10 insufficient to meet the customer's heating needs, the customer may arrange to
11 have a temporary emergency supplier fill, refill, or otherwise deliver LPG into the
12 LPG tank under the following conditions:

13 (a) The customer makes a good-faith effort to procure delivery of LPG from the
14 regular supplier;

15 (b) The regular supplier is unable to make a scheduled delivery or fulfill the

4 temporary emergency supplier or the customer's regular supplier shall not charge
5 any penalty or fee in addition to any filling, refilling, or delivery fees that are
6 usually charged to other customers in the ordinary course of business.

7 (5) The temporary emergency supplier shall assume all liability from the improper
8 filling, inspection, or testing of the LPG tank owned by the regular supplier.

9 (6) (a) Any contract executed after the effective date of this Act for the supply of
