

1           A CONCURRENT RESOLUTION urging the United States Congress to amend the  
2 Controlled Substances Act of 1970 to authorize the study of medical cannabis.

3           WHEREAS, The Controlled Substances Act was enacted by the 91st Congress and  
4 became effective May 1, 1970; and

5           WHEREAS, Schedule I drugs, substances, or chemicals under the Controlled  
6 Substances Act include controlled substances which have been found to have highly  
7 addictive properties, no currently accepted medical use in the United States, and a lack of  
8 accepted safety for use of the drug under medical supervision; and

9           WHEREAS, cannabis is listed as a Schedule I controlled substance under the  
10 Controlled Substances Act, and there are no exceptions in federal law for cannabis used  
11 for medicinal purposes, even if the use is sanctioned by state law; and

12           WHEREAS, an ongoing national debate as to the safety and medical application of  
13 cannabis has led nearly thirty states to approve the use of cannabis for treatment of certain  
14 medical conditions; and

15           WHEREAS, early medical research suggests many therapeutic qualities are present  
16 in cannabis and that it can potentially be used in the treatment of a variety of conditions;  
17 and

18           WHEREAS, there is a significant lack of definitive, high-quality research on  
19 cannabis due to the limitations placed on hospitals and universities as a result of the  
20 Controlled Substances Act; and

21           WHEREAS, removing cannabis from Schedule I under federal law would result in  
22 the drug being more available for research, while still keeping cannabis safely regulated;  
23 and

24           WHEREAS, Kentucky has the potential to be a leader in the field of cannabis  
25 research, with the House Standing Committee on Education favorably reporting a bill  
26 during the 2020 regular session that would have created the Kentucky Center for  
27 Cannabis Research at the University of Kentucky; and

1           WHEREAS, the health of Kentucky's citizens is of paramount importance, and the  
2 authority to research medical cannabis and to prescribe it as part of a physician-  
3 supervised treatment plant would greatly improve the ability to provide care and  
4 treatment for the citizens of this Commonwealth; and

5           WHEREAS, Christian teaching regards all plants as being made by God for human  
6 food and health, with Psalm 104:14-15 stating "He causeth the grass to grow for the  
7 cattle, and herb for the service of man: that he may bring forth food out of the earth; And  
8 wine that maketh glad the heart of man, and oil to make his face to shine, and bread  
9 which strengtheneth man's heart," and with Revelation 22:2 stating "on either side of the  
10 river, was there the tree of life, which bare twelve manner of fruits, and yielded her fruit  
11 every month: and the leaves of the tree were for the healing of the nations";

12           NOW, THEREFORE,

13 ***Be it resolved by the Senate of the General Assembly of the Commonwealth of***  
14 ***Kentucky, the House of Representatives concurring therein:***

15           ➔Section 1. The United States Congress is urged to amend the Controlled  
16 Substances Act to remove cannabis from the list of Schedule I controlled substances.

17           ➔Section 2. The Clerk of the Senate is directed to transmit a copy of this  
18 Resolution to the Speaker of the United States House of Representatives, the Majority  
19 Leader of the United States Senate, and each member of the Kentucky Congressional  
20 delegation.
