

1 AN ACT relating to veterinarian licensing and making an appropriation therefor.

2 ***Be it enacted by the General Assembly of the Commonwealth of Kentucky:***

3 ➔Section 1. KRS 321.175 is amended to read as follows:

4 **(1) This chapter shall be known as the Kentucky Veterinary Medicine Practice Act.**

5 **(2)** It is hereby declared that:

6 **(a)** The ~~practices~~~~[practice]~~ of veterinary medicine, **veterinary technology, animal**
7 **euthanasia, and allied animal health professionals and the operation of**
8 **veterinary facilities, AAHP facilities, and board-certified animal control**
9 **agencies are privileges which are**~~[is a privilege which is]~~ granted by
10 legislative authority **and are subject to regulation and control** in the interest
11 of public health, safety, and welfare~~[.]~~ to protect the public from:

12 **1.** Being misled by incompetent, unscrupulous, and unauthorized
13 practitioners;~~[, and from]~~

14 **2.** Unprofessional or illegal practices by persons licensed to practice
15 veterinary medicine, **veterinary technology, animal euthanasia, and**
16 **the allied animal health professions;**

17 **3. Substandard care; and**

18 **4. Unlicensed persons;**~~[this chapter is enacted in the interest of the health,~~
19 ~~safety, and welfare of the animal population and the citizens of~~
20 ~~Kentucky.]~~

21 **(b) It is a matter of public interest and concern that the practices of veterinary**
22 **medicine, veterinary technology, animal euthanasia, and allied animal**
23 **health professions working on animals merit and receive the confidence of**
24 **the public and that only qualified individuals be permitted to practice these**
25 **professions in the Commonwealth. This chapter shall be liberally construed**
26 **to carry out these objectives and purposes;**

27 **(c) The intent of this chapter is to regulate the professions of veterinary**

- 1 medicine, veterinary technology, animal euthanasia, and allied animal
2 health professional work on animals and to establish standards for
3 veterinary premises and AAHP premises, both fixed and mobile, and shall
4 result in displacing competition by restricting licensure, permitting,
5 certification, and registration to practice these professions, as this practice
6 is defined and interpreted by the board, to persons and premises determined
7 by the board to be qualified under this chapter; and
- 8 (d) Any resulting restriction on competition is outweighed by the broader
9 interest in protection of the public health, safety, and welfare. It is
10 understood that the regulatory structure calls for veterinarians, veterinary
11 technicians, AAHPs, and citizens at large to serve on the board and this
12 chapter recognizes the need for professional expertise provided by
13 veterinarians and veterinary technicians serving the public interest.
- 14 (3) This chapter is intended to provide active oversight and supervision through its
15 legislative enactment, the promulgation of administrative regulations, the
16 appointment of board members by the Governor, legal representation of the
17 board by competent counsel, legislative appropriation of moneys and spending
18 authority to support the board, and engagement in the administrative regulation
19 review process under the auspices of the Legislative Research Commission.
- 20 (4) It is the purpose of this chapter to promote, preserve, and protect the public
21 health, safety, and welfare by and through the licensure, permitting, certification,
22 registration, and regulation of individuals, whether physically located within or
23 outside of the Commonwealth, who practice veterinary medicine, veterinary
24 technology, animal euthanasia, and AAHP services within Kentucky, and the
25 registration of veterinary facility locations, AAHP facility locations, and mobile
26 facilities where veterinary medicine or AAHP activities are being practiced. In
27 furtherance of this purpose, the Kentucky Board of Veterinary Examiners is

1 created, and its members, functions, and procedures shall be established in
2 accordance with this chapter.

3 (5) The purpose of this chapter is to establish a comprehensive scheme to fully
4 occupy the fields of veterinary medicine, veterinary technology, AAHP work on
5 animals, and animal euthanasia, and provide a uniform regulatory scheme to be
6 enforced by the Kentucky Board of Veterinary Examiners as defined in the scopes
7 of practice.

