The bill becomes effective, in part, January 1, 2025.

Kentucky Public Pensions Authority (KPPA) staff members have examined House Bill 10 (2024 RS BR 442). We have determined that the bill will not increase or decrease benefits, nor will it increase or decrease the participation in benefits, in any of the retirement systems administered by the Kentucky Public Pensions Authority. House Bill 10 (2024 RS BR 442) will not change the actuarial accrued liability of any of the systems administered by KPPA.

In accordance with KRS 6.350 (2)(c), Kentucky Public Pensions Authority certifies the following:

1. The estimated number of individuals potentially affected as of June 30, 2023, are 421,609 active, inactive, and retired members in the plans administered by KPPA;
2. There is no estimated change in benefit payments;
3. Requiring health plans to include maternity coverage established by the Kentucky maternal psychiatry access program without cost sharing may lead to higher insurance premiums for the plans offered through KPPA, potentially increasing employer costs; and
4. There is no estimated change in administrative expenses.

We have not requested any further actuarial analysis of House Bill 10 (2024 RS BR 442) by the KPPA's independent actuary.

Please let me know if you have any questions regarding our analysis of House Bill 10 (2024 RS BR 442).

Sincerely,

David L. Eager, Executive Director
