 School Curriculum, Assessment, and Accountability Council; the Education
17 Assessment and Accountability Review Subcommittee, and the National
18 Technical Advisory Panel on Assessment and Accountability in the
19 development of the assessment program. The statewide assessment program
20 shall not include measurement of a student's ability to become a self-sufficient
21 individual or to become a responsible member of a family, work group, or
22 community.

23 (4) (a) The academic components of the statewide assessment program shall be

12 assessment program shall not include measurement of a student's ability
13 to become a self-sufficient individual or to become a responsible
14 member of a family, work group, or community.
- 15 (5) The state student assessments shall include the following components:
 - 16 (a) Elementary and middle grades requirements are:
 - 17 1. A criterion-referenced test each in mathematics and reading in grades
18 three (3) through eight (8) that is valid and reliable for an individual
19 student and that measures the depth and breadth of Kentucky's academic
20 content standards;
 - 21 2. A criterion-referenced test each in science and social studies that is valid
22 and reliable for an individual student as necessary to measure the depth
23 and breadth of Kentucky's academic content standards to be
24 administered one (1) time within the elementary and middle grades,
25 respectively;
 - 26 3. An on-demand assessment of student writing to be administered one (1)
27 time within the elementary grades and one (1) time within the middle

- 15 time within the high school grades;
- 16 4. An editing and mechanics test relating to writing, using multiple choice
- 17 and constructed response items, to be administered one (1) time within
- 18 the high school grades; and
- 19 5. A college admissions examination to assess English, reading,
- 20 mathematics, and science in the spring of grade ten (10) and the spring
- 21 of grade eleven (11);
- 22 (c) The Kentucky Board of Education shall add any other component necessary to
- 23 comply with the Every Student Succeeds Act of 2015, Pub. L. No. 114-95, or
- 24 its successor, as determined by the United States Department of Education;
- 25 (d) The criterion-referenced components required in this subsection shall be
- 26 composed of constructed response items and multiple choice items;
- 27 (e) The Kentucky Board of Education may incorporate end-of-course

3 and

4 (f) The results of the assessment program developed under this subsection shall
5 be used by schools and districts to determine appropriate instructional
6 modifications for all students in order for students to make continuous
7 progress, including that needed by advanced learners.

8 (6) Each school district shall administer the statewide student assessment during the
9 last fourteen (14) days of school in the district's instructional calendar. The
10 Kentucky Board of Education may change the testing window to allow for
11 innovative assessment systems or other online test administration and shall
12 promulgate administrative regulations that minimize the number of days of testing
13 and outline the procedures to be used during the testing process to ensure test
14 security, including procedures for testing makeup days, and to comply with federal
15 assessment requirements.

16 (7) A student enrolled in a district-operated or district-contracted alternative program
17 shall participate in the appropriate assessments required by this section.

18 (8) A local school district may select and use commercial interim or formative
19 assessments or develop and use its own formative assessments to provide data on
20 how well its students are growing toward mastery of Kentucky academic standards,
21 so long as the district's local school board develops a policy minimizing the
22 reduction in instructional time related to the administration of the interim
23 assessments. Nothing in this section precludes teachers from using ongoing teacher-
24 developed formative processes.

25 (9) Each school that enrolls primary students shall use diagnostic assessments and
26 prompts that measure readiness in reading and mathematics for its primary students
27 as determined by the school to be developmentally appropriate. The schools may

1 use commercial products, use products and procedures developed by the district, or
2 develop their own diagnostic procedures. The results shall be used to inform the
3 teachers and parents or guardians of each student's skill level.

4 (10) The state board shall ensure that a technically sound longitudinal comparison of the
5 assessment results for the same students shall be made available.

6 (11) The following provisions shall apply to the college admissions examinations

9 high school shall be paid for by the Kentucky Department of Education. The
10 costs of additional college admissions examinations shall be the responsibility
11 of the student;

12 (b) If funds are available, the Kentucky Department of Education shall provide a
13 college admissions examination preparation program to all public high school
14 juniors. The department may contract for necessary services; and

15 (c) Accommodations provided to a student with a disability taking the college
16 admissions assessments under this subsection shall consist of:

17 1. Accommodations provided in a manner allowed by the college
18 admissions assessment provider when results in test scores are
19 reportable to a postsecondary institution for admissions and placement
20 purposes, except as provided in subparagraph 2. of this paragraph; or

21 2. Accommodations provided in a manner allowed by a student's
22 individualized education program as defined in KRS 158.281 for a
23 student whose disability precludes valid assessment of his or her
24 academic abilities using the accommodations provided under
25 subparagraph 1. of this paragraph when the student's scores are not
26 reportable to a postsecondary institution for admissions and placement
27 purposes.

- 1 (12) Kentucky teachers shall have a significant role in the design of the assessments,
2 except for the college admissions exams described in subsection (5)(b)5. of this
3 section. The assessments shall be designed to:
- 4 (a) Measure grade appropriate core academic content, basic skills, and higher-
5 order thinking skills and their application;
 - 6 (b) Provide valid and reliable scores for schools. If scores are reported for
7 students individually, they shall be valid and reliable;
 - 8 (c) Minimize the time spent by teachers and students on assessment; and
 - 9 (d) Assess Kentucky academic standards only.
- 10 (13) The results from assessment under subsections (3) and (5) of this section shall be
11 reported to the school districts and schools no later than seventy-five (75) days
12 following the last day the assessment can be administered. Assessment reports
13 provided to the school districts and schools shall include an electronic copy of an
14 operational subset of test items from each assessment administered to their students
15 and the results for each of those test items by student and by school.
- 16 (14) The Department of Education shall gather information to establish the validity of
17 the assessment and accountability program. It shall develop a biennial plan for
18 validation studies that shall include but not be limited to the consistency of student
19 results across multiple measures, the congruence of school scores with documented
20 improvements in instructional practice and the school learning environment, and the
21 potential for all scores to yield fair, consistent, and accurate student performance
22 level and school accountability decisions. Validation activities shall take place in a
23 timely manner and shall include a review of the accuracy of scores assigned to
24 students and schools, as well as of the testing materials. The plan shall be submitted
25 to the Commission by July 1 of the first year of each biennium. A summary of the
26 findings shall be submitted to the Legislative Research Commission by September 1
27 of the second year of the biennium.

- 1 (15) The Department of Education and the state board shall offer optional assistance to
2 local school districts and schools in developing and using continuous assessment
3 strategies needed to assure student progress. The continuous assessment shall
4 provide diagnostic information to improve instruction to meet the needs of
5 individual students.
- 6 (16) The Administration Code for Kentucky's Assessment Program shall include
7 prohibitions of inappropriate test preparation activities by school district employees
8 charged with test administration and oversight, including but not limited to the issue
9 of teachers being required to do test practice in lieu of regular classroom instruction
10 and test practice outside the normal work day. The code shall include disciplinary
11 sanctions that may be taken toward a school or individuals.
- 12 (17) The Kentucky Board of Education, after the Department of Education has received
13 advice from the Office of Education Accountability; the School Curriculum,
14 Assessment, and Accountability Council; and the National Technical Advisory
15 Panel on Assessment and Accountability, shall promulgate an administrative
16 regulation under KRS Chapter 13A to establish the components of a reporting
17 structure for assessments administered under this section. The reporting structure