25 READ AS FOLLOWS:

26 Telehealth shall be authorized for veterinary practice. Telehealth is divided into
27 categories based on who is involved in the communication. For communication

1 between veterinarians and other persons, there are distinctions in practice related to
2 whether a VCPR as set forth in Section 10 of this Act has been established with the
3 patient. Different types of veterinary telehealth include the following:

4 (1) Telemonitoring, mHealth, or mobile health applications and wearables which
5 are:

6 (a) Designed to augment animal health care within VCPRs; or

7 (b) Designed and marketed directly to consumers for their education and for
8 animal monitoring without clinical input and outside the context of a
9 VCPR;

10 (2) Telesupervision, which shall be permitted as a part of telehealth practice;

11 (3) Telemedicine or connected care, which provides the delivery of information
12 specific to a particular patient and shall be conducted within the context of an
13 established VCPR to ensure protection for the patient, subject to the following:

14 (a) Telemedicine or connected care is an approach to veterinary practice that is
15 patient- and client-centered, and actively engages the entire veterinary
16 healthcare team. This type of telehealth involves use of one (1) or more tools
17 to exchange medical information electronically from one (1) site to another
18 to improve a patient's clinical health status, which may be utilized to
19 augment the practice of veterinary medicine. The appropriate application of
20 connected care or telemedicine can enhance animal care by facilitating
21 communication, diagnostics, treatments, client education, scheduling, and
22 other tasks;

23 (b) Practitioners providing telemedicine or connected care to patients in the
24 Commonwealth shall be credentialed to practice by the board and operate in
25 association with a registered veterinary facility or registered allied animal
26 health professional facility in Kentucky. Practitioners practicing this type of
27 telemedicine shall comply with all state and federal statutes and regulations,

- 1 including requirements for access to follow-up care; and
- 2 (c) Telemedicine or connected care provided to patients in Kentucky shall only
3 be conducted within an existing VCPR as set forth in Section 10 of this Act
4 and is required to be reestablished through an in-person visit every twelve
5 (12) months, with the exception of advice given in an emergency care
6 situation or teletriage until a patient can be seen by or transported to a
7 veterinarian. The VCPR for that twelve (12) months shall be deemed to
8 constitute a relationship in Kentucky, regardless of whether the patient or
9 client travels outside the Commonwealth; and
- 10 (4) Telehealth conducted without a VCPR, which may include only the delivery of
11 general advice, educational information, and teletriage. Telehealth which may be
12 conducted without a VCPR includes:
- 13 (a) Teleadvice, which is general advice that is not intended to diagnose,
14 prognose, treat, correct, change, alleviate, or prevent animal disease, illness,
15 pain, deformity, defect, injury, or other physical, dental, or mental
16 conditions. If the practitioner providing the teleadvice is a qualified
17 veterinarian, veterinary technician, allied animal health professional, or
18 other board credential holder, the practitioner shall be required to hold a
19 valid credential from the Kentucky board, except as authorized by Section
20 14 of this Act, shall comply with all state and federal statutes and
21 regulations, and shall disclose the practitioner's name and Kentucky
22 credential number to the person receiving services;
- 23 (b) Teleconsulting, in which the established VCPR remains with the
24 veterinarian seeking advice or counsel; and
- 25 (c) Teletriage, when in assessing patient condition electronically, the assessor
26 determines urgency and the need for immediate referral to a veterinarian,
27 based on the owner's or responsible party's report of history and clinical

1 signs, sometimes supplemented by visual information, such as photographs
2 or video. Practitioners providing teletriage to patients in the Commonwealth
3 shall be credentialed to practice by the board in Kentucky, shall comply with
4 all state and federal statutes and regulations, and shall disclose the
5 practitioner's name and Kentucky credential number to the person receiving
6 services.

9 (1) Each veterinarian or AAHP who provides medical services to animals shall
10 maintain accurate electronic or legibly written medical records that include the
11 identity of the credential holder or authorized representative who makes the

17 readily retrievable for a period of five (5) years following the last patient
18 encounter. Records shall not be stored by a third party without a record of signed,

20 the veterinarian or AAHP from the responsibility of supplying records to the
21 client upon request.

