February 22, 2021

Ms. Katie Carney  
Office of Fiscal Statement Review  
Legislative Research Commission  
Capitol Annex, Room 104  
Frankfort, KY 40601

**RE: House Bill 8 (2021 RS BR 424) – GA Version**  
**AA Statement Required by KRS 6.350**  
**AA Statement 1 of 1**

Dear Ms. Carney:

Kentucky Retirement Systems' (KRS) actuary, GRS Retirement Consulting, had previously provided an Actuarial Analysis of House Bill 8 (2021 RS BR 424) via letter dated December 23, 2020. GRS has now examined the GA Version of House Bill 8 (2021 RS BR 424).

Our actuaries have determined that the GA Version of House Bill 8 (2021 RS BR 424) would not impact the previous actuarial impact provided for this legislation. Therefore, the Actuarial Analysis of House Bill 8 (2021 RS BR 424), dated December 23, 2021, is applicable to House Bill 8 (2021 RS BR 424) – GA Version.

We have not requested any further actuarial analysis of House Bill 8 (2021 RS BR 424) – GA Version by the Systems' independent actuary. Please let me know if you have any questions regarding our analysis of House Bill 8 (2021 RS BR 424) – GA Version.

Sincerely,

A handwritten signature in black ink that reads "David Eager".

David L. Eager  
Executive Director  
Kentucky Retirement Systems

## Actuarial Analysis Summary – BR 424 (Fixed Allocation for KERS NH)

---

**BR or Bill Ref.** BR 424/ HB 8  
AA Statement 1 of 1

**Date:** December 23, 2020

**Actuary:** GRS

**Actuarial Analysis Conducted For:**

☒ KERS NH ☐ KERS Haz ☐ SPRS ☐ TRS  
☐ CERS NH ☐ CERS Haz ☐ LRP ☐ JRP

### Section I: Executive Summary

---

In the opinion of the actuary, this bill would make the affected state-administered retirement system(s) actuarially:

☒ **MORE SOUND** ☐ **LESS SOUND** ☐ **NO IMPACT**

If actuarially **MORE SOUND OR LESS SOUND**, please summarize the factors leading to the actuary's opinion:

**The change to the method of allocating the contribution requirement among employers would have no fiscal impact to the Retirement System as a whole; however, we believe this legislation will significantly reduce the System's risk of receiving insufficient contributions because employers will no longer be able to reduce their pension cost by reducing their covered payroll. In summary, we believe this legislation will result in an improved and sustainable funding policy for the KERS Non-Hazardous System.**

Does this bill increase or decrease employer costs? ☒ **INCREASE** ☒ **DECREASE**

☐ **NO IMPACT** Does this bill increase or decrease benefits? ☐ **INCREASE** ☐ **DECREASE** ☒ **NO IMPACT**

Does this bill increase or decrease benefit participation? ☒ **INCREASE** ☐ **DECREASE** ☐ **NO IMPACT**

If the bill impacts employer costs, benefits, or benefit participation, please explain and estimate the impact in Sections II and VI.

**Note: This legislation will not change the aggregate contributions collected by the retirement system. However, this legislation will increase the contribution requirement for some employers and decrease the contribution requirement for other employers. Please refer to the information in the appendix to identify the fiscal impact on individual employers in the System.**

### Section III: Brief Summary of Bill

---

Beginning with the 2021/2022 fiscal year, the proposed legislation would change the method for allocating the contribution requirement related to the amortization of the unfunded actuarial accrued liability among employers in the KERS Non-Hazardous System. Currently employers contribute a percentage of their covered payroll. The proposed legislation would allocate a dollar contribution amount that is based on the percentage of the System's total actuarial accrued liability (calculated as of the June 30, 2019 valuation) that is attributable to each employer's current and former employees. Employers would continue contributing a normal cost as a percentage of their employees' covered payroll.

---

### Section IV: Statement of Assumptions and Methods

Did the analysis rely solely upon the same assumptions & methods previously established and utilized by the actuary in the retirement system's most recent actuarial valuation?

