PURPOSE OF MEASURE: The purpose of the measure is to require school districts to conduct student mental health assessments.

FISCAL EXPLANATION: HB 434 appropriates \$4 million each fiscal year to assist school districts with the cost of conducting mental health assessments. Any future impact would be dependent on funds appropriated by the General Assembly.

This analysis does not consider the impact to local school districts, which are outside the purview of this fiscal note. If funds appropriated are not sufficient to fully cover the costs to provide mental health assessments, school districts would have to absorb the additional costs.