22 (3) (a) The veterinarian or AAHP may require that a request for medical records
23 be in writing and may charge a reasonable fee for copying or the staff time
24 in preparing the requested medical records, unless there is a board
25 investigation, in which case no charges shall be authorized.

26 (b) Copies of the medical records shall be provided to the client, designated
27 veterinarian, AAHP permittee, or authorized representative within seven (7)

1 calendar days after receipt of a proper request or sooner in accordance with
2 the patient's medical condition.

3 (c) Failure to provide the medical records in a timely fashion upon proper
4 request shall be considered unprofessional conduct.

5 (4) All records required by law to be kept by a veterinarian or AAHP shall be open to
6 inspection by the board or its authorized representatives, and a copy shall be
7 provided immediately upon request.

8 (5) All records shall comply with the requirements set forth by the board in

22 (d) As part of an inspection or investigation conducted by the board or an agent
23 of the board;

1 statement, or alter or modify any medical record, document, or report concerning
2 treatment of a patient. When correcting a medical record, the original content
3 should be readable, and the alteration shall be clearly identified with the
4 correction, reason for correction, date, and author's name.

11 which time individuals may renew their licenses upon submission of a completed
12 renewal application and payment of the renewal fee and a late fee to the board.
13 All licenses not renewed by the grace period deadline shall expire based on the
14 failure of the individual to renew in a timely manner. Upon expiration, the
15 veterinary technician licensee is no longer eligible to practice in the
16 Commonwealth.

17 (3) After the sixty (60) day grace period, individuals with an expired veterinary
18 technician license may have their licenses reinstated upon submission of a
19 completed reinstatement application and payment of a reinstatement fee to the
20 board. No person who applies for reinstatement after expiration of the person's
21 license shall be required to submit to an examination as a condition for
22 reinstatement if a reinstatement application is made within five (5) years from the
23 date of expiration.

24 (4) A suspended license is subject to expiration and termination and shall be renewed
25 as provided in this chapter. Renewal or reinstatement shall not entitle the licensee
26 to engage in the practice until the suspension has ended or is otherwise removed
27 by the board and the right to practice is restored by the board.

1 (5) A revoked license is subject to expiration or termination but may not be renewed.

2 If it is reinstated, the licensee shall pay the reinstatement fee.

3 (6) A person who fails to reinstate a license within five (5) years after its expiration
4 or termination may not have it renewed, restored, reissued, or reinstated. A

8 licensure show evidence of completion of continuing education as established in
9 administrative regulations promulgated in accordance with KRS Chapter 13A.

22 which time individuals and agencies may renew their certificates upon
23 submission of a completed application, and payment of the renewal fee and a late

25 deadline shall expire. Upon expiration, the holder of that certificate is no longer
26 eligible to practice animal euthanasia in the Commonwealth or maintain a

3 certificate may have their certificates reinstated upon submission of a completed
4 reinstatement application and payment of a reinstatement fee to the board if the

6 expiration. Animal control agencies may be subject to inspection prior to
7 reinstatement.

8 (5) A suspended certificate is subject to expiration and termination and shall be
9 renewed as provided in this chapter. Renewal or reinstatement shall not entitle
10 the certificate holder to engage in the practice until the suspension has ended or
11 is otherwise removed by the board and the right to practice is restored by the
12 board.

13 (6) A revoked certificate is subject to expiration or termination but may not be
14 renewed. If it is reinstated, the certificate holder shall pay the reinstatement fee.

15 (7) A person or agency that fails to reinstate its certificate within five (5) years after

11 following requirements:

12 (1) The applicant shall provide his or her fingerprints to the Department of Kentucky

23 processing the request and conducting the background check. The board may
24 charge this fee to the applicant for licensure or certification.