☒ YES ☐ NO

If **NO**, please describe each new assumption or method utilized, the basis for selecting the revised assumption or method, and whether each new assumption or method increased or decreased projected employer costs:

**Not Applicable.**

---

### Section V: Comment from Actuary

The change to the method of allocating the contribution requirement among employers would have no fiscal impact to the Retirement System as a whole; however, we believe this legislation will significantly reduce the System's risk of receiving insufficient contributions because employers will no longer be able to reduce their pension cost by reducing their covered payroll. In summary, we believe this legislation will result in an improved and sustainable funding policy for the KERS Non-Hazardous System.

---

### Section VI: Detailed Actuarial Analysis and Projections (May be attached as Appendix)

Please see attached.

December 23, 2020

Mr. David Eager  
Executive  
Director

Kentucky Retirement  
Systems 1260 Louisville  
Road  
Frankfort, KY 40601

**Re: Actuarial Analysis of Proposed Legislation BR 424 and its Financial Impact on the Kentucky Employees Retirement Non-Hazardous System**

Dear Mr. Eager:

We have reviewed the proposed legislation BR 424 and the purpose of this letter is to communicate the actuarial analysis of this proposed legislation on the KERS Non-Hazardous System.

### **Provisions of Proposed Legislation**

Beginning with the 2021/2022 fiscal year, the proposed legislation would change the method for allocating the contribution requirement related to the amortization of the unfunded actuarial accrued liability among employers in the KERS Non-Hazardous System. Currently employers contribute a percentage of their covered payroll. The proposed legislation would allocate a dollar contribution amount that is based on the percentage of the System's total actuarial accrued liability (calculated as of the June 30, 2019 valuation) that is attributable to each employer's current and former employees. Employers would continue contributing a normal cost as a percentage of their employees' covered payroll.

### **Summary of Cost Impact**

This proposed legislation would have no fiscal impact to the Retirement System as a whole; **however, we believe this legislation will significantly reduce the System's risk of receiving insufficient contributions because employers will no longer be able to reduce their pension cost by reducing their covered payroll. In summary, we believe this legislation will result in an improved and sustainable funding policy for the KERS Non-Hazardous System.**

Mr. David Eager  
December 23,  
2020

### Cost Impact on Individual Employers

While the proposed legislation does not change the employer contributions expected to be paid to the System in total, the proposed legislation modifies the method for allocating the total contribution requirement to the participating employers in the System from being based on covered payroll to being based on the employer's share of the System's actuarial accrued liability. As a result, each participating employer's contribution requirement could increase or decrease.

Below is a table summarizing the expected magnitude of the change in the contribution requirement by employer type.

**Table 1. Comparison of Contribution Effort for FY 2021/2022  
under Current and Proposed Funding Method  
(\$ in Millions)**

Agency Type	Projected FY 21/22 Payroll	Effective Contribution Rate		Estimated Required Contribution	
		Current	Proposed	Current	Proposed
(1)	(2)	(3)	(4)	(5)	(6)
Health Departments	\$83.9	85.03%	93.17%	\$71.3	\$78.1
Non-P1 State Assoc./Corp.	28.3	85.03%	52.75%	24.0	14.9
Non-P1 State Agencies	10.7	85.03%	29.36%	9.1	3.1
Reg Mental Health Units	80.1	85.03%	88.44%	68.1	70.9
Universities	88.8	85.03%	76.92%	75.5	68.3
County Attorneys	8.6	85.03%	69.49%	7.3	5.9
Legislative Branch	21.4	85.03%	97.22%	18.2	20.8
Judicial Branch	60.3	85.03%	52.38%	51.3	31.6
Executive Branch	<u>1,005.7</u>	<u>85.03%</u>	<u>88.13%</u>	<u>855.1</u>	<u>886.3</u>
<b>Total for all employers*</b>	<b>\$1,387.8</b>	<b>85.03%</b>	<b>85.03%</b>	<b>\$1,180.0</b>	<b>\$1,180.0</b>

\*Total may not add due to rounding

Please refer to Exhibits 1. and 2. for the expected fiscal impact of the proposed legislation on each agency that is currently participating in the System.

While there is no fiscal impact on the Retirement System as a whole, 30-year projections of the liability and contribution requirements of the pension and insurance funds have been provided in Section 3 for completeness.

