**STATE IMPACT:** Class A, B, & C felonies are based on an average daily prison rate of \$122.84. Community Custody Class C and most Class D felons are housed in one of seventy-four (74) full-service or regional jails for up to five (5) years. Department of Corrections cost to incarcerate a felony inmate in jail is \$47.43 per day, which includes \$35.34 per diem, medical costs, and central office administrative costs (substance abuse treatment not included).\*

**Projected Impact:**  NONE  MINIMAL to MODERATE (< \$1 million)  SIGNIFICANT (> \$1 million)

The legislation would likely result in a minimal savings to operational costs at the state level by abolishing the death penalty.

Male inmates with a sentence of death are housed at the Kentucky State Penitentiary (KSP), which has an average annual cost to incarcerate of \$78,567.02 per inmate. Female inmates with a sentence of death are housed at the Kentucky Correctional Institution for Women at an annual cost of \$47,630.16.

There are currently twenty-five (25) inmates, 24 of whom are males, on death row in Kentucky. Abolishing the death penalty would cause these inmates to serve life without parole. Given that the state has conducted only three (3) executions since capital punishment was reinstated in the US in 1976, holding these offenders for life would not significantly impact incarceration.

**LOCAL IMPACT:** Local governments are responsible for the cost of incarcerating individuals charged with Class A or B misdemeanors and felony defendants until the disposition of the case. The estimated impact will be based on the \$47.43 cost to incarcerate for the Department of Corrections, including \$35.34 per diem and medical that DOC pays jails to house felony offenders. This cost to incarcerate may not be the actual housing cost for the jail.\*

**Projected Impact:**  NONE  MINIMAL to MODERATE (< \$1 million)  SIGNIFICANT (> \$1 million)

The legislation would likely result in a minimal savings to operational costs at the local level by abolishing the death penalty.

Costs for the use of law enforcement from local and state governments would be eliminated, as well as costs the state bears for legal appeals available to death row inmates.

**PROJECTED IMPACT FROM AMENDMENTS:**  NONE  MINIMAL to MODERATE (< \$1 million)  SIGNIFICANT (> \$1 million)

*\*All projections are based on the daily rate x 365 days x number of years. The cost to incarcerate as calculated by the Department is shown here as rounded to the hundredths. Offenders may have multiple offenses or be incarcerated on other charges unless otherwise noted. Unless otherwise noted, numbers will include inchoate offenses at the underlying offense level.*

NOTE: Consideration should be given to the cumulative impact of all bills that increase the felon population, lengthen the term of incarceration, or impose new obligations on state or local governments.