25 ➔SECTION 8. A NEW SECTION OF KRS CHAPTER 321 IS CREATED TO
26 READ AS FOLLOWS:

27 (1) The board may promulgate administrative regulations in accordance with KRS

1 Chapter 13A defining:

2 (a) Application, renewal, and reinstatement requirements and fees for
3 veterinary facilities and AAHP facilities;

4 (b) Responsibilities and limitations for registered responsible parties,
5 veterinarian managers, and AAHP managers. This shall include an
6 administrative regulation governing interference or control by unlicensed
7 persons in the practice of veterinary medicine or veterinary technology, or
8 by persons who do not hold a board credential. Both registered responsible
9 parties and veterinarian managers shall be responsible for a registered
10 veterinary facility's operation and management, and both registered
11 responsible parties and AAHP managers shall be responsible for a

17 other factors.

18 (2) (a) All existing veterinary facilities and AAHP facilities, both fixed and mobile,
19 shall be registered with the board not later than June 30, 2025.

20 (b) The board shall charge a minimum fee of two hundred dollars (\$200) per
21 initial registration.

22 (c) For initial registrations filed with the board by June 30, 2025, the initial
23 registration fee shall be reduced by half to one hundred dollars (\$100).

24 (d) After initial registration, the board shall not charge more for a facility
25 registration renewal fee than the cost to run the registration program.

26 (3) (a) After June 30, 2025, all new facilities shall submit a completed application
27 for registration to the board, including fees as promulgated by the board in

1 administrative regulation.

2 (b) A new veterinary facility or AAHP facility shall not begin operation in the
3 Commonwealth until the completed application and fee have been accepted
4 by the board and notification in writing has been sent to the applicant.

5 (c) After the registration deadline in 2025, each new registered facility may be
6 inspected by the board to verify that the facility is an operational veterinary
7 facility or AAHP facility within the first one hundred twenty (120) days of
8 operation.

9 (4) A mobile facility that is affiliated with a registered veterinary facility or AAHP
10 facility shall be exempted from the requirement to register independently if a
11 currently registered fixed facility identifies that unit as its affiliate. The board
12 may charge additional registration fees to a registered veterinary facility or
13 AAHP facility based upon the number of registered mobile units associated with
14 a single facility registration through the promulgation of an administrative
15 regulation in accordance with KRS Chapter 13A.

16 (5) Each application to register a veterinary facility or an AAHP facility shall meet
17 the minimum requirements established by this chapter and the board in an
18 administrative regulation promulgated in accordance with KRS Chapter 13A and
19 identify the following persons responsible for its operation and management:

3 facility.

4 (b) The AAHP manager and the registered responsible party are responsible for
5 notifying the board of any change in the allied animal health professional's
6 or registered responsible party's association with the AAHP facility.

7 (8) An application for registration renewal shall be completed and submitted to the
8 board periodically after the initial registration deadline in 2025, in accordance
9 with Section 9 of this Act and as set forth in administrative regulations
10 promulgated in accordance with KRS Chapter 13A.

11 (9) The board may conduct voluntary inspections in accordance with the following:

12 (a) Veterinary facilities and AAHP facilities shall be provided an option to
13 conduct a self-inspection at the facility and may consult with the board or
14 request a board inspection to ensure the facility is meeting minimum
15 standards, as established in administrative regulations promulgated in
16 accordance with KRS Chapter 13A;

17 (b) The board may charge a fee for in person consultations and inspections as
18 established in administrative regulation promulgated in accordance with
19 KRS Chapter 13A;

20 (c) Voluntary consultations or inspections by the board shall not trigger a
21 notice to comply or a notice of violation for deficiencies. Nothing in this
22 paragraph shall be construed to limit the board from filing a grievance
23 based upon a significant violation impacting public health, safety, and
24 welfare, and animal health;

25 (d) Each registered facility that passes a voluntary, in-person inspection by the
26 board shall receive a certificate of inspection from the board for display in
27 the registered facility;