Mr. David Eager

December 23,

2020

**Comments regarding the Proposed Legislation**

Currently KRS collects contributions from participating employers based on the employer's total payroll of employees who are earning benefits in KERS (i.e. covered payroll). The actuarially determined contribution rate is comprised of two components: (1) the normal cost rate (to pay for the benefits accruing in the next year) and (2) the unfunded amortization (to pay for the benefits accrued by members in previous years). The unfunded amortization is calculated by first determining the dollar amount necessary to pay for the unfunded liability based on KRS's funding policy and then by dividing that dollar amount by expected covered payroll to convert that contribution requirement to a percentage of payroll (i.e. a contribution rate). Based on the June 30, 2020 actuarial valuation, the contribution rate for the KERS Non-Hazardous System beginning July 1, 2021 will be 85.03% of pay (pension and insurance) which is comprised of a 10.10% normal cost rate and a 74.93% amortization cost rate.

Under the current funding methodology, an employer can decrease their pension cost by \$850.30 for every \$1,000 reduction in their reported payroll to the System. Consequently, it is not surprising to see many participating employers performing deliberate workforce actions to reduce their payroll reported to the System (e.g. through use of technology improvements or contractors and outsourcing agencies) in order to reduce their pension cost. The reported payroll and active membership in the KERS Non-Hazardous System has decreased from \$1.732 billion in payroll and 46.6 thousand active members in 2011 to \$1.388 billion in payroll and 31.7 thousand active members in 2020. This is a 20% decrease in covered payroll and a 32% reduction in active membership over the last nine years. This decrease in the covered payroll requires subsequent increases in the contribution rate (as a percentage of covered payroll) in order to maintain the same contribution dollars to the System.

Under the proposed legislation, employers would continue contributing a normal cost rate (currently 10.10% of pay) times the payroll of their employees earning benefits in KERS plus an allocated portion of the System's annual amortization cost. The amortization cost will be based on the percentage of the System's total actuarial accrued liability (calculated as of the June 30, 2019 valuation) that is attributable to each employer's current and former employees who earned a benefit in the System. Since the amortization cost is no longer tied to employer payroll, the System would be expected to receive the entire contribution requirement regardless of employer workforce actions to reduce covered payroll. Also, since an employer's allocated portion of the amortization cost is fixed as a percentage of the System's total amortization cost, an employer can increase their payroll without seeing large increases in their pension contributions. In other words, the employers pension cost would increase by \$101.00 for every \$1,000 increase in covered payroll (versus the current \$850.30).

**Based on historic employer behavior and the current contribution rates, we believe employers will continue reducing their covered payroll in future years if the current method for collecting contributions on covered payroll remains unchanged, which will result in contribution rates continuing to increase in future years, thereby further increasing employers' incentive to reduce**

Mr. David Eager  
December 23,  
2020

**covered payroll. Maintaining the current method poses a significant risk to the KERS Non-Hazardous System of receiving insufficient contributions. This proposed legislation is expected to significantly reduce this risk by reducing employers' ability to control their pension contribution requirement through covered payroll reduction. In summary, we believe the proposed legislation will result in a more sustainable funding outlook compared to the current payroll-based contribution method.**

In general, the dollar amount of the employer's amortization cost will increase or decrease from year-to-year, depending the System's liability and investment experience, but is expected to remain relatively level during the duration of the funding period for the unfunded liability as of June 30, 2019, which is 29 years as of July 1, 2020. For certain employers (e.g. health departments and mental health centers that receive general fund appropriations), the proposed legislation would only allow the amortization cost to be adjusted upon the completion of an actuarial investigation and only every four years.

The basis for determining each employer's required amortization cost is a policy decision, but it is relatively easy to reason that this allocation method is fair because the contributions from each employer are more directly linked to the liability attributable to their current and former employees. **However, the change in allocation method will result in a number of employers experiencing a significant increase or decrease in their pension contribution requirement at July 1, 2021. This could be a significant fiscal budgeting problem for those employers experiencing an increase in pension cost.** Please refer to Exhibit 2. for a list of the expected changes in the contribution requirements for individual employers.

