REVENUES			
EXPENDITURES	Indeterminable	Indeterminable	Indeterminable
NET EFFECT	(Indeterminable)	(Indeterminable)	(Indeterminable)

() indicates a decrease/negative

PURPOSE OF MEASURE: The measure transfers the authority to make the conservation easement acquisitions required under 2022 Regular Session Senate Bill 217 from the Finance and Administration Cabinet (FAC) to the Department of Fish and Wildlife Resources (DFWR). It provides carryforward authority for previously appropriated General Fund moneys for the Kentucky Cumberland Forest Conservation Program. It adds the DFWR to the definition of a procuring agency, removes any provision of KRS Chapter 45A that requires the approval of any FAC official for any aspect of the procurement process, and requires the Auditor of Public Accounts to examine policies and procedures. It establishes an engineering and engineering related services selection committee and outlines procurement procedures for engineering related services to the Department of Fish and Wildlife Resources. It gives the Kentucky Fish and Wildlife Commission approval authority over the DFWR contracts.

FISCAL EXPLANATION: The DFWR has stated they will need to procure outside legal counsel who has real property acquisition experience for the conservation easement acquisitions. The estimated cost of this procurement is unknown. The DFWR will also need to hire at least one additional procurement officer at an estimated \$105,000 annually for salary and fringe benefits.
