

**Local Government Mandate Statement
Kentucky Legislative Research Commission
2018 Regular Session**

Part I: Measure Information

Bill Request #: 1245

Bill #: HB 388 GA

Document ID #: 6464

Bill Subject/Title: AN ACT relating to the Kentucky Workers' Compensation Funding Commission.

Sponsor: Representative James A. Tipton

Unit of Government: City County Urban-County
Unified Local
 Charter County Consolidated Local Government

Office(s) Impacted: any that pay premiums for workers' compensation insurance coverage

Requirement: Mandatory Optional

Effect on

Powers & Duties: Modifies Existing Adds New Eliminates Existing

Part II: Bill Provisions and the Estimated Fiscal Impact Relating to Local Government

HB 388 GA would amend several sections of KRS Chapter 342, Kentucky's statutory scheme for compensating workers for work-related injury or injurious exposure, to capture in special fund premium assessments all costs of workers' compensation insurance coverage, including for self-insured employers.

Section 1 of the bill would amend KRS 342.001 to establish that, for policies issued after January 1, 2019 that include a deductible, the special fund premium assessment would be calculated by the "deductible program adjustment" method, defined as "a method of calculating premiums and premiums received on a gross basis for any schedule rating modifications, debits, or credits as if the deductible contract is not being used to calculate coverage." This provision is intended as guidance on, and transparency of, the premium assessment base for deductible policies. **Section 2** of the bill would require, beginning January 1, 2020 all premium assessments, including those payable by self-insured employers and state and political subdivision (including city and county government) employers, be remitted to the funding commission electronically by the 30th day following the end of each quarter. **Section 4** would

amend KRS 342.1223(2)(b) to delete the term “nondividend-paying” from the description of equity securities. **Section 5** would amend KRS 342.1231 to reduce the time period within which the funding commission may mail a notice of assessment to an assessment payer (insurance company) from 7 to 5 years, after which time the assessment would be barred. **Section 5** would require an insurance carrier pay a refund owed an insured within 60 days of notice by the funding commission that the refund is owed. If the refund is unpaid on the due date a 1.5% late penalty shall be owed by the insurance carrier.

HB 388 GA is not expected to increase workers’ compensation insurance premium costs for local governments, particularly if they obtain workers’ compensation coverage through the Kentucky League of Cities or Kentucky Employers Mutual Insurance (KEMI). It could have some, unquantified, impact on premium prices for local governments that obtain their workers’ compensation insurance from another source. The electronic submission of assessment payments would have no to minimal fiscal impact on local governments. There could be a positive fiscal impact from savings in postal costs, and ease of electronic payment could reduce penalties and interest assessments due because of late payment of premium assessments. Some local governments currently submit payments electronically and those that don’t would have only minimal costs to be trained in the e-submission process.

Part III: Differences to Local Government Mandate Statement from Prior Versions

The local mandate statement for HB 388 GA is the same as the statement for HB 388 HCS 1. The House adopted the HCS and did not adopt any additional amendments.

HB 388 HCS 1 does not change the fiscal impact on local governments or local mandate analysis of HB 388 as introduced.
