- 2 (b) Distribute one hundred percent (100%) of the university allocable resources
- 3 for all universities in the sector, based on rational criteria, including student

- 5 of whether state funding for postsecondary institution operations increases,
- 6 decreases, or remains stable;
- 7 (c) Include an adjustment to minimize impact on smaller campuses as determined
- 8 by the council; and
- 9 (d) Be constructed to achieve equilibrium, at which point the funding formula
- 10 rewards rates of improvement above the sector average rate.
- 11 (6) Funding for the public university sector shall be distributed as follows:

9 as determined by the council in collaboration with the working group
10 established in subsection (11) of this section;

11 2. Ten percent (10%) shall be distributed based on each university's share
