CORRECTIONS IMPACT STATEMENT

SESSION: 22RS BILL # SB 220 Introduced BR # 1771 DOC ID #: xxxx

BILL SPONSOR(S): Sen. R. Alvarado AMENDMENT SPONSOR(S): ...

TITLE: AN ACT relating to county jails.

SUMMARY OF LEGISLATION: Amend KRS 441.265 to add that the requirement for a prisoner to reimburse the county for jail fees is to start from the prisoner's booking date; require a county jail to clear a prisoner of any outstanding expenses and to reimburse any expenses already paid if the prisoner's case does not result in a conviction; allow the Department of Corrections to annually adjust the maximum per diem for room and board based on the Consumer Price Index; allow jails to automatically deduct 100% of an initial deposit and 50% of subsequent deposits in a prisoner's account for owed jail fees.

AMENDMENT: .

This \boxtimes bill \square amendment \square committee substitute is expected to:

\boxtimes Have the following Corrections impact \square Have no Corrections impact

□Creates new crime(s)	□Repeals existing crime(s)
□Increases penalty for existing crime(s)	Decreases penalty for existing crime(s)
□Increases incarceration	Decreases incarceration
Reduces inmate/offender services	□Increases inmate/offender services
□Increases staff time or positions	□Reduces staff time or positions
□Changes elements of offense for existing crime(s)	
Otherwise impacts incarceration (Explain) jail oper	ations.

STATE IMPACT: Class A, B, & C felonies are based on an average daily prison rate of \$97.60. Community Custody Class C and most Class D felons are housed in one of seventy-four (74) full service or regional jails for up to five (5) years. Department of Corrections' cost to incarcerate a felony inmate in a jail is \$35.43 per day, which includes \$31.34 per diem, medical costs, & central office administrative costs (substance abuse treatment not included).*

Projected Impact: INONE INTIMAL to MODERATE (< \$1 million) INTIGNIFICANT (> \$1 million)

LOCAL IMPACT: Local governments are responsible for the cost of incarcerating individuals charged with Class A or B misdemeanors and felony defendants until disposition of the case. The estimated impact will be based on the \$35.43 cost to incarcerate for the Department of Corrections, including \$31.34 per diem and medical that DOC pays jails to house felony offenders. This cost to incarcerate may not be the actual housing cost for the jail.*

SB 220 establishes that a county prisoner shall reimburse the county for expenses incurred for the individual's confinement from the prisoner's booking date, removing current statute wording requiring the sentencing court to order the collection of jail fees. The fiscal impact to the local jails for this measure is unknown.

This matter follows a ruling by the Kentucky Supreme Court in 2021 which determined that only the sentencing court can order the payment of incarceration fees. Therefore, any fees collected from a prisoner must be returned if there is no conviction, as there would be no order from the sentencing court.

Jails may collect imposed fees from detainees both at the time of being booked into a detention center or by withholding money that is placed on the prisoner's jail account for expenses incurred over the duration of the prisoner's incarceration. KRS 441.265(2) outlines the fees that jails may impose.

The legislation establishes under KRS 441.265(1)(b) that jails must return any collected fees and clear any outstanding expenses incurred if the charges do not result in a conviction. Amounts owed for prior confinements or reimbursement for property damaged or injury caused while confined are exceptions.

Under KRS 441.265(2)(a)(2.), a formula is established to adjust annually the maximum per diem that prisoners may be required to pay for room and board.

Under KRS 441.265(6), jails deduct money from a prisoner's property or canteen account to cover incarceration expenses. New language is added to the statute, allowing up to 100% of a detainee's initial deposit to be deducted for fees from a prior detainment or those expenses caused by damage or injury. Fifty percent (50%) is retained from subsequent deposits for other expenses incurred by the prisoner's confinement.

It is unknown how much of a fiscal impact this legislation would have for counties and local detention centers. It is unknown how many individuals who have jail fees ultimately do not receive a conviction. It is also unknown to what extent jails are able collect the imposed fees, which now is reduced under the Court's ruling by the number who are not convicted.

PROJECTED IMPACT FROM AMENDMENTS:

□ NONE □ MINIMAL to MODERATE (< \$1 million) □ SIGNIFICANT (> \$1 million)

*All projections are based on the daily rate x 365 days x number of years. The cost to incarcerate as calculated by the Department is shown here as rounded to the hundredths. Offenders may have multiple offenses or be incarcerated on other charges unless otherwise noted. Unless otherwise noted, numbers will include inchoate offenses at the underlying offense level.