### **Basis of Calculations**

GRS based the calculations and analysis in this letter on the member and financial data provided by KRS for use in performing the actuarial valuation as of June 30, 2019 and June 30, 2020. The projections assume no actuarial gains or losses will occur in the future, and that members will terminate, retire, become disabled, or die as anticipated by the actuarial assumptions used to perform the June 30, 2020 actuarial valuation. The analysis and projections were performed without regard to HB 1 that was enacted during the 2019 special legislative session (and amended by SB 249 passed during the 2020 legislative session) as individual employer elections regarding their future cessation from participating in KERS is unknown at this time.

Our calculations are based upon assumptions regarding future events, which may or may not materialize. Depending on actual plan experience, actual results could deviate significantly from our projections.

Mr. David Eager

Notes and Assumptions

<sup>1</sup> Actual normal cost contributions will be based on an employer's actual salary for the fiscal year 2021/2022 multiplied by 10.10%.

<sup>2</sup> Required contribution as a percentage of pay shown for illustrative purposes only. Actual required contributions will be equal to 10.10% of an employer's actual payroll for fiscal year 2021/2022 plus the amortization cost shown in column (7).

<sup>3</sup> Agency names and classification information has been provided to GRS by KRS. We have reviewed this data for consistency but did not audit the data. At KRS request, the \$7,237,775 actuarial accrued liability attributable to Little Sandy District Health (#3043) was reallocated evenly to Carter County Health Department (#3088) and Gateway District Health Department (#3036). GRS is not responsible for the accuracy or completeness of the information provided to us by KRS.

Notes and Assumptions

<sup>1</sup> Agency names and classification information has been provided to GRS by KRS. We have reviewed this data for consistency but did not audit the data. At KRS request, the \$7,237,775 actuarial accrued liability attributable to Little Sandy District Health (#3043) was reallocated evenly to Carter County Health Department (#3088) and Gateway District Health Department (#3036). GRS is not responsible for the accuracy or completeness of the information provided to us by KRS.

<sup>2</sup> Required contribution as a percentage of pay shown for illustrative purposes only. Actual required contributions will be equal to 10.10% of an employer's actual payroll for fiscal year 2021/2022 plus the amortization cost shown in column (7) on Exhibit (1).

Notes and assumptions:

The projection is based on the results of the June 30, 2020 actuarial valuation and assumes that all actuarial assumptions are realized, including the assumed annual asset return of 5.25%.

New active members are assumed to be hired to replace the current active members as they are assumed to terminate employment or retire. The total active population is assumed to decrease 2% each year for each of the next 30 years.

The contribution rate established in the Commonwealth's biennium budget is assumed to be equal to the full actuarially determined contribution rate.

The 2020 legislative session did not set the employer contribution rates for FYE 2022. Employer contribution rates for FYE 2022 are assumed to be based on the June 30, 2020 actuarial valuation.

The 66.51% employer contribution rate for FYE 2021 is the effective contribution rate after reflecting HB 352 (passed during the 2020 legislative session) which allowed Regional Mental Health/Mental Retardation Boards, Local and District Health Departments, State Universities, Community Colleges and any other agency eligible to voluntarily cease participating in KERS to contribute 41.06% of pay to the pension fund for FY 2021. Collectively these entities reflect approximately 21% of the covered payroll in the System.

Notes and assumptions:

The projection is based on the results of the June 30, 2020 actuarial valuation and assumes that all actuarial assumptions are realized, including the assumed annual asset return of 6.25%.

New active members are assumed to be hired to replace the current active members as they are assumed to terminate employment or retire. The total active population is assumed to decrease 2% each year for each of the next 30 years.

The contribution rate established in the Commonwealth's biennium budget is assumed to be equal to the full actuarially determined contribution rate.

The 2020 legislative session did not set the employer contribution rates for FYE 2022. Employer contribution rates for FYE 2022 are assumed to be based on the June 30, 2020 actuarial valuation.

The 10.57% employer contribution rate for FYE 2021 is the effective contribution rate after reflecting HB 352 (passed during the 2020 legislative session) which allowed

Regional Mental Health/Mental Retardation Boards, Local and District Health Departments, State Universities, Community Colleges and any other agency eligible to voluntarily cease participating in KERS to contribute 8.41% of pay to the insurance fund for FY 2021. Collectively these entities reflect approximately 21% of the covered payroll in the System.
