REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: John K. Wood

(1) Provide a brief summary of:

(a) What this administrative regulation does:

KRS 311A.025 requires the board to promulgate administrative regulations relating to requirements and procedures for licensure, relicensure and reciprocity for paramedics. This administrative regulation establishes those requirements and procedures.

(b) The necessity of this administrative regulation:

KRS 311A.025 requires the board to promulgate administrative regulations relating to requirements and procedures for licensure, relicensure and reciprocity for paramedics. This administrative regulation is necessary to establish those requirements and procedures.

(c) How this administrative regulation conforms to the content of the authorizing statutes:

This administrative regulation conforms to the content of KRS 311A.025 by establishing the requirements and procedures for licensure, relicensure, and reciprocity for paramedics.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes:

KRS 311A.025 requires the board to promulgate administrative regulations relating to requirements and procedures for licensure, relicensure and reciprocity for paramedics. This administrative regulation assists in the effective administration of KRS 311A.025 by establishing those requirements and procedures.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

This amendment brings the requirements for paramedic licensure into conformity with the requirements of the National Registry of Emergency Medical Technicians (NREMT) by removing the minimum age requirement and certain education requirements. Applicants for Kentucky paramedic licensure are still required to successfully complete a board-approved training program and successfully complete all EMS-TEI training requirements, including the National Emergency Medical Services Educational Standards-Paramedic Instructional Guidelines and the educational standards established in 202 KAR 7:601. The requirement to undergo a pre-enrollment background check has been stricken from this amendment. However, background checks remain required for initial licensure as a paramedic. This amendment clarifies that only the National Component of the NREMT Continued Competency Program for Paramedic Continuing Education is required for licensure renewal and reinstatement. Finally, this amendment removes the requirement that proof of current NREMT certification and proof of certain training be provided when a paramedic downgrades his or her license to an Emergency Medical Responder, Emergency Medical Technician, or Advanced Emergency Medical Technician certification. Those provisions are unnecessary and redundant because an individual downgrading to an EMR, EMT, or AEMT certification would be required to maintain such proof pursuant to the EMR, EMT, and AEMT regulations: 202 KAR 7:201, 7:301, and 7:330, respectively.

(b) The necessity of the amendment to this administrative regulation:
