

1 AN ACT relating to adopting the most cost-effective alternative in administrative
2 regulations having a major economic impact on the Kentucky economy.

3 WHEREAS, certain types of Kentucky administrative regulations may have a
4 substantial impact on the state's economy; and

5 WHEREAS, these effects on the economy may include impacts on state and local
6 government, regulated entities, and the general public; and

7 WHEREAS, much of the public dissatisfaction with the regulatory process has
8 stemmed from a public perception of large, burdensome administrative regulations that
9 fail to correct important state problems; and

10 WHEREAS, more detailed economic analysis by administrative bodies and third
11 parties relating to administrative regulations that constitute major economic actions may
12 reduce costs, improve effectiveness, and enhance civic engagement; and

13 WHEREAS, growing evidence has shown that better outcomes may occur when the
14 administrative body uses an evidence-based approach that includes detailed risk
15 assessment and cost-benefit analysis; and

16 WHEREAS, recent research has shown that requirements for reviewing the fiscal
17 impacts of new administrative regulations on state government budgets and presentation
18 of lower-cost alternatives for achieving the same policy goals reduce the state regulatory
19 burden; and

20 WHEREAS, administrative bodies should apply greater scrutiny to administrative
21 regulations that are more costly to the state economy to ensure that the benefits outweigh
22 the costs and that the public may openly test the accuracy of the administrative body's
23 decisions; and

24 WHEREAS, many prominent organizations have lauded the benefits of a public,
25 evidence-based approach to major administrative regulations, including the Pew
26 Charitable Trusts, the American Bar Association, and the Administrative Conference of
27 the United States; and

1 WHEREAS, this Commonwealth should adopt administrative procedures to require
2 evidence-based economic analysis, third-party review, and public input for administrative
3 regulations that constitute major economic actions;

4 NOW, THEREFORE,

5 *Be it enacted by the General Assembly of the Commonwealth of Kentucky:*

22 ➔SECTION 2. A NEW SECTION OF KRS CHAPTER 13A IS CREATED TO
23 READ AS FOLLOWS:

24 The requirements of Sections 1 to 7 of this Act are a supplement to, and not a
25 replacement for, the normal administrative regulation process under this chapter.

26 Except as otherwise specifically stated in this chapter, the administrative process for an
27 administrative regulation that constitutes a major economic action shall be the same as

1 that required for any other ordinary administrative regulation or administrative
2 regulation in contemplation of a statute.

3 (1) When promulgating, amending, or certifying an ordinary administrative
4 regulation or an administrative regulation in contemplation of a statute, an
5 administrative body shall consider at least the following if that administrative
6 regulation qualifies as a major economic action:

7 (a) The statutory authority for the action;

8 (b) The nature and significance of the problem the administrative body intends
9 to address with the action;

10 (c) Whether existing statutes or administrative regulations have created or
11 contributed to the problem the administrative body may address with an
12 action, including whether amendment or repeal of those statutes or
13 administrative regulations could address some or all of the problem;

14 (d) Two (2) reasonable alternatives for a new action that meet the statutory
15 objective, including substantial alternatives or other responses identified by
16 interested persons; and

17 (e) The potential costs and benefits associated with potential alternative
18 approaches and other responses considered under this section, including
19 quantitative and qualitative analyses of:

20 1. The direct costs and benefits;

21 2. The nature and degree of risks addressed by the action and the
22 countervailing risks that might be posed by administrative body
23 action; and

24 3. The cumulative and indirect costs and benefits.

25 (2) (a) When filing a new or amended administrative regulation that constitutes a
26 major economic action, the administrative body shall include a separate
27 notation in all capital letters stating "MAJOR ECONOMIC ACTION" on a

1 double-spaced line just above the required location of the number and title
2 of the administrative regulation under KRS 13A.220(4).

3 (b) When filing a certification letter under Section 10 of this Act for an
4 administrative regulation that constitutes a major economic action, the
5 administrative body shall include a separate notation in all capital letters
6 stating "MAJOR ECONOMIC ACTION" on the first page of the
7 certification letter.

8 (3) When developing and filing a major economic action, the promulgating
9 administrative body shall:

10 (a) Assess community needs and identify appropriate evidence-based
11 interventions;

12 (b) Create policies and processes that support effective implementation and
13 monitoring;

14 (c) Support affected entities and the public through training and technical
15 assistance; and

16 (d) Create systems to monitor program implementation and improve
17 performance.

18 ➔SECTION 3. A NEW SECTION OF KRS CHAPTER 13A IS CREATED TO
19 READ AS FOLLOWS:

20 For an administrative regulation that constitutes a major economic action, an
21 administrative body shall simultaneously file with the regulations compiler the
22 administrative regulation and the administrative body's analysis and explanation of the
23 administrative regulation.

24 (1) (a) Except as provided in subsection (2) of this section, when taking a major
25 economic action, an administrative body shall submit and explain the most
26 cost-effective action that:

27 1. Is considered under Section 2 of this Act;

- 1 2. Meets relevant statutory objectives; and
- 2 3. Contains benefits that outweigh the costs.
- 3 **(b) The action shall include a discussion of:**
- 4 1. The costs and benefits of the action;
- 5 2. Other economic issues that are relevant to the action;
- 6 3. Risk assessments that are relevant to the action;
- 7 4. The costs and benefits of alternatives considered by the administrative
- 8 body under Section 2 of this Act;
- 9 5. Whether the alternatives considered by the administrative body under
- 10 Section 2 of this Act meet relevant statutory objectives; and
- 11 6. The reasons why the administrative body did not propose an
- 12 alternative it considered under Section 2 of this Act.
- 13 **(c) The rigor of the cost-benefit analysis required by this subsection shall be**
- 14 commensurate with the economic impact of the action.
- 15 **(d) When undertaking the risk assessment described in this subsection, the**
- 16 administrative body shall include criteria it used to:
- 17 1. Select studies and models;
- 18 2. Evaluate and weigh evidence; and
- 19 3. Conduct peer reviews.
- 20 **(2) In a major economic action, an administrative body may submit an action that is**
- 21 more costly than the most cost-effective alternative that would achieve the
- 22 relevant statutory objectives only if the administrative body:
- 23 **(a) Demonstrates that the additional benefits of the more costly action justify**
- 24 the additional costs of that action;
- 25 **(b) Specifically identifies each additional benefit described in paragraph (a) of**
- 26 this subsection and the cost of each of these additional benefits; and
- 27 **(c) Explains why it adopted an action that is more costly than the most cost-**

1 effective alternative.

2 (3) The major economic action materials shall include a detailed explanation by the
3 administrative body showing why:

4 (a) The benefits of the action advance the relevant statutory objectives and
5 justify the costs of the action; and

6 (b) 1. No alternative considered would achieve the relevant statutory
7 objectives in a more cost-effective manner than the action; or

8 2. The adoption by the administrative body of a more costly action
9 complies with subsection (2) of this section.

10 (4) If an administrative body's major economic action rests upon scientific,
11 technical, or economic information, the administrative body shall adopt a final
12 action on the basis of the best reasonably available scientific, technical, or
13 economic information.

14 (5) Not later than the date on which an administrative body files a major economic
15 action, all studies, models, scientific literature, and other information developed
16 or relied upon by the administrative body, and actions taken by the administrative
17 body to obtain that information, in connection with the determination of the
18 administrative body to finalize the major economic action shall be submitted to
19 the regulations compiler and made accessible to the public.

20 (6) When an administrative body files with the regulations compiler the information
21 required under Sections 1 to 7 of this Act for a major economic action, the
22 administrative body shall:

23 (a) Simultaneously submit that information to the Regulatory Economic
24 Analysis Advisory Group; and

25 (b) Include an executive summary of the action. This executive summary shall
26 indicate that the administrative regulation is a major economic action and
27 shall be published in the Administrative Register of Kentucky, but the

1 regulations compiler shall not be required to publish the entirety of the
2 supplemental materials submitted for the major economic action.

3 ➔SECTION 4. A NEW SECTION OF KRS CHAPTER 13A IS CREATED TO
4 READ AS FOLLOWS:

- 5 (1) When an administrative body files an administrative regulation that constitutes a
6 major economic action, that administrative body shall publicly provide a
7 framework for assessing the administrative regulation, which shall include:
8 (a) A clear statement of the regulatory objectives of the action, including a
9 summary of the benefit and cost of the action;
10 (b) The methodology by which the administrative body plans to analyze the
11 action, including metrics by which the administrative body can measure
12 the:
13 1. Effectiveness and benefits of the action in producing the regulatory
14 objectives of the action; and
15 2. Impacts, including any costs, of the action on regulated and other
16 impacted entities;
17 (c) A plan to continuously or periodically gather data regarding the metrics
18 described in paragraph (b) of this subsection, including a method by which
19 the administrative body will invite the public to participate in the review
20 process and seek input from other administrative bodies; and
21 (d) A specific timeframe, as appropriate to the action and not more than seven
22 (7) years after the effective date of the administrative regulation, under
23 which the administrative body shall conduct the assessment of the action in
24 accordance with this section.
- 25 (2) Each administrative body shall assess the data collected under subsection (1)(c)
26 of this section, using the methodology set forth in subsection (1)(b) of this section
27 or any other appropriate methodology developed after the issuance of a major

1 economic action to:

2 (a) Analyze how the actual benefits and costs of the action may have varied
3 from those anticipated at the time the action was issued; and

4 (b) Determine whether:

5 1. The action is accomplishing its regulatory objective;

6 2. The action has been rendered unnecessary, taking into consideration:

7 a. Changes in the subject area affected by the action; and

8 b. Whether the action overlaps, duplicates, or conflicts with other
9 statutes or administrative regulations;

10 3. The action needs to be amended in order to accomplish the regulatory
11 objective; and

12 4. Other alternatives to the action or amendment to the action could
13 better achieve the regulatory objective while imposing a smaller
14 burden on society or increase cost-effectiveness, taking into
15 consideration any cost already incurred.

16 (3) If an administrative body uses a methodology other than the methodology
17 described in subsection (1)(b) of this section to assess data under subsection (2) of
18 this section, the administrative body shall include an explanation of the changes
19 in circumstances that necessitated the use of that other methodology.

20 (4) If, after an assessment of a major economic action under subsection (2) of this
21 section, an administrative body determines that the action will remain in effect
22 with or without amendment, the administrative body shall:

23 (a) Determine a specific time, as appropriate to the action and not more than
24 seven (7) years after the effective date of the most recent original or
25 assessment action, under which the administrative body shall conduct
26 another assessment of the action in accordance with subsection (2) of this
27 section; and

1 (b) If the assessment conducted under paragraph (a) of this subsection does not
 2 result in a repeal of the action, periodically assess the action in accordance
 3 with subsection (2) of this section to ensure that the action continues to
 4 meet the regulatory objective.