1 (e) Inspections of mobile units shall not extend into a registrant's private

6 (10) The board may revoke, suspend, or take other disciplinary action deemed
7 appropriate against the registrant, including ordering closure of the veterinary
8 facility or AAHP facility, in accordance with Sections 25 and 26 of this Act on
9 any of the following grounds:

10 (a) The board or its agents are denied access to conduct an inspection or
11 investigation;

12 (b) The holder of a registration does not pay all prescribed fees or monetary
13 penalties;

14 (c) There is no veterinarian manager or AAHP manager identified within the
15 timeframes set by this chapter;

16 (d) Registered responsible parties are interfering with, exercising control over,
17 or attempting to influence the professional judgment of a credential holder
18 in any manner;

19 (e) Failure to comply with minimum standards defined in administrative
20 regulation by the board for the veterinary facility or AAHP facility; or

21 (f) Failure to comply with any provision of this chapter or administrative
22 regulations promulgated under this chapter.

26 ➔SECTION 9. A NEW SECTION OF KRS CHAPTER 321 IS CREATED TO
27 READ AS FOLLOWS:

1 (1) Each veterinary facility and allied animal health professional facility registered
2 with the board shall submit a completed renewal application by the renewal
3 deadline and pay a biennial renewal fee for the renewal of the registration.

4 (2) A veterinary facility or AAHP facility with an expired registration may have its
5 registration reinstated upon submission of a completed reinstatement application
6 and payment of a reinstatement fee to the board.

7 (3) A suspended veterinary facility registration or AAHP facility registration is
8 subject to expiration and termination and shall be renewed as provided in this
9 chapter. Renewal or reinstatement shall not entitle the registrant to allow the
10 practice of veterinary medicine or AAHP practice on the premises or from the
11 mobile facility until the suspension has ended or is otherwise removed by the
12 board and the right to operate or practice is restored by the board.

13 (4) A revoked registration is subject to expiration or termination but may not be
14 renewed. If it is reinstated, the credential holder shall pay the reinstatement fee to
15 the board.

16 (5) A veterinary facility or AAHP facility that fails to reinstate its registration within
17 five (5) years after its expiration or termination shall not have it renewed,
18 restored, reissued, or reinstated. A veterinary facility or AAHP facility may apply
19 for and obtain a new registration by meeting the requirements of this chapter.

20 (6) The board may require that a veterinary facility or AAHP facility applying for
21 renewal or reinstatement of registration show evidence of completion of
22 continuing education by the veterinarian manager, AAHP manager, or registered
23 responsible party as prescribed by administrative regulation promulgated by the
24 board.

5 *the medical record to make a decision.*

6 (3) The veterinarian shall maintain records ~~that~~^{which} document patient visits,
7 diagnosis, treatment, and other relevant information, *as required by Section 4 of*
8 *this Act.*

25 (c) A veterinarian who releases information under paragraph (b) of this
26 subsection shall not be liable to any person, including the client, for an action
27 resulting from the disclosure.

1 (d) The privilege provided by this subsection is waived by the client or the owner
2 of an animal treated by the veterinarian to the extent the client or owner places

13 KRS Chapter 230, or any other state or federal law applicable to the
14 regulation of horse racing in the Commonwealth.

15 ~~(5)(4)~~ Veterinarians providing copies of records under this section may charge no
16 more than the actual cost of copying, including reasonable staff time.

17 (6) A licensed veterinarian who in good faith engages in the practice of veterinary

22 (7) A VCPR shall not be established solely by telehealth means. In the absence of a
23 VCPR, any advice provided through telehealth shall be general and not specific
24 to a patient, diagnosis, or treatment. Veterinary telemedicine shall only be

5 described in Section 25 of this Act.

6 (5) Nothing in this chapter shall be construed to prevent members of other
7 professions from performing functions for which they are credentialed by the
8 board and that is within their defined scope of practice. However, these persons

27 (8) Unless exempted by Section 14 of this Act, persons engaging in the practice of
