

12 KAR 1:125. Identification of seed not for sale.

RELATES TO: KRS 250.081(1)(c)4

STATUTORY AUTHORITY: KRS 250.081

NECESSITY, FUNCTION, AND CONFORMITY: KRS 250.081(1)(c)4 requires the director to indicate a means for identifying seed in storage or in or consigned to a seed cleaning or processing plant, but not offered for sale in locations where some, but not all, seed is for sale. This administrative regulation establishes the proper procedures for the identification of seed for sale.

Section 1. The procedures established in subsections (1) and (2) of this section shall be used if some, but not all, seed in or consigned to a seed cleaning or processing establishment is planned for distribution.

(1) All seed lots shall be maintained separately to prevent the accidental or mechanical mixing of different lots.

(2) All seed not intended for distribution shall be clearly identified with printed signs that indicate the owner or the specific intended use of the seed.

Section 2.

(1) All seed intended for distribution shall be plainly identified with a tag on each container or with a lot number stenciled or taped on each container.

(2) If the seed is in a box, frame, crib, wagon, or other enclosed space, that storage space shall be construed to be a container.
