Local Government Mandate Statement Kentucky Legislative Research Commission 2022 Regular Session

Part I: Measure Information

Bill Request #: 174						
Bill #: HB 154 GA						
Document ID #: 4682						
Bill Subject/Title: AN ACT relating to driving under the influence and declaring an emergency.						
Sponsor: Representative Patrick Flannery						
Unit of Government: City X County Unified Local X Consolidated Local X Government						
Office(s) Impacted: Law enforcement, county attorneys						
Requirement: X Mandatory Optional						
Effect on Powers & Duties: X Modifies Existing Adds New Eliminates Existing						

Part II: Bill Provisions and the Estimated Fiscal Impact Relating to Local Government

HB 154 GA **Section 1** would amend KRS 189A.085 to make it optional with the court, rather than mandatory as currently provided, whether to impound the license plates for all vehicles owned by a person who has been convicted of driving under the influence (DUI). If the court does so order, the bill would require the plates be surrendered within 45 days. If the person fails to surrender the plates by the deadline, the court may order the sheriff or other peace officer to seize the plates and deliver them to the court.

HB 154 GA Section 2 would amend KRS 189A.103 to provide that, instead of performing a breath test to determine intoxication per the manufacturer's instructions, the test may be performed in accordance with instructions adopted by the Department of Criminal Justice Training and approved by the manufacturer.

HB 154 GA Section 4 would amend KRS 189A.105 to remove the requirement that a death or serious injury result from an incident of driving under the influence of drugs or alcohol

(DUI) in order for a judge to issue a search warrant or other order for a defendant's blood or urine for testing. However, if the incident did result in a fatality, then the officer shall request a warrant for a blood test, and not for a breath or urine test.

HB 154 GA **Section 6** would amend KRS 189A.110 to establish that a person arrested for DUI whose **breath** analysis, rather than a **blood** alcohol test as under current law, shows an alcohol concentration of .15 percent or more shall be retained in custody for at least four hours following their arrest.

HB 154 GA **Section 7** declares an emergency and that the Act takes effect upon its passage and approval by the Governor, or upon it's otherwise becoming law.

The fiscal impact of HB 154 GA on local law enforcement or county attorney offices would be nil to minimal. According to the Kentucky County Attorneys Association the statutory amendments in HB 154 GA would have no fiscal impact on their offices, and would not increase the number of cases handled or staffing required. KCAA reports that the provisions of the bill would render their prosecution of DUI cases more effective since they could get search warrants on a showing of probable cause, without the requirement of a fatality or serious injury. It is possible that more effective prosecution of DUIs could result in an increase in the number of persons jailed, but any increase would be minimal.

KRS 189A.085 already requires persons convicted of DUI in certain situations to surrender their license plates. According to the office of the Franklin County Circuit and District Court Clerks the majority of defendants comply with the requirement to surrender their license plates. Enforcing court orders and seizing property of those who don't comply is a regular duty of sheriff's offices and would have little or no additional fiscal impact on law enforcement.

If the Department of Criminal Justice adopts new instructions for performing a breath test to determine intoxication local law enforcement personnel may need training in those new instructions. The cost of such training is unknown but, unless instructions are radically different from current instructions, training likely could be included in already-required peace officer training with little or no additional cost.

Part III: Differences to Local Government Mandate Statement from Prior Versions

Part II applies to of HB 154 GA. The fiscal impact of HB 154 GA is unchanged from that of HB 154 HCS 1. HB 154 GA includes HFA 1, which was adopted and made no substantive change to the bill as it relates to fiscal impact and this local mandate. The only change to HB 154 GA is:

HB 154 GA requires that the Justice and Public Safety Cabinet keep available for public inspection and provide a copy, without charge, of the instrument manufacturer's breath test instructions, or breath test instructions adopted by the Department of Criminal Justice Training and approved by the manufacturer.

The fiscal impact of HB 154 HCS 1 was less than that of HB 154 as introduced. HB 154 HCS 1 made the following changes to HB 154 as introduced:

- 1. HCS 1 deleted provisions of HB 154 that removed consequences for a DUI defendant who refuses to submit to a blood test for drugs or alcohol.
- 2. HCS 1 added a requirement that law enforcement seize vehicle license plates of a person convicted of DUI and ordered to surrender their license plates, if law enforcement is ordered by a court to do so;
- 3. HCS 1 added a provision authorizing the Department of Criminal Justice Training to adopt instructions for performing a breath test in DUI cases.
